45TH YEAR—No. 9 MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, MAY 7, 1959 PRICE SEVEN CENTS

## Violent Rainstorms Sweep County Areas

**TORRENTIAL RAINS** Monday swept most of Motley County. The series of rainstorms was driven by gale winds out of the west and southwest. The first moisture began falling here about 10 a. m. Monday and the final wind-driven rainstorm passed at midnight. Official record at the city wells was 2.10 inches of precipitation. Roaring Springs probably had about the same amount. At about 4 p. m. Monday Roaring Springs had received 1.37 inches but two additional rains passed here after that hour.

The rain was general over the county but the amounts varied greatly. In some sections less than one inch was reported. Some hail accompanied the rain here but no damage resulted.

Storm warnings covered this area (hail and straight wind—no cyclones) until midnight following one of the rains Monday afternoon a short developed in the city fire signal system, which caused some apprehension that a cyclone was approaching.

Ballard Creek flowed for several hours for the first time this year. For a time Bundy Street was closed to traffic below the hill north of Traweek hospital where the street crosses Ballard Creek.

**Violent Wind**

It was a "driving" rain swept by extremely high winds. In most instances the rain fell rapidly. Water flowed across the top of the curb at the corner of Main Street and US Highway 70, for a brief period of time.

The rain is of inestimable value to farmers and ranchers, and to all businesses depending on the economy of the area. The outlook is extremely favorable for all types of farming, and range conditions are now excellent with an abundance of tank water and sufficient moisture in the ground to promote the growth of grass.

### PIED PINIONS

By Mrs. M.

Present petroleum pursuits prevailing, a lot of our poor peons are now prone to ponder the possibility of predicting when our wells will come in.

Having noted the absence of the Joe Bloodworths, and wondering about their whereabouts, we were gratified to receive a message from them this week. They have been basking in the sun South of the Border at the intriguing resort of Guaymas, Sonora, Mexico. Colorful postal card and accompanying brochure bear out the claim that this is truly "where the desert (and mountains) meet the sea."

Located on Mexico's West coast and facing the Gulf of Calif., Guaymas offers swimming, fishing, horseback riding, tennis, badminton, shuffleboard, surf fishing, water skiing, boat trips, shell collecting, skin diving, picnics, clam and oyster outings, a "fantastic number of arrowheads, mainly obsidian, and sight-seeing.

Their message declared, "having fine trip. Lovely place here. Plenty of big fish caught. Will be in Nogales for a few days and then on to San Diego for a visit. Veneta and Joe."

Gives one itchy feet to hear about it.

The Mrs. J. M. Harper who served as general chairman of the state convention of Texas Federation of Women's Clubs, this week in Lubbock is none other than the former Marjorie Moore, a native of Matador. She visits here frequently with her mother, Mrs. R. P. Moore, and other relatives.

A glowing report of the convention program, and greetings from Wes Izzard, Amarillo Daily News Editor, who was one of the speakers, were brought back Tuesday by Mrs. C. P. Waybourn.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—"They said it couldn't be done. And, sure, it couldn't." This is the attitude of many lawmakers toward the several long struggles to raise \$200,000 in new tax money.

As the regular session drew to a close, House members, effect, admitted they couldn't see a program that would do the job. House sent to the state the scraps of selective tax measure (HD 727) and bill to increase the corporation tax for one year only.

There was off-the-cuff talk of House members of some proposing a later date to solve the problem by cutting appropriation bill across the board to 4 per cent less than the \$550 budget. This would bring a violent reaction, it was thought, that both lawmakers and their constituents would be receptive to new tax proposals.

Senate State Affairs Committee has indicated it has no intention of trying to shove through a program just to beat the 12 deadline of the regular session. Full hearings have been promised for all viewpoints.

**TRUCK BILL SIGNED**—Gov. Danial signed the bill raising the truck load limit from 30,000 to 72,000 pounds.

It made no bones about savings. He recommended that the State Highway Department and county commissioners courts take steps to keep heavier loads off farm roads and others that might be damaged before deciding to sign the bill, the governor took an unusual step, by calling a public hearing.

State Highway Engineer, D. C. testified there were some 100 miles of road that couldn't handle 72,000-pound loads. Col. Garrison Jr., director

to appear twice on the same ballot. It is designed to allow U. S. Sen. Lyndon Johnson run for another Senate term and accept a same time, if opportunity should arise. Senate approved unanimously, House, by a 129-to-15 vote. Liberal members, mostly from Houston, objected.

