Open House at John R. Collard Jr.'s

Pictured above are Sharon Black the lovely child sitting on her knee is the granddaughter of John R. and Marjorie, and her name is Chanda

Lee, Her Mother and also Daughter of John R., Helen Lee and her other daughter-Tiffanie Lee, Their Son

Thomas Collard-of Dallas- and John R. Collard Jr. and His lovely wife Marjorie.

John R. Collard Jr.'s Open House was a smashing success. The Collards really out did themselves with a beautiful display table of wonderful Christmas goodies. The Collards were very happy because they were honored with the presence of their son Thomas Collard, who came from Dallas to spend Christmas with them. Thomas is a Claims Supervisor with Republic Insurance of Dallas.

Kip Pittman, son of Frank and Lucy Pittman, of Morse, Texas, has been diagnosed as having Aplastic Anemia. Kip will be undergoing a bone marrow transplant as a patient in the Scripps Clinic of LaJolla, California. He will be a patient for the next several weeks. Kip can be written to, as the following address:
Kip Pittman
C/o Scripps Clinic
10666 N. Torrey Pines

Happy New Year

Time to ring in the New Year with our best wishes and thanks for your patronage.

It was open house at Johnson Cooke Motor Co., in Perryton over the week-end as they displayed one of the beautiful new Ford Motor Co. Cars. On the left, is Dean Cooke and on the right is Marty Murry. Drop by during the New Year's festivities and see the new cars!

GUYMON DAILY HERALD

ANR reaches no decision on meetings or resolution

A.N.R. Pipeline Co., a subsidiary of Coastal Corp., has made no decision as yet about further meetings to discuss a hazardous waste disposal site or whether to withdraw its proposal for the facility.

Dale Malzahn, head of environmental health and safety for A.N.R., said Monday he did not expect a decision about further meetings or a reaction on the Hansford County Commissioners' resolution until after the holidays.

"I think there was a positive aspect gained from the meeting," said Malzahn. "Both sides benefited from the exchange of information. We know each other better and have set up a line of communication."

Malzahn explained the proposed disposal facility more fully. He said A.N.R. planned the project in four phases. One phase would be completed each year for four years. The entire project involves the cleanup of 16 sites.

During a period of about three months each year, four sites would be scheduled for removal of PCB-contaminated soil. Each site would be completed before another clean-up operation would begin.

After each site is cleaned, the PCB soil will be transported to the Edgar G. Hill station in Hansford County and deposited in a three sided disposal pit. In between deposits from A.N.R. stations

a layer of top soil, three or four inches thick, would be spread over the waste.

Malzahn affirmed there would be no danger of the soil blowing. "It will be like a rock," he stated.

When the waste is removed from all four sites, a plastic top would seal the disposal pit.

"It wouldn't be feasible for each site to dispose of its own PCB waste," he explained. "Some sites have ground water only three or four inches deep and we would be unable to make certain there would be no leakage."

The waste disposal area in Hansford County will have a clay liner made up of soil from the dike area. Then a 1/4-inch plastic liner will be put on top of the clay to make it doubly safe.

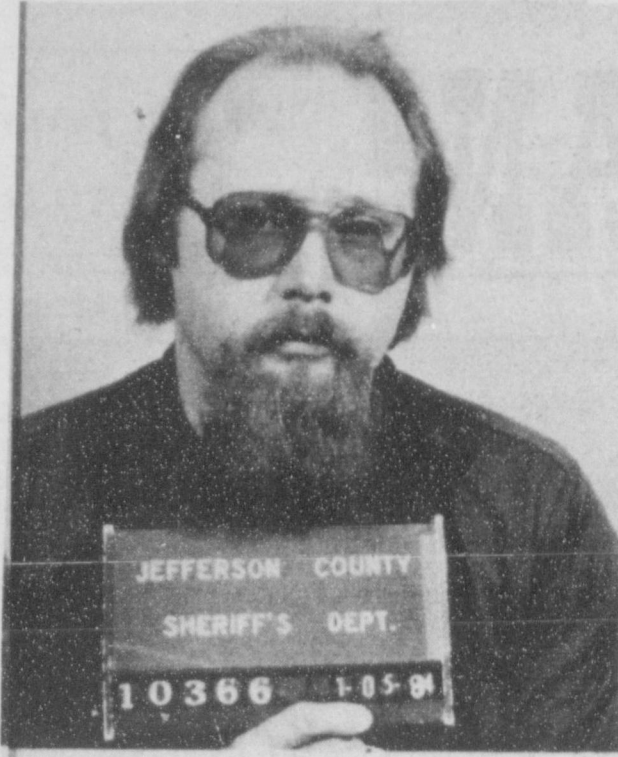

"We can't be too technical as yet since the EPA has not even rendered a tentative decision," explained Malzahn. "They have to agree on specifications. According to EPA requirements, the clay liner might have been enough protection. The company wanted to make certain of protection and added the plastic liner."

Malzahn feels as if the company shouldn't be considered the heavy in this case. "We feel as if A.N.R. is a victim," he said.

In 1973, A.N.R. discovered the fire retardant lubrication used in the company's air compressors contained PCBs and discontinued its use.

See ANR page 2

CRIME STOPPERS

Turner

PORT ARTHUR, Texas -- Russell Edward Turner has a tattoo of the "Grim Reaper" on his right shoulder.

The tattoo was a grisly portent of the violent twist that Turner's life has taken in the past year and a half.

Jefferson County law enforcement authorities say Turner, 33, is wanted on warrants charging him with the September 21, 1984, murder of Jewel Savoy, Jr., of Port Arthur.

