Permanent Highways for Lubbock County

Business Men and Commissioners' Court had Rousing Meeting Monday

Monday marked an important day in Lubbock county's history when more than 30 of the leading farmers, businessmen and builders of the county met at the combined invitation of the Lubbock, Slaton and Idalou Chambers of Commerce in the Justice Court Room at Lubbock for the discussion of the highway situation in this county and in an effort to find some practical solution to the problem that is before this county in her highways.

The Commissioners' Court was present and representatives from every community and city in the county. The entire highway situation was laid out on the table and discussed from every angle—both pro and con—and there were some from both sides present—and the following facts were made clear and are here presented for further thought and discussion:

That the State Highway Department has indicated that they are not only willing but anxious to go their full length in giving Lubbock County the highest type of permanent hard surfaced highways if this County will show any indication of a willingness to do its part. To be more specific, the highway department will put up \$2 to every \$1 the county will put up from a bond election for the construction of a hard-surfaced highway across Lubbock County and it is believed that they will stand hitched on the same proposition in putting two such highway entirely across the county.

That Lubbock has already been designated as one of 25 division headquarters for the State in this maintenance program and that around the first of the year a complete force of division engineers, supervisors overseers, mechanics, and others will be stationed in Lubbock to look after the State highways in approximately thirty surrounding counties.—Lubbock Avalanche.

High School Boys to Present Negro Comedy

On next Wednesday night the boys of the High School will present an amusing play portraying negro temperament.

The scene is a court room, and the action is the trial of young Rastus, who is being sued for breach of promise by the dusky hired Miss Ammonia White.

The boys are working hard on their first attempt of this kind. Following this, later in the winter, will be a real comedy.

Ten per cent of the door receipts are to be given to the Parent-Teacher Association.

Mexican Runs Amuck

A Mexican was found prowling around about the front porch of a private residence Tuesday night and the proprietor was compelled to use rather drastic means to expel him.

He was later taken in charge and placed in jail by Sheriff S. W. Sanford, who is of the opinion that the Mexican is mentally unbalanced.

TAHOKA GETS TELEGRAPH OPERATOR

Mr. J. L. Heare, local agent of the Santa Fe, announces that a telegraph operator has been stationed at Tahoka, and the people of this and surrounding country are now being given the telegraphic service they have long desired.

The hours of service run from 8 A. M. to 6 P. M.

The citizenship will greatly appreciate this forward step. The Tahoka Chamber of Commerce and the Retail Merchants Association are due the credit for this service.

The News Changes Ownership

With this weeks issue the Lynn County News passes into the hands of Judge E. I. Hill, of Sweetwater, Texas, who has bought the material, subscription list, building and good will of the business. Judge Hill took charge of the News Thursday, November 1st.

Judge Hill has been serving as district attorney of the 32nd judicial district for the past several years, but prior to that time he conducted a newspaper at Roscoe, Texas, therefore not a new man in the newspaper field. He is a very competent man and fully capable of giving the people of the Tahoka community and the county at large an interesting and live local newspaper and one which they will be proud of, and which will be an important asset to the town.

The Lynn County News plant is exceedingly well equipped and can easily handle any business that is accorded it.

Editor Hill will have associated with him his son, E. I. Jr., who has been employed on the Randall County News the past several months, and also employed in printing offices at Sweetwater. He will fill the position as linotype operator. Albert Curry, who has held a position on the News as ad and job compositor and pressman for several montas, will remain in the employe of the new management. Both are genial, energetic, honorable and competent young men.

We have served the people of Lynn County in the newspaper business the past six years, and the patronage has been all and even more so than was expected. Some of the very best people among the business men of Tahoka are to be found here, and it is with regret that we sever our connection with them in a business way.

As to our plans for the future we have as yet not fully decided, however we expect to remain among the good people of the Panhandle and Plains of Texas.

Judge Hill, the new editor and owner, will move his family here from Sweetwater just as soon as he can make suitable arrangements for a dwelling.

We gladly recommend Judge Hill and family to the citizenship of Tahoka and Lynn County. They will be a great asset to the town, both in a social and religious way.

It is our opinion that the News has been placed in competent hands, and we expect to see the paper become better and better with each succeeding issue.

We bespeak for the new management the same support from the business and professional men as you tendered the paper in the past, and to those in the county who have not yet become readers of the News, we ask that you enroll as a regular subscriber without delay. We believe it is a man's duty to take his county paper.

Any courtesy shown editor Hill by the citizens of Lynn county will be duly appreciated. He is here to serve you and "boost" the town and county, as well as the whole South Plains territory.

