Number 146

3.2 REPEAL PASSED

Saturday Rains Are First Substantial Drought Relief

MOST OF AREA BENEFITS FROM THE RAINFALL

Precipitation Range Is From Showers To 3 Inches

Rains which fell Friday night and intermittently throughout Saturday gave the first substantial relief to drought-stricken pastures which has been received in this section for the summer.

Total precipitation for the week end, up to 11 o'clock Saturday night, was 78 inches, as reported by Buster Howard, government weather observer.

Friday night rains fell heavier to the north and west. The heaviest reported was a three and a half inch rain at the ranch of Mrs. O. B. Holt.

Rains to the west were lighter, with showers in the A. C. Francis, Bill Bryant and W. W. Brinson ranges.

No rain was reported Friday night on the Hunt and Midkiff ranches southeast of Midland.

Telephone calls to neighboring towns indicated a good rain at Seminole, a heavy pour at Big Spring, light at Wink and Kermit, with no rain at Iraan, Rankin and Fort Stockton.

Dallas was receiving heavy rains Saturday, it was reported here.

SEN. CONNALLY NOT ENABLED TO TALK HERE

It will be impossible for Senator Tom Connally to speak in Midland Sept. 5 or 7, he wired Manager Cava L. Fannin of Hotel Scharbauer and Sup't. W. W. Lackey, of the Midland public schools system.

He had been extended an invitation by the Midland men earlier in the day, when it was learned he would make an address at San Angelo on the evening of Sept. 6.

"Telegram received but regret I cannot be in Midland either of the dates mentioned," the senator wired back. Earlier he had wired he would check his speaking itinerary and wire back as soon as possible.

The wire drafted by Fannin and Lackey, friends of Connally for many years, read:

"We have noticed in the daily papers that you are to speak at San Angelo Sept. 6 on the MIA drive. Citizens of Midland and adjoining counties are eager to have you here on the same subject on Sept. 5 or 7, and can promise a large and representative audience of this area. Your many personal and political friends here are exceptionally anxious to have you and we personally extend an urgent invitation. Kindly advise today if possible whether you can accept, in order that we may give wide publicity through the press of the state and area."

Burglars Not So Fastidious During Summer Months

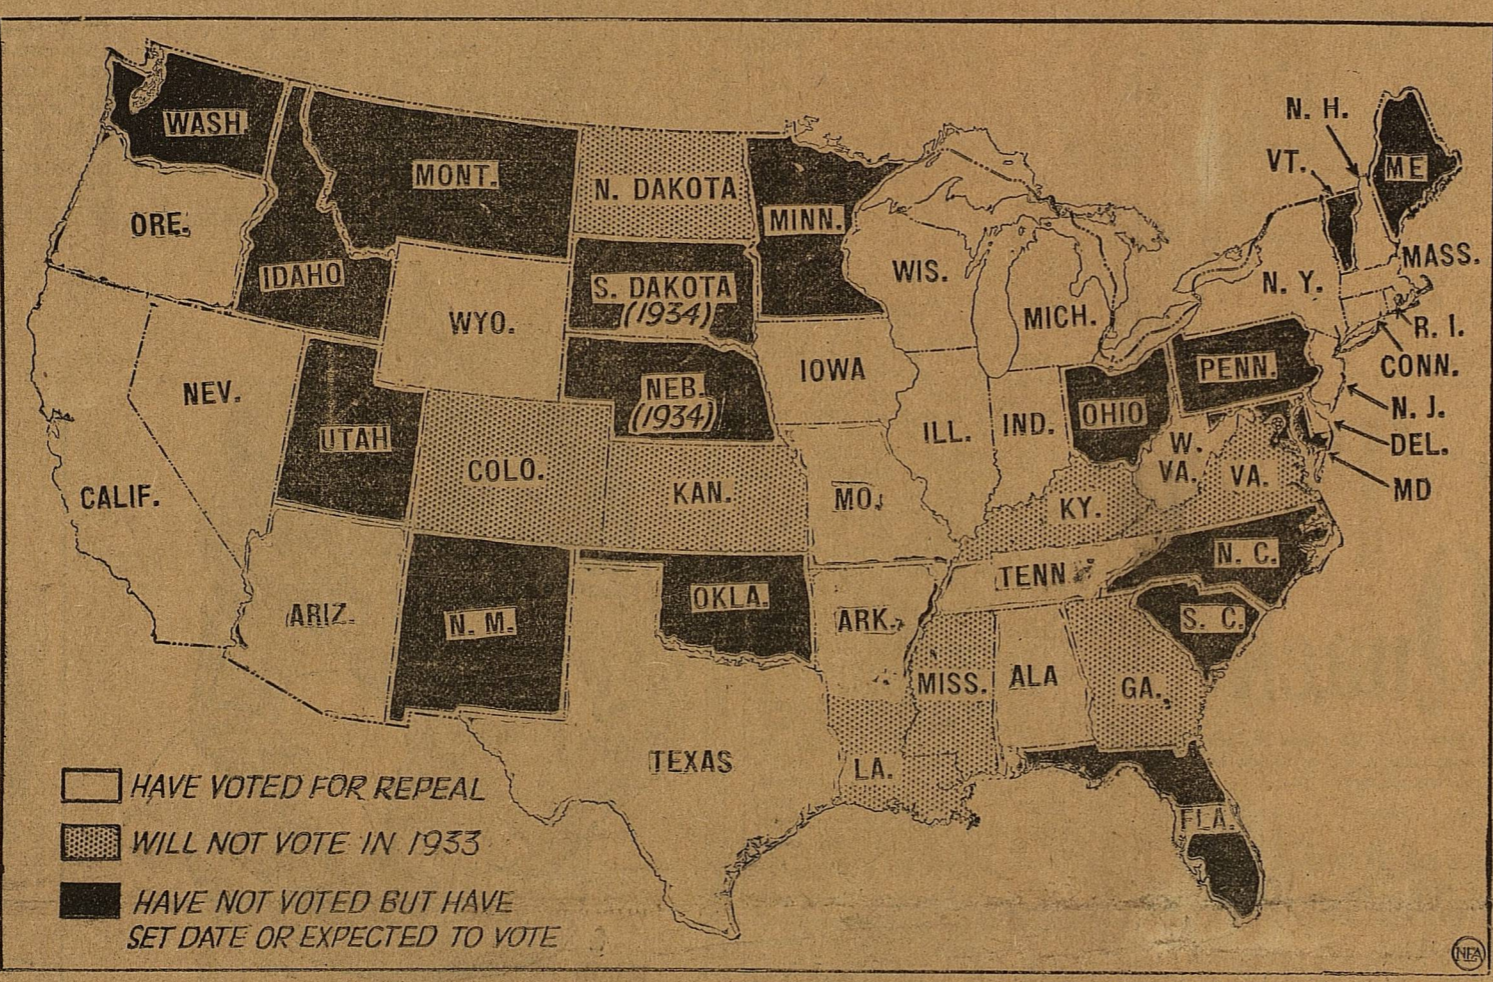

Even the burglars of West Texas show a western reserve for hard boiled shirts in the summer.

Entering Elliott P. Cowden's home, 201 North C, last week, housebreakers took several suits of Cowden's son, Wright, but left his tuxedo.

Wright wonders whether they would have taken his tux had the temperature been in the lower register.

FISHER AND FISHER LINCOLN, Kan. (UP)—The fish stories in this community are getting better and better. During the recent dry spell, anglers were quoted as saying that four-pound channel cats chased jackrabbits three miles from the river.

Texas Joins the Parade of Wet States

The map above shows in white the states that have voted for national repeal of the 18th amendment. Shaded states, with the exception of Colorado (which has changed former announcement through legislative action) will not vote on the issue during 1933.

Two Liquor Issues

Resume of 22 States' Votes On Amendment

Table with columns: State, Date, For, Against. Lists votes for 22 states including Michigan, Wisconsin, Rhode Island, Wyoming, Nevada, Illinois, Indiana, Ohio, Pennsylvania, New York, Connecticut, New Jersey, Delaware, Maryland, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Texas, and Arizona.

Official Totals 8,724,048 2,588,558
Unofficial Totals 9,248,030 2,739,518

THIRTEEN MORE STATES MUST FOLLOW SUIT

The electorate of 23 states had voted in favor of repeal of the 18th amendment before Texas went to the polls today. The 21st amendment, which calls for repeal of the national prohibition amendment, is one of two liquor issues presented to Texas voters Saturday.

SIX COUNTIES GIVE MARGIN TO STUBBEMAN

Based on returns of six of the 13 counties of the 88th representative district of Texas, some of these incomplete, Frank Stubbeman was leading Bert P. Howell at midnight to succeed the late B. Frank Haag.

BOYS NEED HOME

Homes for several Midland county boys who want to attend Midland high school are needed. The boys need places to work for their board and room, or some kind of part-time employment, it was reported.

MRS. RUPLE IMPROVES

Mrs. Drew Ruple, 611 East Florida, was improving late Saturday evening from a light congestive cough and an attack of malaria.

MIDLANDER GETS DEGREE

Mrs. J. M. Flanagan, Sr., and her daughter, Emily, will return today from Alpine, where Emily received her B. A. degree from Sul Ross State Teachers college Friday night.

18th Amendment Vote Restricted

AUSTIN, Aug. 26. (UP)—The brewers' "big black horses" will not trot across Texas just because voters of the state approved repeal of the 18th amendment August 26.

CRUDE RISES IN WEST TEXAS

HOUSTON, Aug. 26. (UP)—The Gulf Pipeline company today posted ten cent increases for crude oil in West, East, Southwest and Coastal Texas crude.

CRUDE RISES IN WEST TEXAS

The West Texas oil price has been thirty cents, the increase today sending it to forty. The local Gulf office closes at noon and had not received the direct order early Saturday afternoon.

Prohibition Faced a Double-Barrel Fustilade

By MERRILL E. COMPTON United Press Staff Correspondent DALLAS, Aug. 26. (UP)—Prohibition faced a double-barreled attack from the Texas electorate today as hundreds of thousands of persons cast ballots at a special election made nationally important because of the liquor vote.

Local Option Row Here Once Called For Ill Feeling

Tucked away in the files of the commissioners court minutes, not noticed until Sat. by reporters searching the misty records for the history of local option in Midland county, is found some interesting data.

DYNAMITE GETS FINGERS

CORUR D'ALENE, Ida. (UP)—Alfred Gustafsen, 14, of Cougar Gulch, lost two fingers of his right hand when a dynamite cap which he had found in a box near a road camp exploded.

INDICATED MAJORITY 100,000; ALL AMENDMENTS PASS EASILY

DALLAS, Texas, Aug. 27.—Texas Saturday voted to repeal the eighteenth amendment and to legalize 3.2 beer by majorities that will range from 100,000 to 110,000, should the vote not exceed the estimated vote of 500,000.

More than four hundred thousand votes have been tabulated with repeal getting around 61 per cent and beer around 63. The probability is that these percentages will be pegged around 60 and 63 respectively.

MIDLAND COUNTY VOTES 'LEFT' SIDE OF TICKET

Midland county and Precinct 1, the city of Midland, voted "for" on each ballot of the Saturday election.

