Mrs. L. B. Turner Heads 1958 March of Dimes Drive

Community Chairmen Are Named

P-T. A Program To Feature Film On Mrs. Billie Davis

A film featuring the life of Mrs. Billie Davis, is scheduled for the first Parent-Teacher Association meeting of the New Year, it was announced by Mrs. Jack Luckett, president.

The program will be Monday night, January 6, at 7:30, in the high school auditorium.

The film, "A Desk For Billie," is an hour-long, 16mm color production, and concerns the child of migrant parents, who became famous several years ago for the poignant true story of her life as a "hobo kid."

The public is invited and urged to attend the program.

A TIRELESS civic worker of the Flomot Community, Mrs. L. B. Turner, has accepted the county chairmanship of the 1958 annual March of Dimes fund campaign. Mrs. Turner said the county drive would start January 8 and continue through January 28.

The national drive begins today and continues through January 31. Mrs. Freeman Thacker will serve as chairman of the Matador committee; Charlie Lane will head the drive in the Northfield community and the Whiteflat and Flomot campaigns will be sponsored by the Home Demonstration Clubs in the two communities, Mrs. Turner said.

Chairmanship of the Roaring Springs committee will be announced later, Mrs. Turner said. "In organizing the drive we are meeting with interest and sincere cooperation," Mrs. Turner said, "and I feel that the 1958 March of Dimes will meet with success, and the hearty response that has been traditional with the people of Motley County."

The National Foundation for Infantile Paralysis has announced a national goal of \$44,900,000 (during this, the 20th anniversary drive) as needed to aid the 325,000 polio victims, for research, professional education, vaccine and rehabilitation of disabled victims.

"Thousands of polio victims are struggling to achieve maximum freedom from the crippling disease," according to a recent statement, "and while improved care and modern treatment have added years to their lives now the March of Dimes must add life to their years. Survival is not enough."

Al Watson In Race For Commissioner

The Tribune is authorized to announce the candidacy of Alfred Watson of Whiteflat, for the office of county commissioner, precinct 2, of Motley County, and subject to the action of the Democratic Primary, July 26, 1958.

A statement by Mr. Watson concerning his announcement, is as follows:

"I have lived in the Whiteflat community since 1925 and I am familiar with many of the problems of the area. I have had eight years experience in road work and five additional years experience in dirt work and the use of dirt moving machinery as an employee of Jameson Machinery Company. "During the period in which I have lived in Whiteflat, I have worked under six different county commissioners. I feel that I am qualified for the office I seek.

"In event of my election, I pledge my most sincere efforts to serve the best interests of Motley County in general and my precinct in particular. I will be fair in my decisions which affect the welfare of the people.

"I will be grateful," Mr. Watson said, "for the aid of anyone who finds it possible to support my campaign. I respectfully solicit the vote and influence of everyone in precinct No. 2."

RELATIVES VISIT

Mr. and Mrs. J. M. Brown, of Lonoke, Ark., were visitors in Matador Monday and Tuesday. They were entertained Monday evening in the home of their cousin, Mrs. Marvin Patton and family, and other relatives present included Mr. and Mrs. D. P. Keith, Mr. and Mrs. Charlie Keith, Miss Mary Keith, Mrs. U. L. Willie, Mrs. Clotelle Horn, and Mrs. R. E. Donovan.

Visitors Saturday in the home of J. J. Cooper, were early-day friends, Derrell and Byron King of Seagraves, formerly of the Northfield community.

New Year Rides Cold Front Here

Little 1958 found a cold welcome in the Texas Panhandle, following a dry northern that swept across the central states early Tuesday. The mercury here dropped several degrees below the freezing point within a brief period of time.

Wake of the cold front left even colder temperatures by Tuesday night. Amarillo forecasters expected a low of around 12 degrees by the dawn of the new year.

With the exception of a slight drizzle that fell Christmas Eve, the weather had been fair and mild until Tuesday. Sleet and snow were reported in Kansas Tuesday night.

While the bank, post office, and West Texas Utilities office were closed yesterday, most of the town did not observe the holiday.

Watch Night Service

A "Watch Night" service Tuesday night at the Methodist Church culminated a series of devotionals observed throughout the afternoon by various members of the church. The church is participating in a year-long "Tell Texas About Christ" Crusade, beginning with the New Year.

Rites Held For Williams Infant

Funeral services were held Wednesday, at 2 p. m. at Eudy-Seale Funeral Home, for Randy Dale, infant twin son of Mr. and Mrs. Pete Williams. The baby died Tuesday shortly after noon.