Investigators say Turner apparently discovered Savoy with Turner's wife inside their Port Arthur residence and allegedly chased the victim down the street, repeatedly stabbing him. Savoy eventually died from more than two dozen stab wounds.

Turner was arrested the same night and posted bond and was released from jail. But on April 29, 1985, a warrant was issued for Turner's arrest when he failed to appear for a court hearing.

Then on July 4, 1985, the fugitive's eight-year-old daughter Angie Marie Turner disappeared. Investigators believe the youngster is with her father.

A spokesman for the Jefferson County Sheriff's Department said Turner is a known associate of the Bandido Motorcycle Gang and might be in the company of some of the gang members.

Officers have checked out a number of possible sightings of their elusive fugitive, including locations in Houston, Vidor, Port Arthur, Lafayette, Louisiana and Randalett, Oklahoma, but have come up repeatedly empty-handed.

Turner, who was born in Dotesdale, England, to American parents,

is described as a white male, 6-1, 235 pounds, with brown hair and blue eyes. He has a number of tattoos in addition to the "Grim Reaper" on his right shoulder -- a one-inch long cross on his left shoulder and a dollar sign about an inch long on the right palm near the meaty area below the thumb.

Acquaintances have told investigators that Turner is addicted to Mandrax, a synthetic sedative similar to Quaalude, and needs about one to two dozen tablets a day.

Turner is believed to be accompanied by his daughter, Angie Marie, a white female, with dark brown hair, brown eyes and a dark complexion.

Officials say Turner is known to carry weapons and should be considered armed and dangerous. He has worked in the past as a welder and mechanic.

This week Turner has been added to the Texas Most Wanted list. A \$1,000 reward is being offered by the Governor's Office for information leading to the fugitive's capture.

Anyone who might have information concerning Turner's whereabouts is asked to call the Texas Crime Stoppers Advisory Council toll-free at 1-800-252-8477 or their local Crime Stoppers program.

In all cases, callers do not have to reveal their identities.

Texas Most Wanted is a cooperative program between the Department of Public Safety and the 130 Crime Stoppers programs in the state.

As of December 23, 1985, the Department of Public Safety reported that Russell Edward Turner is wanted on the following warrant:

Murder -- Jefferson County

Panhandle Crisis Center

Thanks to all you compassionate people who support the efforts of the Panhandle Crisis Center, several clients will have had - maybe not a Merry Christmas - but at least one that is more comfortable than it would have been without us. Someone else's need is not an intrusion when it is possible to do something about it. Christmas often brings a rash of calls for help from households that experience domestic violence, and we are happy to be able to respond to those calls effectively and immediately. Thanks again for your support.

Though the "permanent" shelter is experiencing some difficulty in getting itself launched, we are finding ways to solve those difficulties. Almost certainly by the first of the year, we will be able to put it into operation. Some needs still remain, of course, such as a refrigerator and a deep-freeze, so if you are planning to replace the one you have, please give us a call. The response has been gratifying to our plea for essential furniture, but if you find you have some you want to move

out, please check with us. That includes bedding, kitchen ware, table settings, etc.

Now, more about rape: We understand that it is extremely difficult for most women to be willing to prosecute their violators. But whether or not you wish to prosecute, you need support at such a wretched time. We are able and eager to give it. If this experience should be yours, call us immediately, and we will start the healing process, whether or not you are willing to prosecute. Your call will be absolutely confidential. One of the things we can assure the victim of rape is medication to prevent pregnancy, but we must hear from you within 24 hours. The psychological healing can be delayed, but the sooner you begin, the better.

So many victims of rape go without vital help because of their reluctance to tell of their humiliation. Certainly they want to avoid publicity. But it is always a trauma from which recovery is difficult - maybe impossible - without proper nurturing. It can haunt the victim for years. For

ANR from page one

In 1983 Malzahn said the company discovered there was PCB residue in the water run-off when the air coolers were drained. The residue drained into a retention pond at each site.

The company began a clean-up operation and continued it through 1985. The PCB residue from the clean-up operation was deposited in a commercial hazardous waste site.

"The company decided to be a leader by cleaning up all the sites," said Malzahn. "It could have become an issue and the company decided to eliminate it before it became a problem."

PCB waste needed to be eliminated from 30 sites. The company has cleaned 14, depositing the waste at commercial landfills. Last year the company ran into a problem. More and more of the landfills were closed and there was no place to deposit the waste.

The solution was to build A.N.R.'s own monofil waste site. "We looked at every other solution. We evaluated everything

and took into consideration chemical treatment and incineration. However, neither solution seemed to meet our needs," explained Malzahn.

Company officials met with the EPA in June and the EPA asked for field testing. The proposal was submitted to the regional EPA office in Dallas in November. Now the company awaits the tentative decision.

"It is the law that the EPA hold a 30 day comment period after the tentative affirmation of the proposal," Malzahn said. "Then it will make a final decision about the waste site."

"The PCB issue has been blown all out of proportion," he added. "Environmental groups are backing off of it. The risk involved is not that great according to EPA standards."

CAPP (Citizens Against Poisonous Pollutants), an organization formed by residents of the Panhandles of Texas and Oklahoma, is asking concerned citizens to write to the USEPA, Jim Sales, 1201 Elm St., 28th Floor, Dallas, Tex. 75270.

The committee's prime concerns are high winds in the Panhandle, which could transport the PCBs to grazing or farm land, and unsafe road conditions that could cause problems with the transportation of toxic wastes.

JOB STRESS

BOSTON -- The stress of balancing work and family responsibilities is the leading factor in depression among employees, researchers said recently in a report refuting the belief that women are more depression-prone than men.

your own well-being, please call us immediately.

