MIDLAND, TEXAS, SUNDAY, MARCH 26, 1933

WALLACE ASKS FLEXIBLE POWER

East Texas Shut-Down Order for Monday Is Rescinded

ORDER FOLLOWS GULF'S DECISION VS OBSERVANCE

Chairman Smith Said To Agree Plan Is Untenable

HOUSTON March 25. UP) .-Chairman Lon A. Smith of the rail-road commission said today that the "free flow-shutdown" order for East Texas would not go in effect Monday. He immediately began preparation of a communication to R. D. Parker, chief oil and gas su-pervisor, instructing him to rescind pervisor, instructing him to rescind the order.

smith was here early today to inspect the Conroe field and returned for a conference with Attorney General Allred.

Under the order the field would have to run open two hours to test the potential, then completely shut down indefinitely.

Rescinding of the decision was made after Underwood Nazro, vice president of the Gulf Production company, notified that he would not observe the order, declaring that "its simply won't work." Smith is said to have agreed.

Officers "Knock Off" Speakeasies

The bootleggers have more to think about than return of legalized beer, apparently.

On Friday night officers armed with search warrants "knocked over" several speakeasies and condiscated a large amount of brew. The raid was general, officers in cluding every section of the city.

A group of out-of-town promotors

A group of out-of-town promotors were in Midland last week looking for a suitable building for establishing a small brewery.

A large warehouse was found to be of adequate size, but no lease was signed, the men saying they will return some time this week to further consider Midland as a site.

"If this bunch of calves doesn't break me, I'll be back for more," he said.

"The calves, gathered from ranges of the South Curtis place and to the north, were gathered and "shapwill return some time this week to further consider Midland as a site.

will return some time this week to further consider Midland as a site.

Juarez brewers are "blue" over the prospect of Texas going wet, visitors to the border town last week said, and several are planning to move their plants across the river to El Paso.

Road Segment Is

Conclusion Friday of the Germania to Martin county strip of highway work was announced Friday, and the crew of workmen were ready to begin working from the Midland eastern limits towards Ger-

mania.

The crew will complete spreading of caliche on the segment within about three weeks and begin working from the western city limits of Midland towards the Ector county

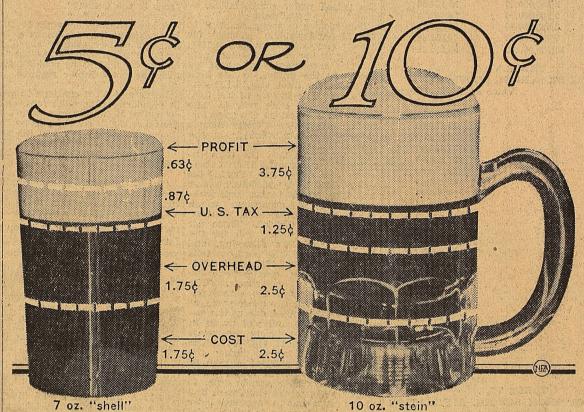

The first of the work of reconstructing the Bankhead Highway through Ector county was started at Odessa Monday of last week, when a crew of fitteen laborers were put to work grubbing and clearing the strip necessary for widening the right-of-way in the west end of the county.

right-of-way in the west end of the county.

The first portion of the work included grubbing and clearing of the west end of the highway. Fifteen men in each of two crews alternated on the work of grubbing and clearing. When this is finished, men with teams will be put to work on grading the new dump necessary for the wider roadbed.

Although only a comparatively small number of men are being given work at this time, the project is said to be of considerable importance in helping with employment. When the entire stretch of road through the county is put under way, it is believed that the local situation will be practically cleared up.

"Here's How" It Will Probably Be Soon

When beer is legally available again, you'll probably be able to get it for a nickel or a dime, despite taxes, though this will vary according to local regulation. Here's how your nickel or dime will be divided, according to brewers' figures. State and local taxes would further cut down the profit margin. The size of the seven ounce "shell" might be even further reduced to get inside the five-cents limit.

Two of four youths wanted in short age committees, was Haag at Austin for voting support connection with theft of 28 hens at completed Saturday by the Schar- of their stand connection with theft of 28 hens at Rankin last week were apprehended here Friday afternoon, two others escaping, officers reported.

