## Elections Saturday, Tuesday

### Rally Draws Small Crowd

A small crowd attended the Junior Chamber of Commerce sponsored political rally in the high school auditorium Tuesday night.

All five candidates for the school board appeared and stated their platforms. The candidates are Ray Moore, Max Baggerly, Bill Massie, Jimmie Hester and Charles Gilliam. Bob Vaughn and Otto Holland made short speeches. The third candidate, Clarence Pettitt, was not there. Idermen candidates speaking were E. J. Copeland and Richard Holton. Incumbents Bob Vaughn and E. J. Copeland told the audience they would continue to work for the betterment of Spearman and to help Spearman move forward.

They agreed the city had spent a lot of money for improvements, but a majority of the voters had approved the improvements.

Mayor candidate Otto Holland said he had lived here 12 years

"THE LONG SILENCE"— is one of two one-act plays to be presented Monday night, April 6, at 8 p. m. in the high school auditorium. Members of the cast, left-right) are Brad Beedy, Qlo Crum, Barbara Pendergraft, Doris Crum, Cricket Giles and Lloyd Gilley. The public is invited to attend the plays, the proceeds of which will go to the P-TA scholarship fund.

### School Vote Saturday City Election Tuesday

Voters will go to the polls Saturday and Tuesday to vote for school board members Saturday and City offices Tuesday.

Voters all over the area will be marking ballots in the school elections Saturday, but only voters in Spearman and Gruver will be involved in the city elections Tuesday.

A large number of candidates is available to the voters in the different school districts in the area. Waka is the only

district having no opposition for the openings on the board. At Waka, Dave Wilson and B. J. Turner have filed for the positions held by Herman Wiebe and J. R. Stump, neither of whom filed for re-election. O. E. Drake of Waka is running for the Ochiltree County School Board. He is opposing S. R. Conner of Farnsworth.

### New Police Chief Takes Over Duties

The new chief of police for Spearman assumed his duties with the city this week.

Wayne Pierce, 30, is now the new chief of police for Spearman. He moved to Spearman from Amarillo where he was a sergeant on the Amarillo Police Force.

Pierce has five years experience in police work. All of it has been in Amarillo. He is a graduate of the Amarillo Police training program.

A native of Cheyenne, Okla., Pierce is an Army veteran and is married.

He and his wife, Lynda, and son, Rusty, are living at 501 Bernice.

WAYNE PIERCE

In the Spearman School Board election, five candidates have filed to the two vacancies. Incumbent Ray Moore is seeking re-election and the new candidates are Bill Massie, Charles Gilliam, Jimmie Hester and Max Baggerly. At Gruver, there are four candidates for the two vacancies on the board. Bill Logsdon and Eugene Wood are seeking re-election and Cheta Lieb and Burton Olsen are also running for the offices.

In Morse there are six candidates for the three places. Incumbents Jim Womble, Willard McCloy and R. C. Womble are on the ballot for re-election. New candidates seeking places on the board are Lynn Davis, Grant G. Miner and David Reid.

There are two candidates seeking re-election on the county board. L. L. Edge has filed for re-election from Precinct Two and Ott Crawford of Spearman has filed for candidate at large.

The elections will be held Saturday at the schools in the different districts. The county members will be voted upon at the school polling places. Here in Spearman, the voting place will be in the Junior High School building. The polls for the school elections will be open from 8 a. m. to 6 p. m.

Spearman is the only town having contests in the city elections. There are three candidates for Mayor and three for two aldermen's places.

In Gruver, no candidate has filed for the city commission. Marvin Shapley is completing his term on the commission. Gruver city officers have been elected by write-in for past several years.

Seeking the Mayor's Spearman are incumbent Vaughn and new candidate Otto Holland and

### Entries For Celebration Events Coming Rapidly as Enthusiasm Builds

Entries for all parts of the Seventy-fifth Anniversary Celebration April 15, 16, 17, and 18 are coming in to the Jaycees, the sponsoring organization.

Parade Chairman Orvil Brummett reports that he has four floats already entered and one more sponsor wanting an organization to build a float.

Organizations building floats are Gladiola Flower Club, sponsored by the Spearman Reporter, Rainbow Girls, sponsored by Cates Men and Boys Wear, Town and Country HD Club,

sponsored by Gordon Cummings Refrigeration, and Rho Rho Chapter with an anonymous sponsor.