The twins, Randy Dale, weight 3½ pounds, and a girl, Ronda Gail, weight 4½ pounds, were born Saturday, Dec. 28, at Stanley Hospital.

Besides the parents and twin sister, other survivors include a brother, Rodney, the maternal grandparents, Mr. and Mrs. J. C. Green Sr., and paternal grandparents, Mr. and Mrs. Buford Williams, all of Matador.

Rev. C. W. Williams, pastor of The Methodist Church, officiated at the funeral service. Burial was in East Mound Cemetery, with Eudy-Seale directing.

HOLIDAY VISITORS IN NEIGHBORS HOME

Visiting in the J. P. Neighbors home and with Mrs. H. M. Wagley during the holidays, were the latter's son and family, Mr. and Mrs. Herman Wagley and children, and her mother, Mrs. Lela Gomer, of Pampa; and two daughters and families, Mr. and Mrs. Ivan Gardner and children of Salt Lake City, Utah and Mr. and Mrs. Oma Wagley, of Moran, whom Mrs. Wagley accompanied home. Mr. and Mrs. Billy Myers and small son Cody, of Eunice, N. M., daughter and family, of the Neighbors, and Mr. and Mrs. O. J. Parr of Arlington, completed the list of visitors.

Mrs. Ben Meador and her mother, Mrs. A. A. Tipton, visited in Odessa during the week end in the home of their sister and daughter, Mrs. Jack Crider and family. Another daughter of Mrs. Tipton, Mrs. Nolan Fulkerson and family of Lubbock, joined them there.

Death Claims Pioneer Cowboy Who Once Owned Amarillo

Rites Today For Hawley Plemons, 88

A STRANGER, death, rode away with Hawley Plemons at sunset Tuesday. They left during the last few hours of the old year. A chapter was finished in the life of a true West Texas pioneer. Hawley Plemons was 88.

Perhaps no other man in America ever lived to experience a more dramatic episode in the development of a country than the one associated with the patriarch of the range.

He saw a section of land he once owned changed from barren prairie to a modern city of skyscrapers, paved streets and busy market places. He once owned section 170 in the heart of the business district of Amarillo.

Hawley Plemons was born near Whitesboro, in Grayson County, March 29, 1869. He was married in Amarillo, November 20, 1904 to Miss Callie Sims, in the home of his mother, Mrs. W. B. Plemons.

Besides Mrs. Plemons, he is survived by one daughter, Mrs. William Lowmire, Lubbock, and two sons, Elmore of Odessa, and Will of Detroit, Michigan. 7 grandchildren and one great-granddaughter.

Funeral services will be held at the First Baptist Church at 3 p. m. this afternoon with Rev. Ray Manning of Throckmorton, officiating. Interment will be in East Mound Cemetery under the direction of Eudy-Seale Funeral Home.

Father Was Judge
Hawley Plemons was 17 and a cowboy on the Fryling Pan Ranch when he rode out of Palo Duro Canyon one hot summer day in 1886 and stopped at a homesteader's wagon camped by a dry lake north of the canyon. He asked for a drink of water and the homesteader asked him to have dinner.

The homesteader had staked out a section of land while awaiting the Ft. Worth & Denver Railroad to build up over the Cap Rock. Other homesteaders had staked claims in the area because there was speculation that a town would be located somewhere in the area. The homesteader offered to sell Hawley Plemons a quit claim title to the land for \$500. The young cowboy did not have \$500 but he borrowed it from H. B. Sanborn, owner of the Fryling Pan Ranch.

Being a minor, the youth wrote his father, W. B. Plemons in East Texas, and a former member of the State Legislature, and turned the transaction over to him. They sold the section of land the following year for \$15,000, after giving ground for schools, parks and churches. W. B. Plemons later became the first county judge of Potter County. He is buried in Amarillo.

Hawley Plemons later owned a ranch near the present town of Borger and a community there now bears the family name.

Cowboy for 40 Years
Hawley Plemons began working for the Matador Land & Cattle Company in 1907 and worked for the firm for 40 years. He worked here, at Channing, in Montana and elsewhere, later coming back here to manage the thoroughbred herd. He was retired in 1949. He and Mrs. Plemons lived at Brownwood for a time and then moved back here where they have lived since. Mr. Plemons has been in failing health for several years.

Pallbearers are Jim Ward Jeffers of Paducah, Kenneth Jeffers of Memphis, Curtis Graham, Noble Dirickson, Algie Groves and Bennie Cox of Matador.