Precincts 1, 3 and 4 reported, but Precinct 2, which has about 30 votes, likely will not be heard from until Monday.

Slightly more than 700 of the 1145 who paid poll taxes, not to mention the approximately 200 qualified to vote through exemption clauses, went to the polls in Precinct 1, attesting to the comparative apathy exhibited by the electorate statewide.

The composite vote for the three precincts follows:

Table for Precinct 1: Home rule, Bond Issue, Legalized Beer (state), Homestead Exemption, Repeal, Legalized Beer (county), For Representative.

Table for Precinct 3: Home Rule, Bond Issue, Legalized Beer (State), Repeal, Legalized Beer (county), For Representative.

Table for Precinct 4: Home Rule, Legalized Beer (county), Bond Issue, Repeal, Legalized Beer (State), Homestead Exemption, For Representative.

DARING ROBBERY OF ARMORED CAR

DENVER, Aug. 26. (UP)—In the most daring robbery since the mint held up a decade ago, two bandits stopped a federal reserve armored bank truck today, fired tear gas guns and escaped with \$36,000.

PLANE OWNER Unlucky Again

MCCLOUD, Okla., Aug. 25. (UP)—Two bandits escaped under gunfire with from \$600 to \$700 from the Bank of Commerce today after locking employees in a vault. The employees freed themselves in time to fire several volleys at the robbers who were believed not to have been injured.

FLOYD TO PLAY Polo With Army

Jay H. Floyd left Saturday for Fort Bliss where he will spend two weeks in training as a reserve cavalry officer. He is a first lieutenant. Floyd took two polo horses and will be engaged at the game with Bliss officers while there.

FLAPPER FANNY SAYS

People who are required to reduce usually kick about it.

RESULTS OF HITLERISM

Some of the bitter fruits of the Hitler tree are already ripening.

Seventeen members of the board of the Hamburg-American Line have resigned, following a gloomy meeting in which were painted the evil results of the company's co-ordination with the Nazi regime.

Von Schinkel, a veteran of German shipping, knows intimately these effects. Without any formal boycott, oceanic shipping, especially passenger service, is particularly responsive to sentiment.

Prof. Albert Einstein, whose theories almost nobody understands but almost everybody agrees are grand and highly valuable, has been driven from his homeland.

Nobody knows what Germany is losing in the exodus of talented professional people who are being driven from the fatherland.

Of course the Nazi enthusiasts believe other gains will make up for these losses. Only time will tell that, but there is no need to blind themselves against the very real and material losses as well as the more intangible ones which are apparent.

EDITORIAL NOTES

A motorist out Evanston (Ill.) way the other day got a police escort and right of way to a conflagration because he was driving a red automobile.

Musicians and composers have frequently gone to the birds for inspiration, but a Van Nuys (Calif.) man sounds a new note in nature observance.

The men intrusted with carrying the mails from Tachienlu, China, to Litang and Batang never drop below an altitude of 9000 feet, rise occasionally to 15,500 feet, and never sight a beacon light or a landing field.

A sign of our industrial recovery, noted at Pittsburgh the other day, was more visible to the eye than most. It was in the form of a placard relating to a scheduled baseball contest between steel workers of Walker's Mills and the Pittsburgh Independents and read: "Game Postponed Because of Work."

Yes, whistling helps to keep up courage, particularly when it's done by factories calling men back to work.

Side Glances by Clark

"Aren't airplanes marvelous? We are only four hours away from mother now."

First Lady Learns How Miners Live

Visiting West Virginia's coal fields unheralded to learn first-hand about conditions under which miners live, Mrs. Franklin D. Roosevelt is shown with L. D. Work, an assistant mine superintendent, his wife and daughter, who were her hosts at Arnettsville.

The Small Mistake Has Led to Fall of Recent Gang Heads

CHICAGO—The success that has already met the federal government's war on kidnaping racketeering, and crime in general is further proof that almost any crime can be solved if enough pressure is put on solving it.

And the capture of Harvey Bailey, murderer, bank robber, kidnaper, and gunman, has been a further proof that a regular airplane failed to pass overhead on one single day of his captivity, proves once again that the smartest crook always leaves some trace behind him.

Plane Revealed Hideout
No crook could have foreseen the thing that trapped Bailey, Charles F. Uebel, his victim, hidden in a remote shack, idly noted that planes dived overhead each day at regular times.

The smartest crooks, the most carefully planned crimes, have almost always yielded to these human slippages whenever the man is persistent enough and thorough enough. No crime, perhaps, was ever more elaborately planned than the murder of Bobbie Franks by Nathan Leopold and Richard Loeb.

And then, while disposing of the body of young Franks beneath the culvert near Chicago, Leopold dropped his glasses. At first they were spotted, though there might have been heavy rains, immediately before the crime, Leopold and Loeb were undone.

The most elaborate alibi, that they had been riding in Leopold's car with friends at the time of the murder, had been contrived, supported by excellent evidence. But they had forgotten to bring the Leopold chauffeur. A simple police question got his testimony that Leopold's car had been in the garage all that day.

Weakness for Autos
Walter McGee, kidnaper of Mary McElroy, and Martin Durkin, five times a murderer, both landed behind bars because they had an irresistible desire for showy automobiles.

Box of Apples Kept The Sheriff Away
PALO ALTO, Cal. (UP)—This day an apple, or rather a box of pippins, kept the sheriff away.

WILL REBUILD EDIFICE
CENTER STRAFFORD, N. H. (UP)—A modern brick structure will replace the main building of century old Austin Cate Academy, where Henry Wilson, 18th vice president of the United States, obtained part of his early education.

door of the mail car had been blown off with dynamite. The mail clerk, engineer, fireman and brakeman lay dead or dying from murderous bullets.

An old pair of overalls lay near the wreckage of the mail car. Crumpled into the pencil pocket was an almost illegible slip, a receipt issued by the Eugene, Ore., postoffice for a letter from Roy de Autremont to his brother, Vern. That was the overlooked key to their guilt.

But not carefully enough. Every one of them was traced to a Portland hardware store where the proprietor remembered having sold them to three youths answering the description of the De Autremonts. They were known, now, and the tale of neglected knives and forks foreshadowed the four-year hunt which involved printing of 2,850,000 circulars in six languages and extended around the world.

The stupid, the clever, the violent, the slick, the experienced and the naive criminals are all alike. They leave their marks behind them.

Eskimo to Have Stomach Ailment
WASHINGTON, (UP)—Stomach aches, dyspepsia and other ailments attendant to modern meals and appetites are in store for Eskimo inhabitants of Greenland, according to an announcement from the National Geographic society, when a cook book now being translated into

the native Greenland dialect reaches its destination. "Igloo cookery presents few problems," the society says. "The Eskimo wife never has known the strivings of her white sister to excel as a 'fancy cook.' Her husband never has regaled her with tales of the pies his mother used to bake, for he never has tasted pastry or candy of any sort. Meat is his unvarying food. The meat of the polar bear, seal, walrus, caribou, white whale, narwhal and musk ox are all palatable to him."

The cook book, the announcement says, is being translated at Copenhagen. It not only will tell how to prepare all their favorite dishes, including those mentioned above, but also will contain recipes for many dishes never dreamed of by the Eskimos.

SI PAYS FOR \$3000 LIFE PROTECTION
Ages 1 to 70
Sent Free for Inspection
HOLLYWOOD, CALIF.—The American Association, 1770 Vine Street, Hollywood, Calif. Dept. BB23 is offering to men, women and children, between the ages of 1 and 70, a new Life Protection Membership Certificate without medical examination, for \$1, which pays \$1000 for death from any cause, \$2000 to \$3000 for accidental death. SEND NO MONEY. Just your name, age, name of beneficiary, and a life Certificate, fully made out in your name, will be sent to you for 10 Days Free Inspection. NO AGENTS WILL CALL. If you decide to keep it, send only \$1 to put your protection in force for about 45 days—then about 3c a day. If not, you owe nothing. OFFER LIMITED. So write today. (Adv.)

WASHINGTON, (UP)—Stomach aches, dyspepsia and other ailments attendant to modern meals and appetites are in store for Eskimo inhabitants of Greenland, according to an announcement from the National Geographic society, when a cook book now being translated into

the native Greenland dialect reaches its destination. "Igloo cookery presents few problems," the society says. "The Eskimo wife never has known the strivings of her white sister to excel as a 'fancy cook.' Her husband never has regaled her with tales of the pies his mother used to bake, for he never has tasted pastry or candy of any sort. Meat is his unvarying food. The meat of the polar bear, seal, walrus, caribou, white whale, narwhal and musk ox are all palatable to him."

The cook book, the announcement says, is being translated at Copenhagen. It not only will tell how to prepare all their favorite dishes, including those mentioned above, but also will contain recipes for many dishes never dreamed of by the Eskimos.

But not carefully enough. Every one of them was traced to a Portland hardware store where the proprietor remembered having sold them to three youths answering the description of the De Autremonts. They were known, now, and the tale of neglected knives and forks foreshadowed the four-year hunt which involved printing of 2,850,000 circulars in six languages and extended around the world.

The stupid, the clever, the violent, the slick, the experienced and the naive criminals are all alike. They leave their marks behind them.

Eskimo to Have Stomach Ailment
WASHINGTON, (UP)—Stomach aches, dyspepsia and other ailments attendant to modern meals and appetites are in store for Eskimo inhabitants of Greenland, according to an announcement from the National Geographic society, when a cook book now being translated into

the native Greenland dialect reaches its destination. "Igloo cookery presents few problems," the society says. "The Eskimo wife never has known the strivings of her white sister to excel as a 'fancy cook.' Her husband never has regaled her with tales of the pies his mother used to bake, for he never has tasted pastry or candy of any sort. Meat is his unvarying food. The meat of the polar bear, seal, walrus, caribou, white whale, narwhal and musk ox are all palatable to him."

The cook book, the announcement says, is being translated at Copenhagen. It not only will tell how to prepare all their favorite dishes, including those mentioned above, but also will contain recipes for many dishes never dreamed of by the Eskimos.

But not carefully enough. Every one of them was traced to a Portland hardware store where the proprietor remembered having sold them to three youths answering the description of the De Autremonts. They were known, now, and the tale of neglected knives and forks foreshadowed the four-year hunt which involved printing of 2,850,000 circulars in six languages and extended around the world.

SOCIETY

Mrs. E. H. Shaw Hostess at Bien Amigos Luncheon

One of the most attractive bridge-luncheons of the late summer season was given Thursday morning at the home of Mrs. E. H. Shaw. The affair was given for the Bien Amigos club.

Green and white were combined to form decorations of the bridge and luncheon accessories.

Miss Lorraine Skinner of Denton, who is visiting her cousin, Mrs. J. D. Chambers, and Mrs. Hugh Burdick were luncheon guests.

In games of bridge, Mrs. J. R. Ashley won high score and Mrs. W. W. Winger received high cut.

Playing were Meses. Joe Ballantyne, Ashley, Chambers, Winger, Preston Bridgewater, C. D. Hodges, Joe Pyron and E. B. Soper.