Organizations from out of town that will be represented in the parade will be the Guyton Jaycees, Khiva Temple of Amarillo, the Khiva Klowns, Khiva Temple Drum Corps, Freddie the Fireman of KFDA-TV in Amarillo and the Canadian Riding Club.

From Spearman, the Rolling Plains Wagon Train and the Spearman Riding Club will have entries in the parade.

Entries are coming in fast for the Miss Hansford County contest to be held Friday, April 17. Chairman Don Robinson said Wednesday that he already has seven entries and some more join the parade each day. A complete list of entries and their sponsors will appear later.

Celebration Chairman Zack Fisher says the first histories of the churches are being turned in. These histories will be a part of the program in the opening night county-wide religious service.

NELSON BELL

### New TG&Y Head Here

Spearman's new TG&Y Variety Store manager has been an employee of the company since he started as a stockboy for the firm in Amarillo.

Nelson Bell assumed management of the store Monday. He succeeds Melvin McDougal who quit the firm to buy a Western Auto store in Tulia.

Bell moved here from Los Alamos, N. M., where he was assistant manager of a store there for over two years. He was an assistant manager in the TG&Y store in Dumas for three years before moving to Los Alamos.

His wife, Barbara, and two children, Natalie Ann, 3, and Michael, 1, will be moving here probably this weekend.

### Estep Resigns Vocal Music Job

Two teachers submitted their letters of resignation to the Spearman school system this week.

Public school music teacher Enoch Estep and his wife, Sue, a first grade teacher, submitted their resignations Monday, according to Estep.

The Plainsman learned of the Estep's resignation when they placed an ad in the paper to sell their house.

The energetic director said he hated to leave Spearman because the high school had both the talent and the money for a good choral music program.

He said with the talent there is in the school and the student's willingness to work, there is no limit as to what could be done.

"This year's choir has the best tenor section I have heard in a high school choir," he commented.

Estep was hired as the public school music teacher for all the grades and organized the choral music program in the high school this year.

He organized a choir of approximately 120 voices, a boys' glee club and smaller groups. The choir, the boys and girls sextets all earned superior ratings in the Oklahoma Interscholastic League contest recently at Goodwell.

The choir students attend choir class at 7:30 a. m. each day since no regular class is available.

When pressed for his reason for resigning just as he was starting a successful program,

Estep would say only that his decision was prompted by conflicts of interests and conditions under which he was asked to work.

The director said he was going back to Michigan this summer and has talked twice to the Elmwood Park, Illinois School about a job there this fall. It is a suburb of Chicago and has 300 students in its vocal department.

"I plan to go to school again in Michigan and if I can teach in that area, it will be easier to go to school there," he added.

Estep was also music director at the First Methodist Church while here.

The Esteps have sold their house and said they would be moving as soon as school is out.

### Baptist Open Revival Here

Revival services begin Sunday, April 5 at the First Baptist Church in Spearman and continue through April 12.

Howard C. Jones, Jr., is the evangelist and Bruce Ayres of Gruver will lead the singing.

Services will be held daily at 10 a. m. and 7:30 p. m. The public is cordially invited to attend all the services, according to the Rev. Luther Berry, pastor.

and he would work to make Spearman a better place to live. He would try to see that the taxpayer got a dollar's worth of value for each dollar spent.

Richard Holton said he decided to let his name be put on the ballot after he realized that everything he has earned has been from this area and he felt a man should not avoid his civic responsibilities.

Holton said he would try to see that the city was run on a sound bases. He said the city had to progress if it is going to be ready for the many new people coming here.

Four of the five candidates for the school board have published their platforms in the Sunday Plainsman. The fifth candidate, Bill Massie, said he believed we should provide our children with the best education possible. He pointed out that education is the most important responsibility of adults to their children.

## Day By Day

Last weekend I had the privilege of attending a high school evening banquet in my hometown. During the evening I couldn't help but think of that television commercial about the two classmates who see each other many years after graduation. One looks like a glowing 19-year old fashion model and the other is haggard and well-weathered, obviously not using the right kind of "beauty" soap.

As I sat there, noticing how everyone had changed, I wondered into which category I fit. I had some idea a little later when someone said "I didn't recognize you for a minute."

