

# Lynxettes Meet Defending Champs

How good are the Spearman Lynxettes?  
The question will be answered at 11:10 a.m. Friday in the

Texas Tech Coliseum in Lubbock when they meet the defending state champion Friona Squaws in the first round of the

class AA regional play-off. It will be a re-match from last year's first round of regional competition. Friona scored

a seven point victory over the Lynxettes last year after Phyllis Patterson fouled out in the second quarter.

Spearman goes into the regional tournament with the best won and lost season record. The Lynxettes have won 31 and lost six. Friona is 25-6, Winters is 21-9 and Grandbury is 25-6.

Winters and Grandbury meet in the other first round games. The finals will be played Saturday night.

Coach Dean Weese said he did not know too much about Winters, but Grandbury has a tough team. They played Friona a hard ballgame in the finals last year.

Stratford will be representing this area in the Class A play-off. They meet Roosevelt at 8:30 a.m. Saturday. Stratford is 24-5 for the season and Roosevelt is 36-0.

Stratford demolished a tough Wellington team 61-37 in the bi-district game Tuesday night, while Roosevelt had a rough time beating Springlake 69-62.

While many people in Spearman were hoping Slaton could upset Friona in bi-district, the Lynxettes have expressed a desire all year to get to regional to resume the clash from last season.

GOOD FORM- This Iowa Park guard has good form in guarding Johnny Jo Vernon, but she is on the wrong side. Spearman won the bi-district contest 83-50. PLAINSMAN PHOTO

## City Council Approves Extension Of Utilities to New Development

Spearman's city council approved the extension of city utilities to a new development planned on the southwest edge of Spearman at its regular meeting Monday night.

George Collard asked and received permission to tie on to city gas, water and sewer lines for a new development in the area just south of Plains Shopping Center.

Collard told the council he was going to open up a street about two blocks long and develop it with lots having 150 foot fronts.

The developer will pay all the costs of installing the utility lines and also the cost of paving the proposed streets. All of these improvements will

meet or exceed city specifications.

Chief of Police Wayne Pierce reported to the council that city policemen issued tickets for 47 traffic violations during February.

Officers also investigated only three traffic accidents during the month, a decrease from past months.

Fire Chief Lee Phillips reported that the fire department answered two fire alarms in February. Both were minor fires.

Phillips told the council he had set a speed limit of 30 miles per hour for city fire trucks here in town.

The reason, he said, because of the dips in the streets

there is danger of throwing equipment off the trucks, if they go any faster.

The council instructed Phillips to inform his volunteer firemen that they will observe traffic regulations when going to a fire in their private vehicles.

Councilmen said it was impossible for people to know that private vehicles are on an emergency run and to disregard traffic regulations will endanger too many lives.

City Health officer Dr. D.E. Hackley reported to the council on some new equipment for controlling flies and mosquitoes this summer. The council instructed him to arrange a demonstration of the equipment.

## Small Clues Lead Officers to Arrest Of Brothers in Murder and Burglary

A footprint, a good memory and some long hours of diligent police work put two men in custody of Hansford County officers less than 24 hours after a burglary and murder had been committed in Gruver.

P.H. (Mickey) Westerfield, 62, of Gruver was shot by a burglar in Westerfield Dry Goods on Main Street in Gruver between 9 and 9:15 p.m. Friday night. He managed to dial the telephone operator and tell her he had been shot. Twenty-one hours later two men were under arrest and in 29 hours one man had been arraigned on a charge of murder with malice and was in jail without bond.

Late Saturday night John Lincoln Grissiam, 34, a farm worker, was arraigned on the murder charge and was in jail. His brother, Earnest Grissiam, 27, was being held for investigation.

Monday, Earnest Grissiam, who had been arrested first admitted helping plan the burglary and was charged with burglary. He is being held in

jail in lieu of \$5,000 bond set by Justice of Peace, J.P. Vernon.

The pieces of the burglary and murder puzzle began falling in place Saturday afternoon after officers had been collecting and sorting the few clues they had for 15 hours.

The clues were few. The burglar left no finger prints, nothing was disturbed in the store and nothing apparently taken.

Officers had a broken window, a couple of tracks near the window, tracks leading out of town, into a barrow ditch and back out again, then disappearing. They also had one or two sketchy descriptions of men seen in town about the time of the shooting. They could have fit many men in the county.

Then the break came; a farmer, Ross Walker, looking at the tracks saw something, and remembered something. His hired hand, who was an ex-convict, wore some shoes with a sole made like the track, hard nails in the toe of the

sole.

The farm worker's younger brother had been at Deputy Sheriff O.V. Walker's house when the operator notified the officer of receiving a call from Gruver from a man saying he was shot. Deputy Walker remembered the younger brother saying something about his brother being at someone else's house. The story did not check.

Officers decided it was time to begin asking questions. Earnest Grissiam was arrested for questioning about 3 p.m. Saturday, while at work in the print shop of the Hansford Plainsman.

