VOLUME VIII., NUMBER 18

SPEARMAN, HANSFORD COUNTY, TEXAS 79081

SUNDAY, DECEMBER 18, 1966

With the Christmas week upon us, we are going to do our complaining today and then have a real happy Christmas week.

First, we do not think the Commissioners Court acted fairly in their decision this week to refuse to call the bond election on the library. Second we would like to see some action started on the Panhandle Economic Program.

It is perfectly all right for the three commissioners to be against the library bond election. But, when a number of voters put their names to a petition asking that an election be called to decide an issue, then the people should be allowed to decide the question.

It is hard to believe that the county is in such a poor financial condition that it cannot afford the cost of an election. Nor should the oil industry hold such a heavy hand over the affairs of the county that it can block the will of the people.

As for the people voting on something they are uninformed about, that is doubtful. With three newspapers and a radio station in the county, we believe all the facts would have been presented on both sides.

The library can be built with or without the county's help, but the stand taken by the court on bond elections can have a lasting effect on future elections for improvements needed in other fields.

\*\*\*

We would like to see some positive action taken in the very near future on getting the PEP report transformed into action.

County Agent Robert Adamson says there is a County Action Committee for Hansford County. This committee needs to be activate and some meetings held, so this program can be put into action.

We have noticed in other county newspapers that committees are beginning to function in other counties. If we are going to reap the benefits, then we must get started.

\*\*\*

It is a real pleasure to see the Spearman School District, under the leadership of Dr. Bill Reeves, moving to the front in educational leadership.

The Spearman project that Dr. Reeves authored is a fine piece of planning to being more educational advantages to the children of Spearman and the entire area.

We, like many other people, are not in favor of so much federal intrusion into education. But, our tax money is being spent for federal aid to education and the children of this area will have to compete with children reaping the benefits. Therefore, the Board of Education and Dr. Reeves are acting wisely in trying to get a beneficial program here.

Anytime you think our school systems are complete, just talk to some of the students attending college. All of them taking really tough courses will tell you they needed more subjects in high school.

WONDERFUL STORY - The Christmas story is always thrilling to small children and these in Mrs. Jess Womble's kindergarten are very interested. One or two children check to see what the photographer is doing. Plainsman photo

The boys play Morse Dec. 30.

## Spearman Project Favorably Received

The Spearman Project was received favorably by all School Superintendents attending a meeting at Panhandle A&M College in Goodwell, Okla., Thursday.

The project, a program to be financed by the Federal Education Program's Title III funds, will be submitted to the departments of Education in Texas, New Mexico, Colorado, Kansas and Oklahoma and the U.S. Office of Education for approval.

If approved and established the program will provide specialized personnel to work directly with each school. These specialists are not available to schools of this size range in normal organizational patterns.

The project will cover schools in Texas, Colorado, Oklahoma, Texas and New Mexico here in the five state area.

This project will provide curriculum and materials centers to facilitate consideration and evaluation of new programs. Also, will be opportunities for cultural enrichment in an area completely isolated from any major center for the fine arts.

Provided is continuing programs in planning services, information services, research services and evaluation services. Also, provided will be both intermittent and continuing in-service programs for teachers and administration.

The program includes internship opportunities in areas of economic, sociological, anthropological, educational, research and media production.

Centers will be established in many different towns over the area. Different functions will be handled from each center.

Spearman may get the business office for the project. There are 46 different

schools included in the proposed project.

The project was planned by Dr. Bill Reeves, Superintendent of the Spearman schools.

## Last Week For Prizes

Fifteen hundred dollars in prizes will be given away to persons buying merchandise at local stores that are cooperating in the Christmas Treasure Hunt this year.

Each store has a prize or prizes for the customers shopping in the store. The tickets are given by each individual store and are good only for the prizes given by that business.

The winning numbers for each store will be posted in the window or inside the store on December 23. Then those persons holding tickets can see if they have winning numbers in the stores. The numbers will be posted until Jan. 1. The prizes will have to be claimed by then.

