RATIFICATION CONCLAVE VOTED BY HOUSE

AUSTIN, March 17. (UP.—The house voted 120 to 5 to hold a ratification convention to approve or reject repeal of national prohibition.

The measure goes to the senate.

The bill authorizes the calling of a convention of wets and drys in Austin Sept. 7 of next year to nominate 23 delegates, these to be elected in a state-wide vote Nov. 6 of the same year. The delegates will meet Deep 21 to retifue or wright. Dec. 21 to ratify or reject.

THIRSTY OF NATION GET REASSURANCE

Berliner, even to his trousers,

man voter.

WASHINGTON, Mar. 17,-The

WASHINGTON, Mar. 17,—The senate last night asured the nation's thirsty that so far as the federal laws go beer of at least 3.05 alcoholic content will be legal sometime in early April.

Acting with dispatch, the senate adopted the house beer bill after reducing the alcoholic limitation from 3.2 per cent and sent the measure back to the other branch for consideration of amendments.

To Oppose Changes

House leaders planned to meet today and decide what should be done. Indications were the house would oppose the senate's changes and insist upon 3.2 alcoholic percentage. This meant the measure would go to conference for a settlement of the disagreement and probably would be finally approved and sent to President Roosevelt early next week. Fifteen days after he signs the bill it will became operative.

In addition to the change in alcoholic percentage and probably would be finally approved and sent to President Roosevelt early next week. Fifteen days after he signs the bill it will became operative.

CHANGING IDEAS ON BANKING

The new scheme for banking proposed by Winthrop W. Aldrich, president of the Chase National Bank, is the sort of thing that would have been denounced as radical, during the moratorium, he had more sort of the chase National Bank, is the sovernment of "checks and baldrees." Addison Wadley said that during the moratorium, he had more of day. Dictated but not red. subversive and revolutionary if it had been advanced a checks than balances.

Today it is accepted on all sides as a sane, logical morrow, a writer says. Meaning, of and valuable scheme and the chances are good that its course, that nothing recedes like sucleading provisions will become law before long.

The shift in public sentiment indicated by this reception of the plan measures the way in which American ideas have been reforged under the hammering of the they have heavy colds. depression. It connotes a changed emphasis in our way of appraising suggestions of this kind.

For here is a proposal under which banking practices legs, thereby providing an extra set of drumsticks. would be most drastically made over. Complete divorce of investment and deposit banking, separation of commercial banks and their security affiliates, reduction of the financial overloads of Wall Street almost to the position of innocent bystanders-here, indeed, are epoch-mak-

Formerly we would have stood aghast at the idea of cash. thus laying impios hands on the money changers. We might have admitted, timidly, that the plan was theoretically good, but we could not have nerved ourselves to do chasing the wolf from the door anyanything about it. We were committed to the belief that way. if we fixed everything just right for the boys at the top of the heap, we at the bottom would eventually get a trickle of benefits.

And now? About the only criticism of this plan is that it might be even more drastic. We have reversed our old attitude as completely as it could be reversed. Our dea now is to help the crowd at the bottom and let the boys on top look out for themselves. Our president has had the nerve to announce his independence of the financial big-shots, and we have discovered that we feel exactly the same way.

It is not a small thing, this change in attitude. It marks the end of one epoch in our country and the beginning of a new one.

There will be two contestants and one theme writer from each class. The theme writers are, Betsy Lee, freshman; Eddie Blanche Cowden, sophomore; Dorothy Cummings, juministration. It is not a small thing, this change in attitude. It

CONGRESS CO-OPERATES

When you are giving cheers for the way in which the "new deal" is being put through in Washington, don't forget that Congress—our much-maligned, perennially-criticized Congress—deserves a round of applause too.

No peace-time Congress ever acted with the speed that this Congress displayed in putting President Roose-that this Congress displayed in putting President Roose-that the speed that the speed

that this Congress displayed in putting President Roosevelt's bank bill into effect. The House gave the president a unanimous vote, scorning even to keep a tally of it; the Senate moved a trifle more slowly, but nevertheless progressed at breath-taking speed and recorded only seven works in apposition. votes in opposition.

Congress has shown, by this action, that it is quite as anxious to play ball as the most ardent could wish. And it leaves one with the suspicion that a president who

"I have made the discovery that it is not absolutely necessary to the perpetuity of the republic that I be reelected to the Senate.

There is a truth that every member of each House ought to keep tacked up on the wall where he can see it all day long. Every member gets threatened by a lobby every so often; frequently he has a creeping feeling that; the lobby is perfectly able to carry out its threat. But he has a higher duty than to get himself re-elected. Like Monday.

