First 1942 Cotton Brings 18c

Two Bales Ginned Here Saturday As New Season Opens In County

Three weeks ahead of 1941 crop-opener, Motley county ginned its first bale of 1942 cotton, Saturday.

David J. Bryan of the White Star community north of Matador brought 1,600 pounds of snap cotton to the Farmers' Coop Gin on Thursday, August 27th, from which a 420-pound bale, classed mid 1516, was ginned Saturday afternoon. H. C. Duncan, manager of the gin, paid Mr. Bryan 18c per the cotton, which brought \$75.60. Ginning of the bale was contributed by the gin. White cotton bagging was used. The 630 pounds of cottonseed brought \$43 per ton or \$13.54, the total amount for the bale being \$89.14. Cash and merchandise first-bale prize subscriptions amounted to \$60.

Minister Declares Nation Suffering Moral Depression

"We are suffering a spiritual depression," Minister E. C. McKenzie, of Henderson, Texas, visiting evangelist at the local Church of Christ church, told the Matador Lions Club members at their regular luncheon meeting in the Methodist church basement, Tuesday.

As guest speaker at the meeting, Minister McKenzie was introduced by his cousin, Lion B. F. Tunnell. Eschewing his assigned subject, "Let Us Laugh As We Toil In Our Crisis," the dynamic minister declared, "I want to become serious... when a nation forgets or refuses the principals of our forefathers, it must perish... we are suffering a spiritual depression..."

"Last year we spent 3 billions of dollars for education in this country but our bill for crime was 16 billions of dollars... for every girl in college in this country three girls were employed by the liquor traffic. Our drink crime bill alone was six billions... I don't know what will happen when the old pioneers of this nation are gone."

Named Zone Chairman
J. R. Whitworth, secretary-treasurer of the Matador club has been named as zone chairman of Zone 3, Region 2, composed of Floydada, Paducah, Silverton, Turkey and Matador clubs. R. E. Drennan of Clarendon has been named as Deputy District Governor and a meeting has been called at Matador, the date to be announced in the near future.

At the Tuesday meeting Lion J. Rufus Emmons announced that the Motley county collection of scrap metal had provided 1-20th of the total quota for Texas of 625,000 tons.

Other guests included Mrs. G. E. Hamilton, Mrs. M. B. Carroll, C. D. Bird, Rev. M. B. Carroll and Rev. S. M. Mulkey.

Methodist Ladies To Serve
Because ladies of the Baptist church have discontinued to serve the club one banquet each month, ladies of the Methodist church have accepted the doubled responsibility of serving two banquets each month for two months.

Members expressed enjoyment of the Tuesday luncheon, program and music provided by Mrs. M. B. Carroll, violinist and Lion Sweetheart, Miss Rachel Patton, piano.

Tropic Storm Hits Coast; Rain Here

Backwash of a tropical storm off the Gulf of Mexico, which resulted in millions of dollars property loss and cost several lives, brought rain and cloudy weather to the Panhandle over the past week.

Rainfall registered here Sunday by George Springer's U. S. gauge, showed .35 inch. The total rainfall registered in Matador for August was 2.47 inches.

WRITER VISITS HERE
Jeff D. Ray, feature writer for the Fort Worth Star-Telegram, accompanied by Mrs. Ray, visited here last week in the home of their granddaughter, Mrs. M. B. Carroll, and family.

CORRECTION
The name given the young son of Mr. and Mrs. Homer T. Jinkins, who was born August 24, is Gary Pat, instead of Gray Pat, as erroneously stated in last week's issue of the Tribune.

Vast Quantity Of Scrap Iron Is Purchased Here

Response To Drive Exceeds Estimates Of Local Dealers

The scrap iron drive will end when victory is achieved by the United Nations!

