Big Trades Day Event Draws Thousands Down Town

MERCHANTS INSTITUTE, INDUSTRIAL SHOW TO OPEN TUESDAY

3 NIGHTS TAKEN UP IN COURSE

Noted Speaker to Be Here; Business Men Expected

The first industrial show ever held in Midland will open Monday in the chamber of commerce office.

The small industrial display will be held in conjunction with the Merchants institute which opens Tuesday night at 8 o'clock.

Those who will take part in the industrial display are the Midland Bottling works, My bakery, Herring-ton Boot and Saddlery shop and Southern Ice and Utilities corporation.

Refreshments will be served to all business and professional men, clerks, filling station attendants and others who attend the Merchants' institute. The school in merchandising will start each evening on Tuesday, Wednesday and Thursday of this week at 8 o'clock and end at 9 o'clock. All who have attended the courses will then go down from the crystal ballroom of Hotel Scharbauer to the chamber of commerce office where they will be served refreshments.

On the night of Tuesday, May 5, at 8 o'clock in the crystal ballroom of Hotel Scharbauer, donated thru courtesy of the hotel, Alfonso Johnson, widely known merchandising expert of the Dallas chamber of commerce, will lecture on "Modern Merchandising." He will emphasize some of the changes which have taken place and will show the need of going modern. He will use charts. At 9 o'clock all who have attended this lecture will go to the chamber of commerce office where the Daryl-land creameries will serve ice cream and My bakery will serve cake. All those who attend the lecture May 5 will be guests of these two local food factories. On this same day these two food plants will have special exhibits in the chamber of commerce office.

On May 6 at 8 o'clock Johnson will speak on the "Right Mental Attitude." This talk, like the one on May 5, will be for retailers and their sales people. This means everybody who sells anything is invited, and this means professional people as well as business folk. At 9 o'clock all those who hear Johnson will be guests of the Midland Bottling company for drinks of the well known Sunshine soda water, and the Southern Ice & Utilities company will demonstrate its product. On this same day Sunshine soda water and ice will be on special display.

On May 7 at 8 o'clock Johnson (See INSTITUTE page 6)

Late News

DALLAS, May 2. (P)—David W. Sink, 61, and his son, Miles F. Sink, were shot to death late today at Cedar Hill, 20 miles from Dallas, in an argument over \$150,000 claimed was owed him by Lloyd Plummer, 25, who came to Dallas, surrendered and was charged in two complaints with murder.

He refused to make a statement. A .25 calibre automatic was used, the elder Sink dying instantly, the son a half hour afterward.

The killing occurred near Cedar Hill's postoffice just after Plummer came from a barber shop where Will Lay cut his hair.

Seven eye witnesses were reluctant to talk. Lay said the Sinks came into the shop while Plummer was in the chair. They left and later Plummer went outside. The argument started and the shooting resulted.

Peggy in Bad

The maid was to blame—that's how Peggy Hopkins Joyce, actress, gem collector, divorcee, explains her failure to declare \$8000 worth of jewels and \$1800 in gowns at New York. She says the maid switched her jewel cases. Customs agents planned to collect \$51,000 in fines and penalties from Peggy for smuggling.

GOODWIN MUST GO TO CHAIR; BILL IS PIGEON-HOLED

AUSTIN, May 2. (UP)—Dave Goodwin, doomed to the electric chair on technicalities, may not be saved from the legislature as the bill which would have permitted the court of criminal appeals to review the case has been pigeon-holed by the senate committee after passing in the house.

Goodwin was sentenced to death for murdering Lloyd Elliott of Mt. Pleasant.

Connally in Great Demand as Speaker

Senator Tom Connally of Marlin, who will make the commencement address for the Midland high school, is in great demand as a speaker.

He delivered the principal address before the Southwestern Journalism congress which opened its fifth annual convention at the University of Texas Friday.

Senator Connally spoke at 2:15 o'clock on "Free Government and Free Press."

Dr. Willis J. Abbott, chairman of the editorial board of the Christian Science Monitor, was another notable speaker on the program.

ARMY FLYERS HERE

Lieutenant Story of Dodd field was a visitor at Sloan field Saturday, returning to his headquarters late in the afternoon. He was piloting an O-19-B. Sergeant Wederman was a passenger.

GLADEWATER, May 2. (UP)—A body identified as that of Bob Murdock of Orlando, Fla., member of a drilling crew, was recovered from the draw pit at the edge of the flaming Sinclair No. 1 Cole. Murdock was one of the nine whose deaths were caused when the well took fire Tuesday night. The body was identified by a key ring.

The body of Bill Harroun, brother of Glenn Harroun, Sinclair production superintendent, had not been recovered.

It was thought today that the well would not be extinguished until Monday. M. M. Kinley, elder of the Oklahoma brothers employed to shoot the well, remained in charge of operations although he broke his leg last night and his brother, Henry, will have to do the actual shooting.

Two hundred and ten quarts of nitroglycerine and sawdust mixture was ready for the shot. If the first one fails, it is planned to shoot again. The Kinley brothers said the fire was the most difficult to stop they had ever tried.

Machine Guns Used

GLADEWATER, May 2. (UP)—Efforts to extinguish the fire at the Sinclair company's flaming gusher were hindered today by injury Friday of Myron Kinley, famous oil well fireman, and by mottled pipe at the well which sprayed streams of oil.

Machine guns were brought in an effort to shoot the molten pipe so the well could be blasted with nitroglycerine.

Kinley's leg was broken when it was caught in a chain which was being used to drag machinery from the well.

Trades Day Cut to Be Chamber Topic

Discussion of whether the price of carrying on Trades day shall be reduced will be held Monday morning at 10 o'clock at the office of the chamber of commerce. Every business house participating in Trades day is asked to have a representative present. The merchants run Trade day and will themselves determine whether to cut costs.

Lubbock Nurse Will Assist County Nurse

Miss Evelyn Richter, supervisor of the Lubbock clinic-sanitarium for three years, executive secretary of the United Charities organization of Lubbock for the past six months and a graduate of the John Sealy hospital in Galveston, will be in Midland during May for field practice and observation of generalized public health nursing.

She will assist Public Health Nurse Miss Martha Bredemeier during the month.

Midland Students Win Two Events

Midland students in the state clothing and cooking meet at Lubbock won second in child's garments, third in layette display and honorable mention in planning a company dinner Thursday and Friday.

Miss Agnes Kolaja, head of the clothing department, and Miss Theresa Pawelek, head of the cooking department, were in Lubbock with the students.

Miss Kolaja was a judge in contests in which Midland students were not entered. Other judges were from CIA, University of Texas, Texas Tech and state teachers colleges.

Roberta Dunagan and Bertha Barrow made the child's garment that won second place; the entire class contributed to the layette display and Lucille McMullan won honorable mention for oral and written planning of a company dinner.