Our best wishes for continued prosperity is heartily extended to editor Hill and all the people of Tahoka and surrounding communities. The South Plains is the coming section of the State of Texas and hundreds of new people are flocking here and buying homes every day, and it is our desire to continue to reside and enjoy the healthful climate and association of the most free hearted people on earth in the Panhandle of Texas.

R. B. HAYNES.

(Continued on Last Page)

TAHOKA STOCK JUDGING TEAM TO RECEIVE MEDALS

That they may have something by way of ornament, as well as of use, the boys who make the team which will represent Tahoka's Vocational Agriculture class next spring will receive gold medals. The team will probably enter judging contests at Canyon and at Fort Worth about March. The agricultural boys are planning to present two or three plays to pay for the medals.

Randall Co. News Issued Mammoth Edition

The Randall County News last week issued a City and County Improvement edition consisting of 48 pages in six sections.

It was filled with good reading matter, with many splendid illustrations and photographs, depicting the wonderful progress and progressiveness of the fine little city of Canyon and the most excellent county of Randall.

Mechanically, it was neat and attractive in the highest degree. It was a great triumph in newspaper art, and Editor C. W. Warwick is to be congratulated for this matchless achievement.

LUBBOCK COUNTY FARMER MAKES GOOD MONEY FROM TRUCK GARDENING

O. W. Roberts, a Lubbock County farmer, does not believe in cotton farming in spite of the half bale to the acre yield and thirty cents per pound market price that prevails this year.

As Grapenuts says, "There's a Reason," and Mr. Roberts' reasons are three acres of turnips, three acres of watermelons, three acres of sweet potatoes and three acres of black-eyed peas.

From the three acres of turnips he has harvested 25,000 pounds of turnips, 15,000 pounds of these are being marketed at 4 cents per pound and the balance will be stored in a long dirt bank and sold through the winter at 6 cents per pound—or a total of \$1,200.00 from three acres. The cost of harvesting and selling the turnips will run around a cent a pound, or \$250, leaving a net profit of almost a thousand dollars for the three acres.

From three acres of watermelons he has marketed 18 truck loads of melons averaging 175 melons, which have been sold on local markets at an average of 40 cents each, or \$1,200 from the three acres. The net profit on these three acres has been \$1,000.

From four acres of black-eyed peas he has sold 1,500 pounds of fresh peas at 7 cents per pound, wholesale price to the local retail stores, or a return of \$105, with the second crop, that is better than the first, yet to be sold.

Mr. Roberts also grew four acres of ribbon cane this year and is having it crushed and syrup made from the juice.

Mr. Roberts will buy a quarter section of land with the revenue derived from twenty acres of land this year, and grow commercial produce on a larger scale next year.—Slaton Slatonite.

P. M. Willis, ecently of Womble, Ark., but who has been in Lynn county for two or three weeks, was in the News office Tuesday enquiring for a house in which to reside. He liked our town and country very much and wished to remain here permanently but had been unable to find a house in which to live. He thoug therefore that he would have to go elsewhere to find a roof under which he and his family might reside during the winter. It is to be hoped that some demand for them.

SCHOOLS TO GET MONEY; EARLY COLLECTIONS

Austin, Texas, Oct. 26.—C. V. Terrell, state treasurer, authorized the statement Thursday that the deficiency in the general fund will be reduced by \$1,000,000 during November, and that early in that month the schools of Texas will receive \$1 per child as the first installment of the \$12 per capita apportionment for the current scholastic session.

"More money will be received in the state treasury for the current quarter than for many months and it will materially aid the school fund and holders of general fund warrants," said Mr. Terrell.

"Collections of all kinds will net at least \$1,000,000 to the general fund next month," continued Mr. Terrell, "and the deficiency of \$4,200,000 on November 1, will soon be reduced to near \$3,000,000. This means that we are doing much better than we thought we would."

Difficulties in the News Office this week

In addition to the difficulties naturally encountered by the new management in getting out a paper this week, a slight accident befell our linotype machine Wednesday which temporarily put it out of business. We are therefore issuing the paper this week under extraordinary difficulties, and we trust that our readers will over look any delinquencies that they may discover in the paper.

Rev. Fred Baker Dies

Rev. Fred Baker, pastor of the Cumberland Presbyterian Church, of this city, died suddenly at four forty-five o'clock Wednesday at Dallas, while walking along a main street with the pastor of the Cumberland Presbyterian Church there.

News of the untimely death of the pastor was received here last night, and arrangements for the funeral were made, the same to be conducted at Bowie on Friday afternoon.

Rev. Baker has been a resident of Lubbock and pastor of the local Presbyterian church for nearly two years, during which time he has made a ost of friends here, and has a large congregation at the church.