Business has been booming for L. R. Bishop and V. D. Pippins, Matador's two scrap iron dealers, during the past week. They estimate purchases of between 50 and 60 tons of metal from Motley county homes, farms and ranches during the past five days and loads of iron continue to pour into the two yards. Both dealers declare the response to the drive exceeded their earlier expectations.

John Turner, hog-raiser de luxe and Flag Springs farmer sold V. D. Pippins over 16,000 pounds of iron Friday afternoon. Mr. Turner left Sunday to seek enlistment in the U. S. Marines.

Small Boy Does His Bit
A small boy, unknown to Mr. Pippins, brought his battered scooter to the junk yard and offered it for sale. The toy brought him 2c which he pocketed slowly and departed.

The junk yards offer a mute history of the advancement of this country. Scrap, like cast-off shells in the metamorphosis of progress tar the imagination to determine their origin and purpose. Random observation may disclose the rusty base of a barber chair, roller from a cane mill, fifth-wheel from a buggy, gas burning lamp from an ancient automobile, broken forge, wheel from a World War I Mack truck, cream separators, old coffee-mills, forgotten makes of farm equipment. The list is endless.

Receives \$10 Award
Miss Dorothy Woodruff received the \$10 in War Stamps award offered by business firms and individuals of Matador.

Matador Lions Club and the County Victory organization express gratitude to the citizens of the county for their patriotic response to their appeal for the badly-needed metal. Almost without exception the response has

Roaring Springs Store Is Moved

Campbell's Food Market No. 2, at Roaring Springs has been moved to a new location in the Gabriel building next door to the Thacker Supply Company.

Pioneers Re-Elect C. C. Haile

C. C. Haile, West Texas pioneer of Afton, was re-elected president of the Motley-Dickens Counties Old Settlers' Association for the 13th annual term, at Roaring Springs Pioneer park pavilion, Thursday. Mrs. J. N. Fletcher was also re-elected secretary and treasurer.

The Thursday meeting, celebrating the organization's 20th anniversary, was proclaimed one of the most successful reunions ever held. All entertainment was provided locally, including the pioneer parade and the afternoon rodeo.

Pioneers from all sections of this area were present, meeting friends and re-living early-day vicissitudes. The crowd during the entire day was so great that facilities of the ample park grounds were taxed for room. Following the impressive memorial services at 11 a. m. a basket lunch was held on the grounds, followed by an address by Judge T. T. Bouldin of Mineral Wells and the pioneers' home-managed rodeo, which offered an outstanding attraction.

Complete list of contests, names of contestants and times, will be published in next week's issue of the Tribune.

Lady Radio Musician Offers To Cook For Cowboys With Matador Chuckwagon

"Oh! Bury me not on the lone prairie Where the wild coyotes can howl o'er me."

In Dallas, 30 miles east of where the west begins, there is a lady violinist employed by a radio studio who wants to come out to Matador and cook for the cowboys with the range chuck-wagon during her two-weeks vacation.

District Attorney John Hamilton has typed two pages of legal terms, deft phrases left over from college and plain wording, in a delicate explanation to the lady that conventions being what they are in the cattle-country, ladies aren't being used in that capacity at present.

He has pointed out that a slight issue is being contested between the motion picture producers and West Texas ranch owners regard-

County Is Over War Bond Quota

Undaunted by the seemingly impossible quota of War Bonds assigned for the year, Motley county is keeping pace with the monthly quotas, according to G. E. Hamilton, chairman of War Bonds and Stamps sales. Mr. Hamilton issued the following statement, Monday: "Motley county's quota for stamps and bonds for September has been placed at \$12,800. We have not failed to over-subscribe any monthly quota in the past months. Now that a large number of our own boys are on the battle fronts of the world, let's give them our support by over-subscribing for September. Take an early start and sacrifice, if necessary."

Ration Board Has Two New Members

C. A. Pitts and Henry Ford have been appointed as new members to the Motley County War Price and Rationing Board according to D. I. W. Birnie, chairman.

