Grid Tickets Go On Sale

Approximately 200 reserve seats for five Lynx home football games will go on sale at the school business office in the east end of the high school building Monday morning.

Persons who held reserve seats last year had until 5 p.m. Friday to claim those same seats from last year. Now the remaining reserve seats will be sold on a first-come, first-served basis, according to business manager Orville Latham.

Tickets are \$6.25 for the five home games.

New stands on the east side of the field for the band and student body has allowed the school to have over 100 additional reserve seats and enlarged the general admission section.

Latham said Monday was a holiday, but he had told too many people they could get tickets Monday, so the office will be open and he will be there to sell tickets.

He said he did not expect the seats to last long. All but 50 of the seats held last year have been claimed and he said these were held mostly by people no longer living here.

P.A. System Is Improved

Home fans attending the Lynx football games this fall should have a better chance of hearing the public address system this fall, according to school principal, Kenneth McKay.

McKay said John Wilde and Coy Palmer have moved the speakers to poles in back of the grandstands and the speakers can be heard in the home stands and across the field.

Last year the speakers were on the light poles in front of the bleachers and could be heard only by people across the field.

Vandals broke into the press box sometime during the summer, but did not damage nor steal anything from the equipment there.

BURGLAR HITS HOSPITAL

FIRST TIME -- Mrs. Mary E. Pettitt has her hair cut and permanent for the first time. She is 90 years young. Mrs. Ivan Vernon was the beautician. Plainsman Photo

It Is Never Too Late to Change

Poor eyesight did not allow her to see the change, but a beauty shop full of women assured Mrs. Mary E. Pettitt that her new permanent made her look younger and her hair much prettier.

It was Mrs. Pettitt's first trip to the beauty shop and the first time she had ever had her hair cut. She is 90 years and six months young.

Mrs. C.H. Seidel, Mrs. Pettitt's daughter, accompanied

her to Ivan Vernon's beauty shop.

The daughter said Mrs. Pettitt used to do her own hair with curling irons for waves on top and wore it in rolls on the back of her head.

For the past few years she had been unable to do her hair and wore it platted.

Mrs. Vernon said the hair was just a little over shoulder length. It was in a platt and Mrs. Vernon cut it off and

saved it for Mrs. Pettitt.

Mrs. Pettitt said it was her daughter's idea for her to come to the beauty shop, but since everyone likes the new style so much, she was glad she did.

Mr. and Mrs. Pettitt moved to Spearman from Fairview, Okla., some 45 years ago. Mrs. Vernon's beauty shop has been just across the street from the Pettitt home for 19 years.

A very quiet burglary took \$170 in cash from the business office of Hansford Hospital sometime Friday night.

Sheriff's officers and city police are investigating the burglary of the office that is only a few feet from the main station for nurses and from the doctor's lounge.

Officers said there were nurses on duty and a doctor was asleep in the doctor's lounge.

The burglar broke a window pane and opened the window on the south side of the hospital business office to enter the building.

There was only one drawer of a desk locked, it contained the money and officers said this was the only thing the burglar forced open.

He disturbed very little in the office. The narcotics safe was near by, but was not bothered officers said.

Sheriff's officers also recovered a car that had been stolen in Borger. The car was found abandoned on the railroad right-of-way in Gruver.

The current burglary comes on the heels of a similar efficient job in Gruver when a burglar took a pane of glass from a door in Gruver Lumber Company, entered the building and took over \$1200 in cash and checks from a hiding place.

C of C Meets For Planning

The program or work planning meetings for the Chamber of Commerce will be held at 10:30 a.m. and 3 p.m. Tuesday, Sept. 6, Chamber of Commerce President Kenneth Evans reminded members today.

A second mailing of reminder cards have been sent to all members and invited guests by the Chamber office and Manager Red Smith said telephone reminders will be made Monday and Tuesday.

Evans urged everyone to attend one of the meetings in the Farm Bureau meeting room during the day, so everyone may make suggestions as to what should be put in the program of work.

Cool Front Dumps 1.74 Here Friday

A cool front Friday evening dumped inches of moisture on Spearman and other selected spots early Friday night.

In Spearman the official measurement at the H.P. Cates residence on Evans street was 1.74 inches. The rain came in about one hour.

A cool front rolled in just about sundown and the big clouds from the north were accompanied by booming thunder and lightning.

Charles Gilliam of Community Public Service said there were some minor electric power failures, but were for only a short time during the storm.

This program, Evans said, is a blueprint for the Chamber to work from this coming year. The Chamber directors want it to represent the majority thinking of the membership.

Each person attending will be asked to submit a list of suggestions for short and long range projects for the Chamber. After the suggestions are compiled, a committee will take them and make a program of work.

Then the directors and president will appoint committees to begin working on the projects.

Evans said this is the only way the chamber can work effectively and show a return for the money invested by the members.

He urged everyone to attend.

Sophomores Pushing Lynx Lettermen

With the opening game only five days away, there are still several battles being waged for the starting positions on the Lynx football machine.

Several outstanding sophomores are giving the Lynx boss, George Wright, a bigger selection of players to draw from. Some of these sophomores are pushing for starting job.

The big battles are going on at both halfback positions, center, and the second team quarterback slot.

Competition is the hottest at the halfback and center positions. It is sophomores pushing the juniors and seniors for the job.

At the right halfback post two of the faster boys on the squad

are scrambling hard for the starting nod. Senior Gary Cates, who increased his size some 30 pounds this year, is being pushed hard by sophomore speedster Wesley Jenkins.

At the other halfback post it is sophomore Bob Smith that is battling junior Hal Shufeldt for the job. Shufeldt had the edge in running power, but Smith is the best receiver.