A bill to move forward two months the dates of state primaries and conventions also drew liberal protests. It would move primaries up to the first Saturdays in May and June. State convention to name delegates to the national presidential nominating convention would be the last Tuesday in May.

Opponents claimed it was intended to let Senator Johnson get his state politicking out of the way before national convention time.

Changing parties in mid-stream would be outlawed under a bill that has received final approval of both houses. Each poll tax would be stamped "Democrat" or "Republican" the first time a person voted in a primary. For the period he used that poll tax, the holder would have to stick with the party of his stamp, in the primaries and party conventions.

**SHORT SHORTS**—Examinations will be held May 19-21 for 75 vacancies in the Texas Highway Patrol. Those accepted will receive six months training at the State Police Academy, six months on-the-job training, all with pay.

State taxes cannot be collected on beer sold on U. S. military posts, according to an Attorney General's opinion. Similar opinion was made earlier in regard to cigarette taxes.

**HERE FROM AMARILLO**  
Visitors Sunday in the home of Mr. and Mrs. Bill McCaghen and Mrs. H. S. Watson were Mr. and Mrs. Jack Edwards and their daughter and family, Mr. and Mrs. Norris Vandagriff and sons, Jack Allan and George of Amarillo. Mrs. Edwards is a daughter of Mrs. Watson.

**ON EASTERN TRIP**  
Mrs. H. H. Schweitzer left Tuesday of last week for Baytown, to the home of her son and family, Mr. and Mrs. Houston Schweitzer, and has accompanied them on a trip to Cleveland, Ohio, and other points in the East.

## Taxpayers May Also Lose on Civil War Battlefield Where 23,000 Men Perished

By Congressman Walter Rogers

The Battle of Antietam is the cause of a controversial issue now pending in the Congress. The Department of the Interior wants to expand its present holdings in the battlefield site area from 283 acres to approximately 1800 acres. This will involve over-all expenditures of approximately \$2 million.

The Department argues that the need to expand the Federal-owned area is caused by the threats on the part of landowners in the area to erect hot dog stands and other structures along the highways.

It says this will block the view of the battlefield and the people should not be allowed to erect such structures under the circumstances, and also argues that the only way this can be prevented is for the Federal government to buy the land and thereby prevent the desecration of hallowed soil by commercial activities.

The land has been under the plow for many years, and it is the general opinion of those seeking to gain the 1800 acres that it could be continued in cultivation under lease or other agreements between the Federal government and the present land-owners. In other words, the government proposes to develop this land at the approximate price quoted and then return it to the people to be used only in accordance with the dictates of the Federal government.

During the hearings, I raised a question as to who won the Battle of Antietam. This caused some furor, because we have both Rebels and Yankees on the Interior Committee.

The result of the discussion was that no one seemed to know who won the battle. The South had 41,000 men under General Robert E. Lee. The North had 87,000 men under General George B. McClellan.

The statistics reflect that the Federals lost 12,410 men, while the Confederates lost 10,700 men.

If victory depends upon who lost the most men, we could conclude that the South won the battle. However, when we use percentages, we find that the Federals lost only 15 percent,

while the Confederates lost 26 percent. Eight generals were lost in the battle, but these were evenly divided, four on each side.

The history writers say that if Lee had won a decisive victory, it would have resulted in the independence of the Confederacy. This would indicate that Lee won the victory, but it was not decisive. Yet, on the other hand, the same history writers say that if McClellan had been able to achieve a decisive victory, the war would have been concluded in a few short months.

The battle took place on September 17, 1862, approximately three years before the end of the war. Many other facts and opinions concerning the battle could be cited, but it is generally conceded the battle was somewhat close to a draw.

The taxpayers would be most fortunate if they could come out as well as either Lee or McClellan; however, their chances are not too good. It looks as though they will lose the modern Battle of Antietam, to the tune of about two million tax dollars.

Which brings to mind another situation of a few years back: the restoration of The Old Stone House in Georgetown, which has cost the taxpayers upwards of \$300,000 to date, and to which no history has yet been tied, except the age of the stone that were in the original structure, many of which have been replaced.

To add insult to injury, a brand new ultra-modern telephone has been erected in front of the structure, encased in an ultra-modern plastic bubble, which is as detracting of "The Old Stone House" as a fly in a dish of ice cream.