Mr. Birnie said the new members would augment the present board to handle increasing requirements as the rationing program advances. Mr. Ford will probably be in charge of the price ceilings while Mr. Pitts may be assigned sugar rationing.

War Rationing stamp No. 8 became valid for the purchase of five pounds of sugar during the ten-week period which started August 23 and ending October 31.

Stamp No. 8 permits a larger amount of sugar and the ration period is longer than has been assigned for any previous stamp but each person will have to continue using sugar at the original rate of no more than half a pound per week to make the five-pound ration last ten weeks.

Tribune's 'Letter-From-Home' Plan Is Aided By Church

Welfare Association Will Meet Next Wednesday To Launch Year's Program

The Matador Child Welfare Association will begin its yearly meetings next Wednesday afternoon, September 9, at 4:00 o'clock in the recreational room, located next to the first grade room in the grammar school building.

The year's activities will be launched with a Health program for the initial meeting to consist of "Health Talk" by Dr. Albert Traweck Jr., and the following musical selections, Chorus: "Kentucky Babe" by pupils of Mrs. G. E. Hamilton and a piano solo, "To a Wild Rose", by Rosemary Bloodworth.

Officers of the Child Welfare Association for 1942-43 are: President, Mrs. Albert Traweck; program chairman, Mrs. Chas. Keith; financial chairman, Mrs. D. P. Keith; welfare chairman, Mrs. Ward Rattan; secretary, Mrs. H. H. Courtney; treasurer, Mrs. Buford Hobbs, and reporter, Mrs. Harold Jones.

Ten Years of Service
The Welfare Association has served this community for over ten years. The organization is made up of the teachers, mothers and other interested citizens of the community, and functions the same as any Parents and Teachers organization, working for the good of the schools and the children and helping to bring about better understanding and cooperation between parent and teachers.

All teachers, parents and other patrons are extended an invitation and urged to attend the meetings this year for the good of their children and the community. No membership fee is charged, and the meetings are open to anyone interested in civic welfare of the school in its relationship to the community. The Child Welfare Association meets only once a month, the second Wednesday in each month.

Interesting and worthwhile programs have been planned for the year, and every mother is especially needed in order to carry out the work. The Child Welfare Association has always sponsored the lunch room, providing free lunches and clothing for underprivileged children, and has bought pictures and books for both grade and high schools, to mention only a few of the projects which it sponsors. This year the organization plans to work and cooperate with the school in sponsoring a Health program throughout the school in cooperation with the doctors and dentist of Matador. The assistance of parents in this phase of the work is essential to the schools, and particularly in these war times, officers of the association point out.

Programs planned for the year include the following tentative subjects: Spiritual; Sex Education; A Recreational program for the children of Matador; The Need of Public School Music in Matador Schools. All to be discussed by competent speakers, and two social programs to be provided during the year. Special music will be furnished by school pupils and music pupils of both Mrs. G. E. Hamilton and Mrs. Homer Kingery.

"If you are interested in your children, the Child Welfare Association needs you," is the appeal made by this worthwhile organization.

Announcement is made of the marriage on Thursday, August 20 of Mrs. Deva Morrison of Crowell and Will C. King of Roaring Springs. The vows were exchanged in the home of Mrs. J. W. Owens, Crowell, with Rev. Longeno, the Methodist pastor of that place, officiating.

Following a wedding trip to Ft. Worth, Mr. and Mrs. King returned to Roaring Springs, where they will make their home.

Mrs. King has accepted a position as teacher in the Whiteflat school this year, having taught there four years ago. She taught in the Crowell school last year. She is a graduate of North Texas State Teacher's College, Denton and holds B. A. and M. A. degrees. She formerly resided at Archer City.

Mr. King has made his home at Roaring Springs for the past 21 years. He is representative for the Magnolia Petroleum Company, having served that company as local agent for 15 years.

