Far below the circling plane the lights of Guatemala City, read like a storeroom of sparkling jewels over the high untamed mesa. Stars of the pinto seemed to merge with more distant lights that fled into long valleys until horizon vanished. The plane descended quickly and was silent as a weary bird as passengers luggage streamed into the port. Near the entrance and le from the crowded custom connection office, the little woman stood. She was old and her face was lined like carved leather. Her hands were thin and aged; her small sharp eyes were looking rapidly at the passers and there was a hushed air about her.

A tall youth stepped out of the crowd. He lifted the little woman and might have lifted a bird, he lowered her until her feet were again on the mar-floer. They talked hurriedly and she smiled often, then advanced and the youth held her hand and shouted to custom. Inspector. A large die sailed overhead and the he caught it. He waved again the custom man and they were gone. The old woman and son, holding the bundle between them, stepped into the race of heady Guatemalan. They shunned the taxi cabs that would cost precious zals; they looked at each other and laughed. The need of money is so frequently estimated and so constantly believed that it is easy to find an ingredient in the formula of happiness.

History is strewn with the ched bones of all-but-forgotten leaders who imposed their laws upon their subjects, kept for themselves so much that it became a curse. A king star and a mad man possess freedom without a hint.

Political virus responds to one treatment, doctor voter the sharp ballot needle.

The best authority says ignorance is not contagious, but its points to more research, there are so many of us careless.

Any other great discoveries have bloomed suddenly out of barren soil of despondency, and I know I share the less joy of other men who led until bronze statues were led in their honor. It was so that I wonder the Russian had not developed it in time, altho the vast quantity of my plan requires might have been an item to Russian. I propose to make all plump ladies in our country joy and satisfied. No diets, no pills, no exercises and no sizing hunger. In fact they have to do anything except be friendly (and not envy lean girls). The vast rest, the soulful eyes that in pools of misery when led toward whipped cream they touch a butter knife, as that he about the verdict scales, will all pass like the uns of a starving man left in a cafeteria in the e. All women being of the lines will be free and without envy. Men, seeing women alike as far as girth is concerned, will not be enthusiastic, their position in the matter of important. Confesses Matador Burglary

Police department at Bonham, Texas yesterday advised Matador officers that a youth arrested there, Andrew Walls, 18, had confessed to burglarizing Campbell Chevrolet Company here on the night of February 9th.

The youth admitted he had obtained \$143 and two revolvers from the safe which had been left unlocked. He said he used a crow-bar to take out a window in gaining entrance.

County Attorney Howard Tra-week said last night that he talked with police officers in Bonham and they declared the youth had made a signed confession. He said a warrant for the charge here had been issued through his office.

Sheriff John Stotts is in California at present returning a prisoner from Los Angeles wanted here on forgery charges. He is expected to return today.

Writer Discloses Impressive Facts

Sunday School Proves Great Value To Youth

Children who attend Sunday school are never enrolled in Texas crime reform schools. The disclosure was made Thursday afternoon by Lewis Nordyke, famous writer and reporter of Amarillo, guest speaker before Matador El Progreso club meeting in the Fleming Post Legion lounge.

Speaking from a depth of experience and study the distinguished visitor declared that if the economic factor alone was involved, it would be far cheaper for the state to prevent a criminal than to attempt to correct one after he has become entangled with the law.

Appointed last year to the Texas Youth Development Council, Nordyke is an authority on youth problems. One of the nation's leading writers, appearing in a score of articles in Saturday Evening Post, Reader's Digest and other magazines, he was for two years Associated Press writer covering the Huntsville prison system. Veteran news writer, he has made a searching study of penal institutions. He said 52% of the inmates in Huntsville had previously been in institutions of youth crime correction.

"Many of you have probably felt discouraged at times in teaching Sunday school classes," he said, "and perhaps you will find encouragement in this information: as far as I was able to trace records and by talking to juvenile inmates, none had attended Sunday school. The influence of religious training is evident."

Nordyke deplored the conditions in Texas schools of correction with regard to teaching. "There is not an instructor in the schools that you would employ as a janitor in your school system," he declared, "the youngest teacher in one school which I visited was 70 years of age."

Present Method Expensive
"Our present method of dealing with juvenile crime is expensive (continued on back page)

The class meets at 7 p. m. each Thursday.

Superintendent Bert Ezzell declared requirements for enrollment are college training and six hours of education.

