

Gaines County Is Interested in Goodman Experiment

People of Gaines county are watching with interest the plans for a feeding experiment recently made public by Leon Goodman, and the following article is taken from the Seminole Sentinel of March 15:

The people of this county will watch with great interest the feeding demonstration that Leon Goodman, a cattleman of Midland, plans to put over the coming year.

Goodman, who is a graduate of Iowa State College, and having handled thousands of cattle in the Midland territory, proposes to feed out 5,000 head of steers the coming winter. This will perhaps be the greatest feeding trial that has ever been tried in Texas, but is only the beginning, for already men are beginning to see where our present practice of shipping the cattle to other points for some one else to feed and profit by is an unusual one. It has been said before that Gaines county was destined to become "the feed lot of Texas." This is not an idle saying, for does not this county have a great supply of corn which is the principal fattening feed grown? Why isn't this corn worth more to put into cat-

tle and hogs rather than shipping it to other feeding points? Is it possible to make, gather, and haul corn to market, sell it and get pay for your work much less pay interest, taxes, and notes even on cheap land? But corn is our main crop, and it must pay if we stay in the country, pay for the land, and improve the homes. How is this to be done? For the average farmer it perhaps can best be done by putting it through the dairy cow in the form of a ration that is at least half ground corn.

The good dairy cow backed up with enough hogs and chickens to take care of all the skim milk is most certain to pay you for your trouble, and in a few years, she, together with the hogs and chickens, will replace that shack with a nice home.

A dairy cow will never be able to take care of the ordinary corn crop of this county. Feeding cattle and hogs to a finished condition is another way of getting a higher price for corn. This is a little different from feeding the dairy cow, for here you deal with a fluctuating market and it requires an eye for future marketing as well as for feeding.

Buying of the feeders, cheap grains, and price of finished animals are factors that must be taken into consideration when fattening stuff for the markets. Every feeder does not make money every year, but our conditions make it possible to feed at a profit when feeders in other sections will lose money. This is shown by the figures kept by J. W. Childers in feeding out 104 head of hogs this winter. His figures show that he realized 60c a bushel for his corn despite the fact that he bought his feeders on a ten cent market and sold on a seven cent market.

Nickell & Armstrong broke even on two cars of hogs under the same market conditions. This may not be the greatest hog country in the world, but don't you think that under normal conditions that hogs and cattle or a combination of the two will return a greater profit than selling corn as feed? The men who have tried it think so and intend to stay in the game.

Two Tests Spudded in Eastern N. M.

Carlsbad, N. M., March 20.—Spudding of two new Marland tests in Lea county features Eddy-Lea activities. These are Marland-Seidman No. 1, section 4-25-36, and Marland-Roberts No. 1, section 20-23-35, both in direct line from Winkler area thru Marland-Eaves No. 1, and on to the Maljamar pool. Marland-Seidman is drilling with the first electrical unit used in this area, by W. C. Ray, contractor, and the operations will be watched especially because of the equipment used.

Marland-Eaves No. 1, section 19-26-37, Lea county, is drilling in salt at 1,980 feet.

Midwest-State No. 1, section 9-19-38, Lea county, is drilling below 2,700 in anhydrite, with a report of gas showing.

Bordages-Hughes No. 1, section 27-19-38, Lea county, still is fishing for tools thrown up in the hole when gas was struck a week or so ago. Part of them have been recovered.

Gates & Holman, section 7-21-38, Eddy county, is drilling at 1,385. Some gas with water was found at 1,365. This is being watched as closure of the Getty structure, 17 miles

east of Carlsbad, is a 140-barrel well and other wells got production at about 1,350.

Getty-Dooley's No. 3, section 20-24-29, nearing pay, is redrilling the bottom of the hole.

Inglefield-Bridges, section 4-17-34, Lea county, which bridged after a shot a week ago and made 147 barrels when the bridge cleared and hole was swabbed, is to be shot again with 600 quarts. The total depth is 5,329 feet.

Wholesale House Number 17 Is Here

Midland's seventeenth wholesale house is being located, the Abilene Plumbing Supply Company being the new firm.

J. T. Godsey, one of the owners of the business, will be the Midland manager, and the surrounding territory will be covered from this house.

Temporary warehouse will be in the building adjoining Smith and Stevens grocery, but the business plans to erect its own building.

Oregon Man Commends Broadway

El Paso, March 22.—William A. Reid, executive secretary of the Corvallis Chamber of Commerce, Corvallis, Oregon, in El Paso today highly indorsed the Broadway of America, the All Year National Highway, running across the continent from Broadway, New York to Broadway, San Diego.

"This great highway is making the way for the thousands of eastern people who really want to go to the West and Southwest" Mr. Reid said. "Since it is the only snow-free highway across the continent open all the year round, it will enjoy splendid patronage," Reid said.

"The North Pacific coast states have heard of this great project and we are very vitally interested in it. Your road will connect in San Diego and Los Angeles with the great Redwood Highway through California and the Roosevelt Coast Highway into Oregon and Washington. This road also leads into British Columbia."

"The Electric Power Industry Belongs to the American People"

says The Portland Oregonian

"* * * By means of public regulation, the people have harnessed these big units and made them serve the public. Even more, the people by hundreds of thousands have bought stocks and bonds of power companies, and have gained comprehension of the working of public regulation and have spread their knowledge. The new attitude of the public toward public utilities is a symptom of the return to sanity and common sense that has followed the outburst of radical frenzy."

TODAY the mechanical forces of the world are aligned on the side of humanity. Not only have these forces become democratized themselves, through the public ownership of their securities, but they themselves are an accessory of democracy. Science and skill have replaced politics in the regulation of business.

By making possible shorter hours, better wages, more self-respecting conditions of labor, and less drudgery in the home, electricity is enlarging the participation of the masses in the economic good things of life. Everyone does more, has more, enjoys more, hence the ever-increasing demand for electrical service.

Through the far-sighted planning of the

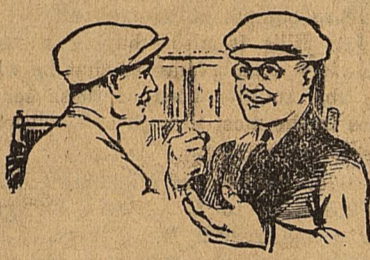

electric power industry, this demand has found an adequate supply of electricity ready at all times. Today America produces more electric power than the rest of the world—and at a steadily decreasing cost to the consumer.

The foundations have been laid for the electrification of the country on a scale so comprehensive that eventually no one need be without the advantages of a full list of electrical benefits.

In following this program, a new and better United States is being created. It is made possible by unhampered adherence to the principle of individual initiative. Only to the degree that this principle is preserved and perpetuated can the public look for the continued extension of its best interests.

BUDGET BUREAU WOULD CUT BOLLWORM FUND

BUCHANAN BILL SEEKS FIVE MILLION FOR TEXAS AID

That the bureau of the budget seeks to cut in half the fund of \$5,000,000 asked for by P. Buchanan of Austin in a bill introduced to congress is evidenced by the following article in Tuesday's Dallas News, by Mark L. Goodwin, Washington correspondent:

Washington, March 19.—The joint resolution by Representative P. Buchanan of the Austin district authorizing an appropriation of \$5,000,000 for compensation to farmers of Texas in the fight against the pink bollworm was returned to the house agricultural committee with recommendations of the bureau of the budget that only half of that be authorized. The plain implication of the bureau was that the remainder of the compensation be paid by the state of Texas.

Representative Buchanan announced that he would seek a hearing from the house agricultural committee and urge that the full \$5,000,000 be authorized to be appropriated against as funds are needed. It is intended to have the first appropriation of \$2,500,000 in the first deficiency appropriation bill which will come before congress in May.

None of the federal money would be available unless the state established and enforced a non-cotton zone which the federal authorities insist should be this year. Recommendations of the Texas pink bollworm commission before the members of congress is that the federal government appropriate 75 per cent or more of the compensation money or more, and that the government assume the entire burden when it is found that funds can not be furnished by the states.

"The recommendations of the Texas commission state my views," said Mr. Buchanan. "I will insist that the government authorize the full \$5,000,000 to be appropriated against as we need the money."

Confusion Reported
In the meantime, farmers in some sections of the infested zone in West Texas are opposing anything but a regulated zone, and insist that the situation can be handled. Cotton planting is going forward in some of the counties. An arbitrary estimate of damage of \$10 an acre where cotton has already been planted, is being regarded as generally excessive.

Texas farmers appear in some confusion over what the basis of compensation will be. Some have the idea that the farmers in a non-cotton zone would not be permitted to plant anything. Such is not the case. Credit would be given for such substitute crops as are produced, and against that is balanced the loss due to no cotton.

