Senate Leaders Differ On Debenture

Texans Mentioned as Internal Revenue Office Successors

SUCCEED D. H. BLAIR IF NAMED

Cato Sells and A. W. Gregg Those Named

WASHINGTON, April 17.—(UP)—A. W. Gregg of Palestine, Texas, former government financial expert, is being mentioned prominently here for the post of Internal Revenue Commissioner to succeed David H. Blair, resigned.

BOMBS HOME OF WOMAN WHEN SHE REFUSED TO ELOPE

NEW YORK, April 17.—(AP)—Paul Kerez, 46, today was charged with having bombed the home of a mother of three children when she refused to leave them and her husband to elope with him.

WARD COUNTY MURDER CASE IS REVERSED

AUSTIN, April 17.—(AP)—Three death sentence cases were finally disposed of when applications for rehearing were denied by the Court of Criminal Appeals today. One murder case carrying life imprisonment was reversed and remanded.

MORE THAN FORTY CATTLE BUYERS ASSEMBLED IN MIDLAND TUESDAY

The chance meeting here Tuesday night of 43 cattlemen at Hotel Scharbauer, indicates Midland's position as a center of cattle buying and selling.

PRISCO, Texas, April 17.—(AP)—Ideal planting conditions in this territory have indicated that the best crops in five years will be harvested. Cereal crops were reported well ahead of the usual season.

NEWS BRIEFS

Abilene Airport Manager Here L. E. Derryberry, manager of the Municipal Airport at Abilene, landed at Sloan field this morning, piloting a Hiss motored Travelair.

McClintic to National Guard Meet C. A. McClintic left this morning for Sweetwater where he will attend a meeting of the National Guard for the next three days.

Mr. Phillips Has Major Operation Mr. Henry Johnson Phillips, geologist for the Roxana Petroleum company underwent a major operation in the offices of Ryan & Bobo this morning.

Child Born to Mr. and Mrs. Lay A baby boy was born to Mr. and Mrs. Oscar Lay at their home about five miles south of Midland Sunday evening.

Curwood's Girl To Marry Flyer Well-Known Here

Pilot M. A. Loutt, who has landed at Sloan field several times while on his way to the coast in the performance of duty for the Kendall Refining company and who was supervising oil distributor here for ships landing during the National Air Races last year, is to marry the daughter of the late James Oliver Curwood, eminent novelist of story matter which chiefly centered in the great north woods.

Promising Men Uncovered In An Intramural Meet

FORT WORTH, April 17.—The first intramural track meet held at Texas Christian University uncovered some promising material for Coach Harvey Light's varsity squad next year.

Other men who showed promises were Da: Saikeld, Aulcine; Paul Snow, Winboro, and Ray McCollough, Dallas.

Churchmen Meet Here

Accident Victim Very Low Today

Reports today from the Thomas Hospital, concerning the accident victims from the Magnolia tank farm, state that Gus Bunkle, whose spine was fractured and paralyzed from his shoulders down at the farm Sunday, is very low today.

DEFER DECISION ON MELLON AS CABINET MEMBER

WASHINGTON, April 17.—(AP)—The senate judiciary committee, after deciding today that Andrew Mellon had a right to remain in the Hoover cabinet without his nomination being resubmitted, deferred until Friday its determination whether his business connections would bar him.

Pampa Host To Editors of The Panhandle April 19

PAMPA, Texas, April 17.—(AP)—This city will be host April 19 and 20 to the annual convention of the Panhandle Press association.

Prof. John H. Casey of the University of Oklahoma, will be one of the principal speakers. Talks and discussions by delegates will touch every phase of newspaper work.

A golf tournament, a tea for lady delegates, tours of nearby oil fields, and local entertainment at the complimentary luncheons and dinners will be features.

WILL FINISH HOUSE SESSIONS IN THIRTY DAYS

WASHINGTON, April 17.—(UP)—Word that the house of representatives can finish the business of the special session and be ready for adjournment in 30 days was brought to the White House today by Representative Snell of the rules committee.

GOVERNMENT SAYS WEATHER GOOD ON GROWING COTTON

WASHINGTON, April 17.—(UP)—The past week was favorable to cotton, it was indicated today in the government weekly weather report for cotton states.

OKLAHMO MAN CALLED TO DOOR SHOT TO DEATH

TULSA, Okla., April 17.—(UP)—Sam Frost, 44, was called to the door of his home at Bixby, 18 miles from here, early today and was shot to death.

Mrs. Frost first awakened when she heard the voice of a man outside. She aroused her husband who stepped to the porch and was shot in the left breast.

PRESBYTERIAL DELEGATES ARRIVE

The first session of the El Paso Presbyterial, women's organization of El Paso Presbyterial, now in annual session at the Presbyterian Church, held on Tuesday night set the pace for a fine meeting.

An anthem last night by the high school glee club at the beginning of the program made a sweeping impression on those present, not only because they rendered some excellent music, but because of the fact that such a large number constituted the club.

The opening address of the Presbyterial was given by Dr. Thomas W. Currie, president of the Austin Presbyterial Theological Seminary, and was a splendid discussion of "The Way in Which Jesus Prepares"

COLTS TO PLAY THURBER THREE GAMES THERE

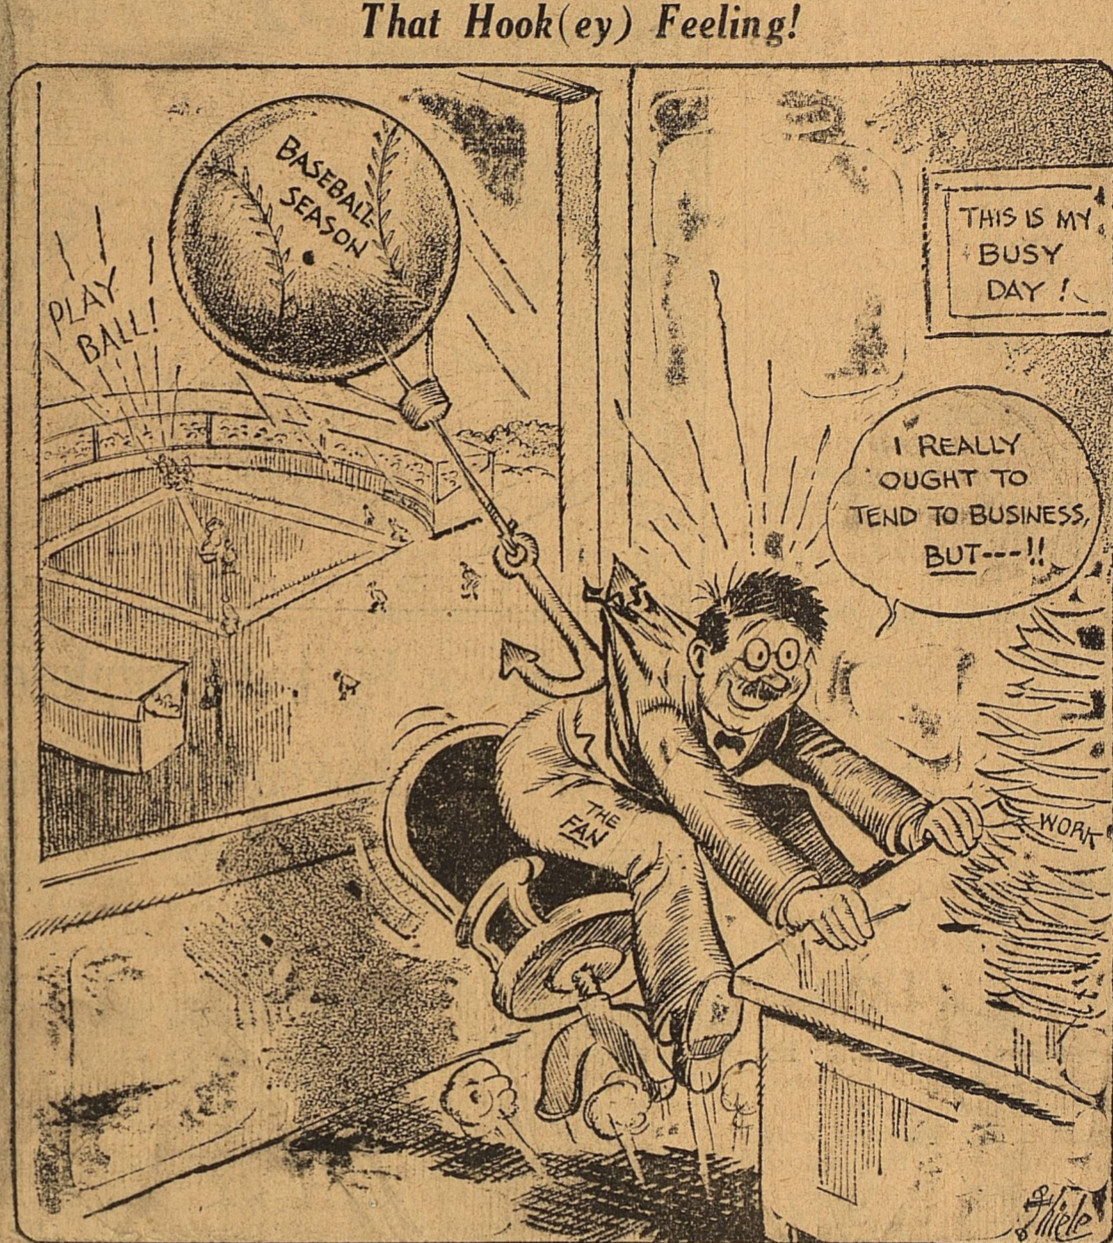

A series of three exhibition games with Thurber, April 18-19-20 will cause the Colts, Midland baseball entry in the West Texas league, to arrive here four days later than it had been announced.