A total of 24 teachers enrolled for the first class, representing Spur, Paducah, Turkey, Flomot, Roaring Springs, Floydada, Matador and other schools.

Childress Man's Nose, Cut Off In Wreck, Sewed On

Judge C. W. Giesecke, Jr. and Albert Reeves were injured early Saturday afternoon when their car (Judge Giesecke's) struck the back of a pickup truck driven by Garland Rattan just east of Ballard creek on U. S. Highway 70, about 1:30 p. m. Mr. Reeves was knocked unconscious in the accident and Judge Giesecke suffered slight bruises and shock. Damage to the 1949 Ford automobile were estimated at about \$400.

The two men had started to Paducah during the slight drizzle which had made the roads slippery. Beyond the Ballard creek bridge and plowed into guardrail posts shattering the windshield. The driver, W. S. Melton of Childress, was standing by the side of the road, blood streaming down his face. The two Matador men turned to look, or stop when their car struck the Rattan pickup.

When Melton was examined at Stanley Clinic here it was discovered the end of his nose had been sheared off by the windshield of his car. Deputy Sheriff Jinks Wilson hurried back to the scene of the accident and found the missing portion of the man's nose. Doctors J. S. Stanley and Bruce W. Spencer were hopeful that the nose portion, sewed back in place, might be restored to its original shape.

Neither of the Matador men received serious injuries. Total rainfall registered in Matador during the slight precipitation was .05-inch.

Report For 1949 Made By Chest

Complete report of 1949 Matador Community Chest activities (as of December 31) has been received and shows detailed account of every dollar distributed during the first year of the organization's operation in this community.

Total amount collected through cash donations and pledges was \$2,524.85. Cash in bank (\$5 deferred charge and \$7 account receivable) was \$534.06. Expended funds included: American Cancer Society \$150, Crippled Children's fund \$115, Salvation Army \$40, Girls club \$262.50, Boy's club \$487.50, Girl Scouts \$150, Boy Scouts \$280, local contributions \$612.45, postage \$3, record book and filler \$12, printing and stationery \$38.18 and miscellaneous \$25.

Of the amount to local contributions, items are as follows: (NOTE—names are omitted for obvious reasons, but are on record for each disbursement.) Operation \$50, clothing \$11.92, fire \$42.57, funeral \$35.50, cot and clothing \$8.06, hospital bill \$50, hospital bill \$50, clothing \$18.36, on operation bill \$25, family burned \$25, total \$417.41.

J. E. Edwards, 1950 chairman of the Community Chest said the current drive is still far short of the goal.

All officers in the organization serve without pay. Each case is carefully examined by a board of local citizens before any cash disbursements in the budget are set by the budget committee after requirements are carefully screened. Community Chest is merely an organization of the citizens of a community or area (Matador Community Chest area is defined by the boundary of the Matador school district) to provide an orderly and systematic method of contributing to worthy charity for an entire year through one annual donation.

Program Change Fails To Dim Success Of Meeting

Professor A. F. Edwards of Midwestern University (formerly Hardin college) of Wichita Falls, was the principal speaker Thursday night at the 13th annual Father-Son banquet held in the First Baptist church basement.

Professor Edwards, a familiar voice in this area because he has been a news and trends commentator on radio station KWTW Wichita Falls, since it began broadcasting, substituted for Dr. James E. Boren, president of the university, who couldn't appear because of illness in his family.

One of the largest groups of fathers and sons ever assembled since organization of the annual meetings by the late Lt. Paul Eubank, enjoyed the excellent barbecued beef and ranch-style fare, and specially arranged program.

Traditional flowers contributed by Lt. Eubank's parents, Mr. and Mrs. C. E. Eubank of Dallas, were arranged at the table of honor.

Unusual music treat (not arranged on the original program) was presented the appreciative

audience. Mr. and Mrs. Frederic Balazs, also teachers in the university provided the musical "dessert". Mrs. Balazs accompanying the violin in her talented husband's hands, on the piano. Mr. Balazs was born in a country now behind the "iron curtain", but is now a citizen of the United States, "and more than that", he declared, "I am a Texan—it takes a Texan to live with an 'Oakley', pointing to his wife, Calvin Hansen, also a teacher in the university, served as driver for the group.

"Don't Cross Controls"
Surveying briefly the world's great social, political, educational and religious problems, Professor Edwards advised his listeners not to cross the controls (term used in flying). He said more money was being spent in the nation for tobacco and alcohol.