While the younger Grissiam was being questioned a search warrant was secured so officers could enter the house where John Grissiam lived and examine the shoes.

Late Saturday afternoon officers found John Lincoln Grissiam at home on the old Walker farm, northwest of Gruver.

He offered no resistance. Officers found a pair of shoes

under the bed in the house which matched the plaster molds of the tracks at the store. Grissiam was arrested.

After being questioned by Sheriff J.B. Cooke, John Grissiam orally admitted shooting the store owner while attempting to burglarize the store.

He told officers that Westerfield was in the store when he entered through the back window. When he went from the storeroom into the front part of the store, Westerfield surprised him and tried to take the .22 caliber pistol from Grissiam. Grissiam said the gun discharged accidentally in the scuffle.

## Hounds Play Woodsboro At State

Gruver's surprising Greyhounds will open play in the state class A basketball tournament in Austin at 11:35 a.m. today.

The Greyhounds will play Woodsboro in the opening round.

Gruver took the regional tournament Saturday night in Lubbock with a hair raising one point victory.

Gruver's probable starters in the tournament will be Sam Tipton, Mack Hoel, Mart Hart, Billy Lieb and Royce Mathews. Hart and Mathews are the seniors on the team. The other three starters are juniors.

Gruver goes into the game with a 2608 record and Woodsboro has a 24-5 record.

## Heart Ailment Strikes Teacher

Mrs. Sam Patterson, English and Spanish teacher in Spearman High School, was stricken Tuesday morning in her home with a heart condition. Wednesday she was reported to be improved in Hansford Hospital.

Her husband said Tuesday that the doctors told him she will be confined to the hospital for several weeks.

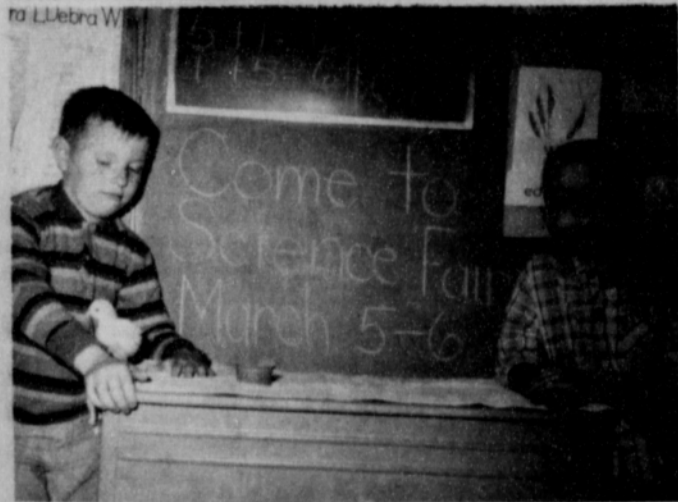

Mrs. Ed Mundy is substituting for Mrs. Patterson in Spearman High School.

## Irrigation Well Permits Down

Farmers and landowners apparently lost interest in irrigation wells during the month of February.

According to records in the Water District office here there were only six applications filed in the office for irrigation wells.

In January there were 28 applications for new wells. The six applications in February brings the year's total to 34.

INVITATION- David Bergin and Brad Sable of Gruver, students of Mrs. Joe Ellison and Mrs. Omar Cotter, invite everyone to attend the Science Fair here Friday and Saturday.

## Fire Destroys Vacant House

Fire of an undetermined origin destroyed a vacant house on South Hazelwood about 2:30 a.m. Tuesday morning.

Firemen battled the blaze in subfreezing weather and kept it away from the Roy Nollner home at 1221 S. Hazelwood.

The house was owned by K. E. Coates.

Firemen brought the fire under control, but it flared-up again Tuesday morning and the fire department was called to put it out again.

It was so cold during the early morning blaze, that the firemen would get their clothes wet from the water hoses and the clothes would freeze.

SECOND TIME- Spearman Volunteer Firemen pour water into the smoldering hull of a vacant house on S. Hazelwood. The house burned early Tuesday morning, then had to go back the second time to kill the blaze.

## Big Feedlots Skyrocket Sales Of Texas Fat Cattle and Calves

During the past calendar year, 1964, 969 thousand head of cattle and calves were marketed from Texas feedlots, says Edward Uvacek, Extension livestock marketing specialist and assistant professor at Texas A&M University.

"This is a 227 percent increase over the number of cattle marketed in 1958," Uvacek says.

Uvacek explains that most of the increase has been in the feedlots of over 1,000 head capacity. And at the present

time, slightly over 90 percent of all Texas cattle on feed are in these larger feedlots, he adds.

Uvacek points out that the majority of the large feedlots are in the Panhandle and Gulf Coast areas of the state.

"Of course, the Panhandle area still has the greater percentage of large feedlots, but the Gulf Coast region is increasing rapidly, both in the number of head on feed and in the number of large feedlots," Uvacek reveals.

