EMERGENCY BILL TO CONFERENCE

Seek to Capture Scarface Al Capone for Trial of Murder

MIDLAND MAY PLAY CLASS A FOOTBALL, CONFERRING TODAY

MEETING HELD AT S'WATER

Six Towns Consider Forming New Loop In This Area

Possibility of Midland getting into a Class A football loop made up otherwise of Sweetwater, Big Spring, San Angelo, Colorado and McCamey took first steps towards reality this afternoon when a meeting began at 2 o'clock in the Blue Bonnet hotel, Sweetwater.

Superintendent McClain of the Sweetwater public schools broached the subject in a letter a few days ago to superintendents of schools in Midland, Big Spring and San Angelo. Since then McCamey applied for admission, and Colorado telephoned this morning for a berth.

Telephone communication was established with Superintendent W. W. Lackey of the Midland schools this morning, asking what Midland would do concerning the matter of joining the proposed loop. A reply was made, informing those interested in the matter of organization that Midland would join if the protest rule would be adhered to the letter. The Oil Belt has not adopted the rule of protesting a player any time during the season, having adopted the rule of protesting one week prior to a given game. Midland wants assurance that a man test rule would be adhered to the game in case he is found ineligible. The reservation apparently appeals to those at the Sweetwater meeting today, for they quickly agreed to the terms.

Such a loop as that being considered would exist under contract for a period of two years, whereupon it could be continued or broken up into a different organization.

It is likely that another meeting will be called within a few days. Every effort is being bent towards getting the proposed loop in operation by next fall.

Midland should go far in such a loop, it is pointed out by Head Coach Barry. Midland will have its same backfield and from 10 to 14 letter men back next season. Sweetwater looms as the strongest team to face the Bulldog aggregation next year.

Negro Confesses Teacher's Murder

MARYVILLE, Mo., Dec. 19. (UP).—The brutal murder of Miss Velma Colter, 20, teacher in a country school room near here, Tuesday has been solved.

Raymond Gunn, negro ex-convict, was arrested late last night after Paul R. Jones, prosecutor, linked a chain of circumstantial evidence obtained by fictional detective methods.

Gunn confessed the murder under grilling. He was taken to St. Joseph, Mo., fearing mob violence if it became known that the attacker had been captured.

NOTED SPEAKER TO TALK BEFORE C. OF C. JAN. 15

Walter D. Cline, internationally known speaker and leader, will make the annual address at the banquet and business meeting of the Midland chamber of commerce the night of Jan. 15.

Consent of the widely known Wichita Falls man to speak at Midland was obtained by Malcolm M. Meek, on authority of the board of directors, while Meek was visiting this week in Vernon, Cline will go to Harrisburg, Pa., the same month to make the principal address at the dedication of a Shrine temple.

Cline has held nearly every high office in the gift of Masonry. He is past vice-president of Rotary International and is known all over Europe for his work in connection with the international convention at Geneva. He has served as a director of the West Texas chamber of commerce, an officer of the Wichita Falls chamber, and is one of the outstanding civic leaders of the Southwest.

The Wichita Falls man is in much demand as a speaker. He is an adept story teller, a keen analyst of community needs, and an eloquent orator. He is called on practically ever week of the year to speak somewhere, usually in large cities.

Ralph Shuffler, Odessa editor, and Grady Bell, Odessa secretary, who formerly lived in towns near Wichita Falls, say Midland is lucky to get Cline as he is one of the finest speakers in the South. He has been decorated by the king of Belgium and his \$500,000 home in Wichita Falls is filled with gifts presented by political leaders, members of the nobility and royalty of Europe. Yet, Cline, a rancher, oil man and business man, is just plain Walter Cline to hundreds of friends. The program will be short, Cline's address and two other numbers being all so far scheduled. The banquet promises to be short and snappy.

NO RIGHT TO LIVE, LYLE SAYS

Assemble Evidence In Killing Six Years Ago

CHICAGO, Dec. 19. (UP).—An attempt to capture Scarface Al Capone and try him for murder was definitely under way today with Judge John H. Lyle and assistant states attorneys leading the campaign.

An assistant of the states attorney's office was assigned to assemble evidence to charge Capone with the slaying of Joseph Howard, gangster, six years ago.

Lyle said, "We will send Capone to the chair if possible. He deserves to die and has no right to live."

PATROLS SEEK 9 BODIES IN SWIFT COASTAL WATERS

DILLON BEACH, Calif., Dec. 19. (UP).—Coast guard patrol boats circled through swift currents at the mouth of the Tomales bay today trying to find the bodies of five women and four men who are believed to have perished when a pleasure launch perished last night.

Two fishermen, who were trying to rescue the victims, were themselves thrown in the water and forced to swim a mile to land when one of the terrified women upset the rescue boat.

It is believed that two entire families were wiped out. The missing are Jack Freas and two daughters, Mary and Helen, and Antone Augustine, his wife and their sons and daughters, Manuel, Daniel, Gertrude and Virginia.

Two Towns Aborning In Lea County, N. M.

Two new oil field towns in Lea county, N. M., are in prospect. One application for a commercial lease on land 10 miles south of Hobbs has already been received by Dr. Austin D. Crile, state land commissioner. He will issue a lease on the land at \$2.50 an acre. Ten oil well locations have already been made near the townsite, which is section 15, township 21, range 36 east; the east half of the southeast quarter of section 16, same range and township, and the northwest quarter of the northwest quarter of section 22, same range and township. B. V. Culp of Lovington filed this application. The second has not yet been filed.