BUSINESS BENEFITS GREATLY

Greater Crowds Than Those at First Trades Day

Thousands of citizens of Midland and the surrounding country stood for thirty minutes at the corner of Main and Texas streets Saturday afternoon while \$150 in gold was distributed through courtesy of Midland merchants.

N. W. Aldridge of Andrews received \$50, Mrs. George Phillipus of Midland \$50, J. D. Bartlett of Valley View \$25, Mrs. W. E. Brown of N. Weatherford street \$10, Mrs. Foy Proctor of Midland \$5, Della Ward \$5, Mrs. J. O. Nobles of Midland \$5, Mary Lou Ferrell assisted John Bonner and Paul T. Vickers in distributing the gifts.

It was noted that several thousand more tickets were in circulation than on the previous Trades day, the first Saturday in April. Announcement was made that next Trades day would be June 6 and that Midland's dollar day events would be May 14, 15 and 16.

Distribution of the cash gifts started at 2 o'clock Saturday, an hour earlier than the previous occasion, and was completed by 2:30.

Many local merchants reported heavy business Saturday with more people in the stores and on the streets than had been seen here for weeks.

The traffic jams that resulted from thousands of shoppers on the streets Saturday made driving unusually slow.

Tourists on the Broadway of America had to detour from Wall to Texas and then over to Illinois in order to get through the town. Cars were jammed on the corner of Texas and Main until officials had to extricate them several times.

Parking places were at a minimum.

High School Gets Big Reception on Trip

Four Schools Visited, and Great Crowds Turn Out at Each Place—Band, Choral and Glee Clubs Go—Goodwill Tour Successful

By JAMES F. HARRISON, (Special Staff Writer)

What others say can more nearly determine the status of a city's growth and its reputation than what the home folk can say.

With that being true, Midland rates at the top with Odessa, Crane, McCamey and Rankin after the goodwill trip taken by students of the local high school and a group of business men and women Friday.

It was an enthusiastic group of students and boosters from the city who left the high school Friday morning for Odessa, where the first "ensemble" was to be given.

The girls' choral club appeared first in each place visited, under the expert direction of Miss Lena Solomon. The girls impressively sang their numbers and hundreds of favorable comments came from students of the schools visited.

The girls were followed by the boys' glee club under the direction of Supt. W. W. Lackey. It was heard among Midlanders present that the boys had never sung better at any time this year.

Master Jimmie Noland, son of Mr. and Mrs. James S. Noland, son of Mr. and Mrs. James S. Noland, preached his famous "nigger" sermon and he caused an uproar among his auditors.

Makes Bond on Indictments Of Fee Certificates Forgery

AUSTIN, May 2. (UP)—John W. Bowen of Dallas, loan and investment man, made bond of \$13,500 on nine indictments for forgery returned by a Travis county jury in connection with alleged faked witness fee certificates at Dallas, paid by Comptroller E. Porter Barnes, former court clerk at Dallas.

Barnes recently committed suicide when arrested on a charge of forging certificates.

The forgeries at Dallas were estimated to have run between \$150,000 and \$200,000 in the past 10 years.

Assistant Attorney General Elbert Hooper said that only two counties had been checked and that it would be strange if more instances were not found. Hooper said the forgeries were brought to light in the comptroller's office where a check had been made.

All blame was not placed in the comptroller for not discovering the forgeries as the office must honor all claims approved by county judges.

LEGISLATURE HAS LITTLE HOPE FOR CODE THIS TERM

AUSTIN, May 2. (UP)—No hope for adoption of a code for Texas oil during the present session of the legislature was held today although representatives of other states said they had drafted the code of Oklahoma City.

The legislature has only one week after the oil conference here unless the session is extended.

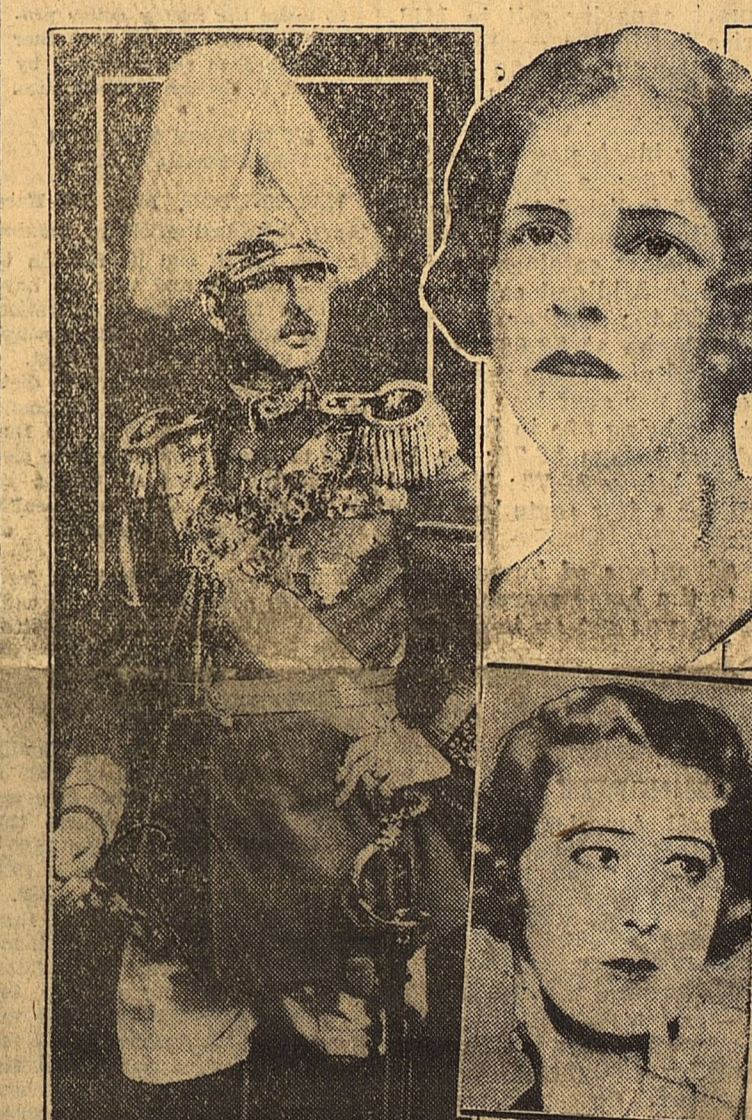

Two Baseball Clubs Play Four Teams

Something unusual in baseball takes place this afternoon when the Busher-Colts and Odessa each play two different teams.

The Busher-Colts engage the Firemen at 2 o'clock at Cowden park, and play Andrews at 3:30. Odessa plays the Midland Oilers in Odessa at 2 o'clock, then plays Pleasant View in Odessa at 3:30.

Southern Ice is content to play the more orthodox brand of ball, playing at Stanton.

