

THE LYNN COUNTY NEWS

4E XX

TAHOKA, LYNN COUNTY, TEXAS, FRIDAY, NOVEMBER 9, 1923.

NUMBER 10

Edged Forger Arrested

McBride, who hails from here in New Mexico, is incarcerated in the county bastille charged with the offense of forgery.

Monday last week, Mr. Bates lived a few miles northwest of Tahoka, and check to McBride in the sum of \$280.00. When McBride presented it to the National Bank for payment, it was refused to be cashed. McBride then wanted a part of the check but he has failed to get the officers the name of the party.

I. C. Speaker Visits Tahoka

Mr. Bloodworth, a Methodist minister of Fort Worth, addressed the congregation Monday night on the subject of the Ku Klux Klan. Bloodworth is an artful and effective public speaker and he succeeded in arousing much enthusiasm among his auditors, most of whom were in sympathy with the speaker.

Charles F. Shook, Chiropractor, Locates Here

In reference to the advertisements in this column, you will note that Charles F. Shook, Chiropractor, has opened an office in the Thomas building, for the purpose of his profession. Dr. Shook announces that he expects to remain permanently in Tahoka, and he invites his friends to call and see him in his office.

NEW FIRE SIREN

A new fire siren was installed for the city last Tuesday afternoon, the installation work being done by W. S. Anglin, superintendent of the Tahoka light plant.

The siren was tried out and found to be perfectly satisfactory. We think no one within a radius of two or three miles will have any trouble hearing it whenever it gets on the job.

It is claimed that the installation of this siren will entitle the citizens to a reduction on the fire insurance rate.

Dixie Church Services

Interesting services are reported at the Baptist church at Dixie Sunday. Pastor H. D. Heath preached at both the morning and evening hours. His subject at the morning hour was: Religion in the Home; at the evening hour: The Brightest Day in the History of the World.

I. C. Preston is acting as temporary Sunday School Superintendent since the death of R. H. Ewing a few weeks ago.

American Legion Corner

Stone Services Postponed

On account of the continued bad weather during the last two weeks, the Marion G. Bradley Post of the American Legion announces that it will be impossible for them to be ready to hold the cornerstone ceremonies on next Sunday, as formerly announced.

These ceremonies will be held at a later date, to be announced through the columns of this paper.

The post expects to make this a great event for the local post and for the town. Many out-of-town visitors are expected, and of course everybody in Lynn county will want to attend. Watch for their announcement in this paper.

Twenty Sections of the T-Bar Ranch Placed on the Market

New Period of Development Dawns --Means Much to Tahoka

Twenty sections of the T-Bar Ranch lying just northwest of Tahoka, are to be subdivided and placed on the market at once. This fact became known here when the Zapp Land Company of Wilson filed for record in the office of the county clerk a few days ago a contract with C. O. and Crawford O. Edwards of Fort Worth, owners of this ranch, whereby the Zapp Land Company is authorized to sell these lands at \$30.00 and \$50.00 per acre.

The twenty sections to be sold are comprised within a body of land three miles wide and eight miles long, lying immediately alongside the Tahoka and Lubbock road for a distance of eight miles and north of the Tahoka and Brownfield road for a distance of three miles; four sections being reserved out of this body to the present owners. The southwest corner of this block of land corners with the Tahoka town section at the northwest corner.

The three sections nearest the town are to be sold at \$50.00 per acre. The remaining 17 sections are to be sold at \$30.00 per acre.

These are as fine lands as can be found anywhere on the plains or elsewhere, and their development will mean much for the country and especially for the town of Tahoka. Subdivided into quarter sections, that

means that homes for eighty families near the town will be provided. When these lands are sold out, placed in cultivation, and occupied by families, there will necessarily be a demand for more and larger business concerns and enterprises in the town. This means steady and perhaps unprecedented growth of the population of the town.

Something of the importance of this announcement can be seen when a little computation is made. Twenty sections of land comprises 16,800 acres. Supposing that 10,000 acres of this is placed in cotton and that these lands produce from one-fourth to three-fourths bale per acre, it will be seen that these lands alone will add from 2500 to 7500 bales of cotton each year to the amount of cotton now marketed at this place.

There are 126 sections in the T-Bar ranch, and it is thought that all this land will be subdivided and placed on the market within the next few years possibly within the next year or two. When that is done and when the other ranches within Tahoka's trade territory are likewise converted into farms, a child can figure that Tahoka will be one of the biggest cotton markets in the state. There are great things in store for Tahoka.

