TRAIL DUST

By DOUGLAS MEADOR

History is a series of crises. This nation has never known a period without seemingly insurmountable difficulties and its strength is fused with the noblest of courage in the furnace of calamity.

Except that it is tested at frequent intervals our faith may come valueless like soil into which no seeds are planted.

Thunder continued to rumble over the storm had passed and the lightning flashed in the rapping cottonwoods. Brown waves of an angry little river leaped the suspended fence post.

Lightning lashed the water like whip. Baby chickens were crying and my mother began collecting them in her apron. Within a few minutes they were in a box on the door of the kitchen.

Warm attention and the world became serene. Misty clouds of purple and gold drifted across the western horizon and there was a fragrance of wet earth; of age and sodden trees. I walked the gate and returned, allowing the cool mud to push up between my toes, then washed my feet in a pan of rainwater by the doorstep.

Experience gained in observing the mistakes of others is a profit upon which there is no tax.

A friend back from the unspoiled beaches declares he witnessed a girl take her bathing suit out of a Band-Aid box.

I would prefer in the random selection of a new friend, a man with sweat on his brow to the one holding a sweating beverage glass.

On a siding somewhere in Arizona the train waited patiently in the heated darkness. The inert engine breathed like a giant in distress while grimy men brought ice through the car brought to rest, depleted boilers. Across the aisle a weary young mother brushed the hair away from her eyes and looked at the fretful baby sharing the stiff red cushion. For an instant her eyelids dropped as if pulled by laden weights. The child stirred and she was awoken again.

Without ceremony one member of the service crew returned. He was a tall, raw-boned man with a slight smile on his lips. His long fingers held a small bright ball of crushed ice which he gave to the tired mother without comment. At that moment a roaring train passed like a mighty bolt of thunder and the car lurched, easing the wave of embarrassment which the strangers experienced. The man was gone as the mother pressed a piece of ice to her lips and then touched the child's brow with her finger. A true gift must come from the heart; the package is not of consequence.

LEAVE FOR WASHINGTON

Mrs. W. R. White and children Theretha and Roger, left last Thursday for Spokane, Washington, where they are visiting relatives.

FORMER RESIDENTS VISIT

Mr. and Mrs. Phil Green and daughter, Carita of Borger, formerly of Matador, visited here during the week-end holiday with his parents, Mr. and Mrs. J. C. Green, Sr.

Mr. and Mrs. E. F. Springer left Tuesday for San Antonio, where they will spend several days visiting their daughter and son-in-law, Sgt. and Mrs. Gustav Walldorf, and with other relatives.

Dr. Stanley Is Named On Council

Dr. J. S. Stanley was appointed Tuesday to fill the unexpired term of retiring city Councilman C. W. Giescke. The action was taken at the regular meeting of the council after Mr. Giescke had indicated he desired to tender his resignation due to changes in business affairs which would affect his continuing to serve as a city official.

In accepting the appointment, Dr. Stanley declared, "Most of us are occupied to the extent that additional duties are easily excused, but I feel we should accept the responsibilities of our community. If I can be of service on the council I want to do my share as a citizen of Matador."

New Well Is Costly

Cost of the new well, including drilling, casing, 1500 feet of lines, pump and labor amounted to \$6,500. Available funds will cover the general fund and water-works fund will be exhausted. In addition to current monthly obligations of the city, payment was also authorized to volunteer firemen for six months of pay amounting to approximately \$400 (firemen are paid a small amount for each fire call answered).

Pump for the new well, costing approximately \$1,600, purchased from Johnson-Berryman Motor Company, has not been paid for, but the firm granted an extension of 30 days. With available funds and collections during the period, enough money will be on hand to meet the obligation.

Collection of a number of delinquent water bills were authorized to augment the almost depleted treasury. Service will be discontinued on accounts where collection can not be effected. The \$12 meter deposit does not pay in advance for water but is merely for the use of the meter and is returned when the meter is removed.

Many At Rites For Victor Fogerson

A large group of friends and relatives drove to Silvertown Monday, where they attended funeral services for Victor Elliott Fogerson, 15 year old, who died at 2:45 PM Saturday in Northwest Texas Hospital in Amarillo. He had been in the hospital about a week.