Pat Sheridan To Seek Re-election

The Tribune is authorized to announce the candidacy of Pat Sheridan for re-election to the office of District and County Clerk of Motley County, subject to the action of the Democratic Primary, July 26, 1958.

In making his announcement, Mr. Sheridan said, "I am grateful to the voters of Motley County for many favors in the past, and also to the citizens in general for the full cooperation I have received during the period I have held this office.

"In event of my re-election," he said, "I pledge continued devotion to the duties of my office, and my very best efforts to serve the people of Motley County with courtesy and efficiency.

"I feel that my experience in the office warrants my seeking re-election. I am familiar with all phases of the work and thus able to serve the public without any interruption.

"I want to take this means of soliciting the vote and influence of everyone in the county. I will greatly appreciate any service rendered in the interest of my campaign, and offer in advance my gratitude for any favors shown me."

FORMER TEACHERS HERE
Mr. and Mrs. Harvey G. Stanford and son, Jimmy of Las Vegas, Nevada, were in Matador Monday, visiting with friends. Mr. and Mrs. Stanford formerly taught in the Matador School system, and he was football coach, directing the Matadors to their first regional victory in 1935-36. He is now assistant manager of one of the Las Vegas schools.

RETURNS HOME
Mrs. Ed Williams, who spent the past several months in Carlsbad, N. M. has returned to her home here. She was accompanied here during the week end, by her daughter and husband, Mr. and Mrs. Elmer Jameson, of Carlsbad.

VISITORS HERE
Visitors this week in the home of Mr. and Mrs. Bob Stanley, were her mother and sister, Mrs. F. M. Conover, and Mrs. J. E. Fargason and children, Ray and Marie, of Moore. Miss Sue Teague, also of Moore, accompanied them and visited as the guest of Fred Stanley.

Mrs. Haynes Baumgardner and sons, Haynes Jr., and Jan, of Abilene are visiting her parents, Mr. and Mrs. L. J. Barkley this week.

Man Faces Charges In Theft of Stamps

(From Amarillo Globe)

A 32-year-old Negro minister here has been charged with felony theft of trading stamps already redeemed in a grocery store.

The Rev. Jim Jones admitted taking the stamps after he had taken a lie detector test in Amarillo, according to Sheriff Jinks Wilson of Motley County. Sheriff Wilson said Jones and another Negro man and a Negro woman earlier had accused a fourth Negro man, Edward Jones, 31, of taking 105 books of redeemed trading stamps from the back of Spot Cash grocery store.

"The stamps totalled \$8,000 to \$10,000 in all," Sheriff Wilson said.

After Rev. Jones and his two companions had signed affidavits in Matador saying that they had seen Edward Jones take the stamps, Sheriff Wilson requested that both Edward and the preacher be given a polygraph test.

L. R. Wynne, polygraph examiner for the Amarillo police, submitted both to the test after Edward had repeatedly denied taking the stamps.

Following the tests, Wynne said, Edward Jones was freed when the preacher admitted taking the stamps.

Rev. Jones is now in Matador jail under bond of \$1,000, according to Sheriff Wilson. He has been bound over to the grand jury.

Jerry Edwards Graduates From Mortuary School

Jerry Edwards, son of Mr. and Mrs. Tommie Edwards, of Whiteflat has graduated from Gup-ton-Jones School of Mortuary Science, in Dallas, and has gone to Snyder, where he will be employed by Barnes and Bell Funeral Directors.

Mr. and Mrs. Tommie Edwards and daughter, Vella Ree, attended the graduation on Dec. 19, and were accompanied home by the young mortician and his family—his wife, the former Patricia Brooks, and their young son, Terry Max.

After spending the holidays here and at Roaring Springs with their relatives, they left Tuesday for their new location.

Young Edwards graduated with honors, and received the Dean's Award.

Judge Gilbreath Asks Re-election

The Tribune is authorized to announce the candidacy of Vance H. Gilbreath for re-election to the office of County Judge and Ex-Officio County Superintendent of Motley County, subject to the action of the Democratic Primary, July 26, 1958.

In making his announcement, Judge Gilbreath made this statement:

"It has been a great privilege for me to have the opportunity to work for the people of Motley County. I have tried to fulfill the duties of the office with fidelity to my moral and legal obligations to you in every respect. It has, indeed, been an honor to serve as your county judge and I shall always be indebted to you.

"I want to continue to serve you as county judge. With my past experience, I feel I am better qualified to serve you than ever before. My program will be a continued program of honesty, efficiency and economy.

