Day by Day

It's less than a week now until we can begin watching football workouts in the evenings again. And, even though it's hard to realize in this 90 degree-plus heat, autumn is sure to be here in just another few weeks.

For some reason, doesn't it always seem that summer goes by the fastest of all! I'm sure there are lots of school children, especially little boys, who would agree with that.

Speaking of school, with the beginning of another school year in a few weeks, I plan to open a new kindergarten here. It has long been a desire of mine to work with five and six-year-olds so you'll just have to bear with me if I write now and then of the amusing incidents that occur with my kindergarten youngsters. (I will promise though, not to devulge any names nor embarrass anyone's mother or dad.)

I do invite your inquiries if you have a child you'd like to enroll.

I never was able to contact Thelma Vaughn to find out if Kandy had returned from her very exciting trip to Washington, New York City and all the other points of interest in that area. Kandy, you know, was visiting her father, MajorBob Vaughn, and for a 12-year-old was very blase' about the whole trip until time to board the plane. That's what her Granddad said anyway and I think he and Mrs. Vaughn were pretty teary eyed for a little while too when Kandy climbed aboard the plane for her first flight, all by henself.

From all reports though, the trip has been too fabulous for words.

This coconut poundcake is a very good and very easy recipe. Maybe you'd like to try it.

Seven Home Games For **Texas Tech Football Fans**

Texas Tech, for the first time since 1938, will play seven home football games this season.

Coach J. T. King could be pardoned for hoping that's an omen, for in 1938 Texas Tech enjoyed its only undefeated football season and wound up in the Cotton Bowl.

But a glance at the schedule shows that the Red Riders will have to call on more than hope to come out on the plus side of the ledger, not to mention the almost-unprecedented perfect season.

Picloram was first introduced to Texas A&M personnel in February 1963 and limited amounts were made available for research testing at that time. The new herbicide is one of a new family of chemicals and is being manufactured as two formulations, the potassium and triisopropanolamine salts .

(3) Picloram cannot be used to control unwanted vegetation on rangeland or pasture land. The only way that it can be used on grasslands is for the area to be fenced or deferred so that animals grazing the area will not be marketed. These are precautions that must be taken until nicloram is cleared for until picloram is cleared for use by F.D.A. Picloram is still in the research stage. It cannot be used for demonstrational purposes under the present regulations. All the testing with picloram has to be designated and evaluated as research. 19-Year-Olds May Be Drafted

Harold Kelly is on vacation in Wichita, Kans., at present. The grandchildren of Mrs. Mack Dortch, Ann, John, Wayne and Christine Dortch of Las Animas, Colo., have been visiting their grandmother for the past two weeks. If draft calls remain high, Texas draft boards will be inducting a "considerable number of 19-year-olds" by fall, Colonel Morris S. Schwattz, state Selective Service director, said Wed. "We will induct mostly 21-year-olds in August," Coloned Schwartz siad. "Those we'll examine in September for future induction will be mostly 20 years old."

By October, he predicted, "we will be examining a considerable number of 19-year-olds. If calls remain high, we'll be inducting them soon thereafter. We likely will be ordering a few 19-year-olds in September."

The forecast followed re-

ceipt of an amended Sept. quota for Texas of 1,459 men and an estimated Oct.

The state draft director said that the "declining age of involuntary induction during recent months has focused increased attention upon the classification of college students."

He said draft boards were advised the day after Presidents.

He said draft boards were advised the day after President Johnson announced doubling of the draft that, when they question a student's progress, they should request him to supply additional information to support continued deferment.

Colonel Schwartz also an-nounced that local boards were instructed to mail curwere instructed to mail current information questionnaires to all married men 19 to 26 years old who have no children, except in cases where current information is in the files. This action was also taken the day after the President's announcement.

"This is a preparedness measure and screening job," Colonel Schwartz said.
"Three things can happen to these men as a result of this survey.

"Those who have children, or hardship conditions, will be deferred formally, those who have wives alone will

There were standing room only crowds last year and with teams like Phillips, Stinnett, and Shamrock and others coming to town, it is going to be crowded,

We never were one to hide our compliments or complaints. Therefore, we are not going to hide this one.

After a few meetings we are very much impressed with our new Superintendent of Schools Bill Reeves. It is our opinion, after a couple of school board meetings, he is going to continue the improvement of the Spearman schools in all departments. He is, also, going

Spearman schools in all departments. He is, also, going to get a dollar's value for a dollar spent.

Like many people we wondered about hiring a man with no actual experience. He may not have had actual experience as a superintendent, but he came prepared. He knows his job and is doing it.

It is our opinion that knotty problems will get a full hearing and then a decision that is best for the entire school.

We like his philosophy that the best way to have a good school is to have good teachers.

The old lack of houses bug-a-boo is upon us again. Chamber of Commerce Manager Don Floyd says he needs two and three bedroom houses for teachers, for people who will be coming in with the new industries and for a pipeline construction crew that is supposed to be here for a while.

We keep building houses and there are still none available. It is a nice situation as far as growth is concerned, but sure works a hardship on people trying to move in.

If you have anything for rent please contact the Chamber of Commerce.

jesus instituted the Lord's Supper to replace the Passover of the Old Testament. Again it is not the bread and wine that make up the Supper for they are powerless. But the promise of God's Word makes it power.

I Cor 10:16 "The cup of blessing which we bless, is it not a participation in the blood of Christ? . . . " This can only mean the Sacramental presence of Christ. By this we mean There is a communion between our Lord and those who take the supper. The Lord is the host, and we are the

In the Supper the Lord communicates to us, We receive cleansing, Matt. 26:28 reads, "Drink of it, all of you; for this is my blood of the new covenant, which is poured out for many for the forgiveness of sins." In Baptism we are born of God but our old nature still rises up to haunt and drag us down. The Lord's Supper cleanses sons of God. It assures us our Lord Jesus still loves us and forgives. Now we receive His real power to fight satan and to grow in the Lord, We need not stumble if we would only allow the Holy Spirit of In the Supper the Lord comonly allow the Holy Spirit of Christ to work completely in

Lest we become confused, there are not three ways of forgiveness, namely baptism, Word and Lord's Supper. God offers us freely only one forgiveness but it can be ours in three ways. We can be buried with Him, or hear the spoken promises, or visible taste.
