HAAG GETS ADDITIONAL ASSISTANCE

Bill Granger Lines Up Other End of District

Three letters written to B. Frank Haag of Midland, Wed E. Reid of Fort Stockton, and Marvin Hunter, Jr., Fort Davis, by Bill Granger, defeated candidate for representative of this district, show how he is setting out to align his support in the first primary for Haag, who had a substantial margin over J. B. Cotten, Crane attorney, Haag and Cotten will go into the run-off primary.

In addressing Haag, Granger said, "Allow me to congratulate you for the splendid race you made in the first primary. You may rest assured that I will lend you my support in your second race, and that Jeff Davis county will give you an overwhelming majority in August."

Granger's letter to Reid, another defeated candidate in the first primary, read: "Now that you and I have become back numbers in the representative race, it is time for us to pick from the remaining two candidates the man who is best able to represent the interests of our own part of the district."

I believe that man is B. Frank Haag of Midland, and I am writing to him, pledging my support. I hope you have definitely decided to support him by this time."

To Hunter, publisher of the Fort Davis Dispatch, Granger said, in part: "In the run-off primary I am throwing my support to B. Frank Haag of Midland. I have decided to do so for the reason that I believe he can come nearer representing the interests of Jeff Davis county than his opponent. I hope the voters in this end of the district can see their way clear to give Mr. Haag, and not majority they gave me in the first primary."

Haag also was assured the support of Reid, publisher of the Fort Stockton Post, and the remaining two run-off primary seems virtually assured, political leaders say.

Secretary Named To New Committee

Paul T. Vickers, secretary of the Midland chamber of commerce, was this week appointed on the committee of ethical relations among chambers of commerce secretaries of the Texas Commercial Executive Association. The Midland man was named on the committee by John Boswell of Wichita Falls, president of the association. While on his vacation trip east, Vickers expects to make observations on chamber of commerce work and will advertise Midland as a vantage point for transcontinental tourists.

Forester Speaks Here August 11

H. N. Wheeler, nationally known forester, who will speak in the crystal ballroom of Hotel Scharbauer at 8 o'clock the night of Aug. 11, has appeared in some of the largest cities in the United States, according to information received here.

Wheeler comes here under the local auspices of the Midland chamber of commerce and the Federated Women's clubs. He is being sent to Midland by the West Texas chamber of commerce. The meeting is open to the general public and it is believed that all people who love the outdoors, particularly people who like to go fishing and hunting, will find the lecture a most interesting one.

Following is a statement from the United States department of agriculture regarding Wheeler: "Wheeler has had over 25 years of service with the U. S. forest service as forest ranger, forest supervisor, public relations officer and chief lecturer. As chief lecturer for the past 10 years he has appeared before audiences in every state in the union. He is an eloquent and convincing speaker. His lecture is a dramatic portrayal of life in the national forests and their problems, illustrated by anecdotes drawn from personal experience. Neither is he neglectful of forest fires and the many duties of a forest ranger. He also touches on erosion and its vital application to the great southwest."

Negro Who Broke Jail Twice Caught

BIG SPRING.—Officers believe in the "third time's charm" axiom enough that they boast that Ellin Ellis, negro, will not break jail again. Taken in 1929 in Glasscock county, charged with breaking jail and carrying a knife, Ellis broke jail and fled to the Concho river. Sheriff Vern Davis rushed up stream and waited in the underbrush until the fugitive stumbled into recapture. Soon afterwards Ellis made his second break. This time he went to California, got a license for Texas, and returned to Pecos. Thursday evening when he came back to Big Spring officers seized him.

BONUSERS OF "KHAKI SHIRT" DRAW PLANS AT JOHNSTOWN FOR WINTER STAY; WIRE FRIENDS FOR SUPPLIES

JOHNSTOWN, Penn., July 30. (UP)—Remnants of retreating bonusers converged here as the organization of "Khaki Shirts," suggested as a successor to the bonus expeditionary forces, went ahead. Matthew Burke, chief of staff for Commander Waters, was trying to perfect a commissary division in preparation for a stay during the winter. He wired all sources where supplies had been contributed hitherto to send contributions to "field headquarters" here.

ALL TROOPS AT CAPITAL WITHDRAWN

WASHINGTON, July 30. (UP)—General Douglas MacArthur, chief of staff of the United States army, today ordered complete withdrawal of all troops from the District of Columbia after a three-day operation performed several days before in a Big Spring hospital.

MRS. GLENN BLACK BURIED IN SIMPLE CEREMONY FRIDAY

Eta Faye Black, 26, wife of Glenn Black of Midland, was buried at Midland Friday afternoon following funeral services at 4 o'clock at the Charles Eberly chapel at Big Spring. She died at 5 o'clock Thursday afternoon after a three-day illness.

Mrs. Black is survived by her husband, Bobby Grossland, by her parents, Mr. and Mrs. R. G. Palmer of Bledsoe, Texas. She was an only child.

The Rev. Edwin C. Calhoun, Methodist minister of Midland, assisted by the Rev. J. Richard Spann, pastor of the First Methodist church of Big Spring, conducted the services. Pallbearers were Pauliss Brown, J. P. Brown, W. T. Dubois, F. L. Tubbs, Fred King and Mr. Shuman.

Black's parents, Mr. and Mrs. W. A. Black of Midland and his brothers, Ed, B. and Ben Black of Midland, his sisters, Mrs. Albert Norris of Snyder and Miss Doris Black of Midland, were at Big Spring for the services. A brother, Joe Black of New York City, and a sister, Mrs. Alice Davis of California, were unable to be at the services.

Mr. and Mrs. Black moved to Big Spring June 15 from Midland, where they were married in March.

Contest Closes Monday Evening

Children, have you written that original story for the Children's Hour contest? You are eligible if not more than 12 years old. The word limit is 250 words. Mrs. George T. Abell, sponsor, has extended the time for turning them in until Monday, which should allow everyone to get their stories in on time, she believes.

The Midland chamber of commerce will give first and second prizes to the winners. Judges who will assist Mrs. Abell are Mrs. Edwin C. Calhoun and R. C. Hankins.

Firemen Here Get Invitation

Discussion of whether representatives of the Midland volunteer fire department will be sent to the August 8-11 firemen's training school at College Station will be brought before the department at its next meeting, Aug. 3.

A cut in the key rate of the town would follow from representation of the department at the school, according to Luther Tidwell, veteran fireman.

A letter to The Reporter-Telegram from Fire Insurance Commissioner Raymond S. Mauk of the Texas Fire Insurance department at Austin said in part: "I sincerely trust that your city officials will see fit to send your fire chief, or assistant fire chief, and fire marshal, for I feel that it will be beneficial to them and, in the course of time, will reflect a saving to our state in a reduced annual fire loss."

New Mexico Oil Field Road Urged

Construction of a highway completely across the eastern tier of New Mexico counties to give better travel facilities for oil men and hasten development of oil lands, is being urged by R. L. Rapkock, state highway commissioner. Since the state is unable to finance the proposed trans-state road, Commission Rapkock is appealing to business men to help the commission work out a plan.

200 Stricken After Eating Left-overs

OKLAHOMA CITY, July 30. (UP)—Approximately 200 men, women and children of the city, maintained at a charity community camp, were stricken with ptomaine poison today after eating sandwiches left from a university club party.

Of 75 admitted to hospitals, 15 were seriously ill and four were reported to be near death. Hospitals were swamped this morning.

Wild disorder reigned at the camp, many writhing on the ground and in nearby woods. None of the university members eating the food were stricken. An investigation was ordered.

ORDER TO PROHIBIT LOAD BAN

Temporary Restraint Of Enforcement Is Granted

AUSTIN, July 30. (UP)—Elbert Hooper, assistant attorney general, obtained a temporary order from Judge J. D. Moore of the 98th district court, prohibiting attempts to keep the state from enforcing the 7,000-pound ruck load limit. Hooper named 250 defendants.

In his petition, Hooper asserted that the validity of the law finally had been declared by the United States supreme court. Efforts to enforce, Hooper charged, were not in good faith for the purpose of testing the law but for delaying an impending endorsement and to thwart the legislative policy.

Application for an injunction was cross action in an injunction filed by the E. L. Farmer Co., Inc., of Breckenridge, against L. G. Pines, chief of the state motor police and others.

ANOTHER ARREST IN ACE RUTLAND CASE EXPECTED

ODESSA, July 30.—Ace Rutland, alias Everts, ex-convict and reputed sly and "bad hombre," was held in jail here today and another arrest is expected in connection with the stabbing Wednesday night of B. F. Bellflower, barber employed at the Elliott Hotel barber shop. Doctors stated that Bellflower's condition, at first serious, is improved. It is not yet known whether the knife blade penetrated vital organs or not, some symptoms pointing in that direction, possibly otherwise.

