COTTON PRICE SOARS RESULT NEW FORECAST

WASHINGTON, Sept. 8.—Drouth damage to this year's cotton crop, reflected in an official government estimate of an 11,121,000-bale production today sent prices for the South's staple soaring.

Arid weather in the western end of the Cotton Belt caused the federal crop reporting board to reduce its forecast of this season's yield 1,360,000 running bales below its August 1 estimate.

MANY FARMERS SEE NEW SILO; HEAR ADDRESS

A large group of farmers from all part of Motley county met Wednesday morning at the farm of Will A. Campbell two miles southeast of Roaring Springs to witness the filling of a trench silo and to hear an address by E. R. Eudaly, College Station, on silos and silage.

Mr. Eudaly is dairy specialist for the A. & M. College Extension Service and is the foremost authority on trench silos in the State.

Local Talent Trio Bid By Sweetwater

Furman Vinson, L. C. Groves and Joe Berry Meador, local comedians known as the Arkansas Hill Billies, have accepted an invitation from George Barber, Secretary of the Board of City Development at Sweetwater, to appear in an amateur contest to be held here on October 17th.

Although the Matador boys are gaining quite a bit of publicity through the recent appearance of their picture in the Fort Worth Star-Telegram, this is only one of a number of similar invitations they have accepted during the summer since they first organized their troupe, and their spontaneous humour has won for them several cash prizes in the contests.

Mr. and Mrs. Walter Carpenter and daughters, Frances and Lois, returned home Thursday from Los Angeles, where they spent two weeks visiting relatives.

Motley Demos Are Asked To Pledge Quota

County Is Asked To Raise \$290. For Campaign

Motley County Democrats, who would like to see Roosevelt and Garner re-elected will be asked to raise \$290, a quota set by the State Campaign Committee as its prorate part of a \$250,000 fund sought in Texas for the national campaign, according to notice sent Pat Sheridan, chairman of the party in this county, this week.

District organization in the Nineteenth District has been completed, and every county will be asked to organize and put on a campaign to raise the funds that will be sorely needed by the national committee for the drive in the north and east.

Tom Garrard, of Tahoka, campaign director for the Nineteenth District, predicting that Roosevelt will carry Texas with ease, predicted that West Texans can and will do their part in the campaign.

Large Funds Given

No county has been allocated less than \$100. Harris is highest in the list, with \$30,000 while Dallas is second with \$25,000; Bexar third with \$20,000 and Tarrant fourth with \$15,000. Two counties, Duval and Bosque, have already turned in their full quotas, \$560 for the former and \$988 for the latter. Even before the drive began, many contributions were received at headquarters, all the way from \$1 to the \$10,000 given by Mrs. Clara Driscoll Sevier, National Committeewoman from Texas.

Looms Produce Many Materials

This photograph taken in the Ford Exposition building at the Texas Centennial in Dallas shows a loom producing materials for Ford's cars. The exhibit collection of soft, pastel-colored materials for ladies' gowns shows the wide range of manufacturing processes en-
 gaged in by Shelton Looms, a co-exhibitor of the Ford Motor Company.

Feminine visitors to the Ford Exposition building at the Texas Centennial in Dallas are often surprised to learn that Shelton Looms, one of the co-exhibitors of the Ford Motor Company, manufacture soft, pastel-colored materials for ladies' gowns as well as a complete line of upholstery material for automobiles.

Shelton's exhibit shows how mohair velvet, the most popular upholstery material for motor cars, is woven. Also a number of brilliantly colored pieces of material are displayed. Probably two of the most beautiful materials are La Loie Splendour and Crystelle, which are chosen by noted dress designers and fashioned into gowns by many

of the leading manufacturers of the country. La Loie Splendour is a translucent velvet, while Crystelle is known as needlepoint velvet. Furniture fabrics also are made. Kinkimo is probably the best known material made by Shelton Looms. A large loom is operated at regular intervals weaving two pieces of fabric at one time, one at the top and the other at the bottom. This is called "double-shuttle" weaving or weaving "face to face." Weavers in charge of the Shelton Looms exhibit in the Ford building explain not only the manufacturing of the automobile upholstery but also the wide variety of gown and dress materials on display.

"The Universal Car"

ONE NAME comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service.

That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists.

Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile.

The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. It depreciates slowly because it is made to last. There is no other car like it.

Only the Ford V-8 Gives You These Fine-car Features

1. V-8 ENGINE PERFORMANCE WITH ECONOMY

Harvest Late Feed Allowed By Ruling

Under a recent ruling by the Secretary of Agriculture a farmer in the southern region may harvest feed crops planted after July 1 and still count them as soil-conserving crops provided the production of feed crops on that farm is below normal. According to Mr. W. I. Rushing, chairman of the Motley county committee, large numbers of farms in this county will qualify under this ruling. Mr. Rushing warned farmers, however, that feed planted before July 1 must not be grazed nor harvested in any manner before January 1, 1937, if it is to be counted as soil-conserving crop.

