HOUSE CONTROL IN DOUBT AS VOTE COUNT NEARS FINISH

4 SEATS YET TO BE REPORTED

Texas Democrats on Safe Footing as Total Nears

Republicans and democrats had taken the attitude of watchful waiting today as election reports continued to come in, showing vast gains by the democrats and doubt as to control by republicans in the United States house of representatives.

Demos Hold Texas DALLAS, Nov. 6. (P)—The Texas Electric bureau left results of the state election and the five amendments unchanged with Ross S. Sterling, democrat of Houston, winning the governorship by almost five to one over W. E. Talbot, republican of Dallas.

GOP Lacks One WASHINGTON, Nov. 6. (P)—With the victory of Representative Selvig of the ninth Minnesota district, republicans today held 217 house seats, one less than a majority.

Two hundred and thirteen democrats have been elected and four seats are still doubtful. Republican and national committees both took the attitude of waiting returns from doubtful districts.

Senate Control Weak NEW YORK, Nov. 6. (UP)—Republican majority in both houses of congress was shattered by democrats in the off-year election, leaving the administration party with purely nominal control of the senate and quite possibly a minority in the house.

Garner to Cooperate UVALDE, Nov. 6. (UP)—Regardless of whether democrats control the house of representatives in the next session, Representative John Garner of Texas will cooperate with President Hoover, he said today, in an effort to restore prosperity to America.

Tax Notices Are Being Mailed Now

Tax notices have been in the mails for the past few days, informing the residents of the city, 4,365 of them to be exact, that taxes will be due by Feb. 1 and that a 10 per cent penalty will be charged automatically thereafter, and an additional six per cent penalty charged after April 1.

The assessed value of the county is \$6,147,460, which brings \$194,658.35 in tax money.

Is She Blue?

Elizabeth Fly, above, dainty coed at Louisiana State University, likes to be distinctive—her entire wardrobe of dresses, gowns, shoes, hats, lingerie and stockings is of blue or some closely kindred color.

GOBBLERS GLUM OVER OUTLOOK FOR TURKEY DAY

DALLAS, Tex., Nov. 6. (UP)—The business depression has provided a medium through which more persons can observe the approaching Thanksgiving in traditional manner than in many years.

Along with other commodities, the price of turkeys has dropped, and produce dealers report the price is and will be lower this year than in more than a decade.

The United States turkey crop will be adequate to meet the demand, and despite the summer drought will be but three per cent below that of 1929, in the estimate of the Ben Ablon Produce Company here, one of the largest shippers in the southwest which specializes in turkey trade.

The Texas crop will be about six per cent below last year's, the firm predicted.

At Cuero, south Texas town which styles itself the turkey capital of the universe where the turkey trot—a fantastic parade of gobbling birds—takes the rank of a queen's ball, the price is now quoted at 12 cents a pound.

Turkey farmers are urged to hold their crop at present and market only the choicest birds to uphold the standards of the village.

Ticket Sales to Start For Dad and Son Chow Scheduled for Nov. 21

GAS LINE BLAZE CAUSE OF THREE LOSING LIVES

SHREVEPORT, Nov. 6. (P)—Three are dead today as a result of a gas line blast yesterday in Panola county, Texas, near Bethany, Louisiana.

5-CENT GASOLINE TAX ATTACKED IN VARIOUS COURTS

Validity of New Mexico's 5-cent gasoline tax as to shipments brought in by private corporations for use in their own vehicles is being attacked in the courts and has been granted a United States supreme court review.

To Recommend Medal Award

Scout headquarters receive many notes that relate of the advantage of first aid learned by scouts, but an account of a Balmorhea scout who saved his companion from drowning is especially worthwhile.

Interesting Themes At Baptist Meeting

Several hundred Baptist pastors and laymen from all sections of Texas were expected at Amarillo Nov. 10 for their annual conference preparatory to the assembling of the Baptist General Convention of Texas on Nov. 12, says the Rev. George F. Brown of Midland.

Blalock Resigns To Practice Law

AUSTIN, Nov. 6. (AP)—Jack Blalock, first assistant attorney general, today submitted his resignation, effective immediately to become associated with a San Antonio law firm.

Date for Midland's annual "father and son" banquet was set by the committee today for November 21, at the banquet hall of Hotel Scharbauer.

Single tickets will be sold, each ticket being good for a man and a boy, the price of \$1.50 paying for both plates. Ticket sales will be started immediately.

NEGRO ADMITS RESPONSIBILITY FOR BIG BLAZE MEXIA, Nov. 6. (UP)—Stalling Love, 37 year old negro, today confessed that he took \$500 worth of merchandise from a dry goods store at Wortham yesterday, then set fire to the building.

Material Moving For Andrews Test

Location for a new oil test in Andrews county has been made and material is said to be moving now for immediate drilling.

Charles Just is going back to his first love. "I'll be in Frisco by the end of the week," he said just before taking a train to the west this morning.

Goes Back to Frisco Where He Once Lived

Over Heating Killed Calf, Not Black Leg A story carried in The Reporter-Telegram a few days ago, given to a staff member by telephone, was branded as an error today, the story referring to a calf's dying from black-leg just as it was being shown to a meat buyer with the idea of sale.

Over Heating Killed Calf, Not Black Leg

It was brought to the attention of the newspaper today that the calf, an exceptionally fat animal, died from becoming overheated after being driven a long distance to town and upon being penned at the stock yards. No evidence of black-leg appeared, it was said.

150 FIRST BELIEVED ENTOMBED

More Than 2000 Were Underground at the Time of Blast

MILLFIELD, Ohio, Nov. 6. (UP)—Eighty-one bodies were reported by officials today to have been recovered from the No. 6 mine of Sunday Creek Coal company, which was rocked by explosion in a gas pocket yesterday when 2,300 workers and company officials were underground.

NEGRO ADMITS RESPONSIBILITY FOR BIG BLAZE

MEXIA, Nov. 6. (UP)—Stalling Love, 37 year old negro, today confessed that he took \$500 worth of merchandise from a dry goods store at Wortham yesterday, then set fire to the building.

EARL ADAMS TO BE TRIED FOR DALLAS OFFENSE

DALLAS, Nov. 6. (UP)—Preliminary hearing for Earl Adams, 28, who is in jail here on a charge of robbery with firearms in connection with slugging and robbery of a Union Terminal company cashier, will be held here Saturday.

