## House Considers Bill to Revamp Fee System Today

### SKIRMISH FOLLOWS READING

#### Would Raise Rather Than Reduce Fee Amounts

AUSTIN, Feb. 11.—(AP)—While the senate spent its time on the Love bill, the house set as a special order for the afternoon a bill which would revamp the fee system. The first skirmish occurred when a bill by Representative Jack Keller equalizing fees received by constables in civil process suits, with those of sheriffs, passed the first reading. The bill raised the fee from seventy cents for each process which constables had been receiving to one dollar which paid sheriffs.

Representative George Purl opposed the bill on the ground that it raised fees where the purpose of last summer's investigation and pending main bill was to reduce them.

**Erison Bill Oked**

The house compromise on the penitentiary rehabilitation bill was sent to the senate and the committee on penitentiaries reported it out with recommendation that it pass. Personnel of the senate committee which had been unfavorable to the Austin site measure endorsed by the senate as a committee of the whole was later passed to engrossment.

Senator Witt, Waco, sponsor of the Austin site measure, said he would move to substitute his bill for the house draft. Should the senate concur, the bill would go back to the house.

### LOVE BILL PASSES

AUSTIN, Feb. 11.—(AP)—The senate today passed the bill of Senator Thomas Love, providing for writs of mandamus to compel members of executive committees of a political party, and election officials to place the name of a candidate on the ballot, after he withdrew an amendment to the measure requiring courts to act prior to the time set for committees and officials to act under law. The bill would give original jurisdiction to courts of civil appeals, and the supreme court.

### WOULD BAR FEE SUITS

AUSTIN, Feb. 11.—(AP)—Approval of a bill which would bar tax collectors from instituting suit against a county for fees erroneously paid into the treasury was given last night at a meeting of the State Affairs committee of the senate. Argument was tense, representatives of tax collectors contending that debts of this nature were legal and ought to be paid, and representatives of counties contending that many suits were for such enormous sums that county treasuries would be depleted if the judgment was rendered.

### Rotarian Trial If Jim Can Be Caught

The secret is out. The deep-dyed efforts of keeping the "court officials" of the Rotary club party tonight in the background failed, and full attendance is expected at the Valentine party which is to honor Rotary Anns and guests.

Here is the program. Judge for yourself why the entertainment committee wanted to keep Jim Finlayson from knowing of the case coming up:

Master of Ceremonies—Ily Pratt. Address of Welcome—President Malcolm Meek.

Archery Contest—Everybody.

The Harmony Boys—Barney and Jack.

Court Trial: Judge—Mary Gossett. District Attorney—Helen Ambrose. Defense Attorney—Alberta Sloan. Prisoner—Jim Finlayson.

Court Bailiffs—Mae Finlayson and Freddie Nobles.

Jig Dancing—"Sam."

Rotary as It Is and as Not—Members Midland Club.

Dinner music furnished by Misses Mary Belle Pratt and Lillian Dunaway.

### Haliburton, of S-A-F-E, Says He Will Establish Night Stop in Midland

Erie P. Haliburton, president of Southwest Air Fast Express, airline which is claimed to hold the distinction of carrying more paid passengers than any other in the country, Larry Fritz, chief pilot, William B. Mayo, chief engineer of the Ford-Stout aircraft manufacturing company, and others flew into Midland Monday afternoon and spent the night in Hotel Scharbauer.

Possibility of establishment of a new airline from Oklahoma City to Los Angeles, with the eminent possibility of a night stop in Midland, was spoken of by Haliburton.

"Such a line would be serviced by no single motored craft," the head of the S-A-F-E line said. "We will put tri-motored 'tin geese,' all metal Fords, on the route."

He referred to other planes like that in which his party flew to Midland, a \$125,000 machine equipped with Pullman berths, radio, lounging rooms, kitchenette, plush rugs, escritoires and other luxurious features.

"When we were flying to Midland, just a few miles from this place, I tuned in the market reports being broadcast from Kansas City," he said. Larry Fritz, chief pilot, remarked he got dinner music from Atlanta as they flew along.

"S-A-F-E is not engaged in selling stock," Haliburton said. "A few weeks ago we did this, in order that the public through whose towns we meant to fly could feel they had partnership in the industry with us. We have sold all we intend to. This line has been self-sufficing all the while and does not require governmental subsidies to keep it going."

**All-Night Stop**

"Midland may be an all-night stop on the new line which is to be established as soon as I can charter the territory, the purpose of my present trip. El Paso will be the other city to be considered in this selection."

Mayo, engineer for the Ford company, substantiated Haliburton's statements about the earnings of the S-A-F-E line being able to pay for expenses necessary to maintenance.

"Henry Ford is not experimenting," he said. "He recognized the value years ago of going into the aeronautics game, and he snapped at the chance to take over the Stout Aircraft company, original manufacturers of the all-metal plane we flew here today. Ford has investigated conditions of the S-A-F-E organization, has looked into financial statements, and is satisfied to join the venture with Mr. Haliburton. Nothing but the big Ford planes will be used by the new line. Haliburton already has ten of these machines in regular service and has established a record for safe flying with them."

Larry Fritz said the S-A-F-E line has the finest pilots of the country at the controls of its planes. He said Haliburton will make the proposed line one of the best known of the country. Five cents an air mile will be charged for conveyance across country.

Of the air mail matter, Haliburton said it looks like planes will have to stop in Midland. Physical conditions and equipment are responsible, among other factors, for this belief, he said. He looks for Midland to be the hub of great radiating lines in the future, and referred to the San Antonio to Midland prospect of airway lighting as an indication that the time for realizing this heretofore only thought of contingency as being close at hand.

### Take Your Choice Of Numbers Here

Midland people evidently read the Reporter-Telegram. In Sunday's paper there was an announcement asking that Midland people call number 77 when telephoning a classified ad or wanting to insert a display ad or talk to the circulation manager or bookkeeper.

They were asked to call number 77 when wanting to give a news story or to talk with the editor, city editor or society editor.

Only an even dozen calls have been received by the wrong office this week following the announcement.

### CROWD OF 2,500 AT FUNERAL OF J. B. WILKINSON

A crowd estimated at from 2,000 to 2,500 persons attended the funeral late Monday at Ovallo for J. B. Wilkinson, Midland bank president, who died here Saturday noon. About 15 Midland people were in attendance, the Rev. George F. Brown and the Rev. Thomas D. Murphy officiating at the service. R. M. Barron and W. B. Hill were pall bearers.

Midland people who returned last night said they had never attended a more impressive funeral service. The immense throngs depicting the esteem in which the deceased West Texan was held. Hundreds of residents of Abilene and points in Taylor county were present.

