EXPECT MACHADO'S RESIGNATION

OPPOSITION TO CODES OF SOME GROUPS VOICED

Coal Industry Still Muddled by Labor Disagreements

WASHINGTON, Aug. 11. (UP)—Administrative High Commission announced today that he will not permit bituminous coal operators to make company union reservations in codes of fair competition.

THOMPSON JOINS PRICE FIXING GROUP

AUSTIN, Aug. 11. (UP)—Commissioner Thompson was bound for Washington today for further oil conferences after joining with attorney General Allred in favoring price fixing.

HOUSTON SHOWS THAT 71,915 EMPLOYERS HAVE SIGNED NRA AGREEMENTS, AFFECTING 261,988 WORKERS.

HOUSTON, Aug. 11. (UP)—Reports today showed that 71,915 employers have signed NRA agreements, affecting 261,988 workers.

STRICT COMPLIANCE WITH CODE REQUIRED

More stringent obedience to NRA rules is being required in Midland and other towns, according to information from Washington.

Those evading the spirit of the act are liable to lose their blue eagles, Hugh Johnson has ruled. Mrs. Johnson will receive complaints from persons believing the NRA agreement is being violated.

AUSTIN, AUG. 11.—THE TEXAS RAILROAD COMMISSION THURSDAY PLACED ITSELF IN POSITION TO ACCORD SPEEDY CO-OPERATION WITH THE FEDERAL GOVERNMENT UNDER THE NEW RECOVERY ACT.

A hearing of operators in all fields was called for Aug. 21. The commission said the oil industry code now being prepared by the National Recovery Administration.

WASHINGTON, AUG. 11.—A REVISED DRAFT OF A TRADE PACT FOR THE OIL INDUSTRY, NOW BEING PREPARED BY THE RECOVERY ADMINISTRATION, WAS UNDERSTOOD IN INFORMED QUARTERS TO BE NEARING COMPLETION, ALTHOUGH NRA OFFICIALS MAINTAINED SILENCE.

The code, successor to the tentative plan proposed by Hugh S. Johnson, the recovery administrator, was reported similar in many respects to the first draft.

Pending acceptance of the plan, oil companies, Johnson said, could get blue eagles signifying adherence to the recovery campaign by subscribing to the blanket code, with the labor provisions of their own code applicable to them.

Federal officials in a position to know predicted privately that the trade plan would be ready for submission to committee representing the main factions in the industry on Monday, and that it would be disposed of quickly.

WHETHER IT WOULD PROPOSE SOME FORM OF PRICE REGULATION WAS A QUESTION, BUT SOME CIRCLES EXPECTED THE PROGRAM TO PROHIBIT SALES OF CRUDE AT LESS THAN COST PRODUCTION, WITH FACTORS DETERMINING THAT COST SET FORTH.

The new code, it was understood in reliable quarters, would insist upon federal regulation of production through allocation to the oil states of their share of the national demand, and with the division within each state to be left up to that area.

THE GOVERNMENT WOULD EXERCISE ITS POWER OVER INTERSTATE AFFAIRS TO PREVENT SHIPMENT OUT OF STATE OF PETROLEUM IN EXCESS OF THE AMOUNT ALLOCATED TO THAT AREA.

METHODS OBTAINING EAGLE EXPLAINED

WASHINGTON, Aug. 11. (UP)—For the benefit of employers who still are uncertain as to exactly what they must do to qualify for the blue eagle, General Thomas S. Hammond, executive director of the re-employment campaign, herewith explains the three methods by which the emblem may be obtained.

Jack Dempsey Adds Local People to Popularity List

Jack Stops Here

Jack Dempsey, former world heavyweight champion of the boxing ring, spent last night at Hotel Scharbauer, en route to El Paso where he will referee a boxing match tonight. He and his party left at 10 o'clock this morning by automobile.

Dempsey Says Max Baer Big Shot of Ring

By JAMES P. HARRISON The world-renowned Jack Dempsey is easier to approach for an interview than for an attempted upset.

He sticks his big hand out to shake as if he were seeing an old friend and that familiar snarl comes over his face.

Jack told a reporter that Max Baer would get a shot at the championship next year. In his conservative manner he said, "Max looks mighty good to me and is a top-notch in my estimation."

The writer saw Dempsey and Willie Meehan as spotlights in an exhibition bout in Oklahoma City about 1921. Jack played with a big fellow about the size of Garnera and had to hold him up during most of the exhibition.

"Gosh," the former heavyweight said, "that was away back in 1921. Those were good days."

"What's the population of your city?" he asked. And when told he was a bit surprised, making the comment, "This hotel makes me think I am in Los Angeles."

Jack said he will leave El Paso tomorrow for Dallas. He was not sure whether he would go there by plane or rail, but was practically sure that he would not make the trip by automobile.

The old favorite still looks like a champion—he is a champion and will always be so.

COTTON, STOCKS LOSE AS WHEAT SUFFERS DROP

NEW YORK, Aug. 11. (UP)—Cotton was off \$1.25 and the stock market was off from fractions to over a point today as result of the decline in wheat.

CHICAGO, Aug. 11. (UP)—Wheat was off five cents today, the maximum fluctuation. Disappointment over the crop report and liquidation of September contracts were blamed.

Report Fairbanks To Become Briton

HOLLYWOOD, Aug. 11. (UP)—Mary Pickford will leave for New York tonight, it was reported here. There were rumors that Douglas Fairbanks will quit the United States permanently to become a British subject. It was reported that a British film company has offered Fairbanks a contract to re-enact Robin Hood.