M. L. B. Class Meeting Wednesday

Miss Ernestine Holder entertained members of the M. L. B. club Wednesday afternoon with a bridge party.

High score was awarded Miss Jamie McMullan. Refreshments carrying out a color scheme of orange and white were served to Meses. Leola Kerby, Jane Dozier, Katie Bell Long, Anna Mae Cope, McMullan, Charline Parrott, Lucille Cochran and the hostess.

Mrs. Lamar Has Belmont Class

Mrs. O. H. Lamar was hostess Friday afternoon to members of the Belmont Bible class. Mrs. J. M. King conducted a lesson from the book of Numbers.

Refreshments were served to Meses. Herbert King, C. F. Carlson, F. J. Fink, C. E. Nolan, D. E. Holster, Ruth Rothell, A. W. Lester, Earl Kelly, J. W. Arnett, Troy Eiland, King and the hostess.

Families Return From Ruidoso, N. M.

Ruidoso has been the vacation scene of many Midlanders this summer.

Mr. and Mrs. W. I. Pratt and children, Bill and Ruth, and Jane Pratt Baxley of Tyler, who has been visiting the Pratt family, returned Thursday evening. While in New Mexico, they were guests of friends from Roswell. Mr. Pratt spent one week there, while the rest of the party remained for two weeks.

Mr. and Mrs. John M. Speed and children, John M. Jr., Thomas Lee and Dorothy Lee and Charles Sarridge of Abilene, also have just returned from Ruidoso. The two weeks vacation was spent hiking, riding and driving through the surrounding mountains.

The Pratt family left Midland on Saturday morning for a visit at Fort Worth and Denton. At Denton Tuesday morning, they will attend the graduation exercises at C. I. A., at which time Mary Belle Pratt will receive her B. A. degree. Miss Pratt majored in English. Miss Jane Pratt Baxley will return to her home at Tyler from Fort Worth.

Special Program for Baptist Society Tues.

A special program has been announced for the Women's Missionary society Tuesday afternoon at 3:30 in the First Baptist church.

Prayer is the subject of the program which will include: hymn "Revive Us Again"; prayer, Mrs. E. O. Walker; hymn "Sweet Hour of Prayer"; devotionals, Eph. 6:10-13; Mrs. C. B. Ligon; prayer, Mrs. W. W. Wimberly; special song, "I'm Satisfied with Jesus"; Miss Eleanor Connell; talk, "Hindrances to Prayer"; Mrs. Percy Mims; special scriptures; Meses. D. W. Brunson, Carpenter, Claude Crane, A. C. Francis, John Hix, George Phillips; hymn, "Leave It There"; and benediction, Mrs. J. V. Hobbs.

All members are asked to attend.

Two Latest Novels At County Library

Latest novels to be added to the Midland county library are:

THE GRAIN RACE by Alan Villiers, the story of a voyage from Australia to England, around Cape Horn in one of the last of the sailing ships. Eighteen ships took part in the "race" and the "Parma" on which Mr. Villiers sailed, won. Mr. Villiers' narrative of thrilling nights and days at sea, or tempests, at the Horn that almost sank the ship, of the youthful crew, all under 20, of the grizzled captain with his fund of yarns from the days when sails ruled the sea, has even more color and action than "By Way of Cape Horn," the books that gained for his thousands of readers.

THE SPEAKER OF THE HOUSE by George Rothwell Brown, a romantic story of John Nance Garner.

Deer Plentiful For New Season

SEGUIN, Texas, (UP)—Deer will be plentiful in Texas next year, if the second seasonal crop of fawns is a correct indication.

J. J. Dent, director of the state game preserves, said many newborn fawns were found this month on the Texas ranges, an unusual occurrence remembered only by veteran ranchers. The new fawn crop is the second of the season, the first having been delivered two months ago. Late arrivals are attributed to weather conditions last winter.

Nearly 450 deer will be moved this fall from Kerr, Mason, Gillespie, and Comal counties for restocking other parts of Texas, Dent said.

Success of NRA Rests on Women

WASHINGTON—The success of the entire N. E. A. program rests upon the nation's women, says General Johnson in no uncertain terms.

He told correspondents: "When every housewife understands that the Blue Eagle on everything that comes to her home is a symbol that home is safe, God help the man or the group of men who attempt to trifle with that bird." The blue eagle screams.

Announcements

Monday
Meeting of the Methodist auxiliary Monday afternoon at 4 o'clock at the church.

Tuesday
A special program will be presented at a meeting of the Women's Missionary society Tuesday afternoon at 3:30 at the First Baptist church.

Wednesday
The M. L. B. club will meet on Wednesday afternoon with Miss Leola Kerby.

Thursday
Mrs. C. E. Patterson will be hostess to the Thursday club.

Friday
Belmont Bible class will meet on Friday afternoon at 4 o'clock with Mrs. Ruth Rothell, 709 North D st.

Churches

FIRST METHODIST CHURCH
Kenneth C. Minter, Pastor
By Pratt, Supt.
Mrs. De Lo Douglas, Choir Director
9:45—Sunday school
11:00—Morning worship and preaching by the pastor.
7:15—Evening session of the church school.
8:15—Evening service.

ST. ANN'S CATHOLIC CHURCH
Rev. Edward P. Harrison
Mass Sunday morning at 10 o'clock for Americans, sermon in English and at 8 o'clock in Spanish. Daily Mass at 7 o'clock.

CHURCH OF CHRIST
J. A. McCall, Pastor
Sunday school at 9:45.
Preaching services at 11 o'clock. Communion at 11 o'clock. Young people's class at 6:45. Preaching and communion at 8:15.

LUTHERAN CHURCH
W. G. Buschacher, Pastor
Services every second Sunday and fourth Sunday afternoon at 3 o'clock at Trinity Chapel, corner Colorado and Wall.

ASSEMBLY OF GOD
505 South Weatherford
L. R. Misener, Pastor
Sunday school at 9:45.
Morning service at 11 o'clock. Evening service at 11 o'clock. Prayer meeting will be held on Tuesday and Friday evenings at 8:15.

PENTECOSTAL HOLINESS
O. W. Roberts, Pastor
Sunday school at 10 a. m. Preaching at 11 a. m. Evening worship at 8 p. m. Weekly prayer meeting on Thursday evening at 8 o'clock.

TRINITY EPISCOPAL CHURCH
W. H. Martin, Rector
Services at Trinity Episcopal church here have been discontinued for the month of August.
The Rev. W. H. Martin has been asked to fill the pulpit at Christ's church at San Antonio during the month. While there he will live at the home of the Rev. Samuel O. Capers.
In a letter to members of his church here, Reverend Martin asked that if a minister is needed, call the Rev. A. B. Hanson, rector of the Colorado church.
Services will be resumed in September.

FIRST PRESBYTERIAN CHURCH
W. J. Coleman, Pastor
Preaching services have been discontinued during the month of August as the pastor is vacationing in Tennessee and Alabama. Sunday school will be held at the usual hour each Sunday.

FIRST CHRISTIAN CHURCH
E. B. Chancellor, Pastor
H. G. Bedford, Supt.
Sunday school meets at 9:45. Worship at 11 o'clock. Evening service at 8 o'clock. A cordial welcome to stranger and friend.

FIRST BAPTIST CHURCH
Winston Borum, Pastor
9:45—Sunday school.
10:50—Morning worship and preaching by the pastor.
6:45—Training service.
8:00—Evening worship and preaching by the pastor.

Personals

S. R. Weaver went to Plainview Friday to bring his family to Midland. Weaver is manager of the Midland Hardware company.

A. B. Barrow of Abilene was in Midland Saturday on a business trip. Barrow is owner of the furniture store here.

Mr. and Mrs. E. M. Miller are spending the week end at Roswell, N. M.

Mrs. Verne Holdaway is in Fort Worth on a market trip. Mrs. Holdaway will open the High School Cafeteria soon after returning to Midland.

Miss Mollie B. Bagley left recently for Fort Worth, where she will visit relatives.

Mr. and Mrs. Earl Ticknor and daughters, Harriett, Audrey and Wanda left Friday for Pampa, to visit friends for several days. They will return to Midland after a visit at Ruidoso, N. M.

J. G. Gemmill was here Saturday from Iraan to see about moving his household effects.

Mr. and Mrs. E. B. Soper have as their guests Mr. and Mrs. Collins Reith of Iraan.

Mr. and Mrs. L. B. Lancaster of San Antonio will leave today for their home after a visit with their daughter, Mrs. George P. Abell. Mr. and Mrs. Lancaster and Mrs. Abell visited Mr. Abell Saturday on his Ward county lease.

Misses Marcelline Wyatt and Betty Minter returned recently from a two weeks visit with Miss Marcelle Scharbauer on her ranch near Jal N. M.

Hugh King of Stanton was a business visitor in Midland Saturday afternoon.

J. Donosky of Dallas is in Midland transacting business.

Jack M. Hummcutt of the John Clay stock yards at Fort Worth was a business visitor here Saturday.

S. W. Browning is here from Sweetwater transacting business.

Mr. and Mrs. Buck Kelton were in Midland Saturday from the McElroy ranch.

Mrs. J. E. Starling, Mrs. Jack Hawkins and Dick Sterling of Pecos were in business in Midland Saturday afternoon.

Mrs. Jack Boreland of Odessa visited friends in Midland Saturday morning.

Jury Upsets the Plans of Negro

MANSFIELD, O. (UP)—Miscarriage of the "best laid plans of mice and men" is not always the harsh misfortune contemplated by the Scotch bard in his famous poem.

Witness the case of James Allen, Cincinnati, negro, who planned to spend the rest of his days behind the walls of Ohio penitentiary, he now finds himself cleared entirely of a charge of first degree murder.

Allen was one of a group of four convicts at the Ohio reformatory, who were charged with murder in connection with the killing of a guard during a jail break. Under the impression that mercy would be extended if he would save the county the expense of trial, Allen entered a plea of guilty. To the surprise of all concerned, the court sentenced him to the electric chair.

Court of appeals, however, reversed the judgment, on the ground that the trial judge had accepted the guilty plea without fully advising the accused of the possible consequences of entering such a plea.

The case then was tried again on a plea of not guilty. The jury stood nine for acquittal and three for conviction.

Recently, another jury voted unanimously for acquittal.

False Alarms Keep Sheriff on Run

DALLAS, (UP)—Deputy Sheriff Bud Walker is beginning to discredit his senses and those of other peace officers in the several states where the Barrow gang of Texas outlaws has made its appearance in the past.

A few more false alarms and he will believe they're no more authentic than Santa Claus he indicated, after response to a man's excited telephoned tip that Clyde Barrow had been spotted proved to be erroneous. "Humph, if I had a dollar for every time I've answered a call that one of the Barrow boys was reported somewhere, I'd quit work," Walker declared.

ETHEL

Girl Golfer Is A Stick Wizard

DUBUQUE, Ia. (UP)—Little Edith Estabrook credits her golfing wizardry to a rabbit's foot she carries with her in important matches.

Her friends, however, who have watched her smash women's records on a dozen Iowa golf courses and defeat adult women champions, credit her success more to a good eye and a smashing stroke.