Telegrams came to Representative Hudspeth protesting against establishment of a non-cotton zone and insisting that eradication would be accomplished by a regulated zone, and saying it would require \$5,000,000 for Howard and Dawson counties alone. In supporting the Buchanan resolution last week, Mr. Hudspeth did not advocate establishment of a non-cotton zone, but insisted that if

it were established the farmers should be paid for their damage.

In a telegram to Governor Moody Monday, Representative Hudspeth said that non-cotton zones would work considerable hardship on farmers of that section of Texas who rely altogether or largely so on production of cotton. Action on the non-cotton zones rests entirely with the state pink bollworm commission and not in Washington.

Jardine for Zoning
The letter of Secretary of Agriculture Jardine to Chairman Haugen of the house agricultural committee stresses the value of non-cotton zones and against regulated zones for complete eradication.

"Hitherto, establishment of non-cotton zones in Texas and other states has been on the basis of the joint resolution of congress in 1921," says Secretary Jardine's letter in part, "which provides for state payment of farmers losses, with federal reimbursement of the state of not to exceed one-third of the amount so expended, and with a limitation of \$5 per acre. The new western area, while not greater than areas already cleaned up in southeastern Texas and in Louisiana, nevertheless involves a very much greater acreage planted to cotton, and, therefore a non-cotton zone would entail costs to the farmers and the state very much greater than any hitherto considered.

"As to possible cost, there were planted to cotton in those counties in 1927 some 367,000 acres. The loss to farmers concerned by reason of the necessity of growing crops less profitable can not be definitely determined in advance of the crop year. An estimate of such loss of \$10 per acre has been made by county and experiment station agents for the districts concerned, based upon a maximum average per acre yield of lint of about 125 pounds. Such yield depends largely on rainfall and, therefore, is subject to considerable variation. There would be in addition the costs occasioned by the necessity of reimbursing farmers for land planted to cotton prior to the promulgation of the non-cotton zone and which latter would have to be plowed up for planting if possible to other crops. If all of the cotton lands had to be thus plowed up, it would represent, with the per acre imbursement, a total cost of upwards of \$5,000,000, but it is believed that \$5,000,000 can be made to cover the full cost of the establishment of a non-cotton zone.

"The great advantage of the eradication plan is that it is necessarily of short duration—one or two years—and, although it involves for that period big concerted effort and large costs, the objective is well worth while."

Bg Spring to Go on Motorcade

Big Spring, March 22.—Col. Alvin Owsley, former national commander of the American Legion and candidate for United States Senator from Texas, highly indorsed the Broadway of America, the All Year National Highway, speaking before the West Texas Druggist convention here.

"The Broadway of America will mean a great deal in the future development of the great state of Texas," Owsley said. "I favor a more general and more liberal use of federal funds in the development of

hard-surfaced roads." C. T. Watson, manager of the Big Spring Chamber of Commerce announces that the Chamber of Commerce will pay the expenses of one car in the Broadway of America motorcade to the Memphis convention April 20. "At least four men from Big Spring will make the trip in this car," Watson said.

Big Spring is making plans to care for the increased tourist business that the highway will bring to the city, it was said. With the completion of the Crawford hotel, Big Spring will be able with its splendid camp facilities to care for an increasing number of tourists.

R. L. Knight Died Near Lovington

The whole community was shocked and grieved when the news was brought in telling of the sudden death at Lubbock Friday evening of R. L. Knight.

Mr. Knight lived just over the New Mexico state line in Texas, but he had large interests in this county and was regarded almost as a Lea county citizen. His ranch extended for several miles into this county and he was well and favorably known to most of our people.

Mr. Knight's death was very sudden and unexpected. He was in Lovington Monday and appeared in the best of health and spirits. He had gone to Lubbock on business connected with the oil development in his section when he was suddenly stricken down. The funeral services were held at Roswell Tuesday and was attended by a host of friends from all parts of the country. Just previous to his death Mr. Knight had made arrangements for two oil tests on his property—one in this county and one in Yoakum county. Whether his sudden death will stop these two tests or not, we have been unable to learn. A good man and a useful citizen.

Subscription price in Midland, Martin, Howard, Andrews, Ector, Upton, Reagan and Glasscock Counties \$2.50 per year. Other localities \$3 per year.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may occur in the columns of The Reporter will be gladly corrected upon being brought to the attention of the firm.

SIDEWALKS NEEDED

Not a day passes but that someone is heard to comment on the need of sidewalks in Midland. Now that houses have been numbered, the building of sidewalks would practically assure Midland's chances at free city mail delivery.

Some organized effort will probably have to be made before all sections of the city are connected with concrete walks, and the best method would be for property owners in each block to take the lead and agree to "tie up" with walks.

CITATION BY PUBLICATION

The State of Texas, County of Midland. To the Sheriff, for any Constable of Midland county—Greeting: You are hereby commanded to summon The Midland Town Company, a defunct corporation, and the unknown stockholders of said defunct corporation, if living, and if not, their heirs and legal representatives; and Asa Leard; B. F. Kagay, and Mrs. B. F. Kagay; J. W. Quinn; Lizzie Quinn; J. T. Quinn and wife, Mabel Oxshua Quinn; Mabel C. Quinn, and Mabel O. Quinn, Mabel Oxsheer Quinn; N. B. Brown, and wife, Georgia Etta Brown; N. B. Brown and wife, Harriett Brown; C. M. Breckon, and wife, Mrs. C. M. Breckon; Charles M. Breckon, and wife, Rebecca Breckon; Nat B. Read, and wife, Jennie Read; N. B. Read; Napoleon Brown, and wife, Mrs. Napoleon Brown; J. C. Beauchamp; O. A. Willingham; L. C. Robinson, and wife, M. A. Robinson; J. S. Curtis, and wife, Mrs. J. S. Curtis; J. Cal Fuller, and wife, Laura Fuller; E. M. Tisdale, and wife, Lola Tisdale; M. C. Ulmer, Trustee for the said Nat B. Read, if they are living, and if they, or any of them are deceased, then the unknown heirs, executors, administrators and legal representatives of each and every one of such as are deceased, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a news-

paper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Midland County, to be holden at the Court House thereof, in Midland on the third Monday in April, A. D. 1928, the same being the 16th day of April, A. D. 1928, then and there to answer a petition filed in the docket of said Court No. 2079, wherein T. Paul Barron is Plaintiff, and Midland Town Company, a defunct corporation, and the unknown stockholders of said defunct corporation, if living, and if not, their heirs and legal representatives; and Asa Leard; B. F. Kagay, and Mrs. B. F. Kagay; J. W. Quinn; Lizzie Quinn; J. T. Quinn, and wife, Mabel Oxshua Quinn; Mabel C. Quinn; Mabel O. Quinn, and wife, Georgia Etta Brown; N. B. Brown, and wife, Harriett Brown; C. M. Breckon, and wife, Mrs. C. M. Breckon; Charles M. Breckon, and wife, Rebecca Breckon; Nat B. Read, and wife, Jennie Read; N. B. Read; Napoleon Brown, and wife, Mrs. Napoleon Brown; J. C. Beauchamp; O. A. Willingham; L. C. Robinson, and wife, M. A. Robinson; J. S. Curtis, and wife, Mrs. J. S. Curtis; J. Cal Fuller, and wife, Laura Fuller; E. M. Tisdale, and wife, Lola Tisdale; M. C. Ulmer, Trustee for the said Nat B. Read, if they are living, and if they or any of them are deceased, then the unknown heirs, executors, administrators, and legal representatives of each and every one of such as are deceased, are defendants, and a brief statement of plaintiff's cause of action, being as follows:

That heretofore, to-wit, March 15, 1928, the plaintiff was lawfully seized and possessed of the following described lands and premises situated in Midland County, Texas, holding and claiming the same in fee simple: All of the West One-half of the Northeast One-fourth of the Southeast One-fourth of Section 26, in Block 39, Township 1-South, Certificate No. 3132, of the Texas & Pacific Railway Company Surveys land situated in Midland County, Texas; that thereafter, to-wit, on the 16th day of March, 1928, the defendants unlawfully entered upon said premises and ejected plaintiff therefrom, and unlawfully withholds from him the possession thereof, to his damage in the sum of Two Thousand Dollars.

Plaintiff further alleges that the reasonable annual rental value of said land and premises is Five Hundred Dollars.

Plaintiff further alleges that if the defendants, or either of them, ever had any right or title to said property, or right of title to said property, that the same is long since barred by the three years statute of limitation, in that the plaintiff and those under whom he claims, has had and held peaceable, continuous and adverse possession under title from and under the State of Texas of the lands and tenements above described, for more than three years next preceding the filing of this suit.

