SUNDAY, JANUARY 28, 1979

It isn't even news anymore, but we had another snow Friday evening. About 3 inches of snow fell beginning at noon Friday. However, it is clear Saturday morning, and should remain so for a day or two. In the meatnime, the Lynx and Rangers thawed out the freeze at Lyax gymn Friday night, as the awesome Lynxettes won the first half of district 1-AA with an 89-49 win over a fine Rangerette team. Queen Tracie Keetch lead the scoreing for the Lynxettes. In the boys game, the Rangers won over the Lynx 77-55 in a game much closer thatn the score indicated.

Highlighting the evenings entertainment at Lynx gymn, was the crowning of the new basketball King and Queen. The new King is Scott Martin, and the new Queen, is Tracie Keetch. Both of these were picked by their respective team mates.

Scott is an all-state football player (first team) and an outstanding basketballer. Tracie Keetch is an all state basketballer, and is currently the leading player for the Lynxettes.

Adding to the Homecoming festivities at the school gymn Fri. evening, was the annual Lions Club pancake supper. A record crowd was on hand despite a heavy snowfall. In fact the Lions "fed up" about everything that they had for the big supper. A big thanks to all who attened the pancake supper and supported the Lions Club. Let's all do the same for our C. of C. tonite!

Eta Alpha Celebrate Birthday

Eta Alpha Chapter of Delta Kappa Gamma celebrated its sixteenth birthday at Spearman, Saturday, January 20. Mrs. Glen Phillips, who was the chapter's first president and is now residing in Amarillo, was the guest of honor.

After the business meeting. chaired by Mrs. James Love. president, Mrs. Phillips related the details of the chapter's beginning. "Most of the charter members of Eta Alpha had been members of Gamma Theta in Borger. As Gamma Theta included membership from all the school in the Panhandle, it became obvious that a nev the membership of Gamma Hamburger or Oven Fried Liver Theta was so large. I began to explore the possibility of a new chapter for towns in the eastern Panhandle. After a flurry of letters to Alpha State, permission was granted to form a new chapter to include Spearman, Gruver, Perryton, Follett, Booker, Waka and Darrouzett. On January 19, 1963, during a typical Panhandle blizzard, Eta

Alpha was born. Well, the weather is doing it to us again! I think that this weather and I are fixing to have a talk! With this weather the way it is, it's making our tournaments a hazard to get to! I suppose that the tournaments are doing well, all I know is that John Reneau got to skip out on a English 60 word vocabulary test! Now if that isn't lucky I don't know what it' (lucky squirrel) When I was in TG&Y I noticed some Sunray girls shopping around so I asked how the tournament was going and they said it was great! They were just stocking up all the candy that they could find! (I understand that it was for energy food, but if they play against the LYNXETTES they will need

more than energy food to win!) I had planned on going to Amarillo this weekend to visit my sister-in-law who is in the hospital but with this weather I might never get home to Gruver! School has been really great in fact we are going to do something really great in Government! We are going to have Mock trial concerning racial discrimination. Pam Largent is the defendent in the case! I took the easy way out I'm on the jury so Pam better watch out or I might find her guilty as charged! (Just kidding, Pam) I bet we are the only court in the world that our grade depend on how well we handle the case. Instead of working for the sake of the defendent we are working for the sake of our grade!

Our library is really improving! We can go and study like we do at home with MUSIC! To me it seems to keep the library much more peaceful! We have a TV in there too, but I think that I prefer to listen to the radio! The seniors are working on their critical analysis's this year, again, and so we have to spend much more time in there than we did before! It seems all the improvements are being done the year I get to leave! Although these improvements are great I hope that some of our fellow students don't ax these improvements for the rest of us!!

After a wonderful ten days spent in sunny California, I have been trying to adjust to this cold, wet weather we have been having this month. The fact of the matter. I have been trying to figure out how I can pay all my bills, and have enough money left to get to somewhere where it is wram and stay until this cold weather is over. As you see, I didn't solve that problem.

I've quit listening to the weather forecasts they seem to be the same old song, second

Something else I have been trying to figure out, is how with two weeks off, I seem to be behind in my work about three months. So far this month I have spent most of my time filling out government reports. circulation reports, etc. which leaves me about 6 days to do what I should have been doing all month. On top of this we have gone on computer billing here at the Reporter, and so far it seems to be more work than the other way. I have decided what I need is a good bookkeeper and not any more machines.

I'd tell you about my New Year's resolutions but so far I haven't kept any so I'll just let that go by

Bill and Cricket Giles have a new microwave oven and Bill has been trying his hand at cooking in it. He brought down some fudge yesterday that he had made and it was really good. He is also full of helpful hints as how to use the microwave. He told me yesterday that you can dry pantyhose in one. he didn't say what they would be like when they came out

I just looked outside and the snow is coming straight down and seem to be quite heavy. Maybe it will do more good than that sideways stuff.