In the past summer Edith made two sensational records for a young girl. In the Iowa Women's State Tournament she defeated all comers, each of whom was twice her age, until she reached the quarter finals. Here she was defeated by Mrs. Heeb Mucha, Waterloo, Ia., city champion.

Dogs Better for Travel Than Cats

SAN FRANCISCO, (UP)—Dogs are much better sailors than cats, according to Cadet E. P. Stuart, official pet tender of the liner Lurline.

"Cats frequently are seasick, but dogs rarely," Stuart said. He attends the pets kept in a special menagerie on the top deck of the liner as it plies between Honolulu and San Francisco.

Stuart advised Honolulu-bound travelers that pets are quarantined on arrival in that port for 120 days at a charge of 25 cents per day.

There is only one ship in Ecuador's navy and five in Mexico's.

700-Year-Old Fair At Leipzig Opens

LEIPZIG, Aug. 26. (UP)—The 700 year old Leipzig fair will open here on schedule tomorrow with its long accustomed attendance of exhibitors and buyers from the four corners of the world.

A widespread upturn in business conditions is indicated by the 6,000 exhibits sent by 22 countries, including the United States, and the unusual activity which pervades the fair. Seventy countries are represented by business men who crowd the Leipzig streets during fair week.

Many of the industrial leaders who attended the London conference are visiting here to take part in the several congresses to discuss technical problems and international trade conditions.

The fair, this year offers an unusual opportunity for the exchange of ideas on industrial problems.

The great toy fair, comprising 900 exhibits, is, as usual, the largest in the world and maintains its old reputation for originality. The display of musical instruments of all kinds is especially significant. There are literally acres of floor space devoted to the thousands of exhibits of leather goods, office supplies, dress goods, china and glass ware, household furniture, the printing arts, and innumerable novelties.

This country has about 135 doctors for every 100,000 persons.

Observer Gauges Planetary Speed

CHICAGO, (UP)—Miss Christine Westgate of the Yerkes observatory has completed studies that reveal many stars rotate at a pace which makes the earth and the sun seem sedate by comparison.

Investigating the velocity of 413 stars, all of which have temperatures much hotter than the sun, Miss Westgate found that nearly 60 per cent of them revolve with equatorial velocities approximately 100 kilometers per second.

The velocity of the rotation of the earth is but one-half kilometer per second, and that of the sun is but two kilometers per second, she said.

Campaign Ends Mosquito Menace

PROVINCETOWN, Mass. (UP)—Mosquitoes, which had plagued residents of Cape Cod since the days of the Pilgrim Fathers, virtually have been exterminated.

In a relentless campaign, financed by \$200,000 raised through public subscription, and funds received of the state, marshlands and other breeding places were eliminated, and recently, on a bet, a group of visiting skeptics sat for four hours on an exposed veranda without once being bitten.

Twelve thousand explosions - a minute

Henry Ford, Dearborn, Mich.

For every 5 1/4 inches which the Ford V-8 travels, its engine produces one power impulse. If "impulse" is not clear to you, say "expansion", or "explosion".

One drop of gasoline, hardly as large as a grain of wheat (there are 178 of these drops in a teaspoonful) is vaporized as gas and burned in the combustion chamber. It is the resulting "heat expansion", or tiny explosion, that moves the piston, and so moves your car—5 1/4 inches.

A mile at 60 is only a minute long. And every mile your V-8 travels, 12,000 of these small, closely-spaced explosions occur. The power impulses of the V-8 are so closely timed that they blend in one smooth continuous flow of power.

Now, it is natural that the small, confined combustion chambers should become pretty hot, each with its 1,500 explosions a mile. For remember, at 60 miles an hour, this is 1,500 explosions a minute for each of the 8 chambers. With fewer cylinders there would be just as many explosions per cylinder, but the flame would be larger. Heat, therefore, is not surprising.

Where cylinder heads are of cast iron, as many are, this heat cannot escape as rapidly as is desirable. And so the engine has a tendency to "knock" or "ping". Thus, cast iron makes it necessary to hold a lower compression in the firing chamber, and this prevents getting the full power of the engine.

But the cylinder heads on the Ford V-8 are aluminum, which allows excess heat to escape three times as fast as cast iron does. Housewives who use aluminum cooking pans know that this material distributes heat evenly. Add to this that it dissipates excess heat quickly, and you get the reasons for its use in the Ford V-8.

Our aluminum cylinder head adds 10 horsepower to the V-8 engine, by permitting high compression—and it gets this increased horsepower without increasing the gas consumption. In fact, it uses less gas.

Any grade of gas—with our aluminum cylinder heads—will give you more power and economy. Premium fuels are not necessary.

This is just another point where doing it better costs us more, but you get the benefit. An aluminum cylinder head costs four times as much as a cast iron one. When we put two aluminum heads on the V-8 not one cent was added to the price of the car.

The customer gets the increased power, the greater economy and the better performance.

August 25, 1933

Henry Ford

SENSATIONAL FOREIGN RELATIONS AND BILLY B ON RACE CARD

RACE CARD STRETCHED INTO FOUR RACES; REQUIRING TIME TO BE SET UP; TRACK PUT IN EXCELLENT SHAPE

Time for this afternoon's horse races at Cowboy park has been moved up to 4 o'clock instead of 5, Dr. Wm. Bloss announced Saturday, on account of the fact that there will be four races on the program.

A new feature was added when Foreign Relations, the famed horse with which Dr. Bloss has been to most of the nation's tracks, was matched for an eighth mile against L. E. Cook's Billy B. Bloss will ride his horse, whose usual distance is from a mile to a mile and a quarter, while Curtis Cook is expected to be up on Billy B.

The race program was started from a matched half mile race between Paul Harvey's two year old, Dutch Veda, and Leonard Huff's bay mare, Boots. Bloss will ride the former while D. Fulcher will be up on the bay.

A three eighths mile race is matched between Bloss's George Keith, Bloss up, against L. E. Cook's Clara Bow, Fulcher up.

The fourth race will be a quarter mile event in which Bloss will ride the Mills filly from Colorado, Jenny Wren, against a polo horse owned by Scharbauers. The brown polo horse is reported to have outrun some of the best while in the string of Cecil Childers at Arlington Downs.

The Cowboy park track has been rehabilitated, although already it was in good condition for the work done for the July fourth races.

Gate keepers will be on the job shortly before 4 o'clock, so that the first race will be started promptly at that hour. Admission will be 25 cents.

Colorado Wolves Are Team Without A District Now

Colorado high school recently announced through the press that it had followed Midland's example in withdrawing from the Class A grid district and was returning to the B loop, where it presumably might have a better chance to win its share of games. The only fly in the ointment, however, proved that the schedule for the B district Colorado had assumed it would enter had been made out.

So Colorado, overnight, became the school without a district.

Immediately, high school authorities rejected their suits for a new course. Big Jim Cantrell, coach, and Principal Wilkins came to Midland to discuss with Midland school authorities the possibility of Colorado's entering this Class B district. A meeting was held and a decision made to let the matter hang fire until the schedule committee, headed by Chairman Bankston of Crane, meets Sept. 1.

Colorado officials manifested an agreement to play in Midland this fall in case its application for membership of this district is honored.

Laguna Gloria to Be Kept Closed

AUSTIN. (UP)—Laguna Gloria, beautiful summer home of Ambassador and Mrs. Henry Hulme Sevier, will be kept closed during their residence in Santiago, Chile, the newly appointed ambassador announced here as he begins preparations for his diplomatic mission.

Laguna Gloria is an Italian type country residence erected on the exact Colorado river site Stephen F. Austin selected for his home when he established the colony from which Texas has grown.

"Hal" Sevier, as he is more generally known, stopped in Austin after his appointment on route to Columbus Christ where he and Mrs. Sevier now reside.

The Seviers are a noted Southern family. Originally they were known as Kevler. That was when their ancestors were personages in the part of Navarre now in Spain. Forced by political changes to become refugees in England, they permitted their name to be anglicized into Sevier. From London members of the family emigrated to the Maryland colony. Since they have become prominent in affairs of the south, they furnished a governor to Tennessee, a member of the congress of the Republic of Texas, and a noted Colonel of the Confederacy.

The last two were grandfather and father of the Ambassador Sevier. His father, broken in health, moved to Sabine, Texas, from Columbia, Tenn., when the boy Hal was 10 years old. There he took the range, became a newspaper correspondent and took an interest in politics. Twice he was a member of the Texas house of representatives.

Going to New York he became a member of the financial news staff of the New York Sun in the days of the late "Boss" Lord. Later he published the Austin American.

Mrs. Sevier is known throughout the state as "Savior of the Alamo," also had a grandfather active in the founding of the Republic of Texas. Grandfathers of both Ambassador and Mrs. Sevier fought at San Jacinto.

Mrs. Sevier was Clara Driscoll before her marriage. Returning to Texas after many years spent in European schools and abroad, she found the Alamo at San Antonio about to be sold to provide a site for a modern hotel.

She set about to save it. Securing an option she time and again personally put up the funds to keep the grounds of the mission intact. Finally it was established as a state shrine of patriotism. Her part in saving the Alamo was recognized by the hanging of her portrait in the Texas senate.

Long active in club work, in recent years she has also been active in politics. Since 1928 she has been democratic national committeewoman from Texas. Her share in the broad Driscoll acres, along the Gulf coast of Texas, enriched by oil and gas discoveries, makes them amply able to undergo the financial strain of American diplomatic service. Mrs. Sevier has acquired much

Handicap Tourney For Country Club

An early meeting for country club golfers for planning a handicap trophy tournament is expected to be announced sometime this week.

Frank Day, who recently moved to Amarillo, won the Billis Cowman trophy last year. The trophy will be offered again this season, three successive years of winning being required for permanent possession. A medal is given the winning golfer and his name inscribed on the cup.

Golfers are asked to leave cards at the club house so handicaps may be set.

RITZ SCREENS NRA Films depicting the NRA have been screened at the Ritz theatre this week, with no charge being made by J. Howard Hodie, manager. The screening is a part of the national NRA campaign now under way.

CYCLE RIDER'S DEATH PLUNGE CAUGHT BY CAMERA

A skidding motorcycle, a screeching of tires, a crash—and a camera clicks to record a remarkable picture of the death of another knight of the roaring road. James Watkins, the victim, is shown in the fatal plunge at Detroit speedway.

Surprise Bride

Despite the reported opposition of his mother, Anthony J. Drexel, 3rd, of the wealthy Philadelphia family, eloped with married Miss Helen A. Howard (above), of Atlanta, at Waltham, S. C. Drexel's mother is reported to have declared his marriage to be "very disappointing."

fame as an author. "The Girl of Alamo" were written by her—both tales with a Texas setting. "Mexicana," a light opera by Mrs. Sevier, was produced with much success.

ELECTION COSTS NEED CUT ASTORIA, Ore. (UP)—In line with other things, county commissioners believe election costs also should be reduced. At the recent special election, eight votes were cast in the McGregor precinct at an estimated cost of \$4 each.

The United States has an annual output of approximately 758,000 barrels of oil.