"Because of the severe recent floods, many glaring deficiencies have appeared in our county roads system. Our school bus and mail-route roads are, in many instances, in a deplorable condition. It has been almost

Vocational Rehabilitation Counseling Program Aids Blind Students At Tech

LUBBOCK — What does a blind person do when he enters a strange town alone?

The first place to go is the police station, says Jerry Dunham, blind Texas Tech graduate student.

"I ask about the main streets, location of the railroad tracks, lakes and ponds. I also find out how the streets are named," Dunham said.

"Otherwise I have to ask about a half a dozen persons before I find one who can visualize their town in the way it helps me."

Developing a "sense of knowl- edging" about their surround- ing — whether they are in a room or in a city — is import- ant to the blind.

To aid the ten blind students at Texas Tech, the Vocational Rehabilitation Counseling program has developed a "Braille" map of the campus. Brain-child of William L. Dauterman, assist- ant professor of psychology, and Jerry Dunham, graduate stu- dent, the scale model of the campus (one-inch equals 100- feet) gives a blind person a men- tal picture of the space relation- ships of buildings, walkways and streets at Tech. Both Dauter- man and Dunham are blind.

Guided by String

String glued to the board out- lines every sidewalk, subwalk and street on the campus.

"We are now in process of coding the buildings in Braille," Dr. Robert Anderson, vocational

rehabilitation director, said. He pointed out that while a blind student soon knows the area around the rehabilitation offices, Home Economics Building and the Tech Book Store, he has no idea of the size or direction of buildings elsewhere on the cam- pus.

However, most blind persons are no so fortunate as to have a Braille map of their locality. That makes the use of a cane and accurate information about their surroundings important.

Like the majority of states, Texas has a "White Cane" law that is designed to give blind persons protection in traffic. While many Texans are unaware of the law, it's on the statute books that pedestrians and auto- mobile drivers must take pre- cautions to protect and give right-of-way to a blind person. Normally they carry an all white cane or one that is white and red.

A fine of \$200 may be assess- ed drivers failing to yield right- of-way to the blind, District At- torney George Gilkerson said.

According to Dunham, the blind are actually taught how to use a cane. While working for the Kansas Rehabilitation Center for the Blind, Dunham taught an estimated 300 persons how to use a cane so that they may travel unassisted.

What about "seeing-eye" guide dogs?

Few Can Use Dog

"Only about five per cent of

the blind population should or can use a dog successfully," Dunham commented. "If a blind person is taught to move about with a cane first, he can use a dog better if he obtains one."

Jerry points out that a blind person with a long cane, say four feet long, can move much faster since it reaches out fur- ther in front.

Using it rhythmically the blind student puts the cane be- fore the foot that isn't forward and touches a path wide enough to protect an area the width of his shoulders. In a grocery store, he carries the cane very lightly in his finger tips to avoid knock- ing over merchandise or other accidents.

Tech Applied Arts Schedule Exhibit

LUBBOCK — Art work by seven outstanding artists from Texas and neighboring states will be on display at the first annual Invitational Exhibition of Arts and Crafts sponsored by the Texas Tech applied arts de- partment Jan. 5-30.

The exhibit will be held in the West Texas Museum on the Tech campus.

Art and craft works that have been exhibited in national and international shows and have won a number of prizes and awards will be in the exhibit, Prof. Arne Randall, Tech ap- plied arts of department head, said.

Three of the artist-craftsmen whose work will be exhibited are Eric Gibberd of Taos, N. M., Paul Hatgil of the University of Texas, and Francis Stephen, Phillips University, Enid, Okla.

Attorneys Sought For Service In V. A.

The Lubbock Office of the Veterans Administration is endeavoring to obtain applications from attorneys interested in government service. Two position vacancies will occur shortly after January 1, 1958. These are Trial Attorney (General), GS-9, \$5440 per annum. The duties are primarily of investigative nature and involve some travel throughout the area serviced by the Lubbock VA Regional Office.

Interested applicants can obtain applications for Federal Employment from any first or second class post office and after completing these forms, they should be filed with the personnel office of the Lubbock, VA Regional Office, 1612-19th Street, Lubbock, Texas. Additional information can be obtained by contacting the Personnel Office at the same address.

Governor and Friend

AUSTIN — After signing a proclamation designating the month of January, 1958, as "March of Dimes Month" in Texas, Gov. Price Daniel has some words of encouragement for tiny polio victim George Craig DeVilleneuve, Jr., 22-months-old, of Austin. Stricken at the age of 10 months, Craig will eventually make a 100 per cent recovery, his doctors say. Cost of his treatment is paid by March of Dimes funds supplied by the Travis County Chapter of the National Foundation for Infantile Paralysis.