Funeral services were held at 3:00 PM in the Silvertown Church of Christ, with Douglas Funeral Home in charge of arrangements.

The youth was born Sept. 9, 1937, at Matador, and was a freshman student last year in Silvertown High school, where he lettered in football. He was a member of the Church of Christ and was active in the Silvertown Future Farmers of America chapter. Death was attributed to sleeping sickness. It was first believed he suffered a brain infection when he was rushed to the Amarillo hospital on Monday last week.

Survivors are his parents, Mr. and Mrs. Ware Fogerson, a brother, Stanley W. and a sister, Dianne, all of Silvertown; his grandparents, Mr. and Mrs. R. A. Day of Matador, Walter Fogerson, Clovis, N. M. and Mrs. Florence Fogerson of Silvertown.

Attend Funeral

Among those attending the rites were Mr. and Mrs. Day and son, E. A. Mr. and Mrs. George Birchfield, Mrs. Bertha Garrison, Miss Bernice Garrison, C. D. Garrison, Jr., Mr. and Mrs. Ben Edwards, Mr. and Mrs. Tom Berryman, Mr. and Mrs. Joe Gaines, Mr. and Mrs. Jerry Birchfield, Mr. and Mrs. William K. Birchfield, Jerry Birchfield, Jr., and Mesdames C. P. Waybourn, A. A. Harp, T. E. Cammack, Margaret Newman, Bernice Knight, Louis Poteet, Ora Faye Patton, Bert Schweitzer, Bennie Keltz, John Lawrence, Clyde Gilbert, Robert Darsey and T. J. Darsey.

COME TO CHURCH SUNDAY

TRIBUNE WANT ADS PAY

County Agent Is Employed

W. C. (Bill) Paimmeyer of Knox county was employed Tuesday during a special meeting of the Commissioners' Court, to serve as agriculture agent for Motley county.

Attending the meeting was J. A. Scofield, District (3) Agent for A&M Extension Service, whose headquarters are at Vernon. Mr. Paimmeyer will assume his duties August 1. He will fill the vacancy which resulted with the resignation of former county agent Rufus Emmons.

Mr. Paimmeyer is a veteran of World War II with three years of service and he is also a member of army reserves. For the next 30 days he will be in an army camp receiving required training. He has served as county agent of Knox county for the past 2 1/2 years. Previous to that he was county agent for Hall county for one year and assistant county agent of Wichita county for two years. He is married and he and his wife will move to Matador to make this their future home after August 1st.

During the special meeting of the Commissioners' Court the county officials considered employing a county home demonstration agent. They were advised, however, that no qualified home demonstration agents are available at present and that six counties have placed previous applications.

County Judge Vance Gilbreath said that action was deferred until economic conditions are more favorable here and the assurance of tax revenues make the step feasible.

4th Passes Here Without Incident

Independence Day passed in Motley county without incident (or accident) according to Sheriff John Stotts. While most of the nation was rolling up one of the largest death and destruction tolls in history, the area used sufficient caution to prevent being included in the ghastly statistics.

While there was some evidence of more than normal exuberance the county jail passed the Fourth without extending its hospitality to a single guest.

Flags waved from the court house, postoffice, American Legion, VFW, Boy Scouts hut and most of the business places in town. There was little activity of any kind on the streets during the day. A dance at Old Settlers pavilion at Roaring Springs was described as enjoyable and well-ordered.

LISENBYS OBSERVE 50th ANNIVERSARY

Mr. and Mrs. J. C. Lisenby, pioneer residents of the county, Sunday observed their Golden Wedding anniversary.

The day was spent quietly at their home here with their five daughters and their families calling in the afternoon. They were: Mr. and Mrs. C. W. Ross of Crowell; Mr. and Mrs. Jack Lacy and daughters, Barbara and Delores, and Mr. and Mrs. Herbert Stephens and children, Bobby, Roy, Jean and Sheryl; Mr. and Mrs. Frank Montgomery and daughter, Bette Fran, and Mr. and Mrs. John Irwin and children, Cecil, Jimmy and Mary Margaret, of Matador.