The body was laid to rest in the cemetery between Ovallo and Lawn, near the country home where the Midland man had lived prior to moving here in 1923.

Mrs. J. B. Wilkinson and son, Jack, remained in Abilene for a few days at the home of her sister, Miss Crofton.

### No Wednesday Meet; Wait For Thursday

The Lions club will not meet in regular luncheon session Wednesday, but will hold a Thursday night Ladies' night, with Melvyn Jones and other Lion notables in attendance, it was announced this morning.

### Three Aged Persons Burned To Death

BROCKTON, Mass., Feb. 11. (UP)—Three aged inmates perished today when fire destroyed the City Home here. Twenty others were taken to hospitals. Many were seriously hurt. Officials searching the ruins feared that others were dead. Eighty aged were housed in the home.

### OIL PRODUCTION UP

TULSA, Feb. 11. (UP)—Tremendous activity in Oklahoma City and Seminole fields boosted the daily average production of oil in the nation from last week \$3,144 barrels. The Oil and Gas Journal reported today. Daily production totalled 608,761 barrels.

### MONEY IN MIDLAND JERSEYS

Although Midland county is noted for adherence to the "good old Hereford stock" a Lynn county farmer brought from a Midland dairy herd fancier a Jersey cow which has started him on the road to success.

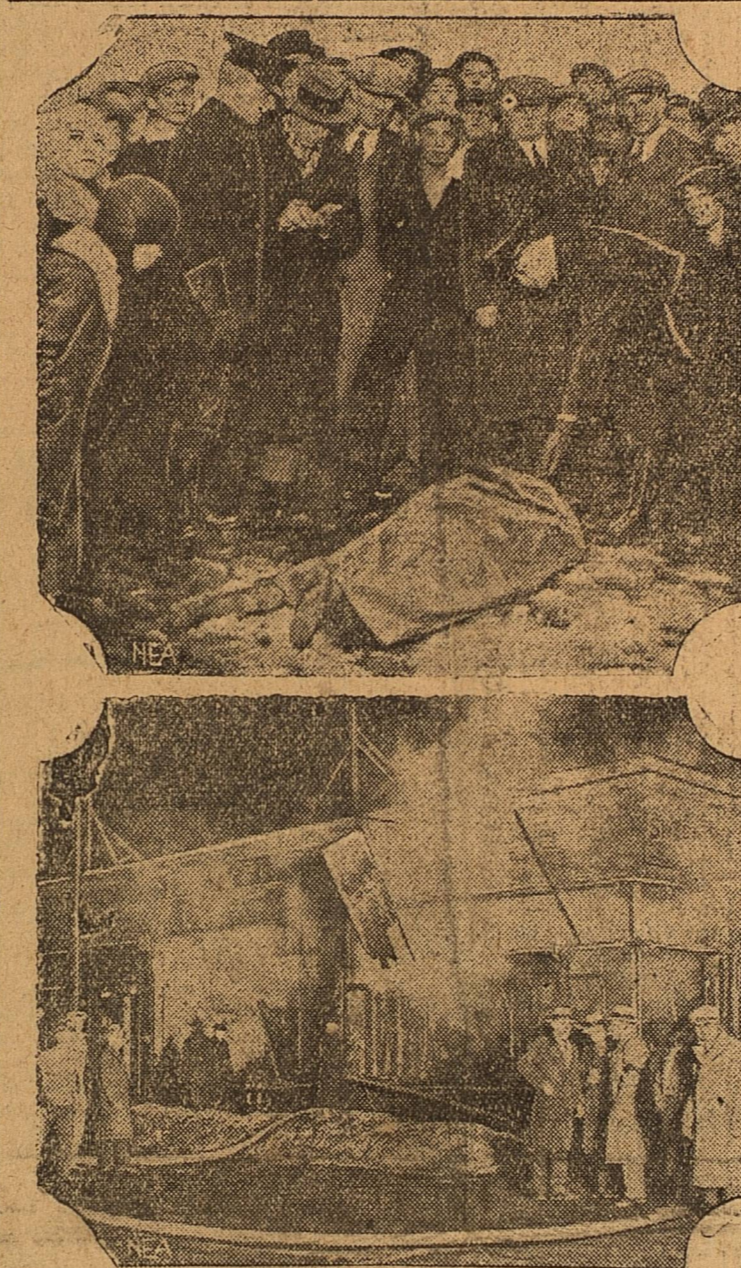

E. W. Hester told a staff writer of The Reporter-Telegram at O'Donnell Friday night he would write a story on his success with the cow bought in Midland. The story follows, as written:

"On June 11, 1928 I bought from C. Holzgraf, Midland, Texas, a registered Jersey cow, Leda's Raleigh's Noble Girl Number 454855. She was

born Dec. 9, 1918; was bred by W. R. Richardson, Marietta, Ga. She sold at auction, 1919, when ten-months-old for \$1200. She is a daughter of Leda's Raleigh Number 137009, grand-champion bull of the National Dairy show 1919, and sold at auction for \$25,000. Her dam was a grand-daughter of Nobel of Oakland Imp. Number 95700, who sold at auction for \$15,000.

"As this was an aged cow, I bought her from Mr. Holzgraf for \$150. On July 12, 1928, she dropped a bull calf sired by a double grand-sire of Oxford's You'll Do. The dam of this calf's sire has an official reg-

### Just Another Day in Chicago

Above: Gangdom puts another "on the spot"—Chicago police are shown here beside the body of Philip Marchese, an alleged racketeer with a long police record, who was shot down by two gangland enemies. The crime was witnessed by hundreds of children playing in a nearby school yard. Below: What another "mysterious explosion" did—Here's what remained of Hyman Weisberg's army and navy goods store in Chicago, after it had been wrecked by a mysterious blast, followed by fire, in the latest of Chicago's series of racketeer bomb outrages and crimes of that kind. Two adjoining stores were also wrecked.

### Location for Oil Test In Midland County May Be Announced Here Soon

Reports current in Midland this morning that a major company had made location for an oil test in Midland county were not verified when officials of the company were called at their Fort Worth office.

"The location has not yet been made," was the answer given, but information as to the proper parties to get in touch with three or four days from now indicated that steps are being taken toward making a location, and that announcement will be made shortly.

Local officials, when consulted this morning, had no advice as to the location, but when the report was discussed, their representatives said the rumor sounded highly plausible as it is known that torsion balance crews had been at work for some time in the area mentioned.