Farmer Must Make "Self-Employment" Income Tax Report

Farmers must file income tax returns to report self-employment income for social security purposes, even though they have no income tax to pay. According to John G. Hutton, manager of the Lubbock district social security office, any farmer who has a net profit of \$400 or more in his tax year must file an income tax return to show income taxable under the Social Security Act.

Mr. Hutton emphasized that tax returns showing income subject to social security tax must also show the taxpayer's name, address, and social security number. When any of these items are omitted, the taxpayer might not get social security credit for the income on which he paid the tax. Since future social security benefits are computed on reported earnings, omission of identifying information on the tax return can seriously reduce a future social security benefit paid to a self-employed person, Hutton said.

Farmers who have less than

\$400 net farm profit, but who have \$600 or more gross farm income can report earnings toward social security coverage. If the gross income is not over \$1800, 2/3 of the gross can be reported if greater than the true net if the farmer wishes to increase his future benefit payment. Also, if a farmer's gross farm income is more than \$1800, but the net is less than \$1200, he

may, if he wishes, report \$1200.

Farm income of farm land owners who lease out their land to someone also is covered by social security only if they participate materially in the management or production of the crop by arrangement with the lease. Farm landlords who are not sure their income is covered by social security should consult their local social security office, Hutton said.

A representative of the Lubbock Social Security Office will be in Matador on January 14, 1958 at 9:30 A. M. at the First State Bank and will be glad to assist in all matters pertaining to Social Security.

About Your Health

A weekly public service feature from the Texas State Department of Health.
Henry A. Holle, M. D., Commissioner

Texas now has six stations operating in a gigantic, coast-to-coast air sampling network designed to measure the extent and type of air pollution at points of collection in American cities and towns.

There are now 110 stations located throughout the nation, 51 of them in comparatively remote non-urban areas, operating in cooperation with the U.S. Public Health Service. The Service provides the equipment, analyses, and reports on finding.

Texas stations are located in Dallas, Fort Worth, Austin, Houston, Port O'Conner, and Waco.

The stations work like this: Each is equipped with an improved, high-volume sampler, a small device which works like a vacuum cleaner. It draws air through a special glass fiber fil-

ter, which can easily be removed for analysis.

As air rushes through the filter pad, tiny particles of atmospheric matter adhere to it. After each 24 hours of operation, filters are removed and sent to network headquarters at the Robert A. Taft Engineering Center in Cincinnati, Ohio.

Analyses are made of chemical, physical, and radiological content of filters. State and local officials are informed of results so as to have a clearer picture of air pollution at collection points in their areas, and thus relate conditions to climate, geography, population densities, and industrial development.

The sampling stations are also capable of detecting radioactive fallout. "Fallout" is the name given to particles of matter, either from a bomb or other source in the air or from dust, earth, building material, or rocks atomized and made radioactive by exploding super weapons and sucked skyward by up-drafts. The particles eventually settle to earth, sometimes after having been wafted great distances at tremendous heights.

Texas air sampling stations also provide valuable experience in studying normal background radiation, such as that produced by cosmic and ultra-violet rays

to which the whole earth is constantly subjected.

Primarily, however, stations serve as general indicators of man-made air pollution, becoming more acute as technology advances.

Texas' industrial growth in the past 15 years has aroused interest in the problem. Industry itself is hard at work on a solution. One industry has already spent \$6 million to control pollution in and around its plants.

Before any state-wide effort can be made to finally end air pollution, we must know the type and extent of the threat. The air sampling stations are helping us find that answer.

Mr. and Mrs. Billy Bishop of Lubbock spent Christmas visiting here with her parents, Mr. and Mrs. C. M. Davis.

impossible to cross some of our streams.

"Therefore, a major objective, if elected to another term, will be to make every school bus and mail route road passable in any kind of weather. This, I believe, can be done without any increase in taxes.

"A continued program of Farm to Market and area roads is essential and also will be one of my major objectives. During my terms of office we have completed 45.62 miles of pavement. Another 11 miles is in the process of completion, while the appropriation for 12 more miles of road has been approved. This has meant the expenditure of more than \$50,000 for Farm to Market roads by Motley County. This has all been bought and paid for during the last 5 years.

"Thanks for all past favors. I shall always continue to work for the best interest of Motley County."

Week-end visitors in the home of Mrs. Velma Fulfer were her children, Mr. and Mrs. Elwyn Fulfer and family, and Mr. and Mrs. Gerald Leslie and baby, all of Lubbock.