Plaintiff further alleges that if the defendants, or either of them, ever had any right of title to said property, the same has long since become barred by the five years statute of limitation, in that plaintiff and those under whom he claims, has held the same under deeds duly registered, and has had peaceable, continuous and adverse possession of said land, cultivating the same, and paying all taxes due thereon, for a period of more than five years next preceding the filing of this suit.

Plaintiff further alleges that if the defendants, or either of them, ever had any right of title to said property, the same has long since become barred by the ten years statute of limitation, because he says that he, and those under whom he claims, now has, and has had peaceable and adverse possession by actual enclosure of the land and tenements above described, cultivating, using and enjoying the same, and the fruits thereof, for a period of ten years next preceding the filing of this suit.

That although the claim of the defendants is inferior to plaintiff's right and title, the same casts a cloud upon his title, and disturbs him in his peaceable use and enjoyment of said property.

Wherefore, premises considered, plaintiff prays that Citation issue to said defendants, and to appear and make answers hereto, and that upon a hearing hereof, plaintiff have judgment against said defendants for the title and possession of said property, and that the cloud cast upon plaintiff's title by virtue of the claim of the defendants, or either of them, be removed, and that a writ of restitution issue to plaintiff, for costs of suit, and for relief, general and special, legal and equitable.

This action is brought as well to try title as for damages. Herein fail not, but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Midland, Texas, on this 16th day of March, A. D. 1928.

Issued this 16th day of March, A. D. 1928.
J. M. SHELBURNE, Clerk, District Court, Midland County, Texas.
By VIRGIE RINGO, Deputy.

City Officials Ask Cooperation in Inforcement of Ordinances

TRAFFIC AND SANITARY LAWS MEETING WITH DISREGARD ON PART OF PUBLIC. CITY WANTS TO BE FAIR BUT MUST HAVE CO-OPERATION OF CITIZENS

City officers ask that Midland people lend their whole-hearted co-operation in the enforcement of the traffic and sanitary laws. A campaign is now being waged to make traffic as orderly as possible, and a marked improvement has been noticed. However, there are still some careless violators.

In sanitary and clean up measures, there is even more disregard for law, and the officers earnestly seek the co-operation of every Midland citizen in promoting the health and beauty of the city.

The officers want to be fair, but must have the co-operation of the citizens or else make it hard for violators.

The city feels that there must be some lack of understanding about "traffic and sanitary regulations" in the city, and as a matter of information, the following is being printed:

The city has ordinances governing "traffic and sanitation," and means to enforce them. Regardless of how long you have been here or where you come from, you will be expected to obey the city laws. Most of the regulations here are similar to those of other towns and cities and practically all of us are more or less familiar with them, so it seems that we are either very forgetful or we don't care. As we know, the laws of the city are passed for our welfare and protection, hence it behooves us to make an effort to obey them whether we try to get some one else to or not.

Among the complaints coming to the court for traffic violations, the following are the most numerous (a) "Double parking" and "parking in the street." There are times during the day when it is nearly impossible to get through some of the main streets of the city because of cars parked or stopped just outside of the parking spaces or in the center of the street. The streets are too narrow to accommodate this kind of parking and it must be stopped. No parking (outside of the lines that are painted on the streets) or any kind will be allowed on the streets for any other purpose than avoiding accidents. Don't park or stop your car outside of the white lines.

(b) "Parking against 'No Park Signs' and Fire Hydrants." Watch intersections, and fire hydrants.

(c) "Parking across lines." The lines are on the streets for the purpose of uniformity and conserving space and it is essential that you obey this part of the ordinance as well as the signs at corners, alley and street the other regulations.

(d) Left and "U" turns. No left turn will be allowed at Wall and Main streets. No "U" turn at Missouri and Main, Texas and Main, and Wall and Loraine will be allowed.

(e) Getting in the way of fire apparatus is inexcusable. Anybody knows better and offenders are liable to have to pay dearly. Please, for the sake of protection to yourself and your neighbor do not be guilty of delaying the fire fighting apparatus and thereby causing loss of property and maybe a life.

(f) Parking on the paved streets and on Wall street from Baird to Colorado street between the hours of 1 o'clock and 5 o'clock a. m. The city recently passed an ordinance prohibiting the above in order that the streets can be properly swept and don't let someone tell you that it is all right to leave your car overnight for you may have to pay rather dearly for the space.

Sanitary

We are glad that everybody is busy

but we regret to see any one become so busy that he can't keep his place of business, or his premises clean. There are too many complaints on the above and the city is going to see to it that you take a little more pains to keep the streets and alleys, and your place of business in a more sanitary condition and more sightly. Please observe the following:

(a) "Garbage cans and containers for trash" must be provided at once, and must be of such construction that no garbage or trash of any nature will spill or blow out. "Water-tight galvanized iron cans with lids" in sizes of 15 to 30 gallon capacity can be gotten and must be provided for garbage, or any kind of refuse that might draw flies. Wooden or metal containers that will not permit the escape of paper or other loose material must be provided and the waste put in them. Ask the sanitary inspector or the man who hauls the trash and garbage away what kind of container is required for such. Complaints are coming in on the above and the occupant of any building where the premises are not properly kept will be required to clean up same.

(b) Place your cans or containers in alleys. Or if not accessible to alley, in a place where the hauler can easily find same and remove it. This is very essential. Besides saving time, it makes it nearer possible for the man to get every thing.

(c) Don't deposit any dead carcass or any part of one in the city. Any putrid or unsound meat or refuse is unhealthful and is a nuisance, and when left where it offends some one can cause disease and much trouble for the offender.

The foregoing are some of the things that are being disregarded most and it is essential that the city have regulations governing the same and unless the regulations are enforced they are useless. Therefore, let this be a warning to you to make a greater effort to obey the laws of the city. You can help to get the things done by doing them yourself. Set the example and watch your neighbor fall in line.

Your co-operation will be helpful and the city will be grateful for every effort you put forth towards making the town cleaner and safer.

CARD OF THANKS

We wish to thank our many Midland friends for their help and sympathy during the illness and at the death of our father, S. C. Lewis.

Mrs. George Leach,
Mrs. B. F. Blanton,
Jack Lewis.

Mr. and Mrs. D. Burns of Lamesa visited Mr. and Mrs. Ralph Bucy of this city yesterday.

Mr. and Mrs. H. H. Watson left for a trip to Roswell, N. M., today. Mrs. L. E. Douglas of Odessa spent a couple of days in Midland this week. Mrs. Douglas was formerly Miss Tommie Preston.

Andrew Hagler of Stanton was in Midland yesterday.

Mr. and Mrs. Seth Campbell and children were in from Kermit yesterday.

Mrs. J. A. Currie of Chicago, Ill., is the guest of Mr. and Mrs. Robt. Currie this week.

Roy Self of Stanton was a business visitor to Midland yesterday.

Mr. and Mrs. Guy S. Bumgarner were up from Stanton yesterday visiting the Frank Orson family.

G. L. Warlick of Eunice, N. M., was a business visitor to Midland yesterday.

Mary Hobbs returned from a trip to Abilene and Fort Worth where she visited relatives and friends.

Miss Dora Wall has been confined to her bed this week with the flu.

Jack Holmsley is home from an extended trip to California.

Mrs. Pence Wadley made a business trip to Dallas this week.

Miss Helen Manning was confined to her home for a few days on account of illness.

T. R. Wilson was over from Odessa yesterday transacting business and visiting.

Young Bell, cattleman and oil operator of Pecos, was in Midland Wednesday transacting business. Mr. Bell says he believes Midland will make a city and will not have the slumps and back sets that sometimes follow oil development. Pecos is coming to the front too, Mr. Bell states, with prospects for a big hotel and paved streets.

Messrs. A. Wadley and T. R. Wilson made a business trip to Pecos Monday.

Mrs. F. E. Rankin of Rankin was in Midland the first part of the week.