Wright is not unhappy about the situation. He says Shufeldt also knows the fullback position and will be used to relieve senior Jerry Holton.

Holton has been moved from linebacker spot on defense to the nose guard position. With

Shufeldt backing him up at fullback, he can be rested without the Lynx losing a power runner in the backfield.

At center young Steve Holton is pushing ahead of senior Glen Blodgett and junior Carl Kunselman. Wright said the big, tough sophomore is ahead of the others on blocking, but is having trouble learning to snap the ball. He is a linebacker on defense and has been running behind his brother at fullback.

Lynx coaches said no position is nailed down, but at the other positions the leading contenders are ahead of their contenders.

At quarterback junior Car-

roll Day and sophomore Mike Davis are battling for the job of backing up junior Charles Shieldknight.

Wright said Davis throws better than Day, but Day is a better runner. One of the boys will be field general for the B-team.

The coach said only two boys were nursing injuries Thursday afternoon.

Sophomore Joe Vanderburg has a broken hand and senior tackle Randy Moore has a pulled groin muscle. Moore is expected to be ready for the Sunday game here Friday. Vanderburg's hand is expected to come out of the cast this week.

An unofficial report from the area north of Spearman said three to four inches of rain fell in the area.

Major Lackey said the rain "played out" before it reached his farm about 12 miles southwest of town.

The big measurement sends September rainfall in Spearman ahead with a big rush.

According to records kept by Mrs. Pat Cates, Spearman had 3.81 inches in August, a very wet month when compared to the dry early months of the year.

The August moisture had set the wheat drills to turning and some farmers who had early milo said they did not expect to water the crop again before harvest.

Crops under the downpour Friday night should have plenty of water to finish the year. The hard downpour may cause some replanting of wheat if the soil crusts before the wheat can get through to a stand.

Morris Child Just Bruised

Virginia Marie Morris, 3, is a very bruised little girl, but is recovering rapidly from being struck by a pick-up Wednesday about 6 p.m.

The child got in the street and was hit by a pick-up driven by Gary LeRoy Smith of Perryton.

Her father, Jerry Morris of 1004 S. Haney was in the front yard of the Morris home and saw the accident. He and Smith rushed the little girl to the hospital.

Her mother said Saturday morning that she was treated and released that evening.

Mrs. Morris said the impact knocked the little girl into the air and away from the pick-up, so it did not pass over her body.

Mrs. Bill Reeves Hosts Gladiola Flower Club

Mrs. Bill Reeves was hostess for the Gladiola Flower Club on Thursday morning at 9:30 at her home. Coffee and cake were served as the guests arrived. Mrs. Robert Adamson, president, called the meeting to order and presided over the business. For the lesson, Mrs. Bill Partridge gave a very informative talk on "The Care and Growing of House Plants." Two arrangements and a specimen were displayed. The borrowed bouquet of Grand Roses brought by Mrs. Irvin Davis won first as was the homegrown arrangement

of purple and white asters by Mrs. Don Smith. Mrs. Smith also brought the winning specimen, a red Dahlia. Present were Mmes. Robert Adamson, Max Baggerly, Hugh Banks, John Brown, Lloyd Buzzard, Irvin Davis, Marcus Larson, Bill Partridge, Don Smith, Walter Spoonemore, Leland Wood and the hostess. The next meeting will be held on September 15 at 9:30 a.m. with Mrs. Don Smith.

"It means a little more if you send a Hallmark Card."

Rainbow Girls Hold Initiation

The Assembly of Rainbow girls met at a called meeting Thursday evening at the Masonic Hall for Initiation Service with Miss Linda Hall, Worthy Advisor. Girls receiving the initiation were Lana Martin and Donetta Floyd. Other than the Rainbow girls attending were Fay Palmer, Mother Advisor; Mason, Preston Scott; and Mr. and Mrs. Brown and daughter Sylvia of Borger and a guest from Perryton. Refreshments were served by Linda Hall and Barbara McClellan.

Mrs. Garnett Hosts Circle

The Betty Morris Circle of the W.M.U. of the First Baptist Church met Wednesday morning in the home of Mrs. Wesley Garnett. Mrs. Herb Howe presided over the business. Mrs. Garnett read the prayer calendar and led in prayer. The lesson was on Bible study and Mrs. R.L. Uptergrove, who attended the W.M.U. convention at Glorieta gave her report and told the group of plans for the new year. Mrs. Bob Baley closed the meeting with prayer and Mrs. Garnett served cake and coffee to the members. Attending were Mmes. Carl Archer, Leland Golightly, Herb Howe, Woodville Jarvis, Abbye Ownbey, Alma Kizzlar, Marshall Walker, one guest Mrs. Uptergrove and the hostess.

Waggoner Carr for U.S. Senate!

BIG WEST TEXAS KICKOFF RALLY SEPTEMBER 7!

Get on the Carr Wagon! Join the excitement at the Lubbock Coliseum!

- Bands
- Entertainment
- Dignitaries
- Principal address by Attorney General Waggoner Carr, the Democratic Candidate for our United States Senator

Meet your friends at the West Texas Kickoff Rally! Support Democrat Waggoner Carr.

Date: Sept. 7 Time: 7 PM Place: Lubbock Coliseum (Next to Texas Tech campus).

Mrs. Fred Holt Brings Program

Mrs. Don Denham was hostess in her home for the Alma Reed Circle at 9:30 Wednesday morning. Mrs. Don Jones presided and also read the prayer calendar followed with prayer by Mrs. R.H. Gray. "Meet the American Jew" was the title of the mission study brought by Mrs. Fred Holt. Present were Mmes. R.H. Gray, Major Lackey, A.F. Loftin, Fred Holt, Jim Fowler, Eddie Gates, Don Jones and hostess Don Denham.