This is all very nice, and probably kept many people busy working on trying to tie the some event of history to this structure itself, but in the final analysis it adds up to the conclusion that the taxpayers now have in historic Georgetown a \$300,000 rest room with telephone conveniences. And you wonder why Federal spending is reaching such heights.

## Lubbock Schedules Religious Crusade

Churches of Matador have been invited to participate in the largest interdenominational event in South Plains history, the Crusade for Christ scheduled in Lubbock May 10-17.

The giant crusade, to be held in Municipal Coliseum nightly at 7:30, will feature widely-known Howard Butt, businessman, preacher, and a team of out-

standing Christian lecturers, musicians and qualified laymen.

More than 287 churches throughout the area have been invited by letter, or personal contact, to help make the crusade successful by encouraging attendance from the congregations, to observe prayer hours in behalf of the crusade and to otherwise "spread the word" about the week-long religious event.

Several thousand persons already serving on 10 major committees are hard at work, explained the Rev. Dudley Strain, general chairman of the Crusade for Christ.

More than 80 Lubbock churches originated the event and last week began a concentrated advance campaign for attendance.

Howard Butt, who has successfully preached to capacity crowds in several sections of the nation, is vice president of a large super market chain. He spends more than one-third of his time in crusades and related Christian work.

### Program of Entertainment Sponsored by Flomot Seniors to Finance Class Trip

Flomot High School seniors, assisted by other students of the Flomot schools, presented an evening of entertainment for the public, Friday evening, March 27, in the school auditorium-gymnasium.

The program opened with the first and second grade students singing "This Old Man" and "The Cowboy." They were followed by the third and fourth grade students who sang "The Annual Fair" and "What Can the Matter Be."

The "Three Notes" of Matador, Robert Brandon, David Rattan, and Robert Brown, were well received in the group of numbers which they presented.

"Monkey Shines in a Doctor's Office," a 20-minute one-act play was presented by the following members of the senior class, Morris Degan, George Reed, Harold Stone, Doyle Walker, W. E. Hawkins, and Benney Turner. This was an amusing comedy with laughs galore from beginning to end. Bearl Gilbert acted as master of ceremonies. The other member of the class is Ernie Starkey.

The "Twilight Dusters," Carolyn Tanner, Modene Purcell, and Sheila Degan, charmed the audience with renditions of "Sentimental Journey," "Basin Street Blues," and "Carolina in the Morning," with Mrs. L. D. Wilkerson at the piano.

"Charlie Brown," and "God Bless America," were numbers chosen by the fifth and sixth grade students.

At the close of the program an auction of cakes and pies was conducted by members of the class with the assistance of J. L. Speer. A very nice sum was realized from the program, which will be used for the Senior trip

to San Antonio and the Valley area, and for a parting gift to the school.

The students may obtain a better idea of their standing among many thousands of other students at their grade level across the country. They may also learn more about their strengths and weaknesses in the areas measured by the examination. But most important of all, if they are winners they will receive a four-year college scholarship.

## "There Oughta Be A Law"...

...and it ought to be a good one! One to end the evils and abuses that were brought to light by all the McClellan Senate Hearings and investigations of union activities and labor relations. It ought to be the kind of law that makes things like violence, strike bombs, acid throwing, blackmail picketing, labor racketeering and tyranny a thing of the past. It ought to be the kind of law that prevents use of naked force and coercion by unions as well as employers. It ought to be the kind of law that does not equal justice to all, the union member, the non-union worker, the owner of the shop and the public in general. It ought to be that kind of law. The Kennedy-Ervin bill now being argued in the United States Senate pretends to be that kind of a law—but, somewhere along the way somebody goofed! You have to read it closely to understand why the labor bosses like the Kennedy-Ervin bill so much. Instead of a strong bill to right the wrongs exposed by the McClellan Committee, we get slap-on-the-wrist reform coup-

ed with new concessions to big labor's big power. It looks as though labor reform, which the whole country needs and demands, will get lost in politicking of the Kennedy-Ervin bill in the best the Congress can come up with.

Instead of imposing equal standards on management and labor, the Kennedy-Ervin bill would hamstring management's right to freedom of speech in union organizing drives, while imposing on unions the requirement that they file their constitutions and by-laws (many unions don't have any) and the names of their officers.

