AUSTIN ADJOURNMENT DELAYED

BILL WILL SEEK TO MAKE ICKES OILDOM'S CZAR

Administration Will Support the Bill, Report Says

OKLAHOMA CITY, May 9. (UP).—A bill to make Secretary of the Interior Ickes czar of the oil industry will be introduced in congress by Thursday and rushed to enactment with support of the administration, according to Wirt Franklin's report to Col. Cicero I. Murray, oil advisor to Governor Murray, today.

Franklin, president of independent producers, was confident the government is to take control of the oil industry to solve the price crisis. The volunteer shut down of the Oklahoma City field continued, with 26 operators agreeing to sell no oil at 25 cents per barrel.

PRODUCTION EXCEEDS MARKET DEMAND
TULSA, May 9. (UP).—National oil production last week was up nearly 400,000 barrels, to nearly 3,000,000, almost a million more than the demand. Texas production was up 300,000 to a total of 1,500,000.

STABILIZATION URGED BY COMMISSIONER
DALLAS, May 9. (UP).—Ernest O. Thompson of the railroad commission today urged oil men to work out a plan of price stabilization. He said the East Texas field is a "stumbling block" to the whole industry, due to lack of enforceable proration orders.

RACE HORSE HERE MAY BE MATCHED

Foreign Relations is here and looks "ready to go." Dr. Wm. Bloss, veteran race horse owner, trainer and jockey, arrived Sunday night with his thoroughbred son of Sweep, home from a two year tour of nationally famous tracks.

At times Doc's luck was good and times it was bad. Recently it hasn't been so good, he said. He brought the well known distance horse here from the New Orleans track.

Plans for a three quarter mile race here between Foreign Relations and an Amarillo horse which has been making sensational windings were getting under way Monday, and it is expected that the event may be matched for July 4.

Doc Bloss believes Midland is ripe for a race meet and he is ready to go to work. Knowing the race men, the horses and the racing game as only a life time on the track can teach it, Doc Bloss is equipped to stage the kind of entertainment that big money has been paid to see. He was getting busy today on plans for staging a race meet July 4.

Bob Bloss, nephew of the race veteran and a brother of Gerald Bloss of Midland, is here also. Gerald Bloss has his thoroughbred, George Keith, at the Juarez track for the meet which closes there next week.

CALHOUN'S TEAM TOPS SOCK LEAGUE

With the advent of the playground ball season, the Rev. Edwin C. Calhoun, pastor of the South Bluff church, Corpus Christi, sends regards to players with whom he associated during two seasons of the league's infancy here. At that time he was pastor of the First Methodist church at Midland.

Prefacing a letter with personal good wishes to his friends, he encloses clippings showing that his church is on top of the soft ball loop of Corpus Christi, his club in one recent game, with the Corpus Episcopalians, having batted around in the first inning to take a 13-5 decision. First Baptists lost the same week to the South Bluff club, 19-5.

The minister pays his regards to the Rev. Kenneth C. Minter, former South Bluff pastor and now with the First Methodist church at Midland, by saying, "The Rev. K. C. Minter's work here was of such quality that it will continue for years, and will be remembered not only by those of his congregation, but of the residents in general of Corpus Christi."

ADMINISTRATION OIL BILL INCITES HOGAN TO GIVE HIS WARM SUPPORT

By T. S. HOGAN
WASHINGTON, May 6.—By the time this article is published an oil bill sponsored by the administration will have been submitted to congress. It is rumored that the proposed legislation shall have the support of the great majority of the people engaged in the industry.

Surely the tragic situation in which the people now find themselves, due to ruinous prices and cut-throat competition, ought to make them active supporters of any measure which promises relief.

I believe the facts justify me in writing in a personal and frank manner to the readers on this subject. At the governor's conference on March 27 I vigorously urged federal control and predicted that unless immediate action was taken by the national government, oil would be selling within sixty days in East Texas at ten cents per barrel and that the whole industry would be bankrupted if such a condition was permitted to occur and continue.

My brief published in this paper a month ago contained a part of my presentation of the case. The futility of interstate agreements was as evident then as it is now but all of the other delegates wanted to make one more try for state control. As those who read my brief know, I advocated the fixing by the government of a fair price for crude oil and argued that without the fixing of such a price the whole plan would fail.

It is a pleasure to be able to report that the Independent Petroleum association now accepts and urges both federal control and price fixing. Some of the major companies will be inclined to oppose the price fixing feature of the bill but they will accept it gladly as an alternative to the present intolerable conditions.

The purpose in calling this matter to your attention is to, if possible, secure your cooperation and support for the bill. Before it can be made effective, congress must enact it. A small but very active minority will no doubt attempt to develop opposition to the measure and urge its defeat in congress. It seems to me that unless the facts are willfully distorted no valid case can be made against the bill.

It is beyond understanding how an independent oil man can object to price fixing when it will add at least \$1,250,000 per day to the price paid for crude oil in the United States. Surely they would like to participate in that increase and they are entitled to participate.

The infinitesimal minority which might hope to profit through the refining and sale of distress oil should not be permitted to prevent the general prosperity of the business. If someone tries to convince you that the major companies are profiting by present conditions, take a look at the financial statements of (See HOGAN, page 8)

MOTORCADE WILL STOP AT STANTON

Attorney Bob Hamilton of Stanton will make an address of welcome Friday when the Midland motorcade stops at Stanton five minutes to say "howdy" while en route to the West Texas chamber of commerce convention at Big Spring. Hamilton will speak only two minutes and a Midland representative will make a three minute reply. These two talks taking a total of five minutes will be the only ones made.

George Philippus will be assisted in lining up the motorcade cars by Lee Haynes, chief of police. Philippus will station his car in the middle of the street in front of Hotel Scharbauer at 1 p. m. The parade will actually move out a few minutes before 1:30 so as to gain more time.

Philippus will turn off the new highway this side of Stanton and follow the old paved road into Stanton, then turn to the right on Stanton's main street, where a sign will be made in front of Hall's drug store. After the stop, Marshal Philippus will lead the motorcade back to the highway and on into Big Spring.

