

Motley County Designated In Medical Shortage Area

THE SOUTH PLAINS Association of Governments has been notified by the National Health Service Corps that Borden, Crosby, Floyd, Garza and Motley counties have been designated as critical medical shortage areas. In addition, Borden and Motley counties were designated critical

dental shortage areas. The announcement came in a special news release yesterday from Tom Beck, Health Planning Coordinator of SPAG.

The designation is necessary before the communities within those counties may apply to the National Health

Service Corps for the assignment of Corps physicians or dentists to practice their profession in a private clinic setting. The earliest date for assignment would be July 1, 1976.

South Plains Health Provider Organization of Plainview, with the assistance of SPAG staff, worked closely

with the County Judges and Mayors as well as the medical community in each of the counties to develop the documentation as required by HEW. The SPAG Board reviewed the request at their April meeting and asked HEW to grant the designation.

According to the an-

ouncement, South Plains Health Provider Organization has notified SPAG of intent to apply for the assignment of health professionals to work within these counties. SPHPO will work closely with local elected officials and the medical community in developing the application. The organization

would provide all administrative functions for the physicians or dentist, allowing that person to spend his time serving the medical and dental needs of underserved rural counties.

Motley County Judge Forrest Campbell received notice Tuesday, of the action

and informed the Tribune of the forthcoming news release with additional information.

Other counties previously designated as critical health manpower shortage areas include Dickens and King counties in the South Plains region as well as Kent and Briscoe counties in neighbor-

ing Councils of Governments. "This is the largest contiguous area in Texas that HEW recognizes as needing additional health manpower to meet the medical needs of Rural America," said Beck.

In addition, Yoakum County had also been named earlier as a shortage area.

PRICE TEN CENTS

TRAIL DUST

Fortunately customers have changed in recent years, in some instances at the expense of the enterprising merchant. It would be extremely awkward for a store to gift-wrap an ax as a wife's birthday gift.

A farmer friend has weeds so large he is obliged to cut them himself. They provide so much shade his regular hoe hands are unable to resist sleeping on the cool ground.

If a man can remember seeing a ring of butter gather on the stone lid around a church dasher chances are he is familiar with benefits customary through old age pensions.

When a physician requires his patient of good repute to pay for services in advance, it becomes apparent that inside information indicates the exercise of business caution.

A silver ribbon of water followed the cow trail across gently sloping prairie finally to leap as a singing cataract only knee high to a barefooted boy. My mother walked through the sparkling grass, two bright milk pails on her chubby arms, as she paused to look into the crimson bank of sunset and the fragile, frightened clouds. The world was like hammered gold, perfumed with the serene sweetness of rain and sage - rare minutes of beauty suspended like a jewel on the white throat of life. Darkness arrived with the suddenness of thunder and I was alone in the quickening shadows until I heard my mother's voice calling the cows.

Larry Hoyle Named Lion Of The Year

MATADOR LIONS Tuesday night named Larry Hoyle as "Lion of the Year," at a Ladies Night meeting in the United Methodist Church. Speaker for the occasion was Larry K. Fuller of Borger, District 27-1 Lions Governor-Elect. Lion Fuller also served as installing officer for incoming officers of Matador Lions Club.

"There are two things Lionism will be concerned with, in the coming year," Lion Fuller declared, "Membership and retention of members. Lionism can easily become a thing that doesn't reach out to people, instead of the service organization it is meant to be."

"Put new members to work, and keep them interested in performing various civic duties," Fuller added that one out of every 15 Lion members is doing all the work.

"Your local club is Lionism... look about the area for young men and enlist them for members... become an active club - not one that just meets, eats and leaves." In conclusion, he quoted a remark once made by a Lions International official, "Lionism is Christianity in action."

Members present who were installed included R. M. Stanley, Lionamer; John Stevens, Freddie Welling, and Emilio Aguilar, directors; Kirby Campbell, 3rd vice president; Larry Hoyle, 1st vice president; Forrest Campbell, secretary-treasurer, and J. M. (Sonny) Russell, president.

STUDIES ABOUT THE BIBLE

After becoming a member of God's family, each individual must allow himself to be led by the Spirit. But I say, walk by the Spirit, and you will not carry out the desire of the flesh. Gal. 5:16.

But if you are led by the Spirit, you are not under the law. Gal. 5:18.

If we live by the Spirit, let us also walk by the Spirit. Gal. 5:25.

Remember, when we die with Christ and are buried and resurrected with Him, our desire for fleshly lusts are to be denied. Then our desire is to be toward righteousness. From the time we allow God to change the desire of our hearts, we must allow the leadership of the Holy Spirit to take over.

When we surrender our lives to the Lord of lords and the King of kings, we are traveling that super-highway which leads up, up and up to the portals of glory.

TEXAS TALK

Dead-last with the camel. That's where the experts say beef ranks as a preferred meat in the mid-east. Goat and lamb are way out in front and it'll take some mighty tempting T-bones to turn the tide. This is an Arabic fact-of-life depressing to cattlemen trying to build a fire under the export meat business. On the positive side however, proponents of the U.S. Meat Export Federation say there is major demand for prime beef in many of the European and Asian markets. Organizers of the fledgling federation hope to obtain the blessing of the Foreign Agricultural Service in the near future and establish international offices to promote the sale of U. S. meat throughout the world. Model for the ambitious undertaking is the highly successful National Feed Grains Council whose members have shown how well consistent international promotion works. Japan and Germany are most often mentioned as locations for the first two offices of the new Export Federation.

Remember **Reddy** Supplies the energy- but only YOU can use it wisely!

Reddy's helpful tips for your Room Air-Conditioners

Your air-conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint, collected on the filters, restricts air flow to the coils. Clean filters every two weeks.

Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.

Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

You purchased fine-home comfort when you bought your air conditioning unit. Properly maintained, it will offer you years of efficient service. A once-a-year check-up by your dealer pays dividends in savings on operating and breakdown costs.