Farm Union Witness Denounces Plan As Expensive

SUBSTITUTE BILL

MAY BE OFFERED

SENATE MONDAY

WASHINGTON, March 25. (UP) Secretary of Agriculture Wallace told the senate agriculture committee today that congress must grant the administration "broad, flexible powers" if the farm problem is to

be solved.

Wallace was combatting the committee which threatened to cut his authority over farm production as provided in the Roosevelt farm relief bill. He pleaded that they trust the executive and his helpers for a sound solution and emphasized the necessity of flexibility in application of the processing tax to protect the consumer.

President Simpson of the Farmers' union preceded Wallace and denounced the bill. He estimated that 200,000 administrative employes would be needed for the program, costing \$600,000,000 annually.

SUBSTITUTE BILL MAY SUIT PRESIDENT

WASHINGTON, March 25. (UP). Senator Walsh of Massachusetts said today that a substitute employment relief bill will be offered congress Monday and will call for reforestation only.

The bill would give the president the right to dictate the method of execution. Charged with dodging a \$657,152 income tax levy by the sham sale of stock at loss to his wife, Charles E. Mitchell (above), former chairman of the National City Bank

execution.

Roosevelt was understood to be agreeable to the change.

JUSTIFIABLE WRATH

One of the good bits of news coming from Washington recently—one of the many good bits, it should be said -- is the announcement that responsible government officials share with ordinary citizens a feeling of indignation over the shenanigans of those few bankers who were ultimately responsible for the recent crisis.

"We must bring them to justice," says Secretary of the Treasury Woodin. "I could bite the head off a 10-penny nail, thinking of the persons who put their life savings, maybe \$800 or \$1000, in institutions that were not prop-

That is the kind of talk that one likes to hear a treasury secretary uttering. There are a lot of people who could put on the nail-biting act when they think of those things. It is good to know that the administration shares 1906-19 Their wrath. It is implemented to make its wrath felt.

HARLINGEN. (UP).—Closing of the Federal Fruit Frost service weather bureau here has been set for March 31, according to E. S. Nichols, meterologist in charge. The station was established two years ago to aid in warning valley orchardists and growers of threat ened cold.

The history of the number of scholastics which were enumerated by the census trustees is shown by Table. This table shows that there was a falling off in the number of

CHAPTER IV STATISTICAL HISTORY Purpose of the Chapter

Purpose of the Chapter

It is the purpose of this chapter to give a statistical history of the Midland Independent School District, and through it, the history of the Midland public schools, from 1906 to 1931, inclusive. This will include a history of the enrollment year by year, a history of the number of scholastics enumerated from year to year, a history of the tax rate for maintenance and for bonds, a history of the tax valuations and a history of the tax valuations, and school tax collections, a history of the valuations of the school prop-erty, a history of the affiliation of high school subjects and the evolu tion of the curriculum as indicated by that history. The method will be means of statistical tables and graphs built from those tables. A table will also be included showing the officers of the school board for the period under consideration.

Enrollment
The history of the enrollment in the Midland public schools for twenty-five years, from 1906 to 1931. is given in the accompanying Table on Sunday morning to snoring the shown in the grades, in the high school, in the total, and in the senschool, in the total, and in the sentior class. The history of the total enrollment for each year is also shown by a graph on the page following the table. These records show that the enrollment in the night school was less than forty the first year, and that the total enrollment surpassed the census every year except five. During the years 1908-1909, 1916-1917, and 1929-1930 Midland was experiencing periods of expansion, which ing periods of expansion, which is also shown by a graph on the page following the table. These records the other night. George said he had become a grandfather and his wife to pay the whole blooming orchestiva?

Waybe that accounts for all the blank verse.

We don't mind paying the fiddler after our economic spree of the past to pay the whole blooming orchestiva?

"So your daughter has had twins?" Gracie asked.

"The other night verse."

We don't mind paying the fiddler after our economic spree of the past twins?" Gracie asked.

"So your daughter has had twins?"