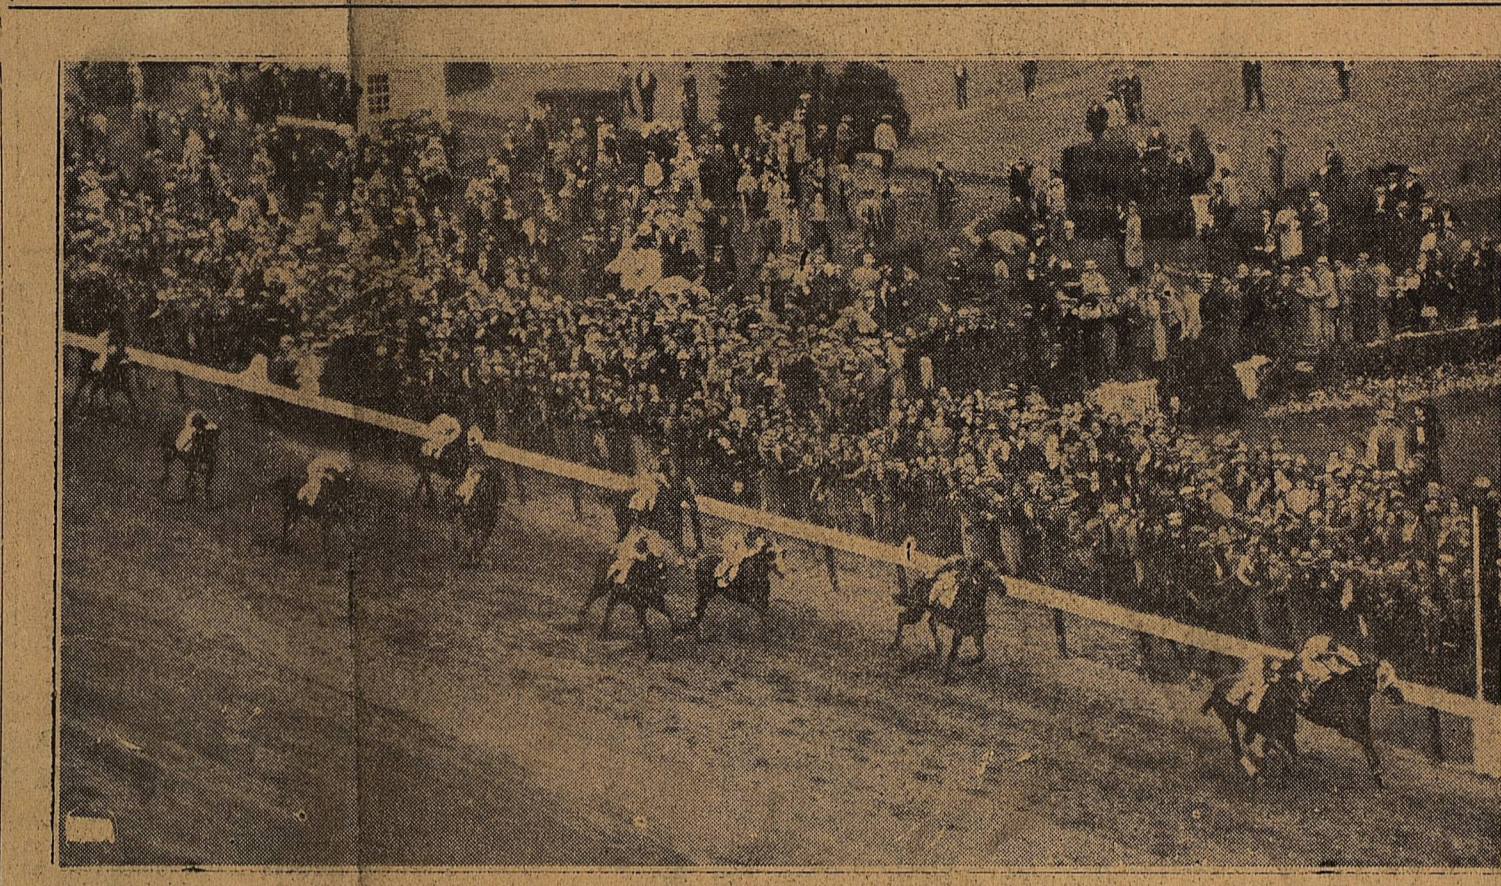

At Big Spring the motorcade will circle the Settles hotel before disbanding. Cowden Purchases Linebred Herefords
Frank Cowden recently purchased from E. P. Neblett & Sons of Sweetwater, seven choice linebred Anxiety 4th bulls, four were sired by Timberline 4th, four were out of the famous Bonny Lulu family of cows, one out of a Donna Anna, one out of Correlle 7th, by Superior Milk-chief, and one out of Mabelle 51st. The Mabelle 51st calf, Imperial Anxiety 2nd, calved August 10, 1932, is the best herd bull prospect to leave the Neblett herd, according to H. E. Lewellen, who assisted Cowden in making the selections.

Holder Consistent In Roping Events

Allen Holder made consistent time in his recent roping winnings at Nogales, Ariz., information received here said. He won first in general average in calf roping, with 17.4 seconds the first day, 19.2 the second and 17 flat the third. Winning second to Jake McClure in steer roping, Holder's time was 21-1-5, 20-3-5 and 18 flat. In team roping, Holder was in both the first and second teams, with Everett Bowman his time was 19-1-5, 19 and 16 4-5. With Jake McClure, it was 20, 17 and 27.

The reports from Nogales to the Juarez events. A letter to Governor Ferguson from Hal Burnett, director at large of the fumigation and sterilization relief organization of Pecos, Ward and Reeves counties, sets forth the case for farmers in the general so-called bollworm infested area of West Texas, an area that has spent thousands of dollars in fumigation sterilization of cotton and seed.

Broker's Tip By a Nose At Kentucky Derby

E. R. Bradley's 'Broker's Tip' against the rail, poking his nose over the line to beat Head Play after an exciting duel down the home stretch in the fifty-ninth running of the Kentucky Derby at Churchill Downs. Charley O. is third, and Ladysman, the favorite, fourth. This was the fourth Kentucky Derby to be won by a Bradley Horse. NEA Chicago Bureau.

LINDY READY FOR STAND IN MEANS TRIAL

WASHINGTON, May 9. (UP).—Col. Lindbergh was ready today to testify in the district supreme court case against Gaston B. Means and Norman Whitaker, accused of defrauding Mrs. Evelyn Walsh McLean in the Lindbergh kidnaping. McLean jewelry was introduced as she testified she had offered to pawn some to raise and add to the \$100,000 she gave Means to recover the Lindbergh baby. The courtroom was crowded with spectators seeking to see Lindbergh.

TEXAN ORGANIZES A JOBLESS MARCH

HOUSTON, May 9. (UP).—Fifty unemployed men were en route to Austin today from Harris county, hoping to start a nation wide march. They will gather at Austin Wednesday to demonstrate in behalf of the \$20,000,000 proposed relief bond issue. B. H. Harrison, La Porte postmaster and disbursement officer of the Reconstruction Finance corporation relief fund, who organized the march said he is calling unemployed to the capitol from all sections of the state.

Everything on Farm Looted by Robbers

SALT LAKE CITY (UP).—Robbers who ransacked the farm of W. A. Vincent, took everything but his house and barn, he reported to sheriffs. Included in the loot were: One sack of alfalfa seed, one of potatoes, and one of beans; a sink and much greater burden than one would think of hard. The fumigation and sterilization with it is a very heavy load on the farmer. From the information we have gathered this cost alone has ranged from three to ten dollars per bale including freight charges to and from the fumigation plants. But this has not been the only cost and we don't think the greatest cost. Through sterilizing our cotton seed in many instances they have come out worthless for planting purposes (See BOLLWORM, page 8)

California State Beer Tax Is Fixed

SACRAMENTO, Cal. (UP).—The state tax on beer in California has been fixed at 2 cents a gallon. The legislature, after battling for weeks over proposals ranging from one cent to six cents a gallon, passed the measure providing for the two cent tax. Regulatory measures, including the right of local option and limitation upon cities and counties, or taxation has not been agreed upon.

Late News

NEW ORLEANS, May 9. (UP).—Jack Holland, 24, former Tulane grid and boxing star, died today of injuries received in a professional six round bout with Tony Marullo last night. Physicians diagnosed his ailment as cerebral hemorrhage. FT. WORTH, May 9. (UP).—The body of Houston Lacy, 60, recluse, was found in his burned home today. Police believed he had been overcome when trying to flee the flames.

MIDLAND AND LAMESA TOP SCORERS IN KAT KLAU; TWO MATCHES EVENED

HOUSTON, May 9. (UP).—P. Corrales and C. R. Miller reported today losing a truck and a \$6,500 cargo of cigarettes to hijackers. WASHINGTON, May 9. (UP).—District Supreme Court Justice Proctor today dismissed the half million dollar slander suit of General Samuel T. Ansell against Huey Long. WASHINGTON, May 9. (UP).—Senator Wagner, democrat, of New York said today the \$3,000,000,000 public works program is being included in the "control of industry" bill. A billion would go for federal construction and the rest to loans to states and cities for public works.

CLOSING LIKELY LATTER PART OF MAY, IS BELIEF

Surprise Rider Is Tacked to Money Bill Today

AUSTIN, May 9. (UP).—Accumulated legislation prevented ending of the legislature today as the normal four-month period ended. The end was seen for the latter part of May. A surprise rider to the money bill, introduced today, would create a state racing commission, legalize horse racing and pari-mutuel betting. A similar measure was killed four weeks ago.

An administration bill, consolidating state activities in 19 departments, went to the senate. It passed in the house yesterday 101 to 24. EDUCATION AMENDMENT DEFEATED BY SENATE
AUSTIN, May 9. (UP).—An amendment to the education bill preventing state colleges from using any part of local funds to create new positions was defeated in the senate today with 21 noes and seven ayes.

INDIANS, WINK TO PLAY SUNDAY

Midland's infuriated Red Men will attempt Sunday to do what they have never done before—hammer Lefty Mayfield out of the box and grease the skids of the Wink Oilers' bobbled. The game will be played at the new diamond, west of El Campo, Moderno on the highway. While Midland has a club that according to critics is well balanced in most respects it has played in tough going on every occasion it has faced. The left hander Winkler county twirler, Mayfield has a stingy way of keeping bingles stored in safety deposits, and baseball games are generally decided on a bingle basis. Wink Sunday mowed down the Indians 11-1 at Wink, but a howling wind and a few tons of sand spilled no good to the visiting club, not familiar with the diamond.

The Midland satchem plans to start Bill Brown on the mound, and hopes the hot weather will bring him into suitable condition for contesting Mayfield in the hit allowance. This idea of not getting to a pitcher in two years is about a year and eleven months too much, the chief says. The Red Men are working out each afternoon after 5 and the public is invited to come out and watch.

Gold Found in Fowl Gizzards

CLOVIS, N. M. (UP).—O. M. Reese, Clovis poultryman, has reason to believe there is a gold vein somewhere near here. Gold nuggets were found in the gizzards of a number of hens sold by Reese. When the man who purchased the hens from him reported the finding to Reese, the latter traced down all of his purchases from farmers during that month, but was unable to determine from what section those particular hens came. Reese said he "kept the thing quiet" until he was convinced he could not find the origin of the gold.