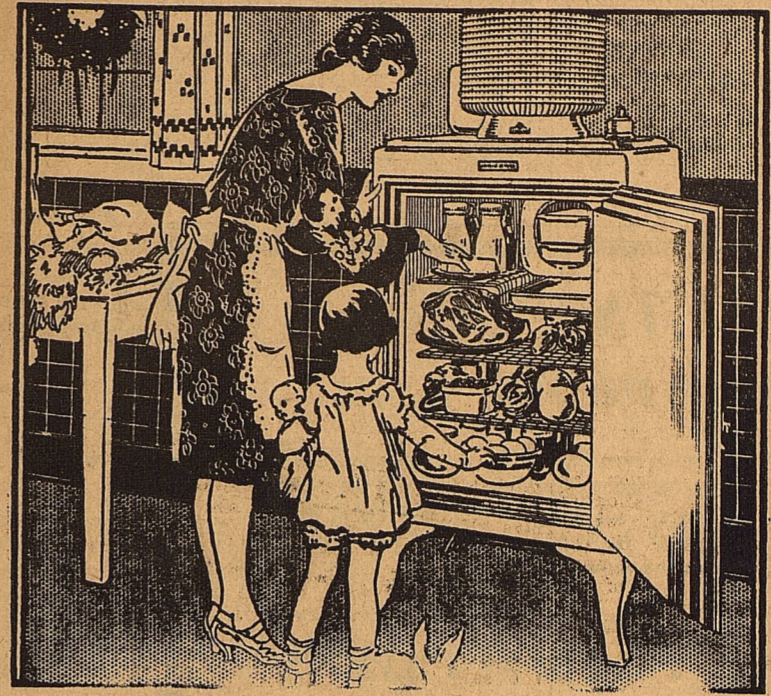

Mrs. Lonnie Vaughn is able to be at her position with Wadley-Wilson Company again after her recent illness.

Mrs. Bertha Kenney and daughter Louise, returned from a business trip to Dallas.

Bill Smith returned from a visit with his parents at Dallas the first of the week. Mr. Smith is connected with the Midland Hardware Co.

Mrs. Fred Lundie is quite ill at her home on south side this week.

It is a good investment!

GENERAL ELECTRIC Refrigerator

When a refrigerator contributes to the health and comfort of the whole family for years to come . . . when a refrigerator cuts the tasks and the costs of housekeeping . . . then it proves itself a thoroughly sound investment.

The General Electric Refrigerator consumes very little current because all the heat generated rises above the cabinet, not through it. And because its

efficient motor is unusually small.

Its roominess makes fewer trips to market possible. All foods are preserved in healthful freshness, because the temperature never rises above the 50 degree danger point. Food wastage is absolutely done away with.

Come in today and see the many models yourself. Study them carefully. And send for a descriptive booklet. Time payments can be arranged, if you wish.

E. W. Cowden Test Is Spraying Oil

Kermit, March 20.—The east flank of the Hendrick pool is apparently proving up as predicted by geologists and geophysical machines.

The south central part of the Hendrick pool has been extended almost a mile east by the Independent Oil and Gas Company's No. 1 McCabe in

the southwest corner of the north-west quarter of section 36, block B-5. This well is spraying about 35 barrels of oil and is being drilled deeper from 2,698, making it the shallowest producer in Winkler county. The McCabe test is on land owned by E. W. Cowden of Midland.

"Save It With Insurance"
CHAN C. MASON

Better Dairy Cattle Becoming a Necessity

College Station, March 21.—"With the production costs of dairy products increasing yearly it is imperative that the dairy farmer develop a more efficient animal," J. A. Clutter, dairy specialist of the A. & M. college of Texas, said in recent article on selecting profitable dairy animals. Mr. Clutter pointed out that the average United States dairy cow produces twice as much per year as the Texas cow, and that the average Texas cow is unprofitable.

"High producing dairy cows are profitable, and high production is attained to a large extent by careful selection and mating. The ability to secrete large amounts of milk and fat is an inherited characteristic and while feeding and care should be kept in mind at all times, no great improvement can be made in the quality of Texas animals until a careful breeding program is planned. The first step in carrying out this plan is to select foundation animals of the herd.

"The bull is more than half the herd. If he is line-bred his hereditary characteristics should be dominant when he is mated to pure bred cows.

The four major points to be kept in mind in selecting a hard sire are prepotency, pedigree, breed type, and health.

"The only accurate method of determining the excellence of a cow is to weigh and test the milk for an entire vacation period. This may be done privately, the owner may become member of cow testing association, or he may put his cows on official test if they are pure bred."

Ponts Given on Lawn Beautification

College Station, March 21.—The most permanent and satisfying results for well-planned home grounds are those obtained with a lawn as foundation, according to Miss Altee Smith, extension service specialist, A. & M. college of Texas. Miss Smith also points out that trees make a frame for the house and give shade, and shrubs and flowers round off the corners and give an air of naturalness to the setting.

Bright colors may be supplied during the dull season by annual flowering plants used among the permanent material. Interplantings of annuals is also helpful in filling in bare spaces in newly set shrubbery beds. Flowers present most pleasing appearance when planted along the borders of shrubbery, or walks, or in separate flower gardens. The low ones should be planted toward the front of the bed, with the tall ones in the back, and in nooks and corners.

Bulbs, such as jonquils, daffodils, hyacinths and narcissus give earliest bloom. These can be followed with stocks, nasturtiums, larkspur, poppies, hollyhocks, daisies, and straw flowers. Zinnias, petunias, periwinkles and vines are drought-resisting and best for mid-summer bloom. For fall and early winter bloom, cosmos, marigolds, and chrysanthemums can be used.

Wild flower gardens are lovely, and some of the varieties that can be grown in home gardens are Indian pinks, Queen Anne's lace, blue sage, sweet William, wild verbena, fox glove, sun flowers, black-eyed Susan, and horse mint.

Legion Active in Five Texas Cities

San Antonio, March 19.—Five Texas posts of the American Legion have just received from national headquarters citations for distinguished work in community service. Department Commander Walton D. Hood announced here today.

The posts winning this honor are Travis Post No. 76 at Austin; Elijah T. Allen Post No. 327 at Brady; Bernay Camp Post No. 140 at Longview; Graham D. Luhn Post No. 39 at Taylor, and Three Rivers Post No. 413 at Three Rivers.

The Austin post was cited, Commander Hood stated, for furnishing lumber, hardware supplies, books and other supplies amounting to \$2,400 for replacing a school building at Cox Springs which was destroyed by fire.

Elijah T. Allen Post, Brady, was active, the citation read in securing a new city hall, conducted a clean-up campaign, sponsored a Boy Scout troop and secured a war trophy for the public plaza.

The legion organization at Longview has been active in all public welfare work in the city, put on a free public barbecue for 7,000 people on Armistice Day, assisted the Chamber of Commerce in taking the city census and obtained a German field piece for the city park, according to the citation.

The post at Taylor collected books for the public library, assisted in securing natural gas for the city, furnished entertainment for the schools and presented a machine gun to the city in memory of deceased soldiers of the community.

The Three Rivers post organized and maintains a volunteer fire department and raised funds for a county hospital.

Commander Hood stated, in announcing the citations, which come from the legion's national Americanism commission, that community service such as has been rendered by the five posts cited is one of the major objectives of the legion. He urged posts all over the state to devote themselves to this work, stressing its importance in the peace-time life of the nation.

MOTHERS

Watch for symptoms of worms in your children. These parasites are the great destroyers of child life. If you have reason to think your child has worms, act quickly. Give the little one a dose or two of White's Cream Vermifuge. Worms cannot exist where this time-tried and successful remedy is used. It drives out the worms and restores the rosy hue of health to baby cheeks. Price 35c. sold by City Drug Store.

G. A. S MEET IN NOLAN HOME
The members of the G. A. organization met in the home of Miss Edna Nolan on Wednesday afternoon. Miss Imogene Cox and Mrs. Geo. F. Brown were visitors. Mrs. Geo. F. Brown led the mission study and the meeting was closed with an inspiration talk by Mrs. Carroll Hill, the sponsor.

During the social hour, Miss Nolan served peach salad, topped with whipped cream, wafers and hot chocolate. The following report was sent into state headquarters:

Number of meetings 6; membership 18; meeting apportionments—\$150 to home missions, \$3 to conquest campaign; special days of prayer observed—week of prayer for home missions; mission study class 2; personal service—17 magazines to prisoners; attendance 15.

TOLBERT HOME OPEN TO VISITORS
Mr. and Mrs. Allen Tolbert entertained with a dinner party honoring Mr. and Mrs. Lee Bell and Miss Eula Lee Bell of El Paso, at their home on Tuesday evening.

The table was beautiful and spring-like with lovely spring blossoms decorating the center and ferns sprayed to the corners. A delightful baked chicken dinner with all the delicacies were served to the following guests: Mr. and Mrs. Lee Bell and Miss Eula Lee Bell of El Paso; Mr. and Mrs. Marvin Ulmer, Miss Helen Margaret Ulmer, Mr. and Mrs. Paul Roundtree, Herbert Roundtree, Mr. and Mrs. Harry Tolbert and Mr. and Mrs. John Tolbert.

