NEBRASKA AND KANSAS HIT BY DAMAGING WIND

At Least 14 Killed; And Property Damage High

KANSAS CITY, May 23. (UP) A tornado killed at least eight per-sons at Tyron, Nebr, and six at Liberal, Kas., injuring 200 and causing more than \$1,000,000 in property damage last night.

Buildings in towns and on farms were demolished over a wide area in Western Kansas and Nebraska. Livestock was killed, crops were damaged and communications cut off. A sand and dust storm ground ed planes and stopped traffic, plunging towns in darkness. Heavy hail accompanied the wind. The dead at Tyron and Liberal

were killed in the collapse of build-ings. A man at Garden City, Kas. was lifted in the air and dashed to death on the pavement. More cas-ualties were expected to be report-ed.

WHERE BLAME BELONGS

That Pennsylvania politician who criticised Mrs. Gifford Pinchot for joining a demonstration by striking sweatshop workers seems to have got his argument a little bit mixed.

In his criticism this politician protested that such dem- able when they are quiet. onstrations "seek to arouse class hatreds" and asserted that their leaders are trying to "array classes of Americans against each other.

The obvious retort, of course, is that it is the sweatshop itself, and not the demonstration against it, which does those things. If class hatred is springing up in sweatshop centers, one can hardly wonder at it; but it hardly leads to a scrap, or series of scraps, seems intelligent to put the blame, not on the sweatshops and then divorce. but on those who protest against them.

tions. More than likely, Hitler will stoo just short of a pronouncement which would bring a French demand to reoccupy the Rhineland. It is cer-tain that France and England will never willingly permit Germany to equip with heavy artillery her 600,-000 Nazi storm troops, 400,000 steel helmets and several hundred thous-and other trained men. They are already equipped with light arms. It remains to be seen whether Hitler can restrain himself and then so soon after their frenzied domin-ance of all opposing elements in Germany. Neither the Kaiser nor any of his generals ever made as inflamatory or as stupid a speech as von Papen did the other day when he declared it to be the nat-ural and glorious ambition of all male Germans to die on the battle-field. That speech is a fit companion for a recent speech by another fan-atic who solemnly declared that Hit-ler was the reincarnation of the Holy Ghost.

Holy Ghost. It would look as if Roosevelt choose an inauspicious time to sug-gest disarmament to the people of

Europe but perhaps the audacious boldness of his course may bring bolchess of his course may pring the desired results. Probably the average American does not get the full significance of the new national policy enunciated in the president's message. It is a policy which this nation has here-tofore steadfastly refused to san-ction

It is a direct pledge on the part of this nation to help police Europe and keep the peace of the world. Had Roosevelt asked congress for authority to make that commitment it would have been denied him even by this docile congress but having by this docile congress, but having made the commitment the leader: of both parties hastened to approve

When the war broke out in 1914 dermany and her allies and France and her allies could and did buy all kind of supplies from this coun-try. Trade was uninterrupted ex-cept so far as difficulty arose in getting the goods across the At-lantic

HIS purchasing agent of the family, recognizing value and balancing quality and price in the household budget, chooses Conoco Bronze. Sweeping manmade statements aside, she judges on performance alone.

Ecstasy of quick starting, gaiety of speed, solace of improved anti-knock, delight of extra mileage, generosity of power and thrift-sense of no-increase-in-price.

Engineers may smile at these descriptive terms, but the lady knows what she is talking about.

It is seldom necessary to go out of your way for Conoco Bronze . . . but your first experience will make you agree, also.

Three thousand miles of concrete highways are shown—the Travelax route. The new map is being dis tributed free, on request, to Texas motorists by the Portland Cement association. Coming out as it does just ahead of the big summer motoring season, there is already an active demand for this new kind of road map.

The association is carrying on an extensive travel program built around the novel idea of "Travelaxation." This is a new word which has just been coined to describe that freedom from driving strain, that feeling of comfort, security safety and relaxation which come: to motorists when they drive on concrete highways" to quote a recent announcement.
