

# BARROW GANG HELD, IS BELIEF

## Three Bandits Hold up, Rob Ft. Worth to Midland Bus

Tell How Byrd's Crew Prayed in Gale

How 40-foot waves lashed the Jacob Ruppert in a howling Antarctic gale and members of the crew, thinking the end had come, asked "divine protection," was the harrowing story related by these members of the Byrd expedition when, as shown here, they ar-

### BUS FIVE HOURS LATE HERE SAYS LATEST REPORT

Yeggs Board Machine  
Near Weatherford;  
Escape Is Made

FORT WORTH, April 13. (U.P.)—Three bandits armed with machine guns and pistols held up and robbed 20 passengers of the westbound bus eight miles east of Weatherford at 2 o'clock this morning of an undetermined amount of loot.

Two men boarded the bus on the outskirts of Fort Worth, one near the driver and the other at the rear of the bus. The machine was forced off to the side of the road, passengers were unloaded and individuals and baggage were searched.

R. R. Wayne was the driver.

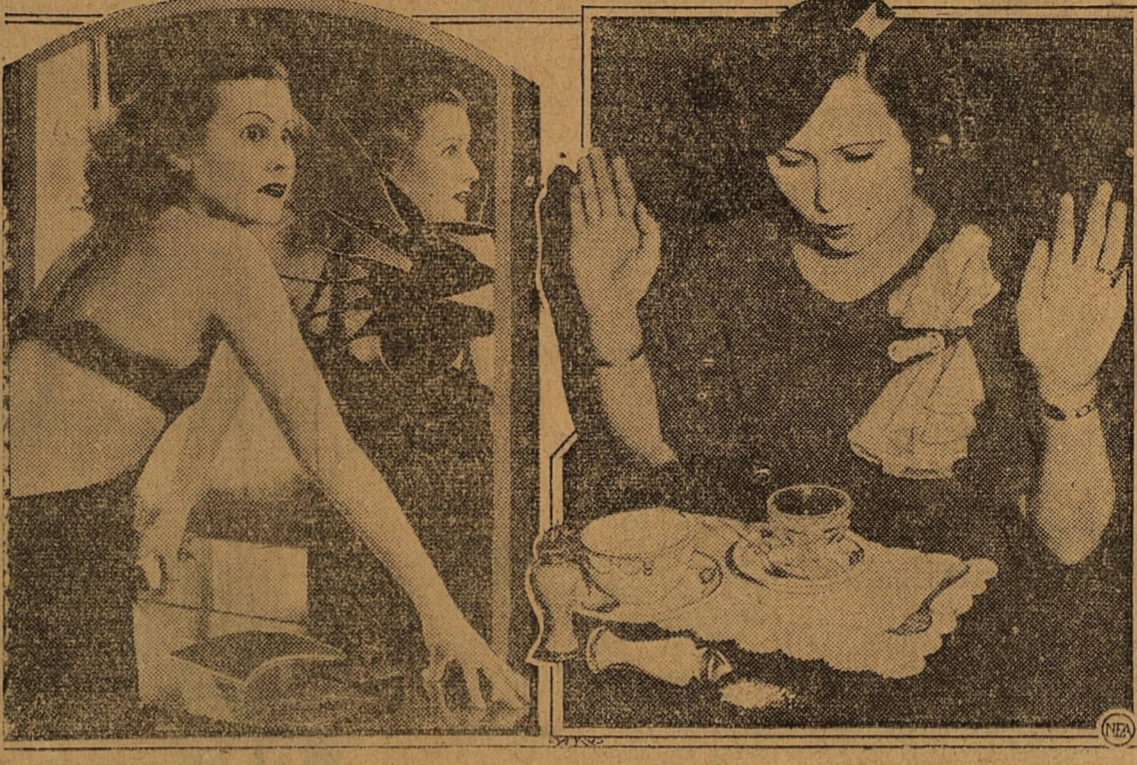

### BUS REPORTED FIVE HOURS LATE HERE

Agent Carl W. Covington of the Greyhound lines here had been notified that the westbound bus, due here at noon, would not arrive before 4 or 5 o'clock this afternoon.

The bus is believed to be at Weatherford. Likelihood that several of the hold up victims were transcontinental passengers, and would be on the bus when it arrives here, was expressed by the agent.

Loot was estimated at \$300.

A Few "Don'ts" For This Gosh-Awful Day

If you're cautious today, folks, you'll watch your step, mind your p's and q's, take care not to spill the beans and reuse wooden nickels. For, if you had paused to reflect a moment in your mirror this morning you'd recall that this is Friday the thirteenth, the day when danger lurks at every corner for the superstitious. In case you are the sort, better be careful not to smash a glass. It means seven years' hard luck. Another tough break is spilling salt on the table. If you'd square yourself with the dark fates, you'll have to toss another portion over your left shoulder.