He said that in 1958 the Gulf Coast area had 13 large feedlots, while at the present time there are 42 such feedlots located in that area.

"While the number of large feedlots is increasing, the smaller operations are holding fairly stable in the numbers of cattle and calves fed," Uvacek states.

## New Grass Found by Scientists

Scientists at the Coastal Bend Experiment Station locate near here believe a new grass variety, kleingrass, shows promise of being an excellent choice for improved pastures.

Bill Conrad, a scientist at the station, said research with the grass is not complete and seed is not available for general use, but their work indicates the grass is quite drought resistant and will grow from early spring to late fall.

The kleingrass they are evaluating was introduced from Africa in the late 1950's. It grows from three to five feet tall yet is very palatable.

At the Coastal Bend station, the grass is grown and maintained in rows by annual cultivation. Kleingrass is a bunch grass and the rows held maintain proper plant population for good production in dry areas.

Conrad said this year they hope to run feeding trials with the grass at Beeville and several other stations.

Currently one problem with kleingrass is acquisition of seed. Its seeds tend to shatter soon after they mature making seed harvest difficult. Researchers believe there are ways to overcome this problem.

A Texas A&M University scientist said the grass will grow in many areas of Texas. He said several farmers in the High Plains are already using it.

## Proclamation

WHEREAS Girl Scouts throughout the United States of America have rendered continuous service to their communities and their country since the founding of their organization 53 years ago on March 12, 1912, by Juliette Gordon Low in Savannah, Georgia; and

WHEREAS we the People of Spearman are aware of the tremendous growth of the Girl Scout organization in this country to almost three and three-quarters of a million girl and adult members, thereby making it the largest organization for girls in the free world; and

WHEREAS all Girl Scouts make a solemn promise to do their duty to God and country, to help other people at all times, and to obey the Girl Scout Laws; and

WHEREAS Girl Scouts of the United States of America, through its continuous program for girls seven through 17, provide its members with a bridge to the future by developing good citizenship, teaching important skills, encouraging career exploration and increasing world understanding;

NOW, THEREFORE, I, R. E. Vaughn, by virtue of the authority vested in me as Mayor hereby proclaim March 7 through 13 of this year 1965 as Girl Scout Week and March 12 as the 53rd Anniversary of the founding of Girl Scouting in the United States of America. I, therefore, call upon all citizens of Spearman to give the Girl Scouts their continued interest, cooperation and support in the coming year, so that increasing numbers of girls may benefit from the Girl Scout program. I do also proclaim that the theme of Girl Scout Week, "Girl Scouting—A Promise in Action" shall be a reminder to all the citizens of our continuing promise to support Girl Scouts of the U.S.A. in furthering its purpose of inspiring girls with the highest ideals of character, conduct, patriotism and service so that they may become happy and resourceful citizens.

**INDEPENDENT DISTRICTS**

A trend toward reorganization of school districts in the United States has resulted in a drop of 5.6 per cent nationally. Today, says the National Education Association, the number of independent school districts in the nation stands at 25,696.

**NEED FOR TEACHERS**

Texas education officials say that increases in pupil attendance in school is rising so fast that 3,000 to 3,500 new teachers are needed each year.

**Accent on Health**

J. E. PEAVY, M.D., Commissioner of Health

A Ponce de Leon sought the fountain of youth, so we today seek the quick, easy route to good health.

Unfortunately, nether of these exists.

But there are ways to keep your mind and body physically fit.

Take a look at the seven paths to fitness.

One essential is proper medical care. This means preventive services—periodic medical examinations and an immunization schedule. Give your physician your confidence, follow his advice and obtain prompt care when you are ill.

Nutrition is an important part of fitness. Gorging yourself one day and going without food the next is not the way to become fit. Your daily food needs include meat or meat substitutes, milk and milk products, bread and cereals, (enriched or whole grain), fruits and vegetables, plus other foods to complete meals.

Proper dental care is important not only for good appearance and better health, but to permit proper chewing of food and to prevent distress and pain. Visit your dentist every six months or oftener as he advises. Brush your teeth pro-

perly, as soon after meals as possible—or if you can't brush, rinse your mouth with water. And go easy on the snacks, particularly those high in sugar, between meals. Regular visits to your dentists can help prevent dental distress, forestall needless pain and expense, and help to prevent the premature loss of teeth.

And believe it or not, exercise is an important element in fitness. Choose any exercise which suits you—your age, sex and physical condition—and that you enjoy. You need exercise enough to bring on healthful fatigue...vigorous enough to tax the power of your muscles...and regular participation using all parts of the body.

Exercise improves the action of the heart, blood circulation and breathing function. It steps up muscle tone and helps in weight control. And it gives you an overall feeling of zest and well-being.

A person also needs to have a satisfying work, healthy play and recreation, and adequate rest and relaxation.

Include these seven paths to fitness in your life. You won't have a fountain of youth, but you'll sure feel better.