Rev. Baker had just attended an assembly of the Texas Synod at Orange, and was in Dalas for a two days visit, and was apparently in good health, and the cause of his sudden death is as yet undetermined.—Lubbock Morning Avalanche.

MANY FORDS ARE BEING SOLD

The Connolly Motor Company unloaded four car loads of Fords, 28 in all, in Tahoka last week, and all of them have been sold. The Company has had eight men employed regularly at a daily expense of \$40.00, but last week it became necessary to employ four additional men, making a present force of 12 men.

Red Tudor, the Ford dealer at Brownfield, got in 35 cars one day last week and sold 25 of them Friday and Saturday.

O. B. Davis, of Palmer, Ellis county, is visiting W. C. Huffaker near Tahoka this week. Mr. Davis says that he will probably move to this county a little later. He intends to locate on the South Plains. He has been to Tahoka several times before and likes the country better every time he comes. Mr. Davis says that his first trip to this country was made in 1889, when land could have been bought for \$1.00 and \$1.50 per acre. We are glad Mr. Davis has made up his mind that this is the best place o earth to live.

Big Auto Races to be Staged in Lubbock

Lubbock, Oct. 30.

More than 30 cars have already been entered in the Lubbock Avalanche "Wrecked Hoopie Race" for the 15th. and 16th. of November. This is to be between cars that are offered for sale at \$100 by their drivers at any time during the two days races.

In spite of that handicap some good time is going to be made in the race. Fords, Chevrolets, Grants, Glides and other well known makes.

The Panhandle-Plains Fair Track is being overhauled and put into good condition. Already, in some trial runs around fifty miles has been claimed by some of te entrants.

The races are being staged by the Morning Avalanche and merchants of the city and all profits accruing therefrom will go to the fair Association.

Close deal for Tech Site

Honorable W. W. Caves, Assistant Attorney General or Austin, W. N. Meadors of Waco, Secretary of the Board of Trustees of the Tech College, at Lubbock and R. A. Underwood, of Plainview, were here Monday, closing the deal for the land on which the Texas Technological College is to be located. They found everything in fine shape and the land as represented. There was not a hitch in the transaction anywhere. All f the land owners were present or hed their representatives here, and the transfer of the deeds, releases, etc., were made in due form and filed with the County Clerk Monday afternoon, so that the land transaction is now a matter of record.

The members of the board paid the owners of the land \$150,000 in State warrants and the Lubbock ommittee paid over the \$90,000, the difference in the cost of the land and the amount that was appropriated for the purchase of the site and the deal was finished. The deal involved a total consideration of more than \$240,000, there being some accrued interest, and the state warrants had to be discounted some, too.

At a near future date, possibly next week, the Board of Regents will meet in Dallas and will again endeavor to elect a president for the new school, and when this is done there will be nothing in the way of the progress of the building. Plans and specifications will at once be arranged for, and a contract let for the first buildings.—Lubbock Avalanche.

Dawson County Employs Home Dem. Agent

The Lamesa Reporter is authority for the statement that the Commissioners Court of Dawson County has employed a Home Demonstration Agent, her work to begin at an early date.

This achievement was brought about principally through the efforts of the good women of the county. They came 150 strong before the court from almost all the rural communities of the county. The five gentlemen who constituted the court could not resist a feminine appeal like that, and so the trick was turned.

Dawson county already has a Farm Demonstration Agent, and now not only the men and the boys but also the women and the girls will be taught how to do things better in the home and on the farm than heretofore. Canning, cooking, sewing, gardening, poultry raising, etc., will be taught the girls in the rural communities.

Lynn County has neither a Farm Demonstration Agent nor a Home Demonstration Agent. We wonder if it would not pay this county in dollars and cents, as well as in many other ways, to take its place alongside our neighboring counties in this respect.

What do you folks say about it?

Now comes a scientist who maintains that man is only a machine run by electricity. Perhaps that is why little Jimmie gives us so many shocks,

NOTICE TO THE PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to the attention of the editor.

They are in the midst of a presidential campaign down in Mexico, and the other day a regular political riot broke out in the city of Mexico and several combatants were killed. Conditions seemed to be getting almost as bad in Mexico as in Oklahoma.

After spending several days here with his family, W. S. Swan has returned to Big Spring, where he holds a responsible position with the T. & P. Railway Company.

Mr. and Mrs. Ed Henderson arrived Saturday from their home in California and are visiting relatives here this week.

A news item appearing in the daily press states that a Collin county woman wore a hat to the Dallas Fair which was made entirely of corn shucks. Since which, corn-shuck hats have become quite a fad at Sherman; some of them painted in variegated and glowing colors. When corn-shuck hats become the fashion, then perhaps all the poor editors can afford to buy their wives new hats at least once a year; shucks, ver, twice a year.