Plane Will Rush Beer to Houston

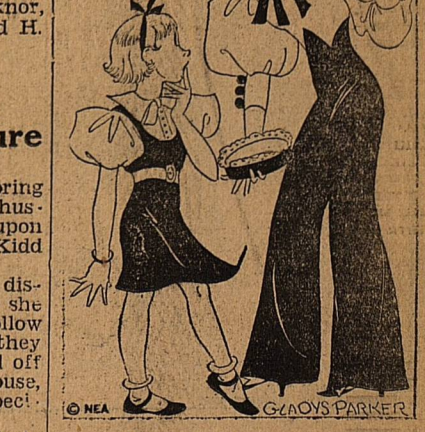

HOUSTON, Tex. (UP).—An airplane will rush the first legal beer to thirsty Houstonians as soon as Texas enacts laws permitting sale of the beverage in the state. The plan was announced by Jack Rubenstein, a delicatessen store owner, who "has faith in the Texas legislature."

Hubby's Map Led To \$500 Treasure

NEWTON, N. H. (UP).—Porling over the effects of her late husband, Mrs. Harlan Colby came upon a crude chart of the Captain Kidd type. At first she was inclined to dismiss it as a prank. But finally she and her daughter decided to follow the strange directions. So they paced, and re-paced and marked off the land behind their farm-house, and then began digging at the specific point. To reward them for their efforts they unearthed a glass jar containing \$500 in bills.

LAPPER FANNY SAYS

Some silence is golden and some is gull.

Some silence is golden and some is gull.

CHILD TRAINING IS GIVEN A TEST

A little less than a year ago a group of New York psychologists got the chance to take over the training of two newly born twin brothers.

They set out to give all their elaborate theories of child-training a test. One of the lads, named Johnny, was put through a stiff course of sprouts from the very start—daily courses of exercise, systematic instruction in the use of his limbs, and so on. Jimmie, the other youngster, was pretty much let alone to develop in his own way. He got the same food and general care that Johnny got, but he was allowed to spend most of his time in his crib, playing with his toes, gurgling and conversing with himself in blissful solitude.

The other day the assembled psychologists got the children out and put them through their paces to see which one had developed the more.

Johnny, who had had all the training, outshone his brother all the way through. He excelled at climbing stairs, at paddling about in a pool, at manipulating little brain-testing gadgets and at other feats of skill and strength. Jimmie, as a racing fan would say, finished nowhere.

But the most interesting thing about the whole business was this:

Jimmie, badly outclassed in every test, was nevertheless the happier of the two.

Expert Johnny wore a premature frown most of the time. His responsibilities seemed to rest heavily on his wee shoulders. He was serious, very much in earnest, quite engrossed by all his cares.

And Jimmie, unskilled and unworried, kept wearing a cheerful grin. He was no great shakes as an infant prodigy, and he didn't care. His failures depressed him not at all. He was, in short, a perfectly happy child.

Just how much importance ought to be attached to this fascinating experiment isn't clear. Probably the psychologists themselves don't know. But any parent who shares the old feeling that a flock of laughs and a long stretch of utterly carefree happiness are among childhood's most invaluable possessions will feel the old-fashioned, unscientific regime emerges from this test with the greater part of the laurels.

A TRAGIC EXAMPLE

In case you have wondered whether there is really any need to have the federal government exercise a far stricter control over stock issues, security speculation and financial operations generally, you might ponder over the tragic scene that took place before Bankruptcy Referee Garfield Charles in Chicago the other day.

It was the last day for filing claims against two defunct Insull financial houses and before Charles there rose a mound of worthless paper which weighed a full ton.

This tremendous mass of paper represented claims totaling \$300,000,000, sent in by some 21,000 investors. Today it is next to worthless. Speaking with moderation, Referee Charles called it "the tragedy of the century."

No form of federal regulation can be too drastic if it prevents a thing like that from happening again.

SHAW IS MISTAKEN

Mr. Bernard Shaw seems to be devoting himself chiefly these days to demonstrating that he isn't nearly as smart a man as we thought.

His latest contribution to the world's wisdom is the following:

"Everybody thinks Mr. Roosevelt is going to do something. He is not going to do anything. He cannot do anything. Your fine democratic institutions prevent it."

Against the background of breath-taking accomplishment recorded in Washington during the past few weeks, these words look more than a little silly. One wonders just what a president would have to do to make Mr. Shaw admit that he had really "done something."

Side Glances by Clark

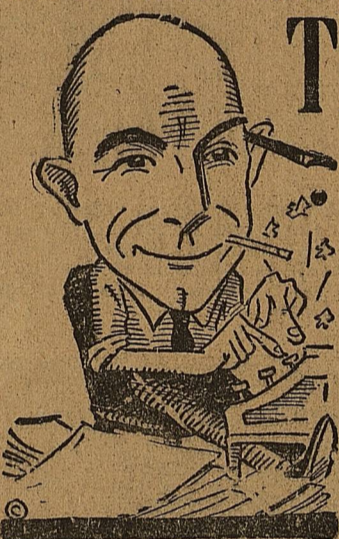

"I could have been an artist, but I had to give it up because I was always getting paint on my clothes."

That New Deal

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

Tuesday morning. No copy. No ideas. I don't seem to be improving. What I probably need is a fishing trip.

I know something better than that. There is a trip coming up this week which is cheap, close to home and lots of fun. If you enjoy seeing great masses of people, all having a good time, go to Big Spring to the WTCO convention Thursday, Friday or Saturday.

Go Friday in the Midland motorcade and help get Midland some recognition. They are expecting 10,000 people at Big Spring and we ought to furnish at least 100 of 'em. It's our chance to aid our neighbors in putting on a big show.

Did you hear President Roosevelt's address Sunday night in which he called himself on the carpet to show what he has done since he became president? I'll tell the world he had something to report.

As one man said, "President Roosevelt is so decidedly a man of action that we can't remember what he did yesterday. We are trying to keep track of what he is doing today."

The old timers still want to come to Midland for a celebration. They wanted to come last summer and they haven't forgotten it. A former resident, now living at Carlsbad, says just set the date and he will bring 25 former Midland people from his section of New Mexico. That's just an example of how they are interested.

The race horse men want to come here with their horses. The rodeo boys want to come here to rope. Everybody wants to come to Midland.

A sermon does not have to have length if it has breadth.

A preacher once decided to resign his pastorate, after long and tedious fighting against the devil, with very little help from his constituents.

"Folks," he began, "I have decided to do something the devil never did. I have decided to leave town."

A Midland man was complaining today because he is seldom called for jury service.

Perhaps he has forgotten his experience of years ago, when he begged to be excused from jury service.

If my memory serves me right, the details of the incident were as follows: "Judge, I simply must be excused from jury service," he said. "What is your excuse?" asked the

MADE OF MATCHSTICKS

HAMILTON, Tex. (UP).—For the title of whittling champion, Troy Young, who admits he's "handy with a knife," submits a violin made of 3,000 or more matches glued together. Only the neckpiece of the fiddle is carved from solid wood. The body is made of unstruck matches glued together without a frame, the match heads forming a design.

Became Prisoner to Make Girl Forget

BERKELEY, Calif. (UP).—The girl's mother didn't like him as a suitor and things weren't as happy as they should have been, so William J. Chrisman, 22, had himself arrested for battery and went to jail for 25 days.

"I figured that if I became a 'jail bird' she would be sure to forget me and would find another chap whom her mother might like," Chrisman explained.

IS VERSATILE MAN

KLAMATH FALLS, Ore. (UP).—Dog catching is just one of the activities of Ralph Homer, Klamath Falls poundmaster. First he was called on to rescue a sheep some dogs had chased into a hole 15 feet deep. That done, he was asked to save a Persian cat, which dogs had scared to the top of a telephone pole. He borrowed a pair of climbers and brought down the kitty.

Moreland Defender Annual Tournament

By STUART E. JONES United Press Staff Correspondent HOUSTON, May 1. (UP).—Headed by the defending champion, Gus Moreland of Dallas, a strong field of golfers will compete here beginning May 24 in the 27th annual Texas Golf association tournament, to be played at the Houston Country club.

Moreland won the title at Texarkana last year.

Upsets are expected to feature this year's tournament, as the plans have been altered to require qualifiers for the championship flight to play 18-hole matches until the finals have been reached.

Qualifying play over an 18-hole route will tax the players from start to finish. This arrangement is expected to be especially difficult for the topnotchers.

In recent years only the first two rounds were over the abbreviated route and 36-hole matches were on the program from the quarter-finals on. The new arrangement also will make for speed.

Entries this year will be restricted to players with handicaps of 12 and under based on par. The lists will close May 23.

The first 32 low scorers will go into the championship flight to battle for the state crown. Two other flights will be provided for the next 64 low scorers. Consolation flights will be arranged for those eliminated from the three top flights.