Royalty's 'Vagabond Lover' to Get Crown

Two women still play leading parts in the life of King Carol II of Rumania, Europe's romantic vagabond, who is to be formally crowned on May 10, just 11 months after his dramatic return to his country that he had quit for the love of a red-haired mistress. WAR SECRETARY ASSISTANT HERE WITH CAP. EAKER

Two noted flyers, Captain Ira C. Eaker and Assistant Secretary of War F. Trubee Davison, landed at Sloan field, Midland, Saturday afternoon at 1:30, refueled, had lunch, and took off for Phoenix.

The takeoff was at 2 o'clock, and the flyers said they expected to land in the Arizona city at 4:30.

Their plane, a Lockheed low-wing job with retractable landing gear, was landed here last week by Captain Eaker, who flew to Midland for a night stop.

The flyers flew to Midland from Tulsa, where they took off at 10:20. They cruised as slow as the plane would conveniently fly, 186 miles an hour, most of the way from Washington to Tulsa, they said.

A Stearman belonging to the McMillan Oil company was landed at the port Saturday afternoon. The pilot did not register.

Schools to Get \$2 Per Capita May 10

AUSTIN, May 2. (UP)—Schools will receive \$2 per scholastic May 10 as part of the state distribution on \$17.50 per pupil. S. M. N. Marrs, state superintendent, announced today.

There will remain \$4 per scholastic due the schools, \$1 of which may be deferred until October 1.

SIX BLOCKS ARE READY TO PAVE; 45 MEN AT WORK

Approximately 2,000 feet, or six blocks of Wall street will be ready for the pouring of concrete pavement Monday, provided weather conditions will permit, it was announced Saturday.

Grading of four blocks had been completed Friday and forms were in place. Two additional blocks were being put in similar order late Saturday.

It was expected that 45 men would be at work Monday and 55 Tuesday. Concrete on the 20-foot wide strip must be allowed to set for two weeks prior to being opened for traffic.

WASHINGTON, May 2. (UP)—Texas railroads asked the interstate commerce commission today for authority to establish a rate of eleven cents per hundred pounds moving from East Texas oil fields to Beaumont and Port Arthur.

VICTIM ASLEEP AT TIME

Another Hurt; Three Injured by Train At Commerce

SWEETWATER, May 2. (UP)—J. E. Williams, 17, was killed and W. C. Butler, junior, 21, was injured seriously today when they were struck by a Texas and Pacific train near here. Both were from Gainesville, Florida. They were asleep on the railroad dump when the train struck them.

Commerce Accident

COMMERCE, May 2. (UP)—Marjorie Summerlin, 17, was believed fatally injured, Eldon Thompson of Enloe had his toes cut off and a youth named Robertson was slightly hurt when their car struck a freight train near here today. Four were in the party.

They were students of the East Texas State Teachers' college and were rushing to a Commerce hospital to secure medical attention for one of the youths who had been shot in the shoulder by a farmer objecting to the party stopping near his home.

The students said they were repairing a tire. Three were in a hospital here and the girl was taken to a Greenville hospital.

More Than 200 Posters Entered

A total of more than 200 health posters turned in by students of city and county schools, as well as a few from grown-ups, attested to interest in the contest, which was instituted as a part of the May Day health week program.

The posters will be displayed in windows of Midland merchants who are cooperating in the health week. Mrs. Harvey Sloan, chairman of the window display committee, said.

Winner of first prize in each group will receive \$2; second winner, \$1, and third, \$1. These prizes will be given at the county health nurse's office Wednesday afternoon.

Group 1, open to first, second and third grade rooms, was won by Freddie Fae Turner, 1st; Barbara Gunn Harper, 2nd and Virginia Mae Bunnell, 3rd.

Group 2, open to fourth and fifth grade students, was awarded to Marion Locklar, 1st; Sallie Knox, 2nd and Mary Wilson, 3rd.

Group 3, for sixth and seventh grade children, was won by Dorris Dunagan, 1st; E. B. Rountree Jr., (See 200 POSTERS page 6)

NEW PROPOSITION FOR BUSINESS

Arthur Brisbane issued a statement recently that business men have a new problem and that 90 per cent of them don't know it.

"In 1929," Brisbane said, "their problem was 'how we can sell all that we produce, or even half of it,' or a problem of manufacturing; but now the problem is one of advertising and distribution."

Business, big and little, should realize that a 90 per cent manufacturing proposition has become suddenly a 90 per cent advertising proposition; the famous business authority said.

It is sometimes said by a merchant that he can't afford to spend much for advertising because it is hard to get the same return of volume that he once got. This makes it even more important that his advertising be kept up. It reveals a condition wherein he must spend even more to sell his wares else his business may suffer material loss in sales volume.

This is a time when a merchant can afford to go to great effort in whatever direction will enable him to keep abreast. Advertising offers a proven method and a convenient medium.

CATALOGUE PRICES VS. MIDLAND PRICES

Catalogue prices versus Midland prices were described to Midland people and visitors Trades Day from an actual survey made by the Midland chamber of commerce in commodities sold in Midland and sometimes ordered by catalogue.

Pressure cookers of 18-quart capacity sell in Midland for \$18, the catalogue price is \$19.50; garden hose 5-8 inch best quality sells in Midland for \$5.50 per 50 feet, the catalogue price is \$6.45; shotgun shells of smokeless powder sell in Midland at 75c; one catalogue quoted the same load in an inferior black powder at 79c and another catalogue price was 76c; a living room suite which sells in Midland at \$65 is listed in the catalogue at \$79.50 (Midland furniture dealers guarantee to save buyers 10 to 15 per cent below catalogue prices for same quality material) shoes in Midland selling for \$2.49 are listed in catalogues at \$3.45; another Midland shoe listed at \$2.49 sells by catalogue at \$2.69; tacks, screws and such like sell in Midland at 4 cents per package, by catalogue at 5 cents, or 25 per cent less in Midland; Midland shirts quoted at 79c bring 89c in the catalogue; a Simmons bed in Midland brings \$6.75; an inferior non-standard catalogue bed brings \$6.75; Midland auto tires in some instances sell for a few cents less than the best brands of catalogue tires.

On top of all this is the advantage of immediately returning what you don't like to the home merchant. If his dry goods are not satisfactory, you get an immediate adjustment; if a tire blows out, go to your local dealer for immediate adjustment; if it's a catalogue tire bundle it up, haul it into town, write a letter and wait several days and then maybe no satisfaction.