## LT. CRAWFORD

### IN TV FEATURE

Army Lt. Mike Crawford writes his parents, Mr. and Mrs. Cecil Crawford, that his unit of the Air Cavalry in Viet Nam has been in the television news.

Lt. Crawford wrote his parents that if they see a TV story on the Air Cavalry on NBC to look for the choppers with a circle painted on the door. Those are Crawford's unit.

He was the pilot of a single chopper that comes in and takes out a couple of Viet Cong prisoners.

EARLY CHRISTMAS - These kindergarten students are very interested in what everyone got off the Christmas tree during the party Friday. All the children got a gift and Mrs. Jess Womble, the teacher, received a large number of gifts.

## Against Tuition

A DISGRUNTLED visitor dropped into the office the other day to let off a little steam about what a lousy town Lewisville is.

On such occasions I know the individual either got up on the wrong side of the bed that morning, or his business is bad or someone has unwittingly injured his feelings, so I always hear him out.

After the visitor had run his course, I asked him to pin point exactly who the individuals were that had mistreated him or were the cause of our city being so lousy.

"Oh, everybody," he waved his hand, "...everybody is lousy!"

"That includes me, too, I presume?" I asked, fully expecting an affirmative answer.

"No, no, you're all right," he surprised me, "It's all the others."

I then began calling the name of individuals of the community, asking if he specifically meant them.

"Oh, no," he'd reply as I called of a name, "He's all right." I hurriedly ran through a list of names, but my visitor defended each one.

"How can Lewisville be such a lousy town when you think so highly of everyone I mentioned?" I asked.

"Oh, hell," the visitor replied, "let's go get a cup of coffee."

End of episode.

There is a sequel, too. Editor Clements adds it:

By the way, he writes, I did not write down the above until my visitor gave consent for me to do so. In fact, he insisted on it, saying, "Maybe it will teach others a lesson."

Maybe it has.

--Clem Clements, Lewisville Leader

## Shape Up Lufkin

When "Lufkin Town" columnist Mary Jean Maroney last week took the stump in favor of Christmas decorations for downtown Lufkin, she hit the nail on the head.

The downtown area could use considerable improvement during the holiday season. And we know of no way to get it done than by the merchants.

Sure, a lot of trade and traffic has ranged elsewhere—to Timberland Drive and the shopping centers. The remainder will wind up there, too, unless downtown area storekeepers spruce up and modernize.

Regardless of trade movement, there remains about downtown in every city a certain feeling of 'really going to town.' Owners can still capitalize on this aura, if they are willing to spend a little money and a lot of effort on it.

This, we might add, is a year-round task, with Christmas-time being just a part of it.

## Another Fable For Our Times

I am against raising the tuition at state-supported institution of high learning.

If some of the Coordinating board which recommended the hike could see how some of our students here work and scrimp to make it through school they wouldn't want to tack on this extra expense.

I daresay that a lot of students would be forced out of school if the legislature goes along with the board. Many students are on a budget so tight it won't permit an extra soft drink without getting out of kilter.

I'd a lot rather see the state spend money educating its kids than to see those kids on the poverty program in a few years.

## Raw-Bone Sophomore Thrills Buff Coaches

CANYON--When Fall football practice began at West Texas State University, Jesse Powell, a tall, raw-boned sophomore tackle from the West Texas hamlet of Spur was faced with a dilemma.

After a strong showing in spring training, Powell was groomed by the West Texas coaching staff to succeed the graduated Butch Walterscheid, leader of the Buffs' 1965 defensive unit that set school records for fewest yards allowed rushing for one season, at defensive right tackle.

Just how Powell accepted this challenge, and the pressures involved, is best reflected in his being cited by the West Texas coaching staff as the most valuable defensive player in three Buff games this season.

"We were a little worried about Jesse when Fall practice began," related Buff Head

Coach Joe Kerbel. "He carried only 185 pounds on his 6-3 frame and we were afraid he might not be large enough to endure the day-to-day pounding a lineman receives. But Jesse proved us all wrong. He's as tough as a keg of nail."