DELAY RULING ON VALIDITY OF RACE BET BILL

AUSTIN, Aug. 11. (UP)—The attorney general today delayed ruling on validity of the part-mutual betting bill, giving time for W. T. Waggoner's attorney to file a brief supporting it.

Secretary of State Heath asked for the ruling when the San Jacinto Downs company asked for a permit to sell stock in the company which proposes to operate a track near Houston.

MIDLAND PEOPLE ARE THANKED BY PEACE OFFICERS

Sheriffs and peace officers who closed a successful two day convention of the West Texas Sheriffs' association were strong in their praise of the hospitality and entertainment shown here.

They especially spoke of the unusual manner in which A. C. Francis, Midland county sheriff, played the hospitable host. He extended more personal courtesies than were known at any convention some said.

They also thanked the chamber of commerce, John M. Gist and individuals who contributed to their entertainment.

Sheriff Francis said today that the local citizens assisted him in a great way and he expressed his thanks publicly for the cooperation.

At the barbecue Thursday, given by Francis, a group of friends declined to allow a reporter to give the big feed himself. Hundreds attended. Those making the contributions were Harvey Sloan, Claude Duffey, Joe Crump, Chas. Nolan, Louie Arington, Chas. McClintic, Harry Johnson, Harry Niblett, John Dulin, Elliott F. Cowden, Clarence Scharbauer, Homer Rowe, Chas. Berry, George Glass, Bill Bryant, W. T. Walsh, Joe Chambers, Frank Cochran, G. Cunningham, Elliott H. Barron, W. W. Lackey, Fred S. Wright, George Underwood, Lee Haynes, First National bank, Roy Parks.

LEAGUE STARTS BUILDING PLAN TO RIGHT CHINA

By STEWART BROWN

United Press Staff Correspondent GENEVA, Aug. 11. (UP)—The League of Nations, huddled in its initial attempts to persuade Japan to restore Manchuria to the Chinese, has embarked upon a long-term program, which eventually may assist China to "settle" with the Japanese.

Dr. L. Rajchman, director of the League's Health Section, is going to China to assist the National Economic Council there to put into effect a program of national reconstruction.

Collaboration "Technical" Always careful not to tread on anyone's corns, the League has carefully specified that this collaboration with China will be strictly "technical, impartial and non-political." But political experts know the League is shooting for bigger game.

If China gets her national plan carried out, schools, telephones, telegraphs—running at a modern pace, and if political unity ensues, League officials figure China, with her vast resources and population, would be ready to avenge Japan's "rape" of her three Eastern Provinces.

Much that the League might have done to assist China to resist the Japanese invasion of Manchuria, at least in the economic and social field, by the technical assistance of League experts.

The recent appointment of Dr. Rajchman as liaison officer between the Chinese Government and the League reveals the League's determination to proceed with the internal reconstruction of China's communications, finance, education and health.

Midlanders Visit Carlsbad Cavern

Mr. and Mrs. W. R. Mann and daughter, Miss Eva Mann of Wyoaming, and Mrs. Emily Kannon have returned from Carlsbad, where they visited the cavern Wednesday. Miss Mann, a school teacher in Wyoaming, received the distinction of being the only person from that state to visit the cavern on that day. She will return to her home Saturday night.

Mrs. Kannon only recently returned from Chicago, where she took a normal course in piano at the Sherwood Music school. She visited the World's Fair several times while there.

Another Midland party visited the caverns during the first part of the week. Mr. and Mrs. F. E. Sauez and Mrs. John Davis of Midland, Mr. and Mrs. J. R. Bondley of Fort Worth and Miss Virginia Lewis of Sweetwater returned from there on Wednesday afternoon.

Mr. and Mrs. Bondley returned to their home Thursday and Miss Lewis will leave today, accompanied by Mr. and Mrs. Sauez.