BROWNFIELD ASSOCIATION

The Executive Board of the Brownfield Baptist Association met Monday at 11 a. m. with the Tahoka Baptist church.

The Brownfield, Central, Lynn, New Hope, Three Lakes, and Tahoka churches were represented in the meeting.

The Board unanimously voted and agreed to launch a campaign for associational missions, beginning on the first Sunday in December; the object being, in this campaign, to visit all the churches and collect sufficient funds to carry on and supply the associational mission budget for the remainder of the year.

The board members present took up the matter of raising the money to send the missionary, Rev. J. F. Curry, to the state convention, which meets next week in Galveston, and raised \$41.00 for this purpose.

The workers' conference was set to meet with the Lynn church on Monday night and Tuesday after the fourth Sunday in this month.

American Legion Services

Services will be held Sunday morning at 11 o'clock at the High School auditorium, under the auspices of the Marion G. Bradley Post of the American Legion, commemorating the signing of the Armistice on November 11, 1918.

A good program as been arranged and everybody is invited to attend; the ex-service boys especially are expected to be present from all parts of the county.

On account of linotype trouble the first of the week, our readers will note that much of our composition this week was hand set, which somewhat mars the appearance of the paper. Our machine is now on the job again, and we hope to make the paper better and more attractive in appearance henceforth. In fact, we expect to make the Lynn County News a household necessity in every home in Lynn county. Watch our subscription list grow.

MARION BRADLEY POST, NO 250 Meets every Thursday night. W. E. SMITH, Post Commander W. S. TAYLOR, Adjutant. TAHOKA, TEXAS.

Tahoka Eleven Wallops

Post 21 to 0

In a hard fought game, marred by frequent fumbles, Coach Peepie's Bull dog Eleven defeated Post by a twenty-one point margin Wednesday afternoon.

The Tahoka Gridders scored during the first few minutes of play, using straight football. The splendid team work of the local eleven featured throughout the contest. The terrific line plunges by Key, whose playing was spectacular throughout, the dazzling end runs by Edwards, the off tackle plays by Wells and Donaldson, combined with the ability of Larkin and Knight to nab passes, spelled Tahoka's strong offense. The defensive work of Baldrige and Floyd spoiled many of the Post plays. Nobles, Nowlin, Curry, Link, and Bovell all performed nicely.

Facing a team, which according to "dope" was picked to win, the Bulldogs outplayed their opponents throughout and placed themselves among the strongest teams of west Texas.

We call attention to the ad of I. S. Doak, agent for Star car, in this issue. Mr. Doak reports that he has sold 13 of these cars since October 8, and that he has taken orders for 24 more.

Epworth League Entertained

On November 2, 1923, at the Methodist parsonage, an entertainment was held for the members of the Epworth League. As the invitations stated that everyone should come dressed in "tackiest," or fives would be collected, no one appeared without his "tackiest" clothes.

Refreshments in the form of hot chocolates and cookies were served at 10 o'clock to eighteen guests. After the refreshments were served, a contest was held to decide who were the "tack-

Rural Schools are beginning

County Judge J. W. Elliott informs the News that the schools at West Point, New Home, Edith, Three Lakes' Gordon, and perhaps Grassland have already started.

Other rural schools will open soon.

Methodist Conference Appointment

As was anticipated by the members of his congregation and by the people of the town generally, Rev. J. T. Howell was returned to Tahoka as pastor of the Methodist church.

Brother Howell has been here one year and he has served his church and community generally with a high degree of efficiency. The people of Tahoka, regardless of their affiliations, will be glad to know that Brother Howell is to be with us another year.

R. E. Key and Miss Myrtle Hembree of Wilson and Jim Bob McAtee of Slaton were guests in the Cobb home last week end.

Best boy and girl present. Thelma Taylor and Conrad Lam were the prize winners.

The following girls spent the remainder of the night with Miss Mattie Sue Howell, thereby changing the entertainment into a slumber party: Misses Gladys Lee, Amy Barkuloo, Thelma Taylor, Linnie B. Willis, Floy Anglin, Leta Tarrance and Sybil Tarrance. A good time was reported by all.

Contributed.

New Weekly Paper For Lubbock

A new weekly newspaper made its appearance in Lubbock Thursday of this week. Messrs. Curtis Keen and C. L. Tudon are the editors and publishers. Mr. Keen is secretary of the Lubbock Chamber of Commerce and editor of the Plains Journal, heretofore published as a monthly. The new paper will be printed in Amarillo until the first of the year; when the publishers expect to have an up-to-date plant installed in a splendid new building at Lubbock.