**Gaines Test Deepened**

Following a slight showing of live oil at 4,351 feet in the Louisiana Oil Refining Company's No. 1 B. B. Ralph, Gaines county, test, no further showing had been encountered on last report. Drilling had reached a depth of 4,360 feet, in hard lime. Local representatives of the company said that the outcome of the well would be hard to determine.

Interest in the test has been keen among oil men of this territory, as the structure seemed at first to be higher than wells in the Hobbs area to the west.

The test is located in the center of the southwest quarter of section 7, block A-23, Gaines county.

### TERRELL TO FACE CHARGE; HATCHER CHARGE DROPPED

AUSTIN, Feb. 11. (UP)—While members of the state legislature prepared information regarding alleged failures of State Comptroller S. H. Terrell to conduct the office as the law prescribed, private auditors were making a hurried audit of his department today. Terrell is facing an impeachment trial in the house. A resolution calling for impeachment was approved 107 to 1 late yesterday.

Speaker Barron said today that the house may continue in session if an impeachment hearing is incomplete after the four remaining (See IMPEACHMENT page 6)

### EDISON 83 TODAY

FORT MYERS, Fla., Feb. 11.—(UP)—Thomas A. Edison reached his eighty-third birthday today, but took only a half day from scientific labors celebrating it. Except for an annual interview with newspapermen, a brief appearance in the city park, dedication of a table in his honor, and a few hurried visits with friends, the day was little different from others for the scientific wizard.

### COMMITTEES NAMED NO ACTION TAKEN ON PRESIDENCY

#### Believe or Not; Vickers Got 'Em

Midland men can no longer afford to become set in pet opinions or beliefs. A reputation which had been built up carefully for six years fell before the astonished eyes of 71 men last night.

Paul Vickers, secretary of the Midland chamber of commerce, bought a box of cigars for the meeting held in the ballroom of Hotel Scharbauer.

Vickers, known to hoard the moneys of the commerce organization and being of Scotch extraction, almost stopped the meeting when he let it become known he had bought the stogies.

At a special called session of the chamber of commerce Monday evening in the ballroom of Hotel Scharbauer, 14 committees were appointed to carry out plans adopted by directors for the new year's work.

These men were especially selected for their particular qualifications for committee work assigned them. It was pointed out by Leon Goodman, president of the organization, that 80 men and women of Midland who are not members of the organization should join, that they represent the two per cent of Midland's residential population that

Fortunately just on the eve of signing up 80 new members of the Midland chamber of commerce, comes the announcement of the following matters in which the body played the chief role: grading work starts this week on Andrews road; new segment of road from Midland to Stiles, thence to Big Lake; Midland apparently designated as air mail stop; Midland retains Star route to Lovington; Army designation of Midland as Army airport still further authenticated.

These are happenings within one week. Committees today are soliciting these 80 people to join. If any names were accidentally omitted, the people are asked to call at the chamber for their cards. Membership is open to all believers in Midland, and less than 2 per cent of Midland people who should belong, fail to belong.

### LA FON RESIGNS AS MANAGER OF NEWEST HOTEL

W. E. La Fon has resigned the management of Hotel Scharbauer and is to be managing operator of Hotel Brownwood, the new \$750,000 twelve-story hotel now being built there.

Mr. and Mrs. La Fon will leave in the near future for California where they will study all the newest hotels and the latest features of equipment and accounting, with the idea of incorporating all the newest features in Hotel Brownwood and making it the most modern and complete of any hotel of the size to be found.

After returning from California they will go to Chicago to buy the furnishings and equipment for the Brownwood place, placing the order far enough in advance so that there will be no delay in the opening on account of the carpets and furniture not being made up on time.

Calarene Scharbauer has not decided on a man to take La Fon's place, although Arthur T. Jury, former manager, is returning to Midland. Scharbauer told The Reporter-Telegram he would inform the newspaper immediately upon selection of a manager.

Reports were made by various committees. Aubrey Legg told of having promised, subject to ratification by the directors of the commerce body, \$185 to the WTCC, which would make the calendar and fiscal year coincide rather than bring solicitors of the regional organization into Midland before the new calendar year. The fiscal year begins Aug. 1.

Legg also reported that Hobbs, N. M., wants to help on an important road project which would link another important distance to the proposed Midland to Hobbs road, which would be constructed by Andrews and Seminole. He said Hobbs proposed through the president of the chamber of commerce there to shorten the distance about 15 miles and escape traveling in sand as much as possible.

Sam R. Preston, chairman of the south road committee of the chamber of commerce, reported he had gone to Stiles Monday and had secured Upton county commissioners' agreement to build seven miles of road, which, with the Midland county road strip of a mile and a half in that county already built, will place the end of the new road within two and a quarter miles of the Reagan county line. This is important in that it opens up the important sheep, farming and cattle zones of Upton and Reagan counties, and insures future construction of a direct road to Big Lake, Reagan county, oil town.

The chamber of commerce has worked on this project for months. Will Elkin is the other member of the Midland to Stiles road committee.

W. I. Pratt reported the need for better organization of the charity committee. Clubs will co-operate with the chamber in this work. Committee of those clubs having been asked to get in touch with Pratt immediately.

Organization of the boy scouts in Midland into a more perfect body was announced by K. E. Ambrose, with the request that the chamber of commerce do everything possible towards support of the movement.

Following are the committees named:

Executive: Leon Goodman, M. C. Ulmer, R. M. Barron.

Petroleum: C. W. Alcorn, W. A. Yeager, C. A. Daniel, W. A. Hyatt, W. F. Scarborough, J. J. Crump, James Nolan, Allen Watts, C. L. Jackson.

Agricultural: Ira F. Lord, C. A. McClinton, Frank Elkin, J. E. Hill, T. E. Bizzell, B. N. Aycock, W. I. Pratt.

(See COMMITTEES page 6)

### Submarines Up For Naval Discussion

LONDON, Feb. 11. (AP)—Submarines were virtually assured a new lease of life as weapons of war during a debate in the naval conference today, during which the five great naval powers presented views about their abolition.

Formal resolutions were made which were generally taken to be "humanized."

The United States and Great Britain were for abolition, France and Japan for retention. Italy agreed in principle with the former two, but with reservations.

### Ban Capped on Crowd At Pason's Funeral

EL PASO, Feb. 11. (AP)—Health authorities prohibited all but parents and the undertaker from attending the funeral today of George Casten, 19, high school basketball player who died of spinal meningitis. The radio brought the funeral sermon to the saddened home from Trinity Methodist church.