Upton Acreage Sale Revives Drilling

Purchase of a section of the McClintic oil holdings in Upton and Crane counties known as Keck Investment company, which was proved acreage, has revived drilling in that area. Duffy-Masterson spudded in McClintic No. 3 Wednesday on section 206, block F, C.C.S.D.R.G.N.G. survey, Upton county, and the same day Gulf-McElroy No. 88 was spudded in as an offset to Duffy-Masterson No. 2 McClintic. The Gulf-McElroy well is in the same block as No. 3 McClintic, but on section 205. Added impetus to drilling this section out was given when Masterson sold 320 to Humble, which subsequently sold to Weekly. The Weekly No. 1 McClintic is now drilling on section 206 at below 2200 feet.

Poem Contest Is 'On Level'—Quack

More poems are coming in to this office, addressed to 'Printer's Angel, Mr. Arkansas Ruple, The Reporter-Telegram, City.'

The contest is, as the Quack pointed out, "on the level." Prizes are: \$3 to the best poem, \$2 to the second best and \$1 to the worst. The poems must not carry a postmark dated later than Jan. 1 and every poem must come through the mails. Everyone except employees of The Reporter-Telegram and members of their families can enter. The Town Quack, who does a bit of splashing on Page 2 each day, would not consent to keeping out of the contest, so it will be allowed him to compete for the \$1 prize.

So far only 13 poems have been turned in. Suppose you get busy. The idea will be the afternoon and evening sport of everyone who stays home. The Quack will check the poems against his acquaintances and see who stays evenings with his wife.

MERAPI ERUPTION MAY HAVE CAUSED SCORES DEATHS

BATAVIA, Java, Dec. 19. (AP).—Ninety lives are feared to have been lost today as the eruption of Merapi, great volcano which has been dormant 80 years, continued.

The volcano had been rumbling for the past two weeks but a sudden awakening yesterday, blasting the top off the mountain and showering ashes over the countryside, caught natives in the fields unprepared. There was a general exodus and many villages were evacuated.

Geologists Form Luncheon Club

Twenty-four oil men met in the ballroom of Hotel Scharbauer at noon and formed the Geological Luncheon club. George Vorbe was elected president, W. T. Hoey vice-president and W. W. Irwin secretary-treasurer.

All members belong to the West Texas Geological society, of which Vorbe is vice-president. The club will meet twice each month, on the first and third Fridays. Charter members are: J. H. McClure, H. M. Bayer, E. Russell Lloyd, A. S. Donnelly, C. W. Hubman, W. C. Fritz, D. De Chichols, H. S. Forgeron, R. M. Lavender, Fred S. Wright, John Emery Adams, S. A. Teasley, R. T. Cox, Wallace W. Irwin, W. T. Hoey, R. B. Mitchell, O. C. Harper, P. F. Brown, Neal J. Bingham, H. R. Christner, Charles D. Vertrees, Georges Vorbe, A. P. Loskamp and W. W. Patrick.

School Program Has 900 Present

More than 900 people crowded the high school auditorium last night to hear the presentation by the north and south ward schools of a Christmas pageant including a cast of approximately 215 students.

The singing of Christmas carols and choruses by a choir of 35 voices and readings by two boys, Wayne Lanham and Billy Noble, constituted the program which was said by school officials to be the best of its kinds ever presented by a student body in Midland. Among the most impressive features of the evening was the long procession of 144 students clothed in white robes marching into the auditorium at the opening of the program singing Christmas songs. The choir was directed by Mrs. Jack Hawkins. Mrs. Tris Bounds and Miss Jane Trawick had charge of the readings and scenery.

Anyhow, He's Dead to Her

Last January Alex Kozeken, young San Francisco butcher, disappeared from home and left a note to his wife, Josie, saying that he was going to drown himself in San Francisco bay. Police found on the edge of the bay an elaborate cross, erected by Kozeken, shown at the right, and Mrs. Kozeken mourned her husband's death. The other day, however, Kozeken reappeared, saying that he had faked the suicide in order to test his wife's love. But Mrs. Kozeken (above) said the test was too great and refused to let him enter the house. Now he has gone away again.

Hoover Assassination Is Monahans Turns in Report to Newspaper Figment of Imagination

All about the assassination of President Hoover! That is what the newsboys would have shouted late Thursday evening when The Reporter-Telegram extra hit the streets if a report coming from Monahans had been verified.

A long distance call from Monahans inquired of this newspaper if the Associated Press or United Press had furnished information on Hoover's assassination. "No," they were told, "what about it?"

The information was to the effect that someone in Monahans heard over radio of the tragedy. Name of the person hearing same was not known.

Long distance calls from The Reporter-Telegram to United Press and Associated Press. No information. Telegrams from press services in Dallas to Washington bureaus. "What broadcasting station did the report come from?" was the reply.

This message relayed back to Reporter-Telegram. Same forwarded to Monahans. Finally Dr. Atkins is produced on the wires.

FIRST MAN TO DEMAND BALLOONS ON TRUCKS TO ESTABLISH STORE HERE

Midland is rapidly growing more modern as its commercial business grows, but the latest thing proposed is a return to the days that existed before the time of the city state. Bartering for economic goods is the new idea, and is being advanced by J. J. Willis who is to begin construction on a modern building 140x75 feet on the southeast corner of block 59, original townsite of Midland, within a few days. Plans for the building, which will be near the Hall Tire company's building now going up, are being rushed to completion.

AGAINST 3 SENATE PROVISIONS

Senate and House Compromise on Drought Aid

WASHINGTON, Dec. 19. (A.P.).—The \$116,000,000 emergency employment relief bill was returned to conference by the house today after the house insisted upon its stand against the three senate amendments. The bill was otherwise acceptable to the house.

Agree on Drought Relief. Conferees of the senate and house agreed last night on a compromise drought relief bill of \$45,000,000.

The compromise, which is the half-way point between \$50,000,000, voted by the senate, and \$30,000,000 passed by the house, was agreed upon unanimously.

The conferees agreed to the insistence of the house that no provision be made for loaning money for the purchase of personal food, but accepted an amendment which would permit loans for food in cases of extreme emergency.

Chairman McNary of the conferees was confident the bill would be enacted before the end of the week.