When all these pastures are converted into farms, just think how much cotton and maize Lynn county will produce. With a bumper crop, the figures would be so large that we are afraid to even estimate. Come to Lynn county.

The spirit of progress is in the very air in the west. Two weeks ago Nolan county voted bonds in the sum of \$600,000 with which to improve her public roads. Federal and state aid to the amount of \$800,000 is promised, making a total of \$1,400,000 soon to be expended in Nolan county in road building. Taylor and Callahan counties likewise recently authorized large bond issues, to be supplemented by state and federal aid, for the improvement of roads and highways in these counties. The Bankhead highway passing through these three counties will be hard-surfaced, and Highway No. 7 passing north and south through Nolan county will be improved in like manner. Many lateral roads will be graveled. The State will maintain the big highways after they are built. The time will come when like improvements will be made on the highways passing through Lynn county. Good roads are a great asset to any county.

Two Imperishable Names

The fickleness of political fortune has been a matter of general comment ever since politics was invented.

David Lloyd George, the great War Premier of England, and perhaps the greatest statesman that country has produced since the time of Gladstone, for a season enjoyed unbounded popularity in his own country. Then came a frost, a killing frost, and Lloyd-George was defeated and cast out of office by a majority seldom equalled in English politics. Since which time he has been down and out, politically; utterly discredited.

But recently he has been touring the United States and Canada, and everywhere he has been met by applauding multitudes, whose enthusiasm has known no bounds.

Before returning to his native heath, he called on that other matchless but discredited statesman, Woodrow Wilson, who is regarded by millions of people throughout the civilized world as one of the greatest men of all time, but who has been discarded and disowned by a majority of his own countrymen as a national leader.

Truly a prophet is not without honor save in his own country.

But in spite of the temporary deflection of the peoples of their own countries, the names of Woodrow Wilson and David Lloyd-George will shine resplendent on the pages of history through all the ages to come.

Since the days of Saul

A beech tree in Bavaria has been cut down, and the fact was considered of sufficient importance to warrant a cable message to this country. It was the oldest tree in Bavaria, and the estimate of its age is agreed upon at 3,000 years. This means that it was a sturdy tree when the Psalms were composed by the sweet singer of Israel. Iron and steel had not yet come into general use. Thirty years or so old when the Iliad and Odyssey were written, the beginnings of this monarch go back to the fall of monarchy in Athens and the rise of Kings in Jewry. Boroaster, was founding a religion dedicated to the worship of an unseen God whose symbol and likeness he found in the sun. Tyhre was becoming a big town and Rhome hadn't yet been thought of. There are many trees yet living which are older than the fallen beach in Bavaria, but 3,000 years is a pretty respectable old age, when you come to think about it.—Dallas News.

More Dollars Per Acre Blue Wagon Staple Cotton

A heavy producing, early maturing, drought resisting, high linting, big ball cotton, a well balanced combination of characteristics essential to a profitable crop.

Early Maturity often means the difference between crop failure and heavy production.

Drought Resistance of this cotton makes it adaptable to the dry seasons in Texas.

Percentage of Lint has long been recognized as essential to profit. BLUE WAGON STAPLE SEED COTTON will produce a 500% more lint than other cottons.

Big Bolls are essential to cheap picking and heavy production.

A Premium Staple adds profit to cotton production. The cotton trade demands we must grow it.

All seed are shipped in 3-bushel sacks direct from S. Maston Nixon, Brownsville, Texas.

The supply of these seed are limited. Cut out and fill in the blank below and mail to

Life Saving Work Of Red Cross Corps Wars on Drownings

The insignia of the American Red Cross Life Saving Corps on the bathing apparel of men, women and youths is seen everywhere at favorite bathing places along the coasts, rivers, lakes and ponds. In its unrelenting campaign to reduce loss of life by drowning the Red Cross is making constant headway. The demands for instruction from organizations in all parts of the country were so numerous the past year that it was necessary to more than double the staff of Red Cross instructors. This work of training for water life-saving showed an enrollment of over 30,000 volunteers enlisted for duty on patrol, for rescue and resuscitation, all competent to instruct others in the standard water-safety methods. The Red Cross by request of the War Department gives water first aid training at the United States Military and Naval academies and in the military training camps for reserve officers and civilians. The four cash prizes awarded by the Red Cross last year for heroic rescues were conferred upon two girls, a boy and a man, indicating that the youths of the country stand well at the top in conserving life along our water courses.