**Moon Crust Could Be Like Beach**

A geochemist at Goddard Space Flight Center in Greenbelt, Md., has found new evidence that the surface of the moon may have a firm grainy texture, somewhat like that of a beach.

The discovery reported by Louis Walter of the National Aeronautics and Space Administration may enable that agency to plan much more thoroughly for the first landings of Apollo manned spacecraft on the moon.

Walter told a reporter that he had determined in a laboratory a peculiar chemical content of some glass-like tektites found in Thailand that indicated that the material was largely unchanged from its parent deposit—which may have been part of the lunar surface.

A number of tektites—small objects that appear to have been molted into plastic form—have been recovered at various points on the earth. Since their composition is unlike that of earth formations, many scientists believe they are particles of the moon's surface that were splashed out into space when meteors hit the moon.

## Homemaking Notes

by Linda Webb  
Home Demonstration Agent

The 4-H Favorite Foods Show was held in Spearman Saturday, Feb. 27 in the Home Demonstration Club Room.

Five 4-H girls entered their favorite food with a very attractive table setting for each one.

There were two entries in the senior division, Rebecca Hutchison entered in the bread and cereal food group with a carrot cake. Janice Trindle entered the Vegetable-Fruit group with a cherry salad. Both of these girls received a blue ribbon for their entry, and they will represent the county in the District Favorite Food Show in Canyon, April 3.

Three entries in the junior division were Cindy Hutchison, Fruit and Vegetable group with a Strawberry Delight dessert; Genna Green, Meat Group, with a Broiled Weiner Sandwich; and Valorie Uptergrove, Milk Group with a Banana Milk Shake.

Cindy Hutchison and Genna Green received blue ribbons for their entries, and will represent our county in the junior division of the district contest. Valorie Uptergrove received a red ribbon for her entry.

In the Favorite Food Show, contestants are judged on their knowledge of nutrition in relation to their food, preparation of their food, the display of their food which includes one place setting for a meal exhibited on a card table, the girls' appearance, and the menu for the day which includes the favorite food.

I am very proud of all our 4-H girls who entered the contest this year. They have done a very good job, and the winners will represent us very well in the district contest.

Seven homemakers in the Spearman area are taking advantage of the advanced clothing construction workshop which I am conducting. The "classes" were begun on Feb. 22 and are meeting three times a week. This is the second and final week of the workshop, where several problems in advanced construction are being solved by these women. Those enrolled are Mmes. Vester Hill, Herb Howe, Frank Dale, Robert Hall, Elmer Longley, Bernard Barnes and Lenzie Anderson.

If your family likes chocolate (and who doesn't?) here is an old recipe I copied from a lady in Vega who owns a cafe there. It is a moist cake, lickin' good, and has no special name except for the name I've given it after the lady from whom I got it.

OLLIE LEE'S CHOCOLATE CAKE  
2 cups sugar  
2 cups flour  
1/2 cup cocoa  
2 teaspoons soda  
1/4 teaspoon salt  
1 cup (or less) cooking oil

2 eggs  
1 teaspoon vanilla  
1 cup buttermilk  
1 cup boiling water

Combine all ingredients except water and mix until well blended. Last, add the boiling water and blend. Pour into a greased and floured cake pan, 2 nine-inch pans or one large pan, 10 x 14. Bake about 35 min. at 350 degrees.

If this recipe leaves you up in the air as to the mixing instructions, these are instructions I have added to the recipe myself. When I originally got the recipe, there were no instructions at all, but the cake comes out beautifully anyhow.

Here's the icing for it:

1 cup sugar  
3 teaspoons cocoa  
1 teaspoon com syrup  
1/4 cup cream or milk  
1 stick oleo

Boil together 2 1/2 or 3 minutes. Beat to spreading stage. This doesn't take long—don't beat too long.

THE LAST NOTE: A little learning is a dangerous thing. Ask any kid who's just brought home a bad report card.

## Marriage Announced

Mr. and Mrs. Nolan Holt announce the marriage of their daughter Linda to Britt Jarvis, son of Mr. and Mrs. Billy Jarvis of Morse.

The couple were married in the Church of Christ in Clovis, N.M. Friday, Feb. 26.

Linda attended Texas Tech where she was a junior home economics major. Britt is a senior agriculture economics major at Texas A&M.

The couple will make their home in College Station.

## Day by Day

It was a super special effort Phyllis Patterson displayed Tuesday night in the Lynxettes' overwhelming win over Iowa Park. Every fan from Spearman was proud of Phyllis' determination to bring home a victory for her mother who was hospitalized that morning and her dad who was at the hospital with her.

Phyllis made 29 points, many of which were those fantastic swishers with which she's delighted the crowds for the last four years.

She had lots of help from all her teammates, including even the little freshmen who just joined the varsity, but Phyllis proved she's got what it takes to come through a lot of difficulties and pressures with flying colors. In my opinion, she's an all-stater without any question.