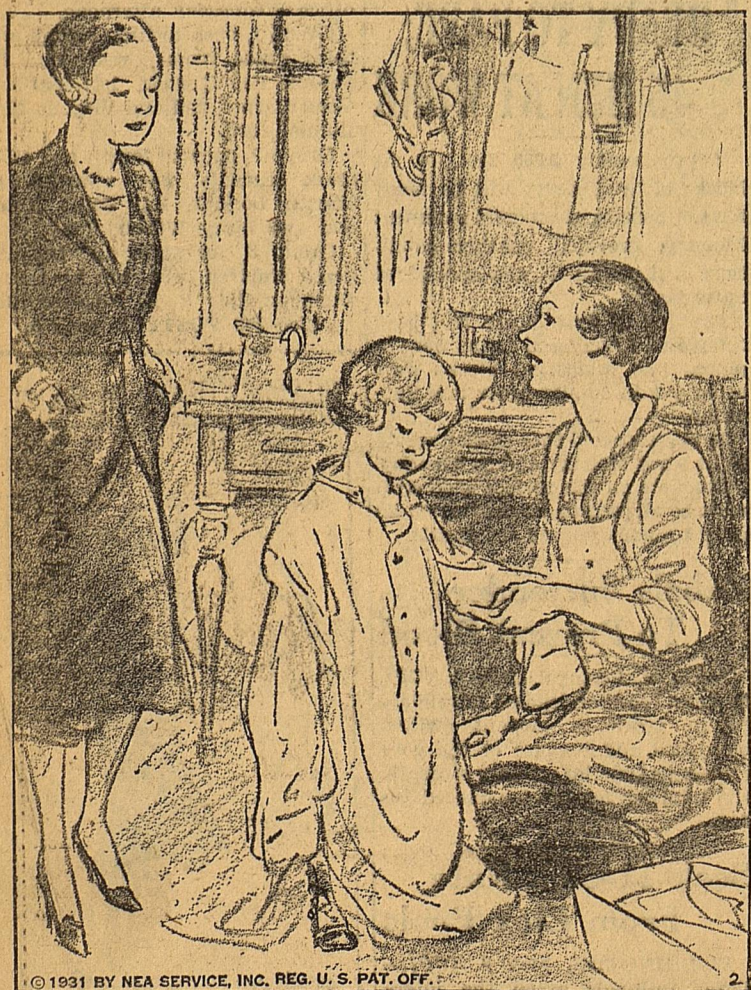

THE DANGEROUS MINORITY

More than 75 per cent of all American motorists never have reportable auto accidents—never, in other words, have any traffic trouble more serious than a scraped fender or a scarred hubcap. About 20 per cent more average at least two serious traffic violations in their careers. And the small remainder—not more than four per cent of the total—cause most of the deaths, injuries and property damage ascribed to traffic accidents.

These figures, made public recently by a traffic safety expert, provide some real food for thought. They seem to imply that there is a certain small percentage of the population that is simply unfit to drive a car at any time. Most motorists have no trouble at all. A fairly sizeable group has some trouble, but could probably be trained into better ways. But a small minority spreads death, injury and destruction lavishly.

Some way must be found of getting that small group off of the highways. Traffic safety will not be in sight until that can be done. Meanwhile, the ordinary motorist will have to put up with restrictions that he really does not need.

EDITOR'S NOTE: This is the second of two articles on how to make the family dollar provide the most in food and other necessities as recommended by the U. S. Bureau of Economics.

BY RODNEY DUTCHER NEA Service Writer

WASHINGTON, May 2.—Hard times, individual efficiency, reduced income, health and its relation to weight, calories and vitamins have all been taken into consideration by the government in its attempt to tell us how and what to eat.

Besides testing and devising diets for families stricken by economic depression, the experts of the Bureau of Home Economics have also studied the control of weight so as to maintain the best health and consequent maximum of pleasure in life.

And they have worked out food and other budgets for families with annual incomes ranging from \$1250 to \$2550, which includes the bulk of wage and salary earners.

A Family Budget For 25 Million Wage Earners

There's a budget for a family of five with an income of \$1525 a year, for instance, which is especially interesting, because the average wage of more than 25,000,000 American wage earners in 1930 has been estimated at only \$1580.

The food allowance in that budget is \$638.88. Other items include: \$318 for rent, \$55 for father's clothing, \$45 for mother's, \$40 for the 14-year-old son's, \$43 for the 12-year-old daughter's, \$17 for the three-year-old baby's, \$15 for upkeep of clothes, \$14.80 for school lunches, \$41.70 for furniture, \$28.60 for insurance, \$5.16 for newspapers, \$56.47 for recreation, \$26 for savings, \$12 for church or Sunday school, \$8.52 for health and \$163.77 for operating expenses including fuel, light, transportation, school supplies and miscellaneous.

Some of that may sound queer, but the allocations are not compulsory. The food allowance is almost twice as large as the minimum estimate by the bureau of the annual sum on which a family of five can eat and stay healthy in emergency periods.

The story about calories and vitamins can be had by writing the U. S. Bureau of Home Economics at Washington. Weight ordinarily can be increased by adding 600 calories a day to the normal food consumption, one is advised, and decreased by decreasing the diet by about 1000 a day. A reducing diet should cut down principally on the fats. Normal diet should run from about 2800 for a man doing light work to 4000 for a man doing heavy work. For women it should run from 2200 for those using little or no muscular energy to 3300 for those using plenty.

The average "census family" of five—two adults and three children under 12—needs about 80,000 calories a week and the bureau has

coffee, milk, egg on toast for two youngest children.

Luncheon Macaroni au gratin, rye bread, applesauce, coffee, milk, mashed buttered beets for two youngest children.

Dinner Tomato juice cocktail, sautéed breaded sausage, beets and vinegar sauce, baked stuffed potatoes, whole wheat bread, rice pudding, tea.

WEDNESDAY Breakfast Hominy grits with milk, eggs a la Goldenrod on toast triangles, coffee, milk, orange juice for two youngest children.

Luncheon Split pea soup, pepper hash for adults, brown bread and butter sandwiches, prune whip with custard sauce, creamed carrots for two youngest children.

Dinner Potatoes escalloped with ham, buttered cabbage, cornbread, butter, molasses, Brown Betty with cream, tea, milk.

THURSDAY Breakfast Daisy oranges, hominy balls with molasses, rice muffins, hominy grits with milk for two youngest children, coffee, milk.

Luncheon Rice hash, corn muffins, butter, molasses, beet greens for two young-

sters of food, including 3 pounds of cornmeal, 10 loaves of bread, 2 pounds of flour, a pan of rolls, a pound of rice, 19 quarts of milk, 15 pounds of potatoes, 3 cans of tomatoes, a pound of navy beans, about 12 pounds of vegetables—kale, beets, lettuce, onions, rutabagas, peppers, carrots, cabbage, and spinach; 5 pounds of apples, 2 dozen oranges, a pound of prunes, a can of peaches, 2 1/2 pounds of butter, oleomargarine, lard and bacon, 2 pounds of sugar, 15 eggs, a can of salmon, three-quarters of a pound of cheese, a pound of lamb, a pound and a quarter of frankfurters, half a pound each of hog liver, sausage, dried beef and ham, half a pound of coffee and a quarter of a pound of tea.