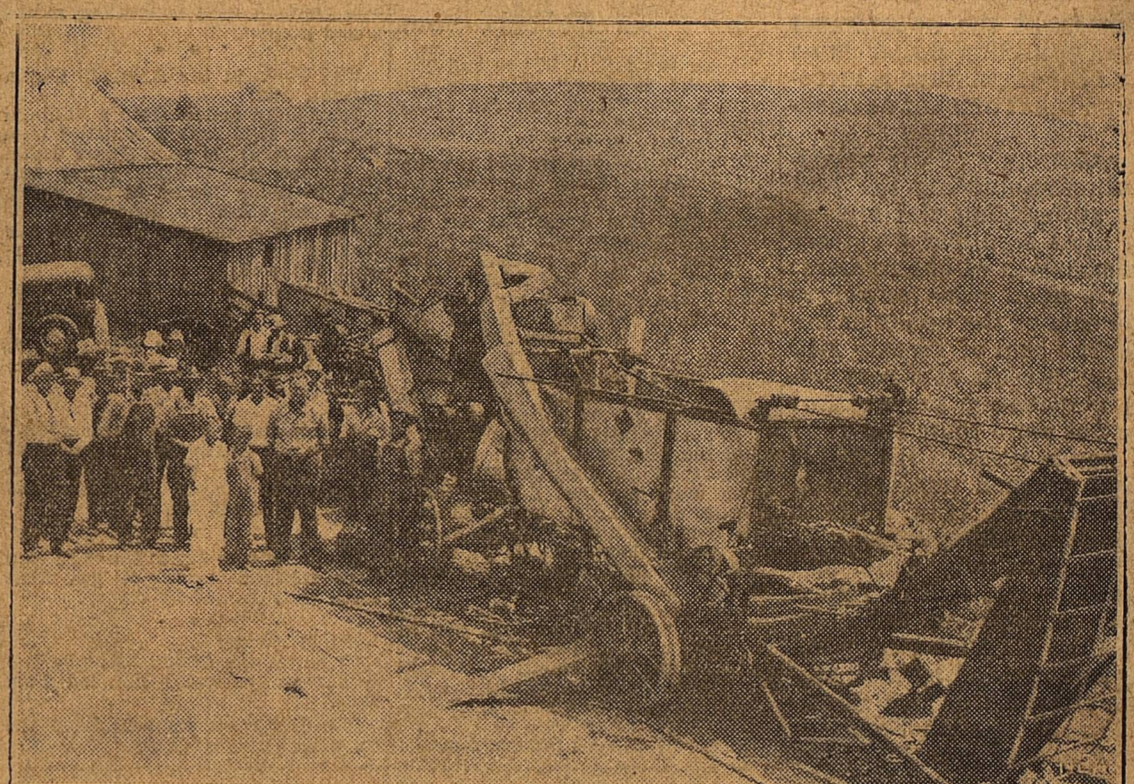

DINNER ON GROUND

A basket dinner will be served on the ground at Gospel Hall Sunday noon. It was announced this morning by J. D. Jackson, pastor. Evangelical services will be held at 4 o'clock in the afternoon at the Cook farm on the east side of the Magnolia tank farm.

MISS HAAG TO AUSTIN

Miss Addie Haag left last night for Austin, where she will visit for several weeks.

Racketeering Seen in Thrasher Blast

Racketeering methods, new to Ohio, for control of the wheat thrashing business, were blamed for the explosion which wrecked this thrashing machine near Bethesda. A group of farmers is shown surveying the damage. Louis Heskett, owner of the machine, estimated his loss at \$400. Thousands of bushels of wheat and oats may be lost because of the destruction of the machine in late harvest time.

AIR CORPS CHIEF LANDS HERE

General Foulois Is Returning From Inspection

Major General Benjamin F. Foulois, chief of the U. S. army air corps, and Maj. Carl Spatz of the Quonset Point Naval Air Station, landed at El Paso today shortly before one o'clock in the morning on a return flight over the northern route for aircraft, the west coast and the southern route.

They set down their new production O-38 jobs after a 605-mile hop from Tucson, and took off at 2 o'clock for Shreveport, planning to skirt Dallas on the flight.

Belying his 55 years, the general declined to answer questions about the controls.

"I have flown for 25 years," he said, smiling characteristically, "and I'm still in my blood." He was at one time a pilot during the war on the other side of the ocean.

His plane, holding a capacity of 206 gallons, consumed only 145 gallons on the 605-mile hop from Tucson, although a steady quarter blow was on his nose all the way.

The general said he had been on the Midland field only twice but that "it is a very good landing field," and remarkably safe in most weather.

He declined to answer questions affecting the air corps under the proposed economic slice of President Roosevelt, but appeared optimistic. He did remark that civil aviation is definitely on the upswing, however, and that America is destined to be a nation of peace time flyers.

Maj. Spatz, who has landed at Midland several times with the 2nd bombardment group, has been transferred to the department at Washington, from his late duties at March field, west coast.

Herndon Seeks Post, Gatty to Assist

WESTPORT, Conn. (UP)—"Gatty" is disconsolate. It was bad enough when "Post" wandered off and didn't return, but now that "Scobie" is gone, too, things look pretty dark for "Gatty."

Hugh Herndon, the aviator, told police about it. "Post" and "Gatty" were two English bull terriers named for the famous flying team. They were brothers. After "Post" disappeared the Scobie pup was purchased to play with the remaining dog.

Police are aiding "Gatty" in the search for his lost play fellow.

Midland Lions Beat Wink Team

Midland Lions club sock ball players beat the Wink Lions 15 to 4 in a game at Wink last night. Local men said today on their return. The Midland boys, fresh from a game in which they ran up 46 runs against the Rotarians, continued their heavy hitting and pitcher Scruggs held the Wink team to well scattered hits.

Lindberghs Are Greenland Guests

JULIENHAB, Greenland, Aug. 11. (UP)—The Lindberghs were guests here today of Colonial Manager Isben of the Greenland government. They were awaiting favorable weather for a flight to Iceland, exploring a possible trans-Atlantic route.

Their arrival sparks reports yesterday that the couple were killed in a crash in Greenland. A radio report apparently was responsible.

RANKIN LAWYER ENTERS RACE OF REPRESENTATIVE

Dusty Waller Puts Bandits On the Gallop

B. F. Howell, attorney, has entered the race for representative of the 38th district in the fall election, recently caused by the death of E. Frank Haag of Midland. Rankin friends announced today.

A special election for the purpose of choosing a successor has been ordered by the governor for Aug. 26.

Howell is well known over 13 counties comprising the largest representative district in the state.

He was born in Williamson county and studied law at the University of Texas, having been admitted to the bar in 1913. He has practiced law in West Texas since that time.

Judge Howell is 43 years of age, is married and has two children. He is known as an accomplished orator and is well versed in the problems confronting the citizens of his district.