DELPHIAN CHAPTER WITH MRS. SINDORF
The members of the Delphian club met in the home of Mrs. Rae Sindorf yesterday for the regular lesson. The general theme was "Social Life Among the Conquerors of Aegean Lands." Mrs. Arrington gave

the resume and Mrs. R. T. Bay gave the preparatory discussion on Homeric Ideals of Conduct; Mrs. Geo. Ratliff talked on Government in Homeric Times; Mrs. H. B. Dunagan discussed An Army Encampment; Mrs. Chas. Klapproth talked on Funeral Games; Mrs. Frank Norwood talked on Achilles' Shield; Mrs. A. P. Baker The Gods of Greece; Mrs. S. J. Scow, Nature, Sons of Homer; Mrs. Ralph Barron, "Nature of Greek Mythology; Mrs. Rae Sindorf, The Value of Greek Mythology Today. The next meeting will be in the home of Mrs. Sam Preston.

J. U. G. CLUB WITH MISSES WHITMIRE
Misses Myrtle and Lenora Whitmire entertained the members of the J. U. G. club last evening with additional guests.

The reception rooms were beautiful with gay spring blossoms in bowls and vases. During the games delicious homemade candies were served to the guests.

At the close of the games Mrs. Van Camp won high score.

Delicious refreshments of fruit salad topped with whipped cream, saratoga flakes, sandwiches, cakes and hot chocolate were served to the following: Misses Elanor Connell, Lois Prothro, Bennie Marr, Theresa Klapproth, Nell Nolan, Velma Winborn, Latta Kelly, Lucille Petrey, Mrs. Chas. Klapproth, and Mrs. Van Camp.

HODGE-ABBOTT WEDDING IN SWEETWATER
S. J. Hodge and Miss Ara Abbott of Abilene were quietly married in Sweetwater on last Tuesday morning and came directly to Midland where Mr. Hodge will manage the Grand theatre for the H & H theatre circuit.

Mrs. Hodge is the daughter of Mr. and Mrs. J. A. Abbott of Abilene, and Mr. Hodge is the son of H. T. Hodge, general manager of the H & H theatre circuit.

W. M. S. TO MEET MONDAY AFTERNOON

The Baptist W. M. S. will meet Monday afternoon at 3 o'clock in the home of Mrs. C. M. Goldsmith, with the following program to be rendered: "Far Above Rubies"

Bible study, 1 Cor. 3:9-20, 2 Cor. 5:15—Mrs. Girdley.

Prayer for God's Blessing on This Meeting—Mrs. Geo. Brown.

Personal Service Talk—Mrs. J. M. White.

More Precious Than Acres of Rubies—Mrs. E. E. Stevens.

Rubies of Great Price—Mrs. E. R. Benedict.

Prayer That the Number of Faithful May Be Increased—Mrs. W. W. Wimberly.

Adorned With Rubies and Gems for His Crown—Mrs. Frank Norwood.

Prayer for the Salvation of Lost Around Us—Mrs. H. B. Dunagan.

The Key to God's Chest of Jewels and Using the Key—Mrs. Bob Scroggs.

Giving Our Rubies—Mrs. Harry Tolbert.

A Worthy Woman—Mrs. B. A. Wall.

Special Music—Mrs. Sandidge, Mrs. David M. Ellis, Mrs. Ligon; Mrs. Middleton, pianist.

Prayer That We May Have Abundance of Wisdom Which Will Make Us Worthy Women—Mrs. Spaulding.

CHURCH NIGHT WELL ATTENDED AT METHODIST

On Wednesday evening the regular church night program for the

Methodist church was held and a good crowd was in attendance and much enthusiasm registered. The main feature of this meeting was a discussion of "What Activities Should the Church School Engage". Mrs. Stacy Allen won the distinction of being the best speller for Bible names. A most interesting devotional closed the evening's meeting.

SCHOOL DISPLAYS CLASS SPIRIT

The different classes in high school are displaying class spirit by having picnics and feasts and parties.

Latin 9-A enjoyed a feast during the class period this morning, and passed a rule that no one could speak a word in English while they were attending this feast. Eve one spoke Latin "fluently" when asking for something to eat. This class is taught by Mrs. Bishop.

The entire 10th grade enjoyed a picnic about eight miles from town this afternoon, with Mr. Seary chaperoning.

Epworth League to Have Charge of Methodist Service

The evening service at the Methodist church Sunday will be in charge of the Epworth League, with a special program.

Miss Myrtle Whitmire, president, will be in charge of the program. Speakers will be Lewis Cole, W. Edward Lee, Miss Lillie Mae Norwood, and Ray Gwyn. The Methodist choir will assist with special music.

All are invited to come to this service which starts at 7:45. The regular league meeting will be held in the league room at 6:45.

LONG OIL TRAINS

Some of the longest trains ever run over the T. & P. road are seen passing through here daily now from the west. One train went through with 85 oil tank cars the other day, and many have been seen with even more cars. The big 600 locomotives are the largest in the world.

J. S. Edwards of Slaton was a business visitor to Midland Wednesday afternoon.

Z. V. Wesson returned this week from Austin where he has been visiting his father who lives in the Confederate Home.

Mesdames T. S. Haynie and J. H. Zimmerman of Stanton shopped in Midland Wednesday.

Mr. and Mrs. Ed Benedict are the proud parents of a fine son, the young man arriving Monday evening at 7:10 p. m., weighed seven pounds and has already been given the name of Edwin Allen. Both the mother and son are doing nicely.

Mrs. Claude Whatley and children were in from their place near Warfield Wednesday visiting and shopping.

Mesdames E. P. Woodard and L. Parks Jr. were visitors from Stanton Wednesday.

Mesdames Bob Preston and Dick Midkiff were in from their ranches south of town Wednesday.

J. L. Greenwood of Eunice, N. M., is in Midland this week visiting his brother-in-law, Frank Orson, who is seriously ill.

Mesdames Dayton Porter, Bill Burnett, and M. C. Pierce were among the visitors from Odessa this week.

Mr. and Mrs. Clyde Cowden and little son, Clyde Franklin, were in from the ranch northwest of Odessa this week for a few days.

Mrs. Bob Lucas of Odessa shopped in Midland Wednesday.

Misses Gladys and Jewell Midkiff, Eanette Waddell and Herd Midkiff returned from Ft. Worth Saturday night where they attended the Fat Stock Show.

J. W. France of Odessa was a business visitor to Midland Wednesday.

Jim Dublin was in from his ranch near Jal, N. M., this week.

Messrs. John Epley and Keno Davis of Stanton were business visitors to Midland Wednesday.

Miss Eunice Nolan was confined to her bed a few days this week with the flu.

Mrs. J. L. Hall and daughter, Miss Maxine were up from Stanton shopping yesterday.

Mrs. Zack Monroe and little daughter, Vernelle of Rankin visited Mrs. Monroe's mother, Mrs. D. T. Parr this week.

Harold Gore and father were here from Lubbock yesterday, they were also the guests of Mr. and Mrs. Ocie Yeager.

Mrs. Sam Kelton was in from the ranch yesterday.

Mr. and Mrs. Bob White made a business trip to San Angelo the first of the week.

Mesdames Henry Orr and Elvis Clements were among the visitors from Stanton this week.

Mrs. J. C. Stevenson of Stanton visited her daughter, Mrs. Burton Boone of this city yesterday.

Mesdames V. L. Bush and J. A. Tuttle and little daughter, Jessie Lynn were shoppers from Stanton Ocie Yeager this week.

Mr. and Mrs. J. W. Blocker and children were in from their place near the Courtney community yesterday.

Fletcher Currie and A. C. Caswell left Thursday for Abilene, Ft. Worth and Dallas visiting large hotels and seeking new ideas. They are to be clerks for the Hotel Scharbauer.

Mrs. Van Clarke and Miss Agatha Gore are the guests of Mr. and Mrs. Rankin were shoppers to Midland Monday.

Mesdames Violet Lowe and Farr of Stanton was a business visitor to Midland yesterday.

Mr. Jones is connected with the Southwestern Life Insurance Company.

ROTARIANS ENDORSE CLEAN UP CAMPAIGN

INSTRUCTIVE ADDRESS DELIVERED BY DR. W. E. RYAN

Rotarians whole-heartedly endorsed the work being done by the city of Midland toward promoting health, cleanliness and sanitation, and also endorsed the State Clean Up Week which continues from April 1 to 8 inclusive, a motion having been carried to that effect at the regular luncheon yesterday.

Dr. W. E. Ryan, city health officer and a member of the club, delivered an interesting and instructive address on the work which is being done by the city of Midland toward promoting health, sanitation and cleanliness.

He took up the various phases of city health work, including birth and death registration, care of the water supply, sewage disposal, control of communicable diseases, milk supply, swimming pool regulations, camp grounds inspection, and told of the problems confronting Midland in carrying out some of the duties.