Prices on these items, the aggregate being alleged to feed the family at 27 cents per person per day, were recently current in Washington. The menu for the week, more varied and attractive than the bureau \$6.55 menu which would cost only 19 cents a day, is given in the accompanying box. (THE END)

on his tennis court yesterday, and if I'm not mistaken, he was there to see it while the visiting girls were working off a few sets of doubles.

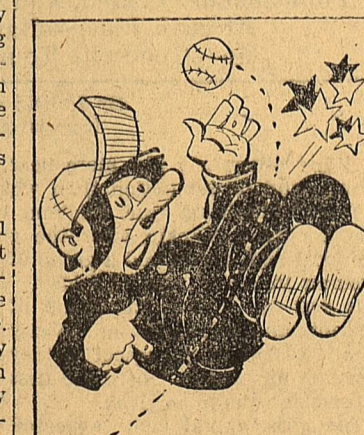

What I said about Prof. Lackey taking the glee clubs for show still holds good. He took them on the trip Friday to visit Odessa, Crane, McCamey and Rankin and the glee clubs and band did the home town proud. I don't care who trains them, Prof. can well afford to show them off.

Well, all I have to say by way of rebuttal is that I could write plenty about that game without even being there to see it, and still not say anything in favor of either club. From what I can hear the boys who have been playing on some of these other clubs didn't think either side was so hot.

As for John Howe, I thought all time he was a ball player and it didn't occur to me to give him credit. On investigation, I find that he never played hind-catch before. Anyway, he bore up wonderfully when he was hit in the nose with a pitched and fouled ball. The only reason he stayed in the lineup, however, was because he couldn't talk any of the Rotarians into taking his place.

Another star of that game needs some publicity and that is Doc Ratliff, playing hind-catch for the Lions. And so does M. E. Miller who garnered two of the Lions' five runs. But if I have to start in here and satisfy these sport fans, I'll get over on Hankins' sport desk and really turn out some stuff.

J. Wiley Taylor, Formerly of Midland, Belmont Class, Friday Afternoon

The marriage of Miss Virgie Duke, daughter of Dr. and Mrs. A. W. Duke of Center, Texas, and Mr. J. Wiley Taylor Jr. son of Mr. and Mrs. J. Wiley Taylor of Best, former Midland residents, on April 14 is of interest to a large group of friends in Midland.

The wedding was at the home of the bride's parents, with the Rev. Frank Laker reading the marriage vows. Mrs. Tol T. Smith was at the piano playing the wedding march. Mrs. E. N. Rogers sang "Because."

Tall baskets of pink and white snapdragons, wigelia and sweet peas formed the altar where the bride and groom were joined in matrimony. The bride wore a handsome costume of blue organdy made period style. She carried a shower bouquet of sweet peas and lilies of the valley. She entered with her father, who gave her in marriage.

Mrs. Ted McCrooklin, sister of the groom, was matron of honor, Miss Catherine Davis, maid of honor and Mrs. Robert Johnson and Miss Kelsie Wallace, bridesmaids. All wore charming summertime frocks of pastel organdy, similar to the bride's costume.

Attending the groom as best man was Cranford Payne. The bride is the only daughter of Dr. and Mrs. Duke and is a popular member of society of Center. She was educated at C. I. A., Denton and Oklahoma university, majoring in music. She is a member of the Delta Delta Delta sorority.

Mr. Taylor was reared in Midland, graduating with the high school class of 1924. He spent four years at state university where he was a member of the Longhorn band and orchestra. Later he graduated from Oklahoma university where he is affiliated with the Delta Tau Delta fraternity.

The committee enlisting the children included Mmes. E. C. Adams, chairman, J. A. Tuttle, Ed Dozier, Ellis Cowden, C. Y. Barron, M. E. Cole, H. G. Bedford, Bob Preston, J. T. Walker and R. V. Lawrence.

Commencement Opens This Week with Senior And South Ward Plays

"The Hoodoo" Will Be Presented Tuesday Evening

As the month of May begins its whirl of activities for public school students, attention this week first turns to the Senior play, "The Hoodoo," to be presented by a group of players at the high school auditorium Tuesday evening at 8 o'clock, thence to the May fete, Folk dances and operetta, "Snow White," featuring South Ward students in the auditorium Wednesday evening.

Other programs to follow include the North Ward May fete, folk dances and operetta, "The Land of Dreams Come True," on Monday evening, May 11, and the John M. Cowden Junior high presentation of the operetta, "The Saucy Hollandaise," Thursday evening, May 14.

Mrs. L. K. Barry of the high school Latin department has directed the senior play, assisted by Miss Thelma Lee Ripley, class sponsor.

"The Hoodoo," a modern drama staged in three acts opens on the lawn at Mrs. Parrington-Shine's country home with an Egyptian wedding taking place. The groom causes trouble. Later a burglar is found in the house and Billy Johnson, the susceptible, is another who causes trouble. Still another causes trouble and this time it is the burglar. An elopement at midnight climaxes the play.

Students appearing in in-between acts will be Alice Buchanan, Carl Reeves, R. V. Wasaff and Dorothy Bess Stanley.

The cast includes: Brighton Early, about to be married, Herman Walker; Billy Johnson, the heart breaker; Alfred Johnson; Professor Sojourn Spiggot, an authority on Egypt, M. D. EL PASO, PAINT ROCK AND VALENTINE WIN BI-DISTRICT HERE

SPIRITED PLAY MARKS EACH SET; BIG CROWDS ATTEND CONTEST; SIX-YEAR "FAMILY FEUD" JINX IS CONTINUED

Perfect weather Sunday greeted District 17 and District 18 netters who came here to play off a bi-district championship.

El Paso, Paint Rock, and Valentine tennis players earned the right to represent their schools in the state tournament at Austin. Winters being the only school to be entirely eliminated.

El Paso was winner of two matches, the boys' doubles team and the boys' singles player taking their matches.

Paint Rock won in the girls' singles, and Valentine's doubles netters took that event.

The clubs asked to play here because of the central location of Midland. The West Wall court of Dr. John B. Thomas was used for all games, despite the fact that the West Illinois court of Mr. and Mrs. George T. Abell was placed at the disposal of the visiting players. The matches went off without a hitch, however, and it was found that one court would be sufficient.

The most interesting match of the day was in the girls' singles, which brought Lois Houston of Paint Rock against Ruby Fletcher of Valentine. Both girls are excellent players, Miss Houston having gone to the state three times, last year working her way to the semi-finals. Miss Fletcher is in the bi-district class this year for the first time.

The game these girls played thrilled the fans. Sets went 8-6, 6-8, 6-4 for Miss Houston, whose service was brilliant, back stroke sure and smashing and general game steady.