Station JOY Is On Air Today

Station JOY, the Midland Christmas amplifying system worked out by Midland merchants for yuletide broadcasts, opened this morning with the high school band and a speech by W. Ily Pratt.

Students of Mrs. Emily Kannon at 4 o'clock and from the Vickers studio from 6:30 until 8 made up the remainder of the day.

Pratt, first speaker here, was on the first program ever broadcast by WBAP, the Ft. Worth Star-Telegram and Record station.

The Saturday broadcast will begin at 9:30 and continue until 8 in the evening.

Forced from Road, Five Men Killed

LEWISBURG, Penn., Dec. 19. (AP).—Five young men were killed and one suffered possible internal injuries when an automobile hit a concrete bridge across the Susquehanna river near here.

The machine was crowded off of the road by another automobile going the same direction and turned over several times.

COURAGE, CHARACTER

Good times will come back one of these days, says Utilities Magnate Samuel Insull, because "courage and characters will make them come."

Mr. Insull got off this remark at a festival luncheon of the Philadelphia Chamber of Commerce. He followed it by complaining that some Americans are "petulantly calling upon the government for aid," and then declared that if the government will only let things alone everything will come out very nicely and all of this courage and characters will bear their proper fruit.

There is no denying, surely, that courage is an essential quality these days. This is especially true in the case of the man who hasn't had a job since last January, and who doesn't know when he is going to get another. And if such a man has a good character, the butcher and the grocer are more likely to trust him for his food supplies while he is out of work; indeed, if his character is something superlative, even his banker might accommodate him with a small loan.

However, this particular recipe leaves one with a somewhat unsatisfied feeling. Courage and character are very fine attributes; but isn't it essential that our business and industrial community display, also, a third attribute—brains?

The most dismaying thing about the present situation, when you stop to think about it, is its disquieting hint that American business simply blundered into the depression without foreseeing it, and that it has not now the faintest idea how it is going to get out or how it is going to stay out once it does get out.

Up until the very moment that the stock market broke in 1929, the more vocal members of the commercial class were assuring us that prosperity would last forever, since we had entered a new era. For six months after the crash they were trying to tell us that the trouble was only a temporary recession, and not a week passed without some seer spying the beginning of an up-trend. Now, with hard times in full blast, the franker business leaders are admitting that they don't know just what the trouble is or how soon it will be over.

Wouldn't it be better if we could hear a little more about the need for brains and unprejudiced study, and a little less about courage and character?

OUR MATERNITY DEATH RATE

A set of figures on maternity death rates, issued by the Children's Bureau of the U. S. Department of Labor and disseminated by the Maternity Center Association of New York, reveals that the maternity death rate in the United States is higher than it is in 21 other countries— including such benighted lands as Uruguay, Hungary, Estonia, Lithuania and the backward republic of Salvador.

For every thousand babies born in the United States, six mothers die. Indeed, the rate is slightly higher than that—6.5 per 1000 births, to be exact. In Uruguay it is 2.2; in Finland it is 3; in England and Wales it is 4.1.

Dr. Louis I. Dublin, famous statistician for the Metropolitan Life Insurance Co., estimates that fully 10,000 of the 16,000 American mothers who die in childbirth each year could be saved if they had the proper medical care before, during and after the birth of their babies.

If you are looking for a good "cause" to attach yourself to, here is one that could evidently stand a little assistance.

PORTO RICAN DIPLOMATS

Theodore Roosevelt, governor of Porto Rico, urges that the U. S. government train young Porto Ricans for diplomatic and consular service in South America.

Governor Roosevelt points out that Porto Rico is a place where North and South American cultures meet and blend. The Porto Rican is of Spanish culture, blood and tradition; but he is, also, proud of his American citizenship. He should make an ideal representative for us below the equator.

Most of our troubles in South America have been due to lack of understanding. As Governor Roosevelt says, the policy he suggests would go far to create a bond of sympathy and comprehension.

Daily Washington Letter

Senator Robert D. Carey, Wyoming's Son, Is Yale Graduate Who Turned Cattle Rancher and Succeeded in Big Way—Is First Native Son to Hold the Office

WASHINGTON, Dec. 19.—Senator Robert D. Carey is the latest member of the cattle-raising aristocracy of Wyoming to rise to fame and power in that state and reap his eventual reward by election to the Senate. His is the most distinguished appearance among the six new senators and he may turn out to be the most popular of the group.

His father, Joseph M. Carey, became first governor and then senator from Wyoming. Robert D. Carey followed right along. He was governor from 1919 to 1923 and on the last election day was chosen by the voters to succeed Pat Sullivan in the seat held by the late Francis E. Warren for nearly 40 years. But this Carey also holds the distinction of being the first native son of Wyoming to hold either office.

The four men mentioned, as well as Senator John B. Kendrick of Wyoming, were all early Wyoming settlers and own or have owned huge herds of livestock.

Favors Old Age Pensions
They have all been high protectionists—and Republicans, except for Kendrick. Carey is, too, but as

the youngest of the lot he comes here with a legislative proposal still branded as radical by many conservatives. He favors old age pensions and although he realizes nothing can be done about that in this short session he is going to introduce an old age pensions bill in the next Congress.

"I don't feel," he says, "that men who have spent their lives in industry should end their lives dependent on charity or their relatives. They are entitled to something happier than that. One hears that wage earners should lay up enough to take care of them after they stop work, but sickness and the education of children and periods of unemployment often wipe out the savings of a lifetime and I believe that the federal and state governments can co-operate in instituting a pensions system."

He's a fine-looking, outdoor man, this Carey—52 years old, white-haired, broad-shouldered, more than six feet tall and weighing 190 pounds. In Wyoming, when not busy with politics, he has ridden every day in the saddle over his ranches.

Enjoys Farming

"I have always been crazy over agriculture and stock-raising," he explains, "and it has kept me outdoors. My hobbies have been confined to experiments in growing and breeding."

