District Court convenes in Tahoka Monday, June 3rd.

Mr. Black sold his steer yearlings this week at \$14.00 around.

Masters Ray and Paul Douglas visited the News force Thursday.

Deacon Jones was in town Thursday and reports a fine rain at his place Wednesday night. He says the rain played out before it got to Tahoka, Lubbock received a fairly good shower.

Mr. P. B. Hall, proprietor of the livery stable, moved a house to town Thursday, to be used as a camp house in the new wagon yard he will install in connection with the livery stable.

## Railroad Assured.

Col. Ransom and party went through Tahoka last Sunday to Stanton for the purpose of settling all the preliminary arrangement for building the Panhandle Short Line.

The party consisted of, Col. Ransom and wife, Mr. Hans Helland Chief Engineer, Mr. George Carr, Mr. Keliho and son, assistants. The Col. says he does not know when he will visit our town again, as he has everything along the line running smoothly, and in a shape that he can turn it over to Mr. Helland, who is one of the finest and most experienced engineers in the state.

Mrs. Ransom expresses herself as delighted with the Plains in general, and this portion in particular. The trip from Hereford to Stanton was made in automobiles, and though unused to this mode of travel for so long a distance, Mrs. Ransom says she enjoyed every bit of the experience. She is an enthusiastic railroad woman and shares the Col's. interest in the Panhandle Short Line. She has been helping him in the capacity of private secretary.

Now that the work of construction is beginning, the Col. says he will have to get help and stay at headquarters in Hereford, as work is accumulating so fast that he must give himself entirely to that part of the project. This road will develop this part of the Plains as nothing else could. Now that the road is an assured fact, as much as anything can be in this changing world, those who have homes along the line of country which it will intersect, may count themselves exceedingly lucky.

## Wolf Hunting in an Automobile

Judge Bartley invited Rev. Hardy of Clarendon, J. O. Gore of this place and Joe Stokes to go wolf hunting in his auto last Monday. The party left town well equipped with guns and ammunition. When they were about six miles from town, Mr. Wolf showed himself and they gave chase in the auto, which put a Texas penny and a pack of hound's to shame, the way the machine gained on the game. Bro. Hardy and Joe Stokes shot at the wolf just as fast as their rapid fire guns would work. We did not learn what the Rev. Gore did, he must have held on. After an exciting chase they ran over the wolf with the machine by virtue of their better speed. They did the wolf to death with no other weapon than the Auto, the excitement and rapid motion making it impossible to do very accurate shooting. The Auto may have come to other states first but it remained for a Texas hunter to put on record across country chase the like of which for daring and success, we have neither heard nor read.

Miss Lillie Harrison of Lynn spent Sunday in Tahoka.

**CHERRY BROWN BETTY**

Put a layer of finely chopped, well-washed cherries in the bottom of a baking dish; cover with fine bread crumbs dotted thickly with bits of butter. Put in more cherries, more sugar, etc., continue until the dish is full. Have a top layer of buttered crumbs. Cover and bake for an hour, then remove the cover and brown. Serve with hard sauce flavored with nutmeg. — The Delineator for June.

This dish is very nice made up with any kind of fresh fruit or berries. Dried fruit may be used carefully cooked without stirring, and well drained; then proceed as with the cherries. — Ed.

**A RUNAWAY.**

Mr. Dosh's team ran away last Saturday. They had been taken loose from the wagon when something frightened them and they ran with the harness on, though not much damage was done. One of the horses stepped in a dog hole and got a fall that knocked the breath out of him for a few minutes. A couple of young men, whose names we failed to learn, caught the runaways and brought them back.

**Not Married and Married**

They were very pretty and there was apparently five or six years' difference in their ages. As the train pulled up at Russey, out on the A. K. D., the younger girl blushed, flattened her nose nervously against the window, and drew back in joyous smiles as a young man came dashing into the car, shook hands tenderly and cordially, insisted on carrying her valise, magazine, paper bundle, and would have carried her had she let him. The passengers smiled as she left, and the murmur went rippling through the coach. "They're engaged."