Willie Maguire, veteran Houston Country club professional, who has acted as starter for the state tournaments for the last 15 years or more, again will officiate at this year's event.

George V. Rotan, Houston, former state champion and present president of the association, anticipates a large entry.

The finals will be played May 27. Rotan said the following were among those who had accepted invitations to compete in the tournament: David (Spec) Goldman, Reynolds Smith, Neil Smith, Louis Nowlin, O'Hara Watts, Dennis Lavender and Gus Moreland, Dallas; Mack Burnett, Reuben Albaugh and Halbert Grumbles, San Antonio; Bud McKinney, Del Rio; Dr. R. E. Cohn and Gaston Peck, Galveston; Tommy Cochran, Tyler; and the following Houstonians: Willie Maguire Jr., Ossie Carlton, Preston Moore, Fred Borsodi and Ike Handy.

Five Dollar Bill Is Found in Log

MADISON, Ind. (UP).—James Prooks found a \$5 bill in a hollow log which he was sawing up for wood.

The log, half submerged, was pulled from the Ohio river by a construction crew and given to Prooks for the asking. As he sawed through a crack, the bill, in a fair state of preservation, was noticed.

It was believed the money was hidden when the log was yet a tree.

Ghost Towns Are Coming to Life

DEATH VALLEY, Cal. (UP).—Ghost towns of the Death Valley country are again quickening to life.

This was the word brought back by Kathryn Ronan, of Furnace Creek Inn, located on the floor of the valley. Miss Ronan recently completed a tour of the entire district, visiting abandoned mining camps in the Funeral Range, the Panamint Mountains, and across the line in Nevada.

"Rhyolite, one of a town of 10,000 people, and later entirely deserted, is again being used as a base by prospectors," she reported. "Men thrown out of work by the depression are returning to the old camps and are again working over the deserted shafts, hunting new veins and pockets."

The Death Valley region is studded with abandoned camps. Most of them date back to the '90s and early days of the century.

Rhyolite, Nev., was the largest of all. Panamint City, founded by the robbers of Wells Fargo Express Co. in San Francisco; Greenwater, Furnace, Schaub, Skidoo, Harrisburg, and Ballarat were others. Greenwater was the only ghost town in the valley proper. The majority were located in the surrounding mountain ranges, that rise 6,000 to 10,000 feet sheer from the below-sea-level floor of Death Valley.

Nudism Given Official Okeh

PARIS (UP).—The French government finally has admitted that playing naked in the sunshine and tall grass is useful to the public and so Nudism gets official sanction in France. Only a few weeks ago, Nudism was forbidden in Germany as detrimental to culture.

The French government act consists of classing nudism as "of public utility," so that organizations which foster nudism and build nudist camps on inaccessible islands hereafter will be legally allowed to accept gifts and can be legal heirs.

Nudism, at least the 100 per cent kind, is almost non-existent in France where nudists do wear something when they play in the sunshine. The nudist island of "Physiopolis," at Villennes, in the Seine, has one end cut off and snatched with high weeds behind which the interglacial nudists may shed their last garments.

The other nudists generally wear shorts. The Physiopolis camp contains a great open stadium and the general public is admitted at a cost of eight cents to stand by and watch the sport. It costs 300 francs a year for the extra privilege of shedding clothes; integral nudism costs another 100 francs.

Since German nudists now are forbidden to undress, with a threat that Nazi shock troops will snuff any bare skins, hundreds of Germans are expected to camp at Physiopolis for their summer vacations this year. There are many British nudists coming over, so that the island will become a cosmopolitan colony of sunbather enthusiasts.

THREE GUESSES

Wolfhound Played The Role of a Hero

SALT LAKE CITY, Utah (UP).—A small, lonely grave bears the cross of her today. Pal, a huge Russian wolfhound, played the hero's role and gave his life in a brave but tragic battle with bandits.

Pal and another dog, Laddie, were left to guard the Salt Lake Steam Pump and Iron Works, belonging to their master, W. J. Weidauer. Robbers broke into the establishment and the fight ensued. A shot rang out and Pal fell dead. Laddie, however, frightened the bandits away.

Laddie has two duties now—watching over Pal's grave and guarding the shop. And he does both faithfully.

The Tennessee legislature is considering the installment sale of automobile license plates.

CHARMEE' DEMONSTATOR From the Gilliam Laboratories Will be here May 10, 11, 12 ANALYTIC FACIALS FREE BY APPOINTMENT Phone 822 OUR BEAUTY SHOP Mrs. Nichols—Mr. Boch

Advertisement for Conoco Bronze Gasoline. Features a man in a suit and hat driving a car, with the text 'INSTANT STARTING LIGHTNING PICK-UP' and 'All gasolines alike? Bah!! this wouldn't have happened with Conoco Bronze!'. The Conoco logo and 'CONOCO BRONZE HIGH TEST GASOLINE' are prominently displayed. At the bottom, it says 'A PERFECT RUNNING MATE FOR CONOCO GERM PROCESSED MOTOR OIL THE MOTOR OIL WITH THE 'HIDDEN QUART' THAT NEVER DRAINS AWAY'.

SOCIETY

National Music Week Ushered in with Concert of Advanced Students of the Watson School of Music Monday Night

On of the most colorful recitals of spring was that of the Watson School of Music Monday night in the Crystal ballroom of Hotel Scharbauer. The affair was marked by a good attendance and ushered in National Music week.

Miss Harrison To Be Entertained At Big Spring

Miss Dorris Harrison, daughter of Mr. and Mrs. J. R. Harrison, will represent Midland at the Chamber of Commerce convention at Big Spring, Thursday, Friday and Saturday.

Miss Harrison and her attendants, Meses. Alf Reese and Johnnie Ratliff, will motor to Big Spring Thursday where they will be entertained at many social affairs.

Of all the events scheduled for visiting women the most colorful and attractive will be the pastel bridge tea at the country club Friday at which bridge players, golfers, equestrians and others will meet for informal visiting and conversation.

The tea will follow an afternoon devoted to the various sports which interest the women. The visitors will play bridge and golf at the country club. The horseback riders, who are expected to be mostly of the younger set, will follow the various bridge paths to scenic Mount and south of town.

Another event of social importance is the town sponsors' breakfast to be given at the Settles hotel Friday morning at 10 o'clock, honoring the girls who will represent their towns in the Court of Nations of the "Trip to Mars" auditorium show.

Big Spring women will hold open house at all hours in the ball room on the mazzanine of the Settles hotel, and the lounge of the Crawford hotel.

At each registration desk there will be a ladies' committee whose chief concern will be to give information to visiting women, take them shopping, answer questions, and convey the hospitality of the towns as the occasion demands.

Eastern Star Memorial Service Will Be Held

The annual memorial service of the order of Eastern Star will be held tonight at the regular service which is held at 8 o'clock. Mrs. Iva M. Noyes said this morning.

Complete Part of Mission Study

The first part of the mission study book, "Facing the Future with Indian Missions", was completed at a meeting of the Methodist auxiliary Monday afternoon at the church. Mrs. J. D. Young discussed the means used by the Indians to make a living and Mrs. Jess Rhoden told how vocational schools aid them.

A miscellaneous shower was given for a mission home at San Antonio. Committees were appointed for the Lions luncheon Wednesday. Approximately 30 members were in attendance.

Rijnhart Circle to Elect New Officers

The last meeting of the year for the Rijnhart circle will be held next Monday afternoon. At that time officers for the fall term will be elected. A social hour will follow.

At the meeting yesterday at the home of Mrs. Rawlins Clark, a study on the book of Psalms was continued. Meses. Clark and Glenn Emson presented interesting discussions. Five members were present.

Announcements

Wednesday
The last meeting of the Wednesday club will be held Wednesday at the home of Mrs. Frank Elkin. The affair will be a luncheon.

The Fine Arts club will meet Wednesday afternoon at the home of Mrs. Roy Parks. Mrs. George T. Abell will be co-hostess.

Thursday
Mrs. Percy Bridgewater will entertain the Bien Amigos club Thursday afternoon at one o'clock.

Mrs. M. R. Jackson will be hostess to members of the Thursday club Thursday afternoon at 3 o'clock.

Friday
The Belmont Bible class meeting Friday afternoon at 3:30 at the home of Mrs. G. B. Brock, 711 North D.

LATEST DANCE STEP
PARIS, (UP).—The latest dance step in Paris is called the "Knee." It was introduced at the eighth congress of the Union des Professeurs de Danse et d'Education Physique de France. It is the invention of one Roger Cerwinka who explains that "the knee is a graceful slide followed by a rising on the toes, aided by a slight bending of the knees. It is measured in six-eighths time, executed in two measures, and is inspired by the old mazurka." The congress voted against marathon dancing.