I was really enjoying the recognition of classes by years until Burl, in too loud a voice, said "Okay, Day, get ready, you're next," just as the 1922 graduates were standing.

Since my Dad is retiring at the end of this year after serving as Superintendent of Schools in Memphis for the last 29 years, he was specially honored at the banquet.

I have always known he is "extra special" but it was really a delight to hear a glowing public tribute to him for all his many achievements and years of service.

When he was elected as superintendent back in 1935, he was the top man among 65 candidates for the job. He has served as a winning coach during war years when male teachers were scarce, a successful teacher when the occasion demanded, and besides his other duties, found time to coach tennis up until about three or four years ago- taking his team to the state finals twice.

He is a highly intelligent individual who sought for himself a better life than he knew as a youngster in a very poor and very large family in South Texas. He worked his way through college, also sending two younger brothers after he graduated.

A few years ago, he received his Ph. D. but he still prefers that people not put "Dr." before his name partly because he has known to many "eggheads" with fancy titles in his day.

Notwithstanding several strong opponents with whom he has coped as members of his school board over the years, W. C. Davis is a master in the art of handling people.

I guess that's pretty obvious though, since he has held the post as head of the Memphis Schools for 29 years, the longest tenure of any superintendent in this area.

Speaking of schools, be sure you find time Saturday to vote in the school board election. And speaking of elections, Tuesday is also a voting day, for the offices of mayor and councilmen. It only takes a few minutes to vote... and it's importance far outweighs anything else you'll probably do with the time.

MORSE LIONS CLUB QUEEN-- Miss Peggy Powers, third from left, was crowned queen of the Morse Lions Club last week by Miss Sharon Parks, second from right, last year's queen. Others in the contest were (left-right) Sue Jones, Sylvia Parks, Patricia Henderson and Carol Jones.

## Beauty for the asking

Vera Mae Hays, Beauty Consultant  
MERLE NORMAN COSMETICS STUDIO

It's no surprise to any parent of high school or college girls—and boys too, for that matter—that teenagers have more problems than anybody. They also have the most obvious complexion problems, and the most to learn about how to get rid of them.

When teenagers understand that the surest way to a good clear skin is, first, scrupulous cleanliness, their biggest complexion problem is half-solved. The same thing is true of adults, of course.

We all live by habit. If you've been washing your face with soap for years, you get the idea you don't feel really clean unless you've used soap. Your face may feel taut and dry, but you figure it's clean.

Truth of the matter is, a poor complexion, more often than not, comes from clogged pores. If you've been washing your face with soap for years and you still have a complexion problem, something's

Then why not stop using soap and try a pure all-purpose cold cream instead? What can you lose?

Try it my way, for at least a week, twice a day. Just place a dab of pure deep-cleansing cream on your forehead, your cheekbones, your nose and your chin (neck, too, if you like). Smooth gently over your whole face. Wait 15 minutes, giving the cream plenty of time to seep into the pores of your skin and help flush out impurities, as well as remove stale makeup.

Then tissue off—gently.

With the right kind of cold cream, your face not only feels clean, it is clean.

Try it. Better yet, call me and make an appointment to let me show you the way to a

# Crime Soars in '63 In Our Own State

Major crime in Texas soared to a new high in 1963 as a felony was committed on an average of every two and a half minutes during the year, it was reported today by Col. Homer Garrison Jr., director of the Texas Department of Public Safety.

Garrison said that crimes reported to the Department totaled 229,254 in 1963, representing an increase of 5.8 per cent over 1962, and a hike of 99.6 per cent over the total for 1963.

The crime rate per 100,000 population increased from 2,261 offenses in 1962 to 2,393 in 1963. Ten years ago, the rate was recorded at 1,583 crimes per 100,000 persons in Texas.

The annual crime report showed an increase in each of the seven major felonies tabulated, as follows:

Murder and homicide, up 8.5 per cent; rape, up 14.2 per cent; robbery, up 10.6 per cent; burglary, up 4.9 per cent; aggravated assault, up 4.4 per cent; theft, up 6.6 per cent; and auto theft, up 2.8 per cent.

"The constant rise in lawlessness in the past 10 years is a shocking and shameful com-

mentary on the conduct of our society in our time," Garrison said. "The ever-increasing disregard for law and order in this era cannot be blamed entirely on the increase in population, because the rise in crime is consistently outstripping the population increase."