Eastern N. M. Area Stimulated by Shell

Activities in the Eunice district of Eastern New Mexico are expected to pick up with the advent of the Shell Petroleum Corp. into the field and the staking of two locations by the Continental Oil Co. in the area of the A. E. Meyer No. 1 in the southwest corner of section 17-21-36.

New Location for Loving County Made

Loving county got a new oil location this week. R. T. Bucy of Midland staking off one for R. G. Hartell et al for their No. 1 Brookfield, 19 feet from the east line and 1,488 feet from the north line of section 7, block 28, public school land.

Bulgaria Feels Series of Quakes

SOFIA, Bulgaria, Nov. 6. (AP)—Earth shocks of considerable intensity were felt along the Bulgarian-Yugoslavian border, causing panics at Godec and Berkovitz. Buildings were damaged but no casualties reported.

Newest Heir to British Crown

Here's the first picture of the young lady who stands fourth in line of direct succession to the British throne—Princess Margaret Rose, second daughter of the Duke and Duchess of York, with her mother.

FOUL PLAY FEARED IN HIS GOING

Burleson Man May Be Visiting in N. M. Or Colorado

DALLAS, Nov. 6. (P)—The disappearance of Dr. E. W. Provence, 51, president of Burleson college, Greenville, soon after his arrival here Monday, cause much concern and a search here today.

Inquiries were made in New Mexico and Colorado where she said he could have gone to visit relatives. Provence came here with William Caylor of Greenville, leaving Caylor's automobile near Lakewood country club saying that he was going for a visit with sister, then for a conference with J. B. Cranfill and Cullen F. Thomas concerning college affairs. No trace has been found since leaving the car.

Local News Briefs

ARRANGES SCOUT DETAILS A. C. (Ooke) Williamson, scout executive of this district, was in Midland Wednesday afternoon and today, aiding Marcos J. Williamson, field representative, in arranging scout work schedules and the overnight hike tonight of the leadership training school being conducted here.

BRING BLANKETS

"Bring enough food for two meals and plenty of blankets," said Scoutmaster Murphy when notifying his men of the overnight hike which will be held by the Leadership training school tonight.

SCOUT MEETING

Troop 51 will meet earlier than usual Friday night, at 7 o'clock. All scouts are asked to be present as a troop plan will be started.

BYPU Convention To Attract Crowds

DALLAS, Nov. 6. (AP)—More than 5,000 members of Baptist Young People's unions are expected to attend the state convention in Temple Nov. 27-29 it was announced at state B.Y.P.U. headquarters here.

JOHN KING OF COLTS FAME TO BE AN UMPIRE

WICHITA FALLS, Nov. 6. (AP)—John King, veteran minor league outfielder, manager of the Midland team of the West Texas baseball league in 1929, was signed to umpire in the Texas league next season, President Alvin Gardner announced today.

Flying Club Started Here Is Spreading

In announcing that two additional men will likely be sent to Midland to join the army personnel at the airport, First Lieutenant Thad V. Foster, in charge of airways of the Eighth Corps area, called attention to the spread of the "Ferried by Ass club," which received its name through a story carried by The Reporter-Telegram a few weeks ago.

Less Employment In Texas—Moody

AUSTIN, Nov. 6. (UP)—With more public construction underway than ever before and railroad building going forward, Texas is suffering less from unemployment than other places, Governor Moody announced after making a general review of conditions today.

United Press Writer In Midland Today

Tom Mahoney, for the past year city editor of the El Paso Post and a war correspondent in the recent insurrection in Mexico, was in Midland this morning on his way with his bride of two weeks to Dallas, where he will join the agency of the United Press.

Foul Play Feared

GREENVILLE, Nov. 6. (UP)—Dallas and Hunt county authorities today engaged in a search for Dr. E. W. Provence, 51, president of Burleson of Greenville, who has been missing since noon Monday when a friend let him out of his car near Lakewood country club in Dallas.

Known Here

E. W. Provence was known to many Midland people who attended college at Baylor University of the Texas Technological college. He was associated with those schools as business manager and later went to the presidency of Montezuma college in New Mexico.

Kervin No. 1 Taps Salt 75 Feet Higher

Salt was this week topped 75 feet higher in the Kervin et al No. 1 Mathena test than any well yet drilled in Midland county. Salt was topped at 1610 feet and the well is now drilling at below 2,000 feet. The test is in the southwest corner of the northwest corner of section 40, block A, township 3-south.

DEVELOPMENT OF TEXAS

"Texans do not seem to hear, or hearing, do not heed, the challenge of this great Texas empire in which we live," declares John W. Carpenter, president of Texas Power and Light company.

Mr. Carpenter paints a graphic picture of what is possible with the natural resources of Texas. He points out "It is incompatible with reason that anyone should say that 'business has gone to the dogs' in a state where \$180,000,000 are being spent by the government and the utilities during 1930."

In presenting his picture of Texas, Mr. Carpenter points directly to facilities which augment development of the state. He points specifically to transportation, both by railroad and highway, electric-power facilities, vast deposits of stone and mineral, educational advantages, the billion dollar agricultural income, and particularly to the manner in which Texas farmers have injected commendable diversification into their farm programs.

Mr. Carpenter concludes "The mere fact that this challenge comes to us in a time of depression is of itself significant. Our wits are sharper, our energies more fully charged, and we are more eager to tackle a hard job that promises reward."

BREEDER-FEEDER AIMS

The breeder-feeder movement will do more to get the farmer of Texas on a sound financial basis than anything else. It will automatically bring about diversification. It will save Texas soil from the terrific punishment which it has undergone for half a century from our diabolical one-crop notion of farming.

Mr. Holland points to a three way profit from feeding livestock with Texas feed on Texas farms. His observations in the article are interesting to farmers who show active interest in bettering conditions on their farms today.

A MISNOMER

The phrase "Red Cross Seals" is a misnomer, according to a joint statement issued by the National Tuberculosis Association and the American Red Cross, a copy of which has been received by the Texas Tuberculosis Association.

The proper term is Tuberculosis Christmas Seals. The seal is no longer sold by the Red Cross and has not had any connection with the Red Cross since 1919. It is manufactured by the National Tuberculosis Association and distributed by the state associations and their affiliated chairmen.

The proceeds of the sale in Texas are used to carry on the health work of the tuberculosis societies in this state. They have been sold each year since 1911, in Texas. The Texas Tuberculosis Association, which was formerly known as the Texas Public Health Association, is planning an increased sale of the little seals this year in order that they can adequately support an increased program of activity.