Mr. and Mrs. John Trindle and daughters spent last weekend with his mother, Mrs. W.T. Trindle and his brother and family. Mr. and Mrs. Harry Trindle all of Kingfisher, Okla.

Engagement Announced -

Mr. and Mrs. Harold W. Harris, 3308 56th St., Lubbock, announce the engagement and approaching marriage of their daughter, Miss Susan Jeannette Harris, to Gerald Marvin Hanners, son of Mr. and Mrs. G.W. Hanners. The wedding vows will be solemnized at 10:00 a.m., Sept. 17, in the Second Baptist Church of Lubbock. The bride-elect is a graduate of Monterey High School and Texas Tech, where she received a B.A. degree in French. The prospective bridegroom is a graduate of Spearman High School and received a B.S. degree from West Texas State University in Speech. He is presently employed by KCAS Radio in Slaton as program director.

Sorority Meets In Lair Home

The home of Mrs. Ruby Lair was the scene for the meeting of the Xi Zeta Upsilon sorority on Wednesday at 1:30 p.m. Joyce Lackey, president, called the meeting to order and presided over the business session. The program, taken from the program book IN WORD, IN DEED AND THOUGHT titled "How to Say It" was given by Helen Watson. Refreshments were served to members Betty Brown, Pat Dear, Elaine Floyd, Marva Hohertz, Joyce Lackey, Barbara McClellan, Mona Beth Windom, Helen Watson and the hostess. The next meeting will be on Sept. 15 at 1:30 p.m. with Helen Watson.

Use Hallmark to plan a party.

Children's Art Lessons Set

Beginning Tuesday, Sept. 6, Nelda Sheets will teach children's art classes. The classes will be divided into Boys and Girls. Boys' classes will begin at 4:00 p.m. and Girls' classes will begin at 6:00 p.m. Children are taught all phases of art at their own level, and creativity is going to be stressed. If you would like to have more information about the art classes phone Nelda Sheets at 2311 or 2556.

Miss Darla Adkison, daughter of Mr. and Mrs. Arthur Adkison left 2 weeks ago for Glorieta where she attended Baptist Youth Camp. On Tuesday she left Glorieta for Abilene where she will continue her third year at Hardin Simmons.

Scholars know cleaning pays!

On or off the campus, a neat, clean wardrobe is an important asset! School clothes, date clothes look their best with frequent visits here, where they'll get firm but gentle handling... come back sparkling clean. Quick service, too, for last-minute engagements. Call soon for pickup.

2031 SEPT '64 M.P. 20

Keep your new school clothes looking new with visits to our modern plant. Let us try our hand at those stubborn ink or lab stains, too. Free pickup and delivery saves you time... so call soon for the best cleaning service you've ever had!

Beauty Tips
Love that face? Whether we like it or not, the face nature gave us is the one we have to live with. That's why it makes sense to give nature a little help in putting your best face forward.

Here is a four-step program that should give you a beautiful complexion:

(1) **Deep cleansing.** Apply generous amounts of cleansing cream on face and throat and allow it to remain for three minutes. If you use a cleanser containing the gel of the aloe vera plant, you'll notice tiny grains of dead skin as you tissue off the cleanser. As this layer of dead cuticle is removed, your skin becomes finer and better able to absorb moisture.

(2) **Toning.** Close the pores and freshen the skin with a toning lotion that contains no drying alcohol.

(3) **Moisturizing.** To keep your skin young, you must restore the moisture continuously lost through evaporation and exposure to wind, sun, and heat or cold. Do this around the clock by using a moisturizing lotion under make-up by day and a moisturizing cream by night. Massage it into the skin with an upward and outward motion.

(4) **Nourishing.** The skin is fed by blood supplied through tiny capillaries. As we grow older these tiny blood vessels tend to thicken and shrink, slowing the flow of blood to the skin. This is where the gel of the aloe vera plant comes in. Its enzymatic action helps dilate the capillaries, bringing a fresh flow of blood to nourish the skin. The blood encourages new skin to grow and dead cells to slough off, leaving a younger, healthier complexion.

If a look in the mirror tells you that nature can use a bit of help, the gel of the aloe vera plant may be just the tip you need.

Reynolds Promoted

Leslie D. Reynolds, son of Mrs. Dallas O. Reynolds, Spearman, was recently promoted to Major in the U.S. Army. Major Reynolds is assigned to U.S. Army Instructor Unit (ROTC), St. Mary's University, San Antonio, Texas.

Colonel Dean E. Painter, PMS&T, pinned on the major's rank and was assisted by Major Reynold's wife, Billie J. Reynolds, daughter of Mr. and Mrs. W.R. Greever, Spearman.

Major Reynolds, who returned from Vietnam in 1965, has been awarded the Bronze Star, Air Medal, Vietnam Medal of Honor, Combat Infantry Badge and the Purple Heart.

The most futile effort is trying to tell a long-winded joke to a busy bartender.

When they hold auditions for those loud-mouth commercial announcers, it must sound like a hog-calling contest.

The Old Timer

"Heels quickly wear out a welcome mat."

Mule Train Attends Celebration

Members of the Rolling Plains Mule Train recently attended two celebration and a camp-out and fish fry in Oklahoma.

Nine wagons and six mule riders participated in the Will Rogers Day Celebration in Higgins recently. The organization was awarded a trophy for being the best organization in the parade.

After the celebration in Higgins the train went to the John Sheppard ranch at Fargo, Okla. There they camped from Sunday until Tuesday.

Train members fished Monday on the ranch, then had a fish fry that night.

Tuesday the train went to Woodward, Okla., and was in the 36th annual Woodward celebration parade on Wednesday, Aug. 31.

