NO. 52

THE COUNTRY
WHERE LIFE
IS BETTER

VOLUME NO. 6

Trail Dust

A. C. (Dick) Hyatt, editor of the Ralls Banner and Texas Spur, finished the 30th of that copy we call the silent press-room of eternity. Beyond reams of unprinted paper, cold Linotypes, gleaming press disc, past empty copy hooks and on into an office. Above the clean desk hangs a calendar that has no Thursdays.

Dick Hyatt was an editor at six. He had known human nature in its best and worst as it paraded through the columns of his papers and into his offices. He had viewed life as an unbroken chain of pictures, comedy, tragedy, love, hate, truth and deceit. He wrote the life stories of his characters, the people he met as they themselves enacted their lives. He eulogized their successes and goodness and covered their failures and sins.

Perhaps no man in his community more sincerely interested in progress. Perhaps no man in his community desired as much as he to be of service to the people in service alone can a country newspaper editor be successful, as Dick Hyatt.

Readers of Western and Cowboy stories whose knowledge of the true character is limited to what they read, would doubtless be disillusioned, should I, some Saturday night say, "There is a real cowboy" in New York, Chicago or Los Angeles, his dress, appearance, vocabulary and enunciation would be no different than that of a sophisticated, and highly successful young business man. Incidentally, he has worked on a ranch all his life.

Last week a friend said, "An old man is a lot of trouble but I never want to be without one again, unless, of course, I am able to buy a new one. Besides being a lot of trouble they are a great expense that I can ill afford, but they give much pleasure and earn profit in return. If you haven't tried it, you can hardly get along without an automobile of some kind now."

Nothing, perhaps, has added more to human pleasure than the automobile. It is almost as essential today as shelter for a man and his family. Its cost burdened with unreasonable and unjust taxes, places the man who owns one as a slave for a machine. Yet it's worth it.

A PRAYER

Give me work to do.
Give me health;
Give me joy in simple things.
Give me an eye for beauty,
A tongue for truth,
A heart that loves,
A mind that reasons,
A sympathy that understands,
Give me neither malice nor envy,
But a true kindness
And a noble common sense.
As the close of each day,
Give me a book,
And a friend with whom
I can be silent.

—Arthur Unknown

Walter Keahey Says News Papers Mis-state Spur Feeding Test of Cotton Seed Products

Quannah Cotton Oil Co. Local Agent Warns Feeders

Since an experiment was conducted at Spur last year in feeding cottonseed to cattle in the feed lot, some of the results of the feeding tests were incorrectly reported to the newspapers of Texas, according to Mr. Walter Keahey. In discussing the Spur experiments, Mr. J. M. Jones, Chief of the Division of Animal Husbandry, College Station, says:

"Relative to the feeding test recently completed at Spur, I wish to state that we have drawn no conclusions based on this one trial. This test did show that steers fed a moderate amount of cottonseed (in this instance about 4 pounds per head per day) as a supplement to ground milo heads, will put on a fairly satisfactory finish." Mr. Jones goes on to say: "On the basis of gains and amounts of cottonseed and cottonseed meal used, we estimate that one pound of cottonseed under the conditions of this test was worth around 0.6 pound cottonseed meal. In other words, one ton of seed was worth about the same for fattening purposes as 1200 pounds of cottonseed meal."

The results of the Spur experiment were given wide publicity, because the gains on cottonseed were unexpected and unusual. This publicity may result in some very costly experience to farmers and feeders unless they get some additional information about how the cottonseed and ground milo heads were used.

Mr. Keahey reports that he is now swapping considerable meal and hulls and cake for cottonseed, in spite of the fact that a big feed crop has been grown in this section this year.

A TEXAS HIGHWAY PRIMER FOR BUSY MOTORIST

Motorists want good roads. Motorists pay the gasoline tax. The gasoline tax was designed to pay for good roads.

Today only one-half the gasoline tax goes to roads. The other half pays for schools and refunds county bonds.

Motorists still pay all the gasoline tax. The average motorist pays \$27.80 a year in gas tax. This is three times his auto license fee.

The motorist pays more taxes, and gets fewer new roads, each year.

In four years, gas tax revenue has increased 100 per cent. In three years, the amount spent on roads has decreased 45 per cent, and the amount for new roads has decreased 56 per cent.

Texas spent 33 million dollars on roads in 1930. This has decreased steadily since until—

In 1933 it will have but 18 million for roads, if present funds are undisturbed.

Yet State Representative Morrison has a bill to reduce the amount to 14 million, and State Representative Reed has a bill to reduce it to 11 million.