In the girls' doubles, an interesting bit of six-year history was brought to attention. Mable Newton and Ethel Sprull of Valentine won from "Dot" Ratchford and "Dash Bullet" Thompson. Last year the winners beat the sisters of "Dot" and "Dash," and before that the sisters of these sisters. The sports chronicler reads thus: "In 1926, the Valentine team of Mabel Newton and Ethel Sprull won from Myrtle Ratchford and Oleta Thompson. In 1927, 1928 and 1929 the Valentine team won from Shirley Ratchford and Lois Thompson."

Therefore, when "Dot" and "Dash," two freshmen trying to throw a kink into the six-year old feud, failed to win Saturday, "Dot" could not be consoled. She cried openly. The losers tired out the stronger girls' attack and the last set was a love set, after they had taken the first one, 6-4.

In the boys' singles, Louie Kahn and George Ball of El Paso won straight sets from the Paint Rock team of Wilson Atwood and Burton Leatherwood, 6-2, 10-8, 6-1. The game was El Paso's all the way except in the second set, when it seemed Paint Rock would stage a rally. But this fizzled and El Paso had an easy time of it thereafter.

Bob Phillips of El Paso stowed away Marvin Bedford of Winters in comparatively easy style in the boys' singles, winning 6-1, 6-1, 6-2. The Pason was one of the best netters seen here this season, smooth in his play, baffling in service, smashing well from deep in his court and returning a dead ball over the net that soon took the fight out of the Winters lad.

Paint Rock teams have been going to the state meet since 1926, each year.

The school has football, tennis, track and baseball sports. As a tennis town it is notable, boasting eight good courts, two of them hard-surfaced. Plenty of tennis material is growing up. Coach Jack Agee said Agee said the boys' doubles team of his school played together this year for the first time.

Miss Ouida Watson, Valentine tennis coach, is a former basketball and tennis player of Texas Woman's college and Baylor university. She said her town had sent tennis players to the state tournament since 1928. Ethel Sprull, one of the girls' doubles team, has been to the state meet twice, and Mabel Newton, other doubles player, once.

El Paso boys have been in the going for several years, playing up through junior high school meets to their present classification.

Ashley, Jimmie Harrison, Miss Stella Maye Lanham, Joyce and the pups, our old jitney and a railroad iron someone fished from over the tracks to the south did wonders on the Abell court on West Illinois. It seems the bi-district netters decided they wanted two courts ready for them.

Speaking of the jitney helping: Mr. Lancaster mounted to the control cockpit and described so many circles on the court that the jitney got dizzy and went three blocks out of the way when herded in the general direction of home. In dragging a tennis court one generally has to ride the drag, but in this case three perched on it—George, Mrs. George and Sam Ashley. We tried a parliamentary seat for a time but gave it up in disgust after taking a few assorted croppers.

Playground ball starts this week. They tell us, those fellows who run in for a fast one and get hit in the mouth, that the new diamond location on South Main will be used during the half. Don't know whether the ground is yet prepared, but venture to assert it will be some pretty afternoon soon when all the boys can get out with hoes and rakes and scrapers.

Had a nice visit in Stanton Thursday afternoon. The land of James Kelly and G. B. Shelburne had letter men of the high school scattered around on the various corners and we managed to talk with each of them. "Sure, we will have a good club out this year," one said. "Boys heavier and faster," another quoth. "We surely want to card Midland for a game this year."

From the dope, Stanton should have just as good a club as last year, and Midland will, no doubt, take something of a risk when chancing a game with the wily Buffalo herd. Midland wants a game, however, so we hear. The box office should reflect the judiciousness of such a meeting. Stanton stands an almost certain shot of taking the Class B district. And that's that.

Awfully sorry it's against social rules of etiquette to offer babies an ice cream cone when they weigh more than 100 pounds. We refer to "Dot" and "Bullet," the midget sized girls' double team from Paint Rock. They lost to Mabel Newton and Ethel Sprull of Valentine, two seniors. The Paint Rock couple has played together about four years, each year defeating sisters of Bullet and Dot. When the latter took the first of three sets it looked like cindication would come to Paint Rock. But it didn't and Dot cried. Then we thought of various things—of her excellent game, of Bullet's pretty playing, and of the ice cream. But Dot looked like it would take more than ice cream to make her stop crying, so we abandoned her to coaches and trainers and fans from Paint Rock. And don't think that town doesn't go along with its club. It has been trailing along to state meets from this year back so long that the oldest sugar daddies of the place can tell you what Austin shops sell the best lollypops.

Some duck was playing in a slicker. Don't know who he was but a compass course struck west of northwest from the club house would have placed you under his rainproof burnoose. A bit individual, what?

The Midland golfing team will get right soon. Bad weather has made things a bit tough on conditioning. But the days of a baking sun are coming and John Howe will be getting more distance on explosion shots than he has been able to grab off with his mashie. They tell a good one on Howe. He was out in the outskirts the other day, presumably repairing a water connection. A housewife came in to find John swearing at a big tap. It seems he had a connection in his hand that struck his fancy as resembling a putter and was playing plumer's golf on his employer's time. But he couldn't putt the tap in a pipe that was sawed off flush with the floor level.

At 11:15 and exactly three seconds, the rain clouds began to drift higher and higher and the blue showed through. Tennis fanciers stood around on corners and decided the tennis matches of the bi-district could be played. Valentine, El Paso, Paint Rock and Winters players were entered earlier in the week. They selected Dr. Thomas' court on West Wall. Mr. and Mrs. George T. Abell, Mr. and Mrs. L. B. Lancaster, Coach L. K. Barry, Sam

Carnera. The Winters boy got the seasons mixed, and hadn't arrived at noon. The short cakes and all 'a' that were out on the board, and El Paso boys hoped he arrived in time to take on board a good pay load.

With a town like Paint Rock boasting eight excellent courts, two of them hard surfaced, what alibi do we have in Midland? Only one passable court, and that a mud lobby when a rain comes up. Some on when it's talking someone with the jack or with influence. Why can't the high school have a couple of courts up there? The idea of Midland high school playing nothing but football makes us duck our heads when smaller towns talk about their baseball, tennis, track and volley ball teams. More has

quite handsome, at that.) He says his town has eight excellent tennis courts, two of them concrete.

been said about the matter this year than ever before. With May Day Health week coming up, beginning May 6, why can't someone talk up the idea of building outdoor exercising places for girls who can do nothing for exercise but sew and cook and take an occasional walk? And about the boys, they are representatives of boys everywhere, having the same energy that must be worked off. If they are given the right kind of supervised all-seasons play they will work more on studies at night, thereby keeping their scholastic requirements rather from the red of ineffectibility, and not go to town at night for amusement.