With two more seasons ahead of him, Kerbel expects even more improvement from Powell: "Jesse improved a little with every game this past season," beams Kerbel. "We would still like to see him gain about 20 pounds, but I don't believe he was ever manhandled this year. His ability to step in for Walterscheid was certainly an instrumental factor in our 7-3 season."

Like the 1965 Buffs, this year's "Unfriendly Society" was equally hard to run against. Buff opponents gained only 1,257 infantry yards in 1966, only 68 more than the record-setting 1965 team allowed.

### Lynx Take First Win In District Competition

Carl Close had a good night at the foul line and led the Spearman Lynx to a 41-39 win over the Panhandle Panthers in Panhandle Friday night.

Close hit only four field goals, but sent 12 free throws to give the Lynx their first district win. The free shots made the difference. The Lynx made 17 of 23 and Panhandle made only 7 of 20.

Both teams started slowly and Panhandle was leading 8-7 at the end of the first quarter and then 20-18 at the half.

Spearman led 27-26 at the end of three quarters. Close carried the scoring load in the closing minutes with nine points in the fourth quarter. He hit five of five free shots and two field goals.

Charles Shieldknight had eight points, Mike Hendrick and Carroll Day each had four and Benny McCullough had three. Gary Faries had two.

David Maddox had 11 points to lead Panhandle. Panhandle bombed the basket from the outside much of the night.

Both teams shot a very low

percentage as they continually shot from outside the defense.

In the final two minutes, Spearman got the lead and went into a stall. Panhandle got the ball one time, but failed to score and Spearman stalled the game out.

Panhandle outscored the Lynx from the floor 16-12. Panhandle was called for 18 fouls and the Lynx for 17.

In the closing minutes Close put the Lynx ahead on two free shots to make the score 40-39. Then while stalling, Day was fouled and he added one more.

The Lynx played deliberate basketball all the way and never did let the Panthers change them to a running game.

# People Still Eating Despite Increase In Retail Food Prices Says USDA

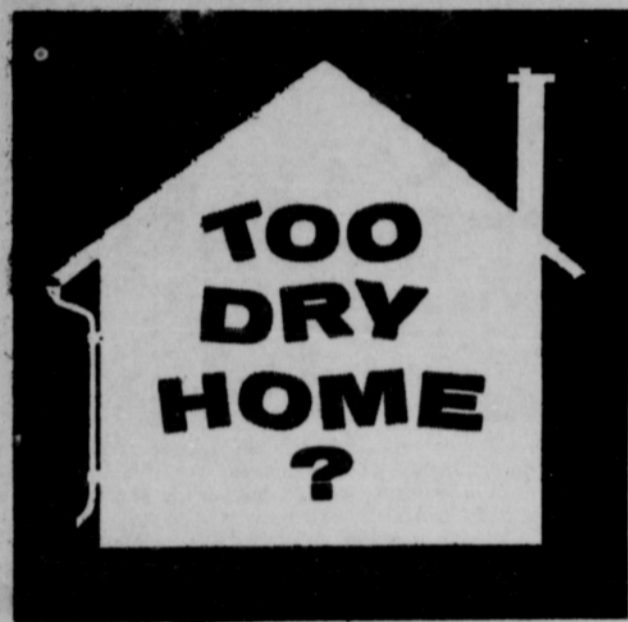

COLLEGE STATION, The per capita food consumption in 1966 is averaging about one percent larger than in 1965 despite a 4 1/2 to 5 percent increase in retail food prices. This information comes from the USDA National Food Situation report. Increased demand for poultry meat, beef, vege-

table oils and potatoes more than offset declines in pork, dairy products, animal fats and vegetables, according to Mrs. Gwen Clyatt, Texas A&M University Extension consumer marketing specialist. Most of the increase in food expenditure in 1966 is due to the increase in retail food prices.

