## TRAIL DUST

By DOUGLAS MEADOR

Irrigation is a brave gesture to a thirsty land and a monument to man's struggle for survival, but in attempting to supplant the earth's need for rain it is like glowworms trying to push back the night.

Horizons extend forever in the Permian Basin country. Between Snyder and Big Spring are springs of vastness which seem to flood the world and fill the valleys of eternity, a broad and silent land where time secrets its looms.

If it requires a poor sport to champion decency then the shields of sportsmanship have become tarnished.

It is the part of most mortals to try to hide some of the extending years and finally learn with a vast disgust that they might as well try to hide the stars.

Somewhere in the deepest canyon of despair is another bearing greater burdens in grim and patient silence, often with the faith and strength of heart to smile.

On the New Frontier a nestor is a disenchanting dreamer who is not afraid of sweat.

Providing it is generally known that money will not buy happiness, then why do so many people continue working to acquire wretchedness?

Find enough faults with your old car and you will arrive at the state of mind which keeps you from wasting a car-dealer's time.

### PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

This is a sign of active community development

Many towns in our service area are engaged in or planning community development programs. One outstanding example is the continuing development of Robert Lee. Here, aggressively energetic citizens have built a new Court House, a new school building, a new Post Office, and a modern bank building. They have developed a City Park with recreation building, swimming pool, sports fields and a nine-hole golf course; modernized the City Hall, paved city streets and voted a bond issue to enlarge the local hospital. And, they can now claim a population gain. Robert Lee's proud record is a Pattern for Progress of what can be done in Community Development which improves the chances of continued growth, making the community a better place in which to live, work and play. Growth-conscious towns are invited to contact their local WTU manager for assistance from our area development representatives.

### Pitts is Scout Representative

by Ruthie Lynn  
 Kenneth Pitts, a senior at MHS, recently traveled to Austin as a representative of the 10,000 boys in the South Plains Council of Boy Scouts.

Only boys of certain rank could apply to be on the council and the representatives were chosen from the applicants by the council office.

Kenneth and six District Representatives of the South Plains Council left Lubbock February 5, in private planes. While in Austin they stayed at the Driskill Hotel.

Among the events which Kenneth will long remember was the tour of the Capitol, the Archives Building, and the Governor's Mansion.

On Saturday, the boys assembled in the House of Representatives to give a report of last year's Scouting Activities.

While there, the boys heard a speech by Governor John Connally, who said that Boy Scouts represented the "men of the future."

Later on they met the Governor in his office and attended luncheon with him.

The boys returned to Lubbock, February 6.

### SENIORS PICK TERM SUBJECTS

by Stella Martin  
 Five references! Two thousand words! Five weeks!

These are just a few of the remarks made by the seniors when term themes were assigned.

### COW POKES

By Ace Reid

"Yep, reckon I'm quite a success. There jist ain't nobody I'd change places with."

This feature sponsored by THE FIRST STATE BANK

This year their themes will be about history—from the civilization of America to the assassination of President Kennedy.

Those seniors who have changed their occupations have the privilege of writing on their new occupational choices.

The subject, whether vocational or historical, must be approved by Mr. Johnson before the student may begin writing.

Even though the thought of writing a term theme is discouraging, the seniors are looking forward to them because they will be the last major themes they will write while in high school.

What is really discouraging is looking into the future and writing college level term themes!

ested in speech, music, and business as well as athletics.

BEGINNERS SPOTLIGHT

by Karen Elliott

Tony Kieth Rose, the son of Mr. and Mrs. Doyle Rose, was born July 3, 1958, in Matador, Texas. Tony has spent his entire six years in Matador, where his father is employed as a salesman for the City Bakery.

The oldest of three children, Tony shares his home with his brother, Kenny, and his sister, Colleen.

Tony, a personable and industrious boy, is a favorite with his teachers and friends as a result of his co-operativeness. He slowly says, "I like to work in school and I like to read."

Tony informatively added that his favorite character was "Spot, the dog." Like all first grade students he has something nice to say about Mrs. Gilbreath. Tony smiling and accenting two dimples said, "I really do like Mrs. Gilbreath."

His plans for the future include going to Arkansas and being a salesman.

The THIRD grade students have been making Valentines, Valentine boxes and other decorations for their room.

The third grade Valentine Party was Friday afternoon

February 12. The room mothers Mrs. Dean McAnally, Mrs. Bryan Cammack, Mrs. Jim Stockton, Mrs. Bill Pallmeyer and Mrs. Fred Ozvinn served refreshments to the class.

The FOURTH grade students are preparing for the Amateur Hour. Those working on acts are Lou Ann Woodruff, Lance Jameson, Nancy Higginbotham, Linda Ann Campbell, Rosemary Fullingim and Gina Killingsworth.

Billy Paul Campbell brought his kaleidoscope to school and each student enjoyed looking at the many designs formed by turning the kaleidoscope.

The THIRD grade students are studying "Changes in Our Earth." On exhibit are pictures showing the stages of development and change in the surface of the earth.

The girls gave a play using as characters their dolls. Each girl spoke the dialogue of her doll's act. Glenda Stockton

### A WORD OF APPRECIATION TO OUR FRIENDS...

We would like to take this opportunity to humbly thank you people of Roaring Springs, Motley County and surrounding vicinity, for helping make our business a success these past fourteen years.

We have enjoyed your fellowship and deeply appreciate your patronage of our store during this period.

We cherish your friendships and wherever we may be in the years to come, we will remember you and want you to know the latch string will always be out to one and all of you.

### County Has Stake In New Oil Bill

Citizens of Motley County, producers of some \$1.1 million worth of oil and gas a year, have a special interest in the "pooling" bill now before the Texas Legislature, James L. Sewell, Dallas, president of Texas Mid-Continent Oil & Gas Association, reported this week.

"Although Motley County has production, the oil men who operate here, as well as the landowners and governmental officials, are interested in securing maximum development," Sewell said. "A pooling law will encourage a more efficient and more equitable approach to development of our oil and gas resources."

A measure, supported by all segments of the Texas petroleum industry after two years of intra-industry conferences and study, was recently introduced as Senate Bill 2 by Senator Galloway Calhoun, Jr., of Tyler, and as House Bill 2 by Rep. Wayne Gibbons of Breckenridge.

Sewell stressed that the measure does not affect normal leasing and voluntary pooling arrangements between landowners and operators, nor does it affect in any way reservoirs discovered and produced before March 8, 1961 (date of Supreme Court decision that wells on small tracts could not produce at rates disproportionately higher than adjoining tracts).

"The pooling bill is designed to make it possible for mineral owners—regardless of the size of tract they may have—to get their fair share of the oil and gas that may underlie their acreage," he said.

#### OFFICERS NAMED BY TECH ORGANIZATIONS

They are Thomas Edwards, son of Mr. and Mrs. J. E. Edwards, who was named president of Delta Sigma Pi, Business Administration fraternity for men, and Ronald Bailey, son of Mrs. Inez Bailey of Brownfield, who was selected by Tech's chapter of Future Farmers of America. The release did not state what office he will fill. However, it has been learned from other sources that he was named president.