AMARILLO PARKS BEAUTIFIED BY PLANTING SHRUBS

AMARILLO, Texas, April 17.—(AP)—The planting of trees, shrubs, grass and flowers in three city parks in Amarillo has been completed.

TICKETS ON SALE FOR COMMUNITY DRAMA TO BE GIVEN THURSDAY-FRIDAY NIGHTS

When members of the cast in "The Brat" assume their roles on Thursday and Friday nights there is no doubt but that they will easily throw the attention of the audience to a focal realization that the parts are being lived—not assumed.

A Brief History of the Little Theatre

By MRS. AUBREY S. LEGG (Editor's Note: This is the second of a series of articles on the Little Theatre by Mrs. Legg, who was induced by the Midland Players, dramatic organizations, members of various clubs, and The Reporter-Telegram, to make the contribution.)

Historically, in the countries of modern Europe, the amateur play producer is the original one, and the professional a newcomer in the field who can trace his ancestry back a mere three centuries.

WELL KNOWN SPEAKERS HERE WITH LIONS AT GROUP MEETING TODAY

T. N. Carswell, Abilene district governor of the Lions Club, voiced the sentiment of the organization when, after flying here for the noon day sectional group meeting he stated that a Lion must have three general motives "if he be true to the spirit of the body."

WOMAN FLYER TO BE AT AIRPORT FOR EXHIBITION

Nan Durham, well-known Illinois woman flyer, who was prevented from making an exhibition flight here Sunday by a powerful wind, will fly here this Sunday, H. M. Becherer, field manager, says.

OKLAHMO MAN CALLED TO DOOR SHOT TO DEATH

TULSA, Okla., April 17.—(UP)—Sam Frost, 44, was called to the door of his home at Bixby, 18 miles from here, early today and was shot to death.

WOMAN FLYER TO BE AT AIRPORT FOR EXHIBITION

Nan Durham, well-known Illinois woman flyer, who was prevented from making an exhibition flight here Sunday by a powerful wind, will fly here this Sunday, H. M. Becherer, field manager, says.

MIDLAND AIRPORT IN BLUE BOOK OF AIRPLANE TRAFFIC

A map of the landing field and facilities at Midland airport will be included in the "Blue Book of Aviation" for the state of Texas which is to be published in the near future by the American Aviation company.

AMARILLO PARKS BEAUTIFIED BY PLANTING SHRUBS

AMARILLO, Texas, April 17.—(AP)—The planting of trees, shrubs, grass and flowers in three city parks in Amarillo has been completed.

WELL KNOWN SPEAKERS HERE WITH LIONS AT GROUP MEETING TODAY

T. N. Carswell, Abilene district governor of the Lions Club, voiced the sentiment of the organization when, after flying here for the noon day sectional group meeting he stated that a Lion must have three general motives "if he be true to the spirit of the body."

A LAKE OF GASOLINE

During 1928 the citizens of the United States burned upwards of 14,000,000,000 gallons of gasoline. A speaker at the recent meeting of the Society of Automotive Engineers, in New York, pointed out that this would make a lake five miles in diameter and nearly four feet deep.

Putting it in terms like that helps one to realize the tremendous importance that oil has in modern American society. It also emphasizes the difficulties that would lie in the way of adopting gasoline substitutes. Benzol, for instance, can be made from coal; yet if all the soft coal mined in the country last year were made into benzol it would only make a lake a tenth as big as this one.

We have a gasoline civilization, obviously; and one of our greatest problems is to insure a steady, cheap supply of the all-important fluid.

THE SPEED OF THE PLANE

The advantages of aerial travel are strikingly demonstrated by the action of David S. Ingalls, assistant secretary of the navy in charge of aeronautics, who commutes, week-ends, from Washington to his home in Cleveland.

Flying his own plane, Ingalls is able to reach his Cleveland home in less than three hours from the time he leaves Washington. When he closes his desk Saturday noon he jumps in his plane and gets to the Ohio city in plenty of time for dinner. Then he has Saturday night and all day Sunday and Sunday night at his home, taking off at 7 o'clock Monday morning and getting back to the capital in ample time to begin the new week's work.

The speed which the airplane gives is seldom better exemplified than in Ingalls' case. With that example before them, how long will it be before business men generally begin to follow suit?

TO RECONDITION THE HARTFORD

Admiral Farragut's old flagship, the Hartford, lies in the navy yard at Charleston, S. C. The Navy Department has just rejected the request of New London, Conn., that the ship be towed there for exhibition as a patriotic memorial to the great Civil War sailor.

The Hartford, the Navy Department explains, is not seaworthy enough to make the trip, and the department has no funds with which to recondition it. It will be recalled, in this connection, that even the Constitution is not being reconditioned at the navy's expense; the general public contributed the necessary money.

Erie, Pa., spent its own money to recondition Admiral Perry's squadron, and the ship now draws many tourists annually to Erie. Probably the cost of reconditioning the Hartford would be more than New London would care to shoulder. It might be worth the city's while, however, to look into the matter.

BOOTLEGGING DOESN'T PAY

The bootlegger, as everybody knows, makes a lot of money. If he is energetic and lucky, he can become a millionaire in a short time.

But don't be in too big a hurry to envy him. The job, it seems, has its drawbacks.

In Kansas City one of the most prominent bootleggers was Frank Mayo. He was arrested, eventually, and was brought to trial. Four times he won a disagreement; it looked as if he never could be convicted. But one day recently he went to court, pleaded guilty, and took a sentence to the penitentiary.

Why? Because, he says, bootlegging doesn't pay. He Mayo is very rich, but the uncertainties, dangers, and constant worry of the trade counterbalance his big income. "You can't beat this game," he says. "I want to do my time and be a free man. No more bootlegging for me."