"S ing periods of expansion, which resulted in large per cents of transients in the district. These are shown on the census roll for the immediately following, and at reason the census rolls for 1909-1910, 1917-1918, and 1930-1931 show to be greater than the enrollment in the schools. The census roll outran the school en vollment during two other years, as shown in the tables, due to the enrollment of a number of pupils in Midland College during the years 1915-1916, 1916-1917, 1197-1918. The Midland school board, during the year 1906-1907, adopted a plan of allowing free tuition to all pupils and the schoolstie age, in order to over the scholastic age, in order to build up the school enrollment and at the same time to encourage older boys and girls to go to school. Except in the years 1909, 1917, and the last four or five years, during which years Midland experienced slight booms, the enrollment has

that farms which were bought on time and rented out were paid for those years. This happened again in 1916-1917. time and rented out were paid for with the rent in one year. Trese booms and the consequent influx of people greatly affected the enrollment in the schools, as is shown by the tables and the graph.

The third boom experienced by the school takes the consequence of the school takes to be increased to 75 cents. It was generally understood during the election campaign for the school takes to be increased to 75 cents that a to be increased to 75 cents it was possible limit of 75 cents. It was generally understood during the election campaign for the school tax and the next year the fourth the properties that a to be increased to 75 cents. It was generally understood during the election campaign for the school tax and the next year the fourth the properties that a to be increased to 75 cents. It was generally understood during the election campaign for the school tax and the next year the fourth the properties the properties that a to be increased to 75 cents. It was properties the properties that the properties that the properties the properties the properties that the properties the properties that the properties the properties that the properties the

and schools ran from 686in 1926-1927 to 1,694 in 1930-1930. This boom began to be felt slightly in the latter part of 1925-1926, resulting in the demand for more room and the erection of the senior high school. During the year 1928-1929, when the enrollment had jumped from 845 the previous year to 1,270, the junior high school was built. By a wise provision of the school beauty and the people the school than the propose that the propose the school than the propose that the propose the propose that the propose the propose that the propose the propose the propose that the propose the prop board and the people, the school building program was kept up with or ahead of the influx of popula-tion, and, as a consequence, the Midland schools remained at the peak of efficiency throughout the

While the housing problem was provided for in advance of the in-flux of population with the coming of the oil boom to Midland, the problem of sufficient teachers and that of maintenance costs were not so simple. In 1927-1928 the teaching force had to be icreased 40 per cent over that of the former year, mothers have sent their boys to citi-zens military training camps. No-amounted to only sixteen per cent. This discrepancy was due to the fact that many people came to Midland after the first of January and ent their children had to be cared for in the schools, while the building boom and other increase in property values, many of them begun to after the first of January, did not get into the tax rolls until the fol-lowing year. The same condition prevailed in 1928-1929. The result was that during the years 1926-1927-1928 the Midland schools were forced to borrow money, first and last, to the amount of approximately \$30,000.00, finishing up the year at one time with this amount behind. All obligations were met, however, and by the steady increase in values and the wise management of the school board, the district pread the doctrine of healthy, lemocratic Americans by their daily lives.

TO CLOSE STATION

HARLINGEN, (UP)—Closing of the school board, the distribution became known for its high financial rating. This sound basis is well illustrated by two financial budgets which appear in the last two chapters of this book, each showing as great a cash balance at the end of the year as the first provided in the property of the school board, the distribution became known for its high financial rating. This sound basis is well illustrated by two financial suggests which appear in the last two chapters of this book, each showing as great a cash balance at the end of the year.

by the census trustees is shown by Table . This table shows that there was a falling off in the number of was a failing off in the number of scholastics during the years 1911 wave in February, crops which survived are in splendid condition and good yields are expected if unfavorable weather does not occur during the next two weeks.

was a failing off in the number of scholastics during the years 1911 to 1914. It also shows that practically no negroes were enumerated until the year 1924. The high points good yields are expected if unfavorable weather does not occur during the next two weeks.

enrollment history.

Tax Rate

\$100.00 valuation of taxable property to the year 1930-1931, when the district was an independent school district and the school tax was \$1.00 which years Midland experienced slight booms, the enrollment has been growing gradually, rather than spasmodically. The depression during the drouth, and especially during the drouth, and especially during the years of 1911, and 1913 is shown by a dropping off in the total enrollment. The fourth column of the table shows the enrollment in the senior class.

