TRAIL DUST

By DOUGLAS MEADOR

Destiny, the tailor, lights lamps on the highways at night and continues to sew swiftly with blazing needles, bringing together the frayed edges of distance in man's tight-fitting cloak of time. Even the poor and humble, while with less beauty, may lace the horizons and burn rubber dust on the moving pyre. The precious portals of home are only beyond the glare of headlights.

Switch keys fit into locks on the doors of a new kingdom of cushioned freedom, power and new peril! Good that was far away will be reached tomorrow and evil in the distance is at hand.

The newspaper account of a great prison's being unable to conduct a prison paper because there were neither editors nor printers within its walls, caused me great satisfaction as I hurried to show my wife. With a calmness which I long ago learned as prophetic of a definite decision, she handed the paper back to me with the comment that a great many people are at liberty who should be behind bars, and that the prison shortage could possibly be supplied by any insane asylum.

While I never seem to have anything of great importance to tell anyone when I am traveling, hotel stationery before me is like cigar stubs in the path of a tramp. My will power quivers and then breaks down, although I rarely write a message. I always take a few sheets of paper and place it with the soap sample in the bottom of my valise.

On one memorable occasion while accepting the hospitality of a park bench during my extended stay in a fish-eyed city, I ventured into a great hostelry with intent to use its stationery to write the girl back home and tell her I was doing well. With the drawer of the mahogany desk open I merely toyed with the exquisite sheets. A gentleman in a slightly shiny suit became interested in me and moved closer under the pretense of reading a paper on the divan. I checked out immediately and retired to the less pretentious park and in more friendly surroundings, wrote the epistle on a folded manila poke.

In a strange city at sunset not long ago the shabby little homes, where poverty roosted on the swaying roofs, were fitted with windows of blazing gold and an enchanting dignity came to them. Quickly I thought of the story I read when a child of the youth who longed to reach a house of golden windows on the opposite side of a wide valley. When he finally reached the house he found it old and the windows of glass and looking back, saw the home he had deserted blazing with the same gold he had vainly sought. Life is much the same, the things we see depending on the direction we look, yet I have always wondered about the moral of the story. Personally, I am convinced that the youth, who, on leaving home, looks back, is forever lost.

Wind that was born of the fragile night stirred the smoke of burning mosquito above our smouldering campfire and lifted it across the dim outline of hills. We poured black coffee into tin cups and tasted it slowly with our cigarettes. From somewhere in the maze of shadowy hills a coyote called once to the stars and was silent. My companion unlaced a boot from which he shook a small grave before he spoke: "Friendship endures over fires like this one. It is in the flickering shadows that true companionship reaches a sublime understanding." The ashes of the campfire are buried beneath the dust of many years but the flame of friendship has not faltered.

From a creaking windmill on barren plains, to the mighty booming of oceans, water kneels as the slave of man. On the kind broad shoulders rests the entire burden of life. It is the many times reincarnated soul of creation and is, perhaps, symbolic of the general plan of the universe.

Car Plates Now Being Sold; Go In Use April 1st

Car Owners Urged to Purchase Tags Early and Avoid Last Day Rush; Same Rate as Last Year.

Motor car and truck owners may now secure new 1935 licenses but they cannot use them until April 1st according to information received at Sheriff J. E. Skinner's office this week. Because of a change in the registration date for motor vehicle owners in Texas made last year and going into effect this year, all motor cars and trucks on the highways April 1st must bear a 1935 license, yet the plates can not be used before that date. Miss Rachel Patton, Deputy Clerk, declared that all drivers were being urged to secure the license plates as soon as possible and thus avoid a last day rush which seems inevitable under the new law. The plates are now on hand and may be purchased at any time by paying the regular fee which is the same as last year. Those unable to secure plates in time for use April 1st will be subject to a penalty.