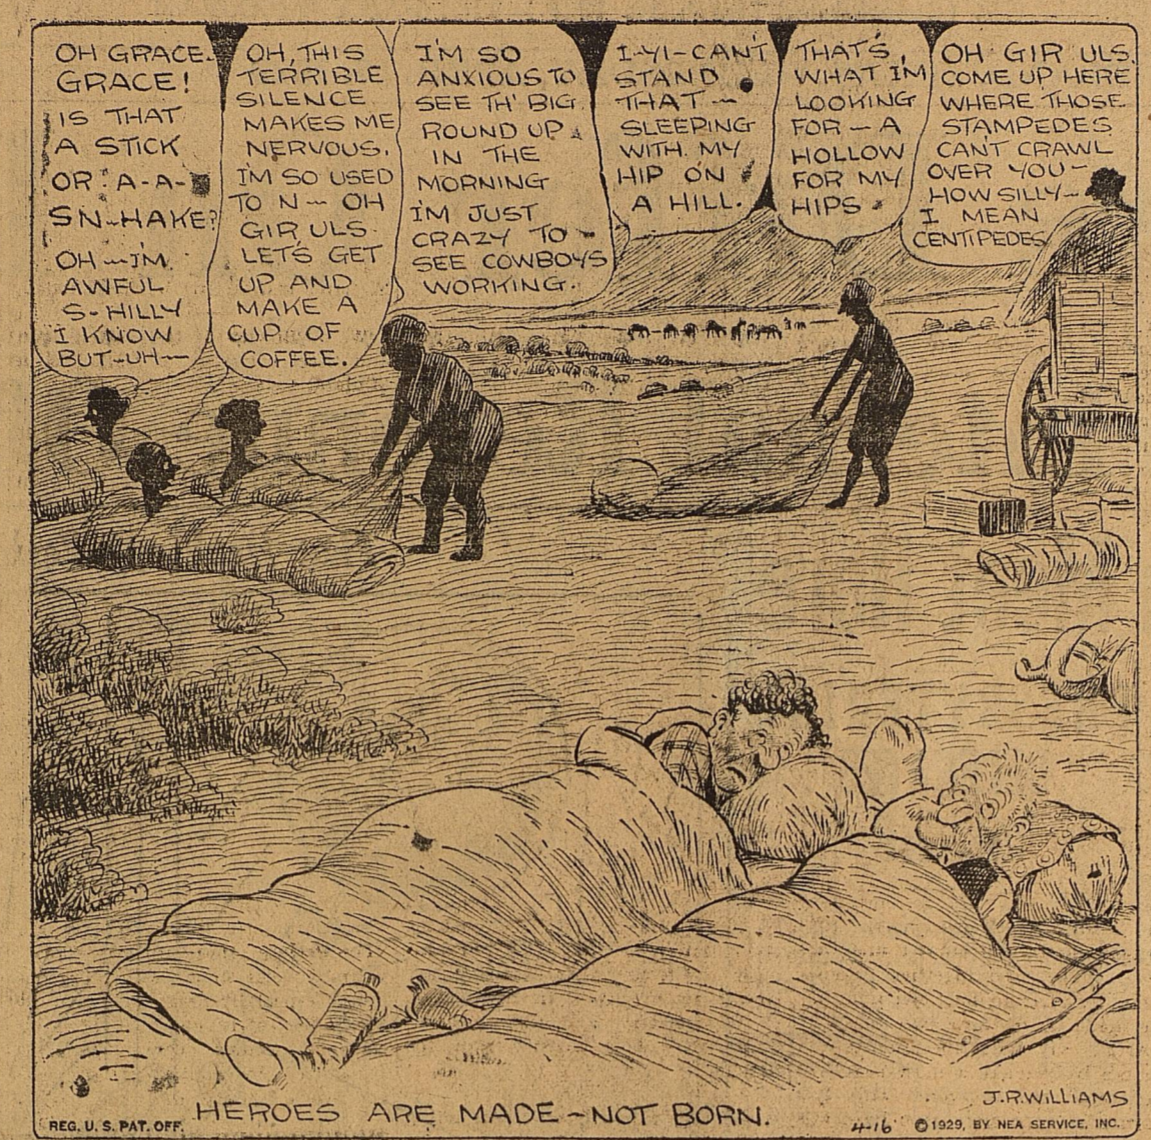

BARBED WIRE SAVES LIFE

DECATUR, Ill., April 17.—(UP)—Falling into a barbed wire fence lacerated the face, hands and body of H. L. King, St. Louis, but it probably saved his life. His car slid on a slippery curve, throwing King into the air. The fence lessened his fall and saved his life, according to physicians.

ANACONDA, Mont., April 17.—

(UP)—A small lad fled in terror from a candy store when the proprietor discovered that the \$1 bill the boy tendered for the purchase of jelly beans was in reality a \$100 note, and called police. It was learned that the lad's mother had accidentally given him \$100, thinking it was a \$1 bill.

Out Our Way by Williams

HEROES ARE MADE—NOT BORN.

United Press Writes Complete Story Movement American Detachments

SAN ANTONIO, April 17.—(UP)—Parts of virtually every fighting branch of the United States army is encamped on or moving toward Texas, New Mexico and Arizona Mexican borders as Uncle Sam takes steps to protect American lives and property as a result of revolutionary activities in the Mexican border states.

Air corps, infantry, cavalry and artillery are all operating under war time activity orders issued by Major General William Lassiter, commander of the Eighth Corps Area, with headquarters at San Antonio. The chemical warfare service and tank service are the only fighting branches not included in troop movement orders of the past ten days, but as they are services attached to the infantry, they can technically be counted in on the nation's latest war posture.

Troops now concentrated on the southern border represents the third regular army troop movements since the period directly prior to the entrance of the United States into the World War.

Troops that were ordered to move last Saturday to Bisbee, Arizona, a central point from which they can be hurried against any section of the southern frontier, were sent out from Fort D. K. Russell, Wyo., Friday, a day ahead of their schedule. This rush order, General Lassiter said, was issued due to a disturbing situation in the state of Sonora. The troops included the 20th infantry, and number approximately 2,500 or 3,000 men. The regiment arrived at Bisbee Sunday.

Concurrently with the rush order affecting the 20th infantry, General Lassiter instructed Brig. Gen. Mosely, commander at Fort Bliss, Texas, to order one battery of the 82nd Field Artillery, which had been ordered from that station with one battalion of the 82nd Field Artillery to Hachita, New Mexico, to proceed past that point to Don Luis, Ariz., a point half way between Naco, Ariz., the most active Mexican war zone,

and Hachita. The artillery battery, armed with four 75-mm. guns, is expected to be ordered on to Naco to supplement infantry, cavalry, and air corps forces already there operating out of Fort Huachuca, Ariz.

The entire 7th cavalry, stationed at Fort Bliss, is now marching to Hachita with the exception of one squadron which is already at Fort Huachuca and Naco, and part of the regular infantry and cavalry forces stationed at Fort Huachuca have been at Naco for the past several weeks, representing the first troop movement since that place became the center of the Mexican war theatre.

The artillery and cavalry troops sent out of Fort Bliss number about 500 men.

At Columbus, New Mexico, made famous by the bandit chieftain Francisco Villa, is the temporary station of Troop A of the 7th Cavalry under the command of Capt. A. J. Wynn, of Fort Bliss. These troops are under orders to patrol 60 miles of the New Mexico border between Columbus and the Bulberton ranch.

Hachita, N. M., is the concentration point for all of the 7th cavalry, less one squadron, which is at Fort Huachuca, and Columbus and one battalion of the 82nd Field Artillery, less one battery, which was ordered to Don Luis and will probably be ordered to Naco, Arizona.

Only two points on the Texas border have so far been the destination for recent troop movements. St. Helena, Texas, and Presidio, Texas, both in the Big Bend country, are patrol headquarters for cavalry detachments sent from Camp Marfa, Texas. The 1st Platoon of the 1st Cavalry, with two machine guns, is at St. Helena, and troop A of the same regiment has taken up station at Presidio.

The army air corps is experiencing its first border patrol duty since the regular patrol duty along the Texas border was discontinued in 1919. Planes of the same organization

however, the 3rd Attack Group, which in 1919 flew up and down the Rio Grande and had on its roster such famous pilots as Lieut. James H. Doolittle, and Alexander Pierson, are again on border duty at Fort Huachuca or Naco, only a short distance away.

Twelve planes of the 3rd Attack Group, now stationed at Fort Crockett, Galveston, Texas, and six observation planes of the 12th Observation Squadron, Dodd Field, Fort Sam Houston, comprise the air corps units operating around Naco.

They are directly under the command of Major E. A. Lehman, commander of Dodd Field, who in turn is acting under field orders of Brig. Gen. Frank S. Cochet, commander of Fort Huachuca.

All of the attack planes are armed for war activities, each carrying synchronized and wing machine guns, and have orders from General Lassiter to shoot down any Mexican war planes, rebel or federal, caught flying over the American border.

The air force sent to Fort Huachuca was supplemented by an engineering and service detachment of 20 men and four officers sent from Dodd field by train immediately after the squadron left the ground at their home stations.

Armoured car troops of the 1st Cavalry at Hachita, New Mexico, were ordered Saturday by General Lassiter to move toward the border and observe all roads leading out of Chihuahua. Lassiter fears that the breaking up of the rebel armies may result in formation of many small bandit gangs and he is determined to stop any contemplated raids on United States territory.

The armored car troop consists of seven cars, 50 enlisted men and machine guns. Lassiter also ordered two ambulances, gasoline trucks and two motor trucks shipped from San Antonio Saturday as ground equipment for the air forces at Fort Huachuca.

ex-deputy and prominent attorney, Jose Diaz Fernandez, and J. Artigas Arpon. In the majority of cases these men are imprisoned without any charges having been preferred against them. They are forced to remain there without trial, in ignorance of their alleged offense, and at the pleasure of the higher officials.

VETERAN RETURNS AFTER 50 YEARS PLATTSBURGH, N. Y., April 17.—(UP)—Christy Soulia, Civil War veteran, vanished from his log cabin in Clinton county nearly a half century ago. His wife, Victoria and their six children were left behind. Records of the federal pension bureau showed Soulia was dead. Eight years later Mrs. Soulia was granted her widow's government allowance.

A few weeks ago, Soulia showed up and asked the United States Commissioner of pensions in New Jersey for financial help. Investigation established his identity. Mrs. Soulia will lose her widow's pension.

COW ON ROCK DIET HAMILTON, Mich.—(UP)—J. Mellena, proprietor of a slaughterhouse, removed 15 stones weighing 7 pounds from the stomach of a cow. The largest was the size of a hen's egg.

WADE TAKES EXCEPTION TO BRANDING OF TEXAS MAP WITH LONGHORN STEER

STAMFORD, Texas, April 17.—(UP)—Homer D. Wade, manager of the West Texas Chamber of Commerce, has taken exception to an advertisement of a well-known company which carries a map of 16 states, representing each by a picture of that product in which the state leads. Texas is represented by the head of a long-horn steer.

"This is a travesty on the state and also on the great cattle industry," Wade said in a letter written to the company.

There are six and one-half million head of cattle in Texas and less than 1 per cent of this vast number are of the long-horn type, Wade declares. The rest of them are graded and registered. Texas leads all states in the Union in the number of cattle and it was Wade's opinion that if the advertising company intended using cattle to designate Texas, they should have used the head of a registered cow instead of a brand that is now practically extinct.

Sunday Shutdown Observed Again In Howard County

BIG SPRING, Texas, April 17.—The second complete Sunday shutdown was observed here Sunday, April 14, by 23 oil companies in the Settles-Roberts pools. This is the only oil field in Texas observing the Sunday holiday and it is being observed 100 per cent by the producers. The shut-down goes into effect at 7 o'clock Sunday morning and continues until Monday morning at 7 o'clock.