By reference to the graph, it will be noticed that within the period of twenty-five years Midland has experienced three booms. The first was a land boom from 1907 to 1910, the high point coming in 1908-1909. During this boom, land went up from two or three dollars per acre to eight dollars per acre. Land offices and land agents filled the town, and many ranchmen, deciding that eight-dollar land was too high for grazing purposes, either sold their land or put some of it in cultivation.

The second land boom came from 1916-1917. During this boom, the price of land advanced so rapidly that farms which were bought on time and rented out were paid for the school tax was \$1.00 on tax all the graph of the mint than \$1.00 on the \$100.00 valuation of taxable bronched the school tax was \$1.00 on the high school purposes has been raised by vote of the bid land Independent so the property. The tax rate for school tax was then bender in the history of the Midland Independent so the history of the bronched was created, and the graph in 1902-1923. Additional expansion was realized with the school tax was then raised from 20 cents. The last time, in 1925- it was raised from 25 cents. The last time, in 1925- it was raised from 75 cents. The last time, in 1925- it was raised from 75 cents. The last time, in 1925- it was raised from 75 cents. The last time, in 1925- it was raised from 75 cents. The last time, in 1925- it was raised from 25 cents. The last time, in 1925- it was raised from 25 cents. The last time, in 1925- it was raised from 25 cents. The last time, in 1925- it was raised from 25 cents. The last time, in 1925- it was raised from 25 cents. The last time, in 1925

> Tax Valuations and Collections Table IV shows the history of the tax valuations and annual collections on the tax rolls of the school district from 1906-1907 to 1930-1931. This table shows that the valuation increased from \$1,168,510.00 in 1906 1907 to \$12.139,374.00 in 1930-1931 The annual collections increased from \$2,337.02 in 1906-1907 to \$96,from \$2,337.02 in 1906-1907 to \$96,-500.00 in 1930-1931. Under the new law allowing taxes to be paid as late as October 15, 1931, without penalty, approximately \$14,000.00, which will be sure of collection by October 15, 1931, was carried over uncollected. This should make the local tax collections for the year.

> local tax collections for the year 1930 1931 run close to \$110,000.00 for maintenance and bonds combin Value of School Property The value of the school property of the Midland school district is shown in Table V. This table show an increase in values from \$12, 525.00 in 1906-1907 to \$419,900.00 in 1930-1931. The value of school prop erty was greatly increased in 1925 1926 with the erection of the senio high school building, and again in 1928 with the erection of the John M. Cowden junior high school. History of Affiliation and Evolu-

tion of the Curriculum
The history of affiliation is shown
In Table VI. It is a noteworthy fact that Midland high school has never asked for affiliation and failed to get it, that it has never lost any affiliation, and that it now has the maximum affiliation in every sub ject taught. Early in the history of the high school it was decided to teach only those subjects in which

ures on enrollment may be taken as affiliation might be secured, and to fair indexes to periodic and regular expand the program of studies as growths of the town and the schools. rapidly as the building, the equip-A graph following the table is used ment, and the teaching staff would to picture the history of the school permit. The record shows that the census for the twenty-five year period. The same influences which affected the enrollment may be seen in the census table and graph, with the variations and fluctuations which have been explained in the enrollment history.

"Madam Butterfly" Benefit Show for Presbyterian Circle

The most famous film presentaion of the exotic drama "Madam ! Butterfly" will be flashed on the Midland Saturday. screen of the Ritz theatre Tuesday and Wednesday as a benefit for the Presbyterian auxiliary, Circle A. The oriental drama, cued for the first time with elaborate musical arfirst time with elaborate musical arrangements and built about a famous cast including Sylvia Sidney and Charles Ruggles, has been seen on the stage by former generations and listed as one of the most appealing romances of the era. Children will enjoy it just as much, for it embodies love, educational features and an emotional appeal that has caused it to become known in every civilized country.

