The regular use of sarcasm in conversation is a positive method of reducing friendships without effort, and with a dependable degree of finality.

When sunlight reflects against white clouds, and the endless sky is beyond, they might as well be ministers on a staircase that dreams could climb.

A gentle voice has as much charm as a pretty face and is remembered long and with pleasure.

When our smiles may be thin, and our eyes are about to announce its absence, or a phantom fear is haunting somewhere in the catacombs of thoughts.

Experience makes its detailed maps to locate the springs of pain in the headwaters of the river of despair, and marks the path back to the little valley of tranquility.

Being old is simply the consequence of being too healthy, and perhaps being happy too long.

Trying to conceal our weaknesses of character is about as frustrating as attempting to cover a horse with a saddle blanket.

Retirement becomes a problem for the man who has managed to reach the harvest years without ever accepting the necessity of work.

The quicker we acknowledge a mistake without attempting to justify it, so sooner its shadow is released to move away.

Motley - Dickens HD Encampment Held at Springs

The Motley-Dickens Counties Annual Encampment was hosted this year by the women of the Motley County Home Demonstration Clubs. Monday night after an invigorating swim, a picnic style supper was enjoyed by 20 adults and young people. Recreation and singing was then led by some of the 4-H members, Brigid Barton, Jeanette Day, Debra Garrison, Jan Higginbotham, and Debbie Smallwood. There were a staunch 12 women and young people who stayed, and camped overnight at the springs. Mrs. Maggie Hamilton was there before sunrise with some of the Matador women who didn't want to battle mosquitoes. Mrs. Hamilton had prepared an inspiring, beautiful devotional program held as the sun rose. The fresh air stimulated appetites and Mrs. Fred Bourland and Mrs. Wilson Barton prepared breakfast for a hungry crew. The crafts and skirts were held at the VFW hall in Matador all day Tuesday. Dickens County women brought materials to show how place mats could be woven of perforated plastic and yarn. The craft from Motley County was paper-mache jewelry. There were many colorful and attractive items made by the women. Mrs. Sam Ross was in charge of the arrangements for setting up the salad-lunch for the women.

Following the lunch and crafts, skits and games were presented by the clubs that were represented. There was a total of 32 women and members of their families attending the various events.

Mr. and Mrs. James Price and children, Morris, Krista, Paul and Scotty visited in Denver City during the week end with her sister and family. Mr. and Mrs. John Avara. They were accompanied home by Rex and Jeff Avara, and another nephew, Rodney Carpenter, of Elkhart, Kansas, who are visiting here this week.

BELETED GLORY - Joe Campbell above, holds the citation he received recently showing that he will receive the Bronze Star for action in the European Theatre of War during World War II. He was discharged 22 years ago. The Tribune has been informed this week that Gid Simpson has also received the same delayed honor. It is probable that other veterans in the area have recently received the Bronze Star Award.

Local Man is Stricken by Encephalitis

MATADOR resident Green Bostick, 77, was stricken by encephalitis (sleeping sickness) last week and taken to Methodist Hospital in Lubbock by a Seigler ambulance. After examination his condition was diagnosed as encephalitis. He suffered high fever, severe headache and a pulling of the muscles in his neck. His son, Lewis Bostick said yesterday that the type of sleeping sickness from which his father is suffering, is definitely the type carried by mosquitoes, according to his doctors.

Mr. Bostick had been working on his farm north of Dougherty as had been other members of the family but they had seen few mosquitoes. The number of mosquitoes here has been small. Doctors declare from seven to 14 days elapse before the victim is stricken after being bitten.

Roused From Coma - In a coma for three days, Mr. Bostick roused for a short time yesterday morning. Relatives declare that while his condition is considered grave, doctors give them some encouragement.

WTCC Seeking River of Water To West Texas

LOOKING to the future when more people will need food and fibre and available water will be lessened, the West Texas Chamber of Commerce is examining the proposed project of bringing a river of water to the more arid section.