But it costs 11 million a year to

NEGRO BATTLE ROYAL FEATURE BOX SUPPER ATHLETIC FUND EVENT

DUSKY BOYS BATTLE AS AUDIENCE GETS TRIPLE VALUE

A Box Supper held in the High School auditorium Friday, had as added value for admission charges, a battle royal of three negro men and a five-round bout between two negro boys.

About twenty boxes filled with delicacies were auctioned off, from which a sizeable sum was realized.

The entire proceeds of the sale was applied to the equipment account of the High School Athletic Association.

TEXAS AND CALIFORNIA

In 1925 the 132 counties in West Texas had 13,233,327 acres planted in crops; value of the production of that year from that acreage was \$323,574,743.

The same report of the United States census of agriculture gave California credit for having 8,401,342 acres in crop lands for 1925 and showed the value of production as \$154,888,599.

Comparing the production of the crop lands in the two states on an acre-per-acre basis, it is disclosed that West Texas crops were worth \$23.73 per acre, while the corresponding value of the same item for California was \$19.63.

The total areas of the two regions are approximately the same, California having around 99,000,000 acres and West Texas about 100,000,000.—West Texas Today.

maintain our 19,000 miles of highways. Texas, remember, is four times as large as all the New England States combined.

Texas motorists would continue to pay as much gas tax as ever but—

The Reed bill would not permit a single mile of new roads.

The Morrison bill would leave only 3 million for good roads, plus equal federal aid.

Present funds will permit 7 million's worth, and equal federal aid.

A million dollars will buy from 50 to 100 miles of modern road and there 9,000 miles of unpaved "key roads" in Texas.

For comparison, 21 million were spent on new roads in 1930, 19 million in '31 and 17 million in '32.

Texas already takes away from its motorists more of their road money, for non road purposes, than any other state.

The Texas Good Roads Association, a new state-wide organization to protect Texas highways, believes the motorist has become the tax "goat". It is not seeking a lower gas tax, nor does it wish to take gas-tax money away from any agency now receiving it.

But it does contend that the state owes an obligation to the motorist who pays this road-money—that the highways now carry enough burden—and that no more of this money should be taken away from roads for any other purpose.

VETERAN SPUR EDITOR DIES OF HEART ATTACK

EDITOR OF NEWSPAPER AT AT AGE OF SIXTEEN

A. C. Hyatt, age 43, editor and publisher of the Ralls Banner, Ralls, and the Texas Spur, died at his home in Ralls about eleven o'clock Tuesday night, Feb. 21, from a heart attack. Although he had been ill for several days, his condition was not believed to be critical.

Although only 43 years of age, Mr. Hyatt, familiarly known as Dick, was a veteran newspaper man, having started his newspaper work when only sixteen years of age, as editor of a paper at Bellevue. He had edited papers at Bellevue, Harold, Dickens, Ralls and Spur.

He was prominently identified with business and civic affairs of Ralls where he had made his home for a number of years.

He is survived by his wife, Mrs. Laura Hyatt, two sons, Carl and J. W., his mother, Mrs. E. J. Cadenhead, all of Ralls, and one brother, John Hyatt of Houston.

Funeral services were held at the First Methodist church in Ralls Thursday afternoon.

Fairbanks Dash Shines Anew in "Crasoe" Film Coming To Spur Sunday

ROMANCE AND ADVENTURE LAID AGAINST BACKGROUND OF SOUTH SEA BEAUTY

Having happened upon a new forte in "Around the World in 80 Minutes," Douglas Fairbanks demonstrates in "Mr. Robinson Crusoe," which opens Sunday at the Palace Theatre, what really can be done with this type of picture when one enters seriously into its spirit.

For "Mr. Robinson Crusoe" is one of the most charming efforts seen hereabouts in many a moon, besides which it is shot through with that old Fairbanks elan and dash. It is adventurous in the extreme, it is highly romantic and it is one of the most beautiful compositions ever to come to the screen.

MADE IN SOUTH SEAS

The picture was made in its entirety in the South Seas, and the star and his company have succeeded admirably in catching the mood and flavor of that garden paradise. With the exception of four principal players, natives are seen in most of the action, and these natural actors demonstrate anew that drama is instinctive with them. One would think, in fact, that they had been trained for months for their roles.

"Mr. Robinson Crusoe" concerns itself with an adventurous young sportsman who makes a wager that he can subsist upon a desert island with no assistance from civilization. In other words, he can successfully duplicate the life of Defoe's famous character. Not only does he succeed in winning his bet but he uncovers several other complications, such as a hand-to-hand conflict with a head hunter, battles with cannibals and the capture of a beautiful native maiden in one of his traps.