Dr. E. H. Inmon of the U. S. Army, who recently returned from Cuba, arrived in Tahoka Saturday and visited here a few days, leaving the first of the week for the State of Washington. He expects to return to this section within the next two or three months. His family reside at Plainview.

The News is equipped to handle any kind of job printing. Call on us.

Dr. Singleton Installs Modern Equipment

Dr. J. R. Singleton, ever progressive and anxious to serve his patients in the best manner possible, has recently equipped his office with all necessary electrical appliances, running water etc. and is making his office in the Thomas building so attractive that one almost feels that it would be a real joy to have a few teeth extracted.

J. A. Stevens arrived from Fort Worth Saturday to operate the linotype machine in the News office.

NOTICE!

This is to notify the public that all pastures belonging to Green & Lumsden in Lynn and Terry counties are posted and everybody is forbidden to hunt, fish or any way trespass on our property. GREEN & LUMSDEN. 93

Locals

Mr. and Mrs. Edward Henderson left for their home in Los Angeles, Cal., Tuesday morning. They formerly lived in Tahoka.

BORN.—to Mr. and Mrs. Tom LeMond, Tuesday, Nov. 6, a fine boy.

Mr. and Mrs. R. B. Haynes and daughter Juanita, are attending the San Carlo Grand Opera in Amarillo Friday and Saturday of this week. They expect to return to Tahoka Sunday.

The News is sorry to note that W. Donald, editor and owner of the Slaton Slatonite, is seriously sick of pneumonia. Here is hoping that he is soon able to be up and at the helm of the Slatonite.

Mr. and Mrs. D. W. Rogers were Lubbock visitors Tuesday.

Barna Haney, Druggist, of Roscoe, came up Tuesday to visit his brother Lum and to look after business matters in Tahoka. While here Mr. Haney dropped into the News office and left the price of one year's subscription and ordered the paper sent to his address. Mr. Haney expressed great confidence in the future of this town. He says many people in his section are looking for places and can't find them and are coming on to the plains. He thinks the Tahoka section is on the eve of a period of development unprecedented in its history. And he is right.

Advice is cheap, and most of us have plenty of it to hand out, but we insist that now is the time for every farmer who hasn't a home to procure one. Land will never be cheaper. It will probably be much higher in the near future. We should like to see every renter in Texas become a home owner. There is much land on the plains now being placed on the market. Mr. Renter, come west and procure a home for your wife and babies.

H. B. Griffin, a prosperous farmer of Mart, Texas, and his brother, Dr. W. A. Griffin, Dentist, of San Angelo, were here Sunday and Monday looking at the country with the view of buying land somewhere in this section.

A. B. Nantz, a business man of O'Donnell had business in the city Monday.

R. H. Turner left Sunday on a business trip to El Paso.

C. G. Johnson, manager of the Jones Dry Goods Stores in Tahoka, left Saturday for St. Louis, where he expects to make purchases for the Jones stores.

O. I. Luellen, O'Donnell's hustling tailor, spent Sunday here with his family.

Mr. and Mrs. George Lindsey spent Sunday with his parents near Meadow, Terry County.

Tahoka needs more residences. A building campaign should be started by somebody.

Misses Clarice and Nola Blankenship of Plains are visiting their sister, Mrs. A. C. Samford.

Mr. and Mrs. R. B. Haynes visited relatives and transacted business in Lubbock Tuesday.

BOX SUPPER

at Redwine, Nov. 17, to raise money to pay for piano. Everybody invited.

LYNN ITEMS

Well, the sun is shining this morning, and the farmers are rejoicing over the rain and to see the sun come out so bright.

Brother Curry, the Missionary came out and preached to our people last Sunday at 11 A. M. We appreciate him; everybody seems to enjoy his sermons very much.

The Methodists got their pastor back, Brother Johnson. We welcome him back into our midst.

The Baptist worker's meeting will be held with the Lynn church on Monday night and Tuesday Nov. 26 and 27. Some very important questions will be discussed.

Some of our neighbors are talking of moving to Gaines county. Boy's you better stay in old Lynn, she can't be beat.

The roads have been so bad that we could not get to town and we have not answered to roll call for some time, but, boys we will be in just as soon as we can get time.

The Baptists have called Bro. Thurman Bailey as pastor. He is a young preacher, and we wish him and his people success the coming year. If any of you young people want to get married, you will find him at home, at his school at Joe Bailey, or somewhere else, if he is not gone.

The ladies are quilting a quilt for Brother Johnson and wife. Don't think it will be too short for Bro. Johnson.

The public school at this place will start soon.