Judge Howell stated regarding a platform that should be the people's platform for the election, "I should like to see a special session of the legislature to support and do all in his power to enact legislation favorable to corrective laws in the state that will enable Texas to receive full benefit of the National Recovery Act and its program outlined under the 'New Deal.'

Judge Howell will make a thorough canvass of the district in his short time allotted him before the election, and will seek the support and influence of the citizenship as a personal visit.

REV. McCALL ACCEPTS POST AT LAS CRUCES

Resignation of the Rev. J. A. McCall, pastor of the Church of Christ, was announced today after he had returned from holding a revival meeting at Las Cruces, N. M.

The popular Midland pastor, coming here for his health from an important pastorate at Fort Worth, is one of the outstanding ministers of his denomination in the southwest.

He has been an active citizen while here, working closely with pastors of other churches. He was formerly a member of the Midland Rotary club and has taken part in various civic affairs.

Midland Expected Favor Bond Issue

Sentiment in Midland is believed to be overwhelmingly for the constitutional amendment permitting the Legislature to issue not to exceed \$30,000,000 in bonds to relieve unemployment in Midland.

Hoover's Town Not To Allow Beer Sale

PALO ALTO, Calif., Aug. 11. (UP)—PALO ALTO, home town of Herbert Hoover, voted 1,174 to 1,016 against permitting the sale of 2 per cent beer within its limits in an election yesterday.

HERRERA SEEN AS PROVISIONAL CUBAN LEADER

Plan Is Unacceptable To Welles, It Is Believed

Copyright United Press

HAVANA, Aug. 11. (UP)—It was reliably but unofficially reported today that President Machado was proposing to retire in favor of General Alberto Herrera, member of Machado's liberal party.

The plan would make Herrera provisional president and he would form a new cabinet.

It was believed that the plan would not be acceptable to American Ambassador Welles and the Machado opposition.

The strike continued despite the decision of leaders for a truce. A street car, under protection of police, was bombed. Six officers and three civilians were injured.

ROOSEVELT PLAN BECOMES DEFINITE

MIAMI, Fla., Aug. 11. (UP)—President Roosevelt plans a "New Deal" for Cuba in a four point economic rehabilitation policy, it was announced today.

He proposes a back to the soil movement to make farmers economically independent, reduction of debts and taxes, a regional sugar agreement and further studies in traffic reciprocity.

FORMER PRESIDENT SUMMONS LEADERS

MIAMI, Fla., Aug. 11.—The resignation of Ambassador Welles' peace plan for Cuba by President Machado's Liberal party caused Gen. Mario G. Menocal, former Cuban president, and opposition leader, to summon leaders of the Liberal party here for a conference at his home last night.

WELLES' POLICY SCORED BY CUBANS

HAVANA, Aug. 11.—The executive committee of Pres. Machado's Liberal party, voted late today a motion condemning U. S. Ambassador Welles' procedure in trying to mediate Cuba's political difficulties as prejudicial to Cuba's sovereignty.

Welles had proposed a peace plan calling for retirement of Machado from the presidency.

ROOSEVELT PREDICTS NEW DEAL IN CUBA

MIAMI, Fla., Aug. 11.—President Roosevelt looked forward confidently to a new deal in Cuba in response to his demand to end political warfare. That means the resignation of President Machado, in the opinion here.

Mr. Roosevelt received firm assurance of united support in his determination for better days on the island republic—including armed intervention if necessary—from Representatives and Senators of the house foreign affairs committee.

After his talk at the summer White House, Fish asserted the resignation of Ambassador Welles is "absolutely necessary." His declaration was regarded as interpreting Mr. Roosevelt's view but the president said nothing beyond his formal statements of last night concerning an end to political trouble on a patriotic basis.

CUBAN EMBASSY LEAVES FOR HOME

WASHINGTON, Aug. 11.—After a long conference with Secretary Hull, Ambassador Oscar B. Cintas of Cuba hurriedly packed for home last night. His authoritative word was passed that he had not been threatened with American intervention to restore peace in the island republic.

State department officials still cling to the hope that mediation would bring peace to troubled Cuba and denied reports preparations were being made for intervention by the United States.

The Cuban embassy said Cintas would leave early tomorrow morning by train and reach Havana Saturday. He had planned to fly, but bad weather interfered.

A spokesman for the embassy said no importance should be attached to the ambassador's trip because he was merely going more to study (See CUBAN REVOLT, page 4)

STUDY DETAILS OF AMENDMENT

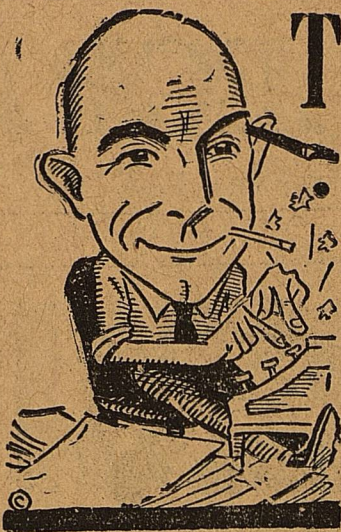

Many voters, in considering the amendment to allow the legislature to issue bonds for unemployment relief, have not taken in the actual details of the amendment but merely refer to it as the twenty million dollar bond issue. Such may not be the case, as the legislature is merely given authority to issue bonds up to that amount as needed for relief.