CISCO, Tex. (UP).—Kitchennettes where students may prepare their own meals are planned by Randolph College here in an effort to lower the costs of education.

Dean John W. Tyndall of the Bible department proposes a 100-foot stone structure to house small kitchens in which students may bake their beans or warm canned food-stuffs at a minimum expense.

"The building would serve a real need in college life today," Dean Tyndall believes. "I know of no other college this size that has attempted to solve the problem on a scale so practical."

CHANGED MEXICAN BILL

PORTLAND, Ore. (UP).—T. J. Dorgan rented an apartment to a stranger. He accepted what he thought was a \$20 bill and gave \$15 change on the deposit. Later he learned the paper was a worthless revolutionary Mexican 20-peso bill.

Indian Fighter Asks Pension

EL PASO, Tex. (UP).—If the government owed Jose Gallegos anything, it had been forgotten until the 100-year-old Indian fighter recently applied for pension.

Gallegos is one of two known survivors of Lieut. Frank E. Mills' famous detachment of Pueblo Indian scouts, who fought the wild Apaches of New Mexico a half century ago. The other is Sastinas Gonzales, also of this city, already receiving pension.

Before Gallegos was dispossessed of his farm six years ago, he had no need for pension, he told an interpreter. Now he needs assistance.

Indian fights still are vivid to the aged scout. He likes best to tell of the time he and 30 others routed 160 Apaches who had attacked a wagon train. "Our only casualties were a few mules," he recalled.

A few days later another train was attacked by 260 Indians and Gallegos remembers the outcome was more disastrous. Before the scouts arrived the Indians had killed the entire group of freighters. Overtaken 25 miles away, the Apaches fought the scouts all day

CAT RELINQUISHED BED

BOISE, Idaho. (UP).—There are exceptions, even among tom cats, according to Mrs. C. A. Gunn, who reported that her male cat overcame the customary dislike of kittens to the extent that he left his warm bed so a neighbor's cat might use it for her babies.

QUIVERING NERVES

Yield to Lydia E. Pinkham's Vegetable Compound

When you are just on edge... when you can't stand the children's noise... when everything is a burden... when you are irritable and blue... try this medicine. 98 out of 100 women report benefit.

It will give you just the extra energy you need. Life will seem worth living again.

Enjoy Travelax-ation

TRAVELAX-ATION is that freedom from driving strain, that feeling of comfort, security, safety, and relaxation which comes to motorists when they drive on Concrete Highways.

which so frequently results in unfortunate or fatal accidents.

There are more than 3,000 miles of these safe, economical Concrete Highways in Texas. Wherever you are going find out if there is a Concrete (Travelax Route) Highway that will take you. You will enjoy your drive ever so much more... and you will save about a cent per mile for gasoline, tires and repairs over what it would cost you to drive on chuggy, bouncy, unsafe roads.

We have prepared a Special Edition of the Official Map of the Texas Highway System, showing all highways, particularly Concrete Highways. Let this Map guide you to economical and enjoyable motoring.

JUNIOR HIGH PROGRAM TONIGHT

The following program, sans characters, will be presented this evening at 8 o'clock at the high school auditorium. It is given by the John M. Cowden junior high school class in connection with graduation exercises.

PART I	
Invocation.....	Rev. W. J. Coleman
Declaration: "The Lone Star Banner".....	Anonymous
Anna Beth Bedford, First Honor Student, Seventh Grade	
Soprano Solo: "Morning".....	Speaks
Mrs. Van Camp, Public Schools Music, Midland Public Schools	
PART II	
CHINESE OPERETTA	
"The Bamboo Box".....	Clark and Moore
Scenes	
Act I:	Scene I—Court of a rich nobleman
Between Acts	
1. Dance: "Buck-Tap".....	Anonymous
2. Song: My Fraternity Pin.....	Bennett
Fred Gordon Middleton	
Act II—Mountain retreat of the bandits	
Characters	
Ah Liu, beautiful daughter of a wealthy merchant.....	Mary Elizabeth Newman
Ah Lea, mother of Ah Liu.....	Mary Beth Scruggs
Ah Mu, sister of Ah Liu.....	Wanda Ticknor
Amah, Ah Liu's mournful old nurse.....	Anna Beth Bedford
Ta Jen Cho To, wealthy young nobleman (disguised in Act I as Ming To).....	Stanley Young
Ah Wang, wealthy merchant.....	Brooks Roberts
Ming To, a blind soothsayer.....	B. C. Girdley
First Bandit.....	Franklin Stuckney
Second Bandit.....	Edwin Fernald
First Vagabond.....	Billy Estes
Second Vagabond.....	W. E. Lynch
ACT I	
Scene I	
1. Overture.....	Instrumental
2. The Message of the Fans.....	Chorus
3. O Lovely China.....	Ah Liu, Ah Lea and Ah Mu
4. Chinese Dance.....	Wanda George
5. Gossip.....	Ah Liu and Chorus
6. The Singing Stars.....	Ta Jen Cho To (disguised) and Chorus
7. The Prophecy.....	Ta Jen Cho To (disguised) and Chorus
8. Rulers Must Kow-Tow.....	Amah
9. Shine, O Lamp of Night.....	Ah Lea, Ah Liu, Ah Mu, and Chorus
10. Moon Dance.....	Jessa Lynn Tuttle
11. Loves Me, Loves Me Not.....	Ta Jen Cho To (disguised)
ACT I	
Scene II

Under the Dome Of the Capital

By GORDON K. SHEARER United Press Staff Correspondent AUSTIN (UP).—Present Texas congressmen have no cause for complaint of the new redistricting bill.

A study of the new districts shows that every congressman's home town has been left in his old district and that a new district is carved around the home town of one of the three congressmen-at-large.

Dallas has two of the three congressmen-at-large in addition to its old district congressman so it was impossible to put each of them in a separate district.

George B. Terrell, the third congressman-at-large, has a new district placed about this home town, Alto, in Cherokee county.

Congressman Hatton W. Summers of the old Fifth District and Congressmen-at-large Joe W. Bailey Jr. and Sterling P. Strong all live in Dallas.

Dallas county is made a district to itself in the new congressional map. Rockwall and Ellis counties, both formerly grouped with Dallas, are transferred to the Fourth and Sixth districts, respectively.

The fact that Dallas has three of the 21 congressmen was one of the arguments for redistricting.

Bexar county, which has been a part of Congressman Richard Kleberg's district, now becomes a separate district. Approximately 25 prospective candidates to represent it are already being mentioned.

Bexar county representatives in the state legislature, John K. Weber, Henry Hirschberg, Henry Diehlmann, Maury Maverick and Former State Senator W. A. Williamson are mentioned as possible candidates.

Many of the counties in the new Fourteenth district consider themselves aggrieved by the arrangement.

Rep. J. D. Young, Chero, said representatives from each county moved out of Congressman Mansfield's old district into new ones objected.

Ross S. Sterling, former governor recently referred to in the house of representatives as "only a sad memory," paid a visit to Austin May 2. He did not visit the capitol merely remaining at a downtown hotel.

Gov. Miriam A. Ferguson's signing of the 32 beer bill is to be made an event. Leading advocates of the bill have asked that the formal signing be postponed until arrangements can be made for sound and motion pictures.

Rep. Harry Graves, Georgetown, says he has letters from farmers in Williamson county, reporting that the federal employment camps are making farm labor scarce.

He cited letters in which farmers said men offered employment as cotton choppers replied that they preferred to enter the "forest army."

State Labor Commissioner Jack Flynn has prepared a list of labor measures that have been placed before the 43rd legislature. His list includes:

Amendment to the present law limiting labor of women workers to nine hours a day and 54 hours a week. The law was changed to insert penalties that had been omitted and amended to include employees of roadside lunch stands and beauty shops.

Repeal of the Emigrant Agency law passed when farm labor was scarce in Texas.

Extension of semi-monthly payday law to include all employers. The law is not effective now against a person or firm with less than ten employees.

Raising ban on child labor from 15 to 16 years.

Providing a \$12 minimum weekly wage for women.

Licensing automobile and airplane mechanics.

Amending plumbers law.

State law to forbid intrastate shipments that are prohibited across state lines by the national 30-hour week law.

Licensing electricians.

State law to duplicate national law against enforcement of "yellow dog" labor contracts which bind employees not to join unions.

Revising bid and contract road work to specify what wages will be paid.