I enjoyed seeing Karen Gibson shine as a starter for the Lynxettes Tuesday night. I wasn't the only one either, there were, besides her family, several aunts, uncles, cousins and her grandmother, all from Vernon, who joined Spearman fans in rooting for the Lynxettes.

They left the gymnasium saying "If you beat Friona, we'll be in Lubbock Saturday night to see you play in the finals!"

I hope they make the trip. We owe Friona a seven point defeat.

Letter from a Triple Threat Grammarian:

"Dear Sir: you never past me in grammar because you were prejudice but I got this athletic scholarship any way. Well, the other day I finely got to writing the rule's down so as I can always study it if they ever slip my mind.

1. Each pronoun agrees with their antecedent.
2. Just between you and I, case is important.
3. Verbs has to agree with their subjects.
4. Watch out for irregular verbs which has crope into our language.
5. Don't use no double negatives.
6. A writer mustn't shift your point of view.
7. When dangling, don't use participles.
8. Join clauses good, like a conjunction should.
9. Don't write a run-on sentence you got to punctuate it.
10. About sentence fragments.
11. In letters themes reports articles and stuff like that we use commas to keep a string of items apart.
12. Don't use commas, which aren't necessary.
13. Its important to use apostrophe's right.
14. Don't abbrev.
15. Check to see if you any words out.
16. In my opinion I think that an author when he is writing shouldn't get into the habit of making use of too many unnecessary words that he does not really need in order to put his message across.
17. In the case of a business letter, check it in terms of jargon.
18. About repetition, the repetition of a word might be a real effective repetition--take for instance, Abraham Lincoln.
19. As far as incomplete construction, they are wrong.
20. Last but not least, lay off cliches.

## Engaged—

# Lynxettes Win Bi-District, Clobber Iowa Park 83-50

Spearman's Lynxettes were playing for one of their most avid supporters Tuesday night in Childress as they demolished the Iowa Park Hawkettes 83-50.

Early Tuesday morning Mrs. Sam Patterson, mother of Lynxette Phyllis Patterson, was hospitalized with a heart condition. Mrs. Patterson has followed the Lynxettes at home and away for years, even before Phyllis started playing four years ago. This was the

most important game she had missed in many years.

There were tears in the eyes of some of the Lynxettes when the game started, but it did not effect their play. Phyllis Patterson ripped in the first seven points of the game, Vicki Wilde and Karen Gibson started with her and soon they also were burning the nets.

Guards Susan Hutchison, Bethany Donnell, Kathi Pattison and Robbie Ownbey wrapped up the Iowa Park forwards, taking rebounds, passes and dribbles away from the stunned girls in green.

By the end of the first quarter Spearman was leading 21-5 and Iowa Park was a badly confused and deflated bunch of girls.

Coach Dean Weese started his player shuffle in the second quarter, but nothing could slow the Lynxettes. Everyone was scoring. Barbara Wilde came out of a scoring slump to pump in 7 field goals and little Johnny Vernon started picking up points on fouls.

It was in the second quarter before Iowa Park made their first field goal. Darlene Gilmore picked up her free throw average in this quarter, but the one point charity tosses could not keep up with the two point field goals and at the half Spearman led 41-19.

Vicki Wilde picked up four fouls in the first half and spent

much of the third quarter on the bench, but it did not slow the points. Patterson hit four straight field goal attempts and the others were keeping close to her in shooting percentage. At the end of the third quarter Spearman led 72-35.

Patterson fouled out in the fourth quarter and Weese rested Vicki Wilde much of the eight minutes. With three and a half minutes left, he put in his freshman six.

They picked up several fouls and could not defend the tall Gilmore. She scored half of her eight field goals against the freshmen. She made 26 free shots.

Patterson led the Spearman scoring with 29 points and Vicki Wilde had 19.

## MOD Funds Top \$4,000

Hansford County donated a total of \$4,137.59 to the annual March of Dimes Drive. County Chairman Mrs. Virgil Mathews announced this week.

Expenses for the drive were \$76.87, leaving a total of \$4,060.72.

Twenty-five percent of this, or \$1,015.18 went to the Medical and Scientific Research Fund. Fifty percent of the remaining money, or \$1,522.77 went to the National Foundation and the remaining money stayed in the local fund.

Despite the expenses during the past year for assisting children, the local fund still had a balance of \$1,600 before the drive, Mrs. Mathews said.

She expressed her gratitude to all the individuals, and businesses who helped make the local drive such a smashing success.

### Altar Age Down

The median age of an American bridegroom in 1920 was 24.6 years compared with 22.8 years in 1963. For a bride it was 21.2 years in 1920 and 20.4 in 1963.

### Improving Souffle

Adding cream of tartar to the egg whites when you are preparing souffle, usually helps the souffle stand up a little longer than usual while it is being served.

### A Time Saver

Don't hesitate to put a fresh pork roast on your rotisserie, cooked this way, the meat will need about one-third less time than when oven-roasted at a 325-degree temperature (185 degree internal temperature).