Two nieces, Mrs. D. I. W. Birnie of Matador and Mrs. Dorothy Jean Rushing and daughter, Darla, of Wheeler, and Mrs. Lisenby's sister and brother-in-law, Mr. and Mrs. F. M. Casey of Whiteflat, were other callers.

Miss Bertha Mae Rattan, daughter of early day Motley County settlers, the late Mr. and Mrs. Littleton Rattan, and John C. Lisenby were married July 5, 1903, at Whiteflat, Texas and have made their home in various communities in the County since that time.

They moved to Matador several years ago after Mr. Lisenby retired from active farm and ranch activities.

Baptist Pastor To Be Here Wednesday

Rev. Bruce Oliver, who has accepted the call as pastor of First Baptist Church here, will arrive next Wednesday, with his wife and baby son, to assume his duties. He will conduct mid-week prayer service Wednesday night, it was announced.

Morning services Sunday, July 12, will be conducted by T. E. Long, who will use as a subject, "A Model Church". Elbert Reeves will be in charge of evening services.

Everyone is extended a cordial invitation to attend these services.

Swaringen Re-elected By Legion

J. H. (Hub) Swaringen was re-elected Monday evening for his third term as Commander of the Fleming Post American Legion. Other officials named to office at the joint meeting of the post and Legion Auxiliary buffet covered-dinner were: 1st vice-commander, Sterling Price; 2nd vice-commander, Joe B. Meador; post adjutant and finance officer, J. R. Whitworth; chaplain, O. V. Johnson; historian, J. Tom Hamilton; service officer county and post) Vance H. Gilbreath; child welfare chairman, V. R. Beschamp; sergeant-at-arms, Ward Rattan.

Outstanding feature of the program was an address by Cecil Fred Irwin who represented Motley county at Lone Star State held in Austin, June 6th to 13th.

The covered-dish dinner is served at the joint meeting held the first Monday evening each month.

Governor Rapped For Failure Of Teacher Pay Hike

Governor Allan Shivers is responsible for the failure of the Texas State Teachers Association's bill to raise teachers' pay by \$600 per year, according to Superintendent Bert Ezzell, in a letter to the Tribune.

"The bill failed and not because of the \$600 business but because of the Governor's stubborn insistence on placing most of the cost of the increase on the local districts and land-owners in particular."

"The teachers of Motley county were universal in stating that they did not want a raise if the local land-owners had to pay it. Under the Governor's plan local taxes in the Matador district would have required raising about \$5,200, while the raise he proposed for the teachers would have amounted to about \$4,200. He did not mention this phase of the business..."

Excerpts from a TSTA news release enclosed by Superintendent Ezzell declared, "... administration leaders consistently refused to consider any reasonable solution to the teacher pay problem and insisted on increasing local property taxes to finance any raise."

"No Real Compromise" TSTA officials advised the organization's 53,000 members that no real compromise was ever offered by those opposing (continued on back page)

Showers Paint Hope In Drought Picture

Lions Club Rain Prayer Is Answered

At the conclusion of the regular Tuesday luncheon-meeting of the Matador Lions club, Lion Rev. W. B. Vaughn was asked to pray for rain. The retired Methodist pastor asked God to forgive the people their iniquities, and, if within His plan, that animals be spared the suffering; that the earth be made to bloom and become fruitful through bountiful.

Weather forecasters had repeated their familiar predictions; continued hot and dry. Yet within eleven hours rain was falling in Matador. It was the first time in the history of the club that Divine Blessing in the form of rain-fall had been invoked.

In the absence of Boss Lion Bill Moss (who is attending Lions International in Chicago) 1st vice-president J. R. Whitworth served as club chairman. Honorary guests paid a number of visitors including A. Q. Carson for his services in cleaning Veterans Park and for his work in keeping the city clean; P. H. McDorman for the successful water well drilled for the city (he represented his son-in-law, Bill Woodin, the driller, who was unable to attend); Bob Stafford (of Roaring Springs) in winning the district tractor-driving contest, and Mrs. W. R. Tilson, pioneer county resident, on the event of her birthday.