There's another coach, sitting over there on the bench. This time the coach is a woman, carefully schooled in keeping under hatches her desire to yell encouragement at her players. She is Miss Ouida Watson, Valentine coach. So excited did she become at one stage during the Valentine-Paint Rock girls' singles that she took a turn around the block, then came back and watched and set like an ordinary spectator. She too has sent players in tennis to the state, since 1928. An enviable record, more so since the coach is a woman who continually is pitted against strong teams coached by men.

El Paso and Winters coaches had not been seen by this time by 2 o'clock, so right we will time out and rush up court for another bulletin. Hard to get away, once you sit down there. Next trip may find us dragging along on typewriter.

It was plumb colorful over there on the bench where Mrs. Sam Ashley, Mrs. George T. Abell and Miss Stella Maye Lanham sat wrapped in Navajo blankets. It seems the ladies were cold. No one else seemed to think the day owed any change. The Winters player, true to the name, didn't like our Summers, so he pulled off his shirt and jersey.

Then select the price you think BLACK BEAUTY should sell for and briefly give your reasons for your selection. Your judgment and the logic of your reasoning used to reach a sensible price selection may bring you one of the many valuable prizes offered to winners. Every contestant, whether a winner or not, receives a credit good for \$2.50 on the purchase of a new, modern ICE refrigerator (any model).

Enter this interesting contest today. Technical knowledge of refrigeration is not necessary. You may be a winner! Ask any Southern Ice and Utilities Company's Ice Delivery Salesman for a contest blank.

RULES OF CONTEST

- Contest begins April 25th and ends May 10th. All answers must be mailed to "Contest Manager," Southern Ice and Utilities Company, Dallas, in a sealed envelope, and postmarked not later than midnight May 10th.
- Everyone living in a town or community served by the Southern Ice and Utilities Co., whether a customer or not, is eligible to enter this contest except employees and their families.
- Only one entry is allowed each contestant.
- Write plainly on one side of paper only, giving your full name and address on lower right hand corner of each sheet.
- State the retail price you believe Black Beauty should sell for, and give your reasons for the price selection (200 words or less). Write plainly.
- This is not a guessing contest. Answers will be judged solely on the reasoning used to arrive at a fair and just selling price.
- Southern Ice and Utilities Delivery salesmen will not be permitted to accept entries.
- Everyone entering the contest will receive a credit slip good for \$2.50 on the purchase of a modern ICE Refrigerator (any model).
- Winners will be announced in this paper May 15th.

Tomorrow's Refrigerator TODAY... that's Black Beauty

The many exclusive features which distinguish the new BLACK BEAUTY provide the combined advantages of both ICE and mechanical refrigeration. Black Beauty offers a special stacold compartment for quick chilling—running ice water—a new revolutionary beauty—rear door for outside icing—automatic ice-cuber—better insulation—additional space in food compartments—100 pound ICE capacity. These are just a few of its many advantages. Yet its selling price will be less than \$100.00!

The STACOLD Unit
This is a newly created compartment which provides extra low temperatures, when needed, for quick chilling and cold storage. If desired, temperatures in the Stacold Unit can be lowered to the freezing point. Ample space for milk, desserts, etc. With this unit a housewife has every advantage of both ICE and mechanical (electric) refrigeration combined.

Note these new modern features built into Black Beauty

- Exceptionally large food compartments, permitting greater purchases, fewer trips to market, etc., total capacity, 9.47 cubic feet. Food storage capacity, 6.37 cubic feet.
- New, dominant beauty. Rust-proof exterior is of black gloss duro finish on bonderized steel. All hardware is chromium plated.
- Interior is white duro finish with genuine porcelain floor. Bottom corners rounded for easy cleaning. Roller type doors close automatically. Four bar type shelves permit easy sliding of foods into refrigerator without danger of tipping over.
- Scientific insulation with 2 inches of pure cork board plus 3/4 inch woodtex. Construction throughout is so superior that low ice consumption is absolutely assured. Ice capacity, 100 pounds.
- Tested and approved by Good Housekeeping Institute, Laboratories of Columbia University and National Association of Ice Industries.
- Equipped with rear door which permits outside icing, metal ice chamber guard, outside drain, and ice pick and holder.
- Also equipped with ice cuber which automatically makes ice cubes.
- Water Cooling Coils with automatic spring faucet make pure cold water always available.
- STACOLD UNIT—the latest and greatest innovation in ICE refrigeration—is a special compartment which provides lower temperatures for quick chilling and cold storage.

Where to see Black Beauty

Black Beauty may be seen any day between April 25th and May 10th on a display truck which will tour the streets of this city. It will also be on display and may be thoroughly inspected at the office of the Southern Ice & Utilities Co., South Main St., Midland.

PLEASANT WAY OF SAVING

Buy Needs with Difference

WOMEN everywhere have learned that the new Ice Refrigerators give the utmost in refrigeration value—keep their foods in perfect condition and provide plenty of clear, pure ice for every household need—at the lowest possible cost. They have learned that Modern Refrigeration need not cost them \$150 up for equipment alone, when tested, graded and approved ICE Refrigerators of the latest style are priced as low as \$35.

Furniture, linen, floor coverings, clothes—perhaps some yearned-for luxuries—smart women buy with the difference. And in addition to savings in first cost, ICE Refrigeration gives continuous daily savings—savings in interest, depreciation, repairs, food, doctors' bills and lost time. Save with ICE!

Grid Eligibility Cards Are Printed

Football information cards for use of school officials of District Four, Class A, will be used by all teams of that district this season, Superintendent W. W. Lackey says. The cards are prepared so as to give all information necessary to keeping players' eligibility charted. Six of the cards will be filled out on each player, one card being filed with the school superintendent here, the other five being mailed to superintendents of schools in this district.

Date of birth, place of birth, residence, date of moving to the district, date of entry to eighth grade, date of entry to school wherein player is now enrolled, withdrawal dates from schools where he was enrolled before, dates for athletic participation, grades by semesters, scholastic attendance record, number of courses passed, total credits and other data are scribbled into the cards.

"This method of keeping up with players should have much to do with preventing misunderstandings," Lackey said.

Chevrolet Moves to New Quarters Here

Jackson Chevrolet, Inc., moved into its new home at 111 South Colorado Saturday, occupying the 75 by 140 foot garage building there. A used car lot is located across the street to the west.

Fred Turner, Midland oil man, is owner of the business and H. E. Lacy is manager.

Splendid sales of the current Chevrolet Six models have been reported within recent weeks by the company.

The conversation that went on between the little fellow and his echo. The boy went home and told his mother about there being a bad boy across the valley who wanted to whip him. The mother told the boy to go back and say nice things to the other boy and then he would say nice things in return.

"You are a nice boy," "You are a nice boy," "Come over to see me some time," "Come over to see me some time." And the rest followed nice and easy.

"Such is the case between Midland and McCamey," continued Adair. "We are calling for you to come to see us some time."