The Red Cross raises its money through the annual roll call and through special contributions in time of disaster. By agreement between its national headquarters and the National Tuberculosis Association the Roll Call is limited to the time between Armistice Day and Thanksgiving and the public sale of Tuberculosis Christmas Seals begins the day after Thanksgiving. At that time thirty-two million seals will be offered to the citizens of Texas and it is expected that they will find a ready sale.

STICKLERS

FARMER JONES has numbered his pigs from 1 to 16, and arranged them in their sties so that when the numbers are added, each horizontal, each vertical and the two long diagonal lines total 34. Now, supposing he hadn't used the numbers 2 and 15, but instead repeated on two of the numbers already used. How could he arrange the pigs so that the rows, the columns and the two diagonals would still add up 34?

Solution of this problem will be found on the comic page today.

America's Greatest War Ace

The Thrilling Story Behind President Hoover's Decoration of Eddie Rickenbacker

© 1930 BY NEA SERVICE INC.

Over Here—1930!

Daily Washington Letter By Rodney Dutcher

Business Depression Gives Installment Buying Plan Its First Real Test, but Whether the System Will Weather the Storm Will Not Be Known Until After First of Year

RICKENBACKER'S VICTORIES

Here is the official list of Eddie Rickenbacker's victories in bringing down four balloons and 21 planes:

Table with columns: Date (1918), Type of plane, Region, Time, Altitude (Meters). Lists 27 victories with details such as 'April 29 Albatros Bausant 6:10 p.m. 2000'.

Rickenbacker is also credited by his buddies with having shot down another plane—making 26 enemy aircraft in all—but as it disappeared behind the German lines and official confirmation was never obtained this does not appear on the official records.

"Then," says Rickenbacker, "I drove more steeply, passed out of the gunner's view under the nearest machine and shot up quickly at him from below."

"But the victory was not an easy one. The pilot suddenly kicked his tail around, giving his machine gunner another good aim at me. I had to postpone shooting until I had more time for my own aiming. And in the meantime, the second photographic ship had stolen behind me and I saw tracer bullets go whizzing and streaking past my face. I zoomed up diagonally out of range, made a sudden change in my direction of flight and came directly back at my first target."

"That was Rickenbacker's crucial moment. Six of his seven foes were still in the sky. The two photographic planes were blazing away at him with their machine-guns; above, the four remaining Fokkers were reforming their line to attack."

"Rickenbacker steered for another bold attack. Sends Second Victim Down in Flames"

"Watching my two adversaries closely," he says, "I suddenly found an opening. They were dropping parallel to each other, and not 50 yards apart. Dropping down into a sideslip until I had one machine between me and the other, I straightened out smartly, leveled my Spad and began firing."

TOMORROW: General Pershing's chauffeur who learned to fly in three weeks and became Uncle Sam's greatest ace.

The Town Quack

Reserves the right to "quack" about everything without taking a stand on anything.)

An east Texas newspaper is credited with this excerpt from a story: "The missing bank cashier is 5 feet 11 inches tall and \$38,500 short."

Did you hear the one that was going the rounds yesterday about the farmer who died, leaving a peculiar will for dividing his livestock among his three sons? It seems that he left the oldest (or eldest) son one-half of the stock, the second son one-third and the youngest one-ninth. On checking up the horses it was found that there were 17. Not being able to divide the 17 horses by 1-2, 1-3 or 1-9, the boys were in a quandary. Finally one hit upon an idea. He borrowed a horse from a neighbor. Dividing by 1-2, the oldest boy got 9 horses, dividing by 1-3 the second boy got 6 horses, and dividing by 1-9 the youngest boy got two horses, and adding them up there was a total of 17. They returned the neighbor's horse and everybody was satisfied.

Will Hays said, "we are gathering momentum for an upward swing

1930 as compared with the first eight months of 1929. These figures are gathered by the Census Bureau from 485 automobile-financing organizations.

This year, it appears, people have been buying fewer cars, older cars and cheaper cars. For the eight-month periods, they bought 2,569,000 cars on the installment plan in 1929 and 2,234,000 in 1930.

A great decrease in the number of new cars sold and financed was accompanied by a small increase in the number of used cars. New cars: 1,359,000 from January through August of 1929 and only 1,052,000 in the same period of 1930. Used cars: 1,086,000 in 1929 and 1,116,000 in 1930.

The average new car financed cost \$591 in 1929 and \$560 in 1930.

The average used car financed cost \$301 in 1929 and \$276 in 1930.

Check Retail Stores Getting back to the stores and Dr. Plummer's survey, this work covers 523 retail establishments in 24 cities which had total net sales of \$560,708,000 for the first six months this year. They were engaged in seven leading retail lines—department stores, furniture, jewelry, men's clothing, shoes, women's specialties and electrical appliances.

Credit sales increased slightly in proportion to cash sales—but very slightly. Regular charge account sales increased from 43.3 per cent in 1929 to 48.9 in 1930 and installment sales from 10.4 to 10.5 per cent. The installment sales increased proportionately in the first three months.

The percentage of returned goods in installment sales rose from 13.7 in the first half of 1929 to 14.6 in the first half of 1930.

Real Result Yet Unknown The percentage of returns on jewelry rose from 16.5 to 19.1, on electric appliances from 12.8 to 15, on women's specialties from 3.7 to 13.9 and on men's clothing from 4.3 to 6.5, while returns to furniture and department stores remained about the same.

But Dr. Plummer points out that the real story won't be known—and he won't venture to predict it—until the survey for the whole year is made.

The semi-annual survey showed half-year decreases of sales in 1930 from 1929 to 19.5 per cent in jewelry, 14.1 in furniture, 10.2 in shoes, 10.1 in men's clothing, 6.6 in women's specialties and 5.3 in department store sales. The only increase was one-tenth of one per cent in electrical appliances.

that will lead to world recovery!! Now when someone refers to quiet times, just tell him "we are busy gathering momentum." It's like when Johnnie Nobles was milking a cow. Some wise bird walked up and asked, "Milking?" To which Noble replied, "No, I'm just feeling her pulse."