What man is so small today as to hide behind a woman's skirt?

Politicians who throw the taxpayers' money around should get a sharp reminder at the polls that every litter bit hurts.

Avoid Batter Drip

Baking muffins? If there are any drips of batter on the surface of the muffin pan, after filling the cups, be sure to wipe them off with a damp sponge.

Those Who Know Say:

Controlled Humidity Starts Winter Enjoyment

Does the mere thought of upcoming winter weather — with its bone-shivering winds, blizzards, icy roads, snively noses and other cold season miseries — give you a shudder? Send icicles shooting up and down your spine?

Invigorating wintertime sports such as skiing, tobogganing, sledding, skating, or ice-fishing may not be your particular "cup of tea," but don't let that discourage you one whit, for there's still an easy way open for you to enjoy the winter months!

Those who know — architects, builders, contractors, real estate men and industry engineers among others — say that to enjoy winter, you must live comfortably; and this first starts with the provision of proper, controlled humidity in the home.

In fact, accumulated experience conclusively demonstrates that maintaining controlled humidity indoors during the winter months holds particular importance to homeowners and occupants — their health, comfort and pocket-books — for five sound reasons.

A Humidifier Proves Profitable

Equipping a gas or oil-fired forced warm air furnace with a power humidifier proves an extremely low cost yet unusually profitable investment in diverse ways. For example, it:

Children Are Vulnerable

1. Reduces susceptibility to sore throats, colds, "flu" and respiratory infections — a benefit that's nothing to sneeze at — especially important to parents when they realize that children are even more vulnerable than adults to these diseases.

2. Promotes healthier, more beautiful skin — avoid the irritating, rough effects of cracking, peeling, flaking, itching, scratching — by correcting indoor humidity imbalance and restoring natural moisture to the skin.

3. Increases human comfort through the perfect balance of temperature and relative humidity provided — and helps one enjoy better, more refreshing sleep.

4. Saves substantial sums — often as much as from 10 to 15% — on heating bills by maintaining one moderate thermostat setting all winter long.

5. Avoids deterioration of plaster, woodwork, upholstery fabrics, drapes, carpeting, furniture, domestic plants and foliage by preventing overheated air from drawing out their natural water content.

These harmful conditions and damaging, expensive effects of dry, uncomfortable heat, plus many others, can be easily, economically avoided with controlled humidity provided at the proper level with a modern power-type humidifier, experts say.

Such units of this type are readily available at reasonable cost from most heating and plumbing contractors.

Many Features Included

One, for instance, known as the General Power Humidifier, is a compactly designed, ruggedly built, high-capacity unit with broad installation flexibility.

It's easily and quickly installed (even by "do-it-yourself" home handymen) on the outside of any forced warm air furnace — up flow, horizontal flow, or down flow position — on either right or left-hand side of the furnace.

Enclosed in a corrosion-proof, lifetime-service cabinet made of reinforced polyester fiber glass, this unit provides humidification up to one gallon per hour at an operating cost of only eight watts per hour — less than a light bulb!

This particular humidifier has successfully passed exacting tests under both laboratory and home-application conditions at six pounds of pure water vapor per hour of furnace blower operation at 140°F bonnet temperature.

Low, medium, or high humidity levels are constantly provided by

a special selector control built into the unit, thereby eliminating the need for an electric humidistat.

Holding equal importance from both performance and economy standpoints is the unit's inherent freedom from maintenance attention.

It contains no moving parts — motor, fan, pump, belts, discs, float, etc. — to "lime up," corrode, or cause troublesome or costly service problems. The unit is available in both drain-type and recirculating designs.

Special Care Unnecessary

What constitutes proper humidification in any given instance depends upon the size of the individual house in question, together with the degree of humidity desired (at given outside temperatures).

These, according to most authorities, are the governing factors to be considered in determining the proper humidification in every case.

Free "Inform-A-Kit"

An interesting "inform-a-kit" on this subject is available to readers on request.

This factfile contains (1) a comprehensive yet concise chart of moisture requirements based on size and type of construction as recommended by the National Warm Air Heating and Air Conditioning Association, and (2) brief descriptive data (including specifications) covering the power humidifier cited.

For free copies of this helpful humidification information packet, write to General Filters, Inc., Novi, Mich. — 48050.

Prison Inmates Producing \$7 Bills In Shop

HUNTSVILLE---Officials of the Texas Department of Corrections have completed their investigation into what at first appeared to be a massive counterfeiting ring operating in the Walls Unit.

They're producing \$7 bills in the print shop of the Department at Huntsville, and it's all legal. However, the money isn't the kind that can be used as cash. Instead, the bill is being used to promote the 35th Annual Texas Prison Rodeo.

Basically, the 7-Buck bill is a "Return Invitation Note" to The Prison Rodeo of Texas and is being distributed to persons who purchase tickets to the 1966 Prison Rodeo series held here each Sunday in October.

Since the Prison Rodeo's 7-Buck bill is larger in size than Uncle Sam's official paper money, it is doubtful that anyone will try to cash it.

On the other hand, the clever slogans appearing on the bill will make it an interesting conversation piece.

As an invitation to the "Wildest Show in Texas," there are two important signatures on the front of the bill: "U. R. Welcome" and "Will U. Joinus."

Prison Rodeo officials say that anyone who wants a supply of these 7-Buck bills will find them available at each performance of the Rodeo.

Any More Funny Stories?? The backers of the national income tax, when it was being advocated some 60 years ago, promised that it would never exceed 10% of income.

Close Up Cup Cakes

Place baked cup cakes in a closed container before they are cold. This prevents the crinkled paper cups from pulling away from the cakes the day after they are baked.

