ELIMINATE THE RACKETEERS

One of the good things the Senate did in its final moments was to vote a drastic investigation into racketeering in America's biggest cities. If our "new deal" is to be all that it ought to be, it must find some way of dealing with the racketeer; and although a great deal is known about that problem, no effective correctives can be designed and applied until a lot of definite, detailed knowledge is tabulated.

The assertion of a natural scientist that it may eventually be possible to predict earthquakes in much the same manner as weather forecasts are made, is likely to prove disappointing to those who have been hoping for, in this connection, a greater degree of accuracy.

The Town Quack

man who thinks every girl who works in a cafe is in love with him? Ordinarily a man likes to feel all buoyed up, but Fred Wemple said the first time he took an airplane ride he certainly enjoyed feeling down and out.

Isn't it funny that the most solid banks are those which are liquid? Efforts still are being made to bring about world peace, but statisticians say June marriages are just as numerous as ever.

Things wouldn't be so bad if the back seat driver was not right about half the time.

A girl told Pete Flanagan that the man she marries must be brave as a lion but not too forward, as handsome as Apollo but not conceited, wise as Solomon but meek as a lamb, must be kind to all women but love only her.

SHARKEY COCKY BUT IS AFFABLE

By BILL BRAUCHER NEA Service Sports Editor ORANBURGH, N. Y.—A new kind of Jack Sharkey has come into the life of the sports pages. The champion who was garrulous, and boastful, emotional and erratic, hysyerical and independable, has become an amiable, affable gentleman. In certain parlance he would pass for "an old softy."

Very democratic. He played hearts with Buckley and other of the camp followers and scribes—though it seemed his own heart was across the little pond where, in a cottage, he lives with Mrs. Sharkey during their training camp period.

DO YOU KNOW HIM?

The impression that Sharkey is in his dotage (he won't be 31 until October) was heightened when his inquiring correspondent asked him if he thought Camera could take it. "Take it?" he replied with a judicial pause. "Well, look at our fight. I floored him for nine—and I'm not what you'd call a hard-hitting heavyweight!"

Street Was Shared By Several Cities

HAYWARD, Cal (UP)—A long street may have no ending, according to Miss E. Baldwin, 25, salesgirl but it can have conflicting laws. Miss Baldwin started down East Fourteenth street in Oakland, soliciting orders for her firm. She thought that so long as she stayed on Fourteenth street she was under the jurisdiction of Oakland's business license law.

Elaborate Music Score Prepared

More than 200 persons were engaged by the Fox Film corporation to aid in the composition and synchronization of the musical score of "Cavalcade," the film version of Noel Coward's famous play, opening Thursday for a two-day run at the Yucca. Owing to the extreme length of the film, only two daily shows will be played, beginning at 2:30 in the afternoon and at 8:30 in the evening.

The research on the music alone almost equalled that on the production generally. From the start each piece, if on ly a single bar or note, had to be cleared legally. And when the production department announced that more than 50 compositions were to be included as musical background the legal department at Fox set the machinery in motion to gain rights to the required music.

Almost every imaginable type of music was incorporated in the film. Ranging from Strauss waltzes and extending through "Oh, You Beautiful Doll" and on through Noel Coward's "Twentieth Century Blues," the music covers the period from 1899 to the present and on into the imaginary music of the future.

Goat Climbed Tree To Eat Its Leaves

OAKDALE, Cal. (UP)—J. L. Sawyer's tree-climbing goat was grazing in a treeless pasture today. The transfer came when Sawyer, discovering a number of almond trees badly mutilated, found in a tree one of the goats he used to lead a herd of 4,500 lambs. The animal, he said, had jumped a five-foot fence surrounding a grazing field, climbed the trees in the adjoining orchard and eaten foliage while straddling limbs.

Unpaid Men Vote to Pay Dog Catcher

WILMETTE, Ill. (UP)—It isn't the paper that has to be paid here, but the dog catcher. The village board recently voted to waive their rights to any salary due them from April, 1933, the time they were elected, until April, 1934. They also voted to withhold the salary of Village President Carbon Petroleum Dubbs.

DEFEATS WEATHER

ROSCOE—J. B. Cooper, who lives northwest of Roscoe, is one farmer who realized a nice profit from wheat in spite of the dry season. His yield per acre was 25 bushels, and some of it tested as high as 64 pounds to the bushel. Cooper's land was under water much of last summer due to flooded conditions of the Roscoe lowlands.

SOCIETY

Youth Discussed By the Women's Missionary Society

The four circles of the Women's Missionary society of the First Baptist church met Tuesday at the home of Mrs. Winston F. Borum, 311 N. Main.