Bulldogs, listen to me! Pecos was offered four hundred bucks to come over here and play on our grass field. That wasn't to provide youse guys with a soft place to light or to protect your lily white skin from the sand-burs. It was to get that Armistice Day crowd to Midland. Any-way, Pecos unanimously elected the home lot for the game and now that they did, I want to see you hounds beat them two touchdowns worse than it was planned to beat them in Midland. They want to play at home. Well, let's beat them at home so bad that they will want to get beat away from home next time. And, boys, they are working plenty. They have everyone of you by name and by description and they are calling a scrub backfield man Burris and then wading in to slaughter him. The same goes for all of the rest of you. Pecos is after you and it won't be "no kid's game" to beat them. Let's be tough and do a good job of this. We're nearing the finish of the championship and let's finish strong.

SOCIAL NEWS PAGE FOR WOMEN

Thirty-six Women Form South Ward Parent-Teacher Association; Mrs. L. H. Naylor to Be President; Others Elected

The second organization of a Midland Parent-Teacher association was perfected Wednesday afternoon when thirty-six mothers and teachers of students in South Ward school met at the building and named officers and department chairmen.

Mrs. L. H. Naylor was chosen to lead the association and vice-presidents to assist her are Mrs. A. B. Stickeny, first-vice-president; Mrs. Lineberry, second vice-president; Mrs. Frank Nixon, third vice-president; J. T. Robison, fourth vice-president; Mrs. McGrew, fifth vice-president; Mrs. Dale, sixth vice-president; Mrs. T. D. Mize, seventh vice-president.

Mrs. E. W. Hough will serve as secretary and Mrs. Tyson Midkiff, treasurer.

After the election of officers, Mrs. Naylor appointed chairmen of various committees. Mrs. Oren Collins is chairman of the program committee; Mrs. Lineberry, membership; Mrs. H. S. Tate, finance and budget; Mrs. Holder, legislative chairman; Mrs. D. E. Holster, publicity; Mrs. Gordon McGuire, social and Mrs. Anderson, magazine.

Each room of the school will have a mother to enlist every child's mother in the program of the association. Room mothers appointed yesterday were Meses. Creech, Schneider, Newton, T. D. Jones Jr., Elmer Patton, M. Bennett and Holder.

Regular monthly meetings of the organization will be held the second Thursday of each month, the next being Nov. 13, at 3 o'clock.

Gift Shop Is Opened by Mrs. F. E. Cragin

Invitations announcing the opening of a gift shop by Mrs. F. E. Cragin at her residence, 1023 West College, were received by Midland women yesterday. Mrs. Cragin will be assisted by Mrs. Florence Richardson.

For the shop, Mrs. Cragin has prepared an excellent variety of gifts in linens, glassware, utility articles, and novelties. The shop will be permanent and hostesses of clubs will find it a shopping center for attractive prizes.

Women have been asked to have tea with Mrs. Cragin and Mrs. Richardson from 3 to 6 o'clock tomorrow afternoon.

Announcements

Friday Belmont Bible class will meet at the home of Mrs. A. B. Stickeny, 1100 S. Loraine street at 3 o'clock.

"A REMARKABLE REVELATION"

Says

HON. JAMES FRANCIS BURKE

General Counsel of the National Republican Committee

Congressman 1905-1915. Government Director of War Savings during World War.

"Americans love to do their own thinking—But they welcome facts from others. You are wise in letting every smoker know that you employ the modern Ultra Violet Ray principle in 'Toasting LUCKY STRIKE tobaccos. This 'extra secret process' is a remarkable revelation."

James Francis Burke

Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray. LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating!

"It's toasted"

Your Throat Protection—against irritation—against cough

Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. James F. Burke to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Burke appears on this page.

MIDLAND BREAKS OFF FUTURE HOLIDAY GAMES WITH PECOS TEAM

ODESSA IS ASKING FOR BIG GAME WITH DOGS

The practice of Midland playing Pecos on the two important holidays of the season, Armistice and Thanksgiving, will be broken after this year. It was given out at the high school this morning.

Pecos, once the second largest town in the district, deserved the games, it was said. But now Pecos has been outstripped by Wink and is not keeping ahead like either Wink or Odessa as regards plans for better athletic equipment.

Wink and Odessa plan grass grids next season, and Odessa has already asked for the Turkey day game.

The action of Pecos in not coming to a more 50-50 arrangement on the Armistice day game this year is believed to have figured in the decision, but no statement of this kind was authorized by the high school.

FROG SPECIAL TO RICE OWLS OWN TERRITORY

FORT WORTH, Nov. 6.—The Texas Christian university Horned Frogs and the Rice Owls will be playing a "rubber" game in Houston next Saturday. A survey of past results between the two schools shows that the Frogs have won three games, the Owls have won three, and two have been ties.

Last year, plowing through mud and water, the Champion Frogs ran up a quartet of touchdowns on the Owls but missed every try at goal with the slippery pigskin, the final score being 24 to 0. Sheer drive netted three touchdowns for Harles Green, with Football Moore adding the fourth.

This season the Owls are a vastly improved aggregation and Coach Schmidt and his charges are planning for Saturday's fray with no idea of anything but the hardest fight yet this season. Rice, even with comparatively weak teams, has always been hard for T. C. U. to beat. This year, with probably as great potential strength as any squad in the conference, the Owls are planning for victory.

The unusual interest that the game is attracting here is shown by the announcement Tuesday that a special train will carry some 500 Frog supporters, including the Horned Frogs band of 60 pieces, to Houston Friday night.

HE USED INSTALLMENT PLAN

BUDAPEST. (UP).—A new twist to the installment plan was revealed here when police charged that Johann Segiadi bought goods on the installment plan and then resold them at huge profits. His profits averaged \$1000 per month, officials charged.

DISTRICT 8 TANGLE

The days when men along the Pecos gave a man a chance appear to have passed into history. When a man went to shoot it out with another he expected in most cases to get a chance at the draw. These were wild and woolly days then and the man who could reach for his gun fastest and start "gunning" was the one who lived longest.

That was before football Midland offered Pecos \$400 to come here on Armistice day for a football game and Pecos refused. At the same time Pecos offered Midland \$100 to go there. And, as the schedule said Midland should go there, Midland goes. But the thing that Midland did not like about the proposition was that Pecos admitted it could make more money by coming to Midland than to play at Pecos. It was readily admitted that Midland has a finer field and that more people would see the classic here than there. Still, Pecos held out that Midland would have to come there. It doesn't look just right from every angle.