Examining trial, scheduled for Friday, had not been held Saturday afternoon. Officers declined to say why.

Bellflower stated he did not know any reason for the stabbing. He said he had met Rutland several days before and Rutland had made him a "proposition" which he had refused. He was at the hotel again on Wednesday night at a beer party and the proposition was brought up again and he refused, although, he stated, no heated argument took place.

When the party broke up, both Bellflower and Rutland started home in an automobile with two other people, was said. Why Bellflower got out his hidden knife, the Henderson home, just across the street from the depot, witnesses said Rutland crawled out of the car on the sidewalk.

According to Bellflower's story, when he started in the house, as the car drove off, he was not aware that Rutland had got out with him. As he started the walk to his room, he said, he saw the other man called to him to wait a minute. As he turned, he said, he was met by the knife blow.

The knife blade entered the man's body on the left side, in the region of his heart, and made an ugly wound. He wrestled with his assailant, the injured man said, until he became so weak from loss of blood, that he ran to the door to get into the house. The front door was locked and he ran around to the back, entering by way of the kitchen.

Bellflower went to his room and lay down on his bed, too weak from loss of blood to remain standing. A doctor was called and first aid ministrations. Rutland was said to have returned to the house later the night, saying he wanted to talk to Bellflower, but was told to wait until morning.

Early Thursday morning Rutland was arrested by local officers and placed in the Ector county jail. He was questioned closely by officers.

Following the big "fed" trial, Rutland had been indicted for refusing to become a married man and had successfully wooed the fiancée of the fair maiden to the point where the married Lions concurred in his plan to depose him from his throne and bring him into the same kind of submission as they themselves were compelled to endure. The trial was presided over by Lions Harry L. Haight, Judge Frank Sluabman, attorney for the Lions club as prosecutor, T. D. Kimbrough, attorney for the accused, George Philipps, clerk of the court, Charles Klapproth, bail.

Twelve Lions acted as the jury. The trial opened it was discovered that the accused had disappeared and, as he was the only single man in the club, he became a difficult matter to locate a substitute. Jimmie Noland finally offered to take his place but, to his dismay, got caught in a legal miasma whereby the verdict of the jury caused him to lose his own wife while the actual culprit, Rutland, was given 90 days in which to find one.

Expenses of Ma Lead Candidates

AUSTIN, July 30. (UP)—Campaign expenses of leading gubernatorial candidates, reported to the secretary of state today, were as follows: Ferguson, \$4,614, with contributions of \$1,216; Rafter, \$4,362, with no contributions; Sterling \$3,441, with \$1,450 in contributions.

Demo Committee Canvasses Vote

A meeting of the Midland county democratic executive committee Saturday resulted in canvassing of the votes cast in the July 23 primary.

Homer W. Rowe, chairman, announced the vote on the submission issue in Precinct 1 as: for 756, and against 296; the total for the county as: for 850, against 359.

ADDRESSES MEN'S CLASS Frank Stubbeman will address the Men's Bible class this morning in the absence of Paul T. Vickers, regular lecturer, who left Saturday for a vacation trip in the east.

"Ma" Rests Up for Second Race

Mrs. Miriam "Ma" Ferguson looks a little tired and pensive as she leaves the state capitol building after Governor Ross Sterling in the Lone Star state's primary election, probably because she must make a long campaign for the gubernatorial nomination all over again. "Ma" beat the incumbent governor by some 100,000 votes, but lost a majority and so must oppose him in a run-off election. The run-off winner is certain to be Texas' next governor because the state is predominantly democratic.

NEW BUSINESS CONFIDENCE DUE TO RISING LIVESTOCK PRICES, RANGE EXCELLENCE AND CROP PROMISES

DALLAS, July 30. (UP)—Confidence in business conditions in the 11th district of the federal reserve bank is being had from rising livestock prices, the continuance of good physical condition of ranges, and bright prospects for agricultural production, the monthly review said today.

The report said "while wholesale trade reflected the effects of the in-between season period, there was a stronger demand in some sections." It noted there was a "gradual narrowing in the decline of sales as compared to a year ago."

Encouragement was had from an increase of June building permits over May and the fact production of cement was 61 per cent greater than in May. In both cases the figures were less than for corresponding months of last year.

The review noted while sale of dry goods by reporting wholesale firms during June reflected a further decrease of more than the usual seasonal amount, they showed a small percentage decline from a year ago. June was reported in May. The volume of business was upward in some sections, the report said.

"Growing crops," read the report, "over most of the 11th district made generally good progress during the past month. In some areas, the lack of moisture retarded the crop progress, but the late June and early July rains, largely corrected the situation. Although frequent rains occurred over much of the district, farmers were able to maintain their crops in a fair to good state of cultivation."

Increased yield of corn was forecast while the wheat prospects call for smaller yields.

"Cotton has made fair to good progress over most of the district, although it is some later than usual," said the review.

Livestock has benefited from better range conditions, the review said, citing the fact the ranges now are three points above last year in condition.

"Cattle prices," said the survey, "showed considerable strength in May and the first half of June. Beef steer prices reached the high point of the season. While the call market continued somewhat weak during most of June there was some improvement in July. The hog market strengthened slightly during the first half of June and then showed a vigorous advance which reached a top of \$5.05 during the first week of July."

"A sizeable reduction was reflected in the output of crude oil in this district during June. Total production (See NEW BUSINESS PAGE 6)

Doc Ratliff Given 90 Days in Which To Grab Self Wife

By HARRY L. HAIGHT The Lions club of Midland gave a regular old-fashioned blow out at Cloverdale park Friday night. Practically the entire membership of the club together with families and friends were there.

Lions John L. McGrew and Bill Van Hus opened the program with a spirited boxing contest that resulted in a draw.

This was just an appetizer for what was to follow. Spread out six tables, each 15 feet long, or a total of 75 feet, was about all of the picnic check in Midland county. Pies, cakes, fried chicken and piles of sandwiches of every known brand, jellies and all of the rest of the eatables known to such an occasion, all of which was topped off with a truck load of lead watermelons that had been lying on the ice for 48 hours or thereabouts.

HERRIOT EXPLAINS SITUATION

Corrects Impression Of Coalition of Anglo-French

PARIS, July 30. (UP)—America need not fear that a European bloc will be formed to drive a bargain with the United States on payment of war debts, Premier Edouard Herriot said in an exclusive interview to the United Press today.

"The impression that France has agreed to act jointly with Britain in handling war debts is false," Herriot said. "The Laisanne settlement is provisional within the framework of a world settlement on international debts."

So far as Herriot is concerned, no present move will be made regarding the debt situation until after the United States presidential election, he said.

LONGVIEW MAN SHOTS WIFE THEN HIMSELF

LONGVIEW, July 30. (UP)—Mrs. Bessie Heal was shot fatally early this morning, climaxing a quarrel which was begun at a dance last night. Her husband, Dick Healy, had turned a gun on himself, inflicting wounds which physicians said might prove fatal.

According to friends, the couple left a dance hall going to a tourist camp where they resided. John Smith, father of the woman, said Healy fired on Mrs. Heal when she attempted to leave in an automobile.

Officer Seeks Man And 27 'Boes' Unload

Looking for a suspect on a freight train these days is more like the proverbial hunt for the needle in the haystack, according to the sheriff's office.

When two Midland officers stopped a freight and unloaded it of 27 men, they were not above, evidently, having detained at Warfield, where the freight was sidetracked, so a passenger might go by. The officers were in Warfield but failed to find any trace of the men wanted.

Saturday Hottest Day Since July 18

You're right; it was hot Saturday. The mercury ran up to 99 degrees, the hottest day indicated since July 16-18, when three successive days registered a maximum of 103 degrees, the hottest for the season.

Friday night, however, registered the month's lowest temperature, 67.

Dry Washers Are Said Profitable

Dry washers are being used in the Gold Dust territory near Hot Springs, N. M., in panning out gold. Profitable results are reported. Placer miners in that area sometimes find more gold than water, they say. Modern mining equipment is rapidly being moved into the Hot Springs area.

WORKS ANYWAY

A former Midlander, County Judge J. Wiley Taylor of Best, can now rest comfortably for a couple of years. He won his office this year without opposition, but did not let that prevent a strong electioneering campaign. His office is at Big Lake.

