PRICE SEVEN CENTS

TRAIL DUST

Now and then when a man is bouncing on the trampoline of fate, he will land on his feet and stay there long enough to be proclaimed a success.

Returning to locations of our youth is an unwise adventure which can provide little more than an opportunity to press down the seams of memory and patch torn places in the fabric of illusions.

The value of anything is arrived at by the amount of satisfaction it can deliver at a specific point. A good cigar may mean as much to a groom of forty summers, as a new spring outfit to his bride.

Of all the club-footed excuses for failure, the best is no equal for blaming fate for failing to introduce opportunity.

A penny for the thoughts of an Internal Revenue tax scout while visiting a modern busy airport in trying to estimate the justifiable business deductions.

If you are the worrying type, try to get included in a group of teenagers (those 97 out of every 100 who never get their names in crime headlines) and then get down on your knees and ask forgiveness for ever doubting the future of America.

The flume of dreams is a dry stream bed and the hope trees have shed their leaves. Reality has built its nest in the naked branches and time is incubating the spotted eggs of truth.

Insurance has made great strides but a vast field is still open until a firm is willing to protect the possible loss of a friendship.

Why ELDERCARE offers better care than Medicare

★ More benefits for the elderly
★ Less cost to the taxpayers

Health care for the elderly is one of the most significant and least understood domestic issues now before Congress. What Congress does on this issue is vitally important to every citizen—young and old.

The Medicare tax plan has been before Congress for the past six years and has been found unacceptable. There is now before Congress a new program called Eldercare which merits the thoughtful consideration of every American.

These questions and answers have been prepared to give the public factual information which may be used to express views on this issue to Congressmen and Senators. This is the first of a series of five groups of questions and answers published by BOB STANLEY PHARMACY.

1. Q. WHAT IS ELDERCARE?

A. Eldercare is a bill introduced in Congress designed to provide a wide range of hospital and medical care for people 65 and over who need help in financing these expenses. This bill (H.R. 3727) is officially known as "The Eldercare Act of 1965." It was introduced by Rep. A. Sydney Herlong, Jr. (D., Fla.) and Rep. Thomas B. Curtis (R., Mo.).

2. Q. WHAT IS "MEDICARE"?

A. "Medicare" is a name given to the King-Anderson Bill (H.R. 1), which would increase payroll taxes on all wage-earners and their employers to provide limited hospitalization and nursing home care and some diagnostic and home nursing services to everyone over 65, the wealthy, the well-to-do and self-supporting as well as those in need. It was introduced in Congress for the third time by Rep. Cecil R. King (D., Calif.) and Sen. Clinton P. Anderson (D., N. M.).

3. Q. HOW DO THE BENEFITS COMPARE?

A. Eldercare, implemented by the states, would provide a wide spectrum of benefits including physicians' care, surgical and drugs costs, hospital and nursing home charges, diagnostic services, x-ray and laboratory fees and other services. Medicare's benefits would be far more limited, covering about one quarter (25%) of the total yearly health care costs of the average aged person. (1) It would provide 60 days of hospital care, with the patient being required to pay for the first day; nursing home care for 60 days in a facility having an arrangement with a hospital; some home health services (such as a visiting nurse), and some out-patient diagnostic services, part of the cost to be paid by the patient. Medicare would not cover physicians' services or surgical charges. Neither would it cover drugs outside the hospital or nursing home, or x-ray or other laboratory services not connected with hospitalization.

4. Q. WHO WOULD BE ELIGIBLE FOR BENEFITS?

A. Eldercare is designed to provide benefits for people 65 and over who need care and cannot pay for it. Eligibility for benefits would be determined quickly—before illness strikes—and without a welfare type investigation. The elderly in the participating states would obtain a policy for medical and hospital care. Some would pay nothing for it. Others would contribute a part of the cost of their policy, depending on the level of their income. To apply for the policy, the elderly would submit a simple statement of income. That's all. In other words, the lower the income, the more financial help an elderly person receives.