Novel Track Meet Held Friday Night At Vickers Studio

A novel benefit bridge and jig-saw party was given Friday even-ing by Miss Lydie Watson and Mrs. Paul T. Vickers. The affair was held in the form of a spring track meet and as guests entered they drew tal-lies paring the track event which

reds and white in room was made. By cutting old rags about an inch wide, using three strands to braid together, and sewing the braids in a circle or oval shape, until the desired size is obtained, even a child can make the loveliest of rugs.

Blue Bedspread Charming
No bedspread could be more charming than a blue percale one splashed with designs of red and white. Quilt in red and use a very full flounce of plain blue bound in red.

To do justice to the lovely bedspread the ugly brass bed was enameled dark blue and not to be outdone the bureau followed suit, as did the old reed rocker who later received a percale cushioned seat to match the spread.

In the form of a spring track meet and as guests entered they drew tatlies naming the track event which they were to enter. Bridge events they were to enter. Bridge

to match the spread.

A tiny discarded table painted in red made a desk that was quite fetching with its blue blotter and black accessories.

A bridge lamp had its stand painted red and a white dotted swiss shade finished with red ball fringe made the prettiest of lamps.

I couldn't resist taking a peek in their white muslin ruffles bound in red and held in place with red thumbtacks and the hangers covered with white muslin and hooks painted red, made the grandest one I ever did see.

Miss Gertrude Cronan came in first and Miss Vera Hefner last in the relay race.

A floating prize was awarded the person making the last little slam.

Punch and cake were served to Misses Hefner, Kathlyn Mullino, Aline McKenzie, Theresa Klapproth, Word, Carpenter, Mary, Marvine and Helen Hogan, Louise Rippy, Helen Weisner, Marian Cartwright, Erna Taylor, Elizabeth Lomax, Katherine Anderson, Gronan, Mary Wallace, Marguerite Bivins, Lois Walker, Lucille McMullan and Stella Maye Lanham, Mmes. E. R. Thomas, De Lo Douglas, Clint Myrick and L. K. Barry.

Two minutes later he was speed.

"I am performing my duty as

vates of the guard.

Two minutes later he was speeding on his way to the fortress, an army chauffeur and his orderly on the front seat before him.

In the bleak countyard of the Fortress of Peter and Paul, which had so often echoed to the tramp of the marching feet of the Tsst; regiments, and where gold braid had shone and steel helmets had glinted against the rays of the sun.

Prince Paul retained his soldier; y air.

"I am performing my duty as Commander of Her Majesty's Own Chevalier Guards, Your Imperial Highness."

Igor barely restrained himself.

"Where I am in command, your duty ends," he said with rising an ger. "Fill take the responsibility."

"I have already taken it," Paul Preaching in the commander of Her Majesty's Own Chevalier Guards, Your Imperial Highness."

Igor barely restrained himself.

"Where I am in command, your duty ends," he said with rising an ger. "Fill take the responsibility."

"I have already taken it," Paul Preaching in the commander of Her Majesty's Own Chevalier Guards, Your Imperial Highness."

I gor barely restrained himself.

"I have already taken it," Paul Preaching in the command your duty as Commander of Her Majesty's Own Chevalier Guards, Your Imperial Highness."

I gor barely restrained himself.

"I have already taken it," Paul Preaching in the command your duty ends," he said with rising an ger. "I'll take the responsibility."

had shone and steel helmets had glinted against the rays of the sun a strange song was being sung. Defiantly and discordantly, the words of the Terrorist anthems, the "Internationale" and "Hostile Winds Are Blowing Above Us," were flung from the mouths of a group of revolutionists, huddled by a brick wall which loomed thirty feet above them.

There were sixteen of them. Two women and a boy who was not more than sixteen years old raised their shrill voices with the hoarser ones of the men.

"I have already taken it," Paul returned quickly.

"Then you will also take the consequences," Igor threatened.

"By Her Majesty's orders — and Her Majesty's orders — and Listen, you spoiled pup, don't make a sentimental fool of your self in front of everybody. When my brother is assassinated. . . ."

"By pine man," Paul interrupted quickly.

"Listen, you spoiled pup, don't make a sentimental fool of your self in front of everybody. When my brother is assassinated . . ."

"By pine man," Paul interrupted quickly.

of the men.