Red Cross Field Of Action Covers All the World

Represented by 53,668 members, the American Red Cross penetrates to nearly every part of the world. The insular and foreign roll call statistics for the past year are a most conclusive manifestation of the Red Cross spirit carried into the most remote lands. In Europe there are 4,083 members; in Turkey, and active in the Constantinople Chapter, 3,545. China has an enrollment of 2,252; Africa, 136; India, 224, and Australia, 29. Even Vladivostok, in frigid Siberia, has a live chapter with 100 members. The Philippine Islands can mobilize 58,747 under the Red Cross banner and Hawaii 7,863. The total funds raised through foreign and insular membership enrollment and sent to national headquarters in Washington amounted to \$60,216.54, while an additional \$33,359 was forwarded for the endowment fund of the American Red Cross. The high seas roll call in 1922 was an inspiring success. The Navy signed on 4,331 for the Red Cross and the merchant ships 4,141. Of the total membership outside the United States 83,990 are registered with chapters in foreign lands, the insular possessions and dependencies.

"I want to; therefore I can!" is the spirit that spurs the Red Cross worker in well-doing.

Dr. and Mrs. E. E. Cailaway returned Saturday from a visit to the Dallas Fair.

SANTA FE SPENDING \$200,000 ON AMARILLO YARDS

Amarillo, Texas, Oct. 26.—That the Santa Fe railroad is spending approximately \$200,000 on improvements in the local yards at this time according to recent information by road officials.

"The Santa Fe always builds for the future," declared F. J. Mackie, superintendent in discussing the road's development program here; and of course these improvements were undertaken on the assumption that the water problem would be solved.

"Water is one of the big problems before Amarillo at this time and the Santa Fe is as seriously concerned as the city over its solution. Amarillo must have water to continue to grow and we must have water to keep up our development program.

A \$60,000 wheel factory where wheels will be manufactured for the western lines of the system, is the major item of the big expansion program now under way here by the Santa Fe. An office for the foreman in the shops is being erected at a cost of \$20,000; a concrete cistern in connection with the system's water works at a cost of \$15,000 and a \$25,000 boiler washing plant are other items on the schedule which are being completed.

Various other improvements in the big shops here are under way and contemplated for the next few months. In addition the Santa Fe has steel on the ground for the construction of a \$70,000 viaduct at Twenty-Sixth St., and it is expected that work on the crossing will begin within the next few weeks.

MARY LINK, Editor

Nervous Break-Down

MRS. ANNIE LANGE, of R. F. D. 1, Burlington, Tex., writes as follows regarding her experience with Cardui: "Some time ago I had a nervous break-down of some kind. . . I was very weak and so nervous. I had fainting spells and suffered a great deal, but more from the weak, trembly, no-account feeling than anything else. I knew I needed a tonic, and needed it badly. I began the use of Cardui to see if I couldn't get some strength, as I knew of other cases that had been helped by its use. I soon saw a great improvement, so I kept it up. I used seven bottles of Cardui, and can say the money was well spent, for I grew well and strong. Am now able to do all my housework and a great deal of work besides."

If you are weak, run-down, nervous and suffer from the ailments peculiar to women, it is very likely that Cardui will help you, in the way it helped Mrs. Lange and has helped thousands of others, during the past 40 years. Ask for, and insist on, Cardui.

"EVERYTHING TO BUILD ANYTHING."

The Tahoka Bulldogs won their third victory of the season last Saturday when they humbled the Snyder eleven 32 to 0. This was the first inter-sectional contest a Tahoka football team has yet taken part in. On account of the distance between the two towns, the battle was fought, on neutral grounds, at Post. There were no outstanding performers for the Bulldogs. The entire eleven performed brilliantly at times. The Snyder team was much heavier but were in no way equal to their more experienced opponents. The field was soft, owing to the recent rains and this prevented a heavier score. An individual write up of the different members of the team will be given in the near future.

THE SENIOR CLASS

Yesterday when the solid Geometry class showed more than usual lack of intelligence, Mr. Caveness dismissed the class and called for a meeting of the "Four o'clock club," and said in an exasperated voice: "Please do not flop your ears as you pass out."

Mr. Rutland, the Agriculture inspector visited the school recently; also Mrs. Lillian Peek, the Domestic Science and Art Inspector was here for a day.

The "Negro Minstrel" by the High School boys has been postponed and the "darkies" will appear November 7th in the High School auditorium.

Once upon a time, about Oct 29, a certain group of girls met in a mysterious place and organized the "S. L. I. Club." The

members are "Flapper," "Red," "Crank," "Piddle," "Bobbie," and "Trix."