Joseph M. Carey brought 15,000 head of cattle into Wyoming in 1876. Robert D. was born at Cheyenne in 1878. He was a small boy when his father took him to Washington. He graduated from Yale in 1900 and went to ranching and stock-raising at once. Today he is the head of various concerns, interested primarily in stock, hay, grain, sugar beets and irrigation developments. He is one of the biggest cattle men and sugar farmers in the west and his firm of J. M. Carey & Brother carries on those activities with modern, scientific mass production methods. The CY brand of the Carey cattle is the oldest in Wyoming, judged by continuous service. The senator's herd of pure-bred Herefords is about the second largest in the country.

At Careyhurst, his largest ranch, Carey has herds of buffalo and of

STUDENTS VISIT LIONS

Georgia McMullan, L. H. Naylor, and Dick Verdier were the guests of the Lions Club Wednesday at luncheon. They received this honor as they were the students making the highest averages in the high school.

Janelle Edwards and Ted Dozier were also guests. Janelle sang a solo and Ted played a guitar and sang a solo.

TYPEWRITING STARTS

Soon after the holidays the typewriting students will start their practice contests with the neighboring high schools. Several students are making excellent records in typewriting thus far. The state requirement for first year typists is 30 words a minute. Those students who have already passed the 25-word-a-minute mark are as follows: Alice Buchanan...40 words per min. Marie Hill...32 words per min. Alfred Johnson...32 words per min. Mildred Shelton...26 words per min. Lloyd McKinney...26 words per min.

As many students as care to may try for places on the typing team to represent Midland high school at the district typewriting tournament. The two students making the highest average in the spring will be selected for the team.

THEY SAY THAT—

The foot ball sweaters have arrived and some of the girls are already wearing them.

Virginia has learned how to play a new game.

Mildred is Theresa's rival.

Donald is thrilled over the fact that Rosie is going to start to school after Christmas.

Mildred and Barney make a cute couple.

Carl Ruse is wearing a new ring. Look out Virginia.

Pauline is eager for Christmas to come.

Lottie and Conrad managed things nicely last Friday night.

The junior play is progressing nicely.

Our little blonde Virginia has a new flame.

Barney must mend his ways in order to redeem himself.

R. V. isn't bad at some games. Ida is very generous.

Helen Beth still has her dimples. Miss Lanham's interests left Midland.

Dorris is a fast worker. The banquet was a great success. Imogene and Evelyn just did arrive in time, but Ray and Frank were waiting.

Annie Fay is getting to be a regular heart-breaker.

His sweater is too large, Virginia. Barney and Mildred made a cute couple.

Herman took Janelle to the banquet and Olen took Loree.

STICKERS

It is possible to mark nine of the squares in the above diagram in such a way that no two marked squares shall be in the same line, vertically, horizontally or diagonally. Can you do it? (The squares in the broken lines at the top and bottom are to be considered in the same line, despite the gaps.)

WE WONDER WHY—

Lottie is so thrilled about going to Fort Worth Christmas. Algerine is studying so hard lately.

Everyone will be glad when Friday comes. Some girls aren't wearing sweaters.

Stink has been in the clouds lately. Georgia and Marguerite had such a good time at the banquet.

Vann was unable to fulfill his promise Wednesday.

Lucille and H. L. can't get along. The foot ball boys are so popular now.

Mr. Lackey missed so many apples. Dorris is wearing Cy's sweater rather than Ray's.

Some girls make so much candy here of late. Annie Fay makes such a good negro.

E. B. looks at Lucille so much. Bees buzz.

Jean and Ed were so deep in conversation Wednesday evening. Lucille has started wearing make-up again.

Some of the boys are wearing tams.

ORCHESTRA ORGANIZED

The high school orchestra was organized last Tuesday morning. It will meet every Tuesday morning and Thursday morning at 7:30 after the Christmas holidays. The orchestra is practicing on seven pieces at present and expects to be able to give a concert soon.

The following students are members of the orchestra: Jean Rogers, piano; Ruby Hodges, Maurice Kerby, Barbara Gann and Ruth Pratt, violin; Ed Watts and Marwin Haag, clarinet; Fred Hallman and Hoyt Baker, trumpet; Carl Reeves, trombone; Herman Walker, brass bass; R. V. Wasaff, Barney Grafia, Marie Hill, Saxophone, and Kathryn Cosper drums.

THE TATTLER

Folks, that Football Banquet was a wow, for everyone had a date. We were very glad our pep squad leader was there, and I am sure Ham was too.

Evelyn and Imogene made a last minute appearance at the banquet. Friday night, but they still had a date.

Jean seems to be thrilled because she is leaving town Friday and because she has a date for a big dance in another town. (She isn't going to Sherman, either.)

The freshmen certainly stepped out when they went to the banquet. Kathleen had a date with John Jr., Dorris, with J. E., Dorothy went with Billy Walters, and Juanita was supposed to go with Billy Pratt.

You surely see a lot of yellow sweaters in the hall lately, and the funny part is that the boys are wearing them and not the girls. When the boys do decide to give their sweaters to the girls, will Ray give his to Dorris or to Imogene? Did John really get a last minute date from Jean Rogers or was he fooling someone?

I wonder why Mildred wore such low heels Friday night. Maybe the reason was that she had a date with Barney.

Pauline had some Odessa girls and some Midland girls at her house Sunday afternoon. One Midland boy stood up a girl to get to go over there.

What is going to happen? I saw Kathryn and M. D. together without Velma.

There was a good-looking blonde who came to school to see Miss Rippey late Wednesday afternoon. He must have been anxious to see her as he came by air.

INTRODUCING IIA

In Evelyn Adams fourth years in school. She finds Spanish an easy tool.

No greater singer shall be found in the land. Than Mollie B. Bagley, our lovely sweetheart of the band.