WESLEY FERRELL

TO BE PUT IN THE OUTFIELD WHERE HE MIGHT HAVE A CHANCE TO EMULATE BABE RUTH. IT WAS HIS SHIFT TO THE OUTFIELD THAT GAINED BABE HIS UNDYING FAME—IF HE HAD CONTINUED PITCHING HE MIGHT HAVE BEEN FORGOTTEN... AN AILING ARM HAS KEPT FERRELL FROM THE PACE THAT MADE HIM ONE OF THE FINEST PITCHERS OF THE GAME.

INDIANS PLAY WINKLER CLUB THERE TODAY

The Midland Indians, much defeated local baseball club, will journey to Crane today to tackle the league leaders on their home diamond.

Hopes for the Indians to continue their winning, which started with their last engagement, were bright at Brummet, fast ball pitcher of the Crane club will be "Red" Vanlandingham, former second baseman of the Midland semi-pro club.

Manager Pyron of the Indians plans on starting Fred Girdley, who defeated the Wink Oilers at Odessa two Sundays ago.

The Indians have been improved offensively by the return of "Red" Hill from Odessa and Pecos, who will be stationed in the outfield. Johnny Butler will be placed on the infield and will undoubtedly add strength to the club.

Midland closes next Sunday with the third-place team club here.

Barry Returns for Football Training

Coach L. K. Barry returned last night from Austin where he has been attending the University of Texas, to begin football training on Monday. He entered the D. X. Bible coaching school in San Antonio.

Some 40 boys who "signed up" for football at the end of school last spring are expected to report to the first practice Monday morning at 9 o'clock at the high school.

Midland will play in the north section of the district, scheduling games with Stanton, Odessa, Wink, and Pecos, and hopes to schedule several games with former Class A adversaries.

Byrd Selects His Next Plane

ST. LOUIS. (UP)—Rear Admiral Richard Byrd will use a Condor type plane on his proposed flight to the Antarctic next fall, it was announced here by the Curtiss-Wright airplane company.

The company is preparing to begin construction of the plane immediately. Special details of the ship were not available, but the standard Condor plane has a wing spread of 82 feet, is capable of carrying a load of 3,200 pounds with a top speed of about 170 miles an hour. Power is furnished by two Wright Cyclone motors, each developing 700 horsepower.

Other features of the Condor are sound proof cabin and retractable landing gear.

FORCES OF LAW AND ORDER BIVOAC IN SOUTHWEST FOR RUTHLESS BATTLE

By JOSEPH L. MYLER, United Press Staff Correspondent, DALLAS. (UP)—Crime fighting forces of the nation have concentrated their activities in the southwest, with agents of the department of justice filling roles once occupied by mounted soldiers who waged war on Indians and frontier outlaw bands.

The capture of Harvey J. Bailey, recognized leader of a gang whose farflung criminal activities have usually been associated with spectacular and sudden death, on a farm in Paradise, Wise county, Texas, resulted in the greatest mobilization of federal, state and local peace officers in the war on death-dealing outlaws the commonwealth has witnessed in years.

How many more places of rendezvous, similar to the R. G. Shannon farm where Bailey was arrested, the state holds is a matter of conjecture. It is known, however, that in recent years the thickly wooded regions along the Brazos and Sabine rivers in East Texas have harbored outlaw bands. They included those of Charles (Pretty Boy) Floyd and Clyde Barrow.

Twice in recent weeks posses of officers have swarmed through the pine forests of East Texas on receipt of tips that members of the Floyd or Barrow gangs were concentrating in a sylvan hideout. Each time the quarry fled. And shortly after each search the outlaw alarm has been spread in other parts of the state.

Clyde Barrow, a woman companion and another man have been reported several times since Bailey's arrest. Barrow was said to be headed southward, presumably toward the Mexican border. Then it was reported he had suddenly changed his course and was returning northward toward Dallas. Coincidental with one of the reports was a rumor George Kelly, related by marriage to R. G. Shannon, captured with Bailey, and a group of confederates, were seen moving toward Dallas.

Immediately department of justice and local officers took steps to prevent an anticipated attempt to deliver Bailey, accused of having been the "trigger man" in the Kansas City union station massacre.

Officers responsible for the safekeeping of Bailey were determined to avert a similarly tragic incident here. A thorough check of the underworld hangouts in Dallas and in West Dallas, once the crime headquarters of Clyde Barrow and his brother, Buck, now dead, noted nothing to indicate Kelly's presence or that of Clyde Barrow.

But the reports persisted. From Gonzales came word that Barrow had eaten lunch in a Gonzales cafe with Bonnie Parker, the woman who has shared his fugitive's life since before the Joplin, Mo., incident early in the spring in which the Barrows killed two officers, federal agents, and Texas rangers searched every highway 50 miles south and east of Luling for the pair to no avail.

The appearance of Bonnie Parker in the Gonzales-Luling territory recalled to old timers that the area used to be much frequented by another outlaw as deadly in his way as Barrow. The Parker woman is said to be the wife of Roy Harden, now in jail at Dallas, who is reputed to be the grandson of the noted "Wes" Harden, credited with having been the state's most famous gunman in the days when outlaws used six-shooters instead of machine guns.

"Wes" in the early '70s used to visit Luling regularly, always wearing the "shooting irons" with which he is said to have killed more than a score of men.

Another reputed hideout for criminal bands who operated throughout the southwest is the region about Handley, a peaceful appearing community between Fort Worth and Dallas. There officers found the well-improved farm of O. D. Stevens, alleged narcotics dealer who is accused of participation in the \$72,000 Fort Worth mail robbery of last February and is charged with murder in connection with the slaying of three other men who alleged.

ly took part in the robbery. Current police circles is the belief that Pretty Boy Floyd has in recent years

HAS COLLECTION OF PIPES

BOSTON. (UP)—One of the nation's oddest collections of smoking pipes is that of James A. Frazer, Boston realtor. It consists of more than 1,200 pipes, no two alike, varying in length from two inches to five feet. All types are represented—calabash, clay, meerschaum, briar and birch. One pipe was purchased at the World's Fair of 1893.

HUNTING SEASON OPENS FRIDAY SEPTEMBER 1

Bailey's fame as a leader of criminals reached a peak in the Memorial day break at the Kansas state penitentiary, in which he and ten other convicts escaped. Bailey was credited with having planned the break, although Winbur Underhill, "tri-state killer," received most of the blame for the series of crimes which followed the escape as the fugitives fled southward through Kansas, Arkansas and Oklahoma. Underhill is still at large.

Belief that Bailey's associates were concentrating in Texas has led to a general tightening of police lines and an increased alertness to prevent kidnappings. Winthrop Rockefeller, young heir to millions who came to Texas to study the oil business "from the ground up," suddenly was ordered to return to the coast in an airplane under a pseudonym and accompanied by a strong bodyguard.

In Oklahoma, Urschel and members of his family and associates, fearing gangland reprisals for the oil man's part in retreating out the ear of his kidnapers, go heavily armed about their business. Men of wealth everywhere are guarding themselves and their families against possible abduction attempts.

Guarding closely what they have learned prior and subsequent to the Bailey arrest, government officials are preparing a closely woven case against the nation-wide kidnaping ring of which they believe the prisoner is a leading member. When he is tried in Oklahoma City for the Urschel abduction, or in Kansas City for the union station murders, facts are expected to be brought out that will link several major crimes of recent years and show them to have been the work of one gang or of closely associated gangs.

ROBBER RIFLES FILES

MADERA, Calif. (UP)—Contempt of court and burglary charges today faced a robber who rifled the files of Justice of the Peace L. E. Bailey, in the courthouse and took \$11 in city and county funds.

Kelly, still at large, and Bates are believed by federal agents to have been associated with Bailey in the abduction of Charles F. Urschel, Oklahoma City oil millionaire, who

past made winter quarters near Handley.

The capture of Bailey resulted in intensification of the government's war on kidnapers, leading the cleverest sleuths of the department of justice to Texas, from where their activities spread throughout the southwest and west. A plot to kidnap Guy Waggoner, wealthy sportsman of Fort Worth, resulted in a network of plans covering the trails of George (Machine Gun) Kelly, Albert L. Bates and Verne Miller, associates of Bailey, who conspired to make the "smash of all smashes."

The network of plans covering the trails of George (Machine Gun) Kelly, Albert L. Bates and Verne Miller, associates of Bailey, who conspired to make the "smash of all smashes."

They intended to seize him at his summer home in Colorado Springs, but the arrest of Bates in Denver frustrated their plans and also smashed the trap federal agents had set to capture or kill the three outlaws.

ADDITIONAL REQUIREMENTS WHICH GOVERN SALE OF BEER ANNOUNCED BY COUNTY JUDGE E. H. BARRON

Restrictions governing the sale of beer as published Friday in The Reporter-Telegram, have been supplemented by County Judge Elliott H. Barron, who cited several other regulations from House Bill 122, which act regulates not only sale, but manufacture, distribution, disposition, storage and transportation of vinous or malt beverages, prescribing definitions and providing the means, manner and method thereof, also providing for the assessment, collection, payment, evidencing, apportionment and appropriation of taxes and fees, and the time, amount, method, manner, etc.

Following are the more pertinent regulations for sale of beer, excluding date, which automatically becomes effective on midnight, Sept. 15:

Any person desiring a license as manufacturer, distributor or retail dealer may in vacation or in term time file a petition with the county judge of the county in which the applicant desires to engage in such business, which petition shall state as follows:

If a manufacturer:

That he is a law-abiding, tax-paying citizen of this state, over 21 years of age; that he has not been convicted of a felony within two years immediately preceding the filing of said petition, and has been a resident of the county wherein such license is sought for more than two years next preceding the filing of said petition.

No person shall knowingly or willfully sell beer to any person under the age of 21 years.

Every person shall display any license required by the provisions of this act in some conspicuous place in house where such business is conducted.

No female or any male person under 18 years of age shall be employed to work in or perform any labor in any establishment where beer is sold by retail to be consumed on the premises where sold and where the sale of beer is the principal business conducted at such place of business.

Each sale to any person under 21 years of age under the provisions of this act shall constitute a separate offense.

It shall be unlawful for any person in all counties or subdivisions thereof wherein the sale of beer as defined by this act is authorized to be sold, to sell beer on the day of any general primary election or general election held in this state, between the hours of seven o'clock a. m. and eight o'clock p. m. on the day.

It shall be unlawful for any person engaged in or having any interest in any business which manufactures, sells or distributes beer, as defined in this act, to contribute any money or other thing of value toward the campaign expenses of any candidate for any office in this state.

No person who engages in the sale of beer, as a principal business and which is to be consumed on the premises under the provisions of this act, shall offer for sale or sell such beer between the hours of twelve o'clock midnight and seven o'clock a. m. on each day as herein provided and from and after twelve o'clock midnight Saturday until seven o'clock a. m. Monday of the following week.

The commissioners court of any county in the territory thereof outside of incorporated cities and towns and the governing authorities of any city or town within the corporate limits of any such city or town may prohibit the sale of beer by any dealer whose principal business is the sale of beer where the place of business of any such dealer is within three hundred feet of any church, school, or other institution, the measurements to be along the property lines of the street fronts and from front door to front door and in a direct line across intersections where they occur.