Again, if you have been a victim in the past and find yourself still suffering from it, call us to learn about our support groups. If you have worked out your difficulty, perhaps you can help others of the support group who are still working on theirs. This also applies to those who were victimized in their own homes as they were growing up. We need you. Please call us (435-5008) and help us help you to help yourself and others.

May the New Year be gratifying with challenges, opportunities, with solutions to problems, with richness of being.

Happy New Year to all! May it bring happy days, good times and new friendships. Thanks for your support.

ENDORSE MORE TALKS
GENEVA -- President Reagan and Soviet leader Mikhail Gorbachev concluded their summit, claiming "broad areas of agreement," and U.S. officials said the two leaders had reached an understanding that they will hold two more summits, one in the U.S. and the other in the USSR.

What will Smokey the Bear think when he learns the U.S. Forest Service purposely torched 1,000 acres of Colorado timber with napalm? Stay cool, Smokey. International Wildlife magazine reports it was a friendly fire, set to create grazing grounds for a herd of bighorn sheep. Fire will become an increasingly common tool for renewing aged and disease-ridden western forests. Man's success in controlling natural fires has led to the rise of tree parasites and dead timber that could fuel catastrophic wildfires.

Mike Stevens to speak at Union Church

Mike Stevens will be ministering the Word of God at Spearman Union Church Sunday, December 29th at 10:45 A.M. and 6:30 P.M.

Unmistakably, the world is in a mess! One need only to step outside to observe just how far toward impossible our world has moved. Record crime, drug and alcohol abuse, prostitution, rebellion, anarchy, and humanism has taken over America's youth and are driving us to the point of impending judgement. Where will it stop?

We do not have that answer, but are fortunate to have people such as Mike Stevens to address our problems with a solution: A personal relationship with Jesus Christ. Mike offers that solution at every available opportunity, for

he has discovered the underlying truth of the message of Jesus Christ. That truth is that Christ lived His Life and taught us to live ours driven by one thing: Compassion for the needs of others. When Christ saw a need, He met that need be it spiritual or physical.

Since leaving West Texas State, life has found Mike in a variety of circumstances. But through all of the change that accompanies any early life, one thing has remained certain: God's call upon Mike Stevens to preach the Truth to all His world.

Pastor Steve Rogers extends a warm welcome to the public to join us in worship to our Lord and to hear the message God has given Mike Stevens.

Karen's Crazy Korner

The candles that make a beautiful centerpiece for your holiday dinners can also ruin your table cloth, if you don't know how to remove wax stains.

Simply washing and drying linens may permanently set any stains. But taking a few simple steps before washing can make linens look like new again.

Let the wax harden by putting the linen in the freezer or rubbing the wax with an ice cube. Then crumble the fabric and the wax should flake away.

If that doesn't work, scrape the wax from the fabric with a table knife, place the stained area between paper towels and press with a warm iron. The softened wax should transfer to the towels.

After ironing, put the fabric face down on a paper towel and sponge any remaining stain with a dry cleaning solvent or pre-wash spray. When the fabric is dry, launder as usual.

If the wax from colored candles leaves a dye stain, it can be removed by adding oxygen bleach to the wash cycle. When the stain is on a colored table cloth, make sure that the oxygen bleach is a brand that is safe for colored fabrics.

registration is based upon the following alphabetical order for any time in the schedule after their starting times have passed. Note, this schedule is NOT divided by classes, as previously printed in the university catalog.

Students paying tuition and fees by check must have a valid driver's license and a WTSU ID card. Late registration, with a \$5 penalty, begins on Thursday, Jan. 16. Thursday is also the first day of classes in WTSU's spring semester.

New program at WTSU

On Jan. 15, West Texas State University will institute several changes in its registration procedures, all made possible by the number of students who have pre-registered for spring semester.