FAIRBANKS GREAT

GEORGE GABRIEL BACK FROM ST. LOUIS MARKET WITH NEW MERCHANDISE

LARGE ARMY OF NEWEST STYLES AND FABRICS OFFERED

George Gabriel returning last week from St. Louis and other northern markets, brings to his store in Roaring Springs several large shipments of the newest merchandise for all members of the family.

After expressing his satisfaction in being back in Roaring Springs, yesterday, Mr. Gabriel said, "I was extremely fortunate in arriving at the market during a very opportune time. Two particular wholesale houses were over stocked with the very latest merchandise, everything for every member of the family and I was able to buy at unbelievably low prices.

The quality and style of the new merchandise, quoted at these low prices, caused me to buy more than I had originally intended, but I believe the values which I am passing on to my customers, will be appreciated. I have just finished placing this new stock and will be glad to have all my customers come in and see it.

W. M. S. MEETING

The Woman's Missionary Society of the Baptist church met Thursday afternoon for a social hour in the home of Mrs. M. S. Thacker. As the ladies arrived their measurements were taken and admission was charged accordingly. The hour was spent in big saw puzzles and games featuring St. Valentine's Day and George Washington's birthday were played. Everyone present declared Mrs. Thacker a charming hostess and refreshments were served to Mesdames Ezra Bowen, W. A. Hollingshead, Ralph Long, Joe Duren, O. O. Love, T. E. Long, Louis Poteet, W. C. Grissom, W. King, Frank Ferguson, J. R. Vandell, J. D. Mitchell, I. B. Smith and E. E. Moss.

CREAM STATION ADDS NEW SANITARY MEASURE

Albert Hedges, manager of the Lubbock Poultry and Egg Co.'s Produce Station, located in the James Dunlap Grocery, has this week completed a screened-in compartment for his cream and cream testing equipment.

The new sanitary measure will insure added protection against contamination during the coming summer months.

Mr. and Mrs. Chas. Fox, proprietors of the Spur Bakery, Spur, were dinner guests in the home of Mr. and Mrs. James Dunlap Sunday evening.

Fairbanks is, of course, the main-spring of the picture. In several of the sequences he is better than he ever has been, and this is a very large order. Maria Alba is his leading woman and William Farnum exerts his villainous touch here and there.

Edward Sutherland directed, and Tom Geraghty wrote the story.

**Good Equipment Is Essen-
tial To Good Training**

The most important thing in
training young people for a useful
career (next to that of the faculty)
is the physical equipment of the
school. This is especially true of
the Business College, because much
of the training in our business col-
leges consists of mastery of the lat-
est modern office machines.

The Tyler Commercial College
and School of Business Administra-
tion maintains modern and up-to-
date equipment. High school gradu-
ates who are planning a business
career will be interested in the type
of equipment used by this big
school.

The Tyler Commercial College
owns its own building, which is of
pressed brick construction, 140 feet
wide by 135 feet long, three stories
high with especially constructed
annex on roof for Cotton Classing.
The entire building is especially de-
signed for its permanent home. Un-
like the average small business col-
lege, this big school does not occupy
a few small office rooms up stairs
over a garage or drug store without
ample space.

We own over 300 standard make
typewriters. Our Banking Depart-
ment is equipped with fifteen Elec-
tric Driven Bank Posting Machin-
es, Adding Machines and Calcula-
tors.

So far as is known, it is the only
Business College in the United
States having a broadcasting sta-
tion, representing an investment of
over \$25,000. Fourteen large spa-
cious class rooms, equipped with
over 1,200 modern double and single
desks. Large, spacious College
Auditorium, with a seating capaci-
ty of over 2,000.

Officer Training Department
equipped with the latest office ma-
chines, such as Multigraph, Mimeo-
graphs, Addressographs, Folding
Machines, Typewriters, Shorthand
Machines, Bookkeeping Machines,
and a most modern Filing Depart-
ment in connection.

The School of Radio operated in
connection is equipped with all
modern equipment for teaching all
phases of Radio, including Televis-
ion. Government licensed Techni-
cal Training short wave Station in
connection. Telegraphy and West-
ern Union Departments fully equip-

ped with Motor Generators, Tele-
graph keys and sounders, especially
built Western Union Typewriter,
and all modern equipment. Cotton
Classing Department operated the
year round, with government ap-
proved Samples as a basis for grad-
ing and stapling.

Space will not permit a full de-
scription of all the equipment of
this big school. Bear in mind, young
people, unless the school you attend
has sufficient equipment to efficien-
tly train you, your success will not
be what you expect it to be. Write
for the current catalog of this
school, "Achieving Success in Busi-
ness." It is free. Address the
Tyler Commercial College and
School of Business Administration,
Tyler, Texas.