1967 Wheat Certificate Program To Change Little

Wheat growers who participate in the 1967 Wheat Program will be eligible for domestic marketing certificates for about the same amount of wheat as in 1966 but the percentage of allotted acres is less because of the increased allotment according to Jewel Ward, Chairman of the Hansford County Agricultural Stabilization and Conservation (ASC) Committee, said today. The percentage is 35 compared with 45 in 1966.

The expected domestic food use for 1967 is 520 million bushels, Mr. Ward explained that the law required domestic certificates to be issued for no more than the expected domestic food use. The 520 million bushels is 35 percent of the projected production of the 68.2 million acre national allotment.

In the 1966 program, the 45 percent of the farm projected yield for which program co-operators earned certificates was estimated to equal 500 million bushels. Thus, co-operators in the 1967 program will be eligible for certificates on 20 million more bushels, Ward said.

Domestic certificates, which are issued to help maintain farm income, will be valued in the 1967 program at the difference between the national average loan rate of \$1.25 and parity next July 1. The certificates are valued at \$1.32 in the 1966 program. Details of the 1967 Wheat Program may be obtained at the Hansford County ASCS Office.

Honeymoon Halted For Wedding Rites

CORBIN, Ky. — Court Clerk Everett Rains gave a young couple a small gift and said "I hope you enjoy this small token of your marriage" as he issued a marriage license to the young couple.

A few days later he saw the mother of the young woman to whom he had issued the license and asked: "How did the marriage ceremony come out?"

The woman replied: "You should know. After all, you married them." Rains hurriedly explained that he only issued the wedding permit. The honeymooners were hurriedly summoned back to Corbin, where a preacher completed what Rains had started.

It's no trick to give young folks a treat. Stop by Plainsman Office Supply and let Hallmark help with your party plans.

A&M Extension Service Reports on "Guest Law"

COLLEGE STATION -- Texas is one of 27 states that has "guest laws" concerning auto accidents.

These laws limit a driver's liability toward guest passengers in his car. In effect, the guests can claim damages only if their host has been guilty of extraordinary carelessness, says Mrs. Wanda Meyer, home management specialist with the Texas A&M University Agricultural Extension Service.

The guest passenger, in order to claim damages, must prove willful or wanton misconduct or intoxication. Some courts have rejected injury claims from passengers who rode with drivers they knew had been drinking.

Fare-paying passengers are not covered by the guest laws, but often the courts have to draw the distinction between a commercial rider and a guest.

Most states that have enacted guest laws did so to discourage "friendly" lawsuits cooked up by drivers and passengers to collect money from insurance companies. The companies, naturally, strongly support the laws.

Many trial lawyers oppose them just as strongly, arguing that they deny their clients due process of law.

What can you do to protect yourself, either as a driver or as a passenger?

As a car owner, you can add medical payments coverage to your auto policy. It won't compensate injured guests for their suffering, but it will pay part or all of their medical bills.

As a passenger, you should caution any driver who starts taking chances with your life, no matter how reluctant you may feel about admonishing a friend. If he persists and there is an accident, the court may be more inclined to find him guilty of wanton misconduct and award you damages.

Grandsons Are Winners

Tab and Tim Smith, grandsons of Mr. and Mrs. Earl Riley of Spearman, were members of the undefeated Woflin Yellowjackets in Little League competition for seven and eight year olds this summer.

Tab, an eight-year old, was a third baseman on the team. Tim, who had to wait until he was seven midway of the season before getting on the team, was voted by the coaches the most improved player on the team.

Mr. and Mrs. Riley attended the final game and team picnic held recently in Amarillo.

The boys are the sons of Mr. and Mrs. Jim Smith.

Buff Tickets Now On Sale

CANYON--Athletic Director Frank Kimbrough announced that tickets to the West Texas State Buffaloes' six home games are on sale at 12 outlets in the Panhandle.

West Texas State's first home game is Saturday, Sept. 17, against Arlington State. Kick-off time is set for 7:30 p.m. Amarillo ticket locations

WHAT DOES THE FUTURE HOLD FOR SMALL TOWN BUSINESS FIRMS?

In every state, in nearly every county, of the United States are small towns in which former business areas have become ghost streets.

The scene is a common one: store windows boarded over; former banks used for storage; dust gathering on empty benches on the sidewalks. Yet in many of these towns there are more people than ever.

The movement of trade came about as a result of better highways, faster automobiles, and poor promotion by movement has been largely from villages to county seats and other small cities, which had the benefit of news paper publicity.

But what about the future? Will super highways, airplanes, and still faster automobiles begin to sap the commercial activity of the county seats and other flourishing small centers of trade? Not necessarily so.

The local merchant holds many advantages over distant competitors. The local consumer will remain loyal IF he thinks he will get a fair price at home. He will remain loyal IF he knows he can find the variety he seeks at home. He will remain loyal IF he realizes how much he will save in transportation and services costs by trading at home. He will remain loyal IF the local merchant demonstrates that the local stores are progressive and up-to-date.

In short, every IF concerning the future of the small city merchant depends upon his use of advertising to keep the local consumer interested and informed on the ever-changing goods and services constantly being offered to the consumer by district competitors.

Rangers Hunt Museum Items

AUSTIN--The Texas Department of Public Safety is interested in securing authentic objects used by former Texas Rangers at any period in history to be permanently placed in a public museum being developed at Department Headquarters in Austin.

Col. Homer Garrison, Jr., DPS Director and Chief of the Texas Rangers, asked anyone interested in contributing such items as guns, knives, belts, badges, spurs or any other authentic Ranger items not completely deteriorated, to write him at Box 4087, NAS, Austin, Texas 78751.