CONTINUED PERSECUTION OF SPANISH MASONS

MADRID, Spain.—Since last September a number of prominent Masons of this country have been forced to spend the time in prison for no apparent reason. Among these are Mrs. Quemado, Pena, Torres, Anguiano, Escudero and Ignacio Diaz, the latter was at one time General Superintendent of Spanish prisons. Only recently several other members of the Craft have been cast into prison. They are: Prof. Hilario Ayuso, Antonio de Lezama, Angel Galarza, who is editor of the paper "Libertad", Alvaro de Albornoz, an

The WOMAN'S DAY by ALLENE SUMNER

Looking out of my window a few minutes ago I saw a woman slip on the sidewalk and fall. At least half a dozen women dashing on about their own affairs, looked curiously at her, hesitated a moment as if wondering what they should or could do about it, then hurried on. The first man who came along helped her to her feet, collected her scattered bag and gloves and hat, took her to a cab, tipped his hat, and passed on.

There is a line concerning "man's inhumanity to man." The word "man" is used in the general sense, of course. The line refers to humanity's inhumanity to humanity. There is occasional evidence, however, of woman's inhumanity to woman, with the wonder why it is.

A PARADOX

Dr. Richard Hoffman, author of a fascinating new non-fiction book called "The Struggle for Health," reminds us that so long as women tended women in childbirth throughout the long centuries when no one dreamed that a man might be of service at this time, not one discovery or invention to alleviate her pain was ever made or even attempted. He writes—

"There were two problems which, almost from the beginning of time, had challenged the skill of all peoples alike: Birth and war. Birth had been a most mysterious and perplexing phenomenon to early man. Yet, so far as birth itself was concerned, little or nothing was done to improve the method of its accomplishment.

"Midwives had this field pretty much to themselves over countless centuries. And if there be one instance where biting criticism can be directed at woman as a professional figure, this is it. Amazing an undecidable though it seems, women completely failed to take any step that would aid their fellow women and themselves at this crucial event.

"In all the thousands of years during which agony and death were observed in a thousand days, no woman invented or contrived any method or instrument intended to lessen the pain attendant to childbirth, or to make it a safer experience. It was only when man came into the field, that inventive minds sprung into action and obstetrical progress began.

"It may be that the very tirelessness of their task injured women to their ancient methods, and that men, looked more sensitively upon the scene, coming to it with fresher eyes—the eyes of an opposite sex, looking compassionately upon nature's most fundamental, yet often cruel, expression."

FASHIONABLE THING!

It seems that once again it was fashion which determined a vital thing. It was not until the court world made a male doctor as an assistant to the stork fashionable, when kings began using the court surgeon for the delivery of their own offspring, that the lesser peoples permitted a surgeon at the bedside of the new-born child.

Those who were not kings sometimes summoned a shepherd, who had been successful in the lambing season.

Many questions arise with this reminder that woman herself took her agony as a matter of course. Are women slower to accept change, slower to demand the better way, than men? Are they more accepting of things, without questioning if there might be a better way?

When it is only a matter of their own welfare and freedom from pain, women are notoriously receptive; when it concerns their children, or those near and dear to them, they are anything but that.

Women have gloried in the traditional pain of childbirth, too, for a reason which they would be the first to deny. By clinging to the hardships of it rather than accepting the easier way, they have become more securely anchored to male protection.

NOBODY BELIEVES A FAT MAN

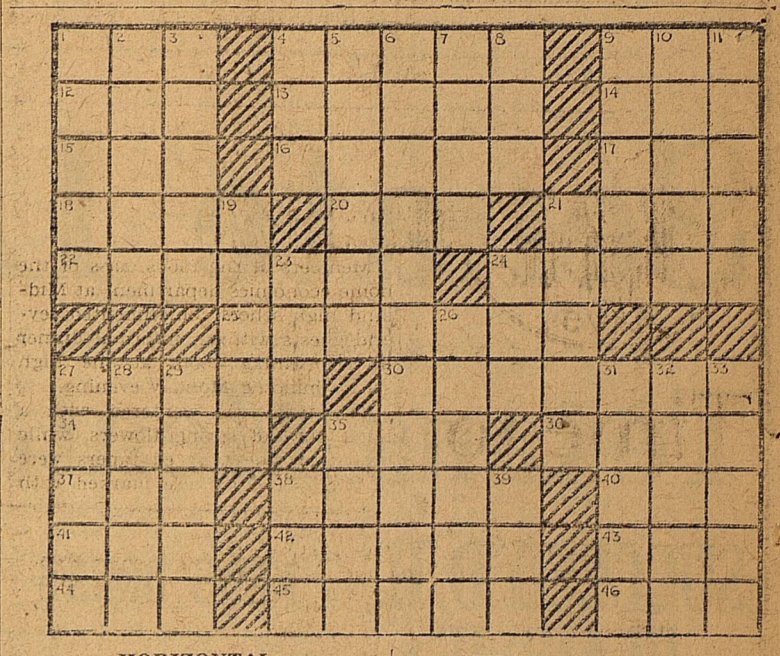

NEW ORLEANS, April 17.—(UP)—Henry Baudot told the judge he couldn't possibly be a bootlegger because he weighed 340 pounds and was too fat and unsteady on his legs for such business. His attorney said Baudot was "physically incapable" of serving liquor, or anything else. When a verdict of guilty was returned the attorney said he had arranged for two cots at the jail for his client.

POT OF GOLD FOUND IN ANCIENT TEMPLAR REFUGE

SAINT MALO, France.—A pot of gold was found near here recently in demolishing a building used as a hiding place by the Templars when Philip le Bel sought to confiscate the wealth of the Templar Order. Most of the coins bore the effigy of King Louis X, and are said to be worth a fortune to collectors.

The Knights Templar were the members of a religious and military order of the Middle Ages from which the Knights Templar of today are said to have originated. They were organized in 1119 and grew rapidly in numbers, wealth and power. The growth of the order caused the jealousy of Pope Clement V and Philip IV—known as Philip le Bel,

Net weights of containers. 46. Vats for storing green fodder. 47. To examine and adjust accounts. 48. Damage or flaw. 49. Conducted. 50. Essential character. 51. Station. 52. To deem. 53. Famous. 54. Resinous substance. 55. Got up. 56. Slightest. 57. Woven string. 58. Drone bee. 59. Door rug.

YESTERDAY'S SOLUTION

Table with crossword puzzle solutions: NICKEL, CINEMA, ALOE, AGO, ALUM, PLOY, VAN, BIDE, O, P, A, R, E, S, T, LEASE, T, ALLAH, ELDER, E, COALY, OLD, O, R, A, YES, N, D, R, A, S, T, I, C, T, ABOUT, ERASE, DAWN, OVER, CORNEA, SNEERS

and they planned to suppress the order and gain its riches for themselves.

In 1307 Jacques de Molay, who was head of the order at that time, was arrested on trumped up charges by order of Philip. In 1312 Clement V degraded the suppression of the Order of Knights Templar. Shortly after this Jacques de Molay was burned at the stake after having

undergone the tortures of the Inquisition.

It is alleged that before his death this martyr to the cause of the Templars cited the king and the pope to meet him within the year at the Judgment Bar of Heaven. It is a matter of history that the pope died suddenly less than five weeks after de Molay and the king within the year.

Announcing! A New Service The Electric "REKREATOR"—A modern reducing and exercising machine. For Men Now, it is possible to get that necessary exercise in a few minutes, merely step in our modern shop and the new "REKREATOR" will do the rest. For Women Ladies who are trying to reduce need not diet or take violent exercise. Science has produced our equipment and it bears the stamp of approval of the leading physicians of the country. It is in no way harmful, and the results it will attain for you will be surprising.

Complete Equipment

Our installation of the "Rekreator" is merely another manifestation of our desire to have the most complete equipment of any shop in Midland.

SOCIETY

High School Class Entertains Guests At Informal Dinner

Members of the foods class of the home economics department at Midland high school complimented several guests with an informal dinner in the dining room at the high school building Monday evening.

The table was centered with a huge bowl of spring flowers, while on either side tall red tapers were burning. Places were marked with placecards and nut cups in shades of red.

The menu included fruit cocktail, celery and olives, tomato-lettuce salad, buttered crackers, fried chicken, cream gravy, duchess potatoes, peas, pickled beets, buttered biscuits, ice tea, strawberry sundae, cake, coffee, nuts and mints.

Guests for the dinner were Messrs and Mesdames Paul T. Vickers, J. E. Hill, Dr. and Mrs. L. B. Pemberton, Miss Theresa Pawelek and Mr. W. W. Lackey.

Young women in charge of the dinner were Misses Evangaline Dunn, Marie Hamlin, Ruby Lee Lowe, Rena Morton, Theresa Ramsey, Laura Helen Sowell, Francis Sudderth and Pauline Wesson.

Mrs. Knight Gives Mayfair Club Social

Guests of Mrs. W. P. Knight for afternoon bridge Tuesday were members of the Mayfair club and several others.

Shades of green and blue were stressed in all table appointments and floral decorations.

The hostess favored Mrs. John P. Butler, who held high score, with a box of stationery; Mrs. R. L. York, who cut high, with a box of bath powder, and Miss Novelle Dickinson, who held high for guests, with a package of bath salts.

Afternoon guests included Mesdames D. E. Carter, John P. Butler, M. J. Taggart, Lee Jones, Jr., A. E. Horts, R. L. York, C. F. Whaley, D. E. Shoemaker, E. I. Head, J. W. Schroeder; Misses Novelle Dickinson and Jester.