That even things, walking under a ladder is tough luck enough, but to have a black cat cross your path at the same time—well, that's just too bad.

### HOT SPRINGS IS HOLDING 3 GANG MEMBERS TODAY

Seven Others Taken  
In a Rooming  
House

HOT SPRINGS, April 13. (U.P.)—Three occupants, one a woman, of a speeding automobile, believed to be the Barrow group, were overtaken and jailed here today.

Seven others, three of whom were women, were arrested in a raid on a rooming house on a tip that Barrow and his confederates were there. Earlier, a man identified as Clyde Barrow had eluded police but two confederates were captured. Police refused to reveal the names of the two men arrested and placed in jail at that time although authorities said definitely they were members of the Barrow gang. A woman said to have been Bonnie Parker also captured. No shots were exchanged.

### INDIANA REPORTS DILLINGER SEEN

WARSAW, Ind., April 13. (U.P.)—Judd Pittinger, small town policeman, told the United Press today that he pointed the muzzle of John Dillinger's machine gun into the air when it was pointed at him during a futile attempt to capture the fugitive single-handedly today.

Patrolling the deserted main street early today, he said he encountered the desperado and a companion. He said Dillinger called him the biggest damn fool he ever saw. Dillinger's companion was said to have been Homer Van Meter, Indiana parole violator.

### Camp Decisions Face Scouters

Decisions regarding summer camp dates for the various members of the Buffalo Trail council will be made Monday afternoon when council directors meet at the Crawford hotel at Big Spring.

A. C. Williamson, council executive, said at Midland today two sites will be considered; that at Barksdale on the Nueces river, and a permanent one on Spring creek used by San Angelo.

Williamson was on his way to Sweetwater from Pecos, where he has concluded a scout leaders training school. More than 40 attended the six sessions. Attendance included six men from Wink.

### ACC Debate Coach In Midland Today

R. L. Willis, assistant in the business administration department and debate coach at McMurtry college, in Midland today and will remain Saturday to serve as a judge in district interscholastic league debates.

Willis returned recently with two teams who debated in four states without losing a match.

### New Flight Records Set by Two Youths

BAKERSFIELD, Calif. (U.P.)—Known world records for model airplane flights were surpassed here when planes today by two Kern county high school youths flew 31 and 25½ minutes, respectively.

The airplanes, with three-foot wing-spans and powered with rubber band motors, were flown at a meeting of the high school Sky Hawks club.

One, built by Arthur Thurber, soared to an estimated height of 4,000 feet. It disappeared into a bank of clouds four miles from its starting point 31 minutes later and was lost.

The other plane, built by David Delamater, disappeared into a bank of clouds at Edison, seven miles from its starting place. It was in the air about 25½ minutes.

Both planes were flown from bluffs over the Kern river. Rising air currents were believed to have made the record flights possible.

The planes were flown from bluffs over the Kern river. Rising air currents were believed to have made the record flights possible.

### White Rat Ate Five Cats, Disappeared

FRESNO, Calif. (U.P.)—A death-defying white rat that ate five cats at the Fresno State college was a fugitive from justice today.

Whether the rodent escaped nature's penalty for eating the cats, saturated with such indigestible fluids as alcohol, formaldehyde and carbolic acid, remained a subject of speculation.

When last seen, however, the rat apparently had suffered no ill effects except to change from white to yellow.

Joseph Steele, student laboratory assistant, discovered the cat when he went to examine a dozen or so cats which had been embalmed for dissecting purposes.

Beneath the pile was the rat; five cats, except for shredded remains, were gone.

Steele's eyes fairly popped. He ran for witnesses. When he returned, the rat had departed to other fields.

Dr. J. R. Burkholder and Steele instituted an intensive search for the fugitive, intent on learning the ultimate outcome of the poisonous and unnatural diet.

# 700 STUDENTS HERE FOR DISTRICT MEET

## DISTRICT INTERSCHOLASTIC LEAGUE MEETING OPENED IN MIDLAND TODAY

The two-day meeting of the University Interscholastic league was opened here at 1 o'clock this afternoon with tennis singles and doubles. In order, other events were to be preliminaries in debate, extemporaneous speaking, and declamation in both senior and junior divisions.

Track and field events are to be held Saturday at Lackey field.