### Extra Rod Handy

An extra shower curtain rod installed over the bathtub comes in handy to hang wet raincoats, umbrellas or clothing that has been washed by hand.

where necessary.

So far, however, the industry has sent no color chart to Washington for the scientists' approval.

The vacuum cleaner industry reportedly takes a dim view of the whole idea.

## How To Keep Carpets Clean: Have In Same Color as Prevailing Mud

A dark conspiracy is being hatched against the hordes of happy home-be-smirchers who clomp clods of mud and dirt into the halls, parlors and living rooms of distraught mothers and fathers.

Banded against thousands of muddy-footed youngsters are the carpet manufacturers, the housewives and—get this—the federal government.

Just how committed Uncle Sam will get is not yet clear, but the Agriculture Department's Soil Conservation Service is lending a hand.

The idea is to rush out carpets and rugs of the same color—and, sometimes, similar texture—of the neighborhood's prevailing dirt (or mud).

CURIOSLY, the idea was proposed separately by the American Carpet Institute, which was spurred by an Eastern rug maker-member, and by E. I. duPont de Nemours and Company's Philadelphia office. DuPont makes nylon pile yarn fiber for carpets and rugs.

While the inquiries to the government did not exactly suggest matching the material with the back yard base—so careless footprints would blend in with the wall-to-wall covering—they made it clear the idea was to take general soil colors in different parts of the country and see if they could be adapted.

One suggestion was to "color-code" the soil of the whole country, except for metropolitan areas, so a manufacturer could recommend "selected colorations of high apparent soil resistance where this was a primary consideration with a carpet installation."

The Soil Conservation Service makes county-by-county surveys in which it studies, plots and publicly details all the information for whatever use it may have for farmers, county and city planners, water users and others.

This prompted the questions from the rug makers, who were looking for a general colored map showing the predominant soil colors in the different parts

of the country, their texture and permeability.

THE ONLY PROBLEM is that the last such map showing some areas of the country appeared in the 1957 Agriculture Department Yearbook. Government soil scientists claim that using this map and published soil survey reports, a firm could develop a map of its own.

One soil conservation expert called the carpet proposal "the most bizarre use I've ever heard of" for the survey maps. He added, "How far they will go we just don't know."

Washington, was however, intrigued by the possibility of carpets textured and colored in mud, sand, red clay, river-bottom ooze, neutral dust and rich loam, with appropriate patterns

SOMEONE FAILED

A Gruver business man last Friday night went to his business and was met by a robber. To protect himself, the robber carried a gun and in his fright of being detected, fired and killed a man. Someone failed.

Was it the lack of police protection? This may have helped, but it isn't the cause. It was society in training this murderer in the holiness of life. Perhaps it was the parents who couldn't or didn't get through to the person that life is to be honored as well as another person's property. Someone failed.

We all see failure in many areas--breaking traffic regulations, cheating in school, in business and reporting income tax. We see gossip and jealousies cropping out. These all indicate humans are a failure.

It only shows by nature we all are sinful since the fall of Adam. We all are breaking God's holy laws of love. We break every commandment every day. Some affect society more than others, as when a person's life is taken. But we all are guilty before God.

It is so easy to point out the evil deed done and pass by ourselves and say we are different because our deeds are less evil. Hold on! Are they? Sin is sin before God.

Man has failed to allow God's love to move and direct our lives. It begins in the home by failure of parents. It continues to fail as the church doesn't reach every human heart. Our schools can also take the blame--in fact all of society directs one another.

What is the answer? Humans need to stop fighting the church

and its message of divine guidance. Humans need to get "with it" and allow God's Holy Word to soak in and direct their lives--yes--even your life.

Who are we to say we don't need it? How can we reach every human? Until the Gospel is in every heart, we will have lying, stealing, murder and corruption. Someone fails every day. Let us begin now to be drawn closer to Jesus Christ. God hasn't failed us. We fail him.

Card of Thanks

We wish to express our sincere appreciation to the sheriff and his department, lawmen and Texas Rangers along with our many friends who worked by their side in the investigation carried on throughout the night and following day. A special thank you is extended to our friends and neighbors who prepared food and opened their homes to us, along with the beautiful flowers. May God bless each of you who assisted with the memorial service, for your prayers, and those who worked the blowing field across from the cemetery.

Mrs. Stanley Garnett returned home last Thursday from Downsville, La. where she has been helping care for her mother. Her mother, Mrs. H. O. Roye underwent eye surgery five weeks ago.

**CLICKS FOR HEART FUND**

AMERICA'S YOUNGEST HEART FUND VOLUNTEER is 2-year-old Theresa Mazzari, shown with her surgeon, Dr. George Robinson of New York's Montefiore Hospital, who implanted a ball-in-cage plastic valve (like the one shown against ruler in inset) inside her heart to replace one that was too small to carry blood from one section to another. She's the world's youngest beneficiary of heart valve replacement surgery, and, understandably, an all-out supporter of the 1965 Heart Fund Campaign. The valve, implanted when Theresa was 10 months old, clicks audibly with each heart beat. That's music to Dr. Robinson's ears.