Instead of strengthening the Taft-Hartley Act, whose weaknesses have been documented again and again by the McClellan Committee revelations, Kennedy-Ervin would grant new and unprecedented power to labor bosses. Kennedy-Ervin would force more people into unions sooner, whether they wanted to join or not. Kennedy-Ervin would have the practical effect of rigging elections by taking votes first and deciding afterward who should have voted.

Kennedy-Ervin would even let people who were not employees vote in elections to determine the fate of those who were employees.

Instead of outlawing black-mail picketing and the ruinous abusive union power, the authors of the Kennedy-Ervin bill say, "Let's not think about that right now. Let's put that off till later. Manana!"

The authors of Kennedy-Ervin excuse their feeble bill on the ground that most labor leaders are honest. That is like saying we should not have strong laws dealing with murder since most citizens are not murderers.

Yes, there ought to be a law—but the Kennedy-Ervin bill is not it. Let's not be kidded by a label which reads "Labor Reform." It's time for the Congress to face the fact that the country wants and demands genuine labor reform, not just a label.

...and it ought to be a good one! One to end the evils and abuses that were brought to light by all the McClellan Senate Hearings and investigations of union activities and labor relations. It ought to be the kind of law that makes things like violence, strike bombs, acid throwing, blackmail picketing, labor racketeering and tyranny a thing of the past. ## Patton Springs Seniors Make Plans for Future as High School Comes to Close

Fourteen young people will be participating in the final and greatest event of their high school lives, when commencement exercises are held for eight boys and six girls at Patton Springs High School, Afton, on May 11.

No high-powered speaker nor loud ringing bells will ring out their departure. They will do their own speaking and reminiscing as they carry out the Commencement Program in their own way.

Nan Jo Futch, daughter of Mr. and Mrs. H. L. Futch of Dickens will be honored and recognized as the valedictorian of the class of 1959, and given the leading role in the class-directed graduation exercises.

Results as shown by the report of the Chicago Office of Science Research Associates, Inc., who prepared and graded the test, showed the 9th grade at the 89th percentile level, the 10th grade at the 92 percentile level, the 11th grade at the 94 percentile level and the seniors at the 96 percentile level.

Both groups had speculated on whether the course of the rankings would be up or down for the year's work. Both groups were gratified to find that M.H.S. classes ranked well above average for this test which, according to best authority is the best indicator of probable success in college, and is considered one of the most difficult of all Educational Development Tests.

Miss Futch has been able to maintain a four-year grade of 90.25 to win the valedictory honors. She has been very active in all phases of the high school life and her honors in the classroom have been matched during the four high school years on the athletic courts. Next fall, she plans to enter Hardin-Simmons University at Abilene, to prepare for a teaching career in physical education.

Max Legg, son of Mr. and Mrs. Peyton Legg of Afton, will be honored and recognized at the salutatorian of the class and will also be given a leading role in the class-directed program of the evening Mr. Legg has run Miss Futch a very close four-year race for high honors in the class by maintaining an average of 88.06. He has also been a very able and active leader of the school activities during his entire twelve years at Patton Springs school.

Along with his academic attainments can be ranked his accomplishments on the athletic field—a 4-letterman in his junior and senior years. Coincidentally, his plans are to enter

Hardin-Simmons University at Abilene, next fall to further his education in the field of Business Administration.

Other members of the graduating class are: Billy Goodwin, Pinky Willmon, Loydell Roberts, Jane Dove, Sherry Porter, Patsy Smallwood, Sandra Smith, Darrel Blasingame, Rodney Randolph, Ronnie Ragland, Charles Thomas and Harold Goodwin.

**Grammar School Exercises**  
Leading parts in the graduation program for the Patton Springs Grammar School graduates will be given by the honor students, as announced by Peyton Legg, principal.

Jackie Bennett, son of Mr. and Mrs. Ralph Bennett of Afton will be honored as the class valedictorian, while Janet Clements, daughter of Mr. and Mrs. Lenard Clements of Afton will receive the salutatorian honors. Jackie has maintained a Grammar School grade average of 90.25, while Janet has averaged 88.89.

Other members of the 8th grade graduating class are: Jane Ann Goodwin, Dean Willmon, Rhonda Forbis, Dianne Scott, James Koonsman, Tommy Williams, Jimmy Jack Hext, Lois Donaghe, Alene Hickman, Ralph Jones, Donna Sue Pernell, Gene Legg, Don Thomas, Larry Roberts, and B. C. Hickman.