The devotional was given by Mrs. J. V. Hobbs, and the program was in charge of Mrs. L. D. White. The subject, "Youth," was discussed by Mmes. Paul T. Vickers, Walter Anguish, and H. B. Dunagan.

Special numbers on the program were songs presented by members of the G. A. and R. A., and by Dolores Barron.

After the program the Lena Wimberly circle served refreshments.

Some of the lushest hitting this season is being done by two of the smallest and youngest players in the league. Franklin Manning of the Magnolia club is hitting only a few points below the 400 mark to be one of the leading hitters in the circuit, while Bill Hiett is hitting better than 300, a mark better than a lot of more experienced players can boast. "Little Bill" is outperforming his more famous papa by something like 125 points.

Doc Ellis, manager and lead-off hitter for the Papposes, may not lead the league in hitting this season, but is likely to lead in walks as he has already received 11 free trips

to first base. And speaking of men that are hard to keep off base, the pitchers are unanimous in the opinion that "Fat" Woods is the hardest in the league to retire.

What is really a nightmare for scorekeepers though is figuring the records for so many players of the same name. In the league there is: H. L. B and G. Jones, H and B Howard, B and L Hiett, A and H Mills, F and J Woods, W and H Whitmore, P and L Cook, B and R Morgan, E and R Blackman, B and J White, A and E Estes. But there will never be but one Ironhead. More the pity!

A few figures and comments: Papposes 4, Blackman's 3. First game of the season—a honey. Lindy's 3, Icers 2, we got a good start anyway. Hokus-Pokus 11, Papposes 10, Champs? Look at the error column—7 each, Hokus 3, Blackman's 2, H. P. not much lucky—one clean hit and a couple of scratches. Papposes 7, Ice 6. The Indian sign was good for one inning—7 runs in the first. Papposes 10, Lindy's 9. We tried to win. Hokus 4, Magnolia 3. Too lucky to live. Hokus 14, Lindy's 6. Ironhead was "out" of the lineup. Lindy's 4, Blackman's 3. Somebody had to win—both couldn't go on losing.

Heard that the Magnolia players were to eat turkey if they beat the Papposes Monday night and beans if they were losers. The 15-5 score should encourage the farmers in the county to plant more frijoles.

Only one game has lasted longer than seven innings this season and on that one the scorekeeper got mixed up and let Magnolia and the Southern Ice each bat twice in the first.

Those who have watched Blackman's club lose six out of seven and wondered why can take either of both these reasons. They are in last

place in club hitting averages and their pitchers have given more walks than any others.

At the present time the Hokus-Pokus and Papposes are tied for the league lead and all indications are that one of them will be the ultimate winner. One wonders how much either team would be defeated by the Hardware team of '32, or the Texas Electric club of '31. Neither of the present leaders would make better than a mediocre showing in our opinion.

One of the joys (?) of keeping score is a pitcher like Bill Howard of the Southern Ice. After each game he pitches he comes around and wants to know how many runs, hits and earned runs the opposing club got. And never have we been able to prove our figures as correct as his memory.

Did anyone else see Andy "faw down and go boom" when he was "removed" from first base by Whitmore?

\$20 Over Fare Is Sufficient

ABELINE—West Texas can attend the World's fair, see the really important exhibits there, see all of Chicago and purchase their meals at a total expenditure of less than \$20 in addition to their railway ticket and Pullman fare.

Unbelievable as it sounds it has been done and on an extensive scale in connection with the first West Texas special train section, a duplicate of which is scheduled to head out Sunday over the Texas & Pacific under sponsorship of G. B. Sanderfer, manager of the Simmons university cowboy band, with Chicago and four days and nights at the World's fair as its goal.

Authority for the statement that \$20 is ample with which to take in the fair and Chicago is Mrs. Paul Vickers of Midland, whose husband is manager of the chamber of commerce there. Nineteen persons from Midland made the trip on the train section which left June 11. Members of the party pooled their money each day, selected Mrs. Vickers as treasurer, and let her take care of all arrangements. When they had reached Pullman again they found their expenditures in addition to transportation had been slightly less than \$20.

"It takes management—but we succeeded," said Mrs. Vickers, who weaved Chicago from taxicabs and not buses. We chartered them by the hour—and there wasn't a worth while sight we missed.

The train section leaves Sunday morning as part of the Sunshine Special and will be under the direction of Sanderfer. The fare, which includes railway ticket and berth to and from Chicago and the four nights there, scales downward from \$39.45 for lower berth single from Midland and \$38.65 from Big Spring. All reservations must be made through Sanderfer at Abilene or Mrs. Vickers at Midland who is acting as agent in that section as an accommodation to persons planning to make the trip.