Following is reproduced an exact copy of the principal section of the Senate Resolution submitting the proposed constitutional amendment authorizing the legislature to issue relief bonds. The most significant clauses are printed in capitals for the information of our readers:

"Section 51a. The Legislature shall have power to authorize by law the issuance and sale of the bonds of the State of Texas, NOT TO EXCEED the sum of Twenty Million (\$20,000,000) Dollars, bearing interest at a rate not to exceed Four and a half (4 1/2) per centum per annum; and payable serially or otherwise not more than Ten (10) years from their date, and said bonds SHALL BE SOLD FOR NOT LESS THAN PAR and accrued interest, and NO FORM OF COMMISSION SHALL BE ALLOWED in any transaction involving said bonds. The proceeds of the sale of such bonds to be used in furnishing relief and work relief to needy and distressed people and in relieving the hardships resulting from unemployment, but to be FAIRLY DISTRIBUTED OVER THE STATE and upon such terms and conditions as may be provided by law, and the Legislature shall make appropriations as are necessary to pay the interest and principal of such bonds as the same becomes due. The power hereby granted to the Legislature to issue bonds hereunder is expressly LIMITED TO THE AMOUNT STATED AND TO TWO YEARS FROM AND AFTER THE ADOPTION OF THIS grant of power by the people. Provided that the Legislature shall provide for the payment of the interest and redemption of any bonds issued under the terms hereof FROM SOME SOURCE OTHER THAN A TAX ON REAL PROPERTY, and the indebtedness as evidenced by such bonds SHALL NEVER BECOME A CHARGE AGAINST OR LIEN UPON ANY PROPERTY, real or personal, within this state."

It was away out in the country and a bunch of city hunters were telling of their hunting and fishing experiences and other lies. An old country boy happened to be there. "I was up in the mountains one day," one of the city fellows said, "and I had gone from my cabin to the creek to get a bucketful of water. A huge mountain lion came rushing towards me and I threw the water in his face and he ran away." "Pretty soon it came turn for the old country boy to tell something."

"I've never had anything that excited me particularly," he said, "I can't recall anything worth telling but I must say that I know that's a true story about the mountain lion being scared off by a bucket of water. I happened to be up in those same mountains, in the same locality, at the same time. I was coming down the side of the mountain and met the mountain lion in the bush as it was bounding away. And as was my habit, I stopped the lion to stroke its whiskers. Boys, those whiskers were sure wet."

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

From the Dobey Inquirer, printed at Dolbey, Texas.
 "Because she sat on the keyboard over her piano and thus prevented its removal for failure to maintain payments, Faith Jolmen of this city was charged with concealing mortgaged property."

Old Task, in the Amarillo Globe, printed this:
 Here is an article from a Midland paper. It says that a Midland man has just returned from Pharr which is in the Rio Grande valley and that in many places in the valley there are signs up advertising for laborers. The Midland man says the farmers are offering 65 cents a hundred for picking cotton.

The man is that a man started hitch-hiking from the Panhandle to the Rio Grande all of the cotton would likely be picked before he got there. In fact, he'd be lucky if he got there before spring.

A good many of my contemporaries are questioning the judgment of the kidnapers who kidnaped a preacher in Oregon and demanded a ransom of \$12,000.

My heart goes out to the man who like roasting ears and has false teeth that do not fit snugly.

Joe Seymour:
 "I notice one Quack has sore feet—that incapacitates him on both ends."

Mr. Seymour's remarks have the ear marks of a dirty dig.

Druggists Plan Formulate Code

DALLAS.—The drug industry in north Texas, east Texas and west Texas will meet en masse in Dallas on Tuesday, August 15, at the Baker hotel, to help formulate and discuss a code acceptable to the N. R. A. under the zone auspices of the Drug Institute of America. In addition to retail druggists throughout the territory being in attendance, those who will be present will also include representatives of the drug manufacturers and wholesalers.

Three prominent national speakers, Earl Means, vice-president of Bristol-Myers, will represent the manufacturers; Frank H. Garrett, president of Harle-Haas company, Council Bluffs, Iowa, will represent the wholesalers; and Thomas Roach, Oklahoma City, a director of the Drug Institute, will speak on behalf of the retail druggists.

According to Fred Traut, of the Southwestern Drug corporation, the wholehearted discussion of exactly what each branch of the drug industry is desirous of doing in regard to the formulation of an acceptable code. The round-table discussion, Traut says, will enable attending druggists to ask pertinent questions to bring out any point not clear to them.

New Persistency Proved Old Adage

HANFORD, Cal. (UP)—That old adage about "if at first you don't succeed," etc., worked for Mrs. Dorothy N. Lowe.

She held an interlocutory decree of divorce from Baxter N. Lowe, today, the result of her third divorce suit against him.

Her first suit, in which she charged cruelty, was dismissed on technicalities; her second was denied for insufficient evidence, and the third was granted.

Summerville and Pitts at Yucca

The announcement of a Slim Summerville-ZaSu Pitts feature at the Yucca is an event. It will interest a tremendous number of people to know that "Her First Mate," the latest of this famous pair's Universal features, will open Sunday. "Her First Mate" is taken from the famous story. It was a Broadway play, entitled "Salt Water" by Dan Jarrett, John Gordon and Frank Craven. It played at the John Golden theatre with Frank Craven, Uta Merkell, Claude Cooper, Alan Goodie, Edith Elliott and Patricia O'Hearn.