"It should serve as a challenge to every responsible Texan to examine every possible means of combatting this menace to his community and take appropriate action."

The Public Safety Director noted that Texas is not alone in the crime explosion. He said that while Texas suffered an increase of 5.8 per cent from 1962 to 1963, crime in the United States as a whole, as measured by the FBI Crime Index, rose 10 per cent last year.

In order to point up the frequency with which crime occurred in Texas during 1963, the DPS Statistical Services calculated that one murder occurred every 8 hours, rape every 6 and one half hours, robbery every 3 hours, burglary every 9 minutes, aggravated assault every 39 minutes, and auto theft every 31 minutes.

# Cancer Drive Is April 10

Members of the Jonquil Flower Club, the Home Science Department and Fine Arts Department of the Twentieth Century Club are making plans for a drive in Spearman to benefit the Cancer Fund. The drive is planned for April 10 and will be a house-to-house canvas.

Mrs. James Stedje of Gruver is county chairman of the campaign and Freeman Barkley of Spearman is treasurer.

Anyone who should want to contribute to the fund who might not be contacted, should send a check to Freeman Barkley in Spearman.

## How Will Livestock Be Affected By Fallout?

By  
Tommy Hollmig  
and  
Bobby Riney

Livestock are affected by fallout in almost the same manner as humans, except generally, they can receive more radiation and still survive. External radiation caused by radioactive sources outside the body and internal radiation caused largely by consumption of contaminated food and water are the hazards from which livestock must be protected.

Livestock, as well as people, must have protection from gamma radiation by shielding or shelter. The shielding materials must be of sufficient density to absorb the radiation until its intensity decays. The best animal shelter is a one-story basement type barn, with a hay filled loft. A good tight barn of any kind would reduce radiation by half. Milking cows should be given the most pro-

ected place in the middle of the barn and calves should be with milk cows so they can suckle and reduce the discomfort of the cows' udders.

Other livestock should be placed in the best shelter available, even a shed without sides gives some protection. If building or shed space is not available for all livestock, those outside should be put in a yard near farm buildings, or grouped together since they could offer each other some protection.

It is essential that stock have non-contaminated food and water if we are to guard against internal radiation. Protection against this hazard consists of providing adequate cover for food and water to prevent fallout dust from becoming incorporated into these materials. Feed from covered barns would be safe, haystacks could be used if covered by a tarpaulin, or made safe by removing the out-

side layer of hay. If only a limited reserve of clean feed is available, it should be used for milk cows and other breeding animals.

It would be better to keep animals alive on contaminated feed and water than to let them die of starvation, since they might recover from effects of the contamination.

Dairy animals and the milk supply will be discussed in the next article.

Dogs and other pets can be protected from rabies for one year or more by vaccination with chick embryo vaccine.

Production of frozen shrimp has entirely replaced canned shrimp on the Texas coast.

Muddy water. Worst of all is muddy tail-water. The term "tail-water", as we use it, applies to that water which pours from the furrows at the lower ends of irrigated fields. And mud?

Well, mud in this case, is good fertile top soil. When tests were run by the Water District on a series of tail-water samples to determine how much top soil was actually being washed away, the results were astounding. They even rechecked to make certain that there had been no mistakes.

As much as 14 tons of fine West Texas top soil was found to be moving with each acre-foot of tail water. The smallest amount the scientists found was five tons per acre foot of tail-water.

Using a nice round 10 tons as an average and multiply that figure by 160 feet, which would be an acre foot of water over

160 acres of land, how much top soil is being removed annually from the irrigated farms of West Texas? It is disturbing, isn't it? But all of the water doesn't run out the ends of the rows. Most of it soaks into the ground.

How fortunate for us that most of it is soaked by the soil, for if it were not, our lakes would be filled with top soil and much of the High Plains would be caliche desert.

But another startling figure came into existence at the same time the studies on soil movements were being made. By actual measurement it was found that as much as 25 per cent of the water that was pumped from the wells on a certain farm, escaped into the barrow ditch or was picked up and recirculated through a tail-water return system.

In the cases where the water left the field, one out of every four acre-feet of water pumped rushed merrily down the barrow-ditch, carrying with it an average of ten tons of fine top soil.