Chances are, Midland will beat Pecos by about four touchdowns. Why not play the game here, on the stretch of green at Lackey field? It is likely that 4,000 people would see the game. In Pecos there is no stadium in which to play and those who will see the rough and tumble could not stack up against the crowd that would assemble here.

Here is about the way Midland talked through Superintendent Lackey to Superintendent Humphries of Pecos: We will give you four hundred dollars to play in our athletic field. Your football squad will be quartered at Hotel Scharbauer.

And here is the answer: We can't do it.

Subsequently there were other offers. All were rejected. Then Lackey asked Pecos to provide a clause in the agreement whereby Midland would get \$250 for the game. Pecos refused. Lackey asked that \$200 be guaranteed, half of the amount in tickets. This also was turned down.

"Then we will come over and give you a good game for nothing," Lackey said.

Only the teams with vision can play Midland on important days like Armistice, and Pecos showed a decided failure to understand the true significance. As a result, Midland will not give Pecos Armistice engagements in the future, it is likely. Under no obligation now, inasmuch as return games shall have been worked off by the Armistice affair, Midland will give the liberal teams the best chances. "We have broken no relations with Pecos," Superintendent Lackey said. "We have nothing but the kindest regard for Pecos. But we will try to play bigger games on that day. We cannot go such distances for one hundred dollars."

GREAT POLISH PIANIST OBSERVES 70TH BIRTHDAY ANNIVERSARY AS HE TOURS AMERICA; WAS PREMIER Paderewski at 70

World famed as a pianist and statesman, Ignaz Paderewski—now in this country—is celebrating his 70th birthday anniversary today. This is a striking new posed portrait of the great virtuoso who, as former Premier of Poland led in the political restoration of his native land.

NEW YORK, Nov. 6. (UP).—Ignaz Jan Paderewski, prince of the piano and one-time ruler of 30,000,000 people, observed his 70th birthday anniversary today, trying to replenish a fortune dissipated through generosity.

The most famous pianist of the 19th century arrived in the United States planning to give 70 concerts.

For the first time in years he departed without his wife who is incurably ill in their chalet in Switzerland.

Born in Podolia, Russia-Poland, November 6, 1860, Paderewski began playing the piano at three. When he was 12 he was sent to Warsaw to study, even though his first teachers held little hope that he would ever be a great pianist owing to his small hands.

Early Education Difficult

Even the great pianist admits his early education was difficult, adding that when he found he could not play the difficult passages he "merely improvised." From Roguski and later from Frederick Kiel in Berlin, Paderewski acquired a knowledge of harmony and counter-point that have been a part of his success.

At 18, he made a triumphant tour of Russia, Siberia and Rumania. Twelve years later, after giving up a life of drudgery while teaching in the Warsaw Conservatory, he came to London and was coldly received.

Saddened by the death of his first wife whom he had married when 20, Paderewski at 26 went to Vienna and Paris. After his London appearance he came to America which acclaimed him. Newspaper dispatches revealed that hundreds gathered at railway stations to see him as his train passed. Crowds walked miles to hear him in Texas.

He is said to have earned \$800,000 on one American tour. Much of this was spent in maintaining his company and in aiding impoverished, or struggling musicians. A great part of the fortune he had accumulated was poured into Poland after the war when he became Prime Minister and first President. During 1918-1919 Paderewski's name was on the tongue of hundreds of thousands of Polish peasants who loved him and believed him to be the one to carry on the work of the dead Kosciusko.

Dodged Piano

For two years Paderewski would not allow a piano in his room. For an additional three years he did not play a note.

"I cannot play when the heart of my nation is so sad," he explained. After Poland's recovery, the pianist emerged from his retirement. Most of his fortune was gone. He enjoys telling the story that while he was representing his country at the Versailles peace conference, the late Clemenceau approached him and said:

"Are you the M. Paderewski who used to play the piano?"

When the pianist replied in the affirmative, the "Tiger" said sadly: "And now you're a premier. What a drop."

Paderewski was married as second time in 1899.

He was knighted by King George in 1925, but has never used the title. He appeared only once before the microphone, in 1925, declining to broadcast again because it made him too nervous.

Paderewski's patriotic spirit often has been commented on, but was acutely revealed once when he appeared before the Tsar in St. Petersburg and was praised by the ruler as a great pianist of which "Russia is proud to number you among her subjects."

The pianist quickly replied: "Pardon, sire. I am a Pole—not a Russian."

The next day he was escorted by police to the border.

A-A-A-CHOO!

BERLIN.—There's no excuse now for staying in bed after the alarm clock goes off and then going back to sleep. A new German clock recently invented takes care of that. It has a novel device attached to it which, at the given moment, explodes a cartridge containing a pungent gas. This causes the sleeper to sneeze himself awake.

Living Standards Higher Now Than in Previous Depressions

By ALLARD SMITH
Executive Vice President, The Union Trust Co., Cleveland, O.

During the past half century there have been 13 business cycles. Studies of leading authorities indicate that the average duration of these cycles was slightly more than 39 months. The period of decline and unsettlement averaged 16 months and the duration of recovery and prosperity averaged 23 months.

The present period of industrial depression started in the late summer of 1929 and became acute in the fall with the collapse of the stock market. Industry has now been on the decline for more than 14 months, or lacking only two months of the average duration of past depressions. Signs that the bottom of the recession has been reached are beginning to appear.

Comparison of the present business crisis with those of the past reveals that in many respects conditions are more favorable now. For example, this year the production of steel will approximate 720 pounds for every man, woman and child in America, compared with 1,000 pounds in 1929, a decline of only 27 per cent. But in 1921, the last previous year of great depression, steel output per capita dropped to 400 pounds. In 1908 it was 353 pounds and in 1893 it was 35 pounds.

The year's probable output of automobiles of almost 4,000,000 cars will compare with 1,700,000 in 1921. These records mean that despite the depression American living standards are continuing on a much higher plane than they did in former times of stress. The most encouraging factor in the outlook is the almost universal agreement among industrial leaders that the buying power of wage earners must be maintained at the highest possible levels.

How Old Are You?

THIS IS THE DATE I'M 48

My Mind Is Keen—My Skin Is Clear of Petty Ills I Have No Fear

No doubt about it—I am 48 and never felt better in my life—I feel like 30 and you can take my word for it—It's the little Daily Dose of Kruschen That Does It.

Once I was fat and forty—had headaches a plenty—Was tired out most of the time—My liver was sluggish and my bowels inactive—I searched for a real remedy and by good fortune I found it in Kruschen Salts.