In support of Slim and ZaSu, the duo found Una Merkell, who played in the stage version, Warren Hymie, Bertin Churchill, Jocelyn Lee and those salty looking character men—George Marion and Henry Armetta. Jocelyn Lee has just returned from a very successful picture visit to England. "Her First Mate" is an about a canny bunter on a Hudson River steamboat who had successfully kidded his wife into the belief that he was a great sailor-man and whose one ambition was to captain a sea-going vessel. ZaSu saved him from a jail term by convincing him to buy a boat, but it was a ferry boat and it blew up on its first trip.

The importance which Universal attaches to a Slim Summerville-ZaSu picture can be easily seen when Carl Laemmle, Jr., assigns one of its first-string directors, William Wyler, to produce it. "Her First Mate" is well worth waiting for.

PUTS COUPLES AT EASE

EL PASO, Tex. (UP)—Bashful couples who come to Cris Aranda, deputy court clerk, to get married find little to embarrass them about their ages. If they appear elderly, he puts the age of the woman as "over 18" and that of the man as "over 21."

COLLECTIONS DECREASED

HELENA, Mont. (UP)—Second half tax collection returns from 17 Montana counties show a decrease of 14 per cent in comparison to returns for the same period last year. So State Treasurer James Brett reports. Returns from the 17 counties total \$132,117.17 compared to \$135,560 a year ago.

BUFFALOS, WHITE ELEPHANTS

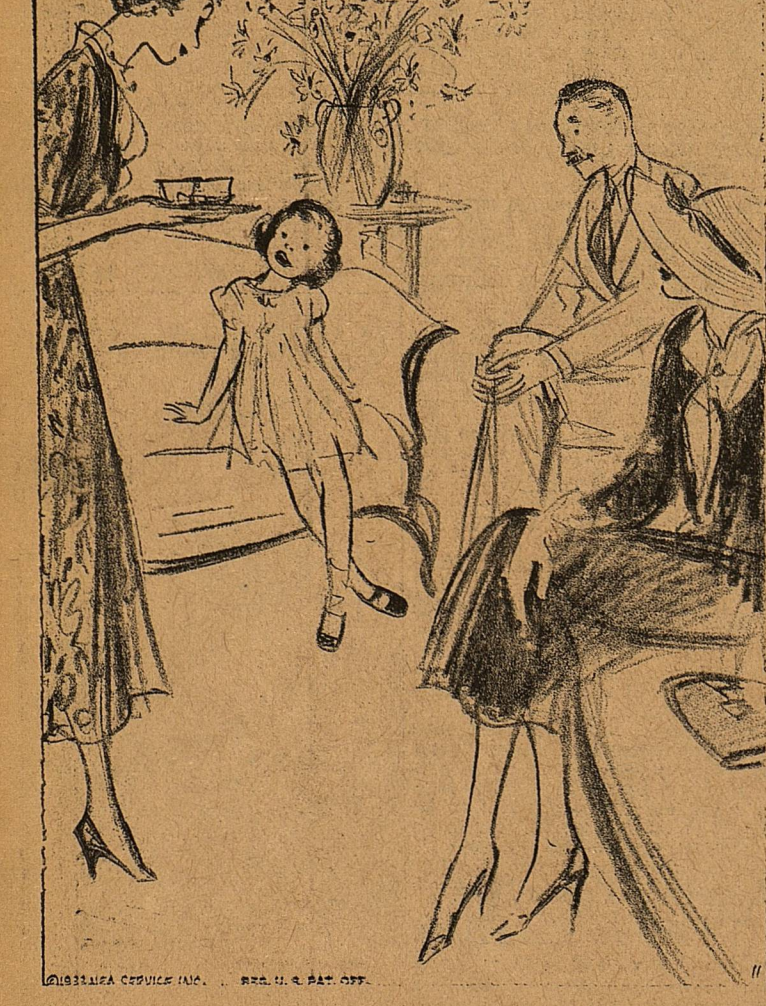

ABILENE (UP)—Two buffaloes, the city zoo administration has discovered, can be something more than buffaloes—they can be two white elephants. So, feed prices being what they are, the officials have decided to dispose of Tommy, a 2,000 pound bull, and Mildred, an elderly cow. They will trade them or sell them.

Chevalier Poses As Bachelor Dad

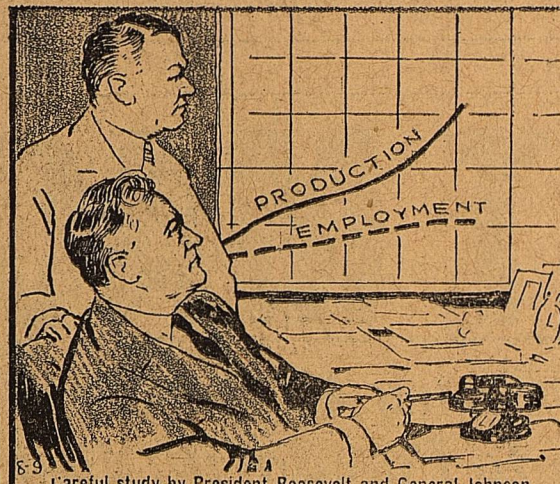

Suppose a baby was left on your doorstep, Mr. Bachelor—What would you do?

That's the situation Maurice Chevalier faces in Paramount's "A Bedtime Story," which opens with a preview Saturday night, running through Sunday and Monday at the Ritzy theatre, with Helen Twelvrees, Edward Everett Horton, Adrienne Ames and Baby Leroy.