Enthusiasm was just as high at other places as it was at McCamey. Supt. W. W. Lackey expressed his pride to the students who participated in event and thanked the chamber of commerce, the Rotary club and the Lions club for making the trip possible.

Sports Reports-- (Continued from page 4)

Businesses went haywire during the matches. Dr. Thomas forgot he had a hospital, save for once when he decided to go by and see if Godbey, his bookkeeper, was on the job. He was, but the doc doesn't know even now that Godbey was squatting behind his car at the court at the time he saw the doctor leave for the office building, and beat him back to the office.

Games on tap for this afternoon: Klapproth vs Godbey at 12:30; Reporter-Telegram vs Midland clinic-hospital at 1:30; Fritz vs McCrary at 2:30; and Schow vs Ferguson at 3:30. Go to the West Wall court near the Presbyterian church if you'd like to watch the matches. The spot a popular a' Sundays.

Cactus for Colorado Park Seen

Several varieties of cactus from the Davis mountain area were contained in an automobile driven through here Saturday afternoon by George Slaton and J. Ralph Lee, business men of Colorado, to be transplanted in that city's new park. The park is located in a 20-acre site on Lone Wolf creek, at the east edge of the city, and is being equipped with modern playground apparatus and many features of park beautification. The movement for a park there was started by the Lions club and later completed through cooperation of all civic bodies and the city of Colorado. The welfare association gave employment to transients there.

will speak on "Salesmanship." This is open to everybody in Midland who has to make his own living. At 9 o'clock, R. P. Townsend of the Midland Candy kitchen will have all who hear Johnson as his guests when he serves potato chips and candy made in Midland. Townsend will have a special display on May 7.

In addition to the night school in salesmanship conducted by the Dallas man he will address the Lions and Rotary clubs and the high schools, speaking at the school Wednesday morning on "Good Will Value of One's Name."

The Industrial show will open with a display of leather goods by Herrington and Dorsey May 4; May 5 My bakery and Dairyland; May 6 Sunshine soda water and Southern Ice; May 7, candy and potato chips; May 8 Sunshine soda water, candy and potato chips; May 9 Dairyland, My bakery.

Only products made in Midland will be shown. Only those who attend the night lectures in the crystal ballroom will be guests for the refreshments served at 9 o'clock. However, the industrial show is open to everyone from 8 a. m. to 6 p. m. It is hoped that Midland people may be impressed to eat home ice cream, home candy, home potato chips, drink home-made soda water and in general use home products because they are better and fresher and because to buy Midland-made goods means employment for Midland families who need the work, and buying home manufactured goods means more money left in Midland.

The night meetings Tuesday, Wednesday and Thursday are open to everyone interested. The lectures and the refreshments are, of course, free to all. The Dallas chamber of commerce is donating the services of Johnson.

Scouts Pass Tests While on Outing

An evening hike Thursday was utilized by Troop 52, Boy Scouts of America, to range about in the light of the fire and pass enough tests to give it the highest percentage in the Buffalo Trail council.

The troop went to Chinaberry, two miles past the airport, pitched camp, cooked supper, told stories, took tests that made the troop's rating 100 per cent and then came back to the city.

Accompanying the scouts were Scoutmaster Guy Brenneman, Assistant Scoutmasters Wallace Wimberly and Buster Howard, Mrs. K. E. Ambrose, Mrs. W. W. Wimberly and Mrs. Brenneman.

PROMOTES HEALTH

Annie Male Mathis, colored state stenographer nurse and a graduate of the Provident hospital, will be in Midland for the month, doing generalized public health nursing among her people.

Her home is in Chicago. The first week will be devoted to inspection of her people's school, and organizing of health clubs. On May 10 will be a health meeting. The second will result in a clean-up campaign being sponsored. A child health conference will be held the third week, with all children expecting to enter school next year invited to attend for inspection.

Store owners, filling station owners, laundry owners, cafe owners, hotel owners, garage owners, in fact, every man in Midland employing workers of any kind is solicited to ask his employees to attend the merchandising school to be conducted in the Crystal ballroom of Hotel Scharbauer at 8 o'clock Tuesday, Wednesday and Thursday nights.

Business owners, proprietors and bosses are urged to notify their employees at once they would like them to attend these meetings, so the employees will keep these dates open.

"All ambitious clerks, workers and attendants are looking forward to the merchandising institute with great pleasure," said one business man.

Noted Director Now Plays Parts

HOLLYWOOD. (UP).—Donald Crisp has returned to work as an actor in a motion picture studio situated on property he once owned and where, as a director, he made some of the most successful pictures of the screen.

Crisp's most recent employment is a matter of deliberate choice, and not of necessity. Inactivity palled upon him, and he resumed his earlier career as an actor.

It was in 1915 that Crisp, then producing and directing pictures, purchased 20 acres of land south of the then small city of Hollywood. Huge eucalyptus trees lined the country lane leading to the property. After using the property as a location for filming "Eyes of the World," he sold the ground to the Brunton Film company, and later it was acquired by Paramount studios.

So Crisp and his makeup box went to Paramount studios, where he played one of the chief roles in Clara Bow's new picture, "Kick in."

Crisp for several years was a director for Paramount, later transferring to Cecil B. deMille. He directed Wallace Reid, Theodore Roberts, Lewis Stone, and Fred Stone during this period.

In 1923 Crisp sought to retire. The camera beckoned, however, and back he came to the films. Previously he had played important roles in "The Birth of a Nation," and "Broken Blossoms." In the latter film, his part as the villain was one of the most noteworthy achievements of his career.

Open Window Starts off Crime

EAST ST. LOUIS, Ill. (UP).—Fourteen-year-old Emille Galimat and 12-year-old Eunice Fritsche, have confessed to a series of robberies, their career, due they say, to a housewife leaving a bedroom window open.

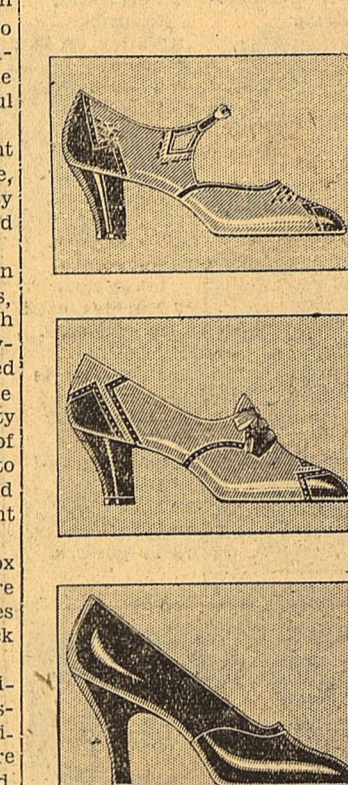

The two saw pretty dresses hanging inside, went through the window and took them. Since then, police say, they stole a canary in a cage, radio tubes, three flapper dolls, lingerie and suitcases, before arrested.