Mr. and Mrs. Warren Complimented By Kongenial Klub

The Kongenial Kard Klub entertained at the home of Mr. and Mrs. H. H. Meeks, honoring Mr. and Mrs. J. E. Warren, Tuesday evening, who will leave this Saturday for their home in West Virginia.

The colors, orchid and white, were emphasized in baskets of flowers tied with orchid maline bows, in the table appointments and in the refreshment plates.

When the guests arrived they were directed to the dining room, where punch was served from a hand-decorated bowl embedded in flowers of orchid and white. Mesdames J. A. King, Jr., and Leslie Stevens presided here.

Prize packages were wrapped in the favored colors and went to Mrs. Victor Smith and Mr. C. S. Reeves for high score and to Mrs. W. L. Floyd and Mr. Leslie Stevens for high cut. Mr. and Mrs. Warren, honor guests, were also given gifts.

Party plates were passed to Messrs. and Mesdames M. F. King, W. L. Floyd, Leslie Stevens, Ed Dozier, J. A. King, Jr., Vic Smith, C. S. Reeves, J. A. Tuttle, H. H. Meeks, E. M. Sprayberry, J. E. Warren and Miss Lou Annis Reeves.

Tuesday Members Are Guests of Mrs. Jackson at Party

In a setting of bluebonnets and other decorations in pink and blue shades, Mrs. C. L. Jackson honored members and guests of the Tuesday Bridge club at her home yesterday afternoon.

Tables were covered with dainty prints, and places were marked with tallies of combined handkerchiefs and compacts. Scores were marked on books of novelty purses.

The hostesses souvenired both high guest and high club member, who were Mrs. U. Hampton and Mrs. Jack Hazeltine, respectively. Mrs. Hampton received a cigarette holder and ash tray, and Mrs. Hazeltine a portfolio of parchment stationery. Mrs. C. E. McCool cut high club for a set of imported soaps.

Guests and members present were Mesdames Jack Hazeltine, C. E. McCool, R. W. Patteson, W. E. Wallace, O. C. Harper, E. H. Stafford, Al Loskamp, U. Hampton, M. M. Seymour, E. G. Bedford, A. L. Ackers, C. E. Patteson, John Longabough, Marshall Brown, H. E. Munson and Miss Beth Davidson of Ozona.

If you get costumed for gardening, it can be twice as exhilarating a pastime. A colorful smock, a floppy hat that is becoming, kneeling pad, gloves, colorful garden tools and a flower basket are all helpful.

SOCIAL CALENDAR

Wednesday
Kongenial Kard Klub at the home of Mrs. Victor Smith at 3:30.

Mothers' Cluture Club at the home of Mrs. J. O. Nobles at 3:30.

Music Study Club of the Watson School of Music at 4:00.

Thursday
Bridge games at the Country club house for members at 8:15.

Rainbow Bridge Club at the home of Mrs. B. G. Grafa at 3:00.

Members of the Loyal Berean Class of the Christian Church will be honored with a social at the home of Mrs. J. P. Howe with co-hostesses Mesdames H. H. Meeks, C. N. Nobles and Miss Elma Graves, at 8:00.

Priscilla Needle Club at the home of Mrs. G. E. Green at 3:00.

Edelweiss Club Entertained By Miss Thelma White

Members of the Edelweiss club met at the home of Miss Thelma White Tuesday afternoon for bridge games.

Score favors went to Mrs. Foy Proctor, who received a book block print for high score, and to Mrs. John Dublin, who was given a modernistic fustoria bowl for high cut.

A salad plate was passed Mesdames R. B. Cowden, J. S. Flint, Hayden Miles, A. S. Legg, Russell Lloyd, Foy Proctor, Tom Nance, J. H. Speed, John Dublin and Misses Lulu Elkin and Leona McCormick.

1912 Club Members With Mrs. Jowell

Mrs. Spense Jowell complimented members of the 1912 Bridge club at her home in North Midland yesterday afternoon.

Tulip designs were favored in the tallies and scores while floral decorations were baskets of roses.

Mrs. T. S. Patterson held high score and was awarded a complete bridge set. Mrs. E. P. Cowden cut high for a novel hat rack. Tables cut went to Mesdames Terry Elkin, T. S. Patterson and Ida Wolcott.

They received bunches of bluebonnets with a prize hat brush concealed in the flowers.

Guests were Mesdames Ida Wolcott, W. C. Cochran, Walter Cowden, E. P. Cowden, Paul Roundtree, T. S. Patterson, S. W. Estes, Bud Estes, W. B. Elkin and Terry Elkin.

What Is Meant By "Good Line"

By MISS RUTH NORTON
Midland High School

(Editor's Note:—This is the second of a series of articles written by members of the Home Economics Department of Midland High School. These will appear in The Reporter-Telegram each Wednesday.)

When one goes to shop and tries on a ready-made dress, the saleswoman is likely to say, "Here is a dress with good lines." Do you know what she means when she says this? It may mean several things. The lines of a garment are formed by the edges of the collar, cuffs, skirt hem, waist-line and general shape or cut of the garment. For example, the neckline of a dress may be round, V-shaped or square, and the dress may be cut as a one-piece dress or a bloused waist. These are the things which make the "lines" in a garment and to have a good-looking dress all these lines must be in harmony with each other.

The lines in a dress should seem to agree with each other. Even the loop of the beads seems to belong to the general effect of curved lines. Good lines in a dress mean that all the lines seem to belong together and that they are harmonious. This does not mean that straight lines and curved lines are never to be used together. Sometimes very harmonious combinations are made up of these two lines.

Artists say that the lines of the human body make a most beautiful harmony and everyone who has learned to appreciate good lines will agree that this is true. Can you see the beautiful lines in the body of a champion swimmer? This is the girl who has always taken plenty of exercise and participated in out-door games.

The meaning of "good line" includes the relation of lines in the dress to the type of figure that wears it. The stout figure should not wear a dress with lines that tend to emphasize its stoutness.

An important line is the neck line, because of its effect upon the face. Faces are generally classified as being round, oval, square or long and pointed. They are all affected by different shaped neck lines. Any one of these shaped faces may be very attractive and it is important to know the best kind of neck line.

MIDLAND DELEGATES ATTEND EASTERN STAR MEETING IN BIG SPRING

Midland delegates attending the Order of Eastern Star meeting in Big Spring last night were Mesdames Lee Bradshaw, Carl W. Covington, Dewey H. Pope and Alvin Strawn.

This was a special meeting held in honor of the Grand Worthy Deputy of O. E. S. of Texas, who is visiting in Big Spring.

A report from Ottawa, Kan., says that no wolves were shot in the big wolf drive this year. That doesn't seem like news, but the story also said one hunter was shot.

PERSONALS

M. O. Boring, head of the land department of the Gulf Production company, is here today from Fort Worth.

John Bell was in Midland this morning from his farm in the southeast part of the county.

Bob Preston is here today from his ranch in Upton county.

C. J. Davidson, formerly of Midland but not of Fort Worth, is here today transacting business. Mr. Davidson is associated with the Church, Weekley, Fields Oil interests.

W. B. Collins of Toyah is transacting business in Midland.

S. W. Estes is here from his ranch near Monahans.

Ed Dawson made a business trip to Pecos county today.

George F. Wallace is transacting business in Fort Worth.

O. P. Jones is in Midland from Amarillo, looking after his ranching interests.

Mr. and Mrs. E. J. Handley of Ballinger are in Midland visiting their daughter, Mrs. C. E. Trammell, and family. Mr. Handley says conditions are good in his section of the country, and the wheat is doing fine if it doesn't rain too much.

Mr. and Mrs. Herman Spaulding and son, Barron, of Lubbock, accompanied by Mrs. T. Paul Barron and son, Charles Elliott, who have been visiting in the Spaulding home for the past week, arrived in Midland Tuesday afternoon.

Miss Eleanor Connell has returned from Abilene, where she visited her sister, Mrs. C. C. Cowden, and family, for two weeks. While there, Miss Connell attended several socials.

E. T. H. Oxford of Sonora is a business visitor in Midland today.

Lefty Evans of Pyote was in Midland this morning visiting friends.

Charles Landau of the West Texas Dry Goods company of Colorado is in Midland today.

Mrs. E. H. Braswell left last night for Dallas, where she will be for several days receiving treatment.

A. S. Legg, manager of the Texas Electric company, left last night for Dallas, where he will attend a manager's convention.

Ray Chamberless has returned from Dallas, where he transacted business. He is chief clerk at the Texas Electric company.

Frank Wandt, county farm agent, returned yesterday from a business trip to Lubbock.

J. H. Green, secretary of the Colorado Chamber of Commerce, is in

Midland attending the Lions district meeting.

Mrs. C. E. Quinn and daughters, Opal and Gertrude, are shoppers in Midland today from Rankin.

Mrs. L. W. Malone of Wink is visiting in Midland for a few days.

J. D. Heard, representative of the Wayne Knit Hosiery company of San Antonio, is a business visitor in Midland today.

R. B. Commack of Dallas is in Midland transacting business today.

W. J. Bowler of the Peden Iron and Steel company of Dallas is in Midland today.

Mrs. Bert Ross returned last night from Breckenridge, where she has been with her mother, who has been ill.

Mr. and Mrs. Tom Levy of Dallas are visiting in Midland today.