The other girl sat looking nervously out of the window and once or twice gathered her parcels together, as though she would leave the car, yet seemed to be expecting some one. At last he came. He bulged into the door like a house on fire, looked along the seats until his manly gaze fell upon the upturned, expectant face, roared "Come on; I've been waiting for you on the platform for fifteen minutes," grabbed her basket, and strode out of the car, while she followed with a little valise, a band box, a paper bag full of lunch, a bird-cage, a glass jar of jelly preserves and an extra shawl. A crusty-looking old bachelor in the further end of the car croaked out, in unison with the indignant looks of the passengers, "They're married." — Lincoln County News.

Mr. Blankenship is building his new residence in the northeast portion of the town.

Mr. Dilliard of Gail has moved into the house in the east side of town, which was just vacated by Marvin Coughran.

Proposed Amendment to the State Constitution Providing for the Creation of Improvement Districts in Certain Cities.

JOINT RESOLUTION amending Section 9 of Article 8 of the Constitution of the State of Texas, providing for the creation of improvement districts in cities of more than five thousand inhabitants and charging the cost of certain improvements made therein against the abutting property.

SECTION 1. Be it Resolved by the Legislature of the State of Texas: That Section 9 of Article 8 of the Constitution of the State of Texas, be so amended as to hereafter read as follows:

SEC. 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of public free schools, shall never exceed thirty-five cents on the one hundred dollars valuation, and no county, city or town shall levy more than twenty-five cents for city or county purposes, and not exceeding fifteen cents for roads and bridges, and not exceeding fifteen cents to pay jurors, on the hundred dollars valuation, except for payment of debts incurred prior to the adoption of the amendment September 25, A. D. 1887, and for the erection of public buildings, streets, sewers, water works and other permanent improvements, not to exceed twenty-five cents on the one hundred dollars valuation in any one year, and except as is in this Constitution otherwise provided; and the Legislature may also authorize an additional annual ad valorem tax to be levied and collected for the further maintenance of the public roads, provided that a majority of the qualified property tax paying voters of the county voting at an election to be held for that purpose shall vote such tax, not to exceed fifteen cents on the one hundred dollars valuation, of the property subject to taxation in such county. And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws.

In addition to the foregoing, cities of more than five thousand inhabitants may lay out within their corporate limits, improvement districts in which they, by and with the consent of a majority of the taxpayers owning real estate therein, may build sidewalks and charge the cost thereof against the abutting property, and may build sewers and pave streets and charge one-third of the cost thereof against the abutting property on either side of the streets upon which such improvements are made in such district, and the amount charged against all such abutting property shall be deemed and held to be a tax against and a lien upon such abutting property, and the Legislature is required to enact laws prescribing the means for ascertaining the amount properly chargeable against each parcel of abutting property, and providing for the enforcement of its collection.

SEC. 2. The Governor is hereby directed to issue the necessary proclamation for submitting this amendment to the Constitution to the qualified voters of the State of Texas on the first Tuesday in August, A. D. 1907, at which election all voters favoring this amendment shall have written or printed on their ballots: "For the amendment to Section 9 of Article 8 of the Constitution, permitting property owners in cities of more than five thousand inhabitants to create improvement districts, one-third the cost of which to be charged against abutting property on either side of the street."

And the voters opposed to said amendment shall have written or printed on their ballots the following: "Against the amendment to Section 9 of Article 8 of the Constitution, permitting property owners in cities of more than five thousand inhabitants to create improvement districts, one-third the cost of which to be charged against abutting property on either side of the street."

SEC. 3. The lateness in the session, the crowded condition of the calendars of both houses, and the importance of this proposed amendment, create an emergency and an imperative public necessity demanding that the constitutional rule, and Senate Rule No. 37, requiring bills to be read on three several days be suspended, and the same are hereby suspended.

Proposed Amendment to the State Constitution Providing for the Establishment of a Home for Confederate Widows.