The third year class has finished to recognize it now and then.

McWilliams, hurdles,

P. Evans and Herbert Shea are be ing groomed for the junior events, (open to those under 15 years old) mainly dashes. A captain of the track squad will be elected soon.

DEBATES TAKE ADVANTAGE

Maybe you think M. H. S. is not have toos about everything! The on her toes about everything! The debating teams and the coach, Mrs. Barry, seized the opportunity Thursday to listen over the radio to a debate between the University of Kansas and the University of Texas.

The universities were debating on the same subject that the teams are preparing to debate on in Abilene Saturday.

CHORAL CLUBS IMPROVE

ter the music contest to be held in Abilene April 15. They are improv-ing rapidly with frequent practice on the contest songs. The contest song for the choral club is "Dreaming" by Shelly, and that for the glee club is "How Much Wood Would a true tudents of the public speaking class. The clubs will enter Class B, but the

TODAY'S RECIPE

Codfish Waffles

Use prepared codfish, cover with cold water, bring just to a boil, drain. Repeat twice. Cook until tenders

Sift 1½ cups flour 2 teaspoons baking powder ½ teaspoon salt Add 1 cup milk 2 well beaten eggs 4 tbsps. melted butter

Fold in cooked and flaked codfish and bake in a hot waffle iron. Egg sauce or cheese sauce is nice with these—or they do very well with gobs of butter.

A really new dish particularly well suited from the small family. Save for your recipe book.

A six-inch ledge affords ample room for a mountain goat to turn around. They can climb along mountain walls inaccessible to

Body Odor End It!

No telltale M.S. to offend

CRUEL and unusual punishment is forbidden by the Constitution. And yet-millions of people still punish their friends by smothering body odor with an equally offensive medicine smell!

Now happily the cause of body odor-stale perspiration curds-has been discovered. And research chemists have developed a quick and odorless way to end it instantly.

Stale perspiration contains calcium, salt and particles of fat. The thick and sticky lather of most ordinary toilet soaps is unsuited chemically to mix with this waste material and disperse it. Instead, it hardens into

a meeting Wednesday afternoon at the home of Mrs. T. Paul Barron, 405 North Loraine street.

The study course is offered by the Extension department of the University of North Carolina.

A. B. not "warting" Miss Lomax?

Melba not wanting to trade compliments with someone? Murray not looking at Audrey? Dub without his grin?

ONE GIRL'S CONCEPTION

The above may be a true analysis of a woman but the following theme written by a sophomore girl gives you a girl's estimate of a man. "If I had plenty of money, money enough and to spare," I would spend one year for personal pleasure. I would have the things that I have wanted and do the things that I have wanted to do all my life. I would build a beautiful home on the uld build a beautiful home on the Mudson and invite all my friends and "make holiday." I would have closets of beautiful clothes, and several cars. I would take all my friends to Europe and tour the in-

teresting countries.

By this time I woud be willing to settle down and do something useful. My money should establish girls' business schools throughout the country for these who are not ne country for those who are not able to pay for their education. Hospitals for tubercular children should be built. Parks and playgrounds should bear my name.

HOW PASTEURIZATION SAFEGUARDS YOUR DAIRYLAND MILK SUPPLY

THE ABOVE CHART SHOWS THE DIFFERENT TEMPERATURES IN PASTEURIZATION

It must be remembered that PASTEURIZED MILK IS NOT BOILED OR COOKED MILK! The chart shows 212 degrees Fahrenheit to be the boiling point, whereas Pasteurization takes place from 140 to 145 degrees. The very best milk obtainable is used in Pasteurization. It is heated to 143 degrees and held for 30 minutes. There is a slight reduction in Vitamin "C" at 144 degrees.

PASTEURIZATION KILLS GERMS!

The chart shows that diphtheria germs are killed at 130 degrees; septic sore throat germs are killed at 133 degrees; typhoid and dysentry germs are killed at 137 degrees; tuberculosis germs are killed at 140 degrees; cooking commences at 160 degrees and Vitamin "C" is destroyed at 179 degrees-36 degrees higher than the Pasteurization point. The boiling point is 212 degrees.

IT IS CLEARLY EVIDENT THAT PASTEURIZATION DOES NOT DESTROY THE NUTRITIOUS BACTERIA IN MILK!

DR. C. H. MAYO OF ROCHESTER SAYS: "The protection of the public can be insured by PASTEURI-ZATION-it is the only safe way."