Quota Is Set For Red Cross Kit Bags For Men Embarking For Foreign Duty

A quota of 400 has been accepted for making Red Cross kit bags, and filling them, by the local Red Cross Chapter, according to Miss Mary Keith, chairman of war production.

These comfort kits are to be issued to each soldier and marine embarking for foreign duty, and an urgent appeal is made for aid in making and filling them for use.

"One dollar per kit will be the cost of filling each bag," Miss Keith stated, "and although every chapter will undoubtedly wish to finance the cost of a number of kits with its own funds, the entire cost can not be met in this way. Chapters should consider this as a year-round community project in which other organizations and also individuals should be allowed to participate."

Donations Appreciated
An appeal for donations to this worthy cause has been issued by the local Red Cross chapter, and money may be left with Miss Keith or Mrs. D. I. W. Birnie at the Red Cross quarters, or with W. N. Pipkin, treasurer of the chapter, at the First State Bank.

Small chapters that cannot be expected to fill their quota within a three months period, should hold the surplus bags until they can arrange to have them filled.

In a recent letter from Red Cross headquarters, it was urged that as the materials arrive, production of one-ninth of the quota should be rushed, with the balance to be shipped in monthly installments.

Minimum Requirements
The minimum shipments are composed of 180 yards of twill and 864 yards of tape. These quantities are sufficient for making 400 bags, of the following description:

Material for bags: Olive drab cotton fabric, cut 12"x31 1/2"; cotton tape olive drab or black; two

from the drain of the armed service, higher war-work wages and the general manpower shortage.

His idea was transmitted to the newspapers of Texas by the Matador Associated Press correspondent and now District Attorney Hamilton has a new regard for the power of the press.

It was carried by all the leading dailies of the state and the Dallas Morning-News published an editorial and cartoon by Knott commending the move.

From All Walks Of Life

Over 50 applications have arrived and each mail brings more. Two women have offered their services and men from 17 to 67, from almost all stations in life, have answered.

Many experienced cowboys have applied and others admit that they know nothing about the work but are attracted by the romantic appeal of life in the saddle.

None are being employed through correspondence or by telephone. Actual conditions, wages and requirements are explained to those who seem eligible for cowboy work.

One man and his son who arrived in person last week have found employment.

Cowboy From South America One application is from a man who has been a cowboy in South America and worked on several large ranches in Texas.

if possible but no definite promise of employment was made.

Principal problem in applications was lack of facilities to handle families. Children of school age would be isolated in remote areas where it would be impossible to attend school.

A Houston youth, classified 4-F by the Selective Service, because of asthma, wanted to work out-of-doors in the sunshine, hoping to find relief in this climate.

The publicity, while providing considerable letter-writing for District Attorney Hamilton, is believed to be beneficial to the ranching industry in this section because sufficient help may be recruited from the applications.

Any rancher who now needs help or anticipates such a need in the near future, will find that there is no dearth of cowboy manpower, by contacting Mr. Hamilton.

Brother Used To Run Cattle

Howard Hamilton, printer-foreman at Pampa, former Tribune partner and brother to the District Attorney, released a statement to the Associated Press following his reading of the story, in which he declared his brother was "off the beam" and that drug store cowboys would be useless in actual cowboy work.

His father, G. E. Hamilton of Matador, said that the only cattle Howard ever run was instances as a boy when he chased in the milk cows.

Say you should be here drilling with us. We wear dress uniforms for drill quite a bit—and we nearly died. It is close to 100 every day, but I guess I'll make it.

We start to school next week.

Change Effective For Driver Exams

Miss Rachel Patton, deputy in the office of Sheriff H. H. Courtney declared that information had been received to the effect that Patrolman White's schedule had been changed until it no longer covered Motley county.

All persons 75 or over must pass examinations before a driver's license can be issued. Fathers must make affidavit that youths 14-16 need a license after they have passed examinations and fathers of minors 16-18 must assume responsibility before a license is granted.