**LOCAL NEWS
ITEMS**

Grandpa Smith of Duncan Flat
was stricken with paralysis Wed-
nesday afternoon. His condition is
reported very critical.

Born to Mr. and Mrs. Arvil Kin-
gery of Darden Canyon, a son,
John Lowell, Wednesday, Feb. 22.

Albert Smith who has been work-
ing in Amarillo for several months
spent the week-end with his family
here. He was accompanied on his
return to that city by Buddie Over-
street.

J. D. Mitchell has as his guest
this week, his brother, N. C. Mit-
chell of Dublin, Texas.

Mrs. Dalton Johnston and daugh-
ter, Ora Pearl were Spur visitors
Saturday.

Mrs. Alvin Nance and children
of Daugherty spent the week-end
visiting her parents, Mr. and Mrs.
L. W. Harmon.

Mrs. Lemmie Day and son, James
Lee spent Sunday with Lourena
Ferguson.

L. C. Poteet returned home Tues-
day after a several days business
trip to Houston.

Mr. G. G. Miller spent the week-
end with his daughter, Mrs. M. H.
Costolow of Spur.

E. E. Moss and Onas Ferguson
left Sunday on a business trip to
Wichita Falls and Dallas.

Mr. J. M. Jackson, accompanied
by Mr. and Mrs. C. C. Hall made a
business trip to Mineral Wells, Sun-
day returning home Tuesday.

**LOCAL BUSINESS MEN
BUY STATE BANK STOCK**

A deal was consummated late
Wednesday by which local business
men bought a large amount of stock
in the First State Bank of Roaring
Springs originally owned by outside
interest.

With the new ownership of stock,
the First State Bank now becomes
more of a community, home-owned
institution.

New stock holders include: G.
Gabriel, W. C. King, Dr. J. F.
Hughes, E. E. Moss, G. C. Springer
and J. H. Sample.

Mr. and Mrs. C. C. Hall left
Wednesday for Oklahoma City for
a month's visit with relatives.

Will Martin of Espula Commu-
nity was trading in Roaring Springs
Wednesday.

Mr. Gabriel, George and Ramza
spent Sunday with their daughter
and sister, Mrs. Alford Malouf of
Knox City, returning home Mon-
day.

HIGH SCHOOL STUDENTS—WE PAY \$9.25 PER DAY

If you ever hear of a boy or girl who wants to quit school, when it is unnecessary; if you ever hear of parents who are thinking of putting their children to work, when it is unnecessary, just bring these figures to their attention:

Every day spent in the school pays the child \$9.25.

Here is the proof, based on wage scale of 1913.

Uneducated laborers earn on the average of \$500 per year for forty years, a total of \$20,000.

High school graduates earn on the average of \$1,000 per year for forty years, a total of \$40,000.

This education required twelve years of school of 180 days each, a total of 2,160 days in school.

If 2,160 days at school add \$20,000 to the income for life, then each day at school adds \$9.25.

The child that stays out of school to earn less than \$9.00 a day is los-

ing money—not making money. These figures are based on an investigation made by Dr. A. Caswell Ellis of the University of Texas, at the request of the U. S. Bureau of Education.

FRESHMAN SIGNALS

The Gypsy Maiden Club, which consists of most of the Freshman class, had a picnic last Tuesday afternoon. All of the club could not come and they missed a good time. Those present were Mr. McDonald, the sponsor, Gay Halford, Rosalind Mitchell, Jimmie Joe Freeman, Lorenza Zachery, Mary Elizabeth Love, Pete Hughes, L. J. Hurst, Ted Weatherall, Billie Keahey, and Ravelle Hall.

Several games were played then we had our picnic. It was five o'clock before we left for home.

Eudene Pierce, one of our classmates, has been absent from school the past two weeks. She has had the flu.

ATHLETIC INTEREST

Spring is in the air, boys are going barefoot and how they do take to our freshly graded running track. It is a beauty, easy to run on and it certainly must be inviting for the girls have been seen making a lap or two. The junior boys have swarmed it worse than they do a swimming hole in the hot summer time. Every boy from knee high on up wants to run a relay. With enthusiasm as this we certainly should have a pretty good representation at the county track meet, which is only a month off.

We want to take this opportunity to invite all of you to see and inspect our new school playground. In truth, it is a new ground. The mesquites have been grubbed, dirt has been hauled in and spread out, thus doing away with those sink holes and gulleys we are all familiar with. Tennis courts, jumping pits, a reconditioned track and chinning devices decorate the land scape about the gym now instead of the native shrubbery.

We wish to thank our commissioner for being sufficiently interested in our work. The improvements on our school ground are due to his interest and willingness to help us.

CLASSIFIED ADVERTISEMENTS