The WTCC directors meeting held in Hereford Thursday and Friday directed much of its attention to discussion of the gigantic project. Bob Stanley of Matador, a member of the WTCC board of directors, accompanied by Mrs. Stanley, attended the meeting.

He said the plan is to bring a canal 200 feet wide and 40 feet deep a distance of 400 miles to West Texas. The water would start at Cooper, Texas (near Sulphur Springs) and be brought by means of great pumping stations to this area. Estimated cost is one billion, 600 million dollars. To avoid loss through seepage and to provide less maintenance, the canal would be lined with cement.

The organza ring silhouette was designed with a bateau neckline and long, sheer sleeves that tapered to the wrists. A garland of Venice lace floral motifs encircled the neckline and cascaded down the front of the gown in the hemline border of white satin. Re-embroidered daisy lace petals were sprinkled over the Venice lace motifs and skirt of the gown.

Her shoulder-length veil of illusion was attached to three white lace roses and lace petals outlined with pearls. She carried a cascade bouquet of white Phalaenopsis orchids and stephanotis on a tulle

Altar setting for the ceremony was an arch of greenery forming the background for the kneeling bench, and baskets of white gladioli and white stock, alternating with palms and candelabra. Floral bouquets marked the bridal aisle.

COUNTY AGENT PALLMEYER SAYS:

External parasites can greatly reduce the production efficiency of swine, and severe infestations may cause death. These troublesome insects can be controlled effectively through the proper use of insecticides.

Hog louse, a blood-sucking parasite, can cause serious loss of weight, poor utilization, and general unthriftiness. The hog louse reaches five to six mm. in length and is bluish-gray. They feed mainly on tender body areas.

Sarcoptic mange can result in a

Rains in late May produced the above view which is the first water to stand behind the terraces since completion. Terraces were constructed with Soil Conservation assistance through the Great Plains Conservation Service Program. A total of 220,728 feet of parallel terraces on eight different farms were constructed in Motley County this fall and spring.

loss of hair and the appearance of lesions. The mange is caused by a small yellowish mite scarcely visible to the naked eye.

Demodetic mange is not common, but may occur occasionally in some areas of Texas. This mange is a result of the hog follicle mite which causes small hard nodules that may grow to an inch in diameter and often rupture.

Since the screwworm eradication program in the Southwest, screwworm has not resulted in serious damage. However, swine producers should be alert for possible infestations.

For complete listing of insecticides and their recommended use for swine external parasite control, refer to the current issue of MP-691,

year with one having 70 entries. Firms or individuals are not limited on the number of entries.

A limited number of hybrids from the various Agriculture Experiment Stations are also included in the tests. These consist of grain sorghum hybrids from the grain sorghum breeding program directed by Darrell Rosenow, agronomist at the Center, and corn hybrids from the corn breeding program directed by Dr. Anton Bockholt, assistant professor with A&M's Department of Soil and Crop Sciences.

These and other researchers, along with county agents and local farmers, cooperate in conducting the test program at various locations. Data collected on grain sorghum include bloom date, height, head exertion, yield, test weight, lodging and disease reactions.

Data obtained from observational sites are available only to participating seed companies but that information from performance yield trials is published annually for use by farmers, seedsmen, seed dealers and other interested individuals.

Tentative dates for such publication is February 1 for High and Rolling Plains data.

Each performance trial must consist of at least three replications and five check varieties. Varieties are grouped by maturity with the original maturity designation provided by the entering seed company. However, the final decision regarding maturity designation is based on the actual maturity at the specific location. Field layout, plot size and shape and seeding rate are based upon generally accepted test procedures.

Areas for the grain sorghum performance trials in 1967 include Westlake, San Patricio County, Beville, Wharton County, College Station and Temple. Also McGregor, Collin County, Chiltonville, Lamesa, Lubbock, Stamford, Bushland, Runnels, Hall, Swisher and Parmer Counties. Both irrigated and dryland tests

are located at Lamesa, Lubbock and Bushland. Others irrigated tests on the High Plains are in Swisher and Parmer Counties and at Stratford.