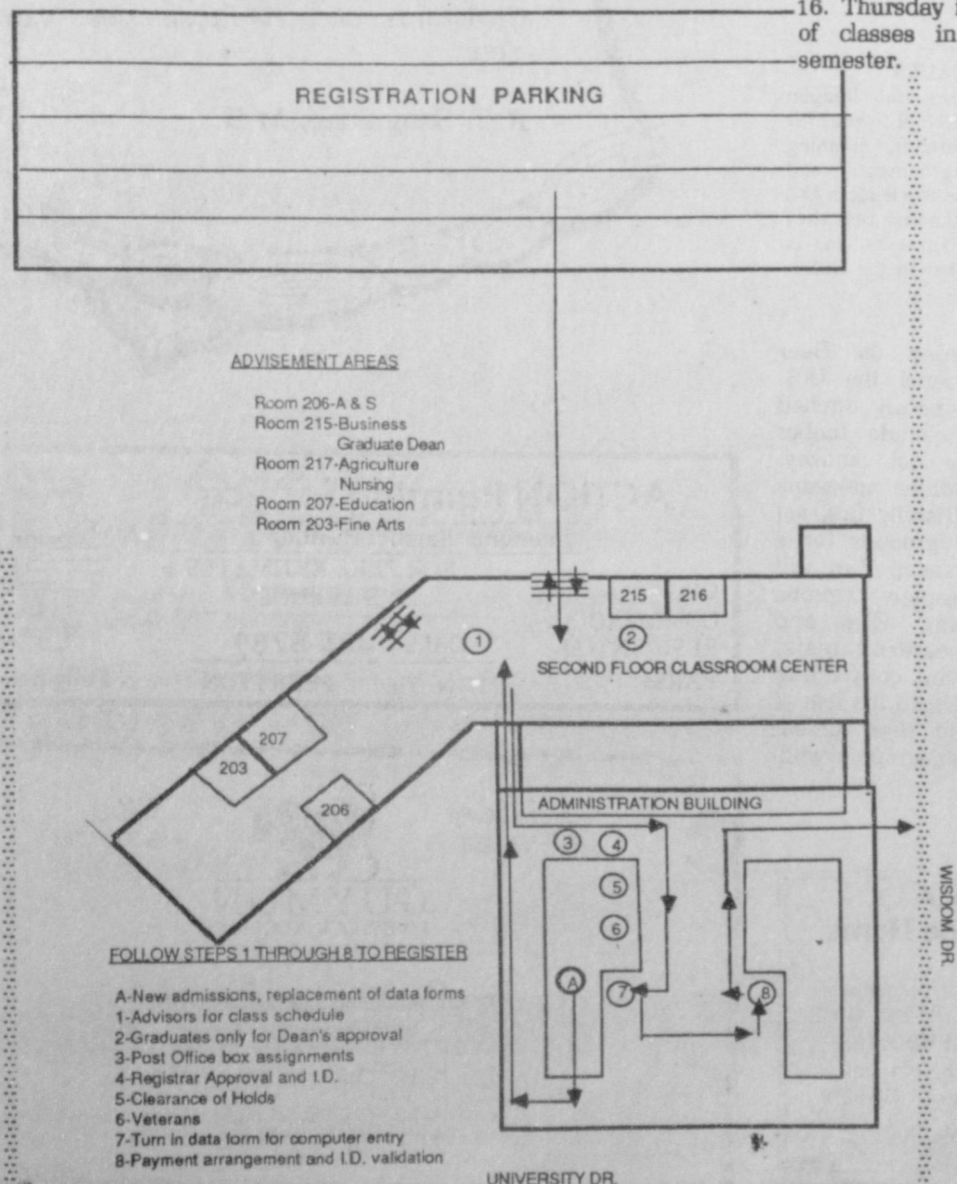

Over 60 percent of the present student body have completed registration procedures already. With fewer students remaining to be registered, advisement, scheduling, terminal entry and billing will now be held in WTSU's Classroom Center and Administration Building (see diagram below.)

Faculty advising for student schedules will begin in the Classroom Center at 8 a.m., Jan. 15, last names:

8:30-9:30-Ca-Co, Cp-D
9:30-10:30-Sa-Sp, Sq-V
10:30-11:30-Q-R, Mo-N
11:30-12:30-L-Mb, O-P
12:30-1:30-W-Z, A-BI
1:30-2:30-Bm-Bz, I-K
2:30-3:30-Ha-He, E-F
3:30-4:30-Hf-Hz, G

Students may begin registering and will continue until 5 p.m. Terminal entry and payment of fees will take place in the Administration Building from 8:30 a.m. until the final student has registered.

Among The Neighbors

Mr and Mrs. Kenneth Friemel's busy week began on Sunday when they participated in the Golden Wedding Anniversary of Mr. Friemel's parents, Mr. and Mrs. Ted Friemel, in Groom. The observance was hosted by the four children of the elder Friemels.

Tuesday the Kenneth Friemels and Shelly, and Mr. and Mrs. Joey Campbell and Colten were in Groom in the home of Mrs. Friemels mother, Mrs. Lenabel Newton, and Christmas day with the Ted Friemels.

Mr and Mrs. David Cummings and Kevin of Hereford spent Christmas day in the home of his brother, Mr. and Mrs. Wayne Cummings and Kelli. Also present was their mother, Mrs. Stella Cummings, sister Joyce and her son, Kris.

Mr. and Mrs. John Trindle spent Christmas at Arnett in the home of

her sister, Mr. and Mrs. Ben Gillispie. The Gillispie's four children and all their children were also present. Mr. and Mrs. Larry Holt and their children were also guests, then they drove on to Kingfisher, Oklahoma to visit with her grandmother, Mrs. Jesse Trindle.

The Chalmers Porters enjoyed Christmas and the weekend with Son Doug, here from Chicago, and William and Laura Porter with little Jennifer from Columbia, Missouri. Much missed was another son, Raymie and family who are in Cali, Columbia, South America.

Observing Christmas in the home of Mr. and Mrs. Fred Holt were all their children--Ray and Hazel Slyter-Ken, Stacey, Mark, Christy of Augusta, Kansas; Kerri Holt, Dallas, Mrs. Blanche Fredricks, Houston, and from Spearman were Susan and

Brian Kidder, Mr and Mrs. Mike Holt and Michael, Mrs. Hazel Loftin and Myrle Farrinton.

Christmas was week-long for Amelia Johnson with guests-her son Nick Nelson and Jennifer Longhi, of Dallas; Daughter, Jennifer Nelson of Houston. Then on Christmas Eve another daughter and husband, the Garland Dahls of the Oslo Community joined them. All the family enjoyed the candlelight Christmas Service at the Oslo Lutheran Church Sunday evening.

All of the children and grandchildren made a joyous Christmas for the Everett Vanderberg's by being in their home. They were Lynn and Nelda Callaway and two children, Amarillo; Mr. and Mrs. Jack Vanderberg and three children of Dalhart and the Jim Davis and three children of Spearman.

Christmas was complete for Mrs. Ruth Shaver with all her children visiting her for several days this week. Mr. and Mrs. Roddy Woodson and Reagan of Garland and Mr. and Mrs. Jim Vernon and Kristin of Carrollton were here nearly a week. On Christmas day all spent the day in the home of Mr. and Mrs. Lee Shaver of Spearman.