"We are attempting to preserve for posterity in this museum a top-flight collection of Ranger mementos to symbolize the glorious tradition of the oldest police force on the North American continent with state-wide jurisdiction," Garrison said.

"We feel that this museum can provide an invaluable service for the State of Texas by commemorating for present and future generations the historic bravery of the Texas Rangers in preserving law and order and protecting the people of Texas from frontier days through the space age."

Garrison said the museum is to be established at a central location in the Department of Public Safety Headquarters and will be opened for public viewing upon its completion, the date of which has not yet been determined.

"We hope we will be able to obtain from public-spirited Texans a collection of Ranger paraphernalia that will become one of the most outstanding historical tourist attractions in the state," said Garrison.

Mrs. W.A. Ellsworth returned home from a recent trip with Mr. and Mrs. Troy Mays and daughters of Amarillo. While gone they went sightseeing thru New Mexico, Grand Canyon, Salt Lake City, Las Vegas, Hoover Dam and Yellowstone Park. They returned by way of Colorado staying over at the Mays ranch house near Pueblo before returning home.

Darrell Adkison left for Odessa Aug. 25 to begin his outside school job before school starts at Odessa and Harrell Adkison left Thursday for Abilene where he will attend Hardin-Simmons.

The scene is a common one: store windows boarded over; former banks used for storage; dust gathering on empty benches on the sidewalks. Yet in many of these towns there are more people than ever.

The movement of trade came about as a result of better highways, faster automobiles, and poor promotion by movement has been largely from villages to county seats and other small cities, which had the benefit of news paper publicity.

But what about the future? Will super highways, airplanes, and still faster automobiles begin to sap the commercial activity of the county seats and other flourishing small centers of trade? Not necessarily so.

The local merchant holds many advantages over distant competitors. The local consumer will remain loyal IF he thinks he will get a fair price at home. He will remain loyal IF he knows he can find the variety he seeks at home. He will remain loyal IF he realizes how much he will save in transportation and services costs by trading at home. He will remain loyal IF the local merchant demonstrates that the local stores are progressive and up-to-date.

In short, every IF concerning the future of the small city merchant depends upon his use of advertising to keep the local consumer interested and informed on the ever-changing goods and services constantly being offered to the consumer by district competitors.

Rangers Hunt Museum Items

AUSTIN--The Texas Department of Public Safety is interested in securing authentic objects used by former Texas Rangers at any period in history to be permanently placed in a public museum being developed at Department Headquarters in Austin.

Col. Homer Garrison, Jr., DPS Director and Chief of the Texas Rangers, asked anyone interested in contributing such items as guns, knives, belts, badges, spurs or any other authentic Ranger items not completely deteriorated, to write him at Box 4087, NAS, Austin, Texas 78751.

"We are attempting to preserve for posterity in this museum a top-flight collection of Ranger mementos to symbolize the glorious tradition of the oldest police force on the North American continent with state-wide jurisdiction," Garrison said.

"We feel that this museum can provide an invaluable service for the State of Texas by commemorating for present and future generations the historic bravery of the Texas Rangers in preserving law and order and protecting the people of Texas from frontier days through the space age."

Garrison said the museum is to be established at a central location in the Department of Public Safety Headquarters and will be opened for public viewing upon its completion, the date of which has not yet been determined.

"We hope we will be able to obtain from public-spirited Texans a collection of Ranger paraphernalia that will become one of the most outstanding historical tourist attractions in the state," said Garrison.

Mrs. W.A. Ellsworth returned home from a recent trip with Mr. and Mrs. Troy Mays and daughters of Amarillo. While gone they went sightseeing thru New Mexico, Grand Canyon, Salt Lake City, Las Vegas, Hoover Dam and Yellowstone Park. They returned by way of Colorado staying over at the Mays ranch house near Pueblo before returning home.

Darrell Adkison left for Odessa Aug. 25 to begin his outside school job before school starts at Odessa and Harrell Adkison left Thursday for Abilene where he will attend Hardin-Simmons.

Flame is Successfully for Late Season Weed Control

"Late season weed control by use of flame can be used very successfully at this stage of plant growth," says Dean Howard, Assistant Agronomist and Flame Cultivation specialist at the High Plains Research Foundation.

Recent rains throughout the High Plains and South Plains have stimulated the germination of a new crop of weeds. To prevent competition between weeds and maturing crops for plant nutrients, and avoid a weed reseeding problem, these newly emerged weeds should be eliminated now. High clearance flame cultivation equipment can be used for layby weed control before the ground is dry enough to support other weed control equipment.

55-Cent Bet By Laborer Earns \$\$\$

LONDON—A 52-year-old laborer in a fertilizer plant, whose earnings amount to \$40 a week when he is lucky enough to draw overtime, won nearly one million tax-free dollars Wednesday on a 55-cent bet in a soccer pool.

Percy Harrison, who has never been to a soccer game, made his first bet on the pools two weeks ago. It brought him 10 shillings (\$1.40), so last week he was encouraged to try again.

In the pools, which millions of Englishmen play religiously every week, the bettors try to pick eight tie games from the 50 or so professional soccer games played in Britain every Saturday. Harrison—guided not by the previous performances of the teams but by numbers his wife, Maude, called out at random—made two bets, one for five shillings (70 cents), the other for three shillings and ninepence (55 cents).

The five shilling bet was a dud. The second bet was the most successful any man has ever made in the history of the pools. Harrison, the only person in Britain to pick eight of the nine tie games last Saturday, won \$338,356 and 16 shillings, the equivalent of \$947,399.

The presentation of a check for the amount was made by an actress in a posh Mayfair hotel. Harrison got the full treatment—whirring television cameras, flashbulbs, champagne toasts. The fact that it was his first visit to London was written all over his dazed, flushed face.