The complete program of the meet follows:

- FRIDAY AFTERNOON:**
- 1:00—1. Tennis Singles and Doubles
  - 2:00—2. Preliminary Debates
  - 3:00—3. Extemporaneous Speaking
  - 4:00—4. Senior High School Declamation
  - 5:00—5. Senior High School Declamation
- SATURDAY MORNING:**
- 9:00—1. Ward School Declamation
  - 9:00—2. Finals in Debate
  - 10:30—3. Junior Rural Declamation
  - 10:30—4. Senior Rural Declamation
  - 9:00—5. Essay Writing
  - 1:00—6. Three "R" Contest
  - 2:00—7. Typewriting

### TRACK AND FIELD EVENTS, LACKEY FIELD: 9:00 SATURDAY MORNING—PRELIMINARIES:

- Track**
- 1. 120 yards high hurdles.
  - 2. 100 yards dash.
  - 3. 880 yards run.
  - 4. 220 yards low hurdles.
  - 5. 440 yards dash.
  - 6. 220 yards dash.
  - 7. 1-mile relay.
  - 8. 1-mile relay.
- Field**
- 1. Pole vault.
  - 2. Running broad jump.
  - 3. Discus throw.
  - 4. Running high jump.
  - 5. 12-pound shot put.
  - 6. Javelin throw.

### 1:30—SATURDAY AFTERNOON—FINALS.

- AWARDS:**
- 1. All-round championship cups, and first-place individual winners at end of each contest.
  - 2. Out-of-District Judges for finals in declamation and debate.
- For further information write:  
W. W. Lackey, Director General,  
Midland, Texas
- Entries were sent the following directors:
- Debate—Supt. Murray H. Fly, Odessa, Texas
  - Declamation—Supt. A. M. Blackman, McCamey, Texas
  - Extemporaneous Speaking—Supt. Lee Hensley, Big Lake, Texas
  - Essay Writing—Supt. A. E. Lang, Wink, Texas
  - Typewriting—Mrs. W. C. Myrick, Midland, Texas
  - One-Act Play—Mrs. L. E. Barry, Midland, Texas
  - Athletics—L. K. Barry, Midland, Texas

### Late News

AUSTIN, April 13. (U.P.)—Relationships honeycombing state pay-rolls were laid bare today in an astounding report completed by the joint house and senate investigating committee, showing that 21.1 per cent of the state employees have relatives also employed by the state.

AUSTIN, April 13. (U.P.)—Attorney General Allred today called for repeal of the law under which trial of a law suit may be postponed if one of the litigants is a legislator, demanding delay under the legislative session.

AUSTIN, April 13. (U.P.)—Rival rights of R. L. Halliday of El Paso and Julius Dorenfield of Amarillo for membership on the relief commission will be tested in Travis county court, it was announced today.

SHENANDOAH, Penn., April 13. (U.P.)—Andrew Taren, 41, father of 13 children, was smothered under a coal slide today, Friday 13.

WASHINGTON, April 13. (U.P.)—Oil workers rejected the schedule of regional wage differentials proposed by the planning and coordination committee today.

WASHINGTON, April 13. (U.P.)—The senate interstate commerce committee today voted favorably the administration's bill of coordination and control of the nation's communications systems under a special commission.

WASHINGTON, April 13. (U.P.)—The federal emergency relief administration today announced grants of relief funds for seven states, including Texas, of \$193,000 for transient relief through April 30.

WASHINGTON, April 13. (U.P.)—Congress will pass relief legislation, House Speaker Rainey predicted today.

WASHINGTON, April 13. (U.P.)—Relief rolls reached an all time peak of 4,700,000 April 1, 1934, despite employment increases. Relief Administrator Hopkins said today.

WASHINGTON, April 13. (U.P.)—Oil Administrator Tokes today reported stocks of domestic and foreign crude petroleum April 7 totaled 341,966,000 barrels, an increase of 693 barrels over the preceding week.

CARRIES LOAD—DIES  
EL PASO (U.P.)—Carrying a 200-pound load for a quarter of a mile caused the death of William A. Folger today.

Folger carried a load of railroad spikes down the right-of-way. He received a back injury that led to apoplexy. The injury occurred two months ago.

CONDITION UNCERTAIN  
Physician attending Miss Cordelia Taylor, who underwent an operation this morning, said this afternoon that he is somewhat uncertain about her condition.

### Track, Field Meeting To Top off Two- Day Affair

Students, teachers and judges, numbering approximately 700, were in Midland today for the two-day University Interscholastic league. They came from 10 counties.

The date marks the first year since 1929 that Midland has been host to the district gathering, this year ending an arrangement whereby Midland alternately served as host with Pecos. Since 1930, Midland annually sent competing students to San Angelo. Midland was made head of District 31 last year, a district otherwise made up of Andrews, Martin, Loving, Winkler, Ector, Glasscock, Crane, Upton and Reagan counties.

Included in the exodus to Midland were about 60 tennis players, 100 declaimers, 40 debaters, 20 extemporaneous speakers, 30 typists, 450 athletes, several coaches—and out-of-city judges, including Comer Clay, debate coach of Abilene high school; W. C. Ribbie, Eco-Sociology, California university; and R. L. Willis, debate coach of McMurtry college.