JOINT RESOLUTION to amend Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1893, so as to authorize the grant of aid in the establishment and maintenance of a home for the disabled and dependent wives and widows of Confederate soldiers and sailors and such women as aided the Confederacy, and making an appropriation.

SECTION 1. Be it Resolved by the Legislature of the State of Texas: That Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1893, be so amended as to hereafter read as follows:

Article 3. Section 51. The Legislature shall have no power to make any grant or authorize the making any grant of public money to any individual, associations or individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors who came to Texas prior to January 1, 1880, and who are either over sixty years of age or whose disability is the proximate result of actual service in the Confederate army for a period of at least three months; their widows in indigent circumstances who have never remarried and who have been bona fide residents of the State of Texas since March 1, 1880, and who were married to such soldiers anterior to March 1, 1880; provided said aid shall not exceed eight dollars per month, and provided further, that no appropriations shall ever be made for the purpose hereinbefore specified in excess of five hundred thousand dollars for any one year. And also grant aid to the establishment and maintenance of a home for said soldiers and sailors, their wives and widows and women who aided in the Confederacy, under such regulations and limitations as may be provided by law; provided the grant to aid said home shall not exceed one hundred and fifty thousand dollars for any one year, and no moneys of said home shall be expended for any other aid from the State; the Legislature may provide for husband and wife to remain together in the home; and provided further, that the provisions of this section shall not be construed to prevent the grant of aid in case of public calamity.

SEC. 2. The Governor of the State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas on the first Tuesday in August, 1907.

The sum of \$5000, or so much thereof as may be necessary, is hereby appropriated to pay the expenses of carrying out the provisions of this resolution.

**To Introduce We Will Sell You a Sample Pair for Only \$4.80**

 NAILS, TACKS OR GLASS WON'T LET OUT THE AIR

**NO MORE TROUBLE FROM PUNCTURES.**

Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS or GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.

Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

**DESCRIPTION:** Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of this, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send **FULL CASH WITH ORDER** and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination.

We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.

**COASTER-BRAKES,** built-up-wheels, saddles, pedals, parts and repairs, and everything in the bicycle line are sold by us at half the usual prices charged by dealers and repair men. ## Double-Breasted

## J-I-CASE PLOWS

**FARMER'S ENCYCLOPEDIA FREE! POCKET EDITION**  
We are now having compiled for our use one of the most valuable volumes ever prepared for the farmer. It gives valuable facts about grain, seed, soil, suggestions on raising and breeding stock, interesting facts about grain, seed, soil and cultivation; veterinary suggestions; and one thing which makes it of priceless value every day to the farmer and his family. We will send one of these volumes to any farmer answering the following questions: 1. How many acres do you cultivate? 2. What implements will you probably use within the next six months? 3. Do you own or rent your farm? 4. What is the name of your center and his postoffice address? Simply answer these four questions, sign your name and address, enclose ten cents for postage and mailing, and just as soon as the Encyclopedia is ready we will mail it to you.

You never heard of a double-breasted plow—did you? Yet it is one of the features that have made the J. I. Case plows famous.

You'll find this feature right where the mold board joins the share—where the wear is greatest—where the ordinary plow gives out quickest.

The double-breast is an extra thickness of steel put on by a special process of our own—hardened so the life and wear is there to resist the heaviest kind of work. You'll find it on every style of plow we make—walking, sulky and gang. That's why the life of a J. I. Case Plow is one-third longer than that of ordinary plows. That's why, in the long run, you save money by buying a J. I. C. Plow.

The good points, the exceptional points, in J. I. C. Plows are so numerous that we ask the privilege of telling you more about them. We especially want to tell you about the new high foot-lift Sulky. It's self-leveling—a real foot lift. And we want to tell you about the celebrated Triumph Sulky and Gang—with their wonderful horse-saving, light draft, comfort-to-man-and-beast features. And we make other implements—harrows, planters, cultivators, which we cannot describe here, but which you ought to know about.

In order to make it more than worth while to get this information we offer you an extra inducement to have you write us about your implement needs, and for catalogue.

Read the Encyclopedia offer in the panel opposite. Then sit down—now—and write to us. Address