Delinquent Penalty With-Held
Delinquent taxes for the year 1933 and prior years may be paid without penalty if payment is made before March 15, it was announced. Penalty on 1934 delinquent taxes began February 1st, except in case where 1/2 of the tax had been paid prior to November 30, 1934. A penalty of 5 per cent and interest of 5 per cent may be placed on unpaid taxes after March 15.

Cattle Buying Is Completed

Purchases Made by Government Helps Cattlemen

WASHINGTON, Feb. 5.—The federal government today closed its books on emergency purchases of cattle in drought areas with 8,156,962 animals bought for a total of \$108,335,322 or an average price of \$13.50 per head.

This "culling" of cattle herds, AAA officials said, has put the industry in one of its most favorable positions of its history, with most of the poorer animals removed and surplus of a year ago brought down to an approximately normal level of 57,000,000 head.

Government purchases of drought-stricken cattle and emergency marketings brought the farm inventory down from the 67,000,000 level of January 1, 1934, to approximately 57,000,000 on January 1, 1935, or about the same point as in 1930, 1912 and 1928, the low years of the normal production cycle.

Million Animals Condemned

The 8,156,962 head bought formed about 29 per cent of the total inventory of the 755,158 farms from which purchases were made, most of which lie in the states west of the Mississippi River.

Of the total purchases 1,424,879 animals were condemned as unfit for human food and destroyed on the farms. The remainder were turned over to the federal relief administration for processing into food for families on relief rolls.

Intensity of the drought in the most severely affected states was indicated in the percentage of total farm inventories sold. In North Dakota, and Montana 51 per cent of all cattle were bought, in South Dakota, 45 per cent, and in Oklahoma 41 per cent.

Texas Leads List

Texas sold the largest total, 1,926,398; North Dakota disposed of 977,120 and South Dakota 912,846.

A bright spot in the future of the cattle industry was indicated today when some AAA officials declared that new surveys had shown an improvement in the feed situation. Many farmers who had excess feed which they were holding for higher prices were growing panicky, it was said, and offering supplies in considerably larger quantities than they had indicated as possessing.

Pick 6 Jurors in Trial of Stalcup

LUBBOCK, Feb. 5.—Six Jurors, who will hear the state demand the life of Virgil Stalcup for murder in connection with the slaying of Sheriff W. B. Arthur at Dickens, were chosen in 99th District Court yesterday afternoon.

Prosecutors qualified each of six men on the death penalty.

If pugilist visaged Virgil Stalcup was worried by the state's efforts to send him to the electric chair he concealed it. He smoked cigarettes, one cigar, held his young wife's hand, and caressed his 5-year-old son.

More than two score officers were in the courtroom as Stalcup and Clarence Brown, his companion in the Dickens jailbreak, were brought into the court house.

LICENSE TO BE CHARGED

AUSTIN, Feb. 4.—Legislative bulwarks against itinerant and irresponsible merchants who prey on Texas cities during busy seasons were sought in the Senate this week.

Protection of legitimate home merchants and provisions for issuing of state and local vendor's licenses are contained in measures of a bill sponsored by A. P. Duggan of the 30th Senatorial District.

Wandering retailers, setting up temporary business establishments in towns, must, according to the terms of act, deposit \$500.00 with the Secretary of State, this to constitute a special deposit subject to attachment by creditors. A state license fee of \$25.00 will be required for operation of the store for one month. Municipalities may, also, by proper ordinance, fix a license for itinerant merchants. If the merchant operates the store for a longer period than six consecutive months, he will not thereafter be required to pay the license fee.

Provisions of the bill do not apply to bona fide residents of a county engaged in business in that county nor to commercial travelers for wholesale houses.

Another bill proposed by Senator Duggan this week would place collection of all occupational taxes under control of the State Comptroller of Public Accounts. It is believed the revenue of the State would be increased one half million dollars by this move.

The Comptroller's report now shows a \$200,000 loss in occupational taxes through local collection.