Fat isn't healthy—so Physicians state and I want to say to this world full of fat people—that the Kruschen Method of losing fat is safe, sure and sensible—just out on sweets—pies, pastries and ice cream for a month—go light on potatoes, rice, butter, cream and sugar—and don't forget to take one half a teaspoon of Kruschen Salts in a glass of hot water before breakfast every morning.

I wish I could induce every overweight person on earth to try this splendid method—It surely doesn't cost but a trifle—for an 85 cent bottle lasts 4 weeks and can be bought at Mays-Young Drug Store or any drug store in the world—Get it—Grow Thin—Feel younger. (adv.)

Bleeding Gums Healed

The sight of sore gums is sickening. Reliable dentists often report the successful use of LITTO'S PYORRHEA on their very worst cases. If you will get a bottle and use as directed druggists will return money if it fails. Mays-Young Drug Store. (Adv. 2).

NEW PICTURES IN LEAGUE CONTEST ARE ANNOUNCED

AUSTIN, Texas, Nov. 6.—Publication of the bulletin, "Pictures Children Should Know," devoted to the art memory contest of the Texas Interscholastic league, has been announced by the University of Texas League bureau. This is the second year that such a contest has been offered in connection with the League work.

It has been urged for a number of years that the league include in its schedule of events for county meets an art memory contest. Roy Bedichek, chief of the University League bureau, said, "In quite a number of counties the art memory event is one of long standing, having been taken up as a special contest, irrespective of the fact that the league did not recognize it in counting points for county championship. Different rules have been applied in different counties, a wide variety of selection used, little if any supplementary material provided; so it seems that full value has not been secured, although in several counties excellent supervision has been secured and fine results obtained."

Last year the league, in response to what seemed to be a general demand, included art memory in the

regular schedule of events for which points may be counted toward county championship. There is only one division provided to which only fifth graders in any member-school of the league are eligible.

"The rules are drawn with a view to getting the best educational results. A relatively large number of pupils will compose the art memory teams. Classical pictures and world famous artists will be studied. This bulletin, prepared by Mrs. Parlee Hookner Lang, assistant in the University Extension Loan library, will furnish interesting reading lessons. Sympathetically taught in connection with good reproductions of the pictures, it will be found that a genuine love for the selections may be developed in a large percentage of the children. Once some sort of real appreciation for beautiful pictures comes to a child, he will never lose it. He may forget the names of the pictures and the names of the artists, but a love for beautiful pictures become a part of him, a possession which will permanently enrich his life. Receptiveness to beauty, Dr. A. N. Whitehead says, is an essential element of culture.

"Here is a fine opportunity to make a start with children while they are young and plastic. The competitive stimulus is given, as in all of the league contests, as a sort of pedagogical trick. Winning or losing is of small importance. The great thing is to open the minds of the children to new fields of beauty."

The picture memory selections for 1930-31 include the following: "Christmas Chimes" by Blasfield, "Death of Wolfe" by West, "The Town Hat" by Sully, "The Lookout

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

CREOMULSION FOR THE COUGH FROM COLDS THAT HANG ON

We choose GENERAL ELECTRIC FULL RANGE RADIO

for the same reasons that you will choose it.

This ultra-modern radio combines every good quality known to radio science:

- Full-Range Sensitivity to penetrate staggering distances
- Full-Range Selectivity for hairline separation of stations
- Full-Range Tone to reproduce every vocal inflection, every musical note naturally.

And it is General Electric... out of the House of Magic where scientists and engineers for years have been making radio history.

Our object always is to give our customers the best value in radio receivers.

Hear it! See it! Compare it! Three beautiful models... extraordinary radio at ordinary prices. Come in TODAY.

LOWBOY—A distinguished example of early American cabinet design. Harmonizes beautifully with any surroundings. Super-heterodyne circuit, 9 tubes—four of which are screen-grid. More selective and sensitive than any set hitherto offered to the public.

EMPLOYERS HERE REFLECT IDEAS OF BIG BUSINESS

Business men of Midland are thinking like some of the greatest industrial leaders of America along the line of keeping their employees and keeping their wages up. Midland merchants are aiding their own business and that of the entire city by assuring their employees they are not to be fired and not to have their pay cut.

Here are some great American business men speaking:

"James A. Farrell, president of the United States Steel corporation: 'Wages in the steel industry are not coming down—you can make up your mind on that.'

"G. F. Johnson, Endicott-Johnson Shoe company: 'Reducing income of labor is not a remedy for business depression; rather is it a direct and contributing cause.'

"Chesley R. Palmer, president, Cluett-Peabody company: 'A general reduction of wages and salaries at this time is entirely unwarranted and unthought of.'

"Albert R. Erskine, president, Studebaker corporation: 'Have not even considered lay-offs or reducing wages or salaries.'

"Walter J. Kohler, president, Kohler & Kohler: 'Our company is maintaining its organization and its wage scale.'

"Howard Cooley, Walworth & Co.: 'Have no thought of reducing force or wages.'

"Newcomb Carlton, president, Western Union Telegraph company: 'Worst method business can employ in depression times is to lower wages of employees.'

And from Boston comes the similar cheering news that the Associated Industries of Massachusetts favors maintaining present wage scales.

Negroes Here Find Depression Cause

Two negroes, in a "prominent" Midland alley, were discussing politics this morning. They had seen headlines on newspapers referring to the democratic victories.

"Mr. Al Smith is already president, ain't he?" one asked.

"No, Mr. Al Smith ain't president. Mr. Hoover's president," his better informed companion advised.

"Well, I done heard a long time ago that if Mr. Al Smith was president we would have hard times. We got 'em, ain't we?"

Market Report

Steadier tone prevailed on New York cotton exchange around noon today with prices moving within narrow range few points below yesterday's closing levels. Trading was moderately active.

Girl or Boy, He Could not Decide

Mark Williams, old timer in the teaching profession, is interested in the present day methods of the public schools in allowing Mexicans their individual schools. He was in Midland today after a return from Peru, where he went 12 years ago after teaching at a border town, now his home.

"We had mixed classes in those days," he said. "Innumerable incidents occurred to mar the easy running mechanism we might have had. I recall one incident especially. It was almost absurd, so humorous was it. I noticed a little Mexican boy one day and found the next day he was a girl—or so he was dressed. On alternate days he changed his trousers for dresses. The whole school began to wonder at his sex. Finally I asked him or her what he or she was—a boy or a girl. He or she didn't know. I asked some of the ladies in the faculty on various days, but they took one squint at his pants and called him a boy, or else sized up her dress and opined she was nothing more harmless than a girl.

