#### A REGULAR WEEKLY REPORT

During the session of the city and county bealth officers here the past week, a resolution was offered calling upon the governor to take steps at once to secure the selection of lepers. The resolution says that six months have elapsed since the thing is not done soon it may become a nullity. Opposed to this action of the body, a number of the physicians openly oppose carrying into effect the law providing for the leper colony, declaring that the disease is neither infectious or contagious and that it would be absurd to spend \$50,-000 in establishing the colony and pay a superintendent \$3,000 annually to care for a half dozen or not exceeding a doze + of these unfortunates in the state.

In accepting the invitation to visit El Paso on October 16, and attend the meeting of President Taft and President Diaz, the governor says, that he never refused it and has been wrongfully reported as having declined it.

The report of cotton ginned in Mr. G. W. Small tells us that September, just given out by the ginned in September last year, but then the crop was just beginning to be picked and now it is estimated to be three-fourths in. with a total of 1,015,277 bales Mr. G. ### The North Pole Controversy.

Why! What a bother! Somehow or other Nobody seems to know. Two men sought for it? Through hardship fought for it, Each says he found it, And walked all 'round it; Each says he was first; But that's not the worst.

One man with pen and tongue Tries to put the other wrong. One, with an instinct true, Keeps himself like one who knew

Time would prove him in the right; So he does not want to fight.

One says the other lied; One holds his tongue with pride. One's so mad he's almost burst; One keeps still when he is cursed. Both around the North Pole hovered; Both sought it; one discovered. And it is really a bother,

For indeed, somehow or other, Wecan't say was it which or t'other. MRS. NELLIE G. JOHNSON.

Mr. T. J. O'Donnell, with Mr. Salzer, of Lamesa, at the stearing wheel, arrived in Tahoka Thursday morning. Mr. O'Donnell stopped at The News office a few minutes on his way to the surveyors' camp. While he is here he will see about having a well put down on the lots out near George Small's place where he will begin the erection of a nice residence in the next few days.

This looks to us as though Tahoka might become the center of railroad activity for several months to come.

The Christian people of Tahoka have some of the lumber on the lot (No. 8 in block 38) south of the News office and east of the Garage, where they intend to build a church. This building will be built bungalo style 24x30

#### THE CAT IS AWAY.

Lynn County News (Tahoka) Our editor being away, the business manager's wife gone, the devil's mother off on a visit, and the office angel's cook taking a vacation, has made it difficult for us to get out a paper this week. We might add that, going to the Holiness meeting every night but one, and spending that one with the Odd Fellows, helped some.

Helped? You must have mean hindered. No printer who stays up half the night can do a good day's work next day. The fact that the office force was so badly disorganized should have influenced you to go to bed early rather than to dissipate the hours at camp meeting or the lodge. When the editor gets back he will probably lecture you, and may even go so far as to postpone pay day .-State Press.

We beg to state, the editor, wife, mother and cook, spoken of above is one and the same person. State Press speaks of the editor as "he" well we are not, we are "her;" all the more reason why we will lecture the whole force when we get Alley Co's. back. As for pay day that don't cut any figure. We'll burn the biscuit, scorch the steak and serve muddy coffee with skim milk in it. That's the way we get even with our office force, -Ed.

When the editor returns and poned indefinately, she may see Circle last Saturday afternoon. what a big hole it cuts in figures. The entire force join in saying; 'We have paid admission, to lectures we did not enjoy half so much as we expect to the above threatened free lecture." If the wife, mother and cook, remain away much longer, they will find the office force living on, corn pone, fat pork and well water. There will be no biscuit, steak, or milk of any kind .- B. M.

#### Toledo Blade Toledo, Ohio.

Best Known Newspaper in the United States. 200,000 Circulation Popular in Every Family

The seventy-fourth year of its exist ence finds the Toledo Blade more popular than at any period of its remarkable careor. It is now read each week by more than a million people. Its field is not circumscribed by State boundaries, but involves the length and breadth of the United States, giving it an unquestionable right of claiming to be the the country.

The Weekly Blade is distinctly a famly newspaper. The one object of its publishers has always been to make it fit for the American home, for the fireside, and of interest to every member of the femily. To fulfil this purpose it is kept clean and wholesome. The news of the world is handled in a comprehensive manner, and the various departments of The Blade are edited with painstaking care. The Household page is a delight to the women and children: current offeirs are treated editorially without prejudice; the serial stories are selected with the idea of pleasing the greatest number of fiction lovers; the Question Bureau is a scrapbook of information; the Parmstead columns are conducted with the purpose of giving the patrons a medium for the exchange of ideas and information on farm topics. No department is neglected, but every feature is taken care of with the idea of making The Blade worth many times the price of subscription -- one dollar a year-\$1.50 with The News.