Well, I guess I'd better ring off, as we have a new editor. We wish him much success, while we are sorry to lose Mr. and Mrs. Haynes, who have been so faithful to give us all the good news of our county.

Uncle Tom.

GREAT EXCITEMENT

Those of you who have lived in a town where a bulletin board is kept to record all the most important events on will better appreciate this story. It was in a small city that had no daily paper, and used a bulletin board instead. The mayor was taken seriously ill early in the morning and this message was written on the bulletin board:

8:00 a. m.—Mayor Thompson taken suddenly ill and medical aid is summoned."

The Mayor grew gradually worse and later another inscription was put on the board as follows:

"9:00 a. m.—Mayor Thompson growing gradually worse—two more doctors called in."

And later:
"10:00 a. m.—Doctors have little hope for Mayor Thompson."

An hour later the bulletin read:
"11:00 a. m.—Mayor Thompson left this vale of tears at 10:45 for his home in heaven."

At 5 o'clock that afternoon an Irishman chanced along and read all the bulletins that had been written, then added this one:

"5:00 p. m.—Great excitement in heaven. Mayor Thompson has not arrived."

Will be in Tahoka Thursday and Friday, November 1st and 2nd at the St. Clair Hotel. Will take your measure for Barclay Custom Made Corset. Also have a full line of Dry Goods.
MRS. B. M. CARMICHAEL

CITY BAKERY

Uncle Ben Favors

Building Loan Fund

Editor Lynn County News:—Will you permit one of your readers to offer some suggestions with reference to a much needed institution for Tahoka citizens to consider?

I speak of a Building and Loan Association, all, or nearly all the live, wide-awake, progressive citizens have one or more building and loan associations, and if Tahoka is to "keep step" in the onward march of progress, nothing will be more certain than that a live, active, civic association of the kind mentioned above, will be conducive to the prosperity of our little city. Let me ask you this question: "Are there sufficient homes to accommodate those who are knocking at our doors—seeking to come here to live among us—to make their homes with us?" Almost daily, one hears the question asked: "Can you tell me where I can buy or rent a comfortable cottage?"

The answer is invariably: "They ain't any such animal" in Tahoka; there never will be a more favorable time or opportunity than the present to undertake and carry to a successful termination, the organization of a building and loan association in Tahoka; what you say, Mr. Editor and fellow citizens? Don't all speak at once, but mention the matter to your neighbor, to your best friend and, then wink your good eye at the other fellow—he will take the hint and fall in line; then we will all see Tahoka grow as she deserves to grow. The enterprises can be made to pay handsome dividends in more ways than one; it will mean better schools, better churches, more business, more tax payers with a tendency, at least, to reduce the tax rate. "Let's go."
B. F. (Uncle Ben) Rogers.

Editor Donald Dies

We are indeed sorry to report that W. Donald, editor of the Slatonite, an account of whose sickness appears in another column of this paper, died Thursday afternoon. The News has no information as to the burial and funeral services.

BAKERS DROP LOTUS LEAVES

Shanghai Government Forces Them to Use Waxed Paper for Wrapping Their Products.

Shanghai bakers used to wrap their bread and cakes in nice green lotus leaves. But the days of this romantic practice are gone forever. According to the new regulations covering bakery products, bread and other products must be suitably wrapped in greaseproof or similar papers. The clause in the regulation covering this particular requirement quoted by Assistant Trade Commissioner A. V. Smith in a report to the Department of Commerce, reads as follows:

"That bread and bakery products shall, upon sale or when carried or handled for sale, or delivered in baskets, vehicles or otherwise, be suitably wrapped in greaseproof paper or other cleanly covering, in such manner as to completely protect the bread from dirt, dust and flies, or from harmful contact in handling."

NOTICE TO THE PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to the attention of the editor.

On account of continued linotype trouble, we have not been able to get out on the street and gather much news this week, but the "critter" is running beautifully now, and we hope to have no further trouble. In the meantime, let us suggest that we would appreciate your phoning or bringing us whatever news items may come your way. We want to make the Lynn County News the best ever.

Tahoka needs a steam laundry. There is certainly a demand for one here. Can not some practical laundryman be made to see the opportunity that is presented here?

Don't just sit by and watch Tahoka grow. Put your shoulder to the wheel and push.

Everybody that sees Tahoka and Lynn county has a good word to say for them. You can't keep a good country down.

A HEART TO HEART TALK

There are some people wise enough to settle every political and social problem right off the reel. No problem of governmental policy, however, intricate the matter involved, presents any difficulties for them. They can tell you the solution, quick as a flash, without even batting an eye.