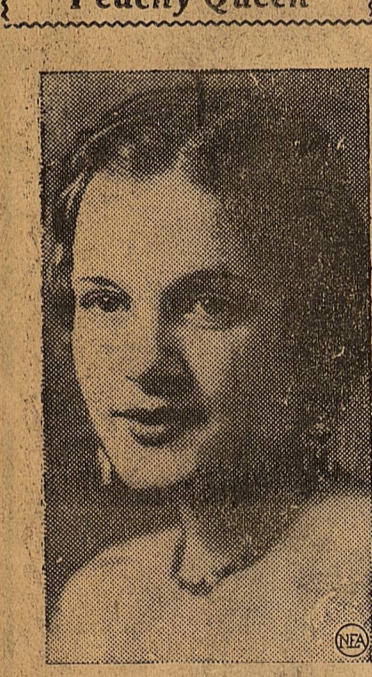

FLAPPER FANNY SAYS

Many a sore-head sues for heart balm.

The Earl of Bessborough, governor general of Canada, is shown above at a review of the Footguards on his estate at Ottawa, England, during the British imperial conference of dominion delegates. Representative of the king in Canada, he is host to the conferees.

Peachy Queen

Only 15 but five times a queen is the regal record of this pretty Arkansas miss, Virginia Lee Elder of Jonesboro, whose latest reign was as "Queen Alberta" at the annual Crowley's Ridge, Ark., Peach Festival. Her dark hair and gray eyes have stolen crowns in five beauty contests.

Disappears

Leaving a note that she feared she was a burden to her family, Miss Fannie Turnbull, above, pretty 19 year old Vassar student, vanished from her home at Lake Forest, Ill. Police throughout the east and midwest have been asked to watch for her. She left in her mother's automobile.

THE OTTAWA SIGN-POST

The opening of the imperial economic conference at Ottawa marks an important new step in the development of that amazing experiment in international relations, the British Empire.

The dominions have come of age now. No longer do they send their representatives to London to wait, hat in hand, for the chance of presenting pleas for favors to the empire's leaders.

What is done at Ottawa may have far-reaching effects on the whole world for years to come. An empire that once was predominantly political in the ties that held it together is going to try to substitute commercial ties for the old ones, and the world will watch every step with close attention.

For what is going on at Ottawa is a striking illustration of the way in which the world has changed in the last few generations.

An old order of society has ceased to be, and it has gone out of existence so imperceptibly that some of us hardly realize it even now. The British dominions, independent in all but name, are not working for the self-sufficiency and isolation that independent nations always sought in the past.

This, when you stop to think about it, simply means that the nations which make up the empire have realized that no nation can go its own way alone any longer. The world has shrunk, and all of us must stand or fall together.

There is in all of this a highly important lesson for the rest of the world. If mutual co-operation and understanding work for a few nations, they ought to work for all nations.

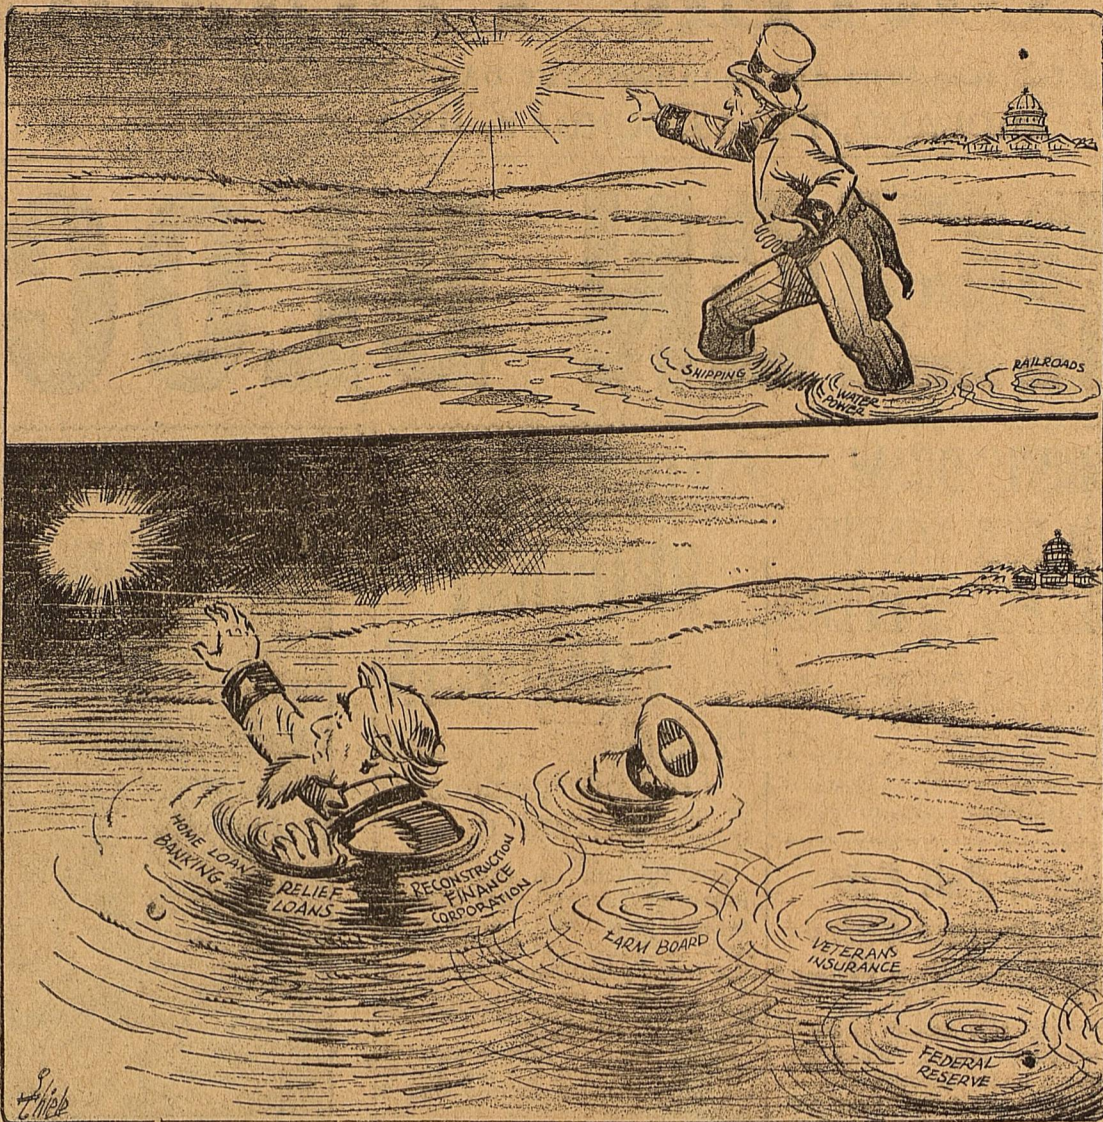

PREACHERS AND POLITICS

One's first impulse is to sympathize, ever so slightly, with the city councilman of Beloit, Wis., who put a dollar in the collection basket at a church service the other evening heard the preacher deliver an eloquent sermon criticizing the city government and thereupon announced that he would sue to get his dollar back on the ground that he had paid to hear a religious dissertation and had in fact heard a political speech.

This councilman's vexation is surely human enough, and a dollar, in these deflation times, is a dollar. But it is a little hard to see just how any minister who takes his job seriously can refrain from discussing current affairs from his pulpit now and then; for religion, if it be what it is supposed to be, is not a cloistered and remote affair but a thing that touches every field of life.

The minister who attacks the evils of mundane life has excellent precedent for his action. It looks as if the councilman's dollar were gone for good.

The Government Takes Steps to Get Out of Business

There Can Never Be Anyone To Replace Flo Zeigfeld

NEA Service Writer
NEW YORK.—Musical shows will come and go; girls will be glorified in gorgeous theatrical pageantry, thousands will thrill to flashes of producing genius which may have something of the Ziegfeldian touch, and the Follies themselves may be perpetuated, at least in name.

But Broadway says there will never be another Ziegfeld. When he died the other day, a long way from the already gloomy Main Stem, he left a place that can be filled only by memories—and for a while at least, by the continuing success of his greatest production, "Show Boat."

Florenz Ziegfeld's name is still in lights over the Casino theatre. And his revival of "Show Boat" is still continuing to make theatrical history. At his death he was believed to have been almost broke, but this revival, and possibly others of his past successes, may yet enrich his estate. Broadway hopes so, for it loved the vain, stubborn, fiery, pessimistic and humorless old showman.

Flo Ziegfeld was 63, and in his thirty-sixth year as a New York producer. But he was a showman long before he came here, from the time, in fact, when he was only 15 and ran away from home in Chicago to join Buffalo Bill's Wild West show.