Mrs. Pat Sheridan and Mrs. Carl Tardy accompanied Mr. and Mrs. J. H. Sheridan to Amarillo Saturday, where the latter will remain indefinitely, due to Mr. Sheridan's health.

Light Rain Brings Hope

Cloudy and Showers Promises End of Drouth

PROSPECTS GOOD

Improved Conditions Resting On Weather

Prospects of an end to the drouth which has gripped West Texas for the past three months, were brightened yesterday when light rain began falling in the afternoon and had not ceased at midnight. While the fall was slight, prospects were exceedingly favorable that more rain would follow the heavy clouds and east wind.

Severe Winter Drouth

The extended winter drouth, which many declare to be the most severe in many years, has greatly handicapped early plowing and has had a decided adverse affect on business. Business men as well as farmers and stockmen are of the opinion that a good general rain will greatly improve business conditions and the future business outlook.

Young Democrats to Organize in County

COTTON REDUCTION PROGRAM FOR 1935 BEGINS

COLLEGE STATION, Jan. 28.—"With the appointment of the new State Review and Allotment Board and the reorganization of the Cotton Control Associations in the various counties, the cotton reduction program for 1935 has begun," A. L. Smith, chairman of the State Review and Allotment Board, said.

"Articles of Association for the cotton production control associations have been sent to the farm demonstration agent in each county, and the reorganization of the associations is proceeding rapidly. One important change from last year's plan is to be noted. Cotton producing communities which consisted of not less than 300 producer units last year must consist of not less than 500 producer units this year," Mr. Smith said.

"These communities will be designated by the farm demonstration agent on the basis of the number of producer units on which cotton production was reported in the applications for allotment and tax exemption certificates in 1934. There shall be one community committee consisting of three members for each community designated. A county having less than 500 producer units will have one community committee.

"Any producer is eligible to sign a 1935 contract who is an owner, cash tenant, standing or fixed-rent tenant, or managing-share tenant jointly with the landlord, and who operates or controls a farm on which cotton was planted in 1933 or 1934 and on which cotton will be planted during the period 1935 to 1937 and on which cotton will be planted in 1935."

"Any producer is also eligible who is operating a farm on which cotton was not planted in 1933 or 1934 because such farm was then planted to perennial crops in a regular rotation or because such farm was covered by an agreement with the Government to eradicate pink boll worm, but on which cotton was planted during the period 1928 to 1932 and on which cotton will be planted in 1935."

"HANDY ANDY"

Will Rogers is at his best in
"Handy Andy," which opens at
the Rogue Friday playing through
Saturday, matinee and Saturday
night. His wife, Peggy Wood,
wanted him to retire from the
drug store business and play a
little, but all play and no work
makes Will a wild boy. First he
takes up pigeon-raising, but he
has to stop that when the pigeons
fly all over the house; next he
tries golf. Finally his wife and
daughter persuades him to attend
the Mardi Gras at New Orleans.

and that's when things really be-
gin happening. Here he is ably
assisted by Conchita Montenegro,
the beautiful little Spanish act-
ress. Rogers acts as cupid in his
daughter's romance and there is
the surprise ending that is yet to
come.

"COCKEYED CAVALIERS"

For Sunday and Monday we
have Bert Wheeler and Robert
Woolsey in their best "Cockeyed
Cavaliers." Yeu raced with
these boys thru "Hips, Hips, Hoo-
ray," now lets see what kind of
mix-up they get into in this last
laugh riot of theirs. They are
ably supported by Thelma Todd
and Dorothy Lee.

Looking Forward—

West Texas has untold possibilities for development. Although much progress has been made, there is much room for further achievements by all thrifty and enterprising citizens.

A bulk of our natural resources lie virtually untouched. A continued diversification of agriculture in its broadest sense will materially benefit our section. Homes and places of business, as evidenced in travel over West Texas, need repairing, painting or entirely rebuilding. Many of our cities have faced a shortage in the better class of homes for the past several months. Industry and capital needs encouraging in West Texas so that more labor can be profitably employed.