H&H Heating Service

is still in business. They are in the process of relocating to their warehouse on the Gruver Hwy, outside of Spearman next to Yanceys Welding Service. The old H&H building is still holding stock Herrin says, but is not open for bussiness at this time. They are trying to get moved to the new location. Herrin says to look for their sign going up next to the building it will be a large Coleman sign, Herrin said. They are also remodeling the office part of their building and won't be open for actual bussiness till around Feb. 1st, But if you need them for Heating or service Herrin says they can be reached at their same bussiness No. 659-3579 or after hours Emergency No. 659-3577. Herrin also says he would like to give a special Thanks to all of the Bussiness and customers of Spearman

during their problems and their support was very thoughtful and comforting. Herrin says with \$10,00000 on the books it sure doesn't help matters much but says this figure has lowered some. Some people ask

if H&H is quiting or left, but Herrin says no way. They are still in full swing and as long as the people need Heating & Air Conditioning or Refrigeration he will be here.

Herrin's Distributors were all in last week from, Houston, Abilene, Fort Worth and Amarillo and says they are still behind H & H and will help with parts and equipment.

Herrin said they lost alot of jobs bid if out and jobs canceled plus service calls due to a week shut down but we are going strong now. H & H has been working Spearman, Kansas, East Texas, Oklahoma, and all surrounding towns of Spearman but says he thinks they will concentrate mainly on the Spearman, area now. And once again would like to thank all bussiness and people of Spearman for their help

Hightower Comments On President's Message dimmed, it is extremely danger-

(Washington, D.C.) "The Presdient tried to address the principle concerns facing our nation in his State of the Union Address," Congressman Jack Hightower said after returning from the joint session of Congress tonight.

"In his message the President spoke of balancing the budget, controlling inflation. keeping employment hihg and providing a national defense second to a none."

"These are the principle issues that we will be facing during the session of the Congress.

"He also referred to legislation that will be coming before the Congress in the area of hospital cost containment and helath care.

"There are at least 535 projection method.

"There were some major their absence. Little verbage was given to energy and the reference to improved farm income would be hard for most farmers in our area to accept. Just because we have had record farm exports, does not mean that we should back away from efforts to expand in this area. The fact the President claimed that not farm income is up 25% just shows how low it was last year.'

Last Eclipse Of The Sun This Century Will Be Feb. 26

to Arthur Schneider, Director of though partial for this area, the eclipse will be total in the northwestern section of the United States and central

The moon's shadow first strites the earth in the North Pacific, about 1000 miles west of Vancouver, at sunrise. It then swiftly moves eastward, striking land at the mouth of the Columbia River, between Washington, and Salem, Oregon near the path of total eclipse. The shadow continues to sweep eastward and then slightly northward, passing over Butte, Missoula, Helena, and Great Falls, Montana. At 10:40 a.m. CST, the shadow moves into Canada near Crosby, North Dakota. From there it is into the wilderness of northern Ontario, Hudson Bay. Baffin Island, and finally northern Greenland.

Astronomically, conditions for viewing the eclipse are similar along the path of totality. The sun will be positioned fairly low in the southeast, with totality lasting only 21/2 min-

The panhandle of Texas will experience a partial eclipse with 70-75% of the solar disc eclipsed by the moon. The event begins about 9:08 a.m. CST with a dark notch appearing on the upper right of the sun's face. Around 10:18 a.m. CST greatest eclipse will take place. Although nearly 1/4 of the sun will be blocked by the moon and the sun's totallight may be ous to look directly at the sun. The infra-red rays will be issues that were noticeable by focused by the eye lens on the retina, burning the later and causing blindness. Direct viewing is not recommended with any means, unless astronomical-solar filters are available. History Of Spearman Music Club

by Mrs. H.P. Cates For the love of Music, and the

desire to know more about it. the Spearman Music Club was started. In January 1956 several community. That includes rural friends got together for coffee and the discussion turned to the amount of talent in the music field that Spearman had. This talent was not being utitiezed. There was a quick exchange of ideas and opinions, several phone calls, more ideas, and a club was born. It was a struggling club. The programs learned toward learning more about music and the enjoyment of it. Then it was decided we needed to federate. Federation was great, but were we ready? It takes lots of work to be a Federated Club, there are lots of requirements to fill. When the vote was take, the mayority ruled. And we were a Federated Club. I might mention, that the few that voted against federation worked as hard as anyone to see that these requirements were filled some members have served in District and State Offices and took lessons on string instruments to fill requirements, such as crusade for strings. None of the active members were traveling much. because of family committments, but we had associate members to share their travels with us, we had exchange students to fill the gap on international programs. Opera requriements were handled by local members with the presentation of "Barber of Seville", "Sweet Betsy From Pike" and "Hansel and Gretel". We have had other more professional groups, but theres always the fond memories of doing the programs yourselves. Some members didn't like opera, but they did enjoy the range of vocies and after the programs felt they had learned something about opera, and that was the purpose of the club. "To Learn" very few members had been to the District Conventions so the first convention held in Spearman was an experience to remember. Spearman was the host club, and everyone was willing to try. Because of limited motel facilities we had the first one day convention. Usually they were held two days. I believe, all conventions in this District are only one day now: Truly, we had a grand day, the State President was here, as

country, All countries and all peoples. I am the best friend you have among the Art family. I will stay with you longer and I will be your friend and constant companion long after the other Arts are gone. Really I'm a necessary lucsury: Please let me stay in your life and home. I don't believe you could live without me, because you see, I am music.