Youth Is Speaker

Principal speaker was Cecil Irwin, Matador high school junior, who had just returned from Lone Star Boys State at Austin. The trip is sponsored jointly each year by the Lions club and American Legion. He was introduced by Lion Elbert Reeves.

Young Irwin, who is also a leader in FFA work, expressed his appreciation to the Lions for their aid in sending him to Boys State, and declared that many of the boys to whom he talked were sponsored by Lions clubs in other Texas communities.

He said approximately 500 boys attended Boys State. He declared one of the most outstanding features of the week's training was that of acquainting boys with the importance of voting. The week in Austin included a trip through the capitol building, swimming trips and speeches by state leaders.

Soil Conservation Group Asks Aid To Stem Wind Erosion

Possible loss of soil through wind erosion during fall and winter months was one of the problems considered by the Upper Pease Soil Conservation District meeting Tuesday afternoon in the Cottle county courthouse at Paducah.

The problem was presented by the chairman of the Cottle county PMA committee who declared under wheat allotments much of the rich soils in the drought-stricken area would be unprotected during the fall and winter months.

He made a proposal to the board that the PMA and soil conservation district ask the Farmers Home Administration for loans making available funds to sow rye during the fall for a cover crop (moisture conditions permitting). The soil conservation district approved the action and voted to join the PMA in requesting the funds.

The meeting was held at 2 PM with James E. Taylor of Matador as chairman. Other members of the board present included George A. Mayes of Paducah, Bryce Marshall of Cee Vee, L. L. Goodwin of Paducah, and Mrs. Ray Mitchell, secretary.

Mr. and Mrs. Eldy Phillips of Grandfield, Texas were visitors here Sunday with Mr. and Mrs. Algie Groves. They are former Matador residents.

Claud Stearns and daughter, Cora Beth of Temple, visited here overnight with relatives, the former's father, L. A. Stearns, and brothers, Alvin and Elmer Stearns.

COME TO CHURCH SUNDAY

Scattered Rainfall Covers Large Area

A RAY OF HOPE was painted on the canvas of West Texas' drought picture late Tuesday night when cool showers began falling on the sun-baked soils of half a dozen counties.

Amount of precipitation here was in dispute to some extent. The official amount by the US rain gauge at the city wells, maintained by City Water Superintendent Lee Burns, was .45-inch. Three other rain gauges in the western section of Matador measured from .72 to .77-inch.

Roaring Springs had one-half inch and Spur received one inch. Reports from south of Spur in the vicinity of Girard said three inches of moisture had fallen.

Reports declared an area west of Whiteflat had received a heavy rain and Turtle Hole line camp area also received good moisture. Except for some thunderstorm activity the rain fell quietly here with but slight runoff. Lightning caused several interruptions in electrical service.

Radio reports said drought-stricken Dawson county which had not received any rainfall for three years, saw brighter prospects with as much as two inches in some sections.

Clothesline Is Charged

Mrs. Eldred Seigler who lives in the 1200 block on Eubank street received electric burns and shock while hanging out clothes Wednesday morning. Rain had caused a short-circuit in the garage to which the clothes line was attached.

Mrs. Seigler tore the skin from a finger and was slightly burned in securing release from the charged clothesline, while standing on wet ground. West Texas Utilities company electricians Freddie Welling and James Price repaired the faulty wiring.

Accident Fatal To Former Resident

Word was received here Tuesday morning by Mr. and Mrs. Hawley Plemons, advising of the death of their daughter, Mrs. Vesta Witke, of Tooele, Utah. Mrs. Witke died Monday night of accidental gunshot wounds suffered twelve hours earlier, according to the message.

A brother, Elmore Plemons of Taylor, Texas joined a sister, Mrs. Bill Lowrimore of Lubbock and left Tuesday for Tooele, to assist with funeral arrangements.

The funeral will be held Friday at 2 PM Pacific time (4 PM here) according to a message received today.

Besides her parents, Mr. and Mrs. Plemons of Matador, and one other brother, Will Plemons of Houston, four children survive: Dayton, Patricia, Jack and Don, all of Tooele.