"I've never been the one for being away from home," he explained later. "I felt badly this morning on the train."

He wore baggy tan trousers that almost reached to his ankles. His necktie was an obvious source of unhappiness. His hands were lethargic from a lifetime of toil, mostly as a farm laborer.

Harrison said he would sell his small cottage near Gainsborough in Lincolnshire and try to buy a small farm about 50 miles to the north, near Beverley in Yorkshire where he was born. He and his 17-year-old son would work it together—"rear a few beasts and a few pigs."

The Rev. George Bollinger family saw the production of "Texas" last week. At the theater they were met by his sister and family, the S.M. Clantons from Plainview.

Try the WANT ADS.

Crops which can be successfully flamed now are cotton, castor beans, grain sorghum, and soybeans. Past research at the Foundation has shown that it is possible to do a good job of controlling weeds in these crops when there is proper adjustment of burners, speed and pressure setting. Howard suggests that for solutions to individual difficulties or problems in flame weeding, farmers contact either their flame cultivation dealer or the High Plains Research Foundation.

"Flame weeding is not to be considered as a salvation tool, but should be planned as an integrated part of a complete weed control program," Howard said.

Flaming can also be used very well in combination with light herbicide rates or conventional methods of weed control.

Gas Company Makes Changes

Some changes are being made in the Northern Natural Gas personnel and facilities here.

Two families are being transferred here and two have been transferred out according to a company announcement.

It has not been announced, but a change in operation facilities is expected, it has been learned.

It is reported that the Northern facility on the Gruver Highway west of Spearman will be transferred to the plant area southeast of Spearman in Ochiltree County.

Delmar Parson of Beatrice, Neb., is being transferred here as District Manager over the Northern facilities. Parsons lived here several years ago.

Merlin Esslinger is moving here from Mullinville, Kan. He will be operations coordinator.

Malvin Floyd has been transferred from Spearman to Ogdon, Iowa where he will be operation coordinator. He was planning and processing superintendent in the Spearman plant.

Jimmy Kees has been transferred to the plant at Sunray as a clerk. He goes to work there Sept. 16. His family has moved.

Company officials said no other moves of personnel is anticipated. The current changes have been brought about by a consolidation of departments in the company.

OFFICIAL HOLIDAY

Monday will be an official holiday for most of Spearman, but some businesses are remaining open.

Schools, federal, state and county offices are closing, as will the bank, there will be no mail delivery.

A few of the business houses will be open for necessary services.

Hansford Hospital News

In the Hospital are David Schnelle, S.M. Anderson, Linda Russell, Mrs. Gayle Ruttman and son, Mrs. Marie Hays and son, Vemetta Lesley, Jess Cudd, Claude Sloan, Sue Crandall, Elwana Eaton.

Dismissed were Peggy Cook, Johnnie Miller, Linda Lamb and son, Zoe Spencer, Bill Miller, Mrs. Eileen Red and daughter, Joe Day, Terrance Embry.

Future Readers of The Plainsman

Mr. and Mrs. Roy Red of Grover are the parents of a girl born Aug. 30 at 11:45 a.m., weighing 8 lb. and 3 and 1/2 oz.

Mr. and Mrs. Hubert Hays are the parents of a boy born Sept. 1 at 11:55 p.m., weighing 6 lb. and 8 oz.

Mrs. Gayle Ruttman of Sanford is the parent of a son born Sept. 1 at 6:55 p.m., weighing 6 lb. and 13 oz.

Newcomers to Spearman

Two Spearman business firms have new employees this week.

Fred Tucker is now working at White House Lumber Co., and Larry Love is working at the Ideal Food Store.

Tucker, his wife and son moved to Spearman from Calaxico, Calif.

Larry Love is a graduate of Spearman High School and is returning home after working for Ideal in Perryton and Pampa. He and his wife recently returned to Spearman.

No Diversion Requirements For Substituting for Barley

There will be no diversion requirements for substituting wheat for barley or oats-rye under the 1967 Wheat Program Jewel Ward, Chairman of the Hansford County Agricultural Stabilization and Conservation (ASC) Committee, has announced.

Barley growers who wish to substitute wheat under the program can do so on an acre-for-acre basis, but they should request a special barley base for this purpose from the ASC County Committee, Ward said. Oats and rye producers who wish to substitute wheat will have their oat-rye base adjusted to allow for the difference in feeding units produced per acre.

Ward said that Secretary of Agriculture Orville L. Freeman has announced that barley will not be included in the Feed Grain Program for 1967.

He said this means that the farm feed grain base will be made up of corn and grain sorghum bases only.

Details of how substitution of wheat for barley or oats and rye will fit individual farm situations can be obtained from the ASCS County Office Ward said.

SUN SOLUTION

Too much sun in a picture window? Don't pull the curtain, add a wooden or metal overhand or "eyebrow" to the eaves or window top to eliminate the glare, yet let in light.

Americans spend 18 per cent of their after-tax income on food. Italians, in contrast, spend 38 per cent and Peruvians and Russians spend 56 per cent.

TV Show Slated for September 12

CANYON -- The Joe Kerbel Show, a favorite among West Texas Sate Buffalo football fans, will again be telecast on Monday nights (10:30 p.m.) over KFDD-TV channel 10, Amarillo, this season. The show begins Sept. 12 and plays through Nov. 28.

The 30-minute program will again be spiced with candid commentary from the affable Bubbalo head coach, Kerbel plans to feature a guest high school coach from the Panhandle area each week as well as outstanding Buffalo players. The show will also include scouting reports on Buff opponents and film highlights from each encounter.

When your legs go bad and you can't rush around like you used to, you find you still get there just the same.