Colors, flowers, motto and pass word were decided upon. The colors being yellow and pink; flower, Bachelor buttons, and the motto, "What's done can't be undone."

Further happenings of this club will appear in later issues of the News

JUNIOR CLASS

The Junior class are sorry to announce that Mr. Carmack won the contest over "Little Eddie", when he caught him smoking last week. "Little Eddie" has our sympathy and we hope that Eddie will take heed next time.

THE SOPHOMORE CLASS

The girls of the sewing class are progressing very nicely as they have almost finished a gingham dress.

The yell leader called a meeting for practice Monday afternoon. There was a good crowd present.

THE FRESHMAN CLASS

Karr always has an unlimited amount of chewing gum.

When we are dead

Bury us deep.

Bury us where

The History Class sleeps;

Place our History

On our breast

Tell Mr. Peebles

We did our best."

RED CROSS MET TEST IN JAPAN FUND DRIVE

Spirit of Service Demonstrated in Readiness for Nationwide Activity.

When President Coolidge by proclamation designated the American Red Cross as the medium through which contributions for relief of the Japanese earthquake sufferers should flow, the President's desire came as an order to the Red Cross. Immediately the entire machinery of the organization was put in motion and within 24 hours the fund campaign was moving with vigor in every part of the country.

This emergency test demonstrated the peacetime readiness of the Red Cross to cope with stupendous tasks in behalf of humanity. Within a month it had collected upwards of \$10,250,000 in contributions, landed ten cargoes of supplies at Japanese ports and was keeping pace with relief requirements—all without a single dollar of the fund being spent for administration.

President Coolidge, in expressing his thanks to the people, said: "When the news of the tragedy in Japan first reached us, the American Red Cross, pursuant to a proclamation, asked the country for \$5,000,000 to meet the great emergency. The answer to this appeal was prompt and generous; in less than two weeks a sum far in excess of the original goal was given." The work of the Red Cross for Japan is expected to influence a very large enrollment of new recruits during the Roll Call, which starts Armistice Day.

Red Cross First Aid Standards Adopted In Great Industries

First aid in an emergency which assures the injured competent attention until the doctor arrives is making marked headway through the work of the Chapters of the American Red Cross. In populous centers 314 chapters conduct first aid classes and last year awarded 9,500 certificates to students. Eight big telephone companies have enlisted their workers in first aid classes, police and fire departments in large cities are making the course compulsory in their training schools, and through colleges and high schools large groups of students receive instruction. The Red Cross also gives this course through Boy Scouts, Girl Scouts, Y. M. C. A. and similar organizations, and its standard methods have been adopted by railroads, electric and gas companies, mines and in the metal industries. The aim of this Red Cross service is to cut down radically the average of 60,000 accidental deaths per year in the United States.

We appreciate mail orders and fill them promptly.
BARRIER BROTHERS
LUBBOCK, TEXAS

Ranches Being Converted into Farms

The News is informed that since the Singleton and Herd ranch southwest of Tahoka and extending within seven or eight miles of the town has been subdivided and placed on the market, many tracts of land have been sold to farmers who will improve them and place them in cultivation next year.

The Higginbotham ranch, which adjoins the Singleton and Herd ranch, has likewise been cut up into quarter-section tracts and numbers of these are being sold to be converted by the purchasers into farms.

These ranches comprise some of the best farming lands to be found on the plains and their development will doubtless add much to the growth and prosperity of the town and section.

Annual Summer Red Cross Banquet On Armistice Day

America's great humanitarian in behalf of stricken Japan in September gave the answer question. "What is there for the American Red Cross to do in time of peace when this crushing earthquake came without warning that it was ready on the country-wide team work to quickly and effectively the President to lead the nation in the relief of the millions of sufferers. Preparation take the field when relief is a charter duty of the Red Cross. Without a membership earnestness would be impossible. Why your dollar membership is important.

It is imperative that the of the American Red Cross up of millions of individuals. Opening Armistice Day, November 11, 1918, and closing with Thanksgiving November 29, the Roll Call will penetrate to the ends of earth and to the ships within seven seas. The 3,600 Red Cross Chapters in the United States have their busy volunteers members during this period with renewed enthusiasm the recent revival of effort which came from Japan.

A BIT PERSONAL

The following is just a bit personal
 and you need not read it unless you
 want to. If you will forgive us for
 this one infraction we will try not to
 offend often hereafter.

But we just wanted to tell how we
 happen to be here, and thereby hangs
 a tale.

It was way back in the year 1907.

Our readers would judge from our
 present youthful appearance that the
 writer must have been at that time
 a very young man. It was even so.

We had been admitted to the bar, and
 gone through the seige of starvation
 that every young lawyer must under-
 go, and had broken into politics and
 actually been elected to office.