He crashed New York in 1898, with a revival of an old farce called "A Parlor Match." Soon afterward, seeking talent in Europe, he hired a vivacious French girl who was singing in an English revue. She was Anna Held, and she appeared in a series of Ziegfeld shows. They

were married, divorced. In 1907 he went to Paris, where he got his idea for the Follies.

Year after year the Follies offered the same general type of entertainment—beautiful girls, gorgeous pageantry, lavish costumes and settings. He brought out Sophie Tucker, Lillian Lorraine, Bessie Clayton, Nora Bayes and dozens of others. He introduced new dances—and he liked to do them himself—such as the Turkey Trot, Grizzly Bear, the Glide, and the Dip. He made a fortune on one show and spent it on the next. Ziegfeld had become the master of extravaganzas.

One day he decided abruptly that the Follies couldn't be improved in splendor, so he abandoned them and staged Sally, Simple Simon, Rio Rita, Show Girl and Show Boat. His Palm Beach night set financial records of \$200 each for first night tickets and \$1000 for the closing performance.

His much press-aggrieved Smiles was his only ghastly failure. It cost him \$350,000. And he went back to the Follies.

Ziegfeld pioneered stage nudity, but was criticized less for it than almost any other producer. "There's a special knack about undressing a beautiful girl, just as there is in dressing her," he said. His beauties were made to seem remote, aloof from the audience.

"Some like 'em cold," declared Ziegfeld. As perhaps the foremost authority on underwear, he changed the styles of women almost every season. Blonde heads, bobbed heads, short legs and long ones, curves, straight lines—he has managed, in one way or another, to drape a laurel on every type of beauty.

Beauty—in form, costume, setting or action—was almost his sole interest. He distilled comedy, and no judgment of the efficacy of a gag, and would probably have staged his shows in pantomime if he had thought they had a chance of success. At rehearsals he was never satisfied. As a cast became more proficient he grew more certain of failure, and sat out in front, complaining in a high, nasal voice.

He liked purple socks, green felt hats, lavender shirts, exotic foods, lawnsuits, perfume and prize fights. When he went to Europe he some-

times took 100 trunks; on a hunting trip he was likely to be accompanied by five Indian guides. His office was cluttered with carved elephants and pictures of Billie Burke, whom he married in 1914, and their daughter, Patricia.

Ziegfeld almost never wrote a letter. His long-distance telephone bills ran about \$50 a day, and he thought nothing of rushing a wire of several hundred words. He couldn't remember who was working with him and sometimes telegraphed orders to men who long before had left his service.

Such men were few, however. People who worked for him were frequently exasperated almost beyond endurance; but they swore they would never work for anyone else.

And they are only a few of the thousands, along Broadway, who mourn Flo Ziegfeld.

KINGFISH MAY HELP CARAWAY IN THE SENATE

By ROONEY DUTCHER, NEA Service Writer

WASHINGTON.—If Mrs. Hattie Caraway wins the Democratic senatorial primaries in Arkansas on Aug. 9 she will become, since primaries are always equivalent to election down there, the first woman ever elected to the United States Senate for a full term.

The precedent of masculinity in the upper house will then have been smashed completely.

There seems to be a very fair chance that Mrs. Caraway will do just that, because six men have entered the race against her and they are going to split up the vote. It almost seems as if all the unemployed male politicians of Arkansas had suddenly decided that the lady would be very easy meat when she came up for re-election and acted accordingly.

But although it is likely enough that one man might have defeated the widow of the late Senator Thaddeus H. Caraway, it is less likely that six men will be able to beat her. She has a strong nucleus of voters among those who idolized her late husband and those who will vote for her either because she is a woman or because she is the incumbent.

Sort of "Honorary" Senator

Being a senator has been a sort of honorary affair for Mrs. Caraway up to date. She was appointed by a gallant governor and the state organization agreed to back her thereafter in the special election to fill out her husband's term, which expires next March. She had a couple of opponents then, but won overwhelmingly.

She flabbergasted the politicians of the state when she suddenly declared as a candidate for re-election to the next six-year term.

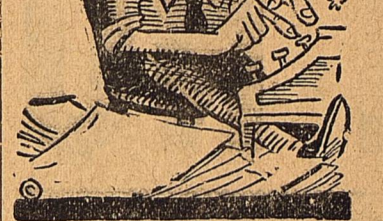

It had been a graceful gesture to make her a senator for just a little while, but the theory was that she would merely sit back and draw her salary. Political ambition was the last thing that anyone would have attributed to the demure, retiring Hattie Caraway.

Faithful in attendance and attention, she came to feel that she was adequate for the job and that she liked it. As a senator, Mrs. Caraway has been a sad and lonely widow, but has demonstrated plenty of good sense. An unsophisticated, simple woman, she has voted independently, has disregarded the leadership of Senator Joe Robinson, who is as much a political boss as anyone in Arkansas, has stood off the lobbyists—male and female—who sought to use her and capitalize her as the first female senator and has voted in sympathy with the masses of people in her state.

"Kingfish" Her Friend

Her seat was next to that ebullient friend of the people, Kingfish Huey Long of Louisiana. One day Huey bounced into her office and announced: "You've done a good work. I like you. I'm going to help you." So he went and made a Senate speech in high praise of Mrs. Caraway, asking the people of Arkansas to re-elect her for the

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

One of the Midland boys who recently attended the race meet at Brady was telling about the horse he picked to win the mile the first day.

"Did you have some luck?" he was asked. "Luck," he said, "when the jockey on the horse I picked came by, I leaned over the fence and yelled 'They went up that way!'"

The editor has been holding out on us. He said yesterday that he had known about a certain variety of beans, known as yard beans, for a long time but had said nothing about it because he thought everybody else knew about the plants. However, Friday morning he was talking to Neal Stator, Lee Haynes, George Underwood and Lum Daugherty and Lum brought up the subject of that big 24-pound melon he brought from Weatherford.

Not understanding him correctly, Neal Stator remarked that 24 pounds wasn't so heavy for a watermelon.

"But mine was a cantaloupe," Lum replied.

This reminded Lee of some cucumbers that are grown down about Stanton, and in describing them he spread his arms out, indicating that the cucumbers must have been three or four feet long.

"sake of the common people."

He cited her record as showing votes for the progressive measures, for farm relief, for oil and lumber tariffs, dwelling especially on her votes for high taxes on the rich.

The independence that has been shown by that lady is a remarkable credit and will stand forever as a landmark to the womanhood of the nation," said Long.

Mrs. Caraway hasn't made any speeches in the Senate, but Arkansas is being flooded with copies of Long's speeches. Her office here is a hive of activity while she campaigns by radio and in person in the state.

Other Candidates

Neither Robinson or the state organization appears to be identified with any of the seven senatorial candidates, but Long, since his hot attacks on the Senate majority leader, has become something of a hero with the anti-Robinson element in Arkansas. His speech is likely to be a lot of help.

The other candidates are former Senator W. F. Kirby, defeated by Caraway years ago, ex-Governor Charles H. Brough, National Com-

The editor then told about the yard beans which Athel Cole is growing up on Ohio street. He said the beans were long enough to tie a calf down, and if a fellow started in to shell one it would take him half a day. Neal Stator said, "Let's set a cup."

I have no doubt that there are some nice melons, cucumbers and beans growing around here this year, but there is a limit to what I will believe and there may be a limit to what I will print; but if you know of any stories that sound like bigger lies than those just sent them in.

The preacher announced that the flowers on the altar were donated by women of the church and would be given to those who are sick at the close of the service. He must have been preparing to give somebody a knockout.

Considerate husband: The man explains to his wife that it wasn't 2 o'clock when he came in; he just stopped the clock when it started to strike 11, to keep from waking her.

Folks, I have found the best cookie maker in the Permian Basin. She is Mrs. Harry Adams of the firm of Mr. and Mrs. Harry Adams. She brought a bunch of cookies to the office Friday afternoon, and of course I filled up on them before I went to supper. Were they good? Boy, I didn't mind missing the supper!

mitteman Vincent M. Myles, former American Legion Commander O. L. Bodenhamer, M. M. Martin, a Little Rock attorney, and former Sheriff W. C. Hutton, running as a wet. Reports indicate that the vote is likely to be widely split and that there is not yet one man expected to run well ahead of the rest.

Win Leniency For Murderer

DETROIT. (UP)—Two small boys, orphaned by an automobile crash, won leniency for the man who killed their parents.

The boys, Robert Keating, 13 and his brother, Douglas, 12, appeared in Recorder's Court to plead in behalf of Thomas J. Smith, confessed "death driver."

As a result of their plea, Judge John J. Maher placed Smith on 3 years probation. Smith, charged with negligent homicide, faced a possible five-year prison term.