It was following his talk that the club passed a motion endorsing both Midland's campaign for sanitation and the State Clean Up program in April.

John P. Howe, city alderman and Rotarian, added some valuable comment to Dr. Ryan's address, giving statistics on sewer and water connections in Midland. He mentioned the huge water supply which Midland will soon be using as a result of the bond election a few weeks ago.

Dave Craft, scout executive, made a report to the Rotary club on the drive for \$1,500 for Midland's participation in the Buffalo Trails Scout Council, and stated that there had been raised \$1,250 up to noon Thurs-

day, and prospects were bright for completing the work during the afternoon.

He stated also that three active troops of Boy Scouts are being organized, with scout masters studying their work, and that Midland would soon be coming to the front in boys' work.

Visiting Rotarians at the luncheon included Jerry Driscoll, brick manufacturer of El Paso, and O. B. Sellers of Fort Worth. Mr. Driscoll congratulated Midland upon the organization of a Rotary club. Mr. Sellers complimented Midland for its change in appearance during the last six months, mentioning its improved neat appearance as he approached the city from the west.

President Ily Pratt announced that the meeting for the delivery of the Rotary charter would be April 10, in the Hotel Scharbauer, and appointed a special committee on arrangements and entertainment, as there are to be many out of town guests for the occasion.

NEW OAKLAND ASSEMBLY TO OPEN APRIL 2

Pontiac, Mich., March 22—The new \$3,000,000 car assembly plant for the Oakland All-American Six will start production on April 2, it is announced by A. R. Glancy, president and general manager of the Oakland Motor Car Company.

The old assembly building was closed on March 24 to permit the transfer of a portion of the machinery to the new structure. A large proportion of the new plant equipment, however, is entirely new. Electrically-driven machine units with individual control are used throughout. The old building will be used for material storage.

With the completion of the new assembly building for the Oakland All-American Six, the company now has one of the most modern automobile factories in the world. Two model assembly plants, one devoted exclus-

ively to Oakland Six production and the other to Pontiac Six production, now lie parallel to each other. They are served by an "indoor railroad yard," nine of the ten tracks being under roof. Construction throughout both plants is of brick, steel and concrete and the monitor type roofs admit a maximum of daylight. A huge addition to the Oakland-Pontiac shipping building was erected at the same time the new assembly plant was being constructed.

K. J. Davis Selling Presidio Town Lots

K. J. Davis of Stanton was in Midland Wednesday, returning from Presidio, on the Mexican border, where he has been appointed as agent to sell town lots. He reports much activity in Presidio, and says it will grow steadily into the best town on the border.

Corrigan Buys McDermott Home

Hugh Corrigan has purchased the home of W. L. McDermott in Belvedere Court, the deal having been consummated Wednesday. Mr. Corrigan will get immediate possession.

PHONE BUILDING WORK IS STARTED

GROUND BROKEN WEDNESDAY FOR \$20,000 TERMINAL FOR MIDLAND

Ground was broken Wednesday for the new \$20,000 telephone building of the Alderman Telephone Company at the location on the corner of Missouri avenue and Big Spring street.

The Belfanz Construction Company of Abilene has the contract, and A. M. Johnson is superintending the work for them.

It is planned to have the building ready for use, housing the new equipment by August 1. Improvements and additions to the Midland telephone system will cost over \$100,000.

Loraine Street Lots Sold Wednesday

Jax M. Cowden sold his lots on North Loraine street Wednesday to R. M. Barron. The property comprises 100x140 feet at the northeast corner of the 500 block.

Messrs. C. Y. Baroh and T. J. Miles motored to Odessa on business today.

Caldwell Reports Progress in Survey

Joe M. Caldwell Jr., who is making a survey of the probable amount of gas to be consumed by Midland people for domestic and industrial purposes, for the West Texas Gas Company, reports much progress.

The survey is being made for the purpose of determining where gas mains are to be laid, it is stated, and most Midland people express pleasure at the opportunity of "ticking on" to a natural gas supply.

COMING TO BIG SPRING Dr. Mellenthin SPECIALIST

In Internal Medicine for the past fifteen years

DOES NOT OPERATE

Will be at

CRAWFORD HOTEL
WEDNESDAY, APRIL 4

Office Hours: 10 a. m. to 4 p. m.

ONE DAY ONLY

No Charge for Consultation

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the State of Texas. He does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

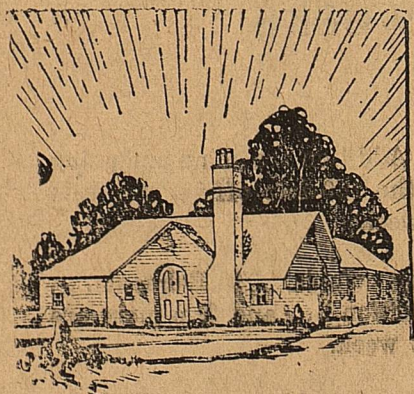

He has to his credit wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidney, bladder, bed wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

Below are the names of a few of his many satisfied patients in Texas who have been treated for one of the above named causes:

Mrs. C. O. Bilibrey, Jayton.
Mrs. Tom Bolton, Clarksville.
H. W. Brogden, Crosbyton.
Mrs. J. J. Gaubatz, Needville.
Bill Graf, Vernon.
Mrs. Nora Hillboldt, Cat Springs.
Mrs. M. A. Martin, Lorenzo.
Mrs. J. S. Mitchell, Farmersville.
Remember above date, that consultation on this trip will be free and that his treatment is different.

Married women must be accompanied by their husbands.

Address: 2111 Bradbury Bldg., Los Angeles, California.

State Clean Up Week, April 1-8

The attention of citizens of Midland has been called by Dr. W. E. Ryan, city health officer, to State Clean Up Week, April 1 to 8 inclusive.

A systematic program of cleaning up, promoting the greatest of efficiency in sanitation, has been worked out by the State Health department, and a careful study of it will give every citizen some fine pointers as to how to co-operate:

SUNDAY, APRIL 1

Ministers of all denominations should be asked to talk on the blessings of a healthy heritage, and general health problems.

a. Formation of health habits. (Personal hygiene, care of eyes, teeth, skin, etc.)

b. Happy, healthy family. (Balanced meals, pure milk and water, proper exercise and clothing.)

c. Rout rats and other vermin from hiding places.

(Bubonic plague comes from fleas, typhus from the louse.)

d. Spread tidings of how to prevent malaria, yellow and dengue fever. (Stop the inroads of the hook-worm.)

e. Broadcast the benefits afforded by the use of smallpox vaccine, anti-typhoid serum and diphtheria anti-toxin.

MONDAY, APRIL 2

General Clean Up Day

Organize your work.

Appoint a commander-in-chief and work systematically. Divide town into districts with a captain for each. Provide wagons, trucks, and a dumping ground.

Cultivate or otherwise improve vacant lots. Paint or whitewash fences, outhouses, and barns. Fill low places, and drain standing water to prevent mosquito breeding.

Oil mosquito breeding places or stock with top water minnows. Write the Game, Fish and Oyster Department at Austin for minnows.

Repair roof gutters and cover cisterns. Inspect all screens and repair defective ones. Do you use sixteen mesh screen wire?

Ditches should be cleaned and culverts opened to provide good drainage.

See that your city makes arrangements to carry on mosquito control work continuously.

Provide a sanitary inspector to see

that Clean Up and Health Week continues all the year.

Remove all "eye sores."
Provide sanitary garbage cans.
Remove all wastes to dump ground and burn or cover.

"The nation's health is the nation's wealth."

"Public health is purchasable."

TUESDAY, APRIL 3

Milk and Food Day

Visit local dairies and abattoirs.

Adopt the standard milk ordinance, and buy your milk by grade. Grade A milk comes from cows tuberculin tested, milked in clean, well lighted and ventilated barns, cooled in separate milk house. Grade A dairies have safe water supply and a sanitary method of sewage disposal, all dairy utensils washed clean and sterilized; milk stools and milkers' clothing clean.

Drink at least one quart of milk each day.

Have committee inspect local food establishments, creameries, slaughter houses, ice factories.

Prepare window display, stage milk or food pageant, present milk play, have lectures on value of milk as a food.

Rats and roaches destroy and spoil food.

Trap and poison rats, clean out harboring places, such as trash and refuse heaps, garbage, and make all buildings rat proof.

Put out sodium fluoride mixed with flour to destroy roaches. Clean up and paint up. Soap and water and sunshine are good disinfectants.

Flies spoil food and carry disease.

Leave no food exposed to flies and dust. Flies breed and feed in filth, on spoiled foods or garbage. Leave no happy hunting grounds for flies about your premises or in your home.