Hoyt Baker and his cornet. Will make some college famous yet. Ulys Barber, called "Useless" by his friends.

Nevertheless, a helping hand lends. Bertha Barrow is a sweet and quiet little lass.

Who makes a good record in every class. From Cleburne comes Loree Boyd, a girl.

Who has set our band manager's head in a whirl. Jessie Bridges from Sweetwater we greet.

More beautiful hair than hers you will never meet. Of the seniors many good singers there are.

But I'll grant that Alice Buchanan will someday be an opera star.

Loyd Burris is our football star, And one of the fastest men in the district by far.

Jess Edith Carlisle, pretty and fair, Makes cartoons for the annual that are very rare.

A dependable girl is Sammy Lane Cobb. After graduation, I'm sure she'll have a good job.

Ida Beth Cowden, our leader of Yells, Holds her place among the lovely belles.

Janelle Edwards a sunny smile employs. To win for her life many joys.

L. Haag is a student honest and true. To him we wish success, wouldn't you?

Dorris Harrison, president of the Literary Society, A student, pretty and smart, is she. Marie Hill is very sweet and fair. She is loved by all despite her "red hair."

Ruby Hodges is another girl we like A good companion at school, on a picnic, or a hike.

Alfred Johnson is student of fame. For in the "Detention Halls" you will see his name.

A lot of fun is Harry McCarty. If you don't believe this, invite him to a kid party.

Martha Louise Nobles, our editor of the annual has a sunny grin That will help her through life many friends to win.

To a student who is sweet and good, We wish success to Alma Lee Norwood.

Donald Parrott is he shy or quiet? Oh, well, girls like indifferent men all right.

Nancy Rankin is jolly and carefree. For you many happy times we see. Mary Caroline Sims has the grace of a queen.

And we find her weakness is a "King." Helen Margaret Ulmer is beauty to the dot.

In your heart she is bound to claim at least one spot. A very sweet girl is one whom we call Jean Verdier, a student liked by all.

A very popular student is Herman Walker. We give him credit for being a great talker.

James White, we like you too. For to your ideas you are true. Maggie Sue Moore has friends by the ton.

For she has a smile for everyone. Marvin Bryant though quiet, we say He'll be a great success in life, some day.

On Coolidge Board
Outside Wyoming and its politics, he is best known as the head of the commission which President Coolidge appointed in 1924 to study and report on the condition of American agriculture.

In the recent campaign he promised the voters of Wyoming that he would vote according to their wishes on the wet-dry issues. They ought to be permitted to express their will, he said, and until they did so again he would accept their three to one vote about 10 years ago for a prohibition amendment to the state constitution.

The Christmas card season has opened. You can mail those cards any time now because I got three this morning. As your cards come in, observe this system. Put each card in a box, either opened or unopened, and save all of them until after Christmas. Wait long enough after Christmas to let those reply to the cards you sent out late. Then open and stack the cards according to size, just for your own convenience. Make an alphabetical list of them. Check back on the list you mailed out this year and all who didn't reply, take them off of the list for next year. Send cards only to those who send them to you. I know how you feel, hating to pass up Mr. and Mrs. Pete Johnson and children; but likely as not they will never know you didn't send them a card. It isn't as serious as you think. Anyway, go ahead and mail out your cards because some others have already started.

Christmas Spirit Is Reflected in Party Arrangement for 1912 Club at The Home of Mrs. Ida Wolcott Thursday

The real Christmas spirit of joy and fun was prevalent at the all-day Christmas party given for members of the 1912 club at the home of Mrs. Ida Wolcott Thursday.

Mrs. Mayme Jowell greeted guests at the door and presented them with toy rubber balls wrapped in pretty packages.

At luncheon time, guests assembled at the table attractively appointed in the season's colors. Pretty carnations and tall red tapers made a charming center. The menu included a complete turkey dinner.

Brightly colored balloons were showered upon the guests after lunch and partners were matched for bridge by the balloons. Six games of bridge were enjoyed. Mrs. Minta Estes scored high and was awarded a tin music box and Mrs. Nellie Rountree cut high for a musical top. Mrs. Edna Elkin scored low and received a jar of ice box cookies.

A short business meeting followed with Mrs. Kate Elkin being elected as president, Mrs. Minta Estes, vice-president and Mrs. Mayme Jowell, reporter.

Program Clever

Then came the most enjoyable feature of the entire day. A group of old time songs opened the program, and guests rendered their assigned parts well. The women and the stunts they performed were:

Jew's harp solo, "Yankee Doodle," Kate Elkin

Song, "Hot Time in the Old Town," Anna Patterson

Cornet solo, "Old Folks at Home," Ida Wolcott

French harp, "Missouri Waltz," Minta Estes

Whistling solo, "Whistling Rufus," Guy Goldsmith

Song, "On the Side Walks of New York," Nellie Rountree

Recitation, "Long, Long Ago," Edna Elkin

Mayme Jowell played the accompaniment at the piano to Nellie Rountree's solo.

Dainty refreshments preceded the Christmas tree program. Playing the role of Old St. Nick, Miss Elsie Wolcott gave guests novel gifts of all sorts.

Later in the attic, the guests participated in old-time square dances and reels. Mrs. Minta Estes played the old tunes on the harp.

Delphian Chapter Meets at E. W. Cowden Home

Mrs. R. M. Barron was leader of the program of the Mid Alpha Delphian chapter which met at the E. W. Cowden home Thursday afternoon.

Women assisting in the discussion of "Venetian Paintings" were Mrs. Foy Proctor, Mrs. A. J. Gates, Mrs. E. W. Cowden and Mrs. R. E. Verdier.

Place for the next meeting will be announced later.

County Women Are Honor Guests at Christmas Party

More than eighty women and their children from county clubs came to Midland yesterday to be guests of their agent, Miss Genevieve Derryberry, at a merry Christmas party in the new court house.