### Mohair Co-ops To Start Functioning

UVALDE, Feb. 11. (AP)—Letters have been sent to members of the American Mohair Producers cooperative marketing corporation by Roy Davenport, president, announcing that the organization was completed and ready to function in a regular manner, in accordance with the Federal Farm board plans. A credit of \$1,000,000 in the form of pre-paying advances has been arranged through the National Credit corporation government agency, for distribution among members.

### Position of Cashier To Be Filled At An Early Date

R. M. Barron, cashier of the Midland National bank, was elected executive vice-president of the institution at a meeting of the board of directors this morning, and will be active head of the bank. It was announced by Ned Holman, vice-president of the Exchange National bank of Tulsa whose interests recently bought a substantial block of stock in the Midland National.

The position of president and director, made vacant by the sudden death Saturday of J. B. Wilkinson, was not filled out of respect for the deceased executive and his family and associates. No time for filling the vacancy was set.

**Matchett Remains Here**

J. Frank Matchett, assistant vice-president of the Exchange National bank of Tulsa, will remain in Midland indefinitely. It was announced, and the position of cashier, created by the promotion of Barron to executive vice-president, will be filled at an early date.

Holman, who was here for the annual meeting of the stockholders Saturday, will leave tonight for Tulsa. He expressed the satisfaction of his interests in securing R. M. Barron as the bank executive, as did J. Frank Matchett who said, "I believe we have an excellent line up to serve the territory."

At the meeting Saturday, Foy Proctor was elected to the board of directors. The board is composed now of R. M. Barron, J. V. Stokes, Henry James, Roy Parks, Andrew Fasken and Foy Proctor.

Stokes is chairman of the board. James is vice-president, Barron is executive vice-president, and R. C. Adams is assistant cashier.

**With Bank 16 Years**

R. M. Barron, who has lived in Midland practically all of his life, is yet in his early thirties and has made a remarkable success in his bank career. He has been with the same institution for the past 16 years, starting in the bookkeeping department, and has since 1923 been in the position of cashier.

The Midland National bank, with capital of \$75,000, has a surplus and undivided profits of approximately \$90,000, and has been one of the leading factors in the development of Midland and surrounding territory.

The recent purchase of stock in the bank by the Exchange National interests, gives it a connection with the largest oil bank in the world.

### FLYING BURGLAR AT LARGE

COLUMBUS, Feb. 11.—(UP)—A flying burglar who robbed the air express office port at Columbus escaping in a silver and blue plane named Blue Heaven, still evaded capture today with air terminals throughout the nation watching.

dees not do its duty toward supporting what civic pride demands they support. Committees are out today signing up members who signed last year for only a 12-month period.

Reports were made by various committees. Aubrey Legg told of having promised, subject to ratification by the directors of the commerce body, \$185 to the WTCC, which would make the calendar and fiscal year coincide rather than bring solicitors of the regional organization into Midland before the new calendar year. The fiscal year begins Aug. 1.

Legg also reported that Hobbs, N. M., wants to help on an important road project which would link another important distance to the proposed Midland to Hobbs road, which would be constructed by Andrews and Seminole. He said Hobbs proposed through the president of the chamber of commerce there to shorten the distance about 15 miles and escape traveling in sand as much as possible.

Sam R. Preston, chairman of the south road committee of the chamber of commerce, reported he had gone to Stiles Monday and had secured Upton county commissioners' agreement to build seven miles of road, which, with the Midland county road strip of a mile and a half in that county already built, will place the end of the new road within two and a quarter miles of the Reagan county line. This is important in that it opens up the important sheep, farming and cattle zones of Upton and Reagan counties, and insures future construction of a direct road to Big Lake, Reagan county, oil town.

The chamber of commerce has worked on this project for months. Will Elkin is the other member of the Midland to Stiles road committee.

W. I. Pratt reported the need for better organization of the charity committee. Clubs will co-operate with the chamber in this work. Committee of those clubs having been asked to get in touch with Pratt immediately.

Organization of the boy scouts in Midland into a more perfect body was announced by K. E. Ambrose, with the request that the chamber of commerce do everything possible towards support of the movement.

## A COMPLICATED PROBLEM

Naval weapons and naval strategy are changing rapidly these days. This is one of the things that makes the job of the London naval conference delegates such a complicated one.

Limitation of construction of 10,000-ton cruisers is the most important matter at issue. Yet naval experts are beginning to wonder if a new type of small cruiser, not over 5,000 tons in size, may not be the most potent weapon in future naval warfare.

Such ships have already been outlined. They would have few guns, but would have an extremely long cruising radius; and each one would carry four or five airplanes. Their proponents declare that such vessels, as commerce destroyers, would surpass any existing cruiser as much as ordinary cruisers surpass the sea raiders of the "Alabama's" day.

That's the sort of thing the delegates are up against. They convene to discuss one type of warship, and find that another type may replace it in value before the ink can get dry on any agreements they may sign.

## AVIATION SETS A NEW RECORD

Despite accidents, commercial aviation continues to gain.

A report from the Aeronautical Chamber of Commerce of America, Inc., shows that miles flown by the 27 major air transport companies in the United States reached a total of over 20,000,000 in 1929—double the 1928 total. Furthermore, the number of passengers carried on these lines tripled, the figure for 1929 being 165,263 as compared with 52,934 in 1928.

In air mail, likewise, there was an amazing gain, more than 7,000,000 pounds being carried last year—twice the amount carried in 1928. All in all, American aircraft flew nearly 200,000,000 miles during the year, and three-fourths of this mileage was run up by commercial planes.

Commercial aviation is definitely establishing itself. These figures indicate that the industry is quickly passing the fledgling stage.

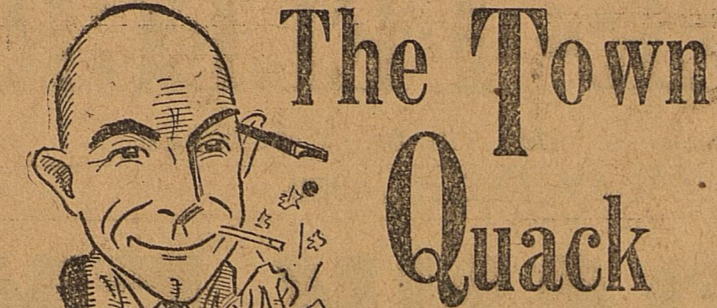

## SOME MEMORIES FOR MR. HUGHES

If Charles Evans Hughes cares to do a bit of soliloquizing as he returns to the supreme judicial bench, he will find plenty of material in the things that have happened during his 14-year retirement from that high court.

When he resigned his justiceship, in 1916, Europe was at war and this nation was at peace—and expected to remain so. Herbert Hoover was feeding Belgians, Al Smith was a New York politician and Calvin Coolidge was climbing the ladder in Massachusetts. Prohibition looked like an impractical dream, ownership of an automobile meant that a man was fairly well-to-do and the British navy was as large as any two others combined.