Winners of the Midland meeting will go to the regional meeting here week, as will winning schools of the Fort Stockton and the El Paso districts.

### Rare Violin Made By Cabinet Maker

HOUSTON (U.P.)—Scraps of wood in the hands of W. J. Parker, 54, cabinet maker, turned almost magically into a violin with a tone that brought praise of musicians. Parker insists the instrument is a first.

An hour each day for three months he deftly turned out the intricate pieces that were to make his instrument. He fashioned the finger board, the sides, the keys and the bridges from scraps of maple; the neck was carved from a piece of oak; the back was made of birch; the front was of white pine and the apron of wood fibre.

A Rice institute professor and a local musician agreed that the violin had a "surprisingly excellent tone."

The strings Parker uses had been on another violin for 22 years.

### Purchase 30,000 Pounds of Mohair

SAN ANGELO (U.P.)—Purchases of about 30,000 pounds of Texas mohair at prices of 40 cents for grown and 50 cents for kid hair have been made by Tom Richey of A. W. Hilliard and Son. Buying of mohair in volume has not yet opened.

Estimates are being made here. West Texas of a spring mohair clip 25 per cent short. E. O. Oglesby, regional representative for the National Wool Marketing corporation, said, "Oglesby believes the state's spring production will not exceed 5,000,000 pounds. The kid crop is not expected to exceed 25 per cent this year, due to heavy losses during a recent cold rain. Oglesby estimates the fall clip at around 4,000,000 pounds, which is 1,500,000 pounds short, and he expects no appreciable increase in mohair production for two years."

### COMPLETIONS AND NEW LOCATIONS MARK HOWARD-GLASSCOCK ACTIVITY

Howard-Glasscock field is receiving active play. The Humble Oil & Refining company has completed and tested the W. R. Settles, No. 2, section 132, block 29, W&N Railway company survey, Howard county. The test, completed today, showed a net production after the water had been deducted of 312 barrels daily. The total depth of the hole is 2,490 feet. The well is on the same 40-acre unit with the Settles No. 1, which was completed for 410 barrels about two and a half years ago.

Steve Currie has made a location on the Sam Turner, No. 1, section 19, block 33, t-2-south, T&P Railway company survey, Glasscock county. The location is 330 feet out of the northwest corner of the 40-acre tract, the east half of the east half of the northeast quarter of the section. The well will be drilled to approximately 2550 feet in case the pay found in the H. O. Wooten, Turner No. 1, at 2182 feet is missed. The recent completion of Wooten's is 630 feet west of this new location, and when the well was tested on April 4, it showed a potential production of 1747 barrels per day.

R. J. Wallace is treating the A. Bell, No. 1, section 12, block 30, T&P Railway company survey, in the east Howard county field. The present production is 139 barrels per day from the line from 2750 to 2840 feet, and this formation is being treated with 1500 gallons of acid in an effort to increase the production. No water is being made at present.

Stid Richardson of Fort Worth has found the pay in the Tidal-Scarborough No. 1-B, Scarborough field, Winkler county. The total depth of the well is 2910 feet, and the well will be completed and tested tomorrow. Operators are unable to determine the approximate size of the well.

### Tech Director Was First Director Here

The removal in August of D. O. Wiley from Simmons university to Texas Technological college marks another forward step along the route from his direction of the orchestra of the old Midland college.

Teaching violin and directing the orchestra, the Dublin and Graigam youth managed to finish his two-year course here, then went to Simmons, where he became assistant violin teacher. Twelve years ago, he organized the famous Cowboy band, and was its director at the time he resigned to sign a contract with Tech.

Mr. Ned and Miss Lydia G. Watson related how Wiley used to come to their home on Sundays, eat dinner with them and then play the violin during the afternoon. The Watsons, who now have a music school at Midland, Wiley and Miss Mabel Shaw composed the Ethnographic club, and Wiley's orchestra was made up of the following: Elsie Wolcott, Lady Connell, Mabel Shaw, violins; Ned Watson, cello; Ray Hyatt, James McKissick, Jennings, cornets; Jack Baird and J. T. McKissick, clarinets; J. M. Gilmore, trombone; Jennings, percussion; Houston, bass violin; Florence McKissick, piano.

### Says Officials Had 'Sacrificed Safety'

WASHINGTON, April 13. (U.P.)—Senator Warren R. Austin, Rep. Vt., charged today that Roosevelt administration officials had "sacrificed safety" in specifications for bids in certain temporary air mail contracts. Call for bids was made by Postmaster General Farley last month.

### THE FORECAST

WEST TEXAS: Fair and warmer in west and north portions tonight. Saturday fair, warmer in east and north portions.

DALLAS, April 13. (U.P.)—Jack Dempsey, former world heavyweight champion, was in a hospital today recovering from ptomaine poisoning. Dempsey was here while refereeing wrestling matches in the southwest.