No license or permit shall ever be granted, nor shall beer be sold in or upon any property, state parks excepted, owned by or under lease by the state or within three hundred feet of the grounds of the state capitol. This shall not apply to property of the state which is under lease and is being used and oc-

Smith Leads West To Cop Series

By GEORGE KIRKSEY
United Press Staff Correspondent
CHICAGO.—The world's greatest polo player is no longer Tommy Hitchcock, Jr.—but Cecil Smith, husky, broad-shouldered Texan who learned to ride on the range.

Because of Smith's reckless riding, long hitting and superior all-around playing, the west wrested national polo supremacy from the east in the interseasonal series which closed at Onwentsia, C. C., Lake Forest, Ill., Sunday.

The west won the first game, 13-11, the east the second game, 12-8, and the west the deciding game, 12-6.

Smith was the hero of the west's two victories, and by no means a dub in their defeat. In the first game he scored six goals, one more than Hitchcock. In the second he scored two goals, one less than Hitchcock. In the third game he scored six goals, six more than Hitchcock, who committed seven fouls. All together he made 14 goals, four more than any other player.

Hitchcock is ranked as the world's only 10 goal player, one more than Smith. The next ratings are likely to see Smith jump to 10 goals, with Hitchcock dropped a peg or two.

Smith is 29, and was born at Llano, a little West Texas town of 2000 population. He has never done anything but ride, ranch and play polo. He was on the international squad in 1930, but was not selected to play.

Smith's success is the east-west series has made polo a game for cowboys as well as social regulars.

COUNTY SCHOOLS, IN EXCELLENT CONDITION, TO START ON SEPT. 4 FOR FULL TERMS OF NINE MONTHS

By ALMA LEE HANKINS
County schools, eight of them, will begin their 1933-34 terms Monday, Sept. 4, it was decided in meetings held by County Judge Elliott H. Barron, who is ex-officio county school superintendent, with all rural school trustees the past two weeks.

Reports were made, salaries and tax rates set for the year and reports read to show that all schools are in good condition and that, unless unforeseen conditions arise, six of the eight schools will be conducted for nine-month terms.

A meeting will be held at the court house Saturday, Sept. 2, with all teachers, at which time the program will be outlined for the year and books and supplies issued.

A. C. Fleming will be principal, and Mrs. Fleming assistant in the rural high school, Number 1, at Valley View. They have been attending state teachers college at Commerce this summer, and taught at Valley View during the 1931-32 term. Valley View offers 9 grades, and has a census enrollment of 67 for the 1933-34 term. The Valley View school is a two-room brick with good equipment and a large shady playground. It has a two-room dwelling for teachers and another room may be built this month.

The census enrollment for the rural high school Number 2, McClintic, has an average enrollment of between 16 and 20 students. A. B. Steen of Graham, Texas, who formerly taught at Line, a neigh-

boring community, will have charge of the seven-grade system. The school is a one-room frame house with good equipment.

At the Stokes school, county school district Number 2, Mr. and Mrs. M. W. Alcorn will be principal and assistant, respectively. Last year they taught in Martin county rural schools and are well known. The Stokes school building is a two-room frame, and is in good condition. The school has an enrollment of 42.

Miss Tommie Smith of Midland will be principal for the second term at Pleasant Valley, county school district Number 5. She has been in Texas university this summer doing work on her A. B. degree. Pleasant Valley, which has a one-room frame building, has a census enrollment of 32, and teaches through the seventh grade.

Warfield, county school district Number 6, has the newest two-room brick building in Midland county.

Mrs. Ruby Jameson is principal, taking the position for the third year. It has a census enrollment of 29.

Miss Marguerite C. Center will be principal of Cotton Flats, county school district Number 11. Miss Carpenter has taught there for two years. The school, which is a brick building with modern conveniences, has a census enrollment of 35.

Oswald Raggett, principal of Prairie Lee, county school district Number 8, is arranging his high school course to fit in with courses of city schools so that pupils will have no trouble entering other schools. Miss Jewell Midkiff and Mrs. J. C. Rodman are assistants. Courses are offered through the tenth grade. The school building is of frame construction, having three rooms and good playground equipment. Enrollment is 120.

Miss Mildred Coffee of Loperine, Texas, will have charge of Stephenson, county school district Number 15, taking her first position in Midland county. She is well known as an athletic organizer. She will teach through the seventh grade. The school, a one-room frame building, has a census enrollment of 17.

Dump Exhibit Is Record of Progress

CHICAGO, Ill. (UP)—An odd record of modern man's existence is displayed in the Hall of Science at a Century of Progress in an old city dump exhibit.

From a pile of refuse of four decades, the social, industrial and economic growth of a great middlewestern American city is traced.

Discarded coal and wood stoves, clothes wringers, horse shoes, old carpet sweepers, stove-heated flatirons, phonographs and scraps of worn-out radios tell a story of the revolutionary economic changes.

"These records under Grant Park will outlast our books," said Dr. Fay Cooper Cole, professor of anthropology at the University of Chicago.

Just as the refuse buried beneath the 1933 World's Fair site traces the existence of modern man here since the World's Columbian Exposition 40 years ago, scientists have reconstructed the dump of the cave man.

In another dump is exhibited objects discarded by cave dwellers of southern Europe, who lived more than 100,000 years ago. The records of ages discovered and read by archaeologists are contained in the stratified garbage life of prehistoric man.

BEN-ROOSTER LAYS CROWS
BLOOMINGTON, Ind. (UP)—A chicken, which lays eggs and then crows, turned up here at a poultry house. It has a head like a rooster and the body of a hen. It weighs six and one-half pounds.

Farm Relief Board Will Launch Appeal

BIG SPRING.—C. T. Watson, chamber of commerce manager who returned Wednesday from Lamesa where he held a conference with A. B. Davis of Lubbock and Senator A. P. Duggan of Littlefield to wage a campaign for destitute farmers, will leave here this afternoon on a tour with Davis and Duggan to visit important federal authorities.

The three were appointed at a mass meeting recently in Stanton to plan and wage campaign for the farmers affected by the drought in this section.

They will meet late this evening in Sweetwater for an important conference and attend a meeting of the South Plains Good Roads association Friday in Sweetwater.

From there they will go to Fort Worth to interview Clifford B. Jones, regional director of public works, and C. E. Swain, regional director of the federal bureau of public roads.

Next they will move on Dallas, where they will carry on appeal to Owen W. Sherrill, crop production loan supervisor, to extend time of loans to farmers of this affected area.

Monday the three will end their quest in Wichita Falls when they will confer with Senator Tom Connally and Congressman Marvin Jones.

Aid of the West Texas chamber of commerce has already been enlisted.

The Bodleian library at Oxford in England, founded in 144, is the oldest public library in Europe.

Shark Fishing Commercial Sport

NOGALES Ariz. (UP)—Extensive commercial shark fishing is underway in the Gulf of California with thousands of corpses stretched along the shores.

The average daily catch is between 100 and 150 sharks, ranging in size from 12 to 20 feet. About 100 Indian fishermen in canoes fish for the sharks.

The shark meat is ground up for fertilizer and as cattle and poultry food, the skin is used for leather goods, the fins are shipped to China where they are considered a delicacy, the teeth for advertising novelties and the oil as a cod liver oil substitute.

Either, according to the wave theory, is the medium through which light waves are transmitted through space.

TICKET PRICES LOWERED
MILWAUKEE (UP)—Reduction in football ticket prices at Marquette university for the 1933 season will make it possible for a spectator to see all four home games for less than \$4, less than the fee now charged for single games in major conferences.

BOY HANGED ACCIDENTALLY
CRAIGMONT, Idaho. (UP)—Four year old Charles Hudson was hanged here not long ago. He was caught in a ship noose or a hay fork rope and jerked violently from the ground.

IN THE CHORUS—
When a Hollywood studio selected 16 girls as a permanent chorus for its musical comedy films the other day, the first one chosen was Vee Allen, shown here. And after one glimpse of Vee's shapely beauty, who will say the choice wasn't a wise one?

This "Suppressed" Picture Shows Why Cuba Revolted

One of the grim reasons Cuba rose in revolt is shown in this newly received photo, taken before the downfall of the Machado regime, but suppressed by censorship. Mariano Yutierrez, his tortured body dumped from a fruit truck, was one of the last victims of the dread Porra, Machado's strong-arm squad whose ruthless tactics kindled the spark that flamed into revolution. Ironically, the legend on the back of the truck means, "Products of the Country."

The little star known as "40 Eric" During the period from America—When the United States annexed Hawaii, only those Japanese and Chinese residents of the island star-substance would weigh several there were 6205 labor strikes and who were native-born became American citizens.

If your elephant wants to ride on top IT'S ALL RIGHT WITH A CHEVROLET

What a relief that sturdy body and those oversize brakes are. I won't have to worry a minute while you're on the way.

What gives you the biggest kick—its Starterator, Cushion-Balancing, Octane Selector, or its comfort and style? Economy is first with me. Here's everything I want at a lower cost per mile.

John, why bother with fixing that old car any more? I've just figured how easy it is to meet the payments on a smart new Chevrolet.

WE didn't actually plan on elephants when we built the new Chevrolet. But we did choose bodies strong enough to support six tons of elephant, or anything else you can name... Fisher bodies... steel bodies plus a hardwood frame... the same type used on all 12 and 16-cylinder cars. Steel alone, is not enough to make you as safe as we want you to be in a Chevrolet. A steel body, welded into a solid wall of protection plus resilient hardwood reinforcing the steel from following its natural tendency to buckle under pressure, makes the sturdiest body of all—the kind used on the Chevrolet, and on no other low-priced car. Get all you pay for when you buy a car. Demand the super-safety of Fisher steel-plus-wood bodies.

What the Blue Eagle means to you and how you can get it

The President's Reemployment Program is advancing to complete success. No such sweeping demonstration of the unity of a whole people against a national danger has ever been made. • In this vast surge of patriotism it is necessary to keep our common purpose always clear. When 125,000,000 people attempt to act as one man there are sure to be some misunderstandings. It is time to restate as clearly as possible the aim of the whole endeavor and the duty of each individual. • That is the purpose of this message—to state officially, briefly and clearly the simple rules for common guidance. • It is an evidence of the self-sacrificing service of the whole country that this newspaper has donated this space. In that spirit the whole country is acting. • This plan depends wholly on united action. That unity is almost complete. In the next few days let us close up every gap in the ranks and nail the flag of the Blue Eagle on the door of every man who works another man.

OFFICIAL EXPLANATION OF THE PRESIDENT'S REEMPLOYMENT AGREEMENT

(Sometimes miscalled "The Blanket Code")

This Agreement binds you to put its terms into effect from the time you sign the Certificate of Compliance until December 31, 1933, but when the President has approved a Code for your trade or industry, that Code takes the place of this Agreement.

Child Labor

(1) After August 31, 1933, not to employ any person under 16 years of age, except that persons between 14 and 16 may be employed (but not in manufacturing or mechanical industries) for not to exceed 3 hours per day and those hours between 7 A. M. and 7 P. M. in such work as will not interfere with hours of day school.