Former Residents Return To Matador

KING OFFICERS HOLD ONE MAN FOR HIJACKING

Suspect Believed To Be Connected With Other Crimes

GUTHRIE, Sept. 7.—Jack Wright was in the King county jail here today charged with robbery with firearms and attempted murder in connection with a liquor store holdup near Benjamin Sept. 1, in which the proprietor was shot and badly wounded.
He was arrested in Colorado, Texas, his residence, and turned over to King county officers here. Some of the property allegedly taken in the robbery was recovered, officers said, and identified by owners.
Two Others Charged
Officers disclosed that complaints were on file against two other men, charging them with the same offenses, but they had not been arrested.

Robbed Another Place

The bandits, who two hours later drove up in two automobiles similar to those seen at the George store, hijacked a beer stand east of Guthrie, two men pulling guns on the proprietors, W. T. Ward, and Homer T. Melton of Benjamin. Other occupants of the cars, believed to have been two men, took 32 cases of beer, a rifle, revolver

and \$12 in cash after first binding and gagging the proprietors.

Farmers To Attend Meet At Lubbock

A number of Motley county farmers will attend the District meeting of the Texas Agricultural Association to be held in the City Auditorium at Lubbock, Thursday, September 17, according to W. I. Rushing, chairman of the county organization.
Included in the well-planned program for the day will be an address by Dr. R. H. Montgomery, economist of Washington.
Mr. Rushing declared that a special invitation is extended every one interested and that the address by Dr. Montgomery alone will well re-pay for the trip.
It is suggested that farmers get together with their neighbors and make up as many cars as possible from this county. Those that can should bring a basket dinner, while others may rather eat their lunch at a cafe.

OIL-PLATE YOUR ENGINE
Why is modern Oil-Plating your most scientific defense against a sloppy, oil-eating engine? Here is the definite reason: Oil-Plating with Germ Processed oil makes lubrication continuous! Oil-Plating, unlike a shifting oil-film, always remains fastened or Plated throughout your engine. And therefore your Oil-Plating is never absent . . . not when your engine starts . . . not while it's running. Never! Oil-Plating is lastingly Plated beneath the extra-strong "movable" oil-film that is also made possible by this alloyed oil—patented. So you are easily twice removed from excess summer wear and oil consumption . . . get your engine Oil-Plated with CONOCO GERM PROCESSED OIL

Local Pastors Close Meetings

Rev. D. D. Denison, pastor of the local Methodist church, and Rev. H. M. Weldon, pastor of the Baptist church, returned home Monday from Flomot and Addison respectively, where they have been holding revival meetings.

Both pastors report good meetings, resulting in a number of conversions. The pulpits of both the Baptist and Methodist churches will again be filled Sunday at both the morning and evening hours, by the local pastors.

PROGRAM . . .

(Continued from Page 1.)

class, and in my opinion, will prove to be highly educational, cultural and entertaining.

"Since we are cooperating with the other schools in getting these, it is possible for each troupe putting on a program to make three schools each day, one in the morning, one in the afternoon, and one at night. This makes it possible for us have these at a cost of five cents each for the grade school students, and 10 cents each for the high school. Three of the programs are to come during the school day and two of them at night. It is our plan to take up the nickles and dimes prior to the coming of each attraction, so that we shall not have to sell tickets at the door to students. Your cooperation in this new move on the part of the school to give our youngsters wholesome and worthwhile entertainment will be greatly appreciated. No student will be excluded from the programs if he or she is unable to pay the nickle or dime. The total cost of the five features is \$75.00. All that is collected above this amount will be donated to the Matador Welfare Association, as it is not a plan to make profit."

NEW ARRIVAL

Mr. and Mrs. Delbert Groves are the proud parents of a 7½ pound baby daughter who arrived in their home Monday morning, September 7, 1936. The young lady has been given the name Dell Juanice.

GIVES CASH AWAY

Bob's Foodway, local grocery gave away five checks of \$5.61 each last Saturday as a part of a cash refund plan organized by the store last year. An equal number of checks for the same amount was retained because of customers not being present when the money was given away and the same will be added to next month's amount, L. B. Robertson, manager of the store, announced.

SCHOOL . . .

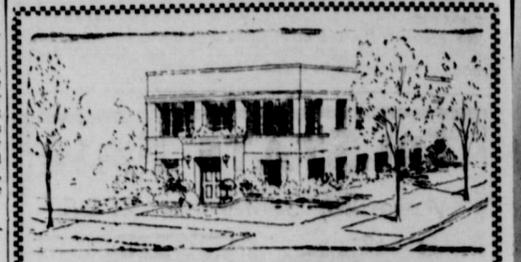

(Continued From Page 1)

learning throughout this section. The Arkansas Hill Billies, L. C. Groves, Furman Vinson and Joe Berry Meador followed with several humorous sketches and musical numbers.

Curricula Outlined

B. F. Harbour, High School Principal discussed the various courses which are open to the students this year and which will

include chemistry, alternative of physics which was offered last year. Instead of first year algebra, the eighth grade pupils will take general mathematics, with the sophomores taking either second year algebra, subordinating their course of last year or plane geometry, as heretofore offered. After this year only one year of algebra will be required in this course of study, as second year algebra and business arithmetic will be offered juniors and seniors.