Confess Kidnaping

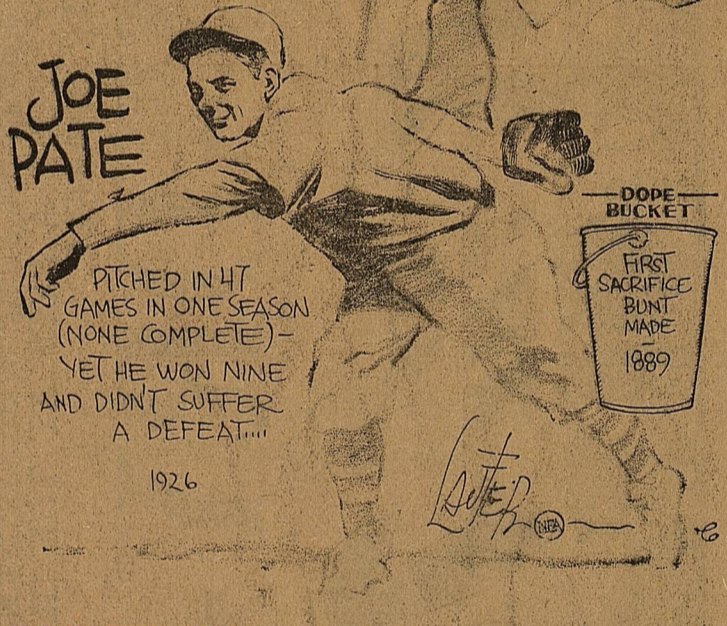

Kenneth Buck, left, and his brother Cyril, under arrest at Barnstable, Mass., for the kidnaping of Peggy McMath. Kenneth confessed, saying his brother was only the intermediary, and the \$60,000 ransom was recovered. NEA Chicago Bureau.

Firestone to Make Tires at Fair Price

When you step into the Firestone building at "A Century of Progress" World fair at Chicago opening June 1, you will see an ultra modern tire factory, fully equipped, embodying the latest methods of manufacture, and actually producing Firestone automobile tires.

First in the production line is the mixing mill with its tremendous rolls "masticating" or literally chewing up balls of crude rubber just as they are received from Firestone plantations in Liberia, Africa. It is in this mixing mill that the crude

rubber is transformed by the addition of various chemicals and pigments into a commercial material suitable for use in tires.

The next operation is gum-dipping in which every fiber of the cotton cords used in the tire is completely impregnated with rubber. Beyond is the calendar, a towering piece of machinery through the rolls of which a steady supply of cotton cords pass, and are coated on both sides under tremendous pressure with a layer of rubber, ready to be used as plies of the tire.

The next machine, known as the extruder, is similar to a huge meat grinder. Into the hopper compound rubber is fed, and is forced out in a steady flow in the shape

of error in temperature or time, assuring uniformity of quality hitherto unknown. The high speeds flicker to indicate the status of the operation. The rubber is entirely transformed, taking on physical properties as to strength, elasticity, endurance and resistance to weathering, heat and wear not inherent in the raw material.

The heat for vulcanization is produced in the form of steam generated in a modern gas fired boiler in the power room visible to all. During the vulcanization operation tremendous pressure on the inside of the tire pushes the tread stock out into the pattern engraved in the mold and thus produces the non-skid design. When vulcanization is completed the mold opens automatically and the tire is removed. The air bag is extracted and the tire is balanced and scribed with gold.

After the most rigid final inspection it goes to an automatic wrapping machine which neatly cases it in paper for shipment.

Beyond the end of the production line is an operating model of a revolutionary testing machine which shows the grueling high speeds to which tires are subjected to bring

out facts and characteristics which would otherwise only be revealed by thousands of miles of service over a period of many months. This new testing development is another check on quality as an auxiliary to test fleets and research laboratories.

Then one enters a beautiful display auditorium devoted to dynamic or operating exhibits portraying the safety, endurance, and performance of the tires, tubes, batteries, spark plugs, brake lining and other automotive products manufactured by the Firestone Company.

In addition to the things relating to its own industry, Firestone provides at its building several outstanding attractions which will be of scientific interest and entertainment to all who come to "A Century of Progress."

The U. S. army's newest airport, the \$6,000,000 Barksdale field, at Shreveport, La., was recently dedicated before 50,000 persons.

Contracts totaling about \$3,900,000 were awarded recently by the U. S. war department for 174 planes and 28 special engines and parts.

As a result the man's feelings were hurt," Ochs said, "and he declared he would advise all his friends to steer clear of this county."

airplanes are forbidden to fly over federal and state prisons at an altitude of less than 1000 feet by air regulations.

WICHITA, Kan. (UP).—If Elmer M. Teter hadn't got drunk he still might be collecting funds to open

For several days Teter approached his prospects and handed them a slip of paper which read: "Owing to an attack of paralysis when I was a baby I have been deaf and dumb. I am collecting funds to start a small shoe repair shop to care for my aged mother. Anything you can give will be appreciated."

The police picked him up one night, gloriously inebriated. All night long he cursed and mumbled to himself in the jail.

"Do you know what name you gave last night?" he was asked next morning.

"No, I was too drunk," said the "speechless" one.

Girl Took Place Of Peace Justice

SAN ANTONIO, Texas. (UP).—Like father, like daughter—so when her justice-of-peace father was not at home the daughter held court and did the filing.

Such was the report of Herman H. Ochs, president of the San Antonio Chamber of Commerce, in a protest against mistreatment of motoring tourists.

Ochs said a Chicago motorist was escorted to the residence of a justice-of-peace. The justice was not there "so his daughter held court out there by the side of the road and fined the man \$12.25," Ochs protested.

As a result the man's feelings were hurt," Ochs said, "and he declared he would advise all his friends to steer clear of this county."

Tire Prices Going Higher Buy Now! Save Money!

Equip with Firestone

The GOLD STANDARD of Tire Values THE MASTERPIECE OF TIRE CONSTRUCTION GET OUR liberal trade-in allowance for your old tires in exchange for Firestone High Speed Tires — The Gold Standard of Tire Values.

REMEMBER — your brakes can stop your wheels, but your tires must stop your car.

TIRE prices have joined the upward trend. We believe they will advance again—in fact, increasing prices of rubber and cotton are sure to bring higher tire prices. Get your tire requirements NOW while we are selling Firestone Extra Quality Tires at these low prices. BUY TODAY! SAVE MONEY!

Announcing the NEW Firestone SUPER OLDFIELD TYPE. This tire is the equal of all standard brand first line tires in Quality, Construction and Appearance. Sold at a price that affords you real savings.

FIRESTONE OLDFIELD TYPE. This tire is superior in quality to first line special brand tires made without the manufacturer's name and guarantee, offered for sale by department stores, oil companies, and mail order catalog houses.

FIRESTONE SENTINEL TYPE. This tire is of better Quality, Construction and Workmanship than second line special brand tires made without the manufacturer's name and guarantee and offered for sale by mail order houses and others.

FIRESTONE COURIER TYPE. This tire is of good Quality and Workmanship — carries the name "Firestone" and full guarantee — sold as low as many cheap special brand tires manufactured to sell at a price.

FOR Better Milk AND Better Service PHONE 9000 Scruggs Dairy

Man Lives With Bullet in Temple COLUMBUS, O. (UP).—Although William Elam, 35-year-old inmate of Ohio Penitentiary, carries imbedded in his right temple a 32-caliber pistol shot, he suffers no ill effects. Elam shot himself after slaying Miss Helen Miklos. The bullet entered his temple and lodged there. He was sent to the penitentiary in 1926 to serve a life sentence. Doctors have examined him, but refuse to remove the shot, declaring death would be certain.

THE New Firestone SEALTYE Leakproof TUBE. Extra Heavy Red Tube. Coated inside with a special compound, which seals against air loss. Flexible rubber valve stem — no chance for air leakage—constant air pressure insures greater tire mileage.

LOW COST MOTORING NECESSITIES. Firestone BATTERIES \$5.40 and your old battery. Firestone BRAKE LINING. The new Firestone Aquaproof Brake Lining is moisture-proof and embodies a new principle which produces smoother braking action and more positive braking control. Firestone SPARK PLUGS. Give a hotter spark, increased power, and have a longer life. Double tested and sealed against power leakage. Old worn plugs waste gasoline. We will test your Spark Plugs FREE.

Fish Stop Great Malaria Epidemic

HOUSTON (UP).—Give a greedy little minnow a great big hand, for its appetite means much to Texas. Dr. C. P. Coogle, field director of malaria control work in southeast Texas, gives lots of credit to these little fish. He says they do more to control malaria than any other agency.

Cambusia affinis, as these special minnows are known, are gluttons, never so happy as when they are gulping mosquito larvae.

Boy Scouts are carrying them around by the bucketful in East Texas towns and the Lower Rio Grande valley, presenting them to housewives who place them in rain barrels and other places.

In that way, says Dr. Coogle, the mosquitoes haven't half a chance. They must breed in water and if the gambusia gets there first he finishes off the younger generation with great ease.

The gambusia is very prolific, according to Dr. Coogle. It and the whale are the only known mammals among fish.