Mrs. Annie Allen's out-of-town guests thru the holidays were her nephew and family-the Vernon Kings, with David and Gene, of Asheboro, North Carolina. The Lewis Schnells hosted the family dinner on Christmas Day. Other guests were Mr. and Mrs. Eldon Allen and three children, Amarillo; The James Schnells, Mr. and Mrs. Dee Allen and family and Verna Gail Keim. The Don Allens were unable to attend as they spent Christmas in Clayton with her mother Mrs. Lewis Frank.

Mrs. Hazel Loftin is leaving Monday to fly to Austin for an extended visit with her son, Paul.

It was almost a case of reservations required in the home of Mrs. Velma and Dorothy Roden for Christmas week. They enjoyed every minute of the schedule which follows: Monday and Tuesday, Mrs. Roden's son, Howard and Jerry Roden of Eufaula, Oklahoma; Tuesday and Wednesday, Granddaughter Karla Krull, and fiance Dallas; Tuesday, Wednesday, Thursday, daughter, Anita Krull and son, Brian, Dallas; Thursday and Friday, grandson Gary and Judy Roden, and daughter, Jennifer of Norman, Oklahoma; Friday and Saturday, daughter Helen, and Joe Banks, Marietta, Oklahoma.

Brian Krull stayed for a few days visit after Christmas.

Deana Mae and Will Douglas spent a quiet Christmas at home since both are recovering from illness. Deana Mae is unable to write, but wishes to thank all the friends and neighbors who have been so kind and helpful. according to Will and Deana Mae, never has the true spirit of Christmas been more evident to them, and they ask that each person accept this as an expression of their sincere appreciation.

WORD of GOD

For Those Who Are Troubled:

But the Comforter, which is the Holy Ghost, whom the Father will send in my name, he shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you.

Peace I leave with you, my peace I give unto you: not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid.

Fulfillment (New Testament)

And when he had gathered all the chief priests and scribes of the people together, he demanded of them where Christ should be born.

And they said unto him, In Bethlehem of Judaea: for thus it is written by the prophet,

And thou Bethlehem, in the land of Juda, art not the least among the princes of Juda: for out of thee shall come a Governor, that shall rule my people Israel.

Matthew 2:4-6

Texas Safety Belt Day

Governor Mark White today signed an Official Memorandum designating January 1, 1986, as "Safety Belt Day in Texas" to encourage all Texans who have not gotten into the habit of buckling their seat belts to make it their New Year's resolution.

"The average person makes about 45,000 automobile trips in a lifetime. Statistically, the chances are one in three that each person will be involved in a serious or fatal crash," Governor White said. "The best preventive action that anyone can take to protect himself from death or serious injury in an automobile crash is to buckle up."

Approximately 46,000 highway fatalities occur per year across the nation. Statistics show that a person, has a 50 percent greater chance of being killed in a car crash and a much greater chance of serious injury if he is not wearing a safety belt.

The 69th Legislature passed the seat belt law which mandates that all drivers and front-seat passengers wear safety belts. The law went into effect September 1, and a grace period was allowed until December 1.

"We are already seeing a dramatic decrease in automobile fatalities and serious injuries since the seat belt law went into effect," the governor said. "I encourage all citizens to obey this law for their sake and the sake of their loved ones."

Representatives of the Tarrant County Red Cross were present as Governor White signed the memorandum.

Prophecy (Old Testament)

But thou, Bethlehem Ephratah, though thou be little among the thousands of Judah, yet out of thee shall he come forth unto me that is to be ruler in Israel; whose goings forth have been from of old, from everlasting.

Micah 5:2

WORD of GOD

Seek The Lord

When thou saidst, Seek ye my face; my heart said unto thee, Thy face, Lord, will I seek.

Psalms 27:8

MIA SEARCH

YEN THUONG, VIETNAM -- The first joint U.S.-Vietnamese search was conducted in a garden where villagers said a B-52 bomber crashed 13 years ago at an agricultural commune nine miles north of Hanoi. Vietnamese officials said four U.S. airmen probably died in the crash.

SBA has openings

The Small Business Center at West Texas State University has openings for ten to fifteen consultation projects to be conducted during the Spring semester. The majority of the Center's management consultation is funded by the SBA through its Small Business Institute. The Center conducts feasibility studies, marketing studies, and industry analyses; it develops recordkeeping systems and designs or refines office management techniques. The consulting projects that are generated in the Center also cover many variations of these general topics. SPB consultation projects run the length of a regular semester and are provided at no cost to the business owner or manager requesting the project.