MARIA CORDA WEARS ULTRA-MODERN GOWNS DESIGNED BY REE

Gorgeous gowns and settings of exotic loveliness enhance the beauty of Maria Corda who appears in the role of a famous opera singer in her second American made picture, "Love and the Devil," in which Milton Sills is starred at the Ritz Theatre tomorrow. In this picture, Miss Corda, the beautiful queen of "The Private Life of Helen of Troy," wears no less than eleven gorgeous gowns especially created for her by Max Ree, style designer of First National studios, whose genius is recognized by couturiers all over the world. "Love and the Devil"

was directed by Alexander Korda, and tells a story of great dramatic power and emotional appeal.

The gowns worn by Miss Corda offer an added interest to the drama of the story. They are sumptuously picturesque, as befits the character she is interpreting and in addition many of them serve to show the style trend of the coming season.

One of these is a delicately luxurious wrap made entirely of pink ostrich feathers and worn over a gown of soft silver lace that molds itself to her graceful form. A high standing collar of pink ostrich, and the circular lines of the cape itself, are reminiscent of fleecy pink clouds.

Another wrap, very different but even more sumptuous, is of white ermine bordered with thousands of black ermine tails. Velvet, pearl-embroidered in diamond designs, forms the material for still another magnificent affair. The Aida and Carmen costumes are also worthy of special note.

For her first appearance, Miss Corda wears a molded gown of black velvet, caught over one shoulder with a single strand of rhinestones. Her head is only partially covered with a close fitting black velvet hat that has a spray of birds of paradise feathers perpendicularly placed.

Undoubtedly the most startling note of this costume is in the boa of white fox fur which she wears around her left arm, over a long black glove. Four yards of white fox are used to make the boa.

Cider Beverage
Sweet cider forms the basis for delightful summer beverages. Lime, grapefruit or lemon juice should be added to suit the taste before other fruits are put in.

OUR BOARDING HOUSE by Ahern

A tobacco company publicity department issues the announcement that tuberculosis has been decreasing in the last 28 years, during which cigarette-smoking increased. Have you noticed, too, how the days are getting longer?

Only \$3 Down for Shipman-Ward factory rebuilt Underwoods.

UNDERWOODS Factory Rebuilt, Shop Rebuilt, Rentals, Repairs, Supplies, Parts CALL, PHONE, WRITE THE TYPEWRITER EXCHANGE Midland Mercantile Bldg. Phone 352.

AMERICAN WOMAN DOES NOT WRITE LETTERS WITH PEN AND INK LONGER

PEORIA, Illinois, April 17.—The American woman has so many interests and such widespread demands on her time that she is not writing letters any more. The manufacture of personal writing paper, the kind that serves for a hasty "thank you" note as well as for the 18-page recital of the events of an hour, has fallen off \$5,000,000 per year because the housewife no longer is taking time to use pen and ink. The telephone and telegraph, and typewriters in pastel shades, have ended the days when the pen was mightier than the word. The end of leisurely letter-writing is just another instance of how women are speeding up their whole working day, according to a statement today by S. H. Altorfer, head of the pen concern making A-B-C washers. "Methods of even two or three years ago are not tolerated in the

efficiently conducted home today," he said. "Sweeping, dish-washing, clothes cleansing, ironing, all must be done faster and better, because the average American family is living a fuller, better life, but a life that also is a great deal more active. "Wash day once really was a whole day, and ironing day followed. Now things move so fast in the average home that the mistress is not content to wait until clothes washing ends before she begins clothes drying. The operations must go on at the same time. While clothes are being swished clean easily and quickly in a smooth pre-plain-lined washer tub others are being whirled dry for the line in a spinner that removes the surplus water by centrifugal force.

SPEAKING OF SPORT

By FRANK GETTY United Press Sports Editor

"Pa" and "W. L." have gone north, seeking return engagements for the latter. The Striblings are on the fistic warpath once more.

The Georgia heavyweight is not entirely recovered from the strained back he sustained in training for his recent fiasco with Jack Sharkey, but he has been in the care of Dr. Cecil Ferguson for many weeks and expects to be in shape for an outdoor bout later in the spring.

Repeated failures have not diminished the confidence of Young Stribling. He still believes he is better than the men who beat him.

It is a theory with the Striblings that the fates are again their favorite son and that he is hampered by malicious demons at the moment of what should be his greatest triumph.

"Seems like something always manages to go wrong. I get sick or something right at the wrong time," laments the southern boxer. Such certainly seems to have been the case. On the eve of the disgraceful Erlenbach affair, W. L. was ill with influenza. Before he fought and lost to Tommy Loughran at Ebbets Field, the Georgian was sick. Stribling dislocated a rib a week before his engagement with Sharkey at Miami Beach.

As pointed out some time back, James J. Johnston has acquired an interest in the Georgia heavyweight and Jimmy will make something out of Willy if it can be done.

Meanwhile, the proposed bout with Phil Scott in London seems to have fallen through, due to the hesitancy of the British promoters to meet the Stribling terms. "Pa" now says he will take his strapping son to Berlin to fight Max Schmeling if the German heavyweight does not soon come to the United States.

A Fire Laddie Turns Thespian As for Phil Scott, he has been having troubles of his own which have nothing whatever to do with the business of fisticuffs. The former fire laddie, turning his back upon the roped arena, essayed to tread the stage in the role of comedian.

Some have claimed that Phil was rather a comedian in the ring, especially on the occasion of his knockout at the hands of Knute Hansen, the none too durable Dane, but let that pass. Here is an account from the "London Daily Express" of Scott's debut as an actor, at Grimsby, England:

"Uproar brought to a standstill the play in which Phil Scott, the champion heavy-weight boxer, (Ed. of what?) is appearing at a Grimsby theatre as a star in the American comedy 'Is Zat So?' and public feeling has led to a change in his part.

"He plays a comedy part, but the audience evidently expected to see him box, and when there was not much boxing the gallery jeered and threw coppers on the stage. (Ed. Just like Madison Square Garden, except that they don't throw coppers.) "The performers could not be heard above the uproar.

"The gallery was closed last night and the company played to a small audience. It was announced today that since the public apparently wanted to see Scott box he would give a sparring exhibition at each performance with Fred Stattersfield, a local boxer."

Slight Damage Anticipated From Hoppers

COLLEGE STATION, April 17.—The drone of the grasshopper hasn't had that menacing twang for the last few years because they've come to Texas in such small numbers as to be of little importance, and it is not anticipated that any general damage will be done this season.

They were found laying their eggs in a few places last fall, however, and farmers in scattered sections may soon find that something needs to be done about it. These eggs begin hatching in April, as a rule, especially if a period of warm rain occurs.

"Poisoned bran mash will be found effective wherever damage becomes serious," says R. R. Reppert, entomologist in the extension service and gives this formula: Mix up 20 pounds of bran, one pound Paris green, two quarts cane molasses and six lemons, using both the juice and the rind. The lemons should be run through a meat-grinder. Mix up with enough water to make a thoroughly moist but not sloppy mash. Five pounds of this mixture should be enough for one acre of infested field applied broadcast. Usually it is unnecessary to poison an entire field but only the edges where the infestation is worst.

Grasshoppers generally invade fields from adjoining pastures or woodlands and where they are found there in large numbers, it's wise to scatter poison along the fence rows or borders of these places, sometimes taking in a considerable margin.

Fly trapping to reduce screw worms that infest scores of livestock, sometimes causing death and always resulting in various kinds of losses, has been conducted on a systematic scale by about 20 ranchers in Menard county for three years in co-operation with W. R. Nisbet,

West Texas Leads In Building For Month of March

DALLAS, April 17.—West Texas took the lead in building operations for the month of March, according to reports just compiled by Texas Life Insurance companies. That section of the state called for 48 per cent of the money loaned by these 12 life insurance companies on first lien notes. There has been a steady increase in the building activities of West Texas for the past six months.

Big Spring Lots Sold This Week For High Price

BIG SPRING, Texas, April 17.—Business property changed hands here yesterday when Ray Wilcox and Jack Ellis purchased of Dr. E. O. Ellington, lot 100x140 feet at the corner of Gregg and Fourth street for a consideration of \$30,000. Contract has been let for the construction of a business house on this location at a cost of approximately \$55,000. The building will contain four stores, one space to be two stories and covering 70x140 feet.

county agent. A total of 300 traps have been kept baited and periodically emptied by a man employed for the purpose, with results so favorable that the work is continuing this year. Screw worm cases were cut in half last year within the trapped area.

Mayor Picks Papers Practices Doctrines Cleans Wall Street

The new mayor of Midland practices what he preaches. In other words, he motivates his theories.

Yesterday he was seen gathering papers in the gutter on Wall street.

The mayor aspires to see Midland the cleanest town in West Texas. Yesterday as a huge piece of wrapping paper and several newspapers stirred restlessly in the wind, seeming to protest the careless disregard shown them by not housing them safely in a trashcan, the mayor bolted from the office in which he was standing, and was heard to mutter as he gathered the papers and stuffed them in a handy trash can:

"We've just got to keep this city clean and I'd as well get busy now on these papers."

The moral to this yarn is: Every time a business man sweeps trash into the street—everytime somebody throws a newspaper on the sidewalk—everytime any trash is thrown carelessly aside instead of being placed in the waste receptacles, Midland as a city is made liable to the criticism of visitors as being a dirty city.