Girls Cage Team Wins 9 In Line

Some mighty impressive basketball is being played by Matador high school girls who late yesterday went into the district tournament at Spur, scheduled to tangle with the strong Wichita county Valley View team. (Due to advanced press time the Tribune is scheduled to be printed before reports of the game are available.)

Despite the loss of most of last year's regulars the Matador club has made an impressive record this season. Led by seniors Joyce Reynolds, Pauline Blevins, Bonnie Hughes and Wanda Graham, the girls have won 14 games while losing only five. Last week a 32-14 win over Flomot gave them nine straight victories. The previous week-end they won the Flomot tournament by an impressive margin, defeating Flomot, Turkey and Silverton.

Since the tournament the girls have won over Roaring Springs 35-15, over Ralls 13-14 and Crosbyton 33-22.

"If you choose to elect me again to fill this office of honor and trust, I pledge you a continuation of my policy of fair and impartial treatment to everyone. Wave of Flu May Shutdown School

Grave fears were expressed yesterday by officials that above normal absenteeism on account of influenza may cause Matador schools to close in order to avoid conflict with the new Gilmer-Aiken law under which finances are allocated.

Superintendent Bert Ezzell declared absentees from Thursday were 46, Friday 38, Monday 69, Tuesday 40 and yesterday 47. He said last night that the position of the school is still critical with reference to the penalties assessed for absenteeism beyond a normal allowable. Mr. Ezzell expressed hope, however, that the influenza wave would pass without the extreme measure of closing the schools becoming necessary.

NO WEAR REGISTERED AFTER MOTORS ARE RUN 50,000 MILES

CONOCO INTRODUCES NEW OIL WHICH "STOPS WEAR BEFORE IT STARTS"; PRODUCT OF 8 YEARS LABORATORY RESEARCH

Continental Oil Company has announced development of a new motor oil which is the result of more than eight years' laboratory research, two winners of testing in Montana and Colorado, and a 50,000-mile road run in temperatures that ranged as high as 110 degrees in the shade.

The new product was made available to the public February 15 throughout the company's trade outlets, according to L. F. McCollum, president.

The oil, McCollum said, marks another step forward in methods pioneered and developed by Continental to use additives in mineral oils to increase effectiveness against wear and assure longer life for automobile engines. It is called Conoco Super Motor Oil.

The spectacular road test, conducted in the summer of 1949 on the Mexican border, showed that the new oil virtually stops wear before it starts," McCollum stated. "In fact, by measurement with highly sensitive instruments, wear was an average of less than one one-thousandth of an inch on cylinders and crankshafts. Original machining marks were still visible on cylinders and piston rings.

In a 70-day road test, six cars and four trucks piled up a combined mileage of a half-million miles at an average speed of 60 miles an hour by the cars, and 50 miles per hour by the trucks," McCollum continued. "The cars traveled 800 miles a day and the trucks 690 miles daily, six days a week until each hit the 50,000 mile mark. This distance is equal to five years' mileage for the average family car.

The severe road test was made under observation of the Southwest Research Institute of San Antonio, Texas. It was supervised by Norman Penfold, of the Institute, acknowledged as an outstanding independent authority on oil testing. The cars and trucks were given proper drains and regular care while on the run.

An All Electric Kitchen saves you time, money and work

When a Kitchen is Practical and Pretty of Course, It's Electric!

When all of your appliances are electric it costs less to use them than when you have a combination of services. That's because each time you take another step towards an all-electric kitchen you also step down the cost of each unit of electric service. The more you use the lower the rate. Yes, an all-electric kitchen is easier, cleaner, cooler, and costs less!

AN ALL ELECTRIC KITCHEN INCLUDES:

- Cooking Center:** The Electric Range automatically provides the exact cooking temperature needed. Surrounding work surfaces and storage cabinets keep cooking utensils and food supplies within arm's reach.
- Dishwashing Center:** Ample work space for stacking used dishes and cooking utensils. The Electric Dish-washer handles hot only dishes and silverware. Hot pots and pans as well—washes them shining clean, and dries them without wiping.
- Refrigeration Center:** The Electric Refrigerator provides ample food storage, and large freezing capacity. Adjacent work surfaces provide space for food preparation.
- Adequate Wiring:** This simply means: 1. Large enough electric wire, 2. Enough circuits, 3. Plenty of outlets and switches.