The demonstration room was beautifully decorated with Christmas symbols. Long ropes of tinsel were draped about the rooms and the brightly lighted Christmas tree graced one section of setting.

The Rev. Edwin C. Calhoun spoke to the group on the origin of Christmas and what it should mean to the nations. He impressed the

significance of Santa Claus and what he should mean to every child. During this talk, Mrs. Paul T. Vickers entertained the children with stories of Christmas and Santa Claus in her studio.

An entertaining program by students of the Vickers studio was presented for the guests. This included, readings, musical numbers and dances. Little Miss Patsy Jean Boudine also read for the women.

Old St. Nick then made his entrance and presided at the tree which was loaded with gifts for every guest. A large basket of fruit was another contribution by Santa Claus.

Appreciation was expressed by Miss Derryberry to the Southern Ice & Utilities company for the use of

the tree, to the Texas Electric Service company for the lights and to Mr. Bonner, who played the role of Santa.

Personals

Howard and Alton Dunaway will arrive in Midland Sunday to spend Christmas with their parents, Mr. and Mrs. G. W. Dunaway. Howard is a student in State university and Alton is in the El Paso College of Mines.

Clyde V. Temple, employe of the Humble Oil & Refining company, spent Thursday evening in Midland. He lives in McCamey.

Mr. and Mrs. G. W. Tom leave Sunday for Mountain View, California, where they will visit their daughter, Sister Mary Dolerine, who has just returned from Korea where she has been stationed doing missionary work. The Toms will be gone about 10 days.

E. G. Bedford spent Thursday evening in Midland. He left this morning for Los Angeles where he will spend the holidays with his family. He, with Mrs. Bedford, expects to return to Midland about Jan. 20 to make their home.

Hughes Tool and Texas Electric Meet

**CLINIC DOWNS OIL AND GREASE MEN
IN LAST FEW MINUTES OF GAME; ICE
MEN GO DOWN IN ONE FAST QUARTER**

Once more the dope pans out right. Midland Clinic edged out California and Reporter-Telegram skidded Mr. Ambrose's Southern Ice Crew farther into the cellar.

Clinic and California played the most sensational game one could imagine. It was only at the last stages of the fast game that the Clinic came to the fore, and then only after Caraway, California ace, had to leave the game because of a quartet of personal fouls. When he left it was apparent that as doeth Caraway, so doeth California. At the half California led 13-8 and, as Jess Rogers, official scorer points out, it looked easy for the others. Clinic pulled up to within one point, then California got hot and bothered, looping up a lead of seven points.

Then the break. It was early in the fourth quarter. Caraway was ruled off with the double brace of fouls and the defense of California let slither through it enough points not only to win the game, but to win by a more or less comfortable margin of five points. The game

BOTH TEAMS HAVE DROPPED GAMES THIS SEASON

Two more teams play to-night at the Scharbauer gym, two teams that have both suffered a defeat—yet two teams that are wild to get out of the cellar. Hughes Tool meets the Texas Electric Service company. The game starts at 7:30.

Hughes Tool lost to the California company Dec. 11, and the power men lost to The Reporter-Telegram the following night.

Both clubs have new uniforms and will flash under the lights like true knights of the hardwood floor.

D. H. Albert, registered high school official of Nebraska, will call this evening's joust. He and his bride are visiting in the home of Mr. and Mrs. George T. Abell.

er-Telegram catches the club that most of the fellows about town seem to have indicated for the first half gonfalon—California. The Clinic should beat Hughes, but there is a bit of doubt about the newbies downing Caraway and company.

Anyway, there will be some real crowds at the rest of the games. Don't see how many more could have been in the gym last night, as a matter of fact.

Thanks, Smith Umberson, over there at the Gulf station on West Wall. Certainly needed that man Pope you let loose just to help us last night. Did he by any chance drink a quart of that Good Gulf oil you advertise? He moved around like a greased streak and rang up 12 points so fast I couldn't count 'em.

Personal mention: Pierce of Southern Ice, Caraway of California, Clayton of the Clinic and Pope of The Reporter-Telegram. Those fellows did the goal shooting last night. But let's take another look. They were fed the ball. More credit goes to the men who did the feeding. I'm going to get an accurate check on those men who are passing the ball. They are worth more than any two men who take every opportunity to score. The four scorers mentioned above, however, do not belong to the classification of individual playing men. They will pass with the best of them. The reason the shot was because they

With the CAGERS

By R. C. HANKINS,
Well, the Clinic Doctors gave it to California in a spoon, but the Californians are used to oil and kept their faces from screwing up. The

Hold up a minute!
The Reporter-Telegram won its game with Southern Ice 29-20, a new check-up shows, according to Buster Howard of the Ambrosesmen.

A protested goal is responsible for the revision.

Sorry I didn't catch it in the main story of today, Buster. Nice game you fellows played and next time you may have the good luck to keep your ace on the floor. He's a flash and kept me in cold water up to my mustache all the time he was in your lineup.

Reporter-Telegram, blessed with a few moments of playing a team that mourned the passing of Pierce, passed the ball around so fast in the third quarter that substitutes could play the fourth.

Clinic and the newspaper crew remain on the top of the ladder. Which is the stronger? It will be Dec. 29 before the two clubs lock on the concrete. Will each preserve a perfect percentage for the event? To do so the Clinic must down the Hughes Tool boilermakers. Report-

team came back mast, and every man passed beautiful floor shots to Pope, big forward, who looped 12 points in less than a dozen minutes.

The game in the fourth quarter took on the aspect of a pilgrimage, with the news plant team substituting so fast the scorer was made dizzy. The Ice men lessened the gap and the game ended 31-20.

There is some doubt at what the game would have been had the clever forward, Pierce, stayed in the game for the Ambrosesmen. The frigid crew was in the lead at the first quarter, and only three points in arrears at the half. His going, however, had the same effect on the men from across the tracks as the eviction of Caraway had on the oil and grease men from California's threatening quintet.