### MAN OR ANIMAL?

A pet rabbit in Chicago fell into the hands of the police the other day because it bit three children. The coppers prepared to put it to death; but just in the nick of time they received an indignant telegram from some anti-cruelty society in Iowa, so the execution was deferred until the bunny could be tested for rabies.

A thoughtful man is apt to wonder slightly at the zeal which people can put into minor causes at a time when stupendous events are taking place. Cruelty to animals—provided that the killing of a rabbit comes under that heading—is a sad thing to contemplate, to be sure; but cruelty to human beings has not exactly disappeared from this weary and sin-stained earth, and one would suppose that it might make a better goal for the efforts of the humanitarians.

Dr. Knight Dunlap of Johns Hopkins say a baby is no vegetable and shouldn't be coddled. In other words, it's no egg either.

Alfalfa is as good for us as spinach, says a dietician. How good is spinach?

### Unique Contest At Friendly Builders Meeting

A unique contest was a feature of the Friendly Builders class meeting Thursday afternoon at the home of Mrs. D. E. Holster. Slips of paper on which names of comic strip characters were written were passed and members attending were required to imitate them. During a brief business meeting, officers for the year were elected. Mrs. L. B. Hankins was re-elected as teacher and officers chosen were: Mrs. C. E. Nolan, president; Mrs. Everett Klebold, vice president; Mrs. E. J. Voliva, secretary-treasurer. Eighty-three visits were reported as were several trays taken to the sick and articles of clothing given the poor. During the social hour other games were played and prizes went to Mmes. J. F. Nixon and Noel Oates. Refreshments were served to Mmes. J. L. Barber, Iva M. Noyes, J. A. Andrews, Voliva, Oates, Levison, C. E. Nolan, A. J. Norwood, T. E. Harris, Nixon, K. C. Miller, J. W. Pace, Pat Barber, Frank Prothro, H. E. Webb of Odessa, J. M. Connor, Nolan, A. W. Lester, Klebold, Horace Newcomb, Hankins, J. W. Day and the hostesses, Mmes. Roy, L. H. Pittman, Edgar Tuelove, J. L. Tidwell and Holster.

### Mrs. Warren to Give Menus at Cooking School

BY CELESTE AND EMILY

For all women who say "tell me something to cook for dinner?" The Reporter-Telegram All-Electric cooking school will be a godsend, for there will be new and delightful recipes and menus to add to their files. The above problem is found frequently, Mrs. Ethyl Warren, who will conduct the school, says, and she offers the following remedy: keep a menu file as well as a recipe file and every time you have a meal that proves successful file the menu. In this way, you will soon have quite a collection to choose from. This menu will also apply to menus for special occasions such as teas, Sunday suppers and bridge parties.

The school will begin Tuesday evening at 8:30 and will continue through Friday. Midland merchants are participating in the school and will provide for Mrs. Warren a model kitchen, equipped with the latest conveniences. The model kitchen will be fitted with a General Electric Hot Point stove, a Frigidaire and other scientific kitchen devices. Mrs. Warren will explain the advantages of having these devices as two-thirds of every woman's time is spent in the kitchen. It is necessary, she says, to have the kitchen one of the most comfortable rooms in the home. The accessories should be cheerful, she explained, and above all, the room should be well-lighted. To enjoy kitchen work, Mrs. Warren says, every woman must be comfortably clothed.

"The plan of the school," Mrs. Warren says, "is to show women how to make homemaking a business. Women have something to work for—their homes—and it is their privilege to see that their career is carried on in the most successful manner at the same time allowing opportunity for interests outside the kitchen walls."

"Modern kitchen assistants give women a chance to be efficient home managers. New appliances make it possible for them to carry on club, church, and other worth while activities in which many already are engaged. The use of a number of these new and work-saving devices will be demonstrated during the school."

The invitation to the school is general—all women of Midland and the surrounding territory being invited. The El Paso bartender's union today began a campaign to keep drinks especially young girls, out of El Paso bars, according to an article in the El Paso Herald-Post. Bartenders were instructed to keep liquor out of sight and to dispense only beer and wine. The act was praised by the president of the El Paso W. C. T. U., who said they should be commended for "taking a step toward avoiding the debauchery of our youth."

once. Mrs. Watson also visited with her son, C. C. Watson Jr., night editor of the Avalanche-Journal. Mrs. Vern Holdaway will leave tonight for Abilene, where she has been requested to appear in the interest of the Vern Holdaway company at a meeting called by candy jobbers of West Texas with regard to code matters. The meeting will be held at the Hilton hotel Saturday afternoon. Mrs. Holdaway will return Saturday night.

Jackson Parker is in Midland from his ranch in Andrews county. Mr. and Mrs. Jay Harrison will return today from a visit at Gatesville. Mr. and Mrs. Jax Cowden are here from San Angelo transacting business and visiting friends.