Screen the fly ut and destroy his breeding places.

WEDNESDAY, APRIL 4

School Health Day

1. Are your school children protected by a periodical physical examination by a physician with a nurse to follow-up into the homes of children found defective?

If you do not have this, arrange for the physician examination of school children with proper follow-up into the homes.

2. Does your school have an organized health program? You can secure from the state department of health "Daily Routine Class Room Health Inspection Made By Pupils" and "Helps for Teachers in Checking Up on Their Class Room Health Instructions."

The school child is forming his life habits and there is nothing more essential than proper health habits.

3. Start a Junior Health Club for boys and girls in your school. Outlines for Junior Health Clubs can be secured from the state department of health.

A Junior Health Club is organized by a group of school children with president and a secretary and holding regular meetings. The course includes twelve lessons and requires one period, meeting weekly or semi-weekly. The state department of health sends a certificate to those who successfully complete the course and pass the examination. A nurse is required as an instructor to properly teach the course.

THURSDAY, APRIL 5

From Beginning to End Fight Communicable Disease

Remember! The happiness of your household is just so much as the health of your loved ones permits.

"Clean Up Week," as sponsored by the state department of health in co-operation with city and county officials throughout our state, does not mean just the mere cleansing of those environmental factors which are unsightly to the eye or obnoxious to the nose. Such a measure as this would be called "Dress Up Week."

What we really mean by "Clean Up Week" is to rid your premises and public gathering places of those things favorable to the spread of contagious and infectious diseases. If

it were not for these diseases that are transmitted from man to man, or from animal to man, it would not be necessary to take all of this interest in public health.

Public health has a purpose in our lives second to none, and it finds its origin in the control of communicable diseases. Therefore, in order to control disease we must prevent disease. By so doing we will prolong life and develop the individual in such a way as to enable him to perform most efficiently the duty devolving upon him as a member of his community, state and nation.

Let every effort put forth during Clean Up Week be carried on with the prime purpose of public health in mind.

FRIDAY, APRIL 6

Water and Sewage Day

(Is your water supply safe? Does your city have a sanitary sewer system?)

Have our city officials take an inventory of your municipal water supply. Examine your own private supplies for sanitary defects. Send thru the mayor or official inspector samples of water, properly collected, to the state department of health for bacteriological analysis. Clean out your cistern and cover to keep out dust and insects. Have your city cover the storage reservoirs and tanks. Remove all contaminating agencies on watershed or in the proximity of wells.

Keep Surface Drainage Out of Wells. Beautify grounds around your plant.

Is your city water supply cross connected with private supplies? Do you know the quality of both supplies, and are they both properly supervised? Cross connections have been the cause of typhoid epidemics. Ask your water department about cross connections.

Inspect swimming pools and tourist camps for sanitary defects. Make corrections. If your tourist camp deserves the approval of the state health officer, ask through the mayor or town health officer that it be properly placarded.

What Percentage of Sewer Connections Has Your City? Abate surface toilets, encourage

sewer connections and the installation of approved type pit toilets in unsewered sections.

SATURDAY, APRIL 7

Birth Registration Day

Let every patriotic Texan talk on registering as well as conserving its human stock.

Put on a birth registration drive. Secure blanks or information from your local registrar or the state department of health, and have the births of all children born in your community during the last 12 months registered.

Very effective birth registration campaigns have been conducted by women's clubs in the past.

Information on births can be obtained from newspaper files, by questioning school children, doctors, nurses and midwives on new arrivals.

By obtaining 100 per cent birth registration in your city you will help Texas to enter the registration area, at the same time the birth and citizen rights of the children will be established.

REVIEW DAY, APRIL 8

Civic groups, clubs, societies, firemen, chambers of commerce, all are

requested to report work to headquarters for final survey.

Boy and girl scout teams and school children are asked to give in their work to masters and teachers.

Each order of workers should report what was accomplished for Clean Up Week to their respective leaders.

SIGNS YOU CAN BELIEVE IN

If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by City Drug Store.

PRODUCT OF GENERAL MOTORS

What do you look for in a car... a single emphasized element such as style... size... performance? Such as comfort... stamina... price? Or do you look for that combination of qualities called value? If you prefer a "one-sided" car we haven't got what you want. But if value comes first, you'll choose an All-American Six.

For here is style attained only in bodies by Fisher. Long, low lines. Smart colors. Grace, poise and swank. Here is size that results from 117 inches of wheelbase... and from Fisher construction famed for scientific distribution of space.

Performance from a whispering brute of an engine... 212 cubic inches in displacement... with a 79-lb. crankshaft and the G-M-R cylinder head. Speed... power... snap... and flexibility. An All-American change of pace.

Thus this General Motors Six leads its field in value... providing everything that everybody wants. If you're going to buy a car for what it will give you, come in and see the All-American Six.

Special Sport Equipment
Available on all body types: six wire wheels with tires... special front fenders with tire wells... two special tire locks and locking rings... collapsible trunk rack... \$100 extra on open cars... \$110 on closed cars... six also wheels with same equipment, \$75 on open cars... \$85 on closed models.

One Third of the lots in Beautiful Belmont Addition

have been sold the last
three weeks

Lots in Beautiful Belmont Addition are going and going fast. More than one-third of the 150 lots offered for sale have been sold the last three weeks.

There are three homes just completed in Belmont... seven homes are under construction... and five more are to be started within the next week.

We wish to thank the more than 800 persons who have visited our Gift Home since it was formally opened. Your interest in this home and Belmont is appreciated.

"RED" AND "TED"

"Red" and "Ted", two of the most popular entertainers on University campus, will appear here March 24 with the famous Longhorn band. For several years, the above pair have been pleasing the university students and the radio public with their harmonious crooning. Now they are out to entertain the audiences who will be fortunate enough to hear them in their performance.

"Red" and "Ted" will entertain with a varied selection of popular tunes and melodies, for which their voices blend together exactly for the right kind of harmony. "Red" is the most versatile of the two singers while, "Ted" performs a little less than marvelous at the piano.

THREE NOTABLES JOIN TO MAKE NEW COMEDY

Three of the greatest names in motion pictures were joined to produce the new Clara Bow comedy, "Red Hair", for Paramount. Clara Bow is the star; Elinor Glyn, the author, and Clarence Badger, the director. Their previous picture together was "It."

The combination which produced "Red Hair," the picture which will

be shown at the Palace theatre for two days, beginning next Monday, is known the world over.

Clara Bow is known as the reigning flapper of the screen; Elinor Glyn is famous for her novels and theories of love and Clarence Badger was responsible for the direction of "It" and many other Paramount comedies.

"Red Hair" is the story of a manicurist whose mild flirtations with

three elderly gentlemen cause lots of trouble when the right young man comes along. The "right young man" in this case is Lane Chandler and the three "musketeers" are played by Lawrence Grant, William Austin and Claude King.

Clara Bow entered the movies by way of a beauty contest which she entered and then forgot until she was called to be judged. Harrison Fisher, Neysa McMein and Howard Chandler Christy pronounced her one of the most attractive girls in the state of New York. Her first moving picture piece, a minor one, was unsuccessful but after playing in "Down to the Sea in Ships" her talent was recognized by B. P. Schulberg, then an independent producer and he signed her. When Schulberg became associated with Paramount, Miss Bow also became a member of that organization.

Elinor Glyn, the daughter of Douglas Sutherland, was born in Toronto, Ontario, and was educated in Paris. Her first novel to attract notice was published in 1900, "The Visits of Elizabeth." in 1902, "The Reflections of Ambrosine" attracted notice and, in 1907, "Three Weeks" brought fame to the author.

Madame Glyn went to Hollywood in 1920 to supervise several of her pictures and, in 1926, she signed a contract with Paramount.

Mason Says Much Interest in Tests in Eastern N. M.

Chan C. Mason returned Wednesday from a trip to Carlsbad, Roswell, Artesia and to the oil fields in eastern New Mexico. He reports much interest in oil operations over that way and says future activity hinges to some extent on the outcome of two wells, the Marland-Eaves No. 1 on section 19-36-27, Lea county, and the Midwest well on section 9-19-38.

The Marland test drilled out of the salt at 2,300 feet and went through a soft anhydrite, and is now back in the salt at 2,560.

The Midwest test has a fishing job at 2,860, with a good showing of gas. It seems to be logging higher than the nearby Bordages test, Mr. Mason stated.

Stock Show Records Broken This Month

Fort Worth, March 22.—When the executive committee of the Southwestern Exposition and Fat Stock Show meets at an early date, it will hear reports of the most successful year in the history of the institution which closed its thirty-second annual event March 17. Records were broken and rebroken in many divisions of the show.