It was, in short, an utterly different world when Hughes last sat in the supreme court—a world that seems far removed, now, as the era of the Civil War. But it was only 14 years ago.

If Mr. Hughes' return to the bench sets his memory working, he will have plenty to think about.

Reserves the right to "quack" about anything without taking a stand on anything.

with the weight of his body in either direction, and the reason he hates to drive a car is because he can't steer it the same way.

I read in a paper "newest notes of science" that the bristles of a new shaving brush can be spread open to dry quickly. Say, can you beat that? Maybe I have been a scientist all the time and didn't know it, but I was brought up to dry my shaving brush that way. I thought the only people who didn't go through that procedure every time they shaved were the Scotchmen who beat their wives for rinsing out the shaving brush.

The same scientific paper says that a detachable top with curtains has been invented to protect occupants of automobile rumble seats from the weather. One of them would have saved Hankins and Joe Warren a lot of exposure Saturday and Sunday nights.

## WASHINGTON LETTER

There Are Lots of Lobbyists Who Never Get to Washington at All—They're the Folk Who Send Petitions to Congress and the Woods Are Full of 'Em.

By RODNEY DUTCHER, NEA Service Writer.

WASHINGTON.—The country teems with amateur lobbyists who are not affected by the investigation of the Caraway committee despite a slight activity directed at influencing legislation. They are the signers of petitions to Congress.

Their petitions pour in and are commonly cited in the Congressional Record by the members in whose care they are addressed. Each is referred to the appropriate committee.

The House alone has received about 4000 petitions during the present regular session, which began December 5. The Senate doesn't get so many. Most such petitions are similar to others and obviously inspired by some national association which has called on all its member groups to get busy petitioning Congress. If petitions arrive in sufficiently large numbers the committee considering the proposed legislation is bound to be impressed with the idea that a considerable portion of the electorate is interested. Amateur lobbyists who sign them can be found supporting or opposing anything and everything.

Lately there has been a flood of pleas from "sundry citizens" in many widely separated communities "praying for the passage" of legislation granting increased pensions to Spanish War veterans.

Further pension legislation is often asked for Civil War veterans and their widows. A recent petition mailed by the Woman's Relief Corps in Boston bore 2338 signatures.

The city council of Salem, Mass., wants legislation instructing the president to proclaim every October 11 as General Pulaski's memorial day. The Rodeph Solomon Sisterhood in Congressman Sol Bloom's New York City district opposes

American participation in any calendar simplification conference unless our delegation is bound to oppose any plan "which endangers the fixity of the Sabbath." Various

## ERRORGRAMS

Ton's So'ambled'm  
**TINBEER**  
Good for you.

There are at least four mistakes in the above picture. They may be mistakes you find, and 20 for the fun to grammar, history, etiquette, word if you unscramble it. Today, word below — and unscramble on page 6, we'll explain the mistake by switching the letters around, takes and tell you the word. Then find them. Then look at the drawing or whatnot. See if you can find what.

locals of the Musicians' Union petition in behalf of the Army Band bill.

Two hundred folks in Washington county, Ark., support a bill to appropriate \$50,000,000 a year to maintain rural post roads not now in the federal road system. Minnesota dairymen urge speedy enactment of a bill classing certain commercial cooking compounds as oleomargarine. North Dakota branches of the General Federation of Women's Clubs present 62 resolutions favoring prompt ratification of the World Court protocol. Twenty-six Philadelphians ask compensation benefits for war veterans who developed active tuberculosis before 1930. The South Shore Country Club of Buffalo, N. Y., asks repeal of the tax on dues and initiation fees paid to athletic and sporting clubs.

President William Henry Bauman of the Continental Mortgage Guarantee Co. of New York opposes the bill to establish a federal building loan board in the Treasury Department. Two hundred and thirty-eight citizens of Green county, Ill., protest against taking Station KWKH of Shreveport, La., off the air. Franco-Belgian citizens of Lawrence, Mass., ask modification of the Volstead act and relief for great unemployment and suffering among the working people of the textile industry. The Linnaean Society of New York asks federal protection for the American eagle. Citizens of Braddock, Pa., urge a federal department of education.

Spanish War pension petitions have outnumbered all others lately by about 10 to 1. World Court ratification and Pulaski Day have been the next most popular subjects.

**NOTICE TO CREDITORS**  
In the United States District Court for the Western District of Texas IN THE MATTER OF Raymond Ward Richmond, Bankrupt. No. 83 IN BANKRUPTCY.

The creditors of said Raymond Ward Richmond, are hereby notified that he has filed a petition for a certificate of discharge in bankruptcy, and that the same, under an order of said court, will be heard before Ben Randals, Esq., referee, at his office in Pecos, Texas, at 10 o'clock in the forenoon, on the 21st day of March, 1930, at which time and place the creditors of said bankrupt may appear and show cause, if any they have, why the prayer of said petition should not be granted.

The Thames river carries down into the Atlantic ocean enough mud yearly to make 24 acres of good land, six feet thick, at its mouth.

D. H. HART, Clerk.

## AVOID THAT FUTURE SHADOW\*

By refraining from over-indulgence, if you would maintain the modern figure of fashion

Women who prize the modern figure with its subtle, seductive curves—men who would keep that trim, proper figure, eat healthfully but not immoderately. Banish excessiveness—eliminate abuses. Be moderate—be moderate in all things, even in smoking. When tempted to excess, when your eyes are bigger than your stomach, reach for a Lucky instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indulgence if you would maintain the lithe, youthful, modern figure.

**Lucky Strike**, the finest Cigarette a man ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Everyone knows that heat purifies and so "TOASTING" not only removes impurities but adds to the flavor and improves the taste.

"Coming events cast their shadows before"

## "It's toasted"

Your Throat Protection—against irritation—against cough.

\*Be Moderate! . . . Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tablets or other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smoking **Lucky Strike** Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a Lucky" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.

## Christian W. M. S. Meets For Bible Study

Circles Two and Three of the Christian Missionary society held their regular meeting for Bible study Monday afternoon in the home of Mrs. A. B. Anderson, with Mrs. H. B. Lane in charge of the program.

In a short business meeting it was decided to change the hour of study from 3 to 3:30 o'clock.

All the members took part in a general discussion of the lesson on "Child Culture."

Present were Meses. Carl Reeves, H. B. Lane, Victor Smith, G. W. Brennenman, Sidney Hall, Harry Shelton, Annie Dunn, and Anderson.