Putting the gambusia to work is only one phase of the anti-malaria campaign being waged in Texas. It was inaugurated in 1931 when the legislature appropriated \$50,000 for the work with the stipulation that the federal government would send a man to take charge of it.

The U. S. Public Health department sent Dr. Coogle. He makes his headquarters at Longview, covering 72 counties. Recently he has been quartering here to direct south Texas work.

Dr. Coogle discusses the anopheles (malaria-bearing) mosquito as familiarly as other persons discuss their neighbors. He has been fighting

the pests for 17 years and they have no secrets from him. "The female of the anopheles is deadlier than the male," he said. "The female bites. The male doesn't. His is a vegetable diet. The female has to have a meal of blood in order to fertilize her eggs. Sometimes she will bite a snake, but only when a juicy human being is not available."

Truck Laws Make For "Chinese Wall"

HOUSTON (UP).—Texas' truck laws constitute a "Chinese wall" built around the state to hurt and hinder her seaports, in the opinion of Joseph W. Evans, cotton exporter and chairman of the port commission of Houston.

In a recent statement Evans also scored barge service on the Mississippi river and its tributaries, saying it was supported by the government "at the cost of millions in taxpayers' money."

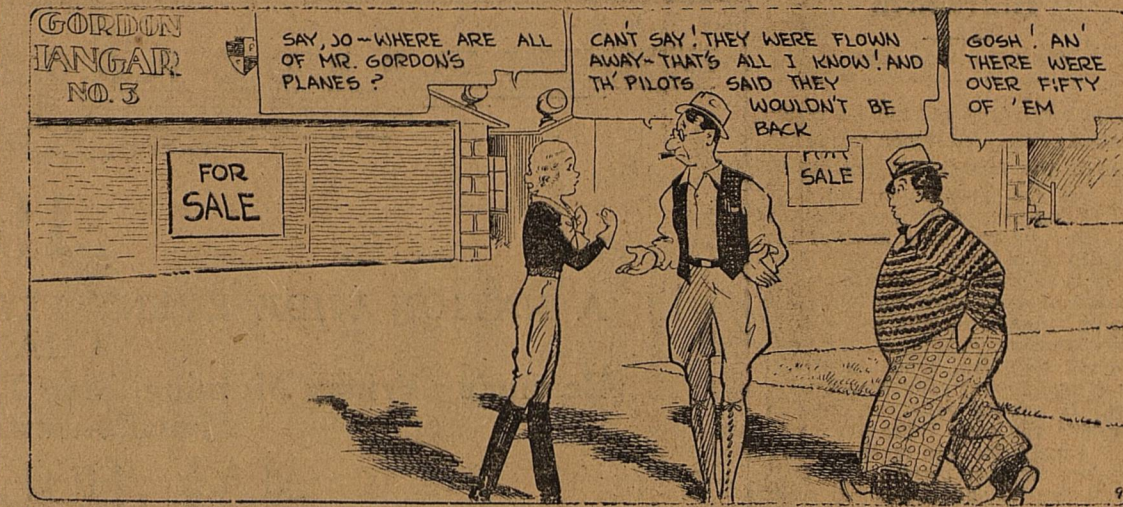

Evans said the ultimate effect of the state laws restricting barge operations and of the barge service would be the placing of larger burdens on the taxpayers of Houston and other state seaports.

RAISES FOXES

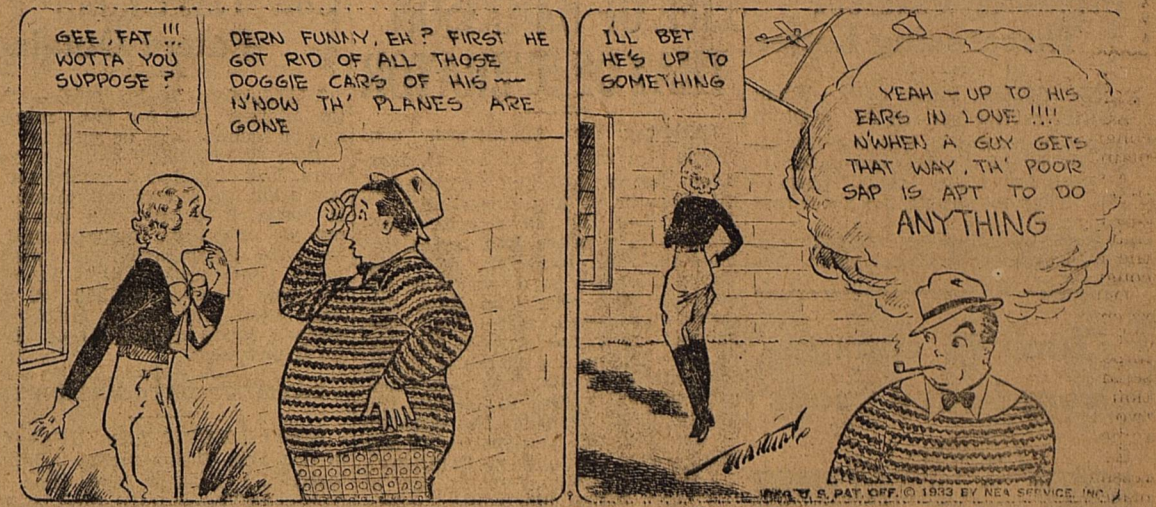

SAN ANGELO (UP).—An experiment in fox raising which Dr. R. E. Windham believes will prove as profitable as sheep and cattle raising, is in progress at the physician's home near here.

The one acre fox farm began three years ago with a pair of registered black silver foxes. Today Dr. Windham has 40 foxes and anticipates an annual production of 120 pelts beginning next year.

SUMMER-IZE your car with Magnolia 7 POINT SERVICE

NEEDLESS automobile repairs have no place in a closely planned budget. Over 80% of all automobile troubles are caused by faulty lubrication and neglect. Correct lubrication will save wear, save repairs, save gasoline, save oil!

- 7 STEPS TO PREVENT HOT WEATHER TROUBLE
1 Flush and Clean Radiator thoroughly, using Socony Auto Radiator Cleaner.
2 Drain, Flush and Refill Crankcase with correct chart grade of Mobiloil.
3 Drain, Clean and Refill Transmission with Magnolia Lubricant, Summer Grade.
4 Check Battery and fill with Distilled Water, remove corrosion and grease terminals.
5 Fill gasoline tank with summer Mobilgas or Mobilgas Ethyl with Climatic-Control.
6 Mobilize car thoroughly with correct grade of summer lubricants, according to Check-Chart.
7 Drain, Clean and Refill Differential with Magnolia Lubricant, Summer Grade.

LIFE OF HARRISON THAT OF OPERATOR

Seeking the adventures, successes and reverses of Lee C. Harrison, former Midland independent oil operator, is highly pertinent. Sketching the adventures, successes and reverses of a typical independent oil operator of West Texas affords a good picture of the life of West Texas on the occasion of the fifteenth anniversary of the West Texas Chamber of Commerce. Lee C. Harrison now is one of the most active independent operators in West Texas. He is, therefore, the subject of this article. Three things must be done before the oil industry comes back; divorce pipelines from producing and refining; divorce filling stations from other branches of the industry; do away with proration, in Harrison's opinion.

Makes Money "Take those steps and the oil industry will automatically right itself and everybody can make money. Until these things happen nobody can make money," said Harrison. Harrison opposes a federal oil dictator, terms proration "the curse of the oil business" and is opposed to an appointive oil and gas commission for Texas. His doctrine is that the less the government has to do with business, including the oil business, the better it is for all. Lee Harrison, born in Comanche county and reared in Kent county, got into the oil game after leaving the army following the World War.

In Young County Harrison then went to Young county and drilled six wells. He sank two in Ward county and in 1928 drilled a dry hole on the Dodge estate land in eastern Howard county. It was about this time that he became associated with Mrs. Dora Roberts, pioneer ranch woman, upon whose land a good portion of the Howard-Glasscock county field is located and whose royalties and other holdings have made her one of West Texas' wealthiest individuals. The association between Mrs. Roberts and Mr. Harrison has continued and today they are interested in some of the most important drilling operations in West Texas.

Denied deeply by the depression along with all independents, Harrison returned here from East Texas in 1931 and drilled his No. 1 Denman in the Denman-Dodge area of eastern Howard county, extending that pool northward to Big Spring. He has drilled in two other Denman in No. 2 and No. 3 Denman. In July, 1932, he acquired acreage in Ector county and drilled Harris and others' No. 1 F. V. Addis Estate, which opened a new pool four miles west of Odessa and furnished more of interest in the circles than any one operation has created in some time.