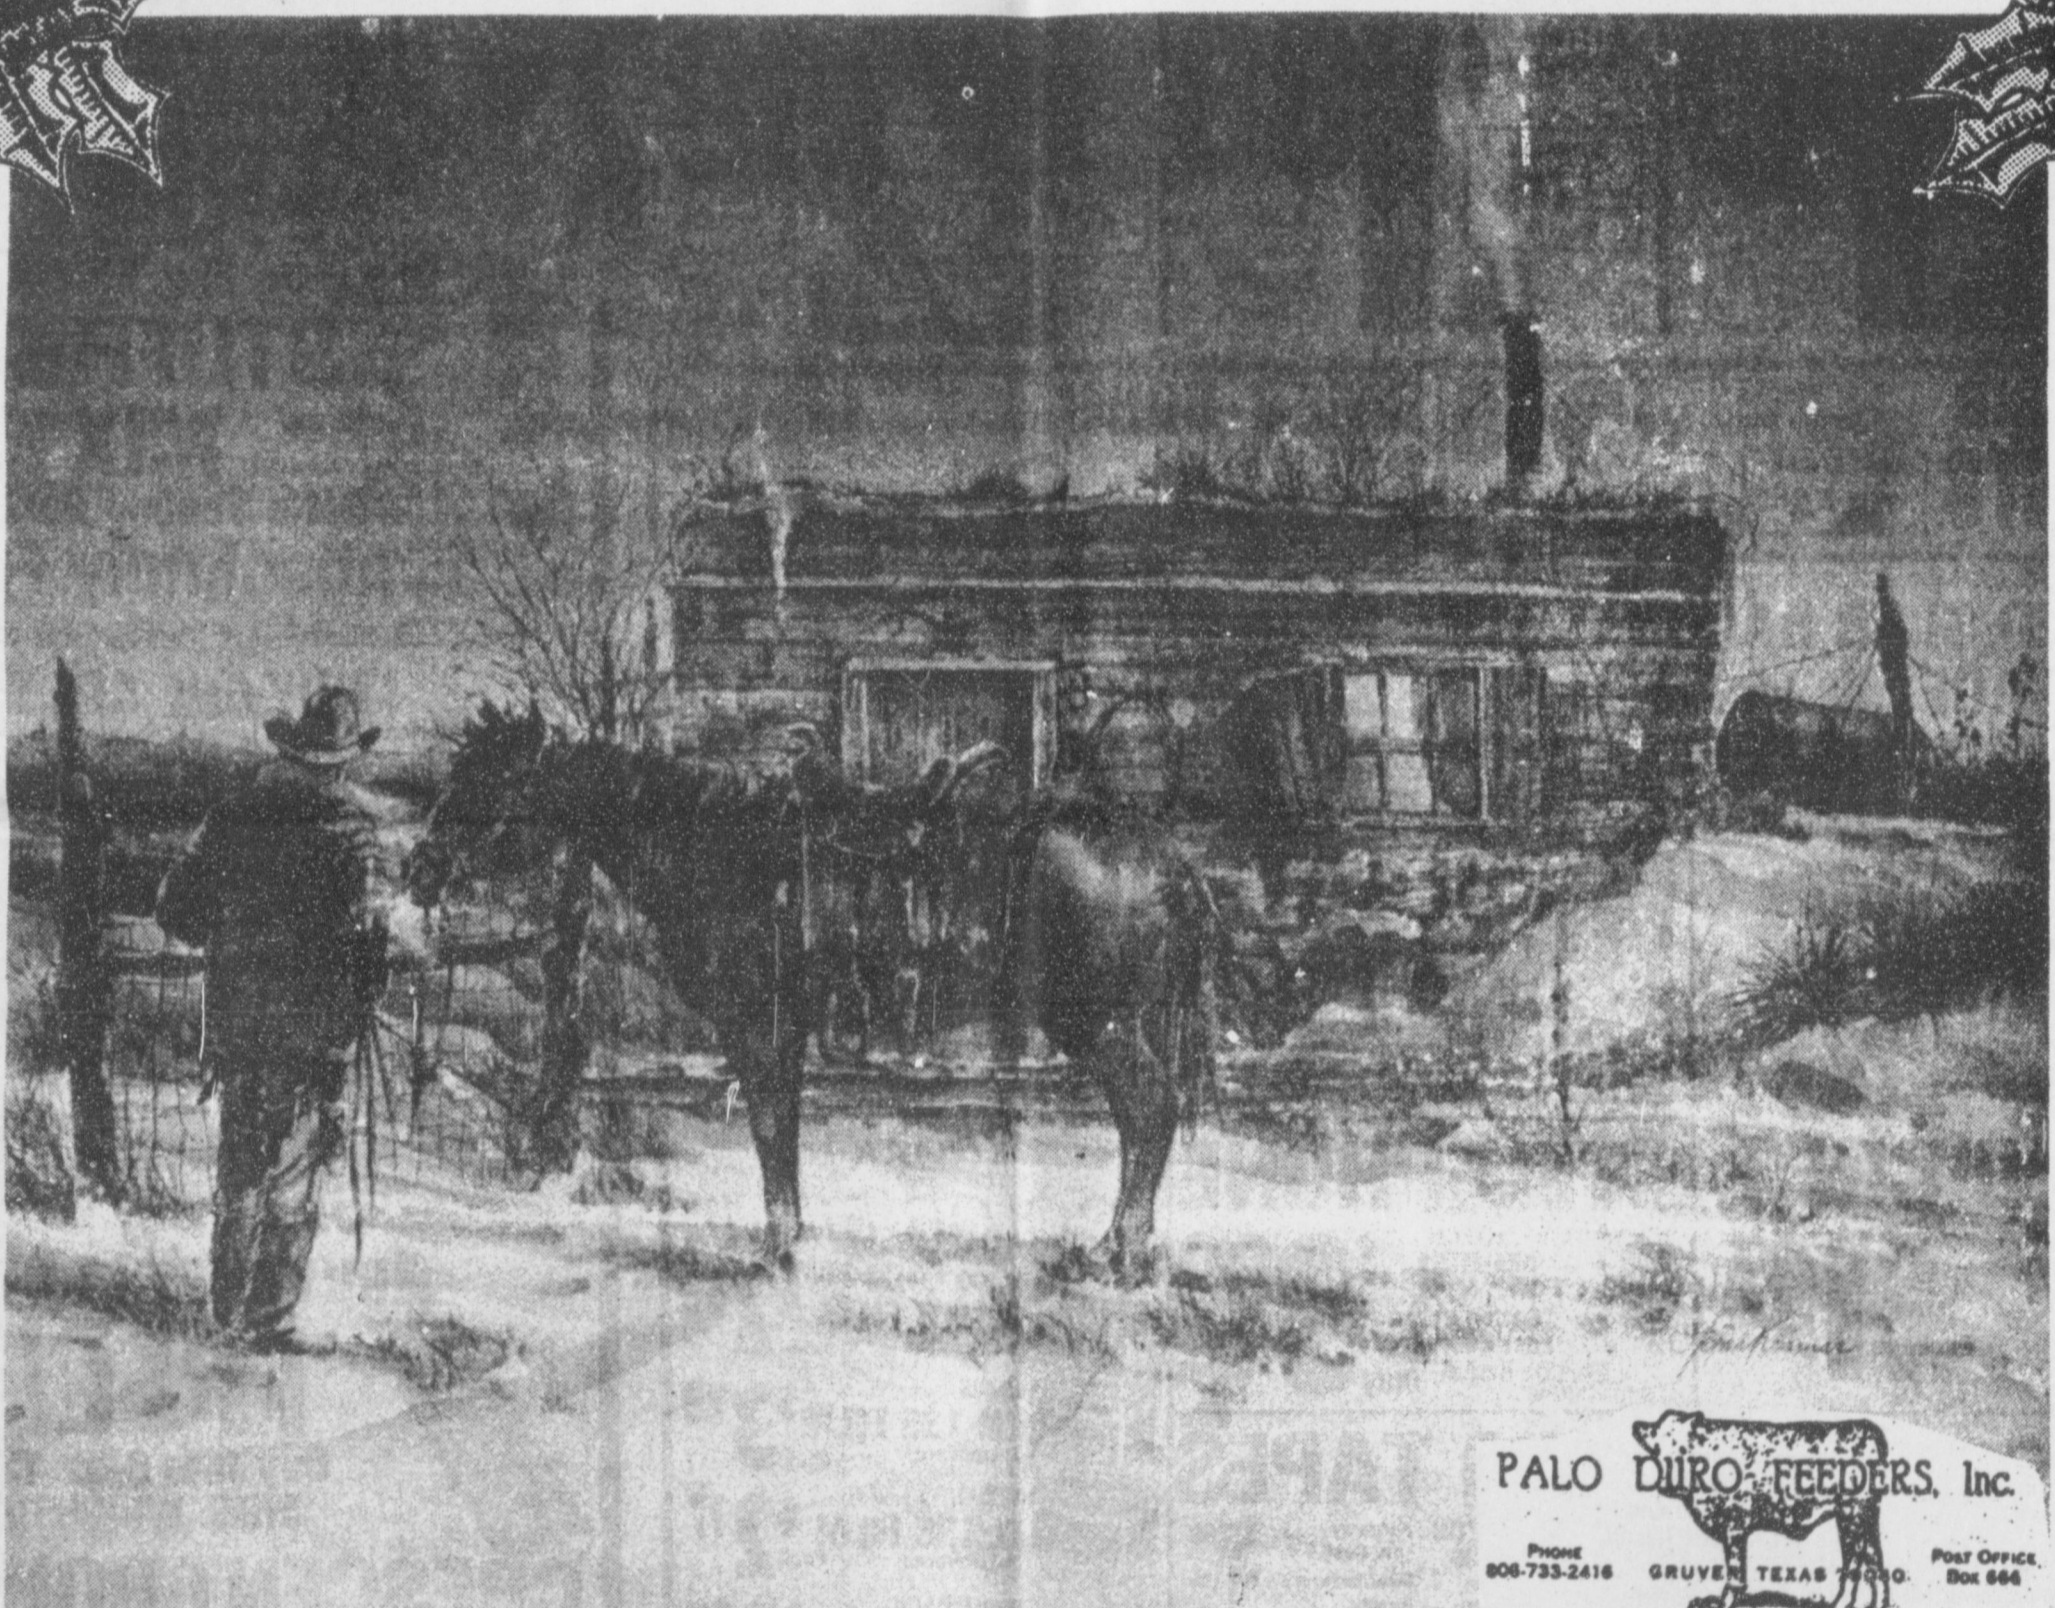

If you are interested in starting a new business or improving your current business operations, contact Bob Worthington or Glenna Martinez at 659-3897 or 659-2431.

FIRST LADIES

GENEVA -- Nancy Reagan and Raisa Gorbachev lingered over a pot of tea, swapped invitations to visit each other's homelands and voiced hopes their husbands will discover "a better understanding" in their summit talks.

JOHN PAUL'S AUTHORITY

VATICAN CITY -- Pope John Paul II recently convened a meeting of cardinals on reforming the Catholic Church government with a warning against any "aberrant" challenge to his papal powers.