Capital can be secured and this continued program of development can be realized when men are convinced of the attitude of governing bodies on taxation and government competition in business. The debacle of 1929 to 1934 will have passed and progress will have begun when government experiments give way to co-operative efforts of American principles of private initiative.

Your power company has co-operated fully, and eagerly anticipates the part it will play in the future development of West Texas at rates and service in keeping with the demand.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

The sixth grade has begun studying Asia in geography.

This week is exam week in our room, as well as in the upper grades, and we are studying hard. The arithmetic class hopes to get exempted because it is working forty hard problems.

JUNIOR HIGH SCHOOL DIVISION

(Mr. Ballard and Miss Simpson)

There has been more interest in Fairview school this year than there has ever been before. Every one is talking about how quickly the school term has passed. Our school has now been going on for six months, and from the seventh grade to the ninth grade we have not had a failure.

Our absentees have now all returned to school.

ATHLETICS

Games week before last which were not reported are: Wednesday, Jan. 30.—Fairview senior girls vs. Roaring Springs senior girls, score 23-7 in favor of Roaring Springs.

Wednesday, Jan. 30.—Fairview senior boys vs. Roaring Springs senior boys, score 20-18 in favor of Fairview.

Thursday, Jan. 31.—Fairview senior girls vs. Matador senior girls.

(First and second string)—Score 19-10 in favor of Fairview.

Tournament news—Fairview participated in the Senior basketball County Tournament, Friday and Saturday of the past week. Friday night Matador and Fairview senior boys clashed in a very interesting game, which Matador won 24-18.

Saturday morning Fairview and Flomot girls played a hardfought game. Flomot ran wild to win with a score of 59-12. Then Whiteflat and Roaring Springs girls played, and the latter won by a large score.

That afternoon, Fairview and Whiteflat girls played the first game. Fairview redeemed herself by winning 23-16. The next game, between Flomot and Matador girls, was won by Flomot by a large score.

Saturday night Roaring Springs and Flomot girls played for the county championship. After a game extraordinarily fast for girls, Roaring Springs defeated the strong Flomot team by a good margin. Then the Matador and Flomot boys had a very tight game for senior boys' championship. Matador won by a slight margin, 17-14.

Jack Willis of Matador was

high-point man for the senior boys, and Marvin Grace of Fairview for the junior boys. Marvin made 39 points in two games. Mary Trisler of Roaring Springs won high-point for senior girls.

Then came the event most interesting to us. The trophies were presented to the winners. The Roaring Springs senior girls, the Matador senior boys, the Flomot junior girls, and Fairview junior boys were declared county champs.

There will be only one more basketball game this season. Our senior boys will play Valley View at Paducah Wednesday, Feb. 6. The teams have played twice before. Valley View won the first game 25-23; Fairview won the second 20-18; so this last game should be well matched.

The junior and senior boys are starting practice in baseball and track events. The girls have started volleyball, tennis, and junior baseball.

GENERAL NEWS

The members of the junior basketball team wish to say that they are very grateful for the backing received from their school mates and the entire community of Fairview in this season. They plan to make their pictures in their ball suits and put in with the trophy that they won.

This week the three upper

grades suggested names for the school paper. "Billie" Lawrence won the contest with the name of "The Kountry Kids," from a list of "more" than twenty-five names.

The Rural Country Track Meet will be held at Fairview this year. All visitors are welcome.

THE FUNNY BONE

Alyne Bloodworth said that she wished that she had been sick last week so that she could get her name in the paper.

Mr. Ballard: (In science class): "R. A., what does 'germinate' mean?"

R. A.: "It means something that came from Germany."

Last week in basketball practice, G. W. Fulfer was after the ball and was going so fast that he had to catch the goal post to stop Hulon Phillips remarked, "Look at that boy trying to hold the post and run."