At the end of four years we had
 actually gathered together a few dol-
 lars, the first money we had ever
 made, and we were as proud of it as
 we had been of our first pair of red-
 top brass-toed boots, purchased many
 years before.

All this happened in Bell County.

A shrewd real estate man in Tem-
 pie had been casting his eyes on our
 maneuvers and evidently had decided
 that we would be easy picking; and
 he was right.

He gathered together a bunch of
 prospectors, one of whom we were
 which, and chaperoned them to Plain-
 view, where he had a co-conspirator,
 a "particeps criminis", in the real es-
 tate business.

We left Temple, it matters not
 when, and arrived in Amarillo some-
 time after midnight. This was in
 January, 1907. Just about sunrise
 the next morning we left over the
 Santa Fe southward. At Canyon, we
 "lay over" a few hours and viewed
 the sights of the city (There was no
 W. T. S. T. College there then) then
 proceeded over the branch line, re-
 cently constructed, to its then termi-
 nus at Plainview.

As we rolled out of Amarillo that
 morning our eyes caught their first
 vision of "the Plains". Wonderful!
 Magnificent! We had never seen
 anything like it. The air was crisp
 and cool, and the skies were clear.
 But there had been abundant rain,
 and the lakes were all full of water.
 The vast expanse of land that stretch-
 ed out around us in every direction as
 far as the eye could see, presented
 a scene enchanting enough to make
 an angel from Paradise shout for
 joy. All the way from Amarillo to
 Plainview we gave the country one
 continuous ovation.

At Plainview we were turned over
 to the tender mercies of the avari-
 cious dirt peddler whose confederate
 in crime had piloted us to his lair. He
 drove us over much of the country,
 and our enthusiasm increased with
 each passing hour. Finally he sent
 us with a service car driver down in-
 to Lubbock county to inspect a piece
 of land. We had car trouble and were
 delayed. We started back just before
 night and before we had proceeded far
 on the return journey, we met a rain
 and a blizzard. The jitney driver—
 that is not what they were called
 then—drove back to town that night
 but the rest accepted the hospitality
 of a ranchman and spent the night
 under his roof. He had no wood.
 He had no coal. For fuel he burned
 maize heads. It looked like a shame
 to see so much perfectly good feed
 being destroyed. But we knew that
 land that produced it would some day
 be valuable. The next morning we
 proceeded northward to Hale Center
 in a "hack", facing a cold north wind
 that had no compunctions about ex-
 ceeding the speed limit. Cold? We
 got so cold that we have hardly thaw-
 ed out yet. We finally reached
 Plainview on the mail hack; and after
 we had partially "come to", our new
 found friend, the real estate man,
 again took us in charge. The bliz-
 zard had somewhat cooled our
 ardor as well as our anatomy, but
 under the magic of his eloquence
 and under the spell that another
 view of the enchanting plains cast
 over us, we became an easy prey,
 and he proceeded to shear us even as
 a lamb brought to the shearing pen.
 But we have always felt that he real-
 ly got more wool from the back of
 the imperious old ram that made us
 the deed than he did from us who
 paid the money. At any rate, we
 have never regretted the transaction.

We have made many trips to the
 Plains since, and every time we as-
 cended the cap rock our enthusiasm
 began to rise.

Every since the first trip to the
 Plains, we have been dreaming of
 the time when we might be able to
 take up our abode somewhere above
 the caprock, but Destiny, or Providence,
 or the force of circumstances,
 or something, has always led our
 feet to other paths.

Although we had heard much of
 Tahoka and Lynn county, it was less
 than two years ago when we first
 discovered the town and the country,
 except on the map. Upon our first
 visit, our enthusiasm was just as
 genuine—but perhaps a little more
 subdued—as it was when we first be-
 held the plains this side of Amarillo.
 We again determined to come to the

plains. In spite of fate, in spite of
 circumstances, we gritted our teeth
 and said that we were coming.

And so here we are.
 We quit a public office to come.
 We left our home in another city
 to come.

We came on purpose, and we
 expect to stay.

We want to help in a small way
 in the development of this wonderful
 country.

We want to make of the News the
 very best paper, of any town its
 size, in Texas.

We want the good people of Tahoka
 and Lynn county to help us. We
 know you will do it. It is your
 paper.

DEPUTY SHERIFF INDICTED

The News is informed that Deputy
 Sheriff Walter Henderson of Lamesa,
 was indicted by the Grand jury
 of Dawson county last week on a
 charge of murder in connection with
 the killing of a young man named
 Simmons on Sunday morning preced-
 ing.