They stood in different poses:
some straight, leaning their heads
on the bricks and looking toward the sky; some slumped down, star-ing ahead of them with animal fear

ing ahead of them with animal fear in their eyes; some kneeling, in prayer. The weak and fainting were supported and shielded in the center of the cluster.

In their hearts, they considered their coming execution a great sactifice for the revolutionary cause, an example for those who must continue the struggle. And so they fortified themselves by singing. Every word was spit out; every note was a shriek of insult. The words were flung back to them by the brick walls and by the six stories of the main building opposite the place where they were gathered. Under foot were flagstones, each a yard foot were flagstones, each a yard and a half square, and laid out like a large tragic checkerboard.

They obeyed "Straight through the

All their souls were thrown into his, their last song before they were to be silenced forever. Rosa Liebman's voice rose shrilly above

ed with blood.

The firing squad, a platoon of Chevalier Guards dressed in service gray, stood at stolid attention some twenty paces in front of the definant group. A Captain of the Corps of Gendarmes read a document in a loud voice; but his word.

Watching the troop march out.

"Need I add that my car is at your disposal, Your Imperial Highness?" Paul said politely. He opened the door of the car and stood aside as Igor stepped in.

They drove off together in silence From time to time the Companion of the Corps of Gendarmes read a document in a loud voice; but his word. loud voice; but his words were drowned out by the singing of the Terrorists. The Captain continued steadily:

"... which reads as follows: 'The persons caught with arms in the zone of martial law will be subject to immediate court martial and pay the penalty of death. Therefore, be it known that the decision of pending court martial." ing court martial

The sergeant of the guard snap-

ped out an order.
"'Squad. attention!"

The Chevalier Guards executed the command with sharp precision. Suddenly the gates of the prison yard swung open. Prince Paul and his adjutant, in their military automobile, swerved at breakneck speed into the fortress. Paul stood up quickly in the car.

The sergeant surveyed his men.

"Carbines, aim!"
But before the rifles could be swung into position. Prince Paul uttered a command which was sharp and short, like a shot from

a pistol.
"Squad dismissed!" The troopers, at the voice of their Colonel, snapped carbines back to their original positions.

The sergeant turned about face and stood still. and stood still.

In the group of the condemned, the terrific tension burst into insane consternation. Rosa Liebman stepped away from the raving

group.

"Oh. God—why don't you shoot?"
she yelled. "Shoot, I tell you! Can't
you even pull the triggers without
cheating? Make up your minds,
bloodsuckers! Make up your minds!
Russia is waiting for you!"
Paul remained in the car, which
hed clowly approached the group. had slowly approached the space between the firing squad and the revolutionists. The woman terror-

A GENERAL MOTORS VALUE

WORLD'S LOWEST PRICED FULL SZE SIX GYLINDER CIASED COUPE

Coach, \$455 . . . Coupe with rumble seat, \$475 . . . All prices f. o. b. Flint, Michigan. Special equipment extra. Low delivered prices and easy G. M. A. C. terms.

AND ADDITIONAL LINE OF CHEVROLET SIXES

■ Now—for the first time in motor car history, you can buy a full-size six-cylinder coupe for as little as \$445! Now-you can also get a big, 5-passenger Chevrolet coach for as little as \$455! The leader has broken all precedent by introducing an additional line of automobiles, the completely new Chevrolet Standard Six: world's lowest priced full-size six-cylinder closed car!

This new automobile costs considerably less than any other six of its type on the market. Yet it's a Chevrolet ... with everything the name stands for: style . . . comfort . . . reliability . . . performance record for gas and oil economy.

Like its companion car, the popular Chevrolet Master Six-the new Standard Six has Fisher coachwork . . . Fisher combination wood-and-steel body construction . . . Safety plate glass in the windshield and window ventilators . . . A smooth, spirited, six-cylinder engine . . . A silent second transmission . . . An Octane Selector . . . A rugged, full-size chassis . . . And modern streamlined styling that instantly tells the world: "This is a fine, quality automobile."

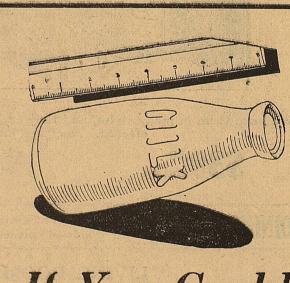

And indeed it is—every inch and every ounce of it.

