Oil Scouts Feel Business Impetus

Permian basin oil activities Permian basin oil activities have shown such a big increase that a day and a half are now required for oil scouts to do their checking and sample cutting which was formerly done in one day. The check meeting is now held each Wednesday night at Hotel Scharbauer and the sample cutting is done on Thursday. A. W. Wyatt is president and R. E. Witty, secretary, of the Oil Scouts association.

Extent of the heavy increase in oil leasing activity in Gaines county is shown vividly by the county clerk's records. Within less than four days last week, 13 land or lease trades were made. Most of the play is to the south and west of Seminole, the county set

A scene of wild life tragedy that tears at the heartstrings is this-a doe cold in death, her fawn starving beside her, victims of man's unthinking cruelty. A deer hunter, intent only on prey, ignored the rule of the woods, never to shoot before looking for antlers. He killed the doe and left the fawn, struck in one hind leg by a heavy slug, to starve or fall victim to a prowling beast. A conservation photographer came upon the scene, near West Branch, Mich., rescued the fawn, and it is being nursed back to health.

Choir of 100 Presents Xmas Cantata at Church Tonight

Methodist Choir to Give "The Manger and The Star" at Early Service Next Sunday; Schools Also Present Special Programs

Dates of interest were added to the pre-holiday calendar this weekend with the amouncement that two Midland churches will have Christmas special services.

More than a hundred voices will be heard in a cantata at the First Baptist church tonight at 7:30. The Baptist choir with artists from other Midland churches will present "The Wondrous Story" by Kountz. In this Christmas cantata the author and composer have at ture: "Luke 2:8-14", Bible; Prayer

tempted to re-create the atmosphere of simplicity, nobility and purity that characterizes the traditional Christmas carols without having recourse to the carols themselves.

The cantata is in six parts. "The Shepherds", surprised and somewhat troubled by the sight of the Star of Betthlenem, are pictured as a gentle pastoral movement. The second episode depicts "The Angel Choirs" coming to herald the birth of the infant Jesus. "The Three Wise Men" who followed the guiding star are the subject of the third part. The ensuing scene shows the coming of people, shepherds and kings "Into The Town of Bethle hem," in form of stately chorale, "The Manger," in fittingly reverent style, marks the awakening of the Child Jesus. In "Christmas Dawn" the strain swells to one of pubilation and brings the cantata to a turn of simple the second content of the cantata to a turn. ing health and happiness, convenience and economy for years and years and years. That's why it's such a grand

gift-for the whole family! Of course, the first thrill of owning a genuine Frigidaire is the biggest of all. But, as time goes on, you'll wonder how you ever got along without it.

THIS NEW FRIGIDAIRE USES LESS CURRENT THAN ONE ORDINARY LAMP BULB

And Frigidaire costs so little to buy and to use! And the new Standard model has 1/4 more food space; lifetime, stainless porcelain interior; automatic defrosting; autoDulux finish

After you select your Christmas Frigidaire, we'll affix a beautiful sterling silver medallion, appropriately engraved with any Christmas sentiment you choose and you and your family will have a Merry Christmas and a lot of happier New Years.

Less spectacular, but equally important from the view point of aviation and certainly no less difficult for the pilots are the two records for light planes—distance and altitude—which are classified by the F. A. I. Both are held by Frenchwomen.

One June 28, to 30, 1931, Maryse Bastie from the Midi performed the unusual feat of flying 2,796,910 kilometers from Le Bourget to Urino, Russia, in a light plane. No other woman has equalled this performance.

Repairs to the state capitol, now planned as a public works relief measure, will make up for neglecto care for the building as its arcibitects advice. A computation shows that less than one tenth of the amount estimated to be necessary for upkeep has been expended upon it since its dedication in 1888. At that time it was the sevenual largest building in he world. Its 311 foot dome and its south einrance arch are its main architectural features. The dome is higher than that of the national capitol. The arch is the masonry arch standing. It had no cost in dollars and cents. But the 3,000,000 acres of land deeded in exchange for to to day protably are worth \$30,000,000. At one time the estimate was double.