Under the Medicare plan, all persons over 65, the rich, the needy, and all those in between, would be eligible for the limited benefits.

SS Benefits Are Often Overlooked

If you are over 65 and still working, you should contact your nearest social security office.

Have you read or heard the above advice before but then failed to follow up on it? If so, this article is for you.

Most people know that in order to collect social security benefits for each month in the year, they must limit their earnings to \$1200 for that year.

What many people do not seem to realize is that even if one is over 65 and still earning more than \$1200 a year, it is possible that some social security benefits can be paid. For each \$2 of earnings over \$1200, only \$1 of a beneficiary's social security payments is withheld for each \$1 in earnings.

However, regardless of total earnings for a year, the claimant can receive full benefits for any month in which he earned \$100 or less, and did not "render substantial services" in self-employment. An application must, of course, be filed before any

benefits can be paid.

Therefore, if you are 65 and still working, you should definitely consult your social security district office at First State Bank, Matador at 9:30 a.m. March 23.

OUR HOSPITALS

They rank with banks and county seats as the best assets to the area.

A bill is to be presented in the Legislature to declare a Motley County Hospital District. Later a bond issue may be called for. I FAVOR BOTH.

It is almost impossible for a doctor to practice medicine and manage a hospital at the same time. The bond issue should be large enough to build a new, modern, fire-proof hospital. Probably \$100,000.00. If state and federal requirements are met, it might be possible to obtain the same amount of money from the federal government.

\$200,000.00 is probably the least amount for building and equipment that will take care of our needs.

At any time several residents are in other hospitals when they could be taken care of at home.

In 1959 our Legislature passed rigid laws governing hospitals and placed supervision under the State Health Department. Correspondence indicates they agree that money should not be wasted in purchasing old facilities.

New building should be well located, probably out of city limits, easily accessible, room for expansion and parking.

LET'S ENCOURAGE A BOND ISSUE BIG ENOUGH TO FILL OUR NEEDS!

 MATADOR SCHOOLS

MHS OBSERVES SCHOOLS WEEK

by Stella Martin
 Monday, March 1, 1965, was the first day of Public Schools Week at the Matador public schools.

The high school students were given an extra twenty minutes for lunch Tuesday. The reason was that members of the Lions Club ate in the school lunch room and then visited in the classrooms in grade school and high school. The highlight of the week came Tuesday night in the form of talent. This was, of course, the annual Amateur Hour sponsored by the junior and senior classes.

Thursday the parents took time off from work to visit their children on Parents Visitation Day. Several of the parents also ate in the school lunch room with their children.

Much to their enjoyment, the students took Friday as a holiday and stayed home from school. But this was not the same story for the teachers. They had to go to Lubbock for the annual District Teachers Meeting.

TRYOUTS HELD FOR 'LUNATICS'

by Kenneth Pitts
 After school Monday, the auditorium rang with maniac-type laughs, and several persons displayed temporary fits of lunacy while others used the searching manner of detectives, the impeccable manners of a Chinaman, and the fear of the innocent. The occasion was tryouts for the upcoming senior class play, "Lunatics at Large."

Some of the characters include megalomaniacs who think they are Lady Macbeth, John Alden and Priscilla, and Mr. Hyde. Others in the play are a writer, a doctor, an inspector, a Chinese valet, a murderer, and

a slightly off-balanced young woman. The setting is in a secluded insane asylum which adds with the great cast to make the play of the year.

MHS Girls Defeat Roaring Springs

 The Roaring Springs gym was the scene of an exciting volleyball match between Matador and Roaring Springs high school girls. The Matador team consisted of the following girls: Ruthie Lynn, Lynda Elliott, Stella Martin, Karen Elliott, Jana Jones, Karol King, Rosemary Terry, Frances Martin, Sharlene Berryman, Shelley Stevens, Patsy Green, and Beverly Brandon. Although they had but a few practices, the Matador girls brought back victory by defeating the Roaring Springs girls three games out of five.

by Janie Killingsworth
 The theme for the Teen Canteen February 26, was the Roaring 20's. During the canteen Gary Campbell presented Robin and Darlene McAnally with "going-away" gifts from the high school students. Robin received a shirt and Darlene received a blouse.

