12 Spearman Wrestlers Compete In Amarillo

A dozen elementary and junior high school boys, including the local junior high school boy who is leading in the competition for the outstanding wrestler in the state, represented Spearman Saturday, March 5, in the State Wrestling Tournament for Elementary and Junior High School Boys in Amarillo.

The one-day event was held in the Civic Center. Weigh-in was at 6:30 a.m. and matches began at 9. It was the first time the tournament for these boys was held in Amarillo.

From Spearman, by weight class, were: 44-pound, Carl Urban and Shawn Cook; 53-pound, Tommy Barber and Bob Cook; 62-pound, Mark Johnson and Cole Ivey; 65-pound, Mack McLain; 71-pound, Mark Pearson and Ross Donahue; 77-pound, Raymond Mosley; 80-pound, Greg Meek; 106-pound junior high class, John Lira.

Wrestling Coach Jim Ivey noted that Lira, with 36 wins against 3 losses and 3 losses, were top entries for Spearman.

The local team of 12 will be in competition with 1,500 boys from throughout Texas.

Reserve the night of March 26 for a very special occasion—the annual Spearman Chamber of Commerce banquet beginning at 7:30 p.m. during which the State AA Girls Basketball Cham-

pion Lynxettes will be honored.

Additional activities for the evening include entertainment by the Booker Bank Notes, a 42-voiced mixed ensemble sponsored by the

First Bank & Trust Co. of Booker. This is the second time the Bank Notes have provided entertainment for the banquet.

It was noted in the announcement of the banquet

date that, in compliance with University Interscholastic League regulations, the Lynxettes will purchase their own tickets to the annual function.

Tickets are now on sale at

the Chamber of Commerce Office or they are available from a Board of Director of the Chamber for \$6.50 each. The banquet will be held at Spearman High School.

CHILD ABUSE:

Are you a potential abuser

BY CHUCK COOK
Herald News Editor

When babies are born, they have the potential to grow into magnificent human beings, but there are those, the battered, abused and neglected child, who become frozen or arrested in their development.

They are the victims of child abuse. The U.S. Department of Health, Education, and Welfare estimates that over 1.6 million cases of child abuse will be reported nationally, with over 1 million of them provable. Considering what experts believe is close to a 8-1 ratio for non-reported cases, that would mean there are over 10 million abused children — either physically, mentally or sexually in this country.

While their problems may not surface immediately, many of the abused children go on to tough adult lives, with many having trouble relating to society, and to their chosen mate.

A policewoman working for the child abuse section of the Los Angeles Police Department conducted a study which showed that over half of the children whom the police had first seen when they rescued them from abusive parents, later appeared in the criminal records as juveniles, and three years afterwards as adults.

With the scope of child abuse substantiated, the main problem now seems to be to get the abused child help, and also to help the abusing parent.

In almost all of these cases, outside help is needed, and help is available even in a town the

On those two days next month, members of the Spearman FCA Chapter will be involved in their annual sale of bulbs to provide funds for the summer camps they sponsor in Colorado, it has been announced by Spearman High School Coach Gregg Sherwood.

Sherwood added the FCA drive will hopefully provide enough funds to take as many boys to camp as want to go this year.

Open House will be from 2:00 to 5:00 P.M., Sunday, March 6, 1977. A formal dedication has been planned for 3:30 P.M., Friday, March 4 at which time the world renown designer of the geodesic dome, Dr. R. (for Richard) Buckminster Fuller will be the featured speaker. Dr. Fuller, who is an architect, mathematician, engineer, and poet is a dynamic "young" 82 year old octogenarian who in his own words is "not a genius, but a terrific package of experience". His unorthodox "comprehensive design" theory—a blend of mathematics, engineering, and philosophy materialized in his "Dymaxion" inventions.

His dream bubble has emerged in solid state as close as the Aluminum Dome in Borger and as far away as the Far East; the projected (completed, 1966) dome in Antarctica, and the projected domes on the ocean floor and on the moon! The discoverer of synergetic geometry, geodesic structures and the Tensegrity sphere, Dr. Fuller, who is associated with the architectural departments of Yale, Cornell, Princeton, and MIT along with being appointed to a lifetime professorship

size of Perryton. But first, the problem has to be made known.

The abused child is urged to reach out through a friend, teacher, minister, or through a professional such as the Perryton Family Service Center. At the Family Services Center, a resident psychologist, Tom Harper, is available to assist each person with their problems.

Ministers such as Harrol Waterbury, who has extensive experience in first-hand dealings with both the abused and the abusers, are available for counseling. Jack Pearce, pastor of the First Baptist Church is another who has expressed an interest. But these are not the only two ministers, almost any minister will be good to turn to if you, or a friend have this particular problem.

the effects of child abuse are profound. The magnitude of the problem is great. Help is available. These facts should help the abuser, and the abused accept the fact, and make it easier for them to reach out for help.