Per capita food consumption and population each are increasing around 1 percent. Strong demand for food is implied by the simultaneous increase in both prices and consumption. The unusual price rise that developed this year can be

traced partly to reduced supplies of some important foods but most was due to the increase in demand for food products. This week, special promotions reflect good supplies of beef and increased supplies of pork. Boston butts, pork shoulder and loin roasts, chops, spareribs, sausage, bacon and liver are good buys. Beef steaks, chuck and rib roasts, various boneless roasts, ground beef and stew meat are featured items.

Apples continue as top fruit choices—flavor and color are good, prices are lower. Most abundant apple varieties include: Red Delicious, Golden Delicious and Winesap. Evidences of a good citrus supply continue with by-the-bag purchases the best values as a rule. Excellent quality juice oranges are arriving. Tangerines are some cheaper. Cranberries and avocados are in good supply. Some of the better vegetable buys are carrots, cabbage, eggplant, cauliflower, head lettuce, dry onions, sweet potatoes, mustard, collards and turnip greens.

**OIL UNDER THE RUNWAYS** — An oil-bearing formation below the Corpus Christi Naval Air Station presented an unusual drilling problem for Humble Oil & Refining Company. Wells had to be completed without interfering with any flights or other base operations. Humble, which obtained federal leases to drill for the oil, completed approxi-

mately 30 wells by directional drilling. This illustration shows how a typical well was angled away from the well head site to a completion point three-fourths of a mile away. The black dot on one of the runways indicates where the well would have been drilled in the normal vertical fashion if the surface had not been restricted.

**Founder of Red Cross**

Clara Barton, Civil War nurse, was born on Christmas Day in 1821. It was her warm thoughts of Christmas that led her, when she set off to visit her brother, a prisoner during the Civil War, to offer

to take presents not only to him but to the prisoner relatives of all her Oxford, Mass., neighbors.

Subsequently, Clara Barton was instrumental in founding the American Red Cross and served as its president for many years.

Sir Isaac Newton, English physicist, mathematician, philosopher greeted his first Christmas, and his first day, in Lincolnshire, England, in 1642.

Frail and sickly as a youth, he devoted many boyhood Decembers to inventing and making Christmas toys.

**Lynxettes Squeeze Win  
From Pantherettes 40-39**

Free throws were a very big weapon for the Spearman Lynxettes Friday night in Panhandle as the Lynxettes squeezed out a 40-39 win over the Pantherettes. For the first time in many years the Lynxettes were outscored from the floor and had to rely on the charity tosses for the victory.

The Pantherettes were primed to hand the young Lynxettes their first district loss since 1961 but some critical defensive play and free throw shooting by Barbara Wilde kept the string in tact.

Another new experience for the Lynxettes was being behind in the waning minutes of a district contest.

Three free shots proved the difference in the last minute. Barbara Wilde put the Lynxettes ahead on two free shots, then guards Nancy McCullough, Sandra Shufeldt and Jeanette McAdams kept Panhandle from scoring and Spearman got the ball.

Marsha Shieldknight was intentionally fouled and got two shots. Coach Dean Weese argued that under the new rule this year it was a technical foul and Spearman retained the ball. Shieldknight hit her final shot to make the bulge three points.

Panhandle scored, then as Spearman was bringing the ball down, a walk was called and Panhandle got the ball with four seconds left. They tried one last desperate shot from far out and the ball bounced away.

Both teams got 28 free shots as each team was called for 18 fouls. Spearman made 20 of 28 and Panhandle made 15 of 28.

Guard Jyniece Callaway fouled out and McAdams and McCullough each had four when the game ended.

Sally Milligan had 17 points for Panhandle and Janice Beddingfield and Audra Crawford each had 10. Becky Martin had two.

Wilde had 30 points to lead the Lynxettes with 16 free shots and 7 field goals. Shieldknight had one field goal and 2 free shots for 4 points. Robinson had 2 field goals and 2 free shots for six points.

Panhandle outscored the Lynxettes 10-12 on field goals.

Spearman led 13-8 and 28-20 at the end of the first two quarters. They went ice cold in the third quarter and were leading only 28-25. None of the three forwards could get their field goals to drop in. Almost every shot would hit and bounce away.