Jan. 1-2 — Texas Wagon Train Kick-Off, Sulphur Springs. The pioneer spirit is still alive! Hundreds will circle all or part way around Texas by covered wagon and horseback as a living exhibit of our western heritage. The train will travel for six months over 3,000 miles visiting 150 cities and towns. Starting in Sulphur Springs, the train will circle south to Houston and Corpus Christi, west to El Paso, north to the Panhandle, then back to end in Fort Worth on July

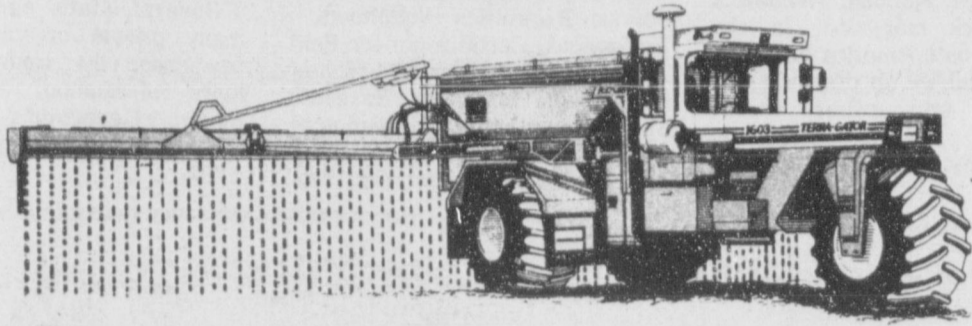

3. Check with your local Chamber of Commerce for scheduled stop in your area. Participants must become a member of the association and reservations to travel are on an "as available" basis. Details from Texas Wagon Train Association, P.O. Box 167217, Irving 75016 (1-800-441-1986 or 214-257-0664).