Vesta Plemons was born March 8, 1907 at Plemons in Hutchinson county, and moved to Motley county with her parents while a small girl. She was reared in this community and is remembered by a host of friends.

Whiteflat HD Club To Sponsor Supper

Whiteflat Home Demonstration club will sponsor a supper and Forty-two party, July 17, it was announced at a recent meeting of the organization.

The supper party will be held in the club room, and will begin at 7:30 p. m. Everyone is invited to bring sandwiches and salad for her family.

ERRATUM

The Tribune wishes to correct an erroneous statement appearing in the July 2 issue. An item regarding the Stanley Pharmacy moving to the Jackson building should have read: The cooling system is effected through the installation of two 5-ton Frigidaire mechanical coolers. One of the machines was in use in the former location and a new one was added to control the heat in the larger building.

Furthermore, the installation was made by the West Texas Utilities Company, Jack Norman local manager.

CAMP MEETING TIME AGAIN ON BLANCO CANYON

Its camp meeting time again at the Plains Baptist Assembly in Blanco Canyon, south of Floydada.

Dr. Carl Bates, popular and forceful pastor of the First Baptist church, Amarillo, Tex., will be the camp pastor at Plains Baptist Assembly on the Ralls-Floydada highway. More than 500 young people of the ages 17-25 are expected to attend the camp beginning Monday, June 22, at 2:00 P.M.

The camp which is held annually, is under the direction of the 181 churches of Baptist District Nine which embraces a territory from Canyon to Spur. There will be a complete program of recreation including swimming provided for the young people. Outstanding speakers from over the state will conduct seminars during the day.

All meals will be prepared in the newly enlarged dining hall and kitchen at the camp. Property evaluation of the camp is now more than \$150,000.00, according to Rev. Franklin Swanner, district missionary. Eighty-one churches own individual cabins besides camp owned property.

The Youth Camp will dismiss at 1:00 o'clock Wednesday, June 24.

The swimming director this year will be Glenn Wilson and the song and music leader for the camp will be T. F. Cox of Lubbock.

Miss Ardelle Hollock of Lubbock will be in charge of the recreation periods.

Appearing on the programs on the different days will be Mrs.

Summer, with record breaking heat, arrived thirty days early ... and I've been working double hard to help you beat the heat!

... working to keep you and your family comfortable in spite of the abnormal heat ... working to keep the food in your refrigerators and home freezers fresh and wholesome ... keeping air conditioners, room coolers, and fans running full speed day and night.

Yes, when the temperature soars there's much, much more work for me to do in addition to my regular chores around the home ... work that I'm glad to do so long as it's helping you.

One finger turns the wheels ... even when the car is standing still!

Now! Power Steering for as low as \$134⁴⁰

Ford brings you the lowest priced power steering in its field ... and the finest in power steering at that!

We all know the advantages of power steering. Most of us would like it. And now many more of us can afford it! By spending testing time and development money, Ford brings you Master-Guide power steering for nearly three quarters the price of any other system in its field. For the facts, read the captions on this page. For a thrill, Test Drive Master-Guide power steering in the Ford!

So simple ... So safe!
Blowouts become less risky with Ford Master-Guide power steering. It helps you steer to a safe straight-line stop. And power steering helps you park easier, too ... does up to 75% of the work for you!

No radical change in driving habits! Unlike many other systems, Ford's system gives you much the same "feel" of handling that you get without power steering. Then, too, you always turn the wheel the same amount as you would with regular steering.

**Suggested delivered price.*

And, because Ford's Master-Guide power steering has a more natural "feel" than many others, you don't have to change your driving habits radically. The steering gear ratio is the same as without power steering and the hydraulic system gives you the right assistance when you need it.

Worth more when you buy it ...
Worth more when you sell it!

Farm Bureau Strength Shown In Legislature

The Texas Farm Bureau Federation lived up to its slogan—"protects and promotes agriculture"—during the recent session of the 53rd Legislature in Austin, according to John Ray Hunter, President of the Motley County Farm Bureau.

"For farmers and other rural dwellers the most important aspect of the session was the absence of any real threat to take away the rural road program annual appropriations, the counties' share of vehicle registration fees and county road bond assumption monies," Hunter said.