Under the grain sorghum observation plantings general adaptation, head smut, resistance to birds and reaction to downy mildew will be checked at designated locations.

Fees paid by participating companies will be used for hiring additional personnel and for purchasing needed equipment. This approach represents a highly cooperative effort by the seed industry and Texas A&M to operate a quality statewide seed testing program.

As early as 1856, Horace Greeley sponsored a corn, growing contest for New York boys, a forerunner of 4-H Club contests. Rural school superintendents and college experiment stations promoted contests in crop production and soil testing in the early 1900's.

PUBLIC NOTICE

PROPOSED Constitutional Amendment NUMBER THREE ON THE BALLOT

HOUSE JOINT RESOLUTION No. 17 proposing an amendment to Section 49-b, Article III of the Constitution of Texas, so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans Land Board to Four Hundred Million Dollars (\$400,000,000) providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans Land Fund; and providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency and the State of Texas performing governmental duties which have been designated the Veterans Land Board. Said Board shall continue to function for the purposes specified in all of the prior Amendments to this Constitution except as modified herein. Said Board shall be composed of the Commissioner of the General Land Office and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in finances. One (1) such citizen member shall, with the advice and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner shall act as Chairman of said Board and shall be the administrator of the Veterans Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board and shall perform the same duties and powers that said Commissioner would have if present.

"The Veterans Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for not less than

par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such amounts as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and applied in the municipal bond market, of all the bonds issued and sold in any installment of any bonds may not exceed four percent (4%) per annum.

All bonds or obligations issued and sold hereunder shall, after execution by the Board, and registration by the Comptroller of Public Accounts of the State of Texas, be general obligations of the State of Texas. In order to prevent default of interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a preference shall be given to the purchase of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Fund. Said Veterans Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, and the proceeds thereof, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and the proceeds of any such bonds or obligations issued and sold by said Board which moneys so attributable to any bonds heretofore or hereafter issued and sold by said Board shall include but shall not be limited to the proceeds from the issuance and sale of such bonds; the moneys received from the sale or resale of any lands, or rights therein, purchased with such proceeds; the moneys received from the sale or resale of any lands, or rights therein, purchased with other moneys attributable to such bonds; the interest and penalties received from the sale or resale of such lands, or rights therein; the bonuses, rents, royalties, and any other pecuniary benefit received by said Board from any such lands; such moneys received by said Board for the failure of any bidder for the purchase of any such lands; and such moneys received from investments of any such moneys. The principal and

interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the moneys of said Fund in conformity with the constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of interest thereon, may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as is needed to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, after the payment of the principal and interest on the bonds secured by such Division which portion shall be set aside and remain a part of said Fund for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and interest thereon, together with the expenses herein authorized, of any other bonds heretofore or hereafter issued and sold by said Board; such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

"The Veterans Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired in the same manner as are purchased for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to veterans who served not less than ninety (90) continuous days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940, and the date of formal withdrawal of United States troops from the present armed conflict in Viet Nam, and who, upon the date of filing his or her application to purchase any such land is a citizen of the United States, or a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above named and who at the time of his or her enlistment, induction, commissioning, or draft, was a resident of the State of Texas, or who has resided in Texas at least five (5) years prior to the date of filing his or her application. The foregoing notwithstanding, any lands in the Veterans Land Fund which have been set aside for sale to veterans and which have not been sold may be sold or resold to such purchasers, and on such terms, and at such prices and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans Land Fund, to the extent of the moneys attributable to any bonds heretofore issued and sold by said Board, may be used by said Board, as is now or may hereafter be provided by law, for the purpose of paying the expenses of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold, or resold, by said Board; for the purpose of paying the expenses of issuing, selling, and delivering any such additional bonds; and for the purpose of meeting the interest or principal due or to become due on any such additional bonds.