So great was the success of the March exposition that many improvements are under consideration for the 1929 event. There is a possibility that the Coliseum may be enlarged so that more persons may witness the rodeos, horse shows and pageant. The rodeos played to capacity audiences, matinee and night. For the first time the stock show offered eight days of rodeos instead of seven but even the two added performances found all seats sold.

With livestock entries having broken past records, there is a probability that one or more judging rings will be provided. Also, another merchants' exhibit building is possible as some would-be exhibitors could not be accommodated for lack of space.

Approximately 150 rodeo performers entered. This probably established a world record for paid up entries. Horse show entries set a new high record for this show with a total of 113 or an increase of 20 over 1927. Herefords increased 23, Shorthorns 19, Holsteins 52, Red Polled 2, hogs 85 in the single classes and 16 cars in the carlot classes. Sheep increased 233 in the single classes and three cars in the carlot division.

When the curtain had dropped on the exposition, the attendance had reached 130,000, a new record for the show. The attendance at the automobile show, poultry show, agricultural show and other attractions reached almost this figure.

Spectators declared the elaborate pageant and coronation of the exposition was the most brilliant ever seen here.

A new record was established for poultry entries.

While the only Sunday of the show brought the greatest crowd on one single day, more than 20,000 persons attended on Tuesday, "Fort Worth Day." Waco sent a special train of

204 to the show. Special delegations came from other cities. Two special trains brought livestock trains here and special cars were operated from many states.

"Boys and Girls Club Day" brought hundreds of youngsters. "Shrine Day" found many Shriners within the gates. "American Legion Day" brought many World War veterans to the city. "Editors' Day" brought 350 newspaper men and members of their families to Fort Worth for them to be guests at a banquet, luncheon, theatre parties and exposition and rodeo parties.

COTTON SELECTED FOR STAPLE STANDARDS

Representatives of cotton manufacturers, shippers associations, and cotton exchanges met at Washington this week at the Bureau of Agricultural Economics, United States Department of Agriculture, and completed the selection of cotton for use in making practical forms of staple standards under authority of the United States Cotton Futures and Cotton Futures and Cotton Standards acts. This work was begun at a similar meeting in Washington Jan. 16. Growers' organization did not send representatives, but informed the Bureau that they would be satisfied with any selection approved by the bureau.

The bureau plans to recommend to Secretary Jardine that one bale of each length represented by these selections be set aside and officially designated, effective August 1, 1929, as the original representation of the official standard. These key bales will be kept in a vault which has been constructed for the purpose. In addition to the key bales, a number of other bales of each length have been selected for use in the preparation of types for public distribution.

Lloyd S. Tenny, chief of the bureau, has stated that "so long as this supply of cotton lasts, it is not likely that we shall consider any further revision or modification of the practical forms of the standards."

Jeff Potter of Hurley, N. M., is visiting his uncle, J. H. Potter and family this week.

Mesdames Dick Tate and T. O. Swann were over from Odessa Thursday shopping.

Mrs. A. Fasken was called suddenly to the bedside of her friend, Mrs. J. E. Taylor who is seriously ill in a sanatorium at Dallas.

Phonographs repaired, Texas Music Co. 31-1f

Check Up

Is your expense exceeding your income?

It's mighty easy to check up when you have a checking account; but well might impossible if you have not.

MEETING OF BASEBALL STOCK HOLDERS CALLED FOR TONIGHT TO COMPLETE WORK

FINAL ORGANIZATION AND ELECTION OF OFFICERS
WILL BE HELD IF REPORT OF PRELIMINARY
WORK IS ACCEPTED

Dick Cowden is asking that all stockholders of the baseball club which has been in process of organization for the past few weeks meet tonight at 7:30 at the Chamber of Commerce office.

The report of committees who have been working on the sale of stock and on getting Midland into the West Texas League will be made, and if accepted, a final organization will be entered into.

Officers are to be elected, permanent committees appointed, and the ball club will be launched into operation as quickly as possible.

All who have subscribed for stock or who are interested in putting over a real ball club for Midland are urged to be present.

ESTES HOME OPENED TO ENTRE NOUS CLUB

Mrs. Aldredge Estes entertained the members of the Entre Nous club at her home on Tuesday evening at her home in North Midland.

Spring flowers in pink and white shades were used to make gay the setting for the most enjoyable bridge games.

A beautiful green water set with matching tray was presented to Miss Fannie Bess Taylor for holding high score for the evening. Mrs. Pence Wadley cut high and was given a handsome set of book-ends.

Fruit salad, sandwiches in the four hand card suit shape, potato chips, olives, and hot chocolate, was served. Miniature St. Patrick's graced the plate as favors.

Those to enjoy this lovely party were Misses Elma Graves, Juliette Wolcott, Leola Bigham, Jerra Edwards, Fannie Bess and Cordelia Taylor, Thelma White, Alma Brunson, Lotta Williams, Theresa Klapproth, Lois Prothro; Mrs. Addison Wadley and Mrs. Pence Wadley.

ENIGMA CLUB WITH MISS LOIS PATTERSON

Miss Lois Patterson was the

charming hostess to the members of the Enigma club on Tuesday afternoon.

The chosen decorative theme was in yellow and white to carry out the Easter spirit. The tallies further accentuated the theme with designs of girls wearing picturesque Easter hats.

Mrs. Chas. Goldsmith won high score and was presented with a charming china vase.

Brick ice cream topped with whipped cream and fresh strawberries and angel food cake were served to the four tables of players. Individual Easter baskets held salted nuts.

Those present were Mesdames Elliott Cowden, R. B. Cowden, Harry Tolbert, Guy Cowden, John Dublin, R. T. Bucy, Dave Smith, Allen Tolbert, Frank Cowden, O. B. Holt Jr., Chas. Goldsmith, Clarence Scharbauer, Ellis Cowden and Homer Rowe; Misses Fannie Bess Taylor and Lula Elkin.

FINE ARTS CLUB HEARS VIOLINIST

Members of the Fine Art club met in the home of Mrs. Chas. Goldsmith in West End Wednesday afternoon.

Miss Leona McCormick presided over short business session when a number of committees for a new year's work made splendid reports. The club will foster programs observing national music week the first week in May.

Mr. Fred Wilcox was leader for the program which was on French School of Opera. Mrs. Wilcox gave

MISS BETH OLSON

Texas University freshman, who will be here Saturday, March 24, as a special entertainer with the Longhorn band, is pictured above. In her act, "Tune Talks", Miss Olson easily proves that she deserves the recognition as the most talented young piano artist in West Texas. Her piano technique is unrivaled for such a young artist, her voice is pleasing, and you cannot resist her pleasant personality. She will render two masterpieces of MacDowell, and several partially original pianologues, depicting the university life.

a splendid paper introducing the subject. Mrs. Paul T. Vickers told the story of the opera, Cavalleria Rusticana. Mr. Ned Watson played the beautiful intermezzo on the violin and Mrs. Watson accompanied at the piano. Mrs. W. E. Wallace read a splendid paper on "The Beginning of French Opera." Several victrola selections were played by Mrs. Goldsmith, illustrating the different musical scores from grand opera.

The next meeting will be in the home of Miss Quinnie Cordill on April 12.

BRIDE AND GROOM RECEIVING FRIENDS

Mr. and Mrs. Jack Ervin, who were recently married in Abilene, have returned to their home in Odessa and are receiving congratulations. Mrs. Ervin was before her marriage, Miss Novelle Cathey of Odessa.

Miss Mary Hobbs, cousin of Mr. Ervin's, attended the wedding in Abilene and accompanied the couple to Fort Worth where they spent several days attending the stock show while on their honeymoon.

Several Cars From Douglas for Motor

Douglas, Ariz., March 22.—George E. Jackson, president of the Douglas Chamber of Commerce today announced that he expected several cars to join the San Diego to Memphis motorcade of the Broadway of America Highway Association, when it leaves this city, April 14.

"This great highway will mean much to Douglas and southern Arizona and I am sure that our citizens will be well represented on the

motorcade and at the convention in Memphis April 20 and 21," Jackson said.

The motorcade will spend the night of April 13 in Douglas, according to word received from Col. Ed. Fletcher, director general of the motorcade.

Royalty Is Name of New Townsite

The lucrative name of "Royalty" has been given to a new town in Ward county, 16 miles south of Mon-

ahans on the highway which runs to Fort Stockton.

Messrs. Johnson and Slaughter of Odessa are putting on the town, and state that it is the first and last good water on that road.

Even though they have not yet started their sales campaign, Mr. Slaughter states that \$2,500 worth of lots have been spoken for, and they are expecting to have the town well along toward development in the near future.