Christians Go To Baptists For First Dual Meet

FORT WORTH, April 17.—The first dual meet of the year with a conference opponent will be held for the Texas Christian University track team when it journeys to Waco Saturday to engage the Baylor Bears. Coach Matty Bell will accompany the team.

The Bruins have a strong squad and the Purple thinsy clads are expected to be hard pushed to pile up tallies.

Cy Leland, crack dash man, is expected to cop the 100-yard dash and the 220. Charley Hilburn, pole vaulter, and Bud Norman, high jumper are the Frogs' best bets in the field events. Ralph Isley is the best distance man on the Frog list.

Since it is bothersome to time eggs, a good way to please him who demands them "medium," is to put them on in cold water, turn the light out the minute they boil and let them remain in the water a few minutes.

CERTIFIED STUDEBAKERS cost less per mile than cheap cars bought new

THERE'S more motor car economy in the operation of a Certified Studebaker used car than in a cheap car bought new!

Your dollar buys more miles in a Certified Studebaker because the first and greatest cost has been paid by the first owner. Yet only a fraction of the car's potential mileage has been taken by the first owner. And the available mileage in a Studebaker is large—proved by nearly a thousand Studebakers each of which has traveled more than 100,000 miles!

Every Certified Studebaker carries a 30-day guarantee for replacement of defective parts, and free service on adjustments, required by the famous Studebaker Pledge. Five days' driving trial. Pay for it on our Liberal Budget Payment Plan!

See these cars today! You'll actually save money by buying a Certified Studebaker! Come in today!

STAKING AND PRUNING GIVE BETTER TOMATOES

"In setting out tomatoes it's a good plan to plant them about two feet apart in the row, which is closer than is ordinarily advised, and later stake them. This increases the number of vines that can be grown in the garden, puts the fruit up where it is easy to gather and to spray, and makes pruning easy," says the horticulturist in the Extension Service, J. F. Rosborough. "Four-foot stakes should be used, driving them into the soil three or four inches away from the plants. Coarse twine or cloth strings are

used for tying the plants to the stakes, and string should be carried along when pruning is done so that plants may be retied where needed. "As tomato plants begin growth it is advisable to remove sucker sprouts at least once each week, otherwise these sprouts will tend to reduce the size of the fruit. It is true that pruning decreases the yield but it permits the production of earlier tomatoes and fruit that is smoother and more uniform in size. Pruning should be done regularly from the beginning of the growing season, cutting off every sucker at the main stem. They emerge at the base of the leaf."

MANURE WORTH \$15 PER COW PER YEAR

How dairy farmers can make \$15 more per cow each year by saving and spreading good old-fashioned manure is told by J. L. Thomas, Dairy Specialist in the Extension Service. "An average cow produces about ten tons of manure annually," he declares, "and at least half of this can be saved if suitable barns and lots are provided and the herd managed properly. Manure is worth about \$3 per ton, if applied on land. An example of its value is found in Franklin county where Ross Newsome has been conducting

a cropping demonstration involving the use of manure for three years. He scattered ten tons each year on each of three acres. In 1925, before the manure was applied, this land produced one-third of a bale of cotton to the acre; in 1926 it raised 30 bushels of corn per acre; in 1927 more than half a bale of cotton; and last year Mr. Newsome gathered 52 bushels of corn to the acre."

STAGE IS SET FOR PROGRAM OF OIL CONVENTION

STAMFORD, April 17.—Manager Homer D. Wade of the West Texas Chamber of Commerce was assured by Miss Christine E. Carter, one of the feature entertainers to be at the Oil Belt District Convention of the regional organization to be held in Ranger Thursday that everything

was in readiness for her part of the program, as the stage, piano, etc., had been prepared. Miss Carter, who is a voice teacher in the Breckenridge public schools, is a well trained vocalist, and besides being in charge of the Dynamo Quartet from Breckenridge which will appear on the program, will present a 20-minute program in the form of a musical review, using 12 girls. She is also bringing an interpretative dancer, Helen Leverton, with the quartet, and using several Ranger people in her presentation. A true West Texan, Miss Carter

was reared in Tipton, but has more recently known Fort Worth as her home before coming to Breckenridge. Other plans for the Oil Belt meeting are being completed as the date draws nearer. President A. M. Bourland and H. J. Adair, manager of the oil and gas bureau of the West Texas Chamber of Commerce, having speaking parts on the program, and Manager Wade, Publicity Manager Whitehead and W. T. C. C. Correspondent Charles P. Miller will be present. Names of such prominent persons as John W. Thurman, mayor of Ranger, Col. R. H. McCarty of Albany, Senator Walter C. Woodward, William Monnig, Judge Charles E. Coombes, Dr. Randolph Clark, Hon. J. M. Penland, T. T. Roberts and Mrs. Lexie Dean Robertson of Rising Star appear on the program and give assurance that the district convention will be one of the best in the history of the organization.

Mechanic Added At the Airport

The municipal airport is enabled to offer better service to visiting airmen as a result of the hiring of a mechanic's helper, Hally Pittman. Pittman has been at the port for more than a week now, and is developing into what the aviators term a regular "greaseball." In the middle of the night, she heard the floor creak and saw her new roomer in her room with a flashlight. "What are you doing?" "Exploring. That is er—er I'm looking for matches." White was taken to the city jail.

Tire Users Toss Away Millions

Largest "flat tire" heap in New England at Cambridge, Mass., is typical of hundreds throughout the country. Tire experts say fortunes are wasted annually by car owners abusing their tires.

If American motorists gave their motor car tires as much care as they give their own shoes they would save hundreds of millions of dollars they now waste through carelessness. Experts say almost every driver wears out the equivalent of a tire a year because he does not observe simple rules which not only prolong the life of his casings but make for easier riding.

The main causes of premature tire ruin are: driving with wheels out of alignment, needless high speed, faulty use of brakes and improper inflation. These make casings go too soon to Golgotha like the one in the picture. If the average tire in this colossal heap of abused rubber would have lasted ten per cent longer through proper care—and the figure is conservative—the saving in sight in the picture

would buy new shoes all around for a hundred cars. Reckon in the fact that every sizeable city has such a rubber boneyard, and figure out on your cuff what a waste is piled up in the United States in a year.

Paradoxically, the more the automobile is improved the harder it becomes on tires. Four wheel brakes will stop a car almost as short as a stone wall, but they wear down tires at an appalling rate if they are habitually slapped on at high speed. Unevenly adjusted brakes scuff out tires as a small boy scuffs out shoes.

Increased speed also is hard on tires, yet the more cars in use the faster traffic must be kept moving, and the greater the wear on tires in slowing down and stopping. Recent tests have shown that a car driven at thirty-five miles an hour

and stopped every quarter mile wore the tread design on a standard tire entirely away in a little more than 100 miles. Stopped only every mile, the tread lasted 3,000 miles.

The one important factor in tire wear that is completely under the control of the man at the wheel is inflation. Experiments made with identical tires on identical cars, one set properly inflated and the other only six pounds under-inflated, showed that firm tires lasted one-quarter longer.

Kicking a tire to test its pressure is about as sensible as taking strychnine tonic by drinking it out of the bottle. There is only one way to test tire pressure, and that is with a gauge. Four minutes once a week, spent on testing tire pressure may save at least the price of one new casing a year.

A Brief History --

(Continued from Page 1)

life of the people. The energy and devotion that the peasants of Oberammergau put into the production of their Passion Play once a decade (every male person and every unmarried woman appears in the play, rehearsing for nine years and playing one, and the married women provide food and shelter for the tourists who visit this tiny Swiss village during the year of the Passion Play) is an illustration of what occurred yearly in many villages and towns throughout Europe.

And out of this great folk art grew the first, and perhaps the greatest lowering of dramatic art. Shakespeare and the other Elizabethan playwrights in England, Moliere in France, de la Vega and Calderon in Spain—these great artists were among the first generations of professional men of the theatre. They never could have existed but by virtue of the thousands of amateur playwrights, actors, and producers from whom they and their fellows learned their art. The amateur play producer may take pride in his ancestry. He traces it back to the dawn of history.

Modern Amateur Dramatics

With the rise of the professional theatre, three centuries ago, the amateur theatre became less and less important; but within our own generation, indeed within the last ten years in the United States, there has been a re-birth of interest in the non-professional theatre. The too-highly-commercialized spoken drama saw its security threatened and assailed by the "movie," then the radio, and again, more recently, by talking pictures. But the fundamental art forms rooted in the beginnings of the race, music (including lyrical poetry), the dance, and the drama—are instincts and can never be destroyed as long as human life remains. Music, dance, and spoken drama are aesthetic inheritances from natural law. A ghost dance with a drum is drama, all religious rites are dramatic in form and content. Drama can only disappear when man ceases to objectify his ideas, instincts, and yearnings. Hence, again from rather a universal interest in drama, has developed a modern "movement" dignified by the name of the Little Theatre. In schools and colleges play production is taken up more and more seriously as a worthy art. Few colleges or communities in the United States are now without amateur play-producing groups of one sort or another. It is perhaps not too much to say that we have seen the birth of a great folk art. It is not beyond the bounds of possibility that we, or our descendants, may see a newer and more glorious flowering of dramatic art than that which made the Elizabethan era the golden age of English literature.