Now, he is drilling No. 4 on the Denman land in Howard county and with W. T. Waggoner, Jr., of Fort Worth, has started Waggoner Western Corp., and Harrison's No. 1—Addis Estate, one-fourth mile south of the discovery well in Ector county. The Ector discovery made 450 barrels of initial production from pay drilled at 3,862 3/8 feet. Without an outlet for the production, Harrison leased the plant of the Howard County Refining company, and is hauling his crude via the Texas and Pacific to Big Spring, refining and marketing it himself. The latest venture in which he is interested is west of the Denman-Dodge pool, where he and associates have acquired nine sections and are drilling their first test one and one-fourth miles northwest of production.

Contract has been made for the Waggoner Western Corporation to drill three tests in all on the Ector county acreage. Mr. Harrison was married in 1925 to Miss Loula Mae Mills of Stanton and they have three children, six and three years of age. They reside on South Scurry street at Big Spring.

Cow Tail Clamp Patent Obtained

WALLACE, Idaho (UP).—Chalk up another one for the machine age or technocracy, or simply Ben Trowbridge, dairy operator here, has obtained a patent on his invention of a cow-tail clamp. It is designed to keep the cow's tail out of the barn troughs and to keep the appendage from swishing while being milked, that is, while the cow is being milked. A Spokane sash and pulley factory has already made over 1,000 of them for Trowbridge.

PAYMENT DATE EXTENDED

LITTLE ROCK, Ark. (UP).—One of the acts of the recent Arkansas legislature extends the time for paying poll taxes until June 15. This extension makes it possible for those who have not already paid their poll tax to vote in the prohibition repeal election to be held July 18, 1933.

There are 850 distinct species of trees in this country.

War. Starting at Burkburnett, he drilled two dry holes. With the typically indomitable spirit of the true blue independent, he went to Eastland county and drilled two more dry holes. This was in 1919 to 1922. Later he drilled in a good gasser a mile from Eastland.

In 1922 he came to this section of West Texas, and sold land for a year or two. He dealt in some leases and for a time operated the Lano hotel here and started the Midland Drug company. In 1926 he drilled a test on the Dora Roberts ranch, south of Big Spring, becoming one of the real pioneer explorers in that vicinity. The first test was a dry hole. He moved the rig over and got a producer, and this was one of the starters for the prolific Roberts pool of the Howard-Glasscock county field, which had produced 47,000,000 barrels of oil to January 1, 1933.

In 1929 he came to this section of West Texas, and sold land for a year or two. He dealt in some leases and for a time operated the Lano hotel here and started the Midland Drug company. In 1926 he drilled a test on the Dora Roberts ranch, south of Big Spring, becoming one of the real pioneer explorers in that vicinity. The first test was a dry hole. He moved the rig over and got a producer, and this was one of the starters for the prolific Roberts pool of the Howard-Glasscock county field, which had produced 47,000,000 barrels of oil to January 1, 1933.

It is not alone the royalty owners and oil operators who will be benefited by a fair price for crude oil. In cities like Houston, Dallas, Fort Worth and Tulsa it will lift a tremendous load from all the financial institutions, production contracts, bonds, mortgages and other obligations incurred when oil was selling at several times its present price will be restored to their normal value.

Experience has shown that when the price of crude is fixed by private companies there can be no dependence upon the permanency of that price. Sudden and extreme drops in price, such as have occurred intermittently for the past two years, always catch the small operator with commitments made at the higher price. Under a government fixed price those rapid changes will not occur. Let us all get back of this movement and in thirty days the oil industry will be leading the procession on the way back to prosperity.

Attention is called below to regrettable errors made in Mr. Hogan's article published May 2, under the heading of "Inflation Bill Brings Victory." In the second paragraph after the word "silver" the words "and were confining their efforts" were omitted; in the fourth paragraph after the words "had it" the word "not" was omitted, thus making it read as if two-

thousands of companies. No intelligent independent royalty owner or operator wants to see the majors wrecked any more than he wants to be wrecked by them. A federal supervision honestly administered will protect the large and the small alike. But if you have federal control of production and leave the price fixing to private control, it will mean price fixing by the major companies and violent opposition on that account by all the small operators. It will be charged that their output is limited for the benefit of those groups strong enough to fix the price. I think I can say with certainty to those who fear a cumbersome and bureaucratic federal control that on the contrary the policy will be to limit federal action to the lowest minimum consistent with the protection of the rights of interested parties. Whenever possible the state agencies will not be interfered with and duplication of services will be avoided.

I don't know, you may be working on this bill, so we certainly appreciate any influence or effort you may use in securing its passage. Or any other relief or suggestion you may offer in this matter will be appreciated.

as too much heat will kill the germination of the seed. When this is the case if the farmer has not tested his seed for germination and gone ahead and planted his crop, chances are, that he will have most of his crop to plant over.

This will be extra expense on the farmer of more seed, and more labor and time to replant. In the irrigated sections, which a greater portion of the farm lands in Pecos, Ward and Reeves counties are watered. It usually calls for another watering and some times the farmer is caught too late in the season to plant another cotton crop. One might say he should test his seed, we will grant that he should, but some times this would be hard to do as the seed of an entire crop will be stored in one barn or room and he might get a few seed and test them, they might be all right while just under these a bale of over heated seed had been placed. This is not the case in most of the seed but we do believe from experience the past twelve years in this valley that these seed that have been sterilized will not come up or grow off as good as seed that have never been sterilized. We have found that seed that have been shipped from other parts of the State or else where out of the quarantine will germinate much quicker and the plant grow off much faster and make better cotton. Of course some of the seed when the steam on the sterilization plant is down as good as any seed of the same stock and grade. Again in connection with our cotton seed we are restricted to only certain places we can ship. There by cutting out all competition except our local trade, and that only comes after we have held our seed for several months. This too has caused a loss of from five to fifteen dollars per ton on all seed that are sold or grown in this quarantine area. So long as we are under this restriction it would not be worth while to raise pedigreed seed for planting purposes as we would not be allowed to ship them.

Mrs. Ferguson, it seem to me we are asked to carry a pretty heavy load to protect the cotton industry of the entire state and nation. We do not feel that this worm is doing any damage out here and don't believe he would do any damage were it not for the quarantine as don't think he could live through the winter or work in this climate. I believe I am safe in making the statement, that this worm has never caused the loss of as much as one bale of cotton in the field in Pecos county. Therefore if we are asked to be kept under this quarantine to protect the farmers that are not suffering from the effects of these restrictions, don't you think the entire state should share with us in paying this cost? It just seems to us that we are not asking any one to carry our burdens or pay the whole cost. But I do think the farmer should be repaid for the cost of having the sterilization and fumigation done, and if he is kept under these restrictions he would be entitled to have this work paid for until such time as he can be released. We are very grateful for the relief we have gotten in some parts of this area as to fumigation.

Five Stars Head Great Ritz Film

An all star cast of five players, an imposing array of talent in featured roles and 1,000 extras form the background for the First National picture, "Employees' Entrance" which comes to the Ritz Theatre on Wed. for two days. Warren William, whose excellent work will be remembered in "The Match King," "The Dark Horse," "Three On A Match" and "The Mouthpiece" heads the list of stars, with Loretta Young, who recently made a tremendous hit in "Life Begins," as well as in "The Hunchback of Notre Dame," "The Sign of the Cross" and "Week End Marriage," playing opposite him in the feminine lead. Alice White, fresh from a ten month triumphant personal appearance tour on the stages of the country makes her return to the screen after a two year absence from the screen. An analysis of the study shows that the Washington, D. C. housewives in whose kitchen the photo-electric eye was placed, spent from 38 to 152 minutes at the sink each day, while the number of trips varied from 22 to 217. The reasons for such variations, according to the article, can be determined only by more detailed studies. The definite facial dail hitherto unavailable in such studies should make possible more definite conclusions as to the comparative efficiency of different types of kitchen arrangement. Dr. Stanley says.

Electric Eye Counts Trips

BALTIMORE, Md. (UP).—For each member of her family, the average housewife makes 15 trips a day to the kitchen sink, according to the February issue of the American Journal of Home Economics. Each time she goes to the sink, she spends, on an average, one minute. Thus, the homemaker in a family of five will average 90 trips daily to the sink and will work there for an hour and a half. A photo-electric eye was used to help record every trip made, together with the time spent at the sink. The U. S. Bureau of Home Economics was asked to make this study by the chairman of the committee on kitchen of the President's Conference on Home Buildings and Home Ownership, and it received outside cooperation. An analysis of the study shows that the Washington, D. C. housewives in whose kitchen the photo-electric eye was placed, spent from 38 to 152 minutes at the sink each day, while the number of trips varied from 22 to 217. The reasons for such variations, according to the article, can be determined only by more detailed studies. The definite facial dail hitherto unavailable in such studies should make possible more definite conclusions as to the comparative efficiency of different types of kitchen arrangement. Dr. Stanley says.