## Y. P. M. S. to Take Up Study of New Book

Mrs. Sam Preston took charge of the meeting of the Young People's Missionary society Monday night at the home of Miss Clea Fay Cook, and asked all the members to save old clothing, jars, and bottles for medicine, and other articles, for missionary work among the poor, boxes to be made up and sent to one needing assistance.

The meeting resolved itself into a business hour, during which it was learned that mission study books on "Youth and the New America" had arrived and will be taken up for study at the next meeting which will be on February 24 with Miss Myrtle Whitmore. Other plans for the coming meeting included election of a vice-president, and a devotional meeting.

It was decided to give two programs a month from the mission study book and one on a book that has been ordered, on stories from the Bible. Time of meeting was changed from 7 to 7:30.

The hostess served dainty refreshments at close of the business hour.

Vann B. Mitchell returned to his home in Midland Sunday by plane from Abilene, where he visited friends.

Mrs. R. L. Frye, formerly of Midland, is here demonstrating Martha Lee toilet articles at the Midland Drug store.

## Two Circle Meetings of Baptist Society

The Walker Auxiliary of the Baptist W. M. S. met with Mrs. Ben Driver Monday. In a short business meeting, plans were discussed but none definitely decided upon.

The lesson study "Talks On Soul Winning" was led by Mrs. M. D. Cox, and the members took part in a general discussion.

A short time was spent piecing quilts, after which the hostess served delightful refreshments.

The Lockett Auxiliary met with Mrs. B. C. Girdley and concluded study of the book "Lottie Moon."

A general discussion of business was held, but nothing planned.

## Monthly Meeting of City League Union

About fifty boys and girls were present at the meeting of the City League Union Friday evening for an interesting program and social hour.

Leland Murphy was in charge of the program, which was as follows: Piano solo—Edythe Sundquist. Reading—Velma Bilby. Talk on St. Valentine—Marguerite Bivens. Prayer by Rev. Thomas D. Murphy.

The outlined program was interspersed with songs by the entire group.

A jolly social hour followed the special numbers with the boys from the Presbyterian Christian endeavor taking charge of preparation and serving of refreshments, and doing it excellently.

Games and contests were played, with a marshmallow race and a pillow contest probably the most amusing. The side headed by James Killough won two out of three of the contests.

## Midland Couple Married

Mrs. Ethel Dickard and M. E. Shea, both of Midland, were married by the Baptist minister at Carlsbad, New Mexico, Saturday morning. A number of friends from Midland were present at the ceremony.

Mr. Shea is with the Panhandle Construction company, and the couple will continue to make their home here.

## Shower for Miss Young at Auxiliary Meet

The Presbyterian church was beautifully decorated with red carnations and ferns at meeting of the Auxiliary Monday afternoon.

Mrs. Faskin presided over the business discussion which was opened with a song, after which Mrs. A. Harry Anderson led in prayer.

It was decided to postpone presentation of the missionary play until the fifth Monday in March.

Flowers were sent to Mrs. C. G. Hitchcock and Mrs. A. S. McKee, both of whom are ill.

Mrs. Fred Campbell had charge of the program, which embraced a discussion of the need in six countries in which the Presbyterian church U. S. does work. She was assisted by Meses. Fred Turner, T. C. Heard and A. Harry Anderson.

The auxiliary sang "I'll go where You Want me to Go" and Mrs. Florence Richardson prayed for the foreign missionary work of the church.

After the meeting, Miss Retta Young was presented with a number of gifts from auxiliary members, in honor of her coming wedding. Mrs. Faskin introduced the presentation with a short talk and Mrs. Richardson read a cleverly written poem composed by herself, expressing wishes for the happiness of Miss Young and giving sketches of the weddings of other auxiliary members, which were most amusing.

Miss Belva Joe Knight, dressed as an aviator, brought in a number of gifts on her kiddie car, which was designed to resemble an airplane. Misses Freda Faye Turner and Betty Ruth Smith came next, carrying a large basket dressed in Valentine style, also full of gifts. Messrs. Charles Robert and Jimmy Finlayson carried the remainder, which would not go in the basket.

Miss Young thanked the women in a pleasing manner and opened the handsome gifts, so all could see them.

Mmes. J. M. Caldwell and T. R. Wilson as hostesses served dainty salad plates with heart-shaped mints carrying out the Valentine idea.

Guests and members of the Auxiliary present included Meses. Paul T. Young, Perry Collins, C. W. Dodson, C. W. Alcorn, F. E. Craglin, R. C. Crabb, W. P. Knight, Fred Campbell, W. G. Waite, Andrew Faskin, Fred Turner, R. D. Heatley, Charles G. Holzgraf, John E. Adams, J. L. Greene, R. L. McCormick, Prendergast, Margaret Murray, C. B. Craglin, Florence Richardson, A. Harry Anderson, T. C. Heard, J. A. Finlayson, Harvey Sloan, G. A. Sundquist, J. G. Gossett, L. O. Smith, Thomas D. Murphy, Miss Edna Hanna, the hostesses, Meses. Caldwell and Wilson, and the honoree, Miss Retta Young.

## Methodist Society Studies Korea

Circle One of the Methodist Missionary society met with Mrs. M. C. Ulmer, 124 North C street Monday afternoon for a study of Korea and reconstruction work in Europe.

Mrs. R. C. Montgomery conducted an interesting lesson on this subject. Special talks were made by Meses. O. B. Holt, Sr., Frank Wendt, J. J. Collins, L. A. Boone, C. E. Smith, and B. F. Haag.

Regular reports were heard in a business session, and announcement was made that the regular monthly social meeting of both circles would be next Monday with Mrs. J. M. Speed.

Circle Two met with Mrs. John Haley, and after the meeting was called to order by the chairman, the group repeated the Lord's prayer in union.

Mrs. N. G. Oates, acting in absence of Mrs. Chambers Peak, called the roll. One new member was reported.

After reports of committees, Mrs. Charles Coffee, leader, read the scripture lesson from Matthews. Special topics were given as follows:

Korea, location and history—Mrs. L. L. Brooks.

Great revival of Korea—Mrs. N. G. Oates.

Program of Work of our Church in Korea—Mrs. Charles Coffee for Mrs. A. P. Baker.

M. E. Church in Europe—Mrs. John Haley.

Republic of Czecho-Slovakia—Mrs. Hugh Barnes.

Poland's Contribution to Culture—Mrs. C. H. Shepard.

The meeting was closed with a prayer by Mrs. Barnes.

A. S. Legg is in Big Spring on business today.

Henry Pegue and Lynn Kelly of Odessa are in Midland today on business.