A nation of amateurs are sure to produce a high professional art. Music-loving Italy and Germany, where every citizen is an amateur musician, has produced the greatest modern musical artists. Like all true arts, dramatic art is based on delight in creation and self-expression. It has the advantage that it can be practiced by a small group or by a whole country-side just as it used to be in Medieval

Europe. It requires an co-ordinates a multitude of activities. It is as all-embracing as life itself, for it involves at times the practice of all the other arts and all the other crafts. And he who would excel in it may well pattern himself on Bacon, who was guided by the ambition to "take all Knowledge for his Province."

Churchmen --

(Continued from Page 1)

Men and Women to Carry on His Work," and was also faithful to the general theme of the meeting, "Evangelism." Thorough going Texan that he is, and also proud of it, Dr. Currie captivated the imagination of the audience in the beginning with a vivid introduction. The whole address might be characterized as one of great optimism predicated on the idea that Jesus expects Pentecostal experiences to be the normal condition of the church today. He stressed the work in Texas at the present time, this year being utilized by a well organized and systematic campaign to hold revival meetings throughout the churches of the Synod from January to Easter 1930. With a world of pertinent illustrative material from church history dealing with the origin of revivals and their nature he made his auditors think along the line that with the proper preparation we ought to expect the same manifestation of power in revivals today as at earlier dates. He referred to "The Truth of God" in medieval times, an agreement where the preachers got the people to agree that if they had any killing to do they would do it between Monday and Wednesday so that they would not interfere so much with the work of the Church!

Dr. Currie left on the night train to attend the meeting of the West Texas Presbytery in San Benito. After the address the Lord's Supper was observed the pastor of the church and Dr. W. K. Johnston of Lubbock officiating.

Mrs. W. I. McDowell, president, introduced the visiting guests who have a part on the program, and made announcements for Wednesday, after which the meeting closed and a social hour followed.

At the morning session today the outstanding address was led by Mrs. M. L. Swineheart, of Kwangli, Korea, who is on furlough and visiting with her daughter, Mrs. Bowers in Pecos. She appeared in native costume and made a stirring address on the work among women in Korea where she has been so successful for so many years.

I Had Died in My Cradle," and others. Announcement of desire to aid to the fullest extent Clean-Up Week which begins at Midland on April 21 and runs through April 27, was made.

Committees that worked on the plan of the group meeting and made reports to Lion President Homer W. Rowe were: General Chairman M. C. Ulmer; program committee, Cliff Maple, chairman, Jack Hazeltine, M. M. Seymour; arrangements committee, Harry McClintic, Chairman, W. S. Hill, C. B. Ligon; reception committee, J. B. Wilkinson, chairman, Harry L. Haight, George Glass, M. R. Hill, J. E. Evans, D. M. Ellis, John Hix.

FARMING EARLY OVER STATE AS RESULT OF RAIN

COLEMAN, Texas, April 17.—(AP)—The best crops in 40 years if early spring conditions continue are predicted by farmers for this section for this year. Splendid weather has aided planters since farm work got under way this season.

NEWTON, Texas, April 17.—(AP)—Recent heavy rains in this section have caused farmers to become somewhat pessimistic about crop conditions this season. Beside hindering work in the fields, planters fear that some of the seed will be rotted by the excessive moisture.

EL CAMPO, Texas, April 17.—(AP)—Crops in this area were reported in excellent condition. Farm work was well ahead of the season, this having been made possible by ideal weather, only the required amount of moisture having fallen. Cotton was reported up and almost ready to chop.

COLEMAN, Texas, April 17.—(AP)—With ranges in excellent condition, sheep men of this section are looking forward to a prosperous season. Shearing operations were reported started on some ranches, and a heavy market movement is expected during the next few months. Twirl lambs were reported more numerous this year than ever before.

A movement is on foot to parole a young woman in Ohio who beat her husband to death after he refused to go to a party with her. She has been in prison for several months, which makes it appear her case has been sadly neglected.

Proration Tests Given Seven Wells In Howard Field

BIG SPRING, Texas, April 17.—Seven wells in the Roberts-Settles pools in Howard-Glasscock county were given their first test for proration Saturday afternoon and Monday morning. The total production of the wells was 6,358 barrels. The first test of Group One Oil corporation-Marland No. 7-A Settles, 335 feet from north and west lines of section 13, block 29, W. & N. W. survey, which last week tested 655 barrels in 24 hours from a total depth of 2,240 feet tested 830 barrels. California Oil company's No. 1-Roberts, in the northwest corner of the southeast quarter of section 137, block 29, W. & N. W. Ry. Co. survey, tested 1,362 barrels from the 3,000-foot pay in 24 hours.

Merrick & Bristow's No. 8-Roberts in the northwest corner of the southwest quarter of the southwest quarter of section 137, block 29, W. & N. W. Ry. Co. survey, produced 1,476 barrels in 24 hours.

Ward Oil company's No. 5-Roberts in the northeast corner of the southwest quarter of section 137, block 29, W. & N. W. Ry. Co. survey produced 720 barrels. Schermerhorn Oil company's No. 5-Roberts, in the northwest corner of the southwest quarter of the northeast quarter of section 137, block 29, W. & N. W. Ry. Co. survey, produced 900 barrels tested from the 2,500-foot horizon.

Group One Marland No. 4-A Settles, in section 158, block 29, W. & N. W. Ry. Co. survey, tested 840 barrels.

Witherspoon & Lasseock No. 2 Kloh, Rumsey and Abrams, in section 3, block 32, 2 south, made 830 barrels on 24-hour test. This well is a diagonal offset to Group One Marland-Settles No. 7.

CHINESE FIRE ON FRENCH BOAT WOUNDING THREE

ICHANG, China, April 17.—(UP)—Fighting has broken out on three sectors of the Central China front, according to dispatches today.

French mail officer and two enlisted men were wounded when the French gunboat Orkney was fired on above Hankow, according to the advices.

Reporter-Telegram Ads pay.

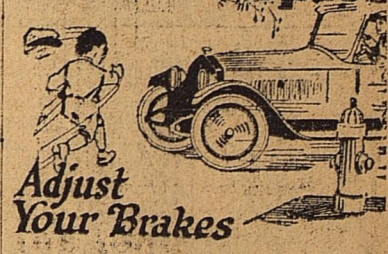

AMARILLO, Texas, April 17.—(AP)—Antelope are increasing in the Panhandle, according to state game wardens, ranchmen and sportsmen. It was said this was due to protection given the animals by state game laws and by ranchmen themselves.

Ted Houghton, foreman of the Shelton Estate ranches, along the Canadian river, reported that there were at least 200 head of antelopes on his ranches.

Within the past three years a herd has increased on one of the Bivins ranches from three to 15, it was reported.

There will be work in the Master's Degree Thursday evening, April 18, beginning promptly at 7:30. Members and visitors invited. F. J. MIDDLETON, W. M.

See the

NEW CHEVROLET SIX

-a Six in the price range of the four!

You are cordially invited to visit our special display of the new Chevrolet Six—arranged in conjunction with the nationwide Spring Showing of General Motors cars.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see beautiful models that bring you every advantage of six-cylinder performance. Yet, due to the greatest array of

mechanical advancements that Chevrolet has ever announced, the new Chevrolet Six delivers better than twenty miles to the gallon of gasoline with extremely low oil consumption.

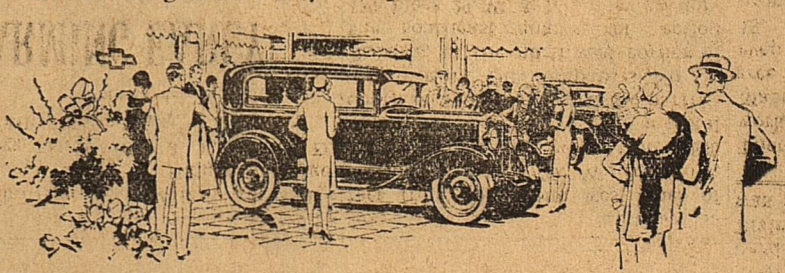

And this amazing six-cylinder performance is matched in impressiveness by the beautiful new Fisher bodies. Come in. See for yourself that no other car in the world can give you so much at prices within the reach of all.

QUALITY AT LOW COST

DIRT PER MINUTE. The accurate measure of electric cleaner efficiency is dirt per minute.

BECAUSE you can see the light, fluffy dust on the surface of your rugs, you are uncomfortable when it is there. Your rug isn't clean. When it is gone, you are satisfied!... You shouldn't be!

No rug is clean, if beneath the surface is accumulating a mass of gritty, caked dirt.

And this dirt does accumulate, if only suction is used in cleaning. Suction or sweeping cannot vibrate this heavy dirt to the surface. It takes beating. Only The Hoover provides the beating principle—in "Positive Agitation." And because "Positive Agitation" reaches the embedded dirt that ordinary cleaning does not touch, The Hoover removes more dirt per minute than any other cleaner.

Ask us for a demonstration. Models at \$59.50, \$75 and \$135. Dusting Tools and Floor Polisher extra. Liberal allowance for your old cleaner.

Let us put your Hoover in repair, for Spring Cleaning. An authorized service man here all this week. Inspection and service estimate free.