Sweethearts Hear Timely Message By Wayland Professor

"Talents and privileges not used are lost", declared Dr. R. H. Falwell, Jr., director of religious activities at Wayland College, Plainview, in an address Tuesday night before the young people of the Baptist church and their guests at an annual "Sweetheart" banquet sponsored by the Women's Missionary Society.

In an easy, friendly manner,

young Dr. Falwell won the hearts of his listeners and received their undivided attention as he outlined for them, the right standards for conduct among young people. "If you look for purity in your companions—then be that kind of person yourself", he advised his audience. "We are prone to abuse our privileges, because we are allowed unlimited freedom... be on guard therefore, not to throw away your most precious possession—your character. You are responsible to God—and to yourself for your actions... and God rewards us when we hold to the highest standards of com-

mon honesty. I would urge you to fall in love with Christ... take God into your lives, and seek his guidance as you seek your companion for life."

Mrs. Forrest Campbell, president of the W. M. S. was toastmistress of the program, introducing the following, in order of their appearance: Invocation, Rev. Clifford Potts; solo, Miss Dorothy Rattan, accompanied by Miss Rachel Patton at the piano; Crowning of banquet sweetheart, Miss Betty Ruth Smalley, elected to the honor by secret ballot; Introduction of speaker, Rev. Potts; Address, Dr. R. H. Falwell, Jr.; benediction, Mrs. Ben Meador. Piano music throughout the dinner was played by Miss Patton, who also played organ music in the church auditorium as the guests assembled.

The delicious menu, consisting of ham loaf, green beans, buttered potatoes, pineapple salad, pulled pork, cherry pie, onion and coffee, was prepared and served by members of the W. M. S. to approximately forty-five young people and guests.

Among numerous other original designs are Easter Parade, October Leaves, Virginia, Pansy, Water Lily, and Magnolia.

Not all of the customers are women, according to the craftswomen. Several men are regular customers and some of them are more discriminating than most women about color and design in rugs.

Custom made designs are often called for using English hunting scenes, College monograms, Masonic emblems and script initials.

The two partners have 55 subscribers to their Pattern of the Month Club in which each member receives a monthly letter containing the newest pattern of the studio.

The Amarillo Chamber of Commerce plans to sponsor a rug hooking school there soon, and Artcraft designs will be used. A New York shop "America House" recommends the Longview studio, too.

Mrs. Scroggins and Mrs. Ferrell grew up within 20 miles of each other in the Texas Panhandle and met in Longview. Before they converted their hobby into a business two and half years ago, Mrs. Scroggins worked with textile colors, stage scenery painting and other creative work and Mrs. Ferrell specialized in oil and china painting.

With the exception of work done by two colored women who cut wool and sew burlap all work is done by Mesdames Ferrell and Scroggins.

Tea In Keltz Home Observes Two Events

A tea Friday afternoon, February 3 in the home of Mr. and Mrs. Ben Keltz observed two events in the family, being their wedding anniversary and the birthday of one of their daughters, Mrs. Harold Campbell.

Another daughter, Mrs. J. E. Edwards, assisted her mother and sister as hostess for the occasion. Featuring a Valentine motif, a crystal-clear plastic "tree", decorated with silver hearts formed the centerpiece for the dining table, which was laid with an Italian cutwork linen cloth.

Antique candle holders contained white candles. Cookies and sandwiches were served, and presiding at the

silver tea and coffee services were Mesdames Dick Groves and R. E. Donovan; and Mesdames Robert Darsey and Bess Patton. Mrs. Howe Hines also assisted with hospitalities. Approximately seventy-five guests called between 4 and 6 o'clock.

50,000 Miles - No Wear!

1. Driven "Twice Around the World!" For 50,000 killing miles, six brand-new cars raced over the hot desert along the Mexican border... testing the wear-fighting qualities of amazing Conoco Super Motor Oil. At the end of 50,000 miles of continuous driving, engines showed no wear of any consequence... in fact, an average of less than one one-thousandth of an inch on cylinders and crankshafts. Startling proof—factory finishing marks were still visible on piston rings!

2. New-Car Mileage for 5 Years! This punishing road test—equal to 5 years' normal mileage—proved, as nothing else could, that Conoco Super Motor Oil, with proper crankcase drains and regular care, can keep your new car new! Gasoline mileage for the last 5,000 miles of the test was as good as for the first 5,000 miles... actually there was an average difference for the fleet of only 4/100 of a mile per gallon!