The biggest crowd of the season was out. Representatives from the churches, the little theatre and several women's clubs were there—eating peanuts and cheering with the court-lined rabble.

As a point that is somewhat irrelevant, but deucedly important, last night showed that basketball is rapidly becoming more popular here. The tighter the race the tighter will space for seating the crowds become. So come early—better remember.

FRECKLES AND HIS FRIENDS

TELL ME, RILEY, HOW DID YOU EVER FIND FRECKLES?

WELL, TO MAKE A LONG STORY SHORT, I CORNERED FARBAR ON A HORSE ALL COVERED WITH A PHOSPHORUS SUBSTANCE THAT HE GOT BY DRIVING HIS HORSE INTO A POOL FULL OF THE STUFF. HE WAS TALKIN' TO AN INDIAN WHEN I CAME UPON HIM.

BUT WHERE IS FARBAR NOW?

HARD TELLIN'—I BOUND HIM ALL UP AFTER MAKIN' HIM TELL ME ABOUT THE SECRET TUNNEL. THEN I SAN FRECKLES AND THE OLD GUY—... I FOLLOWED THEM TO SEE WHAT TOOK PLACE— THEN THE FIGHT WITH BINKLEY. THAT'S HOW FRECKLES GOT HURT—... I HOPE THE KID IS O.K.

WORKER HERE HAS RED IDEA ABOUT MIDLAND

A Midland working man, who is a skilled laborer, made a proposal in Midland Friday which will help make him go hungry, and which will help take the bread out of the mouths of his own children.

He read an appeal for Midland people to trade at home in order to give more jobs to the unemployed of Midland, and in order to keep wages up for those now employed.

Said this working man: "If I had the money to go to another town to buy things and found I could save something, I wouldn't buy in Midland."

Now, this man was talking against himself. If he and all other laborers, and other citizens poor and rich alike, order stuff by mail, or drive to Big Spring or Dallas or some other town to trade, Midland business men can't build new stores, can't pave more streets, can't build more homes, and this worker will never get a job. Workers who don't spend the money they make in Midland with Midland business houses, needn't expect much building progress or development to give them jobs, a business man said.

Rabbit Drive for Midland Charity

How about a big rabbit drive here? All in favor shoot three times in the outskirts tonight.

Seriously, there is being a plan evolved that will create a bit of fun and a lot of good. The poor of Midland would like the meat and hunters would thoroughly enjoy a good hunt.

So, on Tuesday morning, if enough persons register they would like to go, a great hunt will begin. One of the great pastures not too far away will be traversed by the nimrods. It is hoped several hundred will enter the hunt.

Rabbit drives are becoming past tense happenings. Ten full size jacks will eat enough grass to fatten a calf. Why not kill them off, feed the poor and have a good time while doing so?

Anyway, Will Midkiff suggested the plan. If you are interested, telephone 39 or 7 and your name will be entered on the list.

FISHERMAN DROWNS

FORT WORTH, Dec. 19. (AP)—Wallace W. Garrison, 40, Texas Pacific railroad trowman, fell from a dock and drowned while fishing in Lake Worth near here today. Heavy clothing and a flashlight battery prevented his rising to surface more than once. The body was recovered two hours later.

Oklahoma Gusher Afire, Blows Wild

WEWOKA, Okla., Dec. 19. (AP)—Tossing a thousand feet of heavy pipe a half mile away, the Deep Rock Oil corporation's No. 1 Douglas gas well blew wild and caught fire presumably from a spark caused from running pipe early today, menacing the new Wewoka oil and gas field.

The well, one mile from here, had an estimated flow of 60,000,000 cubic feet of gas daily.

Oil Company Suit Proves Interesting

Oil royalty losses of from \$10,000,000 to \$20,000,000 to the state of New Mexico are erected by Dr. Austin D. Crile, state land commissioner, if a suit filed by Will Terry against the Midwest Oil company, is decided for the plaintiff.

Terry filed suit for \$1,015,000 and undisputed possession of small certain specified oil lands, but indirectly affecting 185,000 acres of land. Midwest has filed suit to quit title to the lands. The State of New Mexico leased oil and mineral rights on the land bought by Terry in 1918 and, Terry alleges, he alone had the right to lease the lands.

Several thousand acres of land in Lea county purchased in fee have been leased by the state for oil and gas purposes. In 1919 the state passed an act reserving oil and mineral rights to lands sold. The question now is whether the state owns the oil and gas on state lands sold to individuals prior to the specific legislative act reserving the oil and gas.

Terry is seeking federal jurisdiction on grounds that Midwest is not a New Mexico corporation. If Terry wins, many farmers and ranchers in Lea and Eddy counties will become wealthy, for royalties collected by the state on these former state lands will go to those who bought the land prior to 1919.

BOARD MEETS

The Boy Scouts of America board of review meets this evening at 7 o'clock, at the boy scout hall in the courthouse. Sixty boys are expected to go before the board for review and examination work, L. O. Smith, board of review chairman, said.

SPEAKS AT COTTON FLAT

The Rev. Howard Peters will speak at 2:30 Sunday afternoon at the Cotton Flat school. Midland people are asked to attend. It is the plan of the school to have speaking of Methodist ministers there each Sunday afternoon.

ERROR IS CITED

Through error, the name of Miss Janelle Edwards was left out of the report on the Wednesday meeting of the Lions club. Miss Edwards sang and was a much appreciated member of the program.

TEMPERATURE DROPS

The temperature has been dropping the last two nights to mid-winter levels. Last night registered 24 degrees, the night before 22, according to Buster Howard, weather observer.

LOCAL DOCTORS PASSED UP BY MAN AND LADY

Not long ago a Midland woman in one of the "best" families in Midland fell ill.