During the 1951 session an attempt was made to take money from those sources, plus the farmer's refund on the tractor tax, for use in the construction of super highways. The Farm Bureau mustered enough strength to defeat the foray, and rallied late in the session to push through a gathering tax on natural gas.

This year at the state capital a bill was introduced to take away one-fourth of the farmer's refund on the tractor gasoline tax. The bill was never considered. Also, a bill was introduced to increase the sales tax on gasoline from four to five cents a gallon. It, too, was never brought up for vote. Both bills were contrary to Farm Bureau resolutions, and the county Farm Bureau organizations over the state rose up to help prevent their passage.

Schools Are Protected
Another bill which would have been harmful to rural dwellers—had it passed—was the Administration backed plan to reshuffle the state's school funds and force local districts to bear an increasing share of the Minimum Foundation school fund. The Farm Bureau was among many civic-minded groups which successfully fought the bill.

Among the more important bills passed this year with Farm Bureau backing approval or sponsorship, included legislation designed to eradicate the swine disease, vesicular exanthema, a bill which regulates the sale, use and distribution of hormone-type herbicides, a law which gives grain farmers their best warehouse legislation to date, and better seed laws.

The Texas Farm Bureau was instrumental in securing an increase in appropriations of nearly a half million dollars for the Texas A&M College Extension

Service and Experiment stations. Of this amount, \$238,320 was earmarked for use in the counties.

Austin Office Opened
County president Hunter said that Texas Farm Bureau opened an office in Austin this year to facilitate the work on its legislative program. The office was staffed by Vice-President C. H. DeVaney of Coahoma and State Director Loys D. Barbour of Iowa Park. Both men are farmers and experienced in farm legislation.

"We were going to make sure that the interests of farmers and ranchers were protected this year," Hunter explained. "That is why Farm Bureau opened the Austin office. Also, it was easier for the various county Farm Bureaus over the state to coordinate efforts with the state organization. The Austin office kept the county leaders informed on what was happening and what needed to be done in order for a certain bill to be passed or killed. Then it was up to the counties to contact their elected representatives."

Corned Beef In Summer Gel-Loaf

Gel-cookery, the branch of food preparation using unflavored gelatine, produces this attractive corned beef and cheese loaf. As party fare, it is filling yet delicate in the subtle blending of meat, cheese and vegetable flavors.

Main dishes calling for unflavored gelatine are summer treasures . . . easy to prepare, cool to tempt the appetite. For this corned beef and cheese loaf there is little preparation . . . the meat is canned and ready for use.

Molded Corned Beef-Cheese Loaf
2 envelopes unflavored gelatine 1½ cups mayonnaise or salad dressing
1 cup cold water 1 tablespoon grated onion
1 teaspoon salt 1½ cups finely diced celery
2 tablespoons lemon juice ½ cup finely diced green pepper
¼ teaspoon Tabasco 12-oz. can corned beef, finely cut
½ cup grated American cheese

Soften gelatine in cold water. Place over boiling water and stir until gelatine is dissolved. Add salt, lemon juice and Tabasco; cool. Gradually stir into mayonnaise or salad dressing; mix in remaining ingredients. Turn into a 6-cup loaf pan; chill until firm. Unmold and garnish with sliced peach halves filled with pickle relish and salad greens. YIELD: 8 to 10 servings.
Note: Cut recipe in half to fill 5 to 6 individual molds.

Our Terrible Thirst

If your town doesn't have to worry about its water supply, you're lucky. A lot of towns do.

Trouble is, some communities never dreamed that they might double and triple in size, that new industries would come to town, that citizens would use more water than ever before. We've reached the point where we use about 1100 gallons per person a day in the United States.

Yet why should water be short when 25 times our needs falls from the skies every year?

Unhappily, it doesn't always fall when and where we need it most. Many reservoirs were built with no idea that towns would grow so fast. And 75% of our communities rely on water from lakes and streams. Today many of these are polluted and require treatment before use.

When faced with a shortage, cities suddenly discover to their sorrow that new water sources take time to complete.

For years General Electric has contributed toward development of better and more efficient water-works equipment. This is not so unusual, since motors and other electric equipment are important in water systems, large or small.

