Old Settlers To Open Meet Today

Dickens County To Present Program For Second Day

EMPTY SADDLES left by riders of this West Texas range country while they fight on distant fields of battle to preserve the heritage of freedom will bring mist and tears to many eyes at Roaring Springs today. The ponderous weight of war will never be very far from the hearts of Matley-Dickens counties old settlers as they open their third meeting since the nation entered the great world conflict. The two-day program, which will start with a pioneer parade at 10 a. m., will pay various tributes to men in armed services who have left empty saddles behind them. Men from the two counties who have lost their lives during the war, will be honored during the memorial services which will start promptly at 11 a. m. today.

All plans were declared in readiness late yesterday, including final arrangements for the rope and saddle contests which will be an outstanding feature of the program today and tomorrow. Special ribbon awards have been printed for winners in the parade this morning.

The program is as follows: Congregational singing, with R. C. George of Spur leading; invocation by M. C. Golding of Spur; vocal solo by Mrs. George Gabriel of Spur, accompanied by Mrs. Magge Alexander, pianist of Spur; address of greeting by Ernest Finley, minister of the Spur Church of Christ; introduction of old timers by O. C. Arthur, secretary of the Spur Chamber of Commerce and address "From one old timer to another timer", by Geo. S. Link of Spur.

Good attendance was noted throughout the meeting, and the series of evangelical sermons brought by Rev. Verner met with much spiritual response among the members.

BOOTLEGGER ESCAPES IN UNDERWEAR; PADUCAH SHERIFF KEEPS HIS PANTS

Men's hot weather fashion note. Shirts are being worn over underwear, without pants, providing greater freedom and comfort. While the new hot weather fad may not receive much favor by men in general it was given a trial on a central business street of Paducah about 10 p. m. Sunday night. Shortly before that hour when a man dashed down the street in his underwear, Sheriff H. H. Courtney of Matador had made a hurried telephone call to his neighboring sheriff, A. A. Payne of Paducah.

Sheriff Courtney told Sheriff Payne that a bootlegger whom he would like to apprehend, was headed toward Paducah on Highway 70, and that he would arrive soon and fast. Sheriff Payne stopped a man answering the description but called Sheriff Courtney from a Paducah bakery, to confirm his identity. Sheriff Courtney asked the Cottle county sheriff if the man weighed about 200 pounds and had wide front

teeth. About that time he heard considerable commotion over the telephone but decided it was bake shop machinery in operation. After he received no further reply, he started for Paducah for his man.

Leaves Pants, Money And Car

The man was gone when sheriff Courtney arrived. Sheriff Payne had his pants, ripped down both legs, his full wallet, his automobile and a considerable stock of liquid refreshments, but the man was gone. While he talked to sheriff Courtney, sheriff Payne's prisoner booted for freedom. Sheriff Payne, a large, strong man grabbed at the bootlegger, caught him by the belt at his back and the two struggled, then the bootlegger's belt broke and the fabric of his pants was too frail to withstand the strain. Both legs were ripped all the way down. The bootlegger was free. Sheriff Payne held a pair of ripped pants. The bootlegger dashed down the business street and to the freedom of darkness beyond. It was a warm night.

Candidates Are Ready For Second Handicap

Voting will be quick and easy Saturday. Motley county has only one contested office to be decided in the Democratic second primary election. Mrs. John Smith and Mrs. Luther Cox are candidates for the office of county treasurer.

The state ballot is also short. With Grover Sellers and Jesse E. Martin are candidates for the office of Attorney General; Gordon Simpson and Richard Critz for Associate Justice of Supreme Court.

While balloting in Motley county is expected to be far less than the July primary, ample election supplies have been delivered to the ten voting boxes. Darden Canyon citizens will vote at the established place Saturday, but in the future they will register votes in Roaring Springs, following a unanimous decision to merge the boxes.

Shell Blows Off Tires; Berryman Completes Mission

Pvt. Wade H. (Mutt) Berryman is a hero to his buddies on the Italian battle front and rated special space in "Flashes From the Italian Front Lines" which is a regular feature of "Stars and Stripes", official publication on the battlefield. The following article which appeared in the "Stars and Stripes" issue of August 11, 1944, has been received from two sources by his wife, Mrs. Wade Berryman, who is employed in the Matador post office.

"When history of World War II is written, a page should be devoted to heroic truck drivers. After an enemy shell tore the four tires from his truck, Pvt. Wade H. Berryman, Matador, (Matador) Texas, continued to drive his load of men and ammunition until he arrived at a safe dismounting area. There he repaired the damaged vehicle and continued on his way."

Mrs. Berryman said yesterday that her husband had not written her about the incident which prompted the above article, although he had at some action which had damaged his truck. She received one copy of the clipping from Mrs. Grady Acker and this week received another from Pvt. Albert Chambliss, who is recovering from wounds in a hospital overseas.

Pvt. Berryman is the son of Mr. and Mrs. Tom Berryman of Matador.