For instance, there is the immigration problem. Some people can tell you, with a cock-sureness that is refreshing, just exactly how this problem should be solved—no doubt about it. They have it down pat. No more immigrants should be admitted to this country until all the foreigners already here shall be thoroughly Americanized. There! That sounds fine. Who can beat it for an answer.

But to the thoughtful person, grave doubts arise as to its being the proper solution, as to its being any solution at all.

In the first place, how are we to determine just when a foreigner has been "Americanized?" What is to be the test? By what standard are we to determine the matter? If immigration or no immigration are to be determined in this way, then the test, the standard, must first be fixed by law.

When we undertake to fix this test, we surmise that we will encounter some difficulties. What shall the test be? Shall we require that the "foreigner" already here must first learn to read, write, and speak the English language? That would be good, perhaps, but that test would not satisfy many folks at all. Some of our worst Reds and anarchists could meet that test. Let us broaden the test, therefore, so as to bar the "Reds" and the anarchists. But still many people would not be satisfied, for there are hundreds of thousands of foreigners—Jews, Catholics, Italians, Bohemians, Russians, Hungarians, and others—who could successfully meet this test. What then? Shall we further broaden the test so as to touch the political or religious convictions of these peoples? Shall we say that no more Jews shall be admitted till all the Jews already here become Christian? Or that no more Catholics shall be admitted until all the Catholics already here become Protestant? Or that no Socialist shall be admitted until all the Socialists already here become Republicans or Democrats? Surely, none of us would require a test like that, for that would be in violation of the spirit and the letter of the Constitution of the United States, which guarantees to every citizen religious liberty and freedom of speech and thought.

about stopping immigration to this country until all the foreigners now here are Americanized, what are they going to make the test of Americanization? These gentlemen that talk so glibly about stopping immigration to this country until all the foreigners now here are Americanized, what are they going to make the test of Americanization?

And if they should succeed in firing a test that would satisfy them—that would bar the further immigration of Catholic or Jew until Catholic and Jew become "Americanized"—then how are they going about the task of "Americanizing" the Catholic and the Jew already here? Are they going to compel these to become Protestant what kind of compulsion is to be used, and Christian respectively? If compulsion by law or compulsion by brute force? Either kind would be in direct violation of the constitution, and the very genius of this government, and would be un-American in the superlative degree.

There are some other objections to this proposed solution of the immigration problem, to which we may call attention in a later issue, if we feel like it, after which we may make some suggestions as to how the immigration matter should probably be handled, but it is thought that the above will furnish food for thought sufficient to last a week or two.

THIS IS HOW THE NEWS STANDS

The News believes that if any nation ever had a mission America has one. That mission is to enlighten and to help the other peoples of the world, to lead them to higher ground, morally, religiously, educationally, socially, and industrially.

She can hope to perform this task only so long as she is actuated by a spirit of love, not hate; of sympathy, not selfishness; of service, not Pharisaism.

If America does not win her place of leadership among the nations of the earth by love and kindness and helpfulness, she can only win it by force, by material strength; and if she undertakes to win it and hold it in this way, she will ultimately meet the same fate that Germany met.

Inciting to race hatred and to religious intolerance, will result only in harm, not good.

We can help neither the white man nor the negro by teaching our people to hate the negro. We should rather teach them to respect the rights of the negro and to treat him right.

We can help neither the white man nor the Mexican by teaching the white man to hate the Mexican. Rather we should seek to help him.

We will win no foreigner to a better appreciation of our government and our ideals by denouncing the foreigner.

We will win no Catholic by repeating charges, true or false, against the Catholic.

We do not find anywhere within the pages of the Bible where Christ sought to foster race prejudice or religious bigotry.

We do find that he showed himself to be friendly toward the Publican and the sinner, not because he loved their habits or their characters but because he loved their souls.

We do find that in the parable of the good Samaritan, he sought to teach the haughty, aristocratic Jewish lawyer the lesson of service and helpfulness to his fellowman, however despised or humble that fellow man might be.

We think that there should not be room in the heart of any Christian man for hatred toward the Jew, the Catholic, the negro, the Mexican, Hot-tentot, or what-not. There should only be a desire to uplift and to help. This is what we conceive to be the spirit of true Christianity.

FOSSILS FROM THE ICE AGE

Czech Scientist Discovers Skeletons of Men, Women and Great Variety of Animals.