Some of the things we've learned about water supply, and the related problem of water pollution, have been put together in motion pictures and booklets, prepared in cooperation with the U. S. Public Health Service. Any town fathers who are interested in what's available can write to General Electric, Room 123-2, Schenectady 5, N. Y.

DRAFT LAW

Rules And Regulations

EDITOR'S NOTE: This is the first of a series of ten articles on the draft law, its rules and regulations. The series will continue in subsequent issues of this paper.

The local draft board is placed in a position of responsibility, under applicable laws and regulations, of which men should be aware because of their civil liberties.

There are three categories of men covered: (1) farmers or workers, (2) college or university students, and (3) men in general and all other civilian activities.

In the case of farmers or farm workers, the chief question asked is: Is he employed in the production for market of a substantial quantity of agricultural commodities necessary to maintenance of national health, safety or interest?

All such deferments are for limited periods.

such a statutory deferment before.

If the student has previously received such a deferment, then further deferment is up to the local board. The board can consider information outside the scholastic as well as scholastic information. The widely-publicized draft test for college students can be ignored by local boards under draft regulations if the board so desires. Score on the draft test and class standing of the student are provided as information for the board.

Here are three things the board considers when it is looking at a case of possible deferment for farming or other civilian activity: (1) Is the man engaged, except for a seasonal or temporary interruption, in the activity? (2) Can he be replaced by persons with his qualifications or skills? (3) Would his removal cause a material loss of effectiveness in the activity?

In the case of farmers or farm workers, the chief question asked is: Is he employed in the production for market of a substantial quantity of agricultural commodities necessary to maintenance of national health, safety or interest?

All such deferments are for limited periods.

Put your Ford in "Trip-top" shape

A vacation trip is one time when you want your Ford in the pink. Travel-wise owners make sure by having their Fords "Travelized." And not at the last minute, either! A week or so before their trip, they get the all-round check-up which their Ford Dealer is so well equipped to perform. Then they know they're driving away in a car which has been given a real "travel-check" by Ford mechanics who have at their disposal the advantages of factory-approved methods and Genuine Ford Parts. Try this "Travelizing" idea on your own Ford. Let your Ford Dealer go over it point by point, with special attention to the eight under-hood items displayed below. You'll say the peace of mind alone was worth the little time and money it cost you.

WATER IS THEME FOR FAIR PROGRAM

"Water For Texas" will be the timely theme of the Agriculture Show at the 1953 State Fair of Texas, Oct. 10 thru 25, E. C. English, the fair's agriculture chairman, has announced.

The show will take the form of a gigantic, three-dimensional "Agriculturama" that will show how Texas farmers are meeting their important water resources problems, he revealed.

A huge central exhibit will feature old Mother Nature herself, turning the crank on a "weather machine" that will cause simulated rain, thunder and lightning at intervals. The hydrological cycles—what happens to water after it falls as rain and how it is returned to the air again—will be portrayed. The rainfall belt in Texas will be illustrated to show the relation of water to farming and ranching on a statewide basis.

The Texas A&M College Extension Service will again cooperate with the fair in setting up individual exhibits for each of the 12 Extension districts of the state. Water will also be featured in the district exhibits, which will be bigger and designed to give a realistic impression of great depth, Mr. English said.

There will be a greater variety and quantity of farm products on display, all district exhibits will feature principal crops grown.

Water Important Factor
"Water was chosen as the central theme for the show because it is one of the most important single factors in today's agricultural economy, particularly in Texas," Mr. English said. "Many people don't realize the vast quantity of water required

to produce farm crops, or the enormous amount that just one plant consumes in growing to maturity. Many Texans also have little notion of the importance of irrigation to farmers in some sections of the state. Texas actually ranks second in the nation in areas under irrigation," Mr. English pointed out.

Many Farm Exhibits
The show will also include exhibits showing the work of Texas Technological College, 4-H Clubs, Future Farmers and Future Homemakers and Negro Extension workers.