Simmons was a cotton picker who
 had recently come to the county and
 was being pursued by the deputy
 sheriff in an effort to arrest him for
 crap shooting when the fatal shot was
 fired.

Henderson claims, we understand,
 that sheriff Cooksey who was with
 him in the pursuit stumbled and fell
 and he thought that Cooksey had
 been shot by Simmons.

Henderson's case has been set for
 trial next week, it is said.

LATER—Advices reached the
 News office just before going to
 press to the effect that the Jury
 trying deputy sheriff Walter
 Henderson at Lamesa, charged
 with the murder of E. A. Sim-
 mons, had brought in a verdict
 of not guilty.

The trial began Tuesday
 morning and the verdict was
 rendered Wednesday afternoon.

NOTICE

This is to notify the members of
 Suit Club, Nos. one and two, that
 same has been discontinued.

Wet Weather Continues

The Government rain gauge
 registers the rainfall since last
 issue of the News at 1.10 inches.

This has fallen slowly, and in
 fact a little rain has fallen every
 day, with misty, foggy weather
 intervening between showers.

There has been sunshine only
 one day this week.

It is not thought that cotton
 has been greatly damaged ex-
 cept whatever damage may re-
 sult from delay in gathering the
 crop.

There has been little cotton
 marketed since our last report.

WANT TO BUY from owner
 one or two sections of first class
 land, improved or unimproved.

 TAHOKA, TEXAS

(Continued from first Page)

Fully appreciating the nice things that the retiring owner and editor has said about us, we come to our new duties as editor and publisher with a deep sense of the responsibility that these duties impose upon us.

We believe that a newspaper should not only publish the local and other news, but that it should be a positive force for good in the community and the section in which it circulates. We shall ever try to keep this fact in mind as we go about the task each week of issuing the Lynn County News.

Our predecessor has set a high standard of excellence for a country newspaper. We shall constantly strive to maintain that standard, and as the country develops and as the town grows, it shall be our endeavor to make the News continually and increasingly more interesting and useful.

We note that the business men of the city of Tahoka have given the paper excellent support. We shall

strive to merit and shall greatly appreciate their continued support of the paper even in larger measure than heretofore. We say it modestly but sincerely that the churches, the schools, and the newspaper are the best assets that any town can have. We want the News ever to be an invaluable asset to the business interests of the city as well as to the moral and educational interests of the country in general.

We have unbounded confidence in the future growth and development of this great plains country. We believe that the time is not distant when it will be recognized every where as one of the very richest sections of all the state. We believe that Lynn county will be one of the most productive and wealthy agricultural counties in the state. We believe that Tahoka, already a progressive and attractive town, has a splendid future. We have an ambition to serve in a small way at least in the development and progress that we feel is sure to come to this section. We shall not "boost," but we expect to proclaim the simple

truth about this magnificent country to as many people in Texas as we can get to read our columns.

Since we are not personally acquainted with the people, we shall necessarily make some absurd and regrettable errors. For all these, we ask that you be charitable; and if we occasionally happen to please you, we shall not object to your handing us a bouquet now and then. We always believed in the doctrine of "Flowers for the living."

Finally, let us say that we have come here to make our home, probably to spend the remainder of our days, and we want you to drop in and get acquainted. But you must remember that it will be much easier for you to learn who the new editor is than it will be for him to learn and to remember all of you. If therefore, after having met you, we fail to recognize you on the street or elsewhere, slap us on the back or kick us on the shin and tell us again who you are.

We are gratified that our worthy predecessors, Mr. and Mrs. R. B. Haynes, are to remain as citizens of our town. May they each have many years of usefulness and happiness in which to live and serve.

This said, we must take off our hat and coat and go to work for Tahoka and Lynn county.

Your humble servant,
 E. I. HILL.

CITY PRESSING PARLOR.

Our trees are bearing all over West Texas and eastern New Mexico. After fifteen years of careful selection, we know the varieties best suited to all parts. Remember that a few trees that bear are worth hundreds that are not suited to west Texas conditions. Send your order direct or send for catalog. Local agents wanted.

PLAINVIEW NURSERY CO.
 48c Plainview, Texas

Rev. J. T. Howell, left Tuesday morning for Plainview to attend the Northwest Texas Annual Conference, which is in session at that place.

The appointments for the coming year will be announced Sunday night. It is expected that Brother Howell will be returned to Tahoka as pastor of the Methodist church.

I. Z. Ricketts and family came in last week from Dallas county and will farm the coming year out east of town.

Rev. and Mrs. S. H. Hatchett returned Saturday from a visit of several weeks at Fort Worth, Stephenville, and Abilene.

Gifts That Last