"All of the moneys attributable to any series of bonds heretofore issued and sold by said Board (a series of bonds being all of the bonds issued and sold in a single transaction as a single installment of bonds) may be used for the purchase of lands as herein provided, for a period ending eight (8) years after the date of sale of such series of bonds; provided, however, that so much of such moneys as may be necessary to pay interest on bonds heretofore issued and sold shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the re-

quirement of any bonds hereafter issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys therein to retire all of the bonds heretofore issued and sold, at which time all such moneys then remaining a part of said Veterans Land Fund and thereafter becoming a part of said Fund shall be governed elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to effect a comprehensive treatment of the Veterans Land Program, there is hereby reposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption.

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 11, 1967, at which election all ballots shall have printed thereon the following:

"FOR the amendment to extend the Veterans Land Program by authorizing the sale of bonds to increase the Veterans Land Fund for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and the date of formal withdrawal of United States troops from the present armed conflict in Viet Nam, which amendment would amend Section 49-b, Article III of the Constitution of Texas, and provide for an additional \$200,000,000 in bonds, such funds to be expended in accordance with instructions and requirements that may be provided by law."

"AGAINST the amendment to extend the Veterans Land Program by authorizing the sale of bonds to increase the Veterans Land Fund for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and the date of formal withdrawal of United States troops from the present armed conflict in Viet Nam, which amendment would amend Section 49-b, Article III of the Constitution of Texas, and provide for an additional \$200,000,000 in bonds, such funds to be expended in accordance with instructions and requirements that may be provided by law."

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

Emphasis Placed On Alternating English Units in Nebraska Plan

(Third in a series concerning new methods in teaching English)

on uses of language (gestures, relationship of the speaker to the audience, where language gets its force, etc.), and a unit on dialects (regional and social variations in language).

Finish Formal Study

When the students complete their junior high grades, they finish their formal study of language. In grades 10, 11 and 12 language is merged into composition with four main objectives: (1) to introduce the oral and written possibilities of the sentence; (2) to inculcate the principle of revision in good writing; (3) to suggest what to look for in revising writing; and (4) to demonstrate and give practice in some techniques of revision.

There are three basic themes or ideas of literature that will be studied in the senior high school. They are: (1) literature perspectives and tragedy; (2) American themes and genres; (3) English themes and genres.

In articles of this type it is necessary to give basic information that appears to be the ultimate in

"Dullesville" as your teenager would say, but the program is everything but that. It is a whole, new and exciting approach to the study of English that makes sense! The literature to be read is high in interest at every grade level.

The study of grammar is not a memorizing of useless definitions but a logical, down-to-earth procedure. For example, the study of word endings can help determine the part of speech of a word; ending, for verbs; ly for adverbs; s, 's, for nouns.

The location of a word in a sentence can help determine the part of speech in most instances. Adjectives precede nouns, adverbs appear before or after verbs and adjectives that they modify. With just these basic ideas, try your hand at naming the parts of speech of the nonsense words in the following sentence: The foim squiggles glookky frazzled the animos.

How can you miss? Next year study along with your youngster. He'll have fun and who knows? Maybe an old dog can learn some new tricks, too!

(Further information regarding the new English program will appear in a subsequent article after the Nebraska plan is put into practice.)

CARD OF THANKS
It is our wish that everyone who expressed sympathy and helped in any way during our time of bereavement, should know of our profound gratitude, and we take this means to express our appreciation for your cards and other messages, lovely floral offerings, visits, and food prepared for us. We wish especially to thank our neighbors for their faithful assistance during the illness and at the death of our loved one. May God bless each of you who remembered us in any way.

My grateful thanks to my friends and neighbors for their cards, visits and other kindnesses while I was hospitalized at the Plainview Nichols Clinic, and since my return home. Your thoughtfulness was most appreciated. May God bless you.

CARD OF THANKS

It is impossible to express in words, the thanks and gratitude we feel in our hearts toward the people everywhere, for words of kindness and sympathy shown to us during the terrible accident and loss of our dear wife, mother and grandmother. Without the prayers of our friends, it would have been almost too hard to bear. May God bless everyone who had a part in ministering to us, is our prayer.

Ben Davidson and Mr. and Mrs. Glen Bailey and Family. (2)