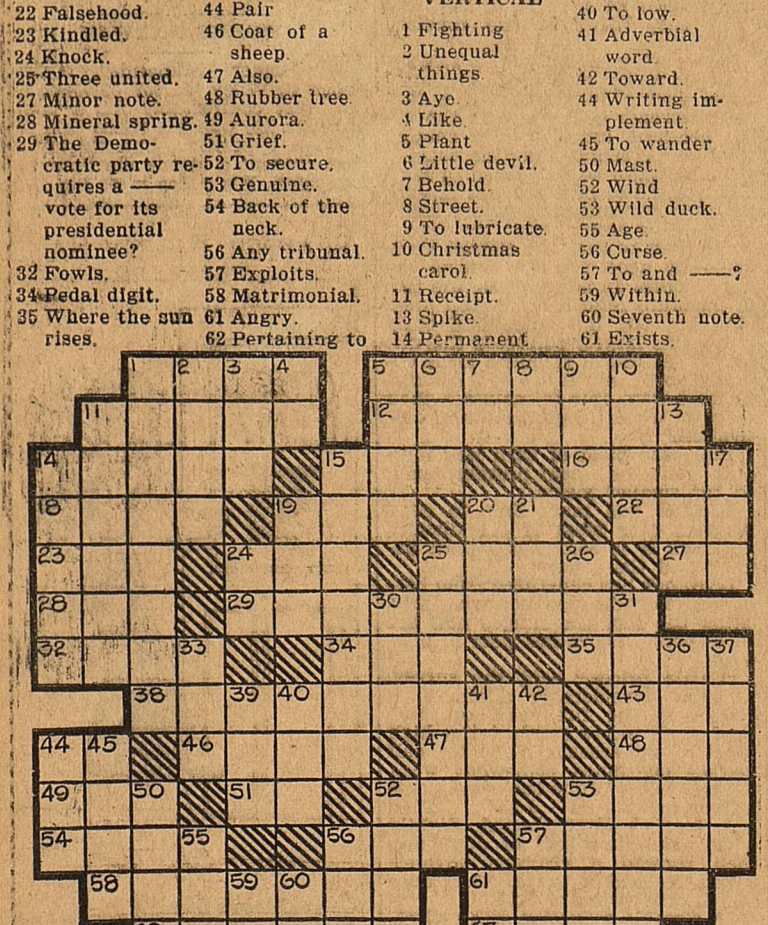

Thirty-one expeditions, representing eight nations, will visit the Arctic regions this year for scientific study along several lines.

LOS ANGELES, July 30.—The biggest show on earth, the games of the tenth Olympiad, opened here today, Saturday, July 30.

For 16 days and nights, in nine stadia, auditoriums and water courses, the cream of the world's athletes will compete in 16 different sports.

Forty-nine nations will be represented by their best athletes. Only one athlete each will represent Colombia and Uruguay, while Japan will be represented by 150 athletes, the largest team.

In all, 2000 males and 250 female athletes are participating in the games. The men will be housed in Olympic village, 550,000 model city, during the sport festival. The women will live in a downtown hotel.

Unlike the ancient Olympic games, which were held thousands of years ago in Greece at small expense, the 1932 games in Los Angeles will be staged at a cost of approximately \$6,000,000.

The state of California and city and county of Los Angeles have spent nearly \$4,000,000 for construction of stadia and Olympic village.

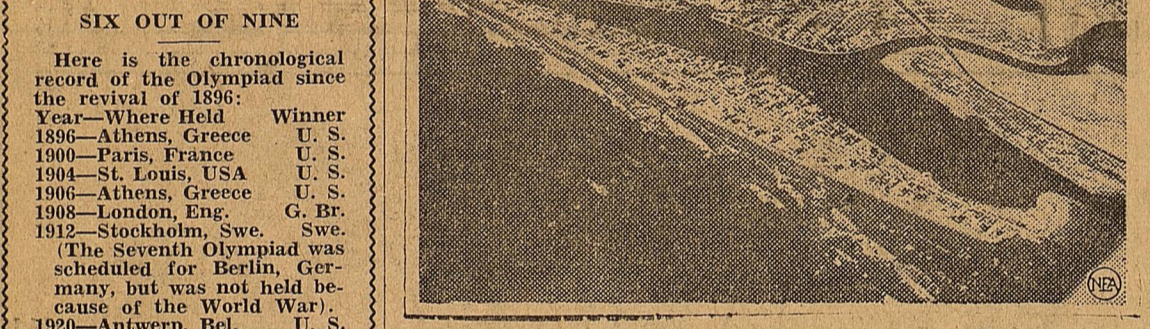

SIX OUT OF NINE

Here is the chronological record of the Olympiad since the revival of 1896:

Year	Where Held	Winner
1896	Athens, Greece	U. S.
1900	Paris, France	U. S.
1904	St. Louis, USA	U. S.
1906	Athens, Greece	U. S.
1908	London, Eng.	G. Br.
1912	Stockholm, Swe.	Swe.

(The Seventh Olympiad was scheduled for Berlin, Germany, but was not held because of the World War.)

1920—Antwerp, Bel. U. S.
1924—Paris, France U. S.
1928—Amsterdam, Holl. Ger.

Olympic rowing races will be held in the Long Beach Marine stadium, above. In the foreground is the practice estuary and, in background, the 2000-meter straightaway where races will be held. Seats for 100,000 are provided.

Competing nations will spend \$1,000,000 to transport, feed and house their athletes. Incidental, expended by Los Angeles, amount to another million.

The origin of the ancient Olympic games is lost in the obscurity of centuries. Historians disagree as to the date of their revival. Some say they were revived in 884 B. C. and others give the date as 828 B. C. In 394 A. D., during the reign of Emperor Theodosius, the games were abolished. Following the subjugation of the Greeks by the Romans, interest in the games waned steadily.

The games were revived for the modern era in 1896, at Athens, Greece, by Baron Pierre de Coubertin of France, who forsook a political career in order that he might devote his life to the furtherance of sports.

Many Sports Now

In the ancient games, athletes competed in only a few sports. The modern games include many. Competition at Los Angeles will be held in the following:

Weightlifting, fencing, track and field, wrestling, field hockey, cycling, pentathlon, yachting, swimming, demonstration lacrosse, gymnastics, boxing, rowing, equestrian sports, demonstration American football and shooting.

Also twenty-three nations will compete in five sports during the games, which includes paintings and prints, sculpture and architectural projects.

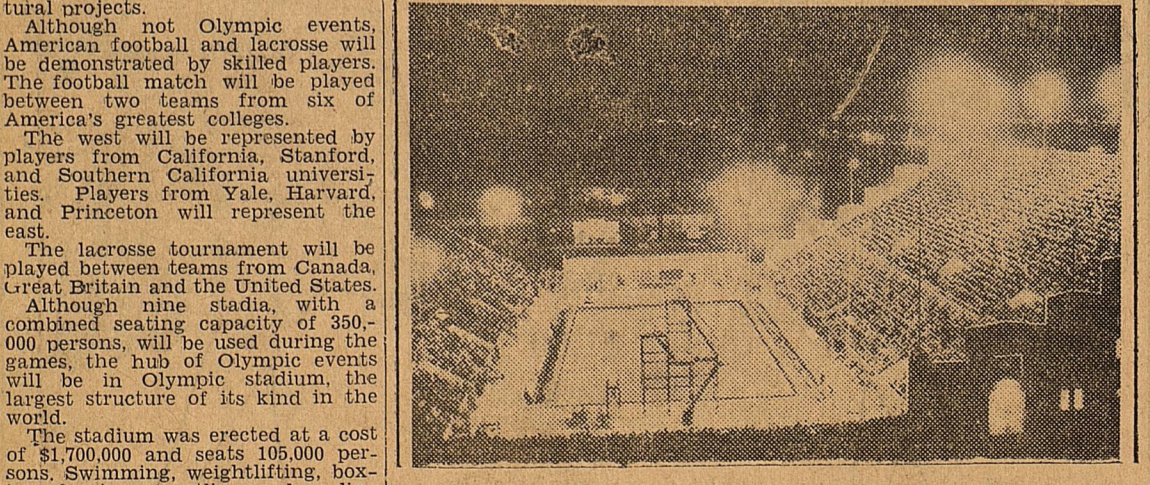

Although not Olympic events, American football and lacrosse will be demonstrated by skilled players. The football match will be played between two teams from six of America's greatest colleges.

The west will be represented by players from California, Stanford, and Southern California universities. Players from Yale, Harvard and Princeton will represent the east.

The lacrosse tournament will be played between teams from Canada, Great Britain and the United States.