Her relatives called an ambulance and she was hurried away to a hospital in another town. The expense was terrible. The ambulance fee, a hospital fee, traveling expenses of visiting relatives and their hotel bills while visiting the ailing relative—all of these things piled up.

After the operation was performed, the sick woman learned that Midland had a doctor who is a specialist in the very ailment she suffered from, and actually ranked higher in this line of work than the doctor in the other town. She had added at least 25 per cent expense, got no better treatment, increased the trouble and anxiety for her relatives, and had spent her money out of town, instead of in Midland where it would be placed in circulation to help other Midland people.

A young man decided he ought to go to a large city to have his dental work done instead of having one of Midland's dentists do the work. The city dentist bungled the job, and after all a Midland dentist had to re-do the work. This man had spent around \$45 extra for traveling expenses and hotels to have dental work done that could be done as well or better in Midland, and had at the same time deprived one of Midland's dentists of the fee.

Figures show that every time \$1 is spent with a local doctor or dentist about 70 cents of it goes back into circulation in Midland. Every time \$1 goes to a doctor or dentist outside of Midland, not one cent of it ever comes back to Midland.

Four Planes Land Today at Airport

Air traffic at Sloan field today was the greatest of the week, with four ships landing before noon for fuel before resuming flights.

An army Curtis O-2 piloted by Lt. Dent, stopped for a few hours on its way to Dallas from San Antonio. Flying a Stearman for the Richfield Oil company, Douglas Steel visited a visitor at the port this morning. He was enroute to Los Angeles from Dallas.

C. E. Roby landed a Ryan at the field this morning. He was flying from El Paso to Midland for the R. & L. airlines.

Making a day's trip from Lordsburg, New Mexico, to Dallas, Pilot Heden landed a Waco ship for fuel late this morning.

"Doodle Bug" Crew Working in County

Two seismographic crews are at work in the northern part of Midland county within four miles of the city. Gulf has its own crew taking records and the General Research corporation has a crew of men in the same general territory. There are 12 men now living at Midland engaged in the work.

FRUSTRATE JAIL BREAK

TYLER, Dec. 19. (AP)—An attempt by three men to escape from the Smith county jail last night was frustrated after they slugged the jailer, Winnifred Green while locking up for the night.

Danly Warren, nearby druggist, heard cries of help, called the sheriff who, with citizens, reached the jail before the prisoners could make their exit.

CHRISTMAS BEEF HERE

Wilson's certified quality Christmas beef, especially fed and fattened at the Wilson Oklahoma City feed lot is being sold by Conner Brothers of the Hokus-Pokus market, an advertisement run by the market says. The meat is of unusual tenderness and flavor.

Czar's Ashes Were Taken Thru Enemy

NEW YORK, Dec. 19. (AP)—The New York Times today published an interview with Franklin Clarkin, former American vice-consul at Harbin, Manchuria, saying that the ashes of Czar Nicholas II and others of the Romanoff family, murdered by Bolsheviks, were unknowingly spirited through the Bolsheviks' lines to Harbin on an American consular train.

The story adds that the ashes now rest in the Paris burial vault of General Janin, French commander of Czech legionnaires in Siberia after the war.

FROST NOT DAMAGING

AUSTIN, Dec. 19. (UP)—The lower Rio Grande valley has escaped a killing frost so far and a supply of fresh vegetables is in sight for the holiday season. G. D. Clark, truck crop estimator for the United States department of agriculture, today issued a special report on the recent frost.

business. His bonus alone amounted to two car loads of tires. He is negotiating with the Lone Star Service station for the Midland franchise, he said.

A six-room house occupied by S. G. Forney is being moved from the site of the building to be built today. Eight men will be in the employ of Willis, to be with him, he said.

"I bought the Midland Hardware company's franchise on International Harvester company products for Midland and took over stock on hand here," he said.

Willis is an interesting figure in business. He has conducted experimentation and research in the tire business, trying out various tires on his fleet of 35 trucks. He was the first person in the world to get a shipment of trucks equipped with balloon tires, these being shipped more than two years ago from the International Harvester company. He says the balloons outwear the high pressure casings.

worked near the basket and took shots they legally should have taken.

Passing at times last night was beautifully executed. Defense play was ragged for the most part, however. No team had a good offense to break a five-man defense, simply wrestling its way through. You can look for a change next week, and I don't mean a possibility of a change.

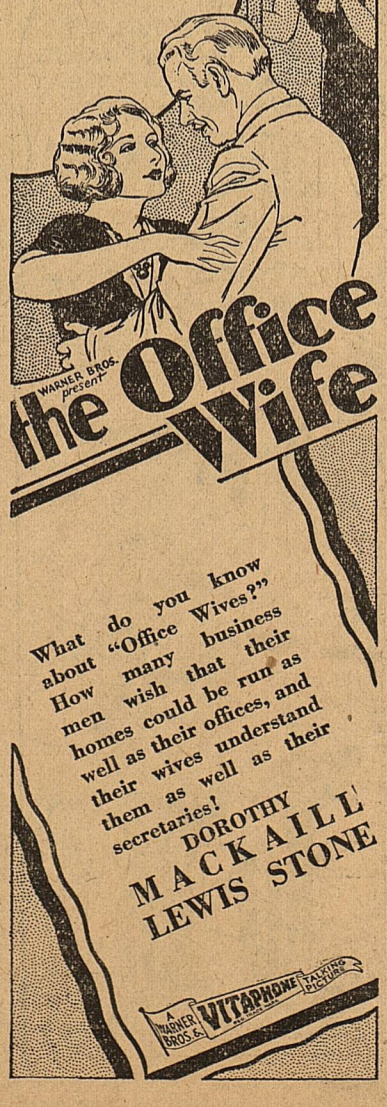

How many will be at the game tonight? Hughes Tool and the Texas Electric will be on the concrete. Ought to be good. Come on out. The time is 7:30.