**Farm Bureau Calls for Fight Against Bill**

WACO — The Texas Farm Bureau has alerted its members to contact Texas Congressmen in an effort to defeat a proposal to repeal Section 14 of the Taft-Hartley Act which would do away with right-to-work laws.

TFB President C. H. DeVane leads in an "action requested" letter that this issue may be brought up for consideration at any time.

"Our Congressmen are now deciding which way they will vote on this critical proposal," the leader of the state's largest farm organization said. He urged local Farm Bureau leaders to contact their respective Congressmen, requesting that the proposal be turned down.

Section 14(b) of the Taft-Hartley Act authorizes the enactment of State "right-to-work" laws prohibiting compulsory unionism.

"If this section is repealed," DeVane warned, "the 19 existing State right-to-work laws would become invalid, and an effort to obtain enactment of such laws in other states would be foreclosed."

Farm Bureau policy on this matter reads:

"No person should be deprived of his right to work because of membership or lack of membership in any organization. Compulsory unionism contributes to abuse of power by labor union leaders since members are denied their most effective disciplinary action—the right to stop being members of a union when its policies or the conduct of its leaders no longer meets their approval. To compel any individual to be a member of, or to financially support, an organization which engages in political activities violates the spirit of the Bill of Rights."

## LIONS PRESENT AWARDS

Two conservation awards were presented to the top conservation farmers of the year of Hansford and Hutchinson Counties by the Morse Lions Club at their regular meeting Thursday night at the school cafeteria.

Receiving the award from Hutchinson County was Monte Harbour. He was presented the award by Elbert Seitz of the Hutchinson County ASC office in Stinnett.

The Hansford County farmer receiving the award was Gene Woods. His award was presented by Bob Crawford of the Hansford County ASC office.

Other guests were William Morrow of Stinnett, John McAllister of Spearman and Rev. Joe Walker of Morse.

Two new members of the club, Rev. Charles Stackhouse and James Bordman were introduced.

The next meeting will be ladies night and the annual queen's contest will be staged. Meeting date is March 11.

Funeral services for Mrs. Grace Cline Miller of Oklahoma City were held there Friday, Feb. 26. She was one of the early school teachers of the area and was the sister of Mrs. Roberta May Kelly of Morse.

Mrs. Miller, 73, was born in East Texas near Emory and passed away after a lingering illness.

Survivors include her husband George and one son, Desmond of Okla. City, three brothers, Forest Cline of Calif., A.C. Cline of Seattle, Wash., and Gene Cline of Oklahoma City, and the sister, Mrs. Kelly of Morse.

Wayne Kelly of Lubbock, son of Roberta Kelly, attended the services.

Two former Morse graduates are listed on the Dean's Honor Roll of their respective colleges for the fall semester.

Carolyn George Giblin is listed on the honor roll at Panhandle A&M at Goodwell, Okla. She is a freshman business administration major.

Sharon Parks, freshman home economics education major, is listed on the Dean's Honor Roll at Texas Tech in Lubbock.

Two farmers from Morse left Monday morning for the farm tour to California. They are Thane McCloy and Earl Henderson.

Carson McCloy of La Junta, Colo., is also a member of the tour.

Parties were held Wednesday afternoon for the Good News Bible Clubs in the home of Mrs. Tom Dortch. The Valentine theme of red and white colors were carried out in the refreshments and decorations.

Songs were sung, memory verses recited and games were played. Those attending from the beginner group were Lucy and Steve Feeney, Jo Brown, Vicki Dortch, Linda Lou Lewis, Kim Brumley, David Schick, Gayle Reilswig, Sam Fleming, Lina and Angela Vera.

The junior club included Teresa Dortch, Van Lewis, Curtis Feeney, Susie Brown, Charis Fleming and Carol Hurley.

Teachers were Mmes. Desmond Kelly, Tom Dortch and John Thompson.

Morse HD Club was hosted by Mrs. Tom Dortch Thursday afternoon. The program on "Skin Care" was given by Mrs. Corky Chapman of Gruver.

Members present were Mmes. Jack Crowl, Mack Dortch, Roy Roper, Lynn Davis, Besse Henderson, Ella Parks, H.B. Parks, Mary Gillispie and the hostess.

Guests included Mrs. Frank Lewis and Mrs. Chapman.

Mr. and Mrs. Tom Dortch and girls and Mr. and Mrs. Frank Lewis and family had dinner together in Borger on Saturday

evening. Mrs. Annie Clifton and Mrs. Desmond Kelly were guests in the home of Mrs. Melba Fly and Mrs. John Lyons of Stinnett on Friday.

Mrs. Annie Clifton was a dinner guest of Betty Jo Vernon of Spearman Friday.