3. New-Car Power! Quicker Starts! Yes—the extra protection of Conoco Super Motor Oil keeps that factory flash... that showroom smoothness... year after year after year! Conoco Super Motor Oil's exclusive ability to OIL-PLATE metal surfaces makes your engine last longer, perform better, use less gasoline and oil! Conoco Super Motor Oil virtually stops wear before it starts... keeps your engine new and clean. Conoco Super Motor Oil has proved itself to be the great new modern wear-fighter!

GUESS WHO

He is a tall, dark, handsome junior boy. A very popular boy with one certain gal and would really be popular with the other girls if this certain little Sophomore would let him. He is a very good football player and a grand sport too. Always laughing and cutting up. I hear that he has his fun in the class room too. He has brown eyes, brown hair, and is about 6 ft. Usually riding around in a certain red pickup with a girl. Intends to graduate some day, but don't know exactly when. Well, yes that is he, if you have guessed that cookies of M.H.S.—Nevada Cook.

—M. H. S.—

Life's Greatest Mysteries

How Billy Paul gets the pickup all the time?
Why Mr. Gilbreath worries about the Seniors, and if they will graduate this year?

Why Coach worries about all his basketball games and especially if they are just getting back from these Ft. Worth trips.
Why Joyce is always worrying when a certain Senior boy forgets to come to school.

Why Wanda likes these telephone calls.
Why Jimmie is so sweet to Bob?

Why we have so many redheads in M. H. S.

Why Marlene likes riding in a certain Ford.

Why the basketball girls are always getting caught breaking training?
Who Fred Stanley wants to go with.

Why we can't listen to the radio in Home Economics?

holic beverages than is being spent for schools and churches and he declared many of the professions do not pay sufficient salaries.

"We may be on the brink of destruction," Professor Edwards declared, "but I am not greatly alarmed. The nations of the world must have the cooperation of each other. . . they can no more live alone than a man can successfully live alone. . . war is suicide and no one wins."

Professor Edwards told the young listeners in his audience that they owed a debt of gratitude to their parents "and you are beside your best friend," he said, indicating the fathers. He paid tribute to the new courthouse, beautiful churches, schools, and homes of Matador, telling his boy-listeners of their good fortune in living in such a clean, modern and wholesome community.

Touching briefly on taxation, Professor Edwards declared, "I receive as much or more for my tax dollar as any money I spend."

Roy Taylor, a member of the Matador Boy Scout Troop 80 was toastmaster at the banquet. Lion J. R. Whitworth led group singing, and Lions Sweetheart Miss Rachel Patton provided organ accompaniment in the church auditorium. Lion Tamer Glenn Woodruff introduced the guests.

Special enjoyable feature of the banquet in the church basement was piano music during the meal by talented Frank Traweck, son of Dr. and Mrs. A. C. Traweck, Jr.

Descendants of pioneers Mr. and Mrs. T. N. Cammack, Miss Rosa Cammack, Mr. and Mrs. J. N. Burleson and Mrs. Etta Anderson, sat in a group as the pastor, Rev. Clifford Potts delivered an inspiring message on "Heroes of the faith".

V. A. Rattan, whose father, the late W. H. Rattan was one of the early pastors of the church, unveiled a large picture composed of individual pictures of the charter members. He also named the eighteen pastors who have served this church, beginning with Rev. J. C. Powers. Others included W. H. Rattan, G. I. Brittain, R. L. Robertson, J. R. Hicks, Williamson, J. R. Balch, Garrett, B. N. Shepherd, Johnson, Johnston, K. F. Keller, A. L. Jordan, H. M. Weldon, W. M. Joslin, M. B. Carroll, H. G. Verner, and Clifford Potts.

The airman looked down disconsolately from the tangle of his parachute in the tree. "And I was trying to make a record," he complained. Mr. Nordyke was introduced by Mayor Douglas Meador. Mrs. Frank Pohl presided at the business session which preceded the program announced by Mrs. J. E. Edwards, leader.

"The great trouble is that they are not improved when released. The whole process must be repeated in most cases. The reform schools are no better. They seem to be merely schools where we harden and educate future criminals to prey upon society. We are making a study of plans being used by other states to great success, especially California.

"We have found that in many instances some physical defect which poverty may have failed to permit correcting, has been the direct cause of the youth becoming a menace and later a burden to society.

"Ours is an immense job and we have not found all the answers. We are trying. I don't want you to receive the impression that we can help all youth in the reform schools. Some of them are criminals and fail to respond in any way to any improvement in their condition which we have attempted."