"It's a sin against God as well as our children. Anybody with any common sense ought to be able to understand what we're doing to ourselves..." a Farmer County farmer exclaimed.

Of course, in tail-water return pits there is a problem too, when the top soil settles out and begins filling the pits. But fortunately, the soil, as well as the water, is collected in such a way that it can be

saved and redistributed. When the soil settles in the pits it is usually referred to as "silt."

It is rich in fertilizers and the organic matter so necessary to the productivity of High Plains land. The Water District is experimenting with ways of keeping the silt in suspension until the pit pumps can pump it back into the distribution systems and back onto the land again.

A few farmers who are using recirculating pits began noticing that small deltas of soil were building up a few feet down the rows from the sox attached to the outlets of their gated aluminum pipe. One farmer using tubes in a section of open ditch, watched his furrows become almost level when the silt-laden water began dropping its load within a few feet from the ends of the tubes.

"Spreading it back out does not worry me nearly as much as having it run off the low side," he remarked.

Conscientious farmers, who have convinced themselves that continuous irrigation is not only lowering their water table, but it is gradually removing the layer of rich top soil that has made West Texas agriculture great, have begun reviewing the situation as an interrelated problem: Water, as well as soil management.

## Increase Your Wheat Yield

## With Anhydrous Ammonia

Here is the pertinent information you should know about ANHYDROUS AMMONIA.

Anhydrous ammonia is the highest analysis nitrogen fertilizer—82% nitrogen. Because of lower cost per unit of nitrogen for handling and freight this means low cost nitrogen to the farmer.

Rate of application. A good rule of thumb to follow for yields up to 100 bushels, apply one pound of nitrogen for each bushel yield desired. Each bushel harvested is going to remove one pound of nitrogen so this would be maintenance. For yields over 100 bushels per acre, apply 1-1/2 lbs. nitrogen for each bushel yield desired.

As soon as anhydrous ammonia is injected into the soil, it reacts with the soil moisture and forms a positively charged ammonium nitrogen which is held by clay and organic matter. This means that it will not be lost by leaching downward or by evaporation upward.

Anhydrous ammonia is the source of nitrogen for manufacturing all other synthetic nitrogen fertilizer, therefore, further processing costs make other nitrogen fertilizer more expensive source of nitrogen to farmer.

Anhydrous is used to manufacture other nitrogen fertilizers, therefore, we should expect the same crop response from anhydrous as from other nitrogen fertilizers. Agronomically they are equal source of nitrogen when applied properly.

# 42 Games Set For Five Teams

Spearman school football teams will play 42 football games next fall, the recently released schedule shows.

Games have been scheduled for the seventh, eighth, freshman, B-team and varsity teams. For the first time in several years enough boys are expected to report for the teams to allow full schedules for freshmen, B-team and varsity competition in high school. Coach Don Seymour says 75 high school boys have indicated they will be participating next fall.

The seventh grade will play seven games, the eighth grade will play eight games, the B-team, nine games and the varsity will play ten games.

There will be six district games next season and four non-district games for the varsity. New district games are with Sanford-Fritch, Boys Ranch, and Phillips. Old foes are Stinnett, Dalhart and Shamrock. Non-district games will be with Sunray, Booker, Gruver and Stratford.

The season opens at home Sept. 4 when the Lynx meet Sunray.

Games next fall will have the seventh grade playing six-minute quarters, the eighth grade

playing eight-minute quarters, the freshman, 10 minute quarters and the B-team and varsity playing the regulation 12 minute quarters.

## B&PW Club To Conduct Red Cross Drive Here

Members of the Spearman Business and Professional Women's Club will conduct the Red Cross Drive here Thursday and Friday, according to Dr. D. E. Hackley, chairman for members and funds in Hansford County.

The Red Cross is a voluntary disaster relief agency of the American people, operating under a federal charter, to relieve the sufferings caused by disaster. The Red Cross spends 85 cents of every disaster relief dollar for long-term recovery assistance.

In the 82 years that the Red Cross has provided assistance in natural disasters, there has been a close liason with national and local government agencies, according to Dr. Hackley. The U. S. Weather Bureau, the Department of Defense, the offices of Emergency Planning and Civil Defense and other agencies cooperate to safeguard the lives of people in time of disaster.