Kenneth Alexander who is a student at Lubbock Christian College was a weekend guest in the home of his grandparents, Mr. and Mrs. W.R. Parks, and his brother and family, Mr. and Mrs. Ray Alexander.

Mrs. Merton Schmidt of Dalhart visited in the homes of Mrs. Pearl Dixon and Mrs. Don McCammond Friday.

Ray Lanners, son of Mr. and Mrs. Barney Lanners, has completed his basic training at the Recruit Training Command, Naval Training Center, San Diego.

Friends of W.L. Coppock (Jerb), will be interested to know that he is now in the Pioneer Manor home at Spearman. His address is Box 566 and he will be happy to have cards, letters and visitors.

## Heart Drive Nears End

To all of our friends and neighbors who intend to contribute to the Hansford County Heart Fund, and have not as yet done so for one reason or the other, may we of the Hansford County Heart Council remind you that this is the final week of this campaign and we would appreciate your contribution.

We wish to thank all who have thus far contributed to the heart fund so generously. At the close of the campaign, the names of all who have contributed to the Heart Fund will be publicly acknowledged and published in the county newspapers, probably the week of March 8.

Levy and children attended the Class B Regional basketball games at Canyon and the Class A tournament at Lubbock this weekend.

## Borger Concert Group Renewing Memberships

Renewal membership to the Borger Community Concert Association is in progress this week. All former members are urged to contact Mrs. Rue

Sanders or Mrs. J.D. Wilbanks for next season's membership cards.

Richard Tucker, Metropolitan tenor, will present the last concert for the season March 10 at 8 p.m. in the Borger High School Auditorium. Mr. Tucker has been called the greatest tenor since Caruso and is now in his 21st season as the Metropolitan's top male star.

For new members who have not previously held membership cards, they too will be entitled to hear this concert by presenting their membership card stub at the door, that evening.

Arthur Fiedler conducting the Buffalo Philharmonic Symphony will be among the attractions for next season's concerts.

All memberships to the Concert Association must be in by March 12.

## Morse Rabies Clinic Saturday

Dr. H.B. Rinker of Spearman will be at the Morse Community Building this Saturday at 1:30 to vaccinate pets for rabies.

It has been a year since this program was carried out in Morse, so everyone is urged to have their pets vaccinated.

The cost will be \$2 per animal. This is in connection with the safety projects carried out by the Community Improvement Association.

For best results, you measure recipe ingredients

For the same reason, you need the accurately measured heat of an electric range

The best meals result from careful measurement of ingredients and just-right cooking temperatures—the kind of accurately measured heat you get only in an electric range. When you cook electrically, you simply select the heat you want from plainly marked heat settings. Whether you're cooking on surface units or in the oven, you get the same even heat from the same switch setting every time. For precise heat control that adds the final touch of perfection to every recipe, cook electrically. See your electric range dealer soon.

(Cont. from page 1.)

After allegedly admitting the shooting, John Grissiam took the officers to a tailwater pit where he had thrown the gun after leaving Gruver.

Officers and volunteer workers labored all night at the pit with pumps, and electronic equipment. They pumped the pit empty, then began searching the muddy bottom with metal finding gear for the gun.

In places the mud was waste deep and every time the equipment registered metal, the men had to dig around in the mud to find what it was. They found barrels, beer cans, and all sorts of scrap metal.

Sunday morning the gun was found by Rat Etter of Gruver using a forked willow "witching stick". Much to many of the unbelievers' surprise, the stick worked. It found several other metal objects before the man carrying the stick passed over the place where the gun was just under the mud.

Both of the accused men went to work Saturday morning. John Grissiam drove a tractor chiseling land. Earnest Grissiam worked in the print shop until arrested.

Both men have been in prison several times according to Sheriff's office records.

John Grissiam was first sentenced for one year in 1953 for arson on a car. In 1959 he was sentenced for four years for burglary. His next offense was forgery and he was paroled. He broke parole and was returned to prison to finish his term.

Earnest Grissiam was first arrested in Nebraska for forgery and was paroled. He was arrested in Oklahoma for forgery while on parole. After being released from the Oklahoma prison he was returned to Nebraska to finish his sentence there. He was released last November.

Sheriff Cooke and his deputies were assisted in the investigation by Texas Ranger Bill Baten.

The best way for some people to be just is to adjust.

## Cardiovascular Death Rate Among Men Aged 45-64 Declines 7.5 Per Cent Since 1950

HEART RESEARCH IS SAVING LIVES! Arrows show changes which have taken place, 1950-62, in the cardiovascular death rate for American men aged 45-64. Despite a 4.3 per cent increase in the death rate due to heart attack, there was an over-all decline of 7.5 per cent—thanks largely to dramatic decreases in death rates associated with high blood pressure and stroke. Over 100 million Heart Fund dollars have been channeled into heart research since the first Heart Fund Campaign in 1949.