Skeletons of prehistoric men and women from the ice ages, a mammoth, two lions, a hyena, a wolverine, five cave bears and at least sixty fossil beavers have been found in the vast system of underground palaces formed by nature in the limestone rock of central Moravia now being explored by Dr. Karel Absolon, curator of the Brno museum of Czechoslovakia. Dr. Ales Hrdlicka of the United States National museum, who is in Europe studying cave men for the United States Smithsonian Institution, will report these discoveries in a communication to the next issue of Science.

The skeletons of many of these mammals of the glacial period of the earth's history are in an excellent state of preservation, he says. The cave bears' remains are almost complete and will be mounted as a group in the Provincial museum at Brno (Brunn), while the teeth and skulls of the beavers are also considered of highest scientific value.

The great subterranean halls, with their numerous columns, stalactite and stalagmite forms, are being energetically explored and are said to rival in beauty the famous caverns in Virginia and Kentucky.

LADY GOT SO WEAK COULD SCARCELY
After Suffering From Many Female Troubles This Cardui and Took It, She Says, "Until I Was Well"

"SOME TIME AGO," says Mrs. Buena McFarland, of R. F. D. 2, Bostic, N. C., "I suffered a great deal with weakness common to women. I had bearing-down pains, my sides and back hurt, and my limbs drew. I would get so weak in my knees I could scarcely stand. "I was very nervous, and could not rest. I didn't feel like eating. I grew thin, and did not have ambition for anything. "I had been trying other remedies... but did not get any better. "Some one told us of Cardui, and what it was recommended for. I also took a Ladies Friend read of a case and told my husband to try it. "I saw a great improvement the first bottle of Cardui until I was well. "Thousands of other women, to tell of the benefit gained by taking Cardui, would send it to others. Cardui has saved my life, for more than treatment of weakness. Try it."

Doak Motor Company

The creation of the Star Car is the most important and brilliant accomplishment of any individual identified with the automobile industry since its inception.

Smartness in looks, standardized and modern design and thoroughness of construction, in a low priced car were unheard of until the Star was created by W. C. Durant, the pioneer builder of automobiles and identified with the introduction and success of the country's leading cars.

The Star Car marks the most advanced step since the introduction of the automobile, for it provides for the first time a quality automobile, standardized in construction and operation for a modest sum of money.

(By Margaret Boyd.)

"You have fallen into your rank, and I have fallen into mine."
—A Tale of Two Cities.

If we mix together oil and vinegar and set the vessel aside, the oil will promptly rise to the top. If we add an egg to the mixture and beat the whole very vigorously, we can for a while circumvent nature and keep the oil and vinegar in mixture; but if the sauce is set away for a time, the oil breaks its bonds and returns to the top.

If we toss a measure of stone, gravel and sand into a vessel of water, shake the vessel thoroughly, then set it aside to settle, we shall find the stone at the bottom, the gravel above that and the sand on top.

The oil and the gravel both found their places by means of their weight—heavy things sink, light things float. No one has yet figured out what there is in human relations that corresponds to specific gravity; but each man has a place or a rank in the universe and invariably falls into it sooner or later.

Whatever it is that determines rank men are conscious of its presence when it is present. Let the officers of a regiment be killed and if there is a leader in the ranks he will assume command. No one will tell him to lead—he will step forward and the others will follow him. History tells us that the thing has happened time after time in battle. Gather together a hundred boys from all parts of the country and put them together in a camp somewhere and within a week three or four boys will be leading the rest. No one will tell them to be the leaders—they will take the place for themselves as naturally as oil takes its place in a mixture.

It is not mental ability that causes the difference in rank, as was obvious in the case of Carton and Stryver, where the brighter man held the lesser rank. It is not energy, for the excessively energetic man often ranks lower than his more deliberate brother. It is not education, for many a man with his Ph. D. ranks lower than some other man who barely finished grammar school.

Many philosophers have thought that the thing that determines rank among men is one's mental attitude toward rank. Emerson, for example, says, "Beware what you set your heart upon, for it shall surely be yours."

RED CROSS PLANS FOR COMING YEAR

Over \$2,000,000 in Fund for War Sufferers—National Budget Is \$5,543,077.

AID TO VETERANS STANDS FIRST
Expended \$9,738,448 in Services to Mankind Last Year at Home and Abroad.