... value ... leadership! And it sets a new world's A Chevrolet in basic goodness. A Chevrolet in dependability. A Chevrolet in engineering and craftsmanship and style! In fact, the very same factories build the Standard Six that build the Master Six. The very same machines, too. The same skilled workmen.

> Have you seen this new Chevrolet Standard Six? Have you sat in it-driven it-compared the prices? Unless you do these things, you can't possibly appreciate what a wonderful value \$445 buys today. A Fisher Body car, a full-size, faststepping six-completely worthy of the greatest name in low-price transportation—CHEVROLET! CHEVROLET MOTOR COMPANY, DETROIT, MICH.

Idle Refinery

Tc. Be Moved

Removal of an idle refinery from Wyoming to Prewitt, N. M.. to handle crude from the Hospah Dome and Seven Lakes district in McKinley county in the lower San Juan basin will begin as soon as the pipeline is completed. The 32-mile pipeline is scheduled to begin this month. It will be owned by the Transport Refining company, owners of the refinery. T. D. Boyce, formerly with the E. L. Doheney interests, will be in charge of the refinery.

stalls for copper pots and the demand for them was more nearly universal than for any other object. The copper pot was therefore money. Indeed it was better money than cattle for it did not eat or run away and was durable; also it has less bulk in proportion to value.

Then into this region came one imbued with an idea of importance, in facilitating barter, he would tender convenient forms, made up into strip which he called obolus. No fermitted idea of its size survives, but it was said that six made a handful. The obolus marked a great advance

> imbued with an idea of importance. Instead of presenting pots for use in facilitating barter, he would tender convenient forms, made up into strip which he called obolus. No definite idea of its size survives, but it was said that six made a handful. The obolus marked a great advance toward the use of the present day coin. The scene shifted to the West. Italy as it drew away from barbarism, adopted a unit of copper as a Roman pound of 12 unciae, or ounces, and it came into general use. Copper served the purpose of money because of its intrinsic value.
>
> Human nature being the same as Human nature being the same as

Human nature being the same as today, it soon came to pass that people made the as in a weight a little less than a pound and profited to the extent of the metal thus saved. They learned to mix certain quantities of baser and cheaper metals with the copper and their currency deteriorated. Thus a step toward the The stone from which this money is made is not quarried on Yap, but must be brought from another island hundreds of miles away. The mild natured Polynesian who is able to him the labor necessary to cut is more than the labor necessary to cut is more than the labor necessary to cut is more to but stamps guarantee.

lar."

Here the Count of Schlick, in 1516, appropriated a silver mine. As his retainers took out the precious metal, the master laid his finger to his temple and considered the purpose to which he should put it. He must have been a man of perception, for he seemed to realize that he dwelt in a money-hungry world and that his silver would serve best if made into coin. At any rate, he devised a new one all his own. On its face appeared a reproduction of St. Joachim, and it was named after that personage and the community which gave it birth, Joachimsthaler. It was the first dollar.

This name—Joachimsthaler—went on into Germany and on account of the least the first dollar.

on into Germany and on account of the length of the name it became known as the "thaler" which is still in use, and into England, where by the use of the broad "a" became

dollar. The dollar came to America by the Spanish, who explored Peru and Mexico and found rich deposits of gold and silver. The mines of Peru and Mexico turned out to be the richest in the world. And when the United States came to set up its own money it adopted the Spanish rather than the English system as its basis. The dollar is a piece of eight. In Spanish this signifies eight

FORMER RESIDENT HONEYMOONS

Mr. and Mrs. Preston Clayton were in Midland Friday, en route from an East Texas honeymoon to Rankin, where they live.
Clayton, known familiarly as
"Slim," was high-point man in the
industrial basketball loop here two
years ago, and since has been a student of Sul Ross Teachers college.

The bride is the former Wanda Harlan, daughter of the late R. C. Harlan, proprietor of the Rankin hotel that bears his name.

Unmarried women between 20 and 30 have three times as good a chance of marriage as did women of the same age in 1914, it is estimated.