This means that after August 31, 1933, you agree not to employ any children under 14 years old in any kind of business. You may employ children between 14 and 16 years old, but only for three hours a day and those hours must be between 7 in the morning and 7 at night, and arranged so as not to interfere with school. You agree not to employ any children under 16 years old in a manufacturing or mechanical industry, at any time.

Maximum Hours

(2) Not to work any accounting, clerical, banking, office, service, or sales employees (except outside salesmen) in any store, office, department, establishment, or public utility, or on any automotive or horse-drawn passenger, express, delivery, or freight service, or in any other place or manner, for more than 40 hours in any 1 week and not to reduce the hours of any store or service operation to below 52 hours in any 1 week, unless such hours were less than 52 hours per week before July 1, 1933, and in the latter case not to reduce such hours at all.

This means that you agree not to work any of the kinds of employees listed in this paragraph (except outside salesmen) for more than 40 hours a week. This paragraph covers all employees except factory workers, mechanical workers and artisans. However, no limit on hours and no minimum wage applies to purely agricultural labor, domestic servants, or persons working for you solely on a commission basis; but, if you have persons working for you who are guaranteed a base pay in addition to their commission, then their base pay plus commissions must equal the minimum wage.

This Agreement sets no maximum on the number of hours you may keep your business open. You agree not to keep your wholesale, retail, or service establishment open less than 52 hours a week unless it was open less than 52 hours a week before July 1, 1933. Even then you agree to keep it open as long as you used to keep it open before July 1. Of course, if you have always kept your store open shorter hours in the summer months you can continue to do so this summer, but you should pay your employees the same amount each week that they will get when you keep your store open full time.

The stores with more than two employees which remain open the longest are contributing the most to carrying out the purpose of the Agreement. The stores with two or less employees which can be open only the minimum number of hours required, are doing the most to fulfill their part.

(3) Not to employ any factory or mechanical worker or artisan more than a maximum week of 38 hours until December 31, 1933, but with the right to work a maximum week of 40 hours for any 6 weeks within this period, and not to employ any worker more than 40 hours in any one day. This means that if you are employing factory or mechanical workers or artisans you agree not to work them more than 38 hours a week and not more than 8 hours in any one day.

When you have more than the usual amount of work to do and can't get additional workers, you may employ this class of employee up to 40 hours a week in any 6 weeks, but even in this case you must not work them more than 8 hours a day.

(4) The maximum hours fixed in the foregoing paragraphs (2) and (3) shall not apply to employees in establishments employing not more than two persons in towns of less than 2,500 population which towns are not part of a larger trade area; nor to registered pharmacists or other professional persons employed in their profession nor to employees in a managerial or executive capacity, who now receive more than \$35 per week; nor to employees on emergency maintenance and repair work; nor to very special cases where restrictions of hours of highly skilled workers on continuous processes would unavoidably reduce production but, in any such special case, at least time and one-third shall be paid for hours worked in excess of the maximum. Population for the purposes of this agreement shall be determined by reference to the 1930 Federal census.

This means that there are certain employees whom you may work longer hours than are allowed by paragraphs (2) and (3) P. R. A.

If your business is in a small town (population less than 2,500 by the 1930 census) and you do not employ more than two persons, the limit on hours does not apply to these employees. If your town is really a part of a larger business community, the limit on hours does apply to these employees.

The limit on hours does not apply to your employees who are wholly or primarily managers or executives, as long as they receive \$35 a week. Professional persons, like doctors, lawyers, registered pharmacists and nurses, may be employed without any limit on hours.

Where employers are doing emergency jobs of maintenance or repair work, they may be kept on the job for

longer hours, but you agree to pay them at least time and one-third for hours worked over the limits set in paragraphs (2) and (3) P. R. A.

There are a few very special cases where highly skilled workers must be allowed to work more than the limit of hours in order to keep up output on continuous processes, but, here again, you agree to pay them at least time and one-third for the hours they work over the limits set in paragraphs (2) and (3) P. R. A.

Minimum Wages

(5) Not to pay any of the classes of employees mentioned in paragraph (2) less than \$15 per week in any city of over 500,000 population, or in the immediate trade area of such city; nor less than \$14.50 per week in any city of between 250,000 and 500,000 population, or in the immediate trade area of such city; nor less than \$14 per week in any city of between 2,500 and 250,000 population, or in the immediate trade area of such city and in towns of less than 2,500 population to increase all wages by not less than 20 per cent, provided that this shall not require wages in excess of \$12 per week.

This sets out the schedule of minimum wages which you agree to pay all employees, except factory or mechanical workers or artisans. The wages are set out in terms of dollars per week, but if your employees are paid by the hour, you may use the following schedule:

Place of Business:	Minimum Wage:
(Population by 1930 Census)	
In cities of 500,000 or over.....	37 1/2 cents per hour
In cities of between 250,000 and 500,000	36 1/4 cents per hour
In cities of between 2,500 and 250,000	35 cents per hour

If your business is in a town of less than 2,500 population, you agree to raise all wages at least 20%. If raising all wages 20% causes you to pay over \$12 per week, then you need only pay the \$12 per week.

If there is any doubt in your mind as to whether your business is in the "immediate trade area" of a city, you should ask your local Chamber of Commerce or other similar organization for a decision on the matter. The general rule is that the "immediate trade area" is the area in which there is direct retail competition.

(6) Not to employ any employee of the classes mentioned in paragraph (3) less than 40 cents per hour unless the hourly rate for the same class of work on July 15, 1929, was less than 40 cents per hour, in which latter case not to pay less than the hourly rate on July 15, 1929, and in no event less than 30 cents per hour. It is agreed that this paragraph establishes a guaranteed minimum rate of pay regardless of whether the employee is compensated on the basis of a time rate or on a piece-work performance.

This fixes the minimum wage which you agree to pay factory and mechanical workers and artisans. The following schedule may help you to find out the proper rate.

If the rate for the same kind of work in the same community on July 15, 1929, was:	The minimum rate which you agree to pay is:
More than 40c an hour.....	40c an hour
36c to 40c an hour.....	The July 15, 1929 hourly rate
Less than 30c an hour.....	30c an hour

Instead of paying by the hour, you may pay by the week at a rate which gives the same weekly earnings for a week of 36 hours. For example, instead of 40c an hour, you may pay \$14.40 per week.

If you had a contract on or before August 1, 1933, with a learner or apprentice, you do not have to pay him the minimum wage, but no one should be classed as a learner or an apprentice who has ever been employed as a regular worker in your industry.

(7) Not to reduce the compensation for employment now in excess of the minimum wages hereby agreed to (notwithstanding that the hours worked in such employment may be hereby reduced) and to increase the pay for such employment by an equitable readjustment of all pay schedules.

Two official interpretations—No. 1 and No. 20—have been issued, explaining this paragraph. You can get copies of these at your local Chamber of Commerce or from the nearest N. R. A. representative.

Anti-Subterfuge

(8) Not to use any subterfuge to frustrate the spirit and intent of this Agreement which is, among other things, to increase employment by a universal covenant, to remove obstructions to commerce, and to shorten hours and to raise wages for the shorter week to a living basis.

This is the heart of the whole Agreement. The President's Plan is to cure this depression by increasing purchasing power. You can help him put this plan over by voluntarily signing this Agreement to shorten hours and raise wages. There is no force to compel you to sign this Agreement. It is not law. It is a personal agreement between you and the President. The President expects you to do everything in your power to carry out the spirit of the Agreement after you sign it. This means whole-hearted cooperation by really earning the Blue Eagle—not by just getting it and then not doing your part.

It would be a "subterfuge to frustrate the spirit and intent of this Agreement" to sign it and then put all of your employees on a straight commission basis—or any other trick to avoid doing what you promise to do.

HOW TO EARN THE BLUE EAGLE

1. Sign the President's Reemployment Agreement (P. R. A.).
2. Shorten Hours of factory workers to 35 hours per week, and of all other employees to 40 hours per week. (See paragraphs 2, 3 and 4, P. R. A.)
3. Raise Wages. (See paragraphs 5, 6, and 7, P. R. A.)
4. Don't Employ Child Labor. (See paragraph 1, P. R. A.)
5. Cooperate with the President. To do this:
 - (a) Live Up to the Agreement. (See paragraph 8, P. R. A.)
 - (b) Don't Profit. (See paragraph 9, P. R. A.)
 - (c) Deal Only with Others "Under the Blue Eagle." (See paragraphs 10 and 12.)
 - (d) Get a Code in by September 1st. (See paragraphs 11 and 13, P. R. A.)

HOW TO GET THE BLUE EAGLE

1. Sign the President's Reemployment Agreement.
2. Mail the Signed Agreement to your District Office of the Department of Commerce.
3. Put the Agreement into Effect (as outlined above in "How to Earn the Blue Eagle").
4. Sign a Certificate of Compliance. This is a slip distributed with the Agreement. It says: "I/we certify that we have adjusted the hours of labor and the wages of our employees to accord with the President's Reemployment Agreement, which we have signed."
5. Deliver the Certificate of Compliance to Your Post Office. The Postmaster will give you your Blue Eagle.

EXCEPTIONAL CASES

1. Where a Code Has Been Submitted. (See paragraph 13, President's Reemployment Agreement.) If your whole Trade or Industry is unable to live up to the President's Agreement, you should get together at once, with other employers in your Trade or Industry and, in a group, submit a Code of Fair Competition to N. R. A. in Washington. Since it takes some time after a Code has been submitted for it to be finally approved, your group may petition N. R. A. to substitute the wages and hours provisions of your Code for the wages and hours provisions of the President's Reemployment Agreement.

If N. R. A. finds that the Code provisions are within the spirit of the President's Reemployment Agreement, it will consent to such substitutions. If N. R. A. does consent there will be an official notice in all the papers. You may then put the substituted provisions into effect in place of the indicated paragraphs of the President's Reemployment Agreement. In this case you should add to your Certificate of Compliance the following clause: "To the extent of N. R. A. consent as announced, we have complied with the President's Agreement by complying with the substituted provisions of the Code submitted by the Trade/Industry."

If the substitution is consented to after you have already put the President's Reemployment Agreement into full effect, and after you have already gotten your Blue Eagle, you may still put the substituted provisions into effect without signing another Certificate of Compliance.