H. Gillian, district passenger agent for the Southwestern Greyhound lines, is here today from Fort Worth.

Clyde Bradford of Grandfalls is here today in the interest of his candidacy for representative of the

### Reception Tonight For Presbyterian Synodical Speakers

This evening from 8 until 9 o'clock a general reception will be given at the R. T. Buey home, for Mrs. T. M. Cunningham, Synodical president of the Presbyterian Women's auxiliary; Mrs. J. E. Watts, from orphan's home at Itasca, and Miss Irene Hope Hudson, from the Department of Religious Education and Ministerial Relief, Louisville, Ky. All members of the auxiliary, their husbands and friends are urged to be there.

Eighteen attempts to swim the English Channel were made in 1933, nine by women. Only one woman succeeded.

18th district. Mrs. J. E. Hammond of Big Spring is here visiting relatives.

Frank Stubbeman and Dr. John B. Thomas are expected to return today from a business trip to Fort Worth.

Mrs. Henry Pegues was here Thursday from Odessa.

All school children will be admitted to Carnival Grounds free tonight only. (Adv.)

### Stokes Pupils Edit School Newspaper

A special, illustrated, 12-page edition of the Stokes News, mimeograph school paper of Stokes school, was distributed this week, carrying news of the interscholastic league contests. The News, appearing every two weeks, is edited by pupils of the school and sponsored by Mrs. Blanche Alcorn, primary teacher. It is financed by advertising sold by the pupils.

A typical edition carries one or more student-written editorials, community news, athletic news, jokes and miscellaneous articles. The staff is composed of Barnett Collier, editor; J. T. Bell Jr., business manager; E. P. Lawson Jr., assistant business manager; B. C. Bell, jokes editor; Bessie Lena Bell, sports reporter; Edna Jane Parker, club reporter; Lois Parker, general reporter.

Imagine the "let down" feeling a local alderman had, after the carnival was located outside the city limits, when he discovered there were no more passes.

A Midland man, hearing the announcement of The Reporter-Telegram's all-electric cooking school, to be held next week said he regretted that he had only one wife to send.

Which reminds me of an old adage: "A man should love all men, but only one woman."

A local republican has been reading where Italy may abolish parliament. "Italy is slow," he said. "The United States abolished congress last year."

## Time and Proven ELECTRIC Refrigerators are built for Texas Climate

Texas, with its variable climate, has been a natural testing ground for Electric Refrigerators. Back in 1924, manufacturers knew that if their Electric Refrigerators functioned properly during the hottest days in Texas, they would also meet full requirements in other sections of the country.

So the Electric Refrigerators of today are specially designed to cope with the hottest Texas weather. They have excess freezing capacity that is needed through many months of the year—always ready to protect your foods with temperatures below 50 degrees regardless of how hot the weather may be.

This superiority didn't come all at once. Years of testing, coupled with actual experience of users, are back of the Electric Refrigerator of 1934. No matter how hot the weather is, you can be sure that an Electric Refrigerator will come up to expectations.

Your Refrigerator Dealer has new 1934 models on display as low as \$100, and will be glad to show them to you.

**WOMEN TEACHERS DECREASE**  
HARRISBURG, Pa. (U.P.)—The depression has reduced the number of women teachers and increased the number of men teachers in Pennsylvania, the state department of public instruction announced today. Women teachers decreased 1,200 in 1933, as compared with 1932, while the number of men teachers employed increased 400 during that period.

The city of Omsk, in Siberia, following the example of Peter the Great, has imposed a tax on beards.