Pharr Nursery Donates Shrubs

The M. H. Lowrie nursery of Pharr donated 15 shrubs to Midland parks, on request of T. Elmer Bizzell, manager of the citrus farms of Dr. J. B. Thomas and the Midland Hardware company. Bizzell asked the Lowrie nursery to donate the shrubs, as he wished to contribute something to beautify the parks. Bizzell hauled them from the Magic valley and had to stop to water the plants every five hours. Bizzell is recovering from blood poisoning in his feet caused by inflammation from wearing irrigation ditch boots.

Stock Market

(Continued from Page 1)

When the national administration announced its determination to raise commodity prices, it was a foregone conclusion that stock prices would rise, too, and shrewd speculators plunged in.

Prospects Actually Improved Since then, actual business improvement has been phenomenal, and many observers argue that the present prices are fully justified by earnings and prospects. That the position of the dollar is an enormous speculative influence, however, is shown by the sharp movement of stocks whenever it goes up or down in terms of foreign currencies. The public, of course, has been buying the well-known market leaders heavily, but its purchases are by no means confined to them. Statistical volumes and services are in great demand at the brokers' offices and at public libraries. At first there was a call for information on stocks that would benefit directly from inflation. Now, the market

Famous Flyer Now with Gulf

Noted aviator, winner of many world's speed records, and holder of the Distinguished Flying Cross, Captain A. J. Williams has accepted the position of Manager of Aviation Sales with the Gulf Refining company. He takes over this responsibility to devote his wide flight experience to industrial progress. He will assume his post immediately.

This announcement has particular importance not only because Captain Williams is one of America's foremost exponents of aviation but because his experience as business man, writer, lecturer, and lawyer fits him for his duties.

His career has been featured by many outstanding acknowledgments of his prowess as an ace flyer. In addition to winning the Distinguished Flying Cross, Captain Williams was one of the twelve men selected in the United States "in recognition of services rendered to aeronautics" by the American Society of Mechanical Engineers. For eight consecutive years he held the American speed record for airplanes.

Captain Williams enlisted in the navy for the duration of the war as a naval aviator. He specialized in testing airplanes for the navy department and developing aerial aerodynamics for purposes of fighting in the air. From 1926 until 1930 when he resigned from the Navy, he specialized in high speed research. At the time that he received the Distinguished Flying Cross, Captain Williams also received a citation from the Secretary of the Navy. This stated in part that he had many times undergone risk of his life for the benefit of the service. That, up to 1925, he had performed his duty with a parachute in which a serious crash was expected—that he flew one plane to complete destruction to elicit information on the vital subject of flat spinning of service airplanes—that his constant association with test and development work had been occasioned by the desire of the chief of the bureau of aeronautics to continue him in a position where the navy could get the most benefit of his experience and ability—that the standard combat type of plane reflects many of the improvements

statisticians also are trying to figure out which companies stand to profit especially from the administration's industrial control plans.

Market Still Uneheated Stock exchange authorities have said that they want no repetition of the speculative orgy of 1929, but with its disastrous sequel, but they have put no curb on the market. Velled words of caution have come from Washington concerning the rapidity of the advance, but observers here do not see how stock speculation can be prevented as long as the government is pursuing a course deliberately designed to raise all prices.

The entire financial district has raised a new lease on life. Stock exchange seats are quoted around \$250,000, whereas one sold for \$35,000 as recently as April. Workers who were turned off when trading shrank to levels where profitable operations were impossible for many houses are back on the job. Office space is in more demand, and owners of the innumerable new buildings on the fringe of the financial section, which have never been fully rented are growing more hopeful.

pioneered in racing by him—that from 1922 on he played a major part in keeping the navy to the fore in heavier-than-air craft development—that in articles written to the public he had shown himself to be a scholar as well as a master pilot.

Today Captain Williams' busy life supplies him with a diversity of interests and makes him doubly valuable as Manager of Aviation Sales for the Gulf Refining company. He is one of the officers of the Delaware Chemical Engineering company, a steady contributor to the Saturday Evening Post, Collier's, Liberty and aeronautical journals on aviation subjects, a lecturer of note, a lawyer in the State of New York, and a Captain in the U. S. Marine corps reserves. It is also interesting to note that he graduated from Fordham university, received a Bachelor of Laws degree from the Georgetown University evening law school, and pitched for the New York Giants for two years under John J. McGraw.