"Finally the whole school was wondering. The kid got to noticing it and one day was standing between the sections marked off for playgrounds of boys and girls. The kid was crying.

"I decided to find out the fastest way possible.

"Hey, you two! I called to two of the ladies in the faculty. 'Beat it over to yon freak and find out whether it's a girl or boy!'

"They did so, but the kid evidently knew what was coming; for it gathered up its clothes, skirts they happened to be that day, and quit school faster than any ineligible I've ever seen.

"The next day I got a note from the child's parents.

"She am boy," the negligent handwriting said.

"And the mystery was settled."

University of Texas Is Getting Rich from Oil

AUSTIN, Texas, Nov. 6. (P)—After many years of being wealthy in land but with very little actual cash in the treasury, the state of Texas now is beginning to reap a golden harvest from its broad acres, according to the biennial report submitted to Governor Dan Moody by J. H. Walker, commissioner of the general land office.

So rich was the state in land that when decision was made to erect a new capitol back in the 1880's it swapped 3,000,000 acres of land for the price of the building. This was in the days, however, when it was actually rather hard for the state to get rid of its land.

Now, no such condition exists, as the report of the commissioner shows, numerous tempting bids being received whenever the state announces it will take tenders on land.

The answer is oil. Where formerly sheep and cattle had a difficult time getting enough forage off the land to sustain life, there now are countless oil wells dotting the horizon, "flowing" millions of dollars yearly into the coffers of the state in the form of royalties and other millions in gross receipt and production taxes on oil, gas and gasoline.

Commissioner Walker's report shows that during the 1916-18 biennium, the state received only \$4,754,722.70 from its lands. Of this amount only \$159,041 was in royalties and fees, the remainder being rentals and payments on land.

The report covering the period between Oct. 1, 1928 and Sept. 30, 1930, shows the total receipts into the land office were \$13,799,240.93. Of this amount \$568,484.24 was returned to the customers of the state due to overpayments. During the first year of the biennium, a total of \$6,825,145.51 was collected, while during the second year the collections soared to \$8,308,796.17.

The oil royalties for the two years totaled \$6,264,002.43. Of this amount, \$3,876,161.14 was deposited to the credit of the University of Texas from leases on lands set aside by the constitution, \$2,151,288.71 from leases on free public school land and \$236,552.58 from leases on river beds and submerged coastal areas.

The remainder of the \$13,799,240.93 was received in the form of bonuses for the lease of land, some of it the most valuable oil areas in the country, and in payments on land that has been under lease for many years.

Since 1916, a total of \$60,286,526.49 has been collected in payments on principal, interest and lease rentals acreage owned by the land endowment institutions of the state. The report shows the gradual rise in the value of the land office, from the time when the major portion of the land was used strictly for farming stock raising purposes, to the era of unprecedented oil development.

Receipts in 1916-1918 totaled \$2,270; in 1918-1920, \$7,577; in 1920-1922, \$5,036,191.45; in 1922-1924, \$6,541,558.22; in 1924-1926, \$7,941.12; in 1926-1928, \$12,484.12; in 1928-1930, \$13,799,240.93.

Over the two years just passed, \$5,214,463, aggregating \$1,322,822 in notes, have been paid

Lions Meeting With Success in Move

(By Harry Livingston Haight)

The Lions club of Midland announced the plan for the collection and distribution of periodicals for the benefit of those living in the rural sections of Midland county. At 2 p. m. yesterday there had been received six donations of magazines including one from Miss Mildred L. Ethridge, who conducts a cigar and news stand. Miss Ethridge heard of the plan and immediately consulted a representative wholesale news dealer with the result that all left-over periodicals each week will be donated for this purpose. Now that this matter has been so successfully launched it is urged that it become a permanent institution. It can become so if every one makes it a practice to bring all cast-off literature to F. J. Middleton's tailoring shop in the Schrabauer or phone him, 30, and what he will be called for. Midland people have the delightful habit of making a success of anything they undertake.

in full for patenting. The number of acres sold, but which has not been paid, totals 20,273,451.23 with obligations thereon amounting to \$32,078,176.80.

Detailed deposits to the credit of the various funds from Sept. 1, 1928 to Sept. 1, 1929 were:

Permanent school fund, \$1,070,928.45; available school fund, \$1,176,269.04; first pay permanent school fund, \$1,016,126.49; permanent university fund, \$324,556; available university fund, \$3,448.78; first pay permanent university fund, \$1,781,690.69; first pay available university fund, \$24,334.60; permanent deaf and dumb asylum, \$2,471.12; available deaf and dumb asylum, \$630.67; permanent lunatic asylum, \$300; available lunatic asylum, \$335.76; permanent blind asylum, \$791.29; available blind asylum, \$486.30; permanent orphan asylum, \$1,395; available orphan asylum, \$526.88;

Sept. 1, 1929 to Aug. 31, 1930: Permanent school fund, \$882,707.18; available school fund, \$1,061,463.98; first pay permanent school, \$1,682,326.18; first pay available school, \$706.61; permanent university, \$638.77; available university, \$297,058.61; first pay permanent university, \$3,912,693.81; first pay available university, \$7,740; permanent deaf and dumb asylum, \$1,608.63; available deaf and dumb asylum, \$528.98; permanent lunatic asylum, \$1,320.82; available lunatic asylum, \$219.94; permanent blind asylum, \$651.80; available blind asylum, \$422.97; permanent orphan asylum, \$659; available orphan asylum, \$445.32; general revenue, \$150,648.92.

Records in the office of W. Gregory Hatcher, state treasurer, show that bonds totaling \$38,573,033 have been deposited to the credit of the permanent free public school fund. The fund also showed a cash balance of \$145,073 as of Aug. 31.

The University of Texas permanent fund had \$16,688,250 in bonds to its credit with the state treasurer on Aug. 31 and a cash balance of \$21,458.37.

Club Service Is Subject at Rotary

Fellowship and attendance were the principal subjects of a program given at the Rotary club today by the club service committee of which Malcolm Meek is chairman. Meek made introductory remarks concerning the purpose of the program and introduced Fred Wemple, chairman of the fellowship committee.

The first act of the committee was to "break up" the crowd, dispersing the usual "gangs and huddles" and getting the crowd seated differently from acquired habits.