J. E. T. Peters, secretary of the Cisco chamber of commerce is in Midland today.

Douglas Thrasher left this morning for Texon.

E. R. Crews is here today from his ranch in Gaines county, transacting business.

Millard Eldson is in from his ranch near Lovington today on a business trip.

## Announcements

Wednesday  
Mrs. M. C. Ulmer will be hostess to the Colonial Card Club at 3 o'clock.

The Fine Arts Club meets at 3:30 o'clock with Miss Eula Gee Gantt.

## KEEPING FIT with NANCY CARROLL

by NANCY CARROLL  
Paramount Star

HAVE you noticed that there aren't any old ladies any more? I remember reading some time ago that it was almost impossible for the employment agencies to get jobs for the woman past thirty. So what did we women do? We stopped getting to be thirty—that's all! Women, especially women who hold positions, either business or professional, need to look as young and alert as possible. Nothing gives the appearance of age so quickly as excess weight—unless it is extreme underweight. Bulk gives a middle-aged look that every woman dreads.

For the business woman a good figure, which will hold clothes, even cheap clothes, with a graceful dignity, is a decided asset. The same things hold true for the woman at home. Even the most staid and loyal husbands prefer their wives to retain the enchantment of youth. It is so hard to work up sentiment over a fat wife!

Today begins the last week of the Nancy Carroll Thirty Day Diet, and this week you must lose two pounds. In some ways this will be the hardest week of all for you. It will be hard because it is a temptation to say to yourself, "I only lose two pounds in the remaining nine days of the month, so I guess I won't bother with the diet." Those two pounds should come off, girls, so don't give up the race when you're so near the goal. Don't forget to consult your doctor, and don't forget your exercises.

Here is a new exercise. Hold your wand high over your head, with your arms apart so that they make a straight line with your body. At one, bend to the right at the waist, keeping your arms in a line with the sides of the chest. At two, return to position. At three, bend to the left, and at four, return to position.

**THESE ARE ACCEPTED STANDARDS OF VALUE**

The purchaser of a diamond accepts the jeweler's word for the stone's value. There is no other basis of judgment. Naturally, the buyer selects a jeweler in whom he has confidence.

So, too, with a used car—the buyer's only assurance of a good car at a fair price is an automobile dealer from whom he can buy with confidence. We take great pride in the fact that our customers send their friends here to buy cars.

**JACKSON CHEVROLET CO.**

"I THANK YOU IN THE NAME OF CONOCO"

Thank you for the immediate and tremendous response to our challenge, on the introduction of Conoco Germ-Processed Motor Oil. Thank you many thousands of Regular Customers as well as the many thousands of new users who have flocked to Red Triangle stations, until it has kept all of us on the jump to drain and refill crank cases with this remarkable motor lubricant. Because of unprecedented demands for Conoco Germ-Processed Motor Oil, it has been difficult for our refineries to keep all our stations adequately supplied, but now stocks are moving faster and you can depend on quick and efficient service at any station displaying the Conoco Red Triangle.

Conoco challenged the oil world last November with the revolutionary new Germ-Processed Motor Oil. Definitely the first fundamentally better oil of the century, this oil is now smashing all sales records. No reasonable person will use any other oil once he has heard the story of this new oil and its "Penetrative Lubricity." We invite you to stop at the Sign of the Red Triangle for your first crankcase full.

## HAZARDS OF THE GAS BUSINESS

No public utility operation is as hazardous as the natural gas business.

The duration of the business is limited by nature, because the commodity in which the utility deals is supplied by nature alone. The supply is limited and is exhaustible, and when exhausted can never be recreated.

Artificial gas companies, electric light companies, railroad companies, telegraph and telephone companies create the basic elements of their service; their business is stable and their duration is not limited. But this is not true of a natural gas utility. When the supply of gas is exhausted, the equipment is worthless except for the price that it will bring as junk.

It is vital to the progress and welfare of any community that its utility companies be extended a measure of co-operation which will permit them to give the excellent service which they desire to give—and which the citizens have a right to expect.

# West Texas Gas Company

Headquarters for Gas Appliances

BOTH DISTRICT AND REGIONAL PLAY TO BE DECIDED UNDER TEAMS OF AN INTERSCHOLASTIC SPONSORING NOW

Coach L. K. Berry of the high school explained this morning that Midland in baseball is in a different district than that in which the team made such a good showing in football last season.

The following is his explanation: "For the first time since the beginning of the University Interscholastic league, it will foster high school baseball.

"The eligibility rules for players are the same as those for football, basketball or track. The most important of these are that players must have attended school a major portion of the preceding term and have passed in three courses. During the present term he must be taking four courses and have a passing average in three from the beginning of the term up to the week before the game.

"The baseball contests conducted by the league will not be carried further than regional championships this year. A "region" ordinarily consists of four districts.

"The district and regional organizations for playing baseball are not the same as for football. The baseball districts are the same as those organized for the purpose of holding track and field literary meets.

"Midland is in District 18 in baseball. The principal towns in this district are San Angelo, Midland, Ballinger, Winters, Sterling City, Sonora, Robert Lee, Eden, Paint Rock, Junction and Big Lake.

"This district and District 13, which includes territory in the vicinity of Brownwood, comprises Region Five.

"A meeting of the baseball representatives from each school in District 18 will be held in San Angelo not later than March 1 for the purpose of arranging a district schedule.

"It is likely that enough teams will enter the race in District 18 to make it necessary to divide the district into two sections.

"The district championship in baseball must be decided by April 26 and the regional championship by May 10.

"The Midland high school Bulldogs are entering the district race in baseball for all their worth. Two weeks ago the boys started floundering up their wings and recently they have taken advantage of the favorable weather to go through complete work-outs."

(Note: Continuation of the interview with Coach Barry will be in this paper Wednesday.)

NOTICE

We cordially invite all oil men living in Midland to play on our new 18-hole Golf Course.

GOODWILL PLANE HALTED

SAN ANTONIO, Feb. 11.—(P)—The Kansas City chamber of commerce plane, enroute home from Mexico City, was held here today by unfavorable flying conditions which kept passengers from arriving in time for inauguration of Pascual Ortiz Rubio last week on the southward trip.

66 Miles on 1 Gallon New Ford Gas Saver

Walter Critchlow, 4600-B Street, Wheaton, Ill., has patented a Vapor Moisture Gas Saver and Carbon Eliminator for all Autos and Engines that beats any ever got out. Old Fords report as high as 66 miles on 1 gallon. New Fords 75. Other makes report amazing increases of 1-4 to 1-2 more. Mr. Critchlow offers to send 1 to introduce. Write him today. He also wants County and State Agencies everywhere to make \$250 to \$1,000 per month. —Adv.