Washington.—With a budget of \$5,543,077.81 for carrying out the program of service during the current fiscal year, beginning July 1, the American Red Cross announces that this amount was \$4,195,370.41 less than was expended during the fiscal year ended last June 30. During that year expenditures reached a total of \$9,738,448.22, of which amount \$2,605,696.99 was devoted to relief of refugees in Greece who had been driven out of Asia Minor. In announcing the budget for the year, the statement from National Headquarters emphasized the fact that its extensive work at home and abroad depends almost wholly upon the nation-wide support of the organization through enrollment of membership in large numbers during the annual roll call, which will be in progress from November 11 to November 29 under the auspices of the 3,600 Chapters in the United States and throughout the world. These Chapters, it is pointed out, during the last fiscal year expended of their own funds approximately \$3,920,000 in work for the men who wore the United States uniform during the World War, so that the estimate of some \$15,000,000 expended during twelve months by the American Red Cross as a whole is considered conservative.

Soldier Service Stand First
From July 1, 1917, to June 30, 1923, the American Red Cross spent nationally and through its Chapters close to \$164,000,000 in behalf of American soldiers who served in the war and their families. During last year the figure alone mounted to more than \$5,865,255, and for the current fiscal year National Headquarters has set aside under the heading, "Assistance to Disabled ex-Service Men and Women," \$2,065,834.20. The Chapters will continue to do their part, so that it may be predicted with confidence that again more than \$5,500,000 will be disbursed in the large variety of services to the disabled men and women and their families—services for which the Government cannot provide and which reach the individual case with the sympathy and understanding only actual contact can insure. This work of the American Red Cross approaches the fifth anniversary of the Armistice, which ended the World War with only slight decrease in calls for service in the interest of the welfare and rehabilitation of those who suffered physical disability in the service of their country.

In the interest of the enlisted men serving in the Army and the Navy the budget provides \$309,020 for the coming year. This is obligatory under the Red Cross charter, for the organization must act in matters of voluntary relief and as a medium of communication between the people and their Army and Navy.

Domestic Program Extensive
The domestic operations of the American Red Cross comprise an accurate indicator of the continuing calls for expansion in all the established and authorized services. The budget aggregates \$4,636,449.70, as against expenditures during the last year of \$4,452,066.29. The abnormal demands in the foreign field in the last several years, however, have largely subsided, and in consequence \$906,623.11 has been set for the 1923-24 budget under foreign operations. Of this amount \$394,303.91 is set aside for engagements which will close the work for the refugees in Greece, for whose amelioration \$2,605,696.09 was expended up to June 30, when the American Red Cross withdrew, and the work was taken over under the control of the Greek government. For liquidation and completion of general relief in Europe the budget provides \$100,000, and for American Junior Red Cross projects, foreign and insular, and assistance to Chapters listed under foreign operations.

Ready for Emergency Calls
The readiness of the American Red Cross to answer immediately with effective service in cases of emergency is an outstanding feature of its program that is universally recognized. During last year \$625,000 was spent for relief in 110 disasters, which was \$207,500 in excess of budget provisions. This year \$400,000 has been appropriated for this service. Since 1881 the Red Cross has administered more than \$20,000,000 in relief work following disasters.

Other budget items in the schedule for domestic operations include \$1,282,524.20 for service and assistance to the 3,600 Chapters and their Branches; \$80,000 for assistance to other organizations, particularly stressing child health activities; \$194,600 for Junior Red Cross projects and service; \$10,824.20 for assistance to Nurses' Training Schools, and for other activities \$111,456.80. For supervision of service activities and general management of the entire American Red Cross less than \$225,000 is allotted

OUR DRIFTING RURAL POPULATION

At this time of the year, when the leaves are changing color, when the harvest is in and plenty should abound the drifting tenantry of the Southwest "hits the road." Some are going east and some are going west, some north, some south, each one, no doubt, vaguely intent on improving his condition, or perhaps, in many instances, they are moving from force of habit. The most of them have moved every year since they became old enough to sign a contract and become a renter, but back in their mind somewhere will be found the thought that just over the hill or beyond they will find a location and settle down. One often wonders if the head of the family does not promise his worn and weary wife that "this will be our last move," only to break that promise every fall and start out on the road again. If he is an East Texas renter, he has heard that farmers are prosperous in West Texas. If in West Texas he imagines that East Texas farmers make a good crop, and so he loads his few personal belongings and starts out with his wife and children in search of the "Pot of Gold at the end of the rainbow."

There are 436,033 farms in Texas. The census of 1920 discloses the fact that in that year 148,920 farmers moved after occupying the farm one year. Farmers to the number of 103,517 reported to have lived on the same place from two to four years, and 62,708 farmers had lived on the same place from four to nine years.