GIRLS TO ENTER ARMY

ISTANBUL. (U.P.)—The spirit of the Amazons has been reborn in the breasts of 70 Turkish school-girls. These warlike maidens have decided to adopt the profession of arms—the martial ones—and have applied for admission to the Military College. The Ghazi, Mustapha Kemal, is said to look with favor on the militarization.

AIDS C.C.C. WORKERS

SPRINGFIELD, Mass. (U.P.)—Ten Conservation Corps youths haled into court for stealing rides on a train, were fined \$2 apiece. The youths had only \$10 among them so Timothy Harrington, held on a drumkenness charge, came forward to give them the additional \$8. Harrington was subsequently given \$1 jail sentence.

and France share feminine aviation honors for 1933.

Amelia Earhart still is queen of the air, holding first place in the records of the Federation Aeronautique Internationale.

Worthy rival of the American flyer is Maryse Hilsz, "Earhart of France," who holds the women's world altitude mark.

Fastest woman in the sky is Mrs. May Haislip. Most renowned at present, though not holder of exceptional records, is perhaps Mrs. Amy Mollison.

The records as they stand at the end of 1933 are:

Straightline distance: Earhart, Los Angeles New York, Aug. 24-25, 1932.

Altitude: Hilsz, Villacoublay, Aug. 19, 1932.

the masses" is the thought behind a new law just approved by Adolf Hitler's Cabinet, abolishing the tax on sparkling wines.

Hitherto there has been a tax of 24 cents on every bottle of champagne sold within Germany, whether made within the country or imported. The tax was the same for all qualities. In cabarets and night clubs, it was exacted over and above the regular 10 per cent tax on all beverages. This had led to the classification of champagne as a luxury, it was announced, but against this viewpoint placed the argument that more jobs can be created if consumption of champagne is interested.

Emanuel's humor put a dazzling sword-rattling foreign military attache in his place without a frown the other week.

The attache was smoking a cigarette in the royal box while he watched the Italian Armistice day parade.

On seeing the foreign diplomat's disregard for the royal presence the Kink leaned towards him and remarked:

"You shouldn't smoke here?"

"Because the stand is made of wood," hastily backfired the King turning his head away.

Incidentally, the King smokes Italian stogies. more jobs can be created if consumption of champagne is increased. The industry expects to hire 4,000 additional workers based.

About 6,248,8 on increased consumption stimu-lated by the tax repeal.

Those who admired the recent display of handmade Chinese jew-ciry at the library will have the opportunity of seeing a collection of hand made and woven linens from the same source. Mrs. Preston, Chinese missionary, sent them to Mrs. L. G. Lewis who will have them on display and for sale the week at her home, 714 West Kansas.

Mrs. Preston's note of explanation said "The linens are made from staves exceeds the supply.

SPRINGFIELD, Mo. (U.P.)—The stave mill industry, which sprang up in the Ozarks with legalization of beer, is proving more flexible than the stout white oak product it turns out.

Overproduction of beer barrel staves was threatened in recent months, but repeal of the 18th Amendment stepped in to save the situation. Today, the demand for save exceeds the supply.

Mrs. Preston's note of explanation said "The linens are made from hemp woven in Human province and spun in the homes. We buy bolts of the grass cloth and the women come to the mission for the material. It is given them along with foreign thread and they make it up in their homes. There is nothing finer made. We follow up these women with the Bible toachers, nurses, teachers, e.c., and thus we reach their poor homes with the Gospel. We have built a girl's school and changed many lives and communities through the years.

Mr. Preston's note of explanation staves exceeds the supply.

Beer barrel staves are made thick at the ends, to stand heavy handling, and thin in the middle so they will bend considerably. They are turned out on a stave dressing or planing machine. Whisky barrel staves, however, are sawed out on cylinder saws. They are of uniform thickness, since they do not travel from considerably.