THE BLADE, Toledo, Ohio. Kindly mention The News when writing. All subscriptions due at this office.

#### TO THE TEACHERS OF LYNN COUNTY

Whereas Judge Perryman has called the teachers to meet from Nov. 22 to 26 inclusive, let each teacher provide himself with the books which have been prescribed for use in the institute.

Sometimes teachers complain about having to buy books. No teacher deserves the name of teacher who would grumble about the small sum required for professional books. Such greatest national weekly newspaper in | teachers never teach school. They only keep school.

> Each teacher should send for the books at once and prepare the work that is outlined.

> > Respectfully. O. T. BRYANT.

### LOMBARD PIANOS ARE THE BEST IN THE WORLD

Mrs. Helen M. Slaker, 244 Grand Ave., Aurora, Ill., says: "I cannot find words in the English language to express my appreciation to you for having sold me such a beautiful instrument. I really think it is the most beautiful case I ever saw, and the tone is simply grand. I shall be glad to give you any testimonial, as I think the Lombard should take the lead."

Rev. Geo. Doubleday, Pres. Corpus Christi College, Galesburg, Ill., says: "We are using the Lombard in our College work at Corpus Christi, and it is a pleasure to recommend it. It

J. W. Purviance, Editor McNairny County Independent, Selmer, Tenn., says: "The instrument (Lombard Piano) fills our most sanguine expectations. It is not only a rare beauty in its outward finish, but the tone is round, full, rich and sweet. Your firm has proven to be prompt and reliable in its dealings with me."

J. Ernest Paxson, Editof Press, Parkersburg, Pa., says: "I must say that the Lombard sent me is a beautiful instrument, and a credit to a standard firm. We are more than satisfied."

R. S. Knapp, President Federal Charter Co., Washington, D. C., says: "We now realize after a careful and comprehensive trial of the Lombard by many musical artists of Washington, that it stands second to none, regardless of price or make. Every one who has tried this mostrument is enthusiastic in its praise,"

These are samples of hundreds of enthusiastic letters received in every mail.

#### Visiting the County Schools.

Judge Perryman started out early Monday morning to visit the schools in the west and southwest part of the county. The T-bar school was the first ed the opening Monday morning. The Pride and Joe Bailey sohools were visited Tuesday, and on his way home Wednesday, he was at Midway in the afternoon.

One is inclined to get just a controversy, but there is a feature of the photographs which Dr. Cock exhibits which is pleasing and that is the presence in all of Cook does not seem to have his own exploits by inventing a flag to bring them into prominence The American Flag is good enough for him and for his family, for every blessed one of them, from the baby up, has been waving a flag in every picture seen of them vet. Dr. Cook seems to be a pretty good American gentleman. -Stamford Tribune.

From present indications it is pretty safe to predict that Lamesa will be the terminus of the San'a Fe's line to run south from the Coleman-Texico cut off. Wh t will eventually be done about closing up the gap between Lamesa and Sterling City, is no known and all reports published about the line being constructed ny time soon are mere guess work. Our assertion is based on statements made by Santa Ie officials - Dawson County News

#### Patent Rights Activity.

As there has been several thousand dollars worth of crude oil burner contracts sold in Tahoka lately, we clip the following from the Seminole Sentinal.

Robert Malone, form rly of Seminole, but now of Midland, is here today demonstrating the working of a crude oil burner. It is a simple affair and will likely be widely used. The crude oil is estimated to cost in Seminole about ten cents a gallon and one gallor will burn eight hours. Any cool stove can be used. Mr. Malone says \$60,000 worth of contrac's has been sold in Midland in the last ten days. The Hale County Herald says.

There have been a number of big deals in the Little Crater crude oil burner business at this place Lee Mitchell and Beck have sold \$11,000 worth of the patent contracts; J. B. Gilliland & Son sole \$26,150; Clarke & Hamilton \$31,-000, and F. M. Richards and W B. Pearce \$43,500, making something in excess of \$100,000 worth during the past thirty days. Plainview is becoming as great a patent right center as Bloomington, Ill., was when Col. Snell made a for tune of several millions.