If it is true that the home is the greatest factor in the civilization of the age, then something should be done to bring about a better system of tenantry and thus improve our methods of farming. A drifting population does not build up a country. A man who does not expect to live in a neighborhood longer than one year takes no interest in schools. His children grow up uneducated. Neither does he put himself out to improve neighborhood conditions. He does not co-operate. What is the use? He is on the farm to get all he can out of it. He mines it. Oftentimes his landlord is of the same disposition and would rather have a cropper than a farmer. "Posterity be damned," is the slogan. But what is the result? Schools are unsupported and poor. No one is interested in good roads. The rural church barely exists; lands become worn out and towns and cities suffer along with the country.

When one travels over our highways and sees the large numbers of families on the road, he may express pity for the poor woman on the front seat nursing a baby, or unless he knows how any families are drifting about without a permanent home, he fails to appreciate the seriousness of the situation. Before one gives the situation serious consideration, he must picture to himself the vast army of nearly 150,000 families, or approximately 650,000 persons, on the move in Texas every year—homeless wanderers with only temporary quarters in some farm tenant home, with worldly possessions in such limited quantities that such as they are, most of them can be packed into a single wagon.

Not all "drifters" are nondescript farmers. Many are unfortunate and would make good if given the opportunity. Far too many, however, drift about without any definite aim. They are croppers, not farmers. They help glut the markets and at the same time destroy the fertility of the soil. Landlords are undoubtedly due a fair share of criticism for this condition. Owners of rented land must assume the responsibility of correcting the evil. Better housing, improved living conditions on rented farms and a lively, personal interest in the tenant and his welfare would do much towards bringing about better farming and consequently, greater profits for both parties to the contract—Farm and Ranch.

Our trees are bearing all over West Texas and eastern New Mexico. After fifteen years of careful selection, we know the varieties best suited to all parts. Remember that a few trees that bear are worth hundreds that are not suited to west Texas conditions. Send your order direct or send for catalog. Local agents wanted.

**Houston Post Praises
Miss Davault's Recital**

"Miss Annie Davault, a young woman of extraordinary attainments, held a large audience spellbound throughout her profoundly dramatic reading of Israel Zangwill's 'The Melting Pot,' at the auditorium Sunday afternoon," says a recent issue of the Houston (Texas) Post.

"It seemed that the new born, but intense patriotism of David, the Jewish immigrant, was not greater than the patriotism of Miss Davault; throughout the recital of love of country and love of a woman, she was wholeheartedly absorbed in the affairs of her characters. A fine appreciation of emotional values and a masterly comprehension of the plot and purport of the play enabled Miss Davault to keep always before her audience the thread of the argument. Miss Davault is young, and she is attractive. She has the adaptable, mobile

temperament essential to the interpretation of many roles, and a voice of rare persuasion and warmth."

Local people are very much interested in Miss Davault's appearance here. She is to give an evening here on Wednesday, Nov. 14 at school auditorium. Probably no reader in the country has aroused more genuine enthusiasm or given such deep enjoyment as Miss Davault with her appealing charm and rare versatility. Among her most popular plays are "The Music Master," "Polly of the Circus," and the delightful "Peg 'O My Heart." Miss Davault is a reader of rare ability, who interprets whatever she attempts with the perfection which astonishes even a most exacting critic.

C. L. Harter of Wingate, Runnels County, left for his home Tuesday after visiting relatives and friends here several days.

**Report of J. F. Curry
Baptist Missionary**

Rev. J. F. Curry, Missionary of the Brownfield Baptist Association, makes the following report for the month ending October 31, 1923, for the benefit of all Baptists and others interested residing in Lynn county, as submitted by him by the executive board of the association:

- Days labored, 30;
 - Miles traveled, 750;
 - Churches visited and assisted, 10;
 - Homes visited, 25;
 - Sermons and addresses delivered, 12;
 - Number received into church membership, 3;
 - Number baptised, 1;
 - Number preachers ordained, 1;
 - Number enlisted to surrender for special service, 3;
 - Amount collected for State Missions, \$80.00.
 - Amount collected for pastors' salaries in cash and pledges, \$850.00;
 - Amount collected for Associational Missions, \$20.00.
- Respectfully Submitted,
J. F. CURRY,
Missionary Brownfield Ass'n.

The first heavy frost of the season visited this section Tuesday morning. A lighter visitation was made the preceding morning. The skies have been clear since, with light north winds, and the weather is just fine, thank you.

Mr. and Mrs. C. E. Tanner, who spent the last two weeks in this city, left Wednesday for Lubbock. Mrs. Tanner will proceed to Denver, Colorado, for an extended visit, and Mr. Tanner will return to Tahoka within a few days to open an automobile repair shop.

C. W. Conway, of Hubbard, Texas, has accepted a position with the City Barber Shop in Tahoka. He arrived in the city Friday of last week.