## VISION

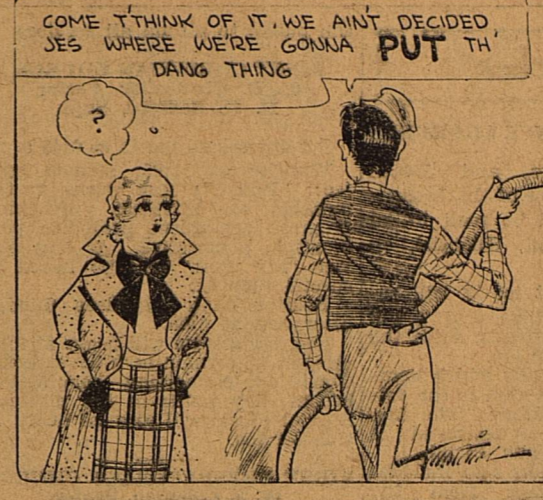

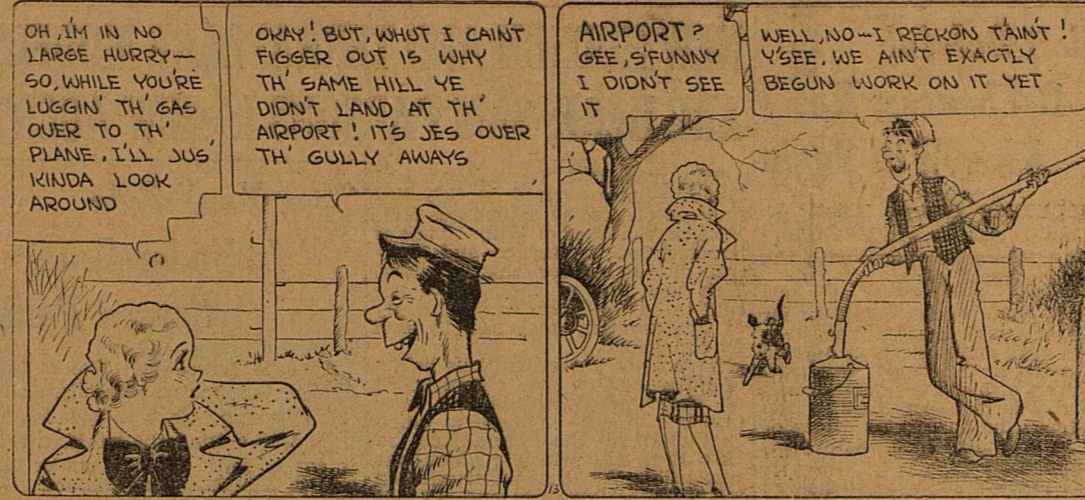

To America and Americans must go credit for the greater portion of the inventions that dominate the world today. Vision built the electric light, the airplane, and the automobile. Likewise, it is vision that has made the American financial system the most potent in the world. As a firm, strong link in that system, we take pride. To serve our city and our nation better is always our aim. With strong leaders guiding this bank, you can count on vision playing an important role in its success and security.

**CHRISTIAN SCIENCE CHURCHES**

"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 15.  
The Golden Text is: "I will restore health unto thee, and I will heal thee of thy wounds, saith the Lord" (Jeremiah 30:17).  
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The last enemy that shall be destroyed is death" (I Corinthians 15:26).  
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If the belief in death were obliterated, and the understanding obtained that there is no death, this would be a tree of life, known by its fruits... When it is learned that disease cannot destroy life, and that morals are not saved from sin or sickness by death, this understanding will quicken into newness of life. It will master either a desire to die or a dread of the grave, and thus destroy the great fear that besets mortal existence" (page 426).

**CHURCH OF CHRIST**  
"The Friendly Church"

**FIRST CHRISTIAN CHURCH**  
E. B. Chancellor, Pastor  
H. G. Bedford, Supt.

Sunday school meets at 9:45 a. m. Worship at 11:00; sermon subject, "Praise." Key words in the message are privilege, providence, progress, pessimism, prejudice, persecution, perspective. At this service "My Task" will be heard in special number.  
Booster choir practices Sunday afternoon at 3:00.  
Evening service will begin at 8:00. Subject of sermon is "Conversions." Condition, connection, commission, become key words in the message. Special music will also be heard in this service.

**FIRST PRESBYTERIAN CHURCH**  
W. J. Coleman, Pastor

Three distinguished women of the Southern Presbyterian church will have charge of the Sunday morning worship hour at the First Presbyterian church.  
Miss Irene Hope Hudson, from the Department of Religious Education and Ministerial Relief, Louisville, Ky., will also be with us and bring a message. Miss Hudson is a convincing and forceful talker.  
Sunday evening worship at 8:00 o'clock.  
The sermon theme will be: "Dwarfed thistles." This will be an interesting and profitable message, showing why and how we have so many "little men with little souls."

**LUTHERAN CHURCH**

**Elliott Doleful**  
At Chances; Kat Klaw Will Begin

**BULLETIN:** George Elliott Jr. does not expect to win this afternoon's 4:30 practice game with the Midland baseball club.

Elliott, who would admit under proper pressure that it has been quite a spell since he faced a game with such grave doubts, has seen only three of his men in action. Far from the formidable array of the last season, he has no more idea of what he has than have his opposition managers.

"The practice game is being played to let me see what I've got," he told a reporter. "As a matter of fact, I'm in favor of Midland and Odessa playing a series of practice games. We're close enough together to play without much trouble, and we can iron out our weaknesses better in games than in desultory practice."

The Permian Basin league is not likely to start on April 22, as first reports indicated. McCamey, Midland and Odessa are not ready. One week later is the date favored by most clubs. That would not be any too late.

Leonard Rose, Midland pitcher, will be a man of two counties—working for the Magnolia Pipe Line company in Howard county but playing baseball at Midland.