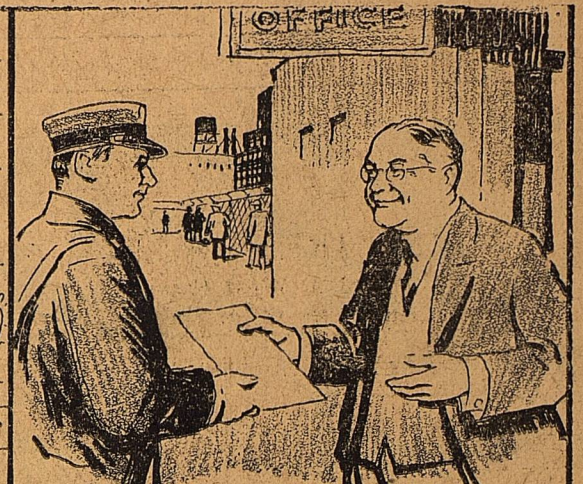

He's grand, the gay, naughty and pouting Maurice who'll make you so envious of his charm, his good humor, his delightful manner. You'll roar at the incomparable antics of Edward Everett Horton, the bachelor's valet, the alluring Parisian beauties will have you goggle-eyed. Best of all is the gurgling one-year-old youngster, Baby Leroy, selected to play the role in a competition that included practically every infant on the Pacific Coast. And it's no wonder he won the part—for he does things you never have thought any youngster his age was capable of doing—a perfect foil for Chevalier.

The New Deal in Pictures --- No. 12

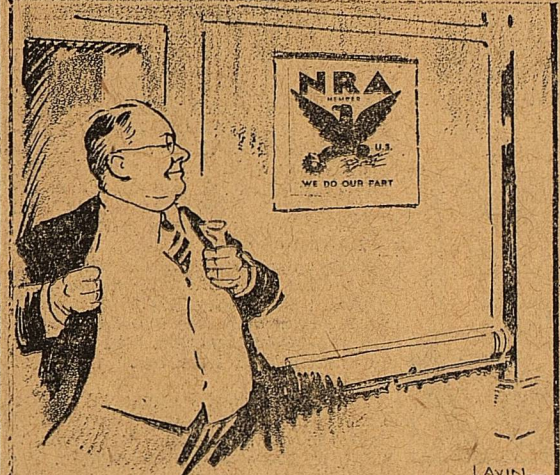

Text by John M. Gleissner Sketches by Don Lavin

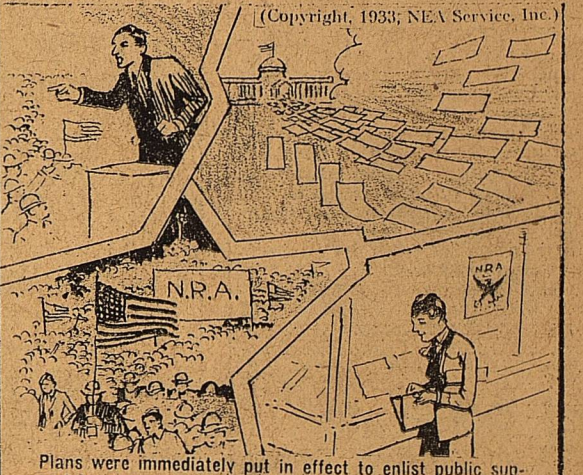

Careful study by President Roosevelt and General Johnson, head of the National Recovery Administration, showed that the sharp rise in production was not being accompanied by a similar rise in employment and purchasing power. Without purchasing power to support it, the rise in production could not be sustained. Codes from individual industries were not being adopted fast enough to remedy the situation. The president again acted.

It was decided to make a direct appeal by mail to the 5,000,000 employers in the country, and ask them to sign a temporary blanket code to be in effect after August 1. It would quickly end odd labor, set minimum wages and maximum hours for white-collar workers, and enlist the entire nation in a wave of co-operation to put more men to work at better pay and with shorter hours.

Employers agreeing to the conditions of this blanket code are permitted to display a badge of their co-operation, and goods made under such conditions may also bear a label indicating the maker's adherence to a "presidential agreement." Lists of signers were put on file in postoffices to prevent fraud.

Plans were immediately put in effect to enlist public support by a campaign of education and exhortation not approached since the World War. Buyers were urged to patronize signers of "presidential agreements." The administration enters the campaign confident that with 125,000,000 shoulders to the wheel of the Recovery Administration prosperity can be restored.

Fair Guests Offer Hotel Problems

CHICAGO, (UP)—With a heavy influx of transient trade as a result of the World's Fair, hotel managers are forced to meet new and unusual problems.

A situation arose recently which demanded all of the tact and resourcefulness of one of the managers.

A copper man and his wife and three children stopped at the hotel. They occupied a two-room suite on the eighth floor. They originally intended to stay only a few days, but extended their visit over a week. Previously the rooms had been reserved for a large shoe convention. The family was requested to take another suite and refused, saying they were settled to stay another week.

Finally the copper man said that he and his family were going to the Fair, and would be gone six hours. He requested that he be given another suite exactly the same as the one his family was occupying and that their belongings be moved into it.

The manager organized 12 servants. A diagram was made of the room. An unfinished jigsaw puzzle on a card table, a checker board on the radiator, an open book on a bed, a half-burned cigar on the edge of a dresser, pajamas thrown over a shower rack in the bathroom, an assortment of slippers and clothes and a pair of boys' stockings under one of the beds, were placed on the diagram.