2. Where a Code Has Been Approved. If a Code of Fair Competition for your Trade or Industry has already been finally approved by the President, you need not sign the President's Reemployment Agreement in order to get the Blue Eagle. The same is true if you are subject to a Code which has been put into effect temporarily by agreement between the President and representatives of your Trade or Industry; but in either of these cases, you must sign a Certificate of Compliance, adding to it the following statement: "We have complied with the operative provisions of the Code for the Trade/Industry."
3. Cases of Individual Hardship. (Paragraph 14, President's Reemployment Agreement.) If there are some peculiar reasons why a particular provision of the President's Agreement will cause you, individually, a great and unavoidable hardship, you may still get the Blue Eagle by making the following steps:
 - (a) Sign the Agreement and mail it to your District Office of the Department of Commerce.
 - (b) Prepare a petition to N. R. A. setting out the reasons why you cannot comply with certain provisions, and requesting that an exception be made in your case.
 - (c) Have this petition approved by your Trade Association. If there is no Trade Association for your business, have your petition approved by your local Chamber of Commerce or other representative organization designated by N. R. A.
 - (d) If the Trade Association, or other organization, approves your petition, send it to N. R. A. in Washington with this approval.
 - (e) Comply with all the provisions of the Agreement except the one you are petitioning to have excepted.
 - (f) Sign the Certificate of Compliance, adding to it the following clause: "Except for those interim provisions regarding wages and hours which have been approved by the Trade Association." Deliver this Certificate of Compliance to your Post Office. You will receive a Blue Eagle, but before displaying it, you must put a white bar across its breast with the words, "Provisional" on it. If your petition is finally approved by N. R. A. you may take the bar down. If your petition is not approved by N. R. A. you must comply with the Agreement in full.

4. Union Contracts. If you have a contract with a labor organization calling for longer hours than the President's Agreement allows, and this contract was made in good faith by collective bargaining and cannot be changed by you alone, you may get the labor organization to agree to a reduction to the maximum hours allowed by the President's Agreement. If the labor organization will not agree, you may apply to N. R. A. for permission to work your employees as many hours a week as the contract calls for. Send to N. R. A. a request for this permission, with a certified copy of the labor contract and any statement of fact you desire. This application will be handled by N. R. A. in the same manner as an application for relief in cases of individual hardship, filed under paragraph (14) P. R. A., but it will not be necessary to obtain the approval of a trade association or other organization. If N. R. A. approves your application or is able to bring about any modification of the contract, you will then be granted permission to work employees in accordance with the contract as originally written or modified, and can then sign the Certificate of Compliance adding to it the following: "Except as required to comply with the terms of the Agreement in effect between the undersigned and the (Name of Labor Organization)."

Anti-Profiteering

(9) Not to increase the price of any merchandise sold after the date hereof over the price on July 1, 1933, by more than is made necessary by actual increases in production, replacement, or invoice costs of merchandise, or by taxes or other costs resulting from action taken pursuant to the Agricultural Adjustment Act, since July 1, 1933, and, in setting such price increases, to give full weight to probable increases in sales volume and to refrain from taking profiteering advantage of the consuming public.

The object of this paragraph is to prevent profiteering or speculation, so that prices will not rise faster than purchasing power, and destroy the President's plan. The danger to be avoided was pointed out by the President on June 16, 1933, in the statement which he made on signing the Recovery Act. He said, then:

"If we now inflate prices as fast and as far as we increase wages, the whole project will be set at naught. We cannot hope for the full effect of this plan unless, in the first critical months, and, even at the expense of full initial profits, we defer price increases as long as possible. If we can thus start a strong, sound upward spiral of business activity our industries will have little doubt of black-innk operations in the last quarter of this year. The pent-up demand of this people is very great, and if we can release it on so broad a front, we need not fear a lagging recovery. There is greater danger of too much feverish speed."

If you were selling your merchandise on July 1, 1933, below cost, you may take your cost price on that date as the basis for determining the allowable increase under this paragraph.

Cooperation

(10) To support and patronize establishments which also have signed this Agreement and are listed as members of N. R. A. (National Recovery Administration).

The success of the President's Reemployment Agreement Program depends upon public support going to those who raise wages and shorten hours in accordance with this Agreement, in order to repay them for the extra expense which they have incurred in doing their part.

Codes

(11) To cooperate to the fullest extent in having a Code of Fair Competition submitted by his industry at the earliest possible date, and in any event before September 1, 1933.

This Agreement is a temporary measure to tide over the time from now until all employers and employees can cooperate under Codes of Fair Competition under the National Industrial Recovery Act. You agree, in this paragraph, to do all you can to have a Code submitted for your trade or industry before September 1, 1933.

Appropriate Adjustments

(12) Where, before June 16, 1933, the undersigned had contracted to purchase goods at a fixed price for delivery during the period of this Agreement, the undersigned will make an appropriate adjustment of said fixed price to meet any increase in cost caused by the seller having signed this President's Reemployment Agreement or having become bound by any Code of Fair Competition approved by the President.

This Agreement will, usually, increase the costs of those who sign it. The purpose of this paragraph is to pass any such increased costs along from one signer to another, and so on to the consumer.

If you have a contract made before June 16, 1933, to buy goods at a fixed price, you agree to make an arrangement with your seller so that you pay him for the extra cost to him caused by his having signed this Agreement, or having come under a Code approved by the President.

In some cases the final buyer is the Government, which under existing law, is generally not allowed to pay more than the contract price. The President has announced that he will recommend to Congress that appropriation be made to allow the Government to play its part by paying Government contractors who have signed the Agreement for their increased costs. The President has also appealed to the States and cities to take action permitting them to do likewise.

You should have no fear that, because your buyer has not signed, you will be left with the increased cost on you alone. The President expects every employer to sign this Agreement.

Substitutions

(13) This Agreement shall cease upon approval by the President of a Code to which the undersigned is subject; or, if the N. R. A. so elects, upon submission of a Code to which the undersigned is subject and substitution of any of its provisions for any of the terms of this Agreement.

As pointed out in the explanation of paragraph (11) P. R. A. above, the President plans to have all business govern itself under Codes, and therefore Codes should be promptly submitted. If N. R. A. finds that the wages and hours provisions of a Code which has been submitted are within the spirit of this Agreement, N. R. A. will authorize your industry to operate under those provisions rather than under the wages and hours provisions of this Agreement.

Exceptions

(14) It is agreed that any person who wishes to do his part in the President's Reemployment Program by signing this Agreement, but who asserts that some particular provision hereof, because of peculiar circumstances, may create great and unavoidable hardship, may obtain the benefits hereof by signing this Agreement and putting it into effect and then, in a petition approved by a trade association of his industry, or other representative organization designated by N. R. A., may apply for a stay of such provision pending a summary investigation by N. R. A., if he agrees in such application to abide by the decision of such investigation. This Agreement is entered into pursuant to sections 4 (a) of the National Industrial Recovery Act and subject to all the terms and conditions required by sections 7 (a) and 10 (b) of that act.

If you really want to do your part in the President's Reemployment Program, sign this Agreement. If some particular part of this Agreement causes you, as an individual employer, great and unavoidable hardship, you may obtain relief by taking the steps outlined under the heading "Cases of Individual Hardship."

Save this sheet as your official source of information. If there are any problems in your mind which are not cleared up by this explanation, get in touch with the official N. R. A. representative in your community.

Famed New Orleans Cafe Cook Is Dead

SPANISH FORT, La. (UP)—Spanish Fort has lost its oldest and most beloved resident.

"Grandma" Touche, or Mrs. Otto Paul Touche as she was known to the rest of the world, died recently. "Grandma" came to Louisiana 78 years ago from Germany. Here she met and married Otto Paul Touche. They established a restaurant business in New Orleans and shortly afterward decided to move here.

Here, over a long period of years, "Grandma" built up a reputation

for German and French dishes that won the little restaurant lifelong customers.

BOY IS MYSTERY FIEND

NEW ORLEANS, (UP)—Joseph Trim, Jr., has a hobby for mysteries. For years, the boy's weekly allowance has gone to add to his collection of mystery novels until now he has a big collection of "hair-raisers."

The cherry trees around the Tidal Basin and West Potomac Park, Washington, D. C., usually bloom about the first of April and last for 10 days.

'Secrets' at Ritz Theatre Best Film Of Mary Pickford

Mary Pickford's new picture, "Secrets," opened last night at the Ritz theatre, before an audience that greeted it with an enthusiasm that plainly indicated that Mary is still America's sweetheart...

"Secrets" is one of the most beautiful productions that has come out of Hollywood, and the star looks younger and more amazing pretty than ever...

The story begins in Salem, Mass., travels across the continent to Monterey, Calif., and back again to Washington, D. C., enjoining with it the life threads of two people following their joint careers from youth to old age...

"Secrets" was filmed once before in the silent days, with Norma Talmadge in the stellar role. Although brought up to date in its current version, it has less nothing of its savor and charm...

In addition to beauty and romance there is also plenty of melodrama. While raising cattle in the West, the principals are beleaguered by a band of cattle rustlers in a terrifying night fight which deals death along with justice...

Generally speaking, "Secrets" is the story of the love and devotion of a loyal wife who sees her husband through many trying and painful years to final triumph...

Anyone who ever doubted that Mary Pickford could act should by all means see this picture. Her performance is greatly heightened, of course, by the work of Leslie Howard, who is superb...

"Secrets" should certainly be seen during its engagement here, as it is unquestionably one of the great film entertainments of the year.

Day's Nephew Gets Schepps Award; To Return to School

Russell J. Day, McMurry, Abilene, college student and a nephew of C. C. Day of Midland, has found that clean living pays.

Friday, young Day received a check from the Leopold Schepps Foundation of New York for \$100, first installment of a \$200 award. Leopold Schepps was a multi-millionaire who left a trust fund to provide awards to boys between 18 and 15. Boys who are admitted to membership take a pledge to abstain from gambling, drinking and other reckless habits over a three-year period...

Young Day not only made the pledge stick, but the payment of the award will be the sole factor in his being able to return to school, where he will be a sophomore. He had planned to work this winter and attempt returning to school in the fall term of 1934.

Kermit School to Open September 5

WINK.—Supt. B. F. Meek has announced that the Kermit school will open Tuesday, Sept. 5. All members of last year's faculty will be back, except Miss Lucille Andrews, who has accepted a place at the Center, Texas, is taking Mrs. Andrews' place here. She received her B. S. degree from Texas State Teachers college at Denton.

Mrs. Fitz Gerald Visiting Her Son

Mrs. James Fitz Gerald of Tulsa and two children, her daughter Mary and son Billy Pat, and James III are in Midland for the summer, visiting with Mrs. Fitz Gerald's son, James Fitz Gerald, associated with the Skelly Oil company.

Two Women Are Seriously Ill

Two Midland women were reported late Saturday afternoon to be seriously ill. Mrs. Clara Cantelou, who has been ill for several days, was gradually growing worse, according to relatives.

Potash Work to Start This Year

ODESSA.—"While I am not at liberty at this time to set any definite date for the commencing of operations, I can safely say that we will be at work here before the end of this year," said Max Agrest of Dallas, chief geologist for the Texas Potash corporation, to the editor of the News-Times recently. The statement was made during an interview with Agrest at the Elliott hotel.

PRESERVED BY SMOKING

CLEBURNE, Tex. (UP)—The use of tobacco, both smoking and chewing since he was a boy has not deterred Major B. C. Nickelson from reaching 107 years of age. "I never drank liquor, but I would have if I wanted it," said the old pioneer, who served in the Texas War for Independence, the Mexican War and the Civil War.

"POPPING" WEATHER

MONROE, La. (UP)—It's G. A. Barnett's story. He reported an outbreak of popcorn which had been partly popped by the age. "I never drank liquor, but I would have if I wanted it," said the old pioneer, who served in the Texas War for Independence, the Mexican War and the Civil War.