Still More Millions Treat Colds Direct

Round-About Method of "Dosing" Gives Way To Modern Vaporizing Salve

More and more people each year are giving up the slow, indirect way of treating colds by "dosing" their internal medicines, and are adopting the modern direct treatment—Vicks VapoRub.

Vicks goes direct to the affected parts and checks the cold in two ways—its medicated vapors, released by the heat of the body, are inhaled direct to the inflamed air-passages; at the same time it acts direct through the skin like a poultice or plaster, "drawing out" tightness and soreness.

Vicks is especially appreciated by mothers because it is just rubbed on, and therefore, cannot upset children's delicate stomachs as "dosing" is so apt to do. Today the whole trend of medical practice is away from needless "dosing."

To keep pace with the ever-growing demand, the famous slogan, "17 Million Jars Used Yearly," was raised to "21 Million" a short time ago. The figure too has been out-grown, as there are now "Over 26 Million Jars Used Yearly"—a jar for every family in the United States. —Adv.

Impeachment—

(Continued from page 1)

The hearing begins Thursday. If impeachment is voted it will act as an automatic suspension of the comptroller.

The governor was authorized to make a provisional appointment until the senate considers impeachment. Eighteen counts were charged against Terrell. Failure to account for \$54,563 deposited in a special account, and allegation of misapplication of the fund was the principal charge. Representatives Alfred Petsch, Coke Stevenson and Joseph McGill brought the charges.

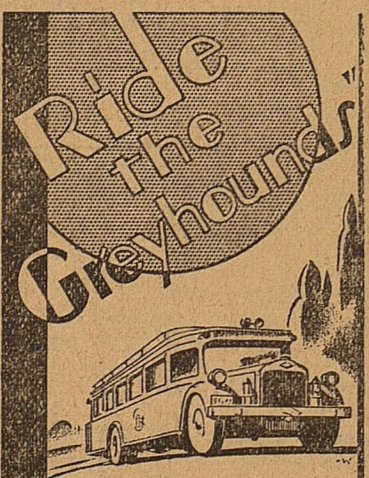

The concluding charge was that Terrell was "incompetent, inefficient and unfit to hold the office of comptroller."

Drop Hatcher's Case

A pending resolution by Representative Petsch preferring charges against Terrell and State Treasurer W. Gregory Hatcher, the latter for "incompetency and inefficiency," was tabled, after Petsch requested such action. He said it had been decided not to prosecute the charges against Treasurer Hatcher.

Hatcher sent a letter to both speaker of the house, W. S. Barron, and Lieutenant Governor Barry Miller today asking permission to appear before the two houses "and answer in person those matters alleged and charged against me by the state auditor and set forth in the resolution of Representative Petsch."

Seventy-five per cent of all fires are said to be preventable.

convenient economical comfortable

For short trips, or for long trips, the Southland Greyhound Lines offer a highly desirable travel way. Fares are now lowest in the history of the company—schedules have just been re-arranged to permit the greatest saving of time—modern motor coaches with deeply cushioned, individual, reclining chairs assure you perfect relaxation and comfort.

Our agent will gladly help plan your trip.

due to freshen about March 10, 1930. I aim to show her at the Panhandle Plains Dairy show in April. She is a real show cow and has every indication of making a real dairy cow. I consider she would be cheap at \$300. I have also a four months old daughter of Leda Raleigh's Noble Girl, sired by a double grandson of Fontaines Butterlad. This is some calf and is easy worth \$200.

"Leda Raleigh's Noble Girl is still a good strong cow and should produce several more fine calves. She is not only a fine brood cow but is still a real dairy cow.

"I think so much of her and her daughters I went to Columbus, Ga. last July and bought me a fifteen months old bull whose dam was a half sister to Leda Raleigh's Noble Girl, both being sired by Leda's Raleigh. My bull's sire was Buttercup's Butterlad No. 17297, who sold at auction for \$3200. He was a son of Flora's Queen's Raleigh No. 13251. His dam was Raleigh's Eminent Buttercup who had won four world records in milk production when six years old. On an official test she gave 85 pounds of milk in twenty-four hours, and 18-138 pounds milk and 901 pounds.

4 ounces butter fat in one year, at six years and four months old. "I own 160 acres of land in Dawson county near O'Donnell, Tex. There are 120 acres in cultivation and 40 acres in pasture. I lease 160 acres, 130 acres of which is in cultivation and 30 acres in pasture. Of the 250 acres in cultivation I plant about 100 acres in cotton and the balance in feed of different kinds. I plant about 30 acres in sudan for pasture. I find Red Top sorghum my best paying crop for roughness.

"On my farm I keep about 20 head of high class registered Jersey cattle and from 15 to 30 head of registered Hampshire hogs. About 150 to 200 pure bred hens. I have a large family and we try to live at home as much as possible. We always have plenty of milk, butter, chickens, eggs, meat, and lard. We have a good garden every year, as we have plenty of good water to irrigate with.

"My cows are my biggest income, although we sold over \$3,500 worth of products off of our farm last year, not counting any of the crops. We are going to try to do better this year.

I have several trees of peaches, pears, and plums, old enough to bear, also a quarter of an acre in black and dew berries. I am putting out one-half acre in fruit trees now. We also have lots of grapes old enough to bear.

We have sold \$384.23 worth of products from Jan. 1 to Feb. 8 of this year, not counting any crops.

FEWER THAN 2 PER CENT OF MIDLAND PEOPLE ARE FAILING TO "DO DUTY"

Fewer than 2 per cent of the business and professional men will be out of the chamber of commerce when the "little" campaign started Tuesday, ends, chamber officials stated. Only two business houses in Midland have definitely refused to join the chamber.

A framed story of all business houses and professional men, grouped according to their class and business, and names of individuals will be on display at the office of the

Midland chamber. This will include only paid-up members.

Committees started work Tuesday on about 80 names, most of whom are newcomers to Midland, practically all others eligible for membership having already joined. Midland people who believe in their city and wish to do their part as citizens to help Midland grow, are invited to call at the office of the chamber to sign a membership card. Everybody in Midland is invited to join.

Confirmation Vote To Be Taken Wed.

WASHINGTON, Feb. 11. (AP)—The senate voted to take up confirmation of the appointment of Charles Evans Hughes as chief justice of the United States at the supreme court at 4 o'clock today. Final vote on the nomination before nightfall was indicated although the opposition of Senator Norris, Republican, Nebraska, voiced yesterday, was expected to lead to a debate.