BLIND MAN KNOWS FISH

SEBASCODEGAN ISLAND, Me. (UP)—Daniel (Long Dan) Newcomb, 20, who stands six feet, eight inches in height, can tell, blindfolded, the species of any fish placed in his bare hands. He's a local lobster fisherman.

Floating rocks are found in the Swiss Tyrol. They are a form of asbestos.

TEACHERS' WAGES RAISED

WELLSBORO, V. Va. (UP)—The drive for higher wages has spread to public school teachers here with announcement that all teachers will receive salary increases ranging from 20 to 40 per cent for the 1933-1934 term. A minimum salary of \$100 a month was fixed.

Gulf Between Two Nations Widened

KOVNO, Lithuania. (UP)—Official circles here hail the conclusion of the Russo-Lithuanian non-aggression pact as an important step toward dovetailing Lithuania into the present eastern European set-up.

They feel that through the pact Lithuania has brought itself in line with the general re-orientation of the eastern nations without giving in to Poland on the vexatious Vilna question. Vilna remains a sore point between this country and Poland, but it was felt Lithuania could not afford on that account alone to resist political change and isolate herself.

The last few years have given Lithuania ample proof that it cannot rely on Germany for support of interest vital to Lithuania. Economically and politically, the gulf between the two nations has widened.

That Lithuania recognizes the new political situation does not mean that it will no longer act as a link between east and west, but it can only do this if German-Lithuanian relations in the future do not bring the disappointments they have in the past.

HUNT BEARDESS MEN
CENTRALIA Wash. (UP)—Women toted large guns and performed as the Vigilantes of old western days during the Whisker Court celebration here. Cowgirls on horses and afoot paraded avenues, searching for un-hirsuted faces. A "law" had been in order that every male would be required to go unshaven during the celebration.

BOLT KILLED 150 SHEEP
DEER LODGE, Mont. (UP)—A single bolt of lightning killed 150 sheep during a storm near Twin Bridges, Mont. The lightning struck a tree under which the sheep had huddled for protection. All were killed.

GETS ORANGUTAN
 CHICAGO, (UP)—One of the biggest orangutans ever obtained is included in a habitat group of the animals now installed in William V. Kelley Hall at the Field Museum of Natural History. The exhibit is a family group which reproduces fully the scene in Borneo where the animals were captured. The orang is one of the four most man-like of extant apes, the others being the gorilla, the chimpanzee, and the gibbon.

PAPOSES DEFEAT LINDYS TO CLOSE INDUSTRIAL LEAGUE FOR THIS SEASON

The Paposes brought the Industrial league to a close last night by walloping the Lindys for the fourth time this season, this time by a score of 11-2. The Paposes scored in every inning, making eight runs and six hits off Newton in the first five frames and three runs and three hits off Rodgers in the sixth.
 The Lindys scored first in the third and once more in the fifth for their two tallies. The losers were able to get only three hits off the Paposes in the sixth.
 In the first game of the evening the Southern Ice slugged out a 12-1 victory over the Hokus Pokus.

 compliance. Hand it to your local postmaster, who will post your name on the honor roll and hand you your blue eagle.
 "2. If your line of business has submitted a code and the NRA has temporarily approved hours and wages to be in effect until the code itself is approved by the president, do this:
 "Sign the president's re-employment agreement. Mail it to the district office of the Department of Commerce. Comply with its provisions as far as possible. Now, if a specific code has been submitted by your industry and its wages and hour provisions accepted by NRA deputy administrator, sign the certificate of compliance with this endorsement:
 "To the extent of NRA consent as announced, we have complied with the president's agreement by conforming with the substituted provisions of the code submitted for the (blank) trade or industry." Hand this to your local postmaster, who will post your name on the honor roll and hand you the NRA blue eagle.
 "3. If neither 1 nor 2 applies and you feel you have to file a petition for relief, do this:
 "Sign the president's re-employment agreement; mail it to the district office of the Department of Commerce. If you find you cannot comply with most of its provisions, then prepare a petition to the NRA asking for a stay or postponement of those provisions which would produce an 'unavoidable hardship.' Submit this petition to a trade association of your industry, or if none, to your local chamber of commerce, or such other organization as can properly vouch for the fact. If officially accepted by one of the above, add the following to the face of your certificate: 'Except for those interim provisions regarding wages and hours which have been approved by the (blank) association or organization.'"
 "The postmaster will authorize you to use the NRA blue eagle. His last procedure may take some time and is, of course, subject to reversal when your petition is reviewed by the NRA."

WATCH DUG FROM EARTH
 DUXEY, Vt. (UP)—The 1927 Vermont flood washed away the home of John Arkley. Arkley lost practically all his personal belongings, including a gold watch. Recently, workmen excavating near the former site of the Arkley home recovered the timepiece from 3 1/2 feet below ground.
DIDN'T HEAR SHOT
 HELENA, Mont. (UP)—"Rube" Scobey, 70-year-old prospector, was so deaf he did not hear himself shot. Scobey dropped his gun while working a mining claim. He heard nothing, felt nothing. Hours later, companions saw blood on his clothing. Investigation showed the gun must have discharged, sending a bullet into his hip.

Climbs 75 Feet to Save Cat
 PORTLAND, Ore. (UP)—It took Ade Olsen, special agent for the Oregon Humane society, to climb 75 feet up a tree to rescue a cat. The cat, it was said, had been perched up there a week, but none had made good its rescue.