After the presentation refreshments of soft drinks, brownies, and cookies were served to the students.

The students left Wednesday afternoon at 4:00 and arrived in Lubbock in time to have dinner at Underwoods. The meal was furnished by the Basketball teams.

"The Branding Iron"

KENNETH DAVIS, a graduate of MHS, visited school February 24, and talked with several students and teachers. It was nice to see the Ex back at home.

"My cap's a seven, what's yours?"

So ran the conversation of the Senior class members after they were measured for their caps and gowns March 1. Although it will be a long time before they actually see the caps and gowns, they are already excited about the white dacron gowns, white caps, and traditional red and black tassels.

AFTER MANY long hours of work and several frantic efforts in meeting deadlines, the 1965 La Arena has finally gone to press. It will be back the middle or latter part of April, and is anxiously awaited by the students.

THIRTEEN BETA members helped with the March of Dimes Drive in February, and each of them received a Certificate of Appreciation from the National Foundation. BETA president Kenneth Pitts presented the Certificate to Carolyn Perkins, Jana Jones, Linda Tilson, Judy Gwinn, Karol King, Nancy Bond, Karen Elliott, Judy Pitts, Sharlene Berryman, Shelley Stevens, Tim Sturdivant, John Barnhill, and Larry Elliott.

MEDICAL CARE

OR

"MEDICARE"

WHICH DO YOU WANT?

TEXAS today has one of the nation's finest, most comprehensive programs of medical care for the aged. These programs—the Texas approach, we call it—include medical benefits to Old Age Assistance recipients and extensive health cost protection through the use of special insurance plans for the aged. The Texas legislature is also expected to implement a medical care plan for those who are not on Old Age Assistance but who do need help in meeting medical expenses.

- Consider these facts:
- 229,000 needy aged, representing 30 per cent of Texas' entire aged population, now have a Blue Cross-Blue Shield health insurance policy paid for by the State.
 - This State program provides hospital, medical, surgical, x-ray, and nursing home benefits.
 - 72% of the aged in Texas now have one or more health insurance policies.
 - Through the "Texas 65 Health Insurance Plan," Blue Cross' "Senior Texan Service," and other special programs offered to the aged by private companies, health insurance is available to all who want it at a reasonable cost.
 - Studies by Belden Associates indicate that only a small percentage of the aged actually still need and want help in paying health costs (these aged would be covered by the program now being considered by the Texas Legislature).
- In view of these facts, the national "medicare" tax proposal (the King-Anderson bill,

H.R. 1) is not needed. "Medicare" benefits are very limited, covering about one quarter (25%) of the total yearly health care costs of the average aged person. "Medicare" would not cover physicians' services or surgical charges, nor would it cover the cost of drugs out of institutional care.

The "medicare" proposal is an extremely expensive one. While we all are starting to enjoy a reduction in federal income taxes as a result of action by Congress last year, the "medicare" program would cost an estimated \$1.7 billion dollars in additional taxes the first year. "Medicare" would increase payroll taxes to cover everyone over 65—even the wealthy. The employee who now pays a maximum tax of \$174 annually would find the amount for Social Security benefits and "medicare" increased to \$291 by 1971. Employers would pay a similar increase for each employee, thus resulting in higher prices for goods and services.

The Texas approach of providing medical, surgical and hospital care to those who need it is a more comprehensive, more economical program than "medicare," and it provides more benefits. If you object to paying higher payroll taxes for an undesirable, unneeded program, write your Congressman today. Ask him to oppose the "medicare" tax proposal, mentioning the programs for the aged now available in Texas. Ask him to support the Herlong-Curtis Elder-care Bill (H.R. 3727), which would make possible the broadening of the existing Texas program to provide medical, hospital and nursing home care for those few remaining aged who are still in need of help.