Although nine stadia, with a combined seating capacity of 350,000 persons, will be used during the games, the hub of Olympic events will be in Olympic stadium, the largest structure of its kind in the world.

The splendid \$210,000 Olympic swimming pool in Exposition park, Los Angeles, where 10,000 spectators can watch the diving and racing events, is shown above.

The splendid \$210,000 Olympic swimming pool in Exposition park, Los Angeles, where 10,000 spectators can watch the diving and racing events, is shown above.

From \$1 to \$3. Through the sale of tickets, officials of the games expect to break even on the cost of constructing the stadia and Olympic village.

Expect Million Gate
One million persons are expected to view the competitions. Be

TESCO-UNITED GAME MAKES AN ALL-TIME RECORD IN NOCTURNE; HDWE.-DRUG GAME OFFERS FRISKY CLOWNS

By HERB ROUNTREE

Texas Electric and United Dry Goods company did something Friday night that has not been duplicated in any game this season, likely not in any game played here in the two seasons the Nocturne league has been under way.

The clubs played errorless ball. Not a bobble was marked up against either.

The electricians, catching the United club on a night when its pitcher, Jimmy Adamson, was out of town, borrowed two class players, Leslie Stevens for third base and Jack Baker for center field, won a 6-0 decision.

Midland Hardware won a 11-5 game from Petroleum Drug company that looked more like a three-ring circus. All sorts of horsplay resulted, Joe Pyron and Doc Ellis, opposing pitchers, hurling the ball overhanded, batting with three bats simultaneously, tossing the balls at the same time, beating out hits to third rather than first base—and plenty of other absurdities. The crowd got its money's worth in this game.

cause of the large number of sports, it will be impossible for one person to witness all the events. On the sixth day of the games, simultaneous competitions will be held in six sports.

Winners in individual events will be presented medals and diplomas. The nation scoring the highest number of points will be likewise honored. Judges have been selected from each of the competing nations.

On the opening and closing days of the games, spectacular ceremonies will be conducted in Olympic stadium. The competing athletes will stage a gigantic parade on the opening day and take the traditional Olympic oath. The closing ceremony will be featured by making of awards.

The oath the contestants will take follows: "We swear that we will take part in the Olympic games in loyal competition, respecting the regulations which govern them and desirous of participating in them in the true spirit of sportsmanship for the glory of sport."

The following nations will be represented in the 1932 Olympic games: Argentina, Australia, Austria, Belgium, Brazil, Bulgaria, Canada, Chile, China, Colombia, Costa Rica, Cuba, Czechoslovakia, Denmark, Estonia, Finland, France, Germany, Great Britain, Greece, Guatemala, Haiti, Holland and Hungary.

India, Irish Free State, Italy, Japan, Latvia, Luxembourg, Mexico, Monaco, New Zealand, Norway, Peru, Philippine Islands, Poland, Portugal, Rumania, Salvador, Spain, Sweden, Switzerland, South Africa, United States, Turkey, Uruguay, Venezuela and Ecuador.

THREE TENNIS COURTS TO BE BUILT IN CITY

The money is in the bank and construction is to begin immediately on three new tennis courts to be placed on land donated by Harry J. Neblett west of his residence at 1201 West Texas.

Thirty tennis devotees have signed for membership in a new club and about 10 more are expected to join. Each paid a nominal sum for building the court and upkeep will be assessed in monthly dues. The courts, to be completely enclosed, will be built of caliche and chert.

A call meeting for Wednesday afternoon, 7:30, at the Barrow Furniture company has been issued, at which time completion of arrangements will be made. The courts will be of regulation size and among the fastest in West Texas.

Decision to build resulted from the long expressed need for more tennis courts in Midland. Several times have schemes for building courts been brought up, only to be dropped from lack of executive action.

Those who have joined the newly formed tennis club are: M. C. Ulmer, Billy Wash, Bill Van Huss, Dick Morse, Joe Kelly, Earl Horst, Dr. L. B. Pemberton, F. Cowden, J. S. Schow, R. R. Sims, Marion F. Peters, Theo Ferguson, A. Wadley, Barn Kidd, For Proctor, Charlie Goldsmith, Fred Turner, Bob Smith, George Glass, W. S. Crook, Frank Day, L. Levinson and Harry Neblett.

Several ambitious plans for inter-membership tournaments likely will be announced soon.

SPECIAL

To introduce the high class of work we do at our place we are going to give the motoring public an appreciable discount on washing and greasing.

WASH and GREASE JOB

Both of Them for **\$1.50** For Cash Only

This offer is good **FOR ONE WEEK ONLY**

From Monday, Aug. 1 through Saturday, Aug. 6.

It is not our intention to cut washing and greasing prices below a fair and reasonable profit. We are making this offer merely to introduce to the motorists of Midland the quality of work we do.

ALL WORK DONE IN THE SHADE

Regular prices will prevail on this work after Saturday, August 6.

Estimates gladly given on motor repairs and parts.

Auchterlonie Sets New Course Record For Midland Links

That canny Scot, Sandy Auchterlonie, did it at last.

He stepped out with C. L. Jackson, Arch Thomas, and Harry Adams Friday afternoon and shot a new course record for 18 holes and tied the course mark for nine holes.

Playing with Thomas as his partner, the pro, remembered originally for setting a still extant course record on the old St. Andrews, Scotland, links and since then for several brilliant tournament records before the war intruded with its poisonous that gave him a permanent throat trouble that required his giving up a post as pro of one of the largest St. Louis golf clubs and moving to Texas for the higher altitude, went around for a total of 67, two strokes less than the internationally famous Walter Hagen established here two years ago.

Consult the following:

Course par: 5-5-4-4-3-4-3-4-3-36

Sandy out: 4-5-4-4-3-3-5-2-4-4-35

Sandy in: 5-5-3-3-3-4-3-2-4-32-35-67

Sandy missed four short puts, all of them less than four feet from the pin, or would have had a most extraordinary record for birdies.

On his first round Sandy shot two birdies and was over par on one hole, the sixth, when his drive went into the rough and hung in the top of a bear grass for a tough lie. The rest of his puts on that round were rammed down in par. On his in-round, he shot two birdies and an eagle and six par holes. On his second round during the afternoon, it was J. Ellis Cowden's record, really, that Sandy broke. Ellis went out the Sunday preceding his late illness in early April and tied Hagen's mark for nine holes, a 32, and proceeded to break his course record of 69, setting up a 68. Sandy Friday put the triple tie tag on the nine holes, but lowered by one stroke Ellis' 18-hole count.

Both Cowden and Sandy's records are much more impressive than Hagen's, due to the fact that the course was trapped after Hagen played here.

Auchterlonie's eagle was on No. 8 on his second round, when he lay on the green pin high and close to the hole. He putted for birdies on the difficult No. 3 both rounds.

The foursome was playing as a result of Jackson and Adams deciding in town to "beat" Sandy and Thomas. All played stellar golf, but as Adams said, "How can you beat a bird who shoots birds when we shoot pars, and eagles when we shoot birdies?"

Harry shot six pars and didn't take a hole. Arch shot an 85 and Jackson a 75, trouble on one hole preventing his shooting the course in par.

Did you ever hear anything like this? (One really should have placed an exclamation point after the question.) J. O. Vance, who recently took up golf, and E. Russell Lloyd, who shoots a mean game, and has for the past couple of seasons, have

Odessa Postpones Golf Tournament

ODESSA, July 30.—The annual golf tournament which was to have been held the first part of August has been postponed until the latter part of the month, according to officials of the Odessa Golf club. The tournament is to be one of the outstanding in West Texas for this season. A number of good golfers from over the country will be present to qualify.

Odessa-Lamesa Match Is Today

ODESSA, July 30.—The Odessa Golf club will meet Lamesa at Odessa Sunday afternoon for another match in the Sand Belt Golf league. It will be remembered that the Lamesa club defeated the Odessa boys in the first match played. In the last match, Odessa emerged with a score of 22 to 22 when the Midland team invaded the "Friendly City."

In the match prior to that Odessa defeated Big Spring 25 to 19. Local golf fans believe the Odessa team is in a first class condition to defeat the Lamesa club.

The church of Hagia Sophia in Constantinople and St. Mark's in Venice are judged the greatest examples of Byzantine architecture.

Los Angeles, in its dairies and farms, contains 50,000 cows within its metropolitan confines.

A dentist in Illinois occupies the attention of his patients by showing moving pictures on the wall in front of them.

Take HER Out of the Kitchen Today

Be the gallant gentleman. Declare a one-day moratorium on cooking.

Take her out to dinner. By OUT, of course, we mean to the El Campo Cafe, which distinctly has that "going places" air about it. And food! We are having chicken and steak dinners today. And service! You can't beat it.