Are you a potential child abuser? The following questions, which were developed by a psychologist, should help you answer that question if you don't already know:

Child abuse knows no boundaries. It can occur to the poorest as well as the richest family; the broken home or the intact family; black, brown, white; boys or girls; infants to adolescents. There are several conditions that determine difficulties in parent/child relationships as related to child abuse.

Some questions you may ask yourself concerning your relations with your child:

1. Does your child cry a lot?
1. How do you manage your child's crying?
3. Does it upset you when you are unable to stop or comfort your child?
- How do you feel inside when the child cries?
5. Does it ever make you feel like crying?

(Note: These questions-answers relate to anxiety and anger or feelings of despair.)

6. Does it upset you when you are left alone?
7. What do you do when your spouse fails to listen to you?
8. Have you ever been afraid to be left alone with your child?
9. Can you usually call someone to help you at these times?
10. Does it make you anxious to have someone watch you feed your baby?

(Note: These questions reveal the amount of pressure other people present to you.)

11. Do you ever get the feeling that others are critical of how you feed or take care of the child?
12. Do other people understand the problems you have with your child?
- (Note: These questions reveal the amount of pressure other people present to you.)
13. When do you feel children are old enough to understand what is expected of them?
14. How well do you feel your children understand you?
15. Can they tell when you are upset and do they help?

(Note: These questions reveal how you may be turning to your child for satisfaction of your needs.)

It is further found and determined that in accordance with an order of the Board of Trustees, the Secretary posted written notice of the date, place and subject of this meeting on the bulletin board located in the central administrative office of this school district, a place convenient and readily accessible to the general public, and said notice, having been so posted, remained posted for at least 72 hours preceding the scheduled time of said meeting.

It is further found and determined that in accordance with an order of the Board of Trustees, the Secretary furnished a notice of the date, place and subject of this meeting to the county clerk of Hansford County, Texas, the county in which most, if not all, of this school district's pupils reside.

The above order being read, it was moved and seconded that the same do pass. Thereupon, the question being called for, the following members of the Board voted AYE: Welwood,
Jackie, Cutler,
Jackson, Iron

and the following voted NO: None

IRRIGATE YOUR WIDE OPEN SPACES WITH OUR 360 THRIFTY-RAIN™ PIVOTAL SPRINKLER SYSTEM.

If you have relatively level land, and you've been putting off buying an electric-drive pivotal system because of price, we've got just what you've been waiting for. The new Gifford-Hill 360 Thrifty-Rain™

Finally, there's an electric-drive system that's within the budget reach of farmers who would ordinarily buy either hydraulic or water-drive systems. The 360 Thrifty-Rain™ is a "long span" version of our classic 360. The basic difference being the distance between towers (164 ft. on the Thrifty-Rain™ 124 ft. on the standard 360).

The 360 Thrifty-Rain™ 164 ft.
 The standard 360 124 ft.

By using longer spans, we reduced the number of towers necessary to cover the same acreage. That means less cost to manufacture. And less cost to you!

The 360 Thrifty-Rain™ is also equipped with heavy duty drive systems. Both the original 360 and the 360 Thrifty-Rain™ feature a unique computer-designed sprinkler head spacing and nozzle concept that provides uniform water distribution and reduced pumping costs. Both systems use heavy-walled 6" O.D. pipe for extra strength.

Consequently, the 360 Thrifty-Rain™ is structurally stronger than other "long span" systems on the market today. It operates efficiently even under high wind conditions, and can handle up to 10% grades.

Standard 360 spans are interchangeable with 360 Thrifty-Rain™ spans. That means you can use standard spans to allow flexibility of tower location and accommodate special terrain problems.

So if you've got wide open spaces to irrigate, and you don't want to pay for capabilities you don't need, get a Gifford-Hill 360 Thrifty-Rain™ And save yourself some money to boot.

Spearman stall tactic helps ice AA title win

By JOETTE MOFFETT Sports Staff

Sensing a Robinson comeback, yet aware of his forwards' foul troubles, Spearman coach Ralph Newton ordered his guards to stall with four minutes left in the University Interscholastic League Class AA state girls' basketball final Saturday at Gregory Gym.

The stall worked - Robinson fouled six times while trying to regain control and the Lynxettes collected seven points at the free throw line - as Spearman edged the Rockettes 61-58. Robinson pulled to within one point with 17 seconds left, but the Lynxettes held on to the lead.

"We pretty well had to do it," Spearman coach Ralph Newton said of the lengthy stall. "We were in pretty bad foul trouble down on our forwards' end (Debbie Greene had fouled out and Carla Harper had four fouls). We couldn't afford to let them keep the ball down there."

SPEARMAN, WHICH ended its season 25-5, mainly credited its stall to the 5-7 Harper, who scored 33 points, almost double her regular-season average of 17. Harper had a 32-point effort against Red Oak in the semi-finals.