Masonic Lodges to be Honored at Workshop

Two Masonic Lodges in this area will be honored during a Workshop to be held at 8:00 p.m., Saturday, Sept. 10, in Adobe Walls Lodge, 914 North Hedge Coke, Borger.

Plemmons Lodge 877 (Stinnett) and Adobe Walls Lodge 1355 (Borger) will receive Honor Roll Awards, which are given by the Grand Lodge of Texas in recognition of outstanding attendance at the Spring series of Masonic Workshop programs.

The awards will be presented by A. Guy Hazlett of Borger, who is the chairman of the six-county Masonic Workshop Area-E-5. He said that Borger Lodge 1242, Spearman, Gruver and Fritch Lodges are also especially invited to attend.

Nearly 200 such meetings are held twice a year for officers

Food Remains Best Buy

COLLEGE STATION -- Even with recent increased prices-- food is still one of the best buys around.

According to Frank Orts, Extension meats specialist at Texas A&M University, meat prices have increased 20 percent since 1950. During the same time, average weekly earnings have jumped a resounding 80 percent.

Since 1947-49, all food prices have increased 28 percent, compared to a 50 percent hike in rent and a 77 percent boost in medical care prices, he says.

Higher meat prices are particularly noticeable to consumers. But the livestock market is just now recovering from a period of low livestock prices and a long profitless period for the livestock producer, says Orts.

In the U.S., today, about 18 percent of a person's after-tax income is spent on food. Fifteen years ago, American families spent 25 percent of their after-tax dollars on food. Italians spend 38 percent of their income for food and Peruvians and Russians spend 56 percent.

On the average, about 5 percent of the food dollar goes for meat. Today, this 5 percent buys 20 pounds more meat than in 1950, says Orts.

One of the surest ways to teach a child to love, to give him the security of knowing he is loved, is to set a good example, reminds Mrs. Yates. Young parents may not be aware that their love for each other may be the basic ingredient in a secure and happy childhood for their children.

"The child whose parents have a strong happy marriage has the best opportunity for learning to love others, and also for the formation of a happy home of his own," says Mrs. Yates.

Mrs. Jett Mason has accepted a teaching position at Morse High School and will be teaching in the English field.

and members of over 970 Masonic Lodges in Texas. The Masonic Fraternity is the state's largest fraternal group, with nearly 250,000 members.

Child Needs Parents' Love

COLLEGE STATION -- The best thing parents can do to keep their children out of trouble is to love each other.

This word of advice comes from Mrs. Patsy R. Yates, Texas A&M University Extension family life education specialist.

Psychologists indicate that many individuals reach adulthood unable to love anyone because they have not learned how to love in their own homes, she adds.

"People who are incapable of loving anyone are the unhappy, maladjusted individuals who often turn to antisocial behavior in an attempt to seek attention. They are also found frequently in the divorce courts and the psychiatrists' offices," says Mrs. Yates.

How do parents teach their child to love, to care for others? The clue, says Mrs. Yates, is explained by Dr. Christine Beasley, professor of family relationships at the University of Tennessee. "We learn to love by loving," says Dr. Beasley.

This theme may be one of the most important ones that young parents can remember as they attempt to guide their children. A child learns to love by loving those around him. And he does this as he does many other things in life--by imitation.

Same Pattern Helps

Sewing the same pattern more than once has advantages in increased speed and experience, so use the same pattern as many times as possible with slight variations.

92 Percent of Texans Registered

By July 1, 1966 823,000 Texas people 65 or older had signed up for the voluntary doctor bill insurance part of medicare, Virgil Holloway, in charge of the Pampa Social Security Office, announced today. This represents 92 percent of Texas's 896,000 residents of medicare age, he said.

As of the same date, out of a national total of 19.1 million persons 65 or older, 17.3 million, or 91 percent, had signed up for the medical insurance protection to help pay their doctor bills and other medical services. This part of medicare is financed by a \$3 monthly premium paid by the beneficiary with the Government paying a matching amount out of Federal general revenues.

Mr. Holloway explained that most people have the premiums deducted from their monthly social security, railroad retirement, or civil service retirement cash benefits. Others who have enrolled for the supplementary medical insurance protection, but who are not receiving cash benefits, pay the premiums quarterly by check or money order to the Social Security Administration or the Railroad Retirement Board.

However, elderly people who may not be able to pay the \$9 quarterly payment at the time they receive the quarterly premium notice may pay \$3 or \$6 and send in the remaining amount later, he said. But they should make sure that payments are made in time to keep this protection in force.

Mr. Holloway advised all residents who signed up for the medical insurance part of medicare and who have questions about how premiums are paid, to get in touch with the social security office in Pampa without delay. The phone number is MOhawk 4-3381.

The Pampa Social Security Office, located in the Hughes Building, 400 West Kingsmill, is now open every Thursday Night until 8:45 p.m. for the benefit of anyone who can not come in during regular hours during the week.

Bike Saddle Bag

A saddle bag is a nice gift for your son. When this is fastened to his bicycle it makes an excellent holder for his school books and prevents them from getting wet and soiled when the weather is bad.

GIFT BOX MEMO

Searching for a gift that will please some young girl. We have what you are looking for in the popular "Tinkerbell" Cosmetic and Dresser sets. These are ideal for birthday, gifts and are priced from \$1 to \$4.

It is getting here slowly, but we have some new fall costume jewelry. Shipments are arriving almost everyday, so just come by and see what we have new in jewelry.

In case you want to get started and have one finished before next spring, get one of the round, wildiv colored jigsaw puzzles, now. We do not have a big supply, but they are hard enough that one will last a long time.

If you are looking for nice scrapbooks and photo albums, then we have what you are searching for.

For your gift needs, come see us.

THE GIFT BOX