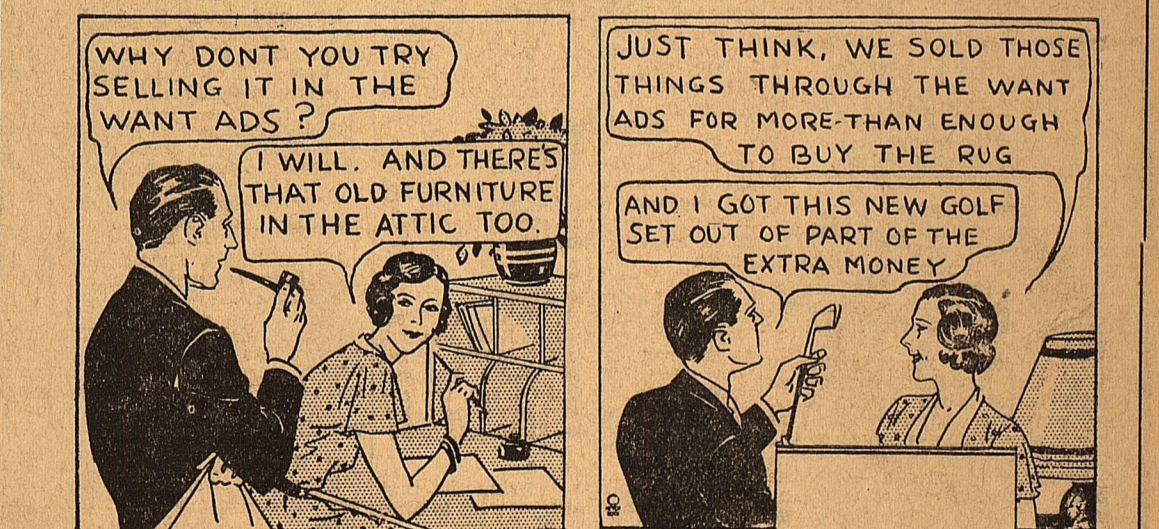

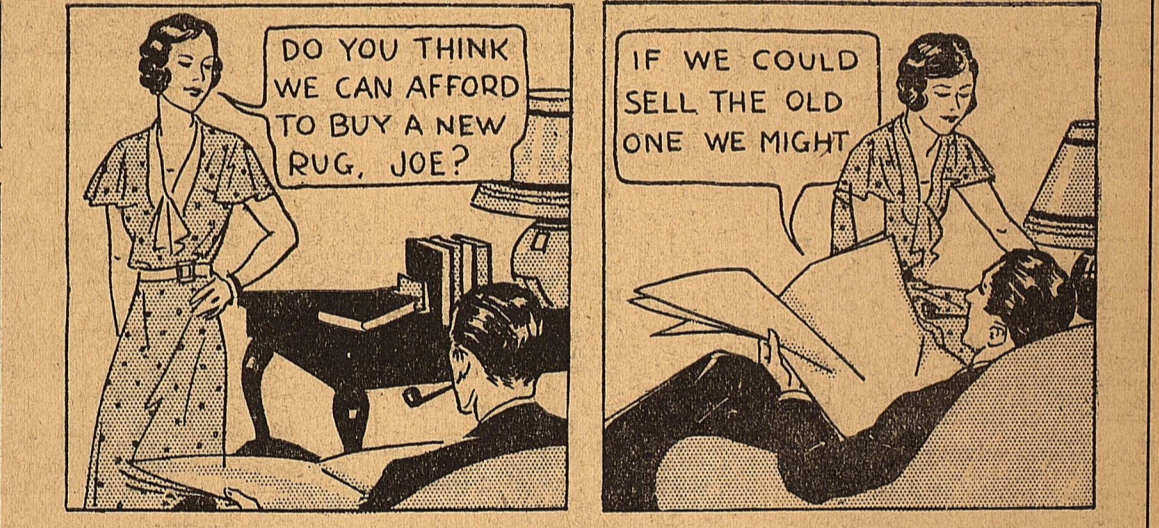

THE CHICKEN OR STEAK DINNER

IS ONLY 50 CENTS.

Titian-Haired Jean Harlow Gets Finest Acting Role in Film Red Headed Woman

Jean Harlow, of the famed platinum-blond tresses, offers a surprise to filmgoers in her latest screen role as the heroine of "Red Headed Woman," opening today at the Yucca theatre.

In order to play the title-role in Metro-Goldwyn-Mayer's filmization of the sensational Katherine Brush best-seller, Miss Harlow was required to change her hair to a flaming red, a change which is reported to make quite a difference in her appearance and personality.

"Red Headed Woman" presents a vivid character study of a woman who stops at nothing to gain her unscrupulous ends. Starting out as a stenographer, with her only weapons a generous supply of sex-appeal and an overwhelming ambition for wealth and social prestige, she ends up with her hands on a title and its accompanying millions. In her wake, however, she leaves a trail of broken hearts, disrupted homes and disillusioned men.

The story is said to give Miss Harlow the greatest acting opportunity of her career. That the film version also has its share of humor is guaranteed by the fact that the novel was adapted to the screen by Anita Loos, author of that side-splitting satire, "Gentlemen Prefer Blondes," and was directed by Jack Conway, responsible for many William Haines comedy hits, as well as the Barrymore mystery satire, "Arsene Lupin."

A strong cast appears with Miss Harlow, including Chester Morris of "Alibi" and "Miracle Man" fame in the male lead, Lewis Stone, in the role of the father who attempts to "buy off" the red-headed siren; Leila Hyams, as the wife whose domestic happiness falls about her ears;

Big Spring Jail Stops Young Pair

BIG SPRING.—The aircastle of Jack Stahl and Margaret Eckerston came tumbling down here Thursday night when Policemen L. A. Sofies and J. M. Choate took the two Los Angeles runaways from a bus.

Margaret, brown eyed and fifteen, had promised to become the bride of a blonde-haired Jack, reputed heir to a small fortune. So the two decided to elope. California officers could pick up no trace of them. At El Paso it was learned that the pair had taken a Greyhound stage.

Friday morning Jack Stahl and Margaret Stahl were held in jail, Margaret's father, a deputy sheriff of Los Angeles, who was on his way here to return them to California.

SINGING AT WARFIELD

Warfield will be host today to the West Texas Singing convention, which goes into session at 10 o'clock. The public is invited. Singing will continue most of the day.

July 30, 1932.

To Editor of Midland Reporter-Telegram:

I want to express my grateful appreciation to the people of Midland County for the splendid majority given me in July Primary as shown by official returns canvassed today.

It is my ambition, through rendering service, to prove myself worthy of your confidence.

I take this opportunity to solicit your further support through the August "run off" Primary.

Sincerely,

B. FRANK HAAG

INDIANS, CRANES PLAY THIRD GAME OF SEASON TODAY

Dr. David M. Ellis' rechristened ball club, the Indians, invades Crane today for a game with the well-known aggregation made up of several ex-major league stars.

Harking back to July 4, however, it can be recalled that Midland's pioneer ball club, lately the Bushers, felt no veneration regard for the gray hairs of the Crane execs, beating them here in a horrid picnic 23-3, driving four Crane hitters, including the once famous Hitt, and a Stanton moundsman, Sammy Timmons, to the showers.

FOUR ECTOR TESTS ACTIVE

Ector county's wildcats that were sounded two weeks ago have been making good time while a pair that has been underway longer has been having difficulties.

L. C. Harrison and others' No. 1 P. V. Adick, 330 feet from the north line and 1,320 feet from the west line of section 35, block 43, township 2 south, T. & P. Ry. Co. survey, had drilled to 700 feet in red shale. It struck a hole full of water at 30 feet and set in 1 1/2 inch casing at 117.

Broderick & Calvert and others' No. 1 J. E. Parker, 330 feet from the north and 3 1/2 miles of section 15, block 44, township 2 south, T. & P. Ry. Co. survey, was scheduled to resume fishing for tools lodged 800 feet off bottom. Total depth was 3,200 feet in anyhrise. The wildcat has an elevation of 2,904 feet, topped the salt at 1,820 feet and got the base of the salt at 3,015, according to one sample analysis. First reports gave the top of the salt as 1,715 and the base as 2,835.

H. L. Wurtz No. 1 Ibbetson, 330 feet from the north and 2,310 feet from the west line of section 16, block 46, C. & M., M. B. & A. survey, was drilling on iron a few feet above the total depth of 3,610 feet in lime. Elevation is 2,908 and the grey lime was topped at 3,578.