Defensively, Lynxette guards 5-9 Cindy Gressett and 5-11 JoNell Comegys shut out Robinson's 5-9 Lynda Linam, who averaged 27 this season. Linam scored 25 points, but made only nine of 24 field goal attempts. "JoNell was guarding her well and forcing her to shoot high," Newton said. "They didn't give Linam any of those easy shots."

Michele Cooper led Robinson with 26 points, and she pulled the Rockettes to one point, at 59-58, with a layup and 25-foot jump shot in the last 30 seconds. She fouled a Spearman guard with seven seconds left, however, and Christy Collier's two free throws ended the scoring.

POOR REBOUNDING early in the game hurt the Rockettes the most. While Gressett grabbed 11 rebounds, Comegys had nine and the Lynxettes had 36 as a team, the entire Robinson squad had only 13.

The Robinson guards spent most their efforts double-teaming Harper, but she was too quick and too accurate to be stopped. "She handled the guards excellently," Newton said. "Carla was under a lot of pressure out there, but she just didn't make any mistakes."

SPEARMAN (61) - Harper 13 7-15 33, Greene 4 0-1 8, Collier 3 5-7 11, Keetch 3 1-2 7. Guards: Gressett, McAdams, Comegys, Robertson. Totals 23 13-25 61.

ROBINSON (58) - Linam 9 7-11 25, Cooper 7 12-13 26, Colyer 3 1-1 7. Guards: Lewis, Erwin, Daughtery, Horne. Totals 19 20-25 58.

Fouled out - Greene, Lewis. Total fouls - Spearman 23, Robinson 23. Attendance - Dowies, Brannan.

OFF TARGET SPRAY

Any foreign substance entering your eyes can result in horrible consequences, ranging all the way from simple irritation to permanent blindness. Spray cans present problems because of the large number of potentially dangerous products that are now available in that form. The use of potent cleaning solvents in many garages, and oven cleaners in the kitchen can present real hazards. An inadvertent squirt of such a chemical in the eye will cause damage to the tissue, especially if not immediately flooded with water. This situation is aggravated by the fact that many spray cans have inadequate marking for the direction that the spray will be ejected. Try to purchase cans that are designed so that it is difficult, if not impossible, to depress the valve when the nozzle is facing backwards. With all spray cans always check - and double check - to see that the arrow or other indication is pointing away from you.

Kite Flying Safety Tips

"No Metal" is the key for safety in kite flying--meaning "no metal in the kite, no metal in the kite string, and no metal in the air (in the form of electric wires) near where the kite is being flown." This is the advice offered to kite-fliers -- young and old -- by Robert Elliott, District Manager for Community Public Service Company. Other safety tips: keep the kite string dry and don't fly your kite on rainy days, avoid busy streets and highways, and stay away from TV antennas. "If your kite does get snagged on a power line," Elliott stressed, "don't try to climb up and get it down. Call the CPS office for help." The kite-flying safety rules are being publicized in posters for school bulletin boards, sponsored by the power company.

Lynxettes Drop Red Oak, Trek For Championship

This was the first picture made at the state tourney, as the team was introduced before the final game with Waco which the Lynxettes won.

All state forward Carla Harper hits two in the final game against Waco Robinson. Dr. Garnett and his Waco team were great, and we want to congratulate them for their fine play against the Lynxettes.

Christie Collier hits a basket in the final seconds of the game. Notice the ball in the basket. She and Carrie Clark hit 4 points in a row to put the Lynxettes on top in the final game!

Notice the ball on top of the basket, as Chris Collier makes free throw number 2 in the fading seconds of the state championship game. Note that Chris is down on her knees, trying to help the ball thru the hoop!

Pat Walker does give results ... right here in Perryton, Texas!

"I NOW WEAR THE SAME SIZE I DID 18 YEARS AGO!"

Mrs. Jerry Farney states, "When hearing of my starting the Pat Walker program, friends commented that I didn't need to lose weight. Now they can see that I did."

My husband noticed a difference after the first six weeks ... and today, I wear the same size I did eighteen years ago when we were married.

Usually in going on a diet I would lose 5 pounds and gain back 6 or 7! But with Pat Walker's plan I have lost 18½ pounds and 3¾ inches ... and am still losing."

You are invited to the Pat Walker Salon for a complimentary treatment and figure analysis without obligation. During our analysis we will tell you where you are going to lose, and how long it will take. Based on a \$3.00 fee per treatment we will tell you exactly how many treatments you will need, and the exact cost of your correction. With the unique Pat Walker method you can reduce easily and successfully without rigid diet, or strenuous exercise, without disrobing, and in complete privacy. Our ladies say that their Pat Walker treatments are so enjoyable they leave them looking and feeling good all day.
