More about Cyd Charisse: The famous Hollywood beauty visited at Flomot once upon a time, in the middle '20's... in the H. H. Tanner home... when she was a small girl. Her mother, Mrs. Leola (Norwood) Finklea, and the late Mrs. Rosie Tanner were first cousins. Two of the Tanner daughters, Mrs. James Monk and Mrs. Bernice Gates still live at Flomot, and remember with amusement, how much explaining they did to the young Finkleas (Cyd and her brother) about life on a farm.

MRS. FAIR, LUCRETIA EDWARDS SELECTED TO EVALUATE STATE DEGREE FHA APPLICATIONS

Mrs. A. L. Fair, Homemaking teacher, and Miss Lucretia Edwards, daughter of Mr. and Mrs. Ben Edwards, one of the three who received their State Degrees last year, will meet in Plainview High School, March 24th, with other teachers and candidates from Area 1 schools, to evaluate the applications for the State Degrees in the Future Homemakers of America Organizations.

The girls working for their State Degree this year are the following: Rose Carolyn Donovan, daughter of Mrs. Hazel

Donovan; Joanne Darsey, daughter of Mr. and Mrs. Robert Darsey; Raynita Dunning, daughter of Mr. and Mrs. Bill Dunning; Christene Green, daughter of Mr. and Mrs. Jack Green; Sue McCaghren, daughter of Mr. and Mrs. Bill McCaghren, and Bobi Waybourn, daughter of Mr. and Mrs. Gerald Waybourn.

High School News

Last week and this week everyone has been rushing around trying to meet the deadline for their term themes.

The Freshmen are looking forward to their educational trip to Roaring Springs this spring. This is their reward for winning the "Queen's Race."

The Home Ec. girls should be stepping out in new spring frocks soon. That is, if they wear the ones they have just about finished. Their motto is: "Just as ye sew, so shall ye rip."

The Agriculture boys are still pruning trees. There haven't been any serious injuries to boys or trees yet, however, they certainly have changed the looks of the old M. H. S. campus.

Speaking of Agriculture, the Junior boys set a record this week by butchering eight hogs in two hours.

The Choral Club is preparing to go to Levelland, Saturday, March 24, to sing at the Inter-scholastic League. They are very good and we are expecting the girls to make top rating on their songs.

Spring Clean Up Safeguards Health Commissioner Says

AUSTIN—Spring and clean up time are with us, and Dr. Henry A. Hollis, Commissioner of Health, urges all good citizens of the State to join in an effort to make each community a better and safer place in which to live.

One benefit of cleaning up is the elimination of fire hazards which cause a heavy toll of life and property. This can be done by keeping premises free from inflammable rubbish.

Flies also breed in trash and filth and spread disease. Each

residence should have a metal garbage can with a tight-fitting lid. The three known methods of getting rid of flies are screening, keeping premises clean and the use of insecticides.

The rat is a menace to public health and is capable of spreading several diseases. He is fond of making his home in dead spaces or holes around porches and walks. Rats cause trouble by eating and contaminating large quantities of grain and other foods, destroying property and are sometimes the cause of fires.

When cleaning up your premises take a look at the following:

Garbage pail—is it a metal one with a tight-fitting lid?

Porch steps—do they need repairing or painting?

Closets and attic—do they need repairing or painting?

Cellar—is it rat-proof and clear of rubbish?

Screens—are any of them broken? Remember, flies make an entrance this time of year.

House—is it soap-and-water clean inside, and painted outside?

Yard and garage—has all trash been removed, and tools hung in safe places?

1,874,027 People Did Not Die!

Fifteen years ago, before the wonder drugs were discovered, death claimed 10.8 out of every 1,000 people in the U. S. But today, the death rate is down to 9.2 per 1,000 people — the lowest in history. This means that 1,874,027 people DID NOT DIE in the past 15 years — thanks to the antibiotics, the hormones, and other miracle prescriptions which are now available, that's why we say:

Announcement of Change in Business Ownership ...

After operating the Magnolia Service Station here for the past 16 months, I have sold the enterprise to T. J. Daffern, local Magnolia Petroleum Company agent, and take this means of expressing my thanks to friends and customers.

It has been a pleasure to serve the motoring public during the period I have operated the station, and I solicit my friends and customers to extend their patronage to my successor. I want to assure them that the policy will be maintained and that their patronage will be highly appreciated.

Again I want to express my thanks to everyone for the many courtesies that I have received.

LOYD LATIMER

In the purchase of the Magnolia Service Station from Loyd Latimer, I want to assure friends and customers of the business that the same policy of operation will be maintained and that we will appreciate their continued patronage.

Except for the change in management, no other personnel changes are anticipated, with Ned Shanks and Bill Morris continuing in the service department. We will continue to offer washing and greasing service, a complete stock of Magnolia lubricants and tire repair service.

We appreciate the fine spirit of loyalty this station has always enjoyed and hope to warrant its continuation.

T. J. DAFFERN