RETURN FROM RANCH

John and Clarence Scharbauer returned Saturday from their Panosco ranch in New Mexico. This 38-section ranch was recently acquired from Robert F. Alley, and Louis Beyer was made foreman and moved there with his family from Midland.

The Midland and Fort Worth cattlemen said the grass on the ranch is exceptionally good. They are running both cattle and sheep on it, the sheep numbering about 2,000. The men left here Thursday.

VISITORS RETURN

Marshall and Winston Terrell returned to Paris Saturday after visiting two weeks in the home of their cousins, Perrell and Lela Mae Miles.

Doctors Now Sell Health on Regular Installment Plan

Thomas R. Gardiner

By PAUL HARRISON
NEA Service Writer

NEW YORK.—There are 1000 doctors and dentists in this town who are selling health on the installment plan—exactly as other merchants are disposing of automobiles and refrigerators.

They have their own underwriting organization, which works like any finance company—taking the buyer's note, collecting installments on the purchase price, and guaranteeing the seller his fee.

For a small down payment, if your credit is good, you can buy an operator or some gold mine. Subsequent monthly installments are scaled according to your income.

The surgeon or dentist, however, does not have to wait all this time for his money, he already has received 50 per cent of the total fee from the Mutual Professional Plan.

So popular has the idea become among doctors that the organization has grown to its present membership in three years, and from a nucleus of only 15 physicians and dentists. The only non-professional member is the president and organizer.

As Gardiner explains it, the scheme works to the benefit of everyone except the patient who under other circumstances would defer payment on his payments. Physicians have found, he said, that only 50 per cent of their patients pay them in full; 20 per cent pay only in part, and 30 per cent do not pay at all.

Interest Not Excessive—Interest charged the patient on this plan of health buying is 6 per cent on the receding balance. Thus, if a \$100 fee is paid in ten installments in ten months, the interest totals \$2.75.

DRILLS A TEST—The Western Natural Resource corporation of Los Angeles is drilling on a deep test a half mile south of the Dalles railway station in Valencia county. The test will go at least 5,000 feet deep and unless oil is found at a shallower depth, according to Luna Bergers, head of the drilling corporation.

Man Who Shot At Nurse Dies—MARSHALL, July 30. (UP)—Charles Miller, discharged night watchman of the Texas & Pacific railway hospital who appeared at the hospital yesterday and fired shots which seriously wounded Mother Richards, head nurse, before turning the pistol on himself, died this morning.

CRAWFORD TO McCAMEY—T. M. (Tex) Crawford, Humble land man and scout in San Angelo for almost a year, has returned to McCamey as district land man, succeeding F. B. Smith, who recently was transferred to Houston. He has been with Humble 13 years and in West Texas about five years. Crawford's family left for McCamey early last week.

Sticker Solution—By inserting the word "ON" for each pair of dots and then separating the letters properly, you can spell out the five words shown.

Never have shoes been more attractive, never more in keeping with the spirit of a new season. Colors, leathers, styles—all definitely 1932.

Trying to Serve You Better—Addison Wadley Co. A Better Department Store

ABELL GETS WELL

Abell Bros., drilling four tests in southeastern Ward county, have obtained production in their No. 3 Pure-Smith, in section 4, block 34, H. & T. C. Ry. Co. survey. It is a diagonal north offset to Eastland Oil Co.'s No. 2 Shell-Weiss, which was the largest well in the area until Texas-Pacific Coal & Oil Co.'s No. 3 James came in recently.

No. 3 Pure-Smith had a small showing of oil from 2,332 feet and had an increase in oil and gas from 2,348 feet, the top of the pay, to 2,350. It drilled to 2,412 feet in lime and anhydrite and while cleaning out was flowing 2 1/2 barrels of oil hourly, a rate of 60 barrels a day.

The well has an elevation of 2,544 feet, topped the salt at 1,115 feet and topped the lime at 2,165. It is 2,310 feet from the northeast and northwest lines of section 4, block 34, H. & T. C. Ry. Co. survey.

Eastland No. 1 Shell-Weiss, which the new well offsets on the north, has an elevation of 2,545 feet, topped the salt at 1,000 feet, topped the lime at 2,170 feet, topped the oil at 2,469 feet, and the top of the pay, to 2,544 feet. Gas increased from 2,535-35 feet and body oil and gas increased from 2,552 feet to the top of the pay, to 2,554 feet. The well was completed at 2,365 feet, flowing 344 barrels of oil the first 24 hours through tapered tubing.

J. V. Massie's No. 1 Cordelia Stewart, 330 feet from the southeast and southwest lines of section 12, block 34, H. & T. C. Ry. Co. survey, shut down since June 1 at 2,445 feet, corrected the total depth to 2,469 feet and was shot Sunday with 50 quarts from 2,425-50 feet. The day before the shot it flowed 17 barrels of oil and gas. The first 20 barrels after the shot gauged 48 barrels. The next 24 hours it produced 30 barrels. The well is to be cleaned out and tubed.

M-STORE LEADS—The M-Store grocery led in charity receipts from milk bottle banks last week, a report from M. F. Peters showing \$135 was collected there. The Hotel pharmacy was second with 31 cents. Smith & Stevens third with 30 cents. Total from these bottles for the week was \$3.20.

JOIN CHAMBER—Filling stations and cafes interested in boosting business through activities of the Midland chamber of commerce continue taking out new memberships, a report said Saturday. The latest being the Gulf station at 501 West Wall, operated by C. E. Patterson. This week other new members to sign cards were El Campo Modern, the East Wall Magnolia station operated by Clarence Day, and Kelly's American cafe. Others are expected to join this week, the report said.

REVIVAL SERVICES—Revival services began Saturday night in the Valley View community and will continue 10 days or two weeks. The Rev. A. C. Hardin, pastor of the Baptist church at Lorraine, is doing the preaching, assisted by the Valley View pastor, the Rev. A. A. Watson. Joe Pierce of Midland is conducting the song services.

The nest of an American eagle weighs from 10 to 12 pounds.

EVERY STYLE

Fortune Shoes are all one price and are a real value. They are made of genuine full grain calfskin with prime oak bend backbone soles and genuine leather quarter linings in black or brown, oxford or high shoes. You would expect to pay more for any of the many styles.

Uncle Sam's New Taxes

Editor's Note: This is the fourth of 20 daily articles explaining the new federal taxes.

By ROBERT TALLEY
NEA Service Writer
(Copyright 1932, NEA Service)

Every time you buy a ticket to a movie, a theatre, a baseball game, a swimming pool or any other place of amusement where the admission is over 40 cents, you are helping Uncle Sam to raise an estimated \$42,000,000 from this source toward balancing his budget with the 1932 tax bill.

Tickets costing 40 cents or less are tax free, but all tickets costing over 40 cents are now taxable at 1 cent on each 10 cents, or fraction thereof, on the whole price of the ticket. The law says the tax must be paid by the purchaser. Under the old law the tax applied only to tickets costing more than \$3.

Thus, if a man now takes his wife and two children to a movie where seats cost 50 cents each, he pays an additional 20 cents for tax on the four admissions. If he does this once a week, or 52 times a year, he pays Uncle Sam \$10.40.

It makes no difference to Uncle Sam if the manager gives you a free pass, since passes are taxable the same as paid admissions. Even dramatic critics, baseball writers, newspaper photographers must pay the tax, though admitted free. The tax law exempts only bona fide employees and municipal officers who attend in the course of their duty.

There is, however, a special exemption for children under 12 years of age when they are admitted free or at reduced rates.

If you want a particularly good seat, and you buy your ticket from a ticket broker who charges a commission in excess of the regular price, there is a tax of 10 per cent on this excess. Thus, if you pay a ticket broker \$4.50 for a \$3.95 musical seat (admission tax paid), there is an additional 6 1/2 cents as tax on the broker's 65-cent commission.

The admission tax likewise applies to box lessees and holders of season tickets, regardless of whether they attend the games of performance.

Hailed heretofore as "the most beautiful woman on the screen," Miss Dove in "The Age for Love," a United Artists picture, proves she is a great actress as well. She is a positive revelation and by her performance in this picture she has more than regained her old-time popularity, and again takes her place among the premier actresses of the screen.

Supporting Miss Dove is one of the most brilliant casts ever revealed in a picture. It includes Edward Everett Horton, Lois Wilson, Mary Duncan and Charles Starrett, who plays opposite Miss Dove. Horton is at his best, Miss Wilson and Miss Duncan have never given better performances and Starrett, a comparative newcomer, elevates himself to the front rank of leading men by his work in this picture.

"The Age for Love" is an ultra-modern story of love and marriage—it goes direct to the heads and hearts of every normal person—it both thrills and amuses—no one who patronizes pictures should fail to see.