The Kat Klaw Golf league is starting its season Sunday, and with somewhat dreary prospects.  
Three men will be unavailable—Frank Johnson, who plays No. 2, M. D. Johnson and Harry Adams. The first two will be out of the city, and the other is recuperating from illness.

Crane, in the loop for the first time, is reckoned along with Hobbs as the strongest opposition Midland will encounter this year. Four of the Crane golfers are top flight to the full extent of the term, and helped Crane defeat Midland earlier in the season by a 22-18 score. Several Sand Belters were on the Midland lineup, too.

Left to the Midland club will be either Henry Shaw or De Lo Douglas, tall end men on the Sand Belt. Harold Dean, Red Knight, Joe Pyon, Bill Simpson, Earl Whitcomb, Harvey Harrison, Charley Mix or E. Russell Lloyd. There is a possibility of Earl J. Moran being on the lineup, as well.

**500 SLEEPING SNAKES FOUND**

CHARDON, O. (AP)—More than 500 hibernating snakes were unearthed in one embankment by CWA employes here when their shovels uncovered reptiles varying in length from six inches to a foot and a half.

**NEW HUDSON AND TERRAPLANE MODELS ARE HERE; SAM PARSONS IS NEW AGENT**

The new 1934 Terraplanes and Hudsons have arrived in this city and are on display, announces Sam Parsons, manager of Willis Truck & Tractor Co., Terraplane and Hudson distributor for this territory. This new line of cars, which are said to be the finest in the history of this company, may now be seen by the public.

Larger and more luxurious bodies of ultra modern type are mounted on chassis designed on the basic principle of unit-engineering which characterized the Terraplane in 1933. It is this principle which was responsible for the unprecedented record of performance and ruggedness established by this car. The Terraplane Six is made on a wheelbase of 112" and 116". The Hudson Eight is made in two wheelbase lengths, 116" and 123".

The exceptional smoothness for which Hudson-built engines have been famous since the introduction of the Super-Six is even further accentuated this year. The six-cylinder Terraplane which takes the place of last year's model will have a larger motor, the displacement being increased from 193 to 212 cubic inches due to an increase in the bore of the engine from 2-15/16" to 3", and the stroke from 4-3/4" to 5", making the dimensions now 3"x5" bore and stroke.

The new six-cylinder engine develops 80 h.p. at 3600 r.p.m. It has a compression ratio of 5.75 to 1. On the DeLuxe series Six, which is on the 116" wheelbase, there is a composite aluminum and iron head which raises the h.p. to 85 at 3600 r.p.m. with a compression ratio of 6.25 to 1.

The two Hudson eight-cylinder engines also have a full 3" bore this year and a 4-1/2" stroke. This provides a displacement of 254.47 cubic inches. The eight-cylinder engine on the standard series develops 108 h.p. at 3800 r.p.m. It has a compression ratio of 5.75 to 1. On the 123" series the engine also has a composite iron and aluminum head and develops 113 h.p. at 3800 r.p.m. Standard non-premium fuel can be used with all these power plants.

**"Sez You" Pals**  
In Under-Sea  
Screen Panic

Edmund Lowe and Victor McLaglen, those two bolsters, cloung, cloung pals, who have fought their way around the world, are at it again, forty fathoms under the sea, in the Farmont picture, "No More Women," coming Sunday and Monday at the Ritz theatre.

Hard guys, sore-heads when their fight is private, they are pals to the death against outsiders. This time, they are cast as two deep-sea divers; ace-men on rival tugs, they fight together on the bottom of the ocean for sunken gold.

Just when they think their jobs are lost due to a mortgage on the tug, their hopes are revived. Sally Blaine appears as the owner of the boat.

After a hectic battle in which McLaglen is almost murdered, they throw down the hatchet momentarily and go with Sally on the search of a \$2,000,000 sunken treasure.

Forty fathoms underneath the surface of the water, a diver from an opposing tug tries to kill McLaglen. Lowe starts to the rescue and then follows a most exciting

**TOOK PILLS FOR 30 YEARS, THEN CEREAL BROUGHT RELIEF**

Mr. Forsythe Endorses ALL-BRAN for Constipation

If you suffer from headaches, loss of appetite and energy or any other of the frequent effects of constipation, read this voluntary letter:

"After taking pills and tablets for about thirty years for constipation, I started to take your ALL-BRAN three times a day according to directions. Today I can eat cheese, and that is binding, and certainly feel fine."—Mr. Ed. Forsythe, Box 219, Youngstown, N. Y.

Science says ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to further aid regular habits. In addition, ALL-BRAN is rich in blood-building iron.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Inside the body, it forms a soft mass which gently clears the intestines of wastes.

Isn't this pleasant "cereal way" far more healthful than using patent medicines—so often habit-forming?

Just eat two tablespoonfuls daily. In serious cases use with each meal. If not relieved this way, see your doctor.