Jan. 1 — 29th Annual Cotton Bowl Parade and Football Classic, Dallas. A special salute to the

Sesquicentennial will be featured this year. The parade begins at 9 a.m. near the Convention Center, moving east on Commerce from

Houston to Harwood and then south to the Scottish Rite Temple. At noon, it's Texas A&M University vs. Auburn University in the Cotton Bowl at Fair Park.

TOP DRESS YOUR WHEAT NOW FOR MORE BUSHELS AT HARVEST

Liquid fertilizer, such as 28% UAN Solution, is priced as low as we have seen in years. A top dress application of liquid fertilizer has proven to be a cost effective method of increasing yields at harvest. Also herbicides, such as 2, 4-D or Glean can be applied right along with fertilizer. We cannot forecast how long fertilizer prices will remain at these levels, but you may want to seriously consider making a decision on your fertilizer needs as soon as possible, while there is plenty of time, product, and equipment available.

See your fertilizer specialist at the Perryton Equity.

WORD of GOD

Lord, how are they increased that trouble me! Many are they that rise up against me.

Many there be which say of my soul, There is no help for him in God. Selah.

But thou, O Lord, art a shield for me; my glory, and the lifter of mine head.

I cried unto the Lord with my voice, and he heard me out of his holy hill. Selah.

I laid me down and slept; I awakened, for the Lord sustained me.

I will not be afraid of ten thousands of people, that have set themselves against me round about.

Arise, O Lord; save me, O my God: for thou hast smitten all mine enemies upon the cheek bone; thou has broken the teeth of the ungodly.

We're wishing every new day of the New Year to bring you a world of happiness and prosperity. Thanks for your valued business.

We will be closed New Year's January 1, 1986

Our Heritage of Faith...

The basic traditional Liturgical Worship Services has two centers: God's Word and the Sacraments of Christ.

Always in Worship, we are telling the wonderful deeds of God as he has provided for our salvation. We tell it in confessing sin and our need for salvation; we tell it in song and praise; we tell

it in the confession of faith; we tell it in prayer; we tell it in the Sacraments because they have no meaning without the Words of Christ.

NEXT TOPIC: More about worship.

Bill Schardin, Pastor
Faith Lutheran Church
Spearman, Texas

The hottest known star, discovered near the Little Dipper, is 40 times hotter than the surface of the sun, reports *International Wildlife* magazine. Scientists believe it is evolving so rapidly that in 10 years it will undergo the same changes that will occur in about 5 billion years for our sun.

Do days seem shorter than they used to be? El Nino can take part of the blame, says *International Wildlife* magazine. Intense winds during the severe 1983 weather phenomenon known as El Nino accelerated the Earth's spin -- shortening the day by three-thousandths of a second.

It's no surprise that cats tend to loners, while dogs are usually sociable, says *International Wildlife* magazine. Just go back 25 million years in time for an evolutionary clue. Back then, the wild creatures we know today as cats lived in forests. There they learned they could best sneak up on prey if they hunted alone. Ancestors of the domestic dog, on the other hand, lived on the grasslands. Rather than using the element of surprise to capture their prey, dogs discovered they could hunt down other animals better if they worked together as a team. This adaptation to their different natural habitats, explains why today, dogs are dogs, cats are cats.

WORD of GOD

Jesus answered and said unto them, Destroy this temple and in three days I will raise it up.

John 2:19

And as Moses lifted up the serpent in the wilderness, even so must the Son of man be lifted up:

That whosoever believeth in him should not perish, but have eternal life.

John 3:14-15

Not all bees feed on pollen and nectar, says *National Wildlife's Ranger Rick* magazine. In the forests of South America there are bees that gobble up dead snakes, anteaters and other forest creatures. They're named - appropriately enough - vulture bees.

Volunteer conference

The Governor's Office of Community Leadership will sponsor the 1986 Texas Volunteer Conference on April 7-8 at the Hyatt Hotel in Austin.

Gay Erwin, director of the Office of Community Leadership, said the program is designed to assist both volunteers and professional administrators of volunteer programs from both the public and private sectors.

Texas First Lady Linda Gale White will present awards to outstanding volunteers selected from nominees from across Texas representing varied field of interest.

Workshop topics will include Creative Fundraising, Community Service Restitution Volunteers, Professional Certification for Paid Administrators, Corporate Volunteers, Legal Liabilities, Burnout/Stress Management, Evaluation of Volunteer Programs, Working with Boards, Marketing Your Pro-

gram, and Special Needs of Rural Volunteer Programs.

Several new, innovative volunteer programs will also be presented.

Official forms to nominate volunteers for awards will be available January 15 through the

Governor's Office of Community Leadership with a return deadline of March 1, 1986. Registration forms for the conference will be available in February with a March 24, 1986, registration deadline.

Several state agencies and many private organizations will co-sponsor the conference. For more information, contact Gay Erwin, Governor's Office of Community Leadership, (512) 463-1782.

To help reduce airplane collisions with birds, Japan's All-Nippon Airways is painting large eyes on the turbines of one of its Boeing 747s, reports *International Wildlife* magazine. It's thought the eyes will scare birds away from the aircraft. If the technique works, the \$40 paint job could save over \$600,000 a year and perhaps prevent fatal crashes.