Sgt. Tilson Reads Favorite Newspaper In Corsica; Reports Natives Friendly

Generally speaking, Sherman was correct in his definition of war, yet Staff Sgt. Bill Tilson, has encountered some variations. The above pictures are from a large collection recently received by his father. Upper left is the fighting sergeant reading the Matador Tribune while stationed in Corsica (inscription on back of photo reads, "reading my favorite newspaper.")

Upper right is a picture of Mt. Vesuvius in eruption, made by Sgt. Tilson in Italy. The lower picture was selected from the group for its pictorial qualities. It is a Corsica family group and typical of the girls whom Sgt. Tilson seems to have a talent for photographing. The picturesque Corsica father is not shown in this picture, but Sgt. Tilson says he often visits the friendly Corsica home to talk to the father, which is sufficient excuse to call, although this picture leaves a certain lack of conviction in his statement.

SPECIAL RELEASE TO THE TRIBUNE
Recently the Tribune received the following special release from the public relations section, Headquarters Twelfth Air Force, which outlines Sgt. Tilson's activities:

WITH THE 12th AAF—Staff Sgt. William R. Tilson, 23, son of Mr. and Mrs. Tom Tilson, Matador, Texas, completed two years of foreign service in July with one of the outstanding Twelfth Air Force fighter groups in the Air Forces. Sgt. Tilson's group has scored triumphs, but he thinks that the zenith of the outfit's exploits was reached on Palm Sunday of 1943. Operating at Cape Bon, Tunisia, the fighter group knocked 77 German planes out of the sky. Since being overseas, Sergeant Tilson has seen action in Egypt, Tunisia, Sicily and Southern Italy. His fighter group fought with the British Eighth Army in its smashing drive to oust the Germans and Italians from Africa. Now the fighter group is gaining more fame for successfully using 12th AAF P-47 Thunderbolts for low level bombing and strafing of enemy installations and communications.

"A" Gas Books Now Available

'A' and 'D' gasoline books are now available at filling stations and at the local rationing office, according to information released by Mrs. Ina Price, chief clerk of the Motley County War Price and Rationing Board. Motorists are urged to secure them as soon as possible. New gas coupons in the book will become valid on September 22 she declared. Motorists are urged to observe these rules in order to speed up the renewal job:

1. Applicants must attach the back cover of their present "A" book, properly endorsed on spaces provided for this purpose, to their application forms. (If applicants have lost their "A" book back covers, they must attach their state automobile license receipts to the application in lieu of the cover, which receipts will be returned to applicants by mail with their new books.)

2. Applicants should read carefully the instruction on the form and fill it out exactly as required.

3. Applicants should mail their applications to the local board and not take them there in person. Mrs. Price said applicants are not required to attach their tire inspection records to their applications in this instance.

Mr. and Mrs. Frank Jameson and children of Floydada, were Matador visitors Tuesday.

Goofy, am I?

Go ahead—that's your privilege—thinking I'm just plain hipped on everlastingly keeping this engine's insides OIL-PLATED with Conoco Nth oil. Maybe there is and maybe there isn't sixty other ways that would have kept engine acids from raising Ned with this pre-Pearl Harbor limousine. But one thing I know is this: it's still running swell on nothing but Conoco Nth motor oil. You needn't be a scientist to know that acids from every explosion are forever trying to spoil an engine. Looks like the proper idea is to try blockading those acids by getting your engine OIL-PLATED. I learned there's a modern synthetic in Conoco Nth oil that reminds you of magnetism, because it makes inside surfaces attract a shield of OIL-PLATING. Acids can't so easily tear right into this. Then your OIL-PLATED engine has an extra chance to last you. When new cars arrive, hurry! But a real advanced improvement right now is to switch to Conoco Nth motor oil, see.

Tires Wear Out twice as fast at 90°

WHEN YOU SUFFER with the heat, remember that your tires really sizzle on the road... because road-surfaces are usually 25° hotter than air temperatures.
This frying-pan heat saps the strength of rubber... produces doubled wear as the thermometer rises from 60° to 90°... and multiplies tire-failure by twenty per cent.
Obviously, you and every other patriotic driver, want to get every bit of precious mileage remaining in your present set of tires. That is why we bring you these authoritative suggestions:
Avoid hot-road driving as much as you can... Drive at slower speeds... Don't over-inflate tires, but avoid under-inflation as you would a plague... And don't neglect to have your tires cross-switched every 3,000 miles.
Your Phillips 66 Service Man is anxious and waiting to help you. Give him the opportunity, at least once a week, to check air pressures... to inspect for nail holes, cuts, and bruises... to examine tires so he can warn you when re-capping is advisable.
This is only part of the *Tire-Saving and Car-Saving Service* pledged to you at every Phillips 66 Service Station, to help you "Care For Your Car For Your Country."
In the Nation's interest and in your own, be watchful and intelligent about making your car and your tires last longer and go farther. Drive in for help at the Orange and Black 66 Shield, the sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.