The next feature was to have Rotarians stand and introduce club members opposite them at the table, giving name and classification. Wemple concluded this part of the program by giving pointers on how fellowship may be promoted within the organization, incorporating many humorous remarks.

Kenneth Ambrose addressed the club on the value of attendance, the relation of individual attendance to club standing and how better attendance may be brought about.

Visitors today included Chas. Brown of Cisco, Chas. Stubbs of Texarkana, R. C. Collier of the Hughes Tool company, Marcos Williamson and W. W. Lackey.

High School Band Is Extraordinary

Director Shrader of the public school bands, says he found one feature in Midland he has never seen anywhere else.

"When the circus was here the junior high band didn't want to go see the elephants, but said it had rather practice," he said.

Can you imagine anything like that?

Shrader is bringing the junior band up to take the places of graduates from the high school band. He says the new members will be playing overtures with correct instrumentation next season.

Shrader gives Superintendent Lackey and the public of Midland credit for the showing of his organizations.

"The superintendent certainly believes in support of the band," he said. "He gives much time to it and is always interested in anything that will make it stronger. The same thing is reflected in the attitude of the public. That sort of co-operation will make Midland's band known some of these days as one of the crack units of the state."

NOT DISCOURAGED

SAN ANGELO, Nov. 6. (AP)—J. L. Lancaster, president of the Texas & Pacific railroad, will keep right on filing applications until the Abilene and Southern is extended from Ballinger to San Angelo. W. R. Lence, general manager of the Abilene & Southern, said here recently.

Mr. Lence said neither he nor Mr. Lancaster were discouraged by the temporary delay met before the interstate commerce commission, characterizing the battle thus far as a draw.

"We have won two votes and the Santa Fe two," he said. "We received the vote of the examiner who said we would be allowed to build here. Then we got the vote of one member of Division B. of the commission. The Santa Fe got the votes of two of the commissioners. We received the vote of the chairman, and we feel he will be helpful in getting a hearing before the entire body."

He declared this city must have the direct outlet to the north and west to become a large city, adding that the Texas & Pacific was the only line that could give San Angelo the service needed.

CATTLE GETS SHOES, TOO
ELY, Nev., (UP).—Many range cattle now boast new footwear—steel shoes made necessary by heavy livestock loss from sore and infested feet. Marked decrease in cattle deaths have been the result.

NORMAL BABY WILL DOUBLE ITS WEIGHT DURING ITS FIRST FIVE MONTHS

By DR. MORRIS FISHBEN
Editor, Journal of the American Medical Association, and of Hygiea, the Health Magazine

An average baby weighs seven and one-quarter pounds at birth, boys being a little larger than girls. A normal baby will double its birth weight by the end of five months and triple it by the end of a year.

If the human being continued to grow throughout life as rapidly as in infancy, he would weigh tons and tons before his death. A child that weighs more than seven and one-quarter pounds at birth continues to weigh more than the average child throughout the first year, but the rate of gain is not so rapid.

On the other hand, babies who are small at birth are likely to grow more rapidly than the normal. A baby that weighs five or six pounds will double its weight by the end of four months and triple it by the end of 10 months.

A baby that is fed on breast milk may grow more rapidly than one that is artificially fed. According to Dr. W. McKim Marriott, this is true of all breast-fed babies as compared with all artificially fed babies. It does not apply, however, to breast-fed babies as compared with those who are properly fed artificially. A baby who is properly fed, artificially will grow just as well as one fed on the breast.

Unfortunately the majority of mothers try to use their own judgment in artificial feeding. They fail to avail themselves of what modern scientific knowledge has developed in this field, and as a result their infants suffer.

The length of the child at birth depends, of course, on the nature of the family from which it comes. There are some racial stocks, such as the Japanese, that tend to be short; there are others that tend to be long and angular.

Since the increase in length is governed by heredity and constitution, the length may continue while the weight lags behind, particularly if the diet is unsatisfactory and insufficient. If an adequate diet is given, the weight will pick up rapidly in proportion to the length.

It is, of course, understood that the length of the child may be influenced by factors controlling the growth of the long bones, such as a sufficient amount of vitamin D and the effects of the glands of internal secretion.

In the presence of an insufficient amount of ultra-violet ray or of vitamin D, the long bones do not grow satisfactorily. There is no

tendency to the development of bowlegs and obviously with bowlegs the infant will be shorter.

NEW SMUGGLING RACKET

BELGRADE, (UP).—A new racket in smuggling was revealed here by customs officials who auctioned off 500 pounds of chocolate seized in a mummy case. The mummy was shipped to the museum here from Egypt.

HIDES LIQUOR UNDER CHURCH

CIRCLEVILLE, O., (UP).—Harry Roop, of Circleville, thought that cache under the foundation of a local church would be about as safe a place as he could find so he stored his liquor there. Dry agents discovered it, however. Roop is serving out a \$250 fine.

A device invented by a California scientist to record brain action is operated by electrodes placed on persons' tongues, where they are affected by delicate nerves.

Believes He Can Solve Radio Problems Here

Ted Hudson, independent radio mechanic, believes he can clear much of the radio reception interference here and says he found a disturbance this week that cut out reception over a good size section of the city.

He proposes that business men and radio users get together and start a campaign for elimination of unnecessary interference, believing that good daytime reception during the winter months should be easily secured.

FREE GIRLS

CALCUTTA.—No longer are young girls dedicated to the temples as dancing girls to carry out part of the Hindu ritual. Her Highness Setulakshmi Bai has decreed that this practice, which is centuries old, is to stop. Hereafter, it is said, men will take the places of dancing girls.

"I'm marrying for MONEY... not for love"
—but on her wedding day...

FROM childhood she had been brought up for the marriage market. All her actions had been planned—to please men. Love had been forced out of her life.

And now it was her wedding day. She thought of Bob, so soon to be her husband. "I have managed well," she mused. She had loved Allan, of course. But Allan was poor... while Bob could give her everything...

The door opened suddenly and her father stood before her. She saw at once that something had happened.

"What is wrong?" she cried.

Without a word he handed her a letter, and as she read it her cheeks

What was in the mysterious note? Who sent it? What was the price she had to pay for choosing riches instead of love? Read "I Was Raised for the Marriage Market" in the December issue of True Story Magazine, now on sale. It is the amazing story of a girl who was offered on the marriage block to the highest bidder. Don't miss it!