For the past 10 years the annual expenditures of the American Red Cross have ranged from \$80,000,000 a year to \$116,000,000 a year, varying with the world conditions and the number and cost of the disaster operations in which the organization has served.

A sound financial condition must be maintained at all times to assure continuance of regular programs and to enable the Red Cross to meet the cost of disasters and any other emergency operations.

Dr. Hackley urges everyone to maintain membership in the

Hansford County and American Red Cross by sending a contribution to Hansford County Red Cross, % J. W. Gibner, First State Bank in Spearman.

## Waterline Stops Fire

A fire extinguished itself Wednesday in the trailer home of Mr. and Mrs. Thurman Morgan at 102 S. Archer.

Firemen said when they arrived at the trailer, water was spewing from a pipe under the kitchen sink onto a fire in the waste basket under the kitchen sink.

The firemen thought the fire started in the waste basket, then the copper water tubing melted in the fire and the water put the blaze out.

Mrs. Morgan said she was away from home when the fire started. The water running out of the trailer was her first indication that something was wrong.

"When I drove up and water was running out of the trailer, I ran to the door and then saw the room was filled with smoke."

Firemen helped clean the water out of the kitchen.

**SISTERS UNDER THE SKIN** - a hilarious comedy will be presented Monday night at 8 p. m. in the high school auditorium. Shown (l-r) are four char-women and a beauty salon owner, Inell Warren, Patsy Gates, Virginia Sell, Dorcas Collard and Nan Ballinger. Mrs. Doris Crum is directing the play. Tickets will be on sale at the door.

## Two Plays Will Benefit P-TA Scholarship Fund

The Spearman P-TA will present two one act plays Monday night, April 6 at 8 p. m. in the high school auditorium to benefit the scholarship fund.

The P-TA annually gives some deserving senior a scholarship to help him attend college, and these plays are being presented with the talent of local adults and a student, for the purpose of meeting this responsibility.

The first play on the program is called "The Long Silence" and deals with a young lady who, because of extreme shock, has become not only paralyzed but mute as well. She lives alone with her aunt and sister in a fishing cottage

off the East Coast. Some villains come upon the cottage, give the girls a bad time and... come see what the exciting events bring forth.

Members of the cast are Cricket Giles as Reba, the man of the house; Barbara Pendergraft as Aunt Mary, the ever faithful aunt; Doris Crum as Mattie, the mute; Brad Beedy as Arash, a Russian villain; Qlo Crum as Lazar, another questionable character; and Lloyd Gilley as Vassilly, a henchman of Arash.

The second play, "Sisters Under the Skin" is a hilarious comedy concerning some char-women who invade a

## Club To Hear Jerry Day

The Kimberly Jr. Women's Study Club will meet Friday, April 3 at 2 p. m. in the home of Mrs. Bill Wilmeth. Guest speaker will be Jerry Day whose program will be on "Education Through School Counseling".

Hostesses for the meeting will be Mrs. Bob Parris and Mrs. Bill Wilmeth. All members are urged to attend.

## FAYE LYNCH IS HOSPITALIZED

Faye Lynch, a member of the staff at the Hansford Plainsman and Plainsman Office Supply, is hospitalized this week in Hansford Hospital.

Charm Salon and decide to inflict some charm on themselves and to become "ladies". The resulting events should provide enough laughs to last a month.

Those in the cast of the second play are Nan Ballinger as Katie, the boss char-lady; Patsy Gates as Allie, who always falls over something; Inell Warren as Tessie, who wants to be a "lody tew"; Virginia Sell, as Maggie, who wishes she had on her other corsets; and Dorcas Collard, as Sandra, the salon owner.

If you'd like to see your neighbors win their "oscar" in acting, and laugh your head off in the bargain, be sure you come to the high school auditorium Monday night, April 6, at 8 p. m. to see both these plays, directed by Mrs. Doris Crum.

Tickets will be on sale at the door at \$1 for adults and 50¢ for children.

## Future Readers Of The Plainsman

**with CLEAN electric cooking**

Since an electric range cooks without flame, all your pots and pans stay cleaner. So does the range — and your kitchen walls and curtains — which is pretty wonderful when it comes time to do dishes or clean house. Cuts down on scrubbing and scouring. Another nice thing about electric cooking is that it's degrees cooler in summer. No flow of air through the oven is needed for combustion. See the new electric ranges at your dealer's soon.