The state fair for the past two years has featured a "Story Book of Texas Agriculture," a revolutionary departure from previous types of farm shows. The Agriculturama theme, with its three-dimensional effects and emphasis on a specific phase of agriculture carries this progressive idea a step further, Mr. English said.

Governor

(continued from page one)

the \$600 teacher pay raise bill. President R. L. (Bob) Proffer of Denton, executive secretary Charles H. Tennyson of Austin and H. W. Stilwell of Texarkana chairman of the TSTA legislative committee, also outlined several compromise overtures made by supporters of the \$600 bill. The Legislature apparently felt the \$600 recommendation made by TSTA a reasonable figure because both the House and Senate passed the \$600 bill. Many administration leaders voted for the bill but refused to raise taxes to finance it.

Proffer said he had called on Gov. Allan Shivers on May 14, in the hope that some solution might be found, but that the "Governor flatly refused to cooperate."

36 CARLOADS OF DROUGHT FEEDS ORDERED BY PMA

Drought-distressed farmers and ranchers of Motley county have placed orders for 36 cars of "below-market-price" feeds through the local PMA office, it was announced this morning.

Walter Ray, local office manager said he had received telephone permission last Friday to accept orders for the drought feeds directly from B. F. Vance, Chairman of the Texas PMA committee, and ahead of the general permission order to accept applications.

Mr. Ray said he had placed orders for ten carloads of oats, 14 cars of corn and 12 cars of cottonseed meal pellets, which included applications up to Tuesday morning.

The orders for the cheap feeds are being accepted on a cash basis. Where financing is required the loans are made through other government agencies.

More applications are expected as the drought disaster progresses but Mr. Ray said the orders are not confirmed. The only notice the local PMA office receives is the bill of lading that the feeds have been shipped.

Production Marketing Administration is field representative for the Commodity Credit Corporation and orders are divided into two classes. Orders for grain products are placed with the Dallas division while order for cottonseed products are placed with the New Orleans division.

Orders are compared with inventories carried at various places and forwarded to stations where feeds are available. Receipt of some of the feed orders had been expected this week but no bills of lading had been received this morning.

Drouth Debate Sets Off Battle
WASHINGTON, July 8—Angry charges of playing politics and harming farmers flew on the Senate floor tonight during Senate debate on a multi-million-dollar bill to extend federal aid to the drought-parched Southwest.

Sen. Kerr (D-Okla.) drew a blast from Sen. Aiken (R-Vt.) by asking that Congress order Secy. of Agriculture Benson to buy live beef cattle at 90 per cent of parity as a relief measure.

Aiken shouted that Kerr "has done more harm to the farmers of Oklahoma than any other factor."

On all these points of comparison... *Chevrolet's*
farther ahead
than ever!

... IN NEW AND ADVANCED STYLING—The new long, low, sleek lines of the 1953 Chevrolet set new standards of beauty in the low-price field. Here you will see careful detailing and a richness of appointments always before found only in much costlier cars.

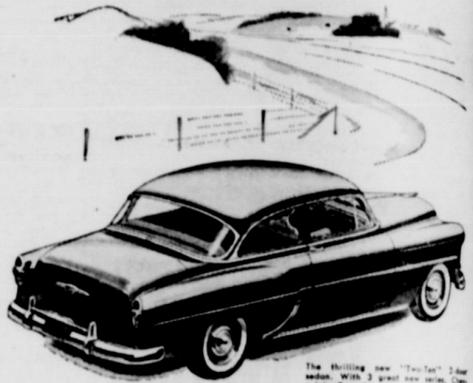

... IN HIGH-POWERED PERFORMANCE—The most powerful engine in the low-price field! The entirely new 115-h.p. "Blue-Flame" engine in combination with new Powerglide* brings you new high-compression power and a wonderful gain in economy, too. In gearshift models you will find the advanced high-compression 108-h.p. "Thrill-King" engine.

... IN SMOOTH, SIMPLE AUTOMATIC DRIVING—Expect faster getaway with Powerglide's new automatic starting and passing range. . . . and new economy, too. Chevrolet's new Power Steering* takes over 80 per cent of the work of steering, makes parking unbelievably easy.

... IN ECONOMY AND VALUE—Now, you'll get many more miles out of every gallon of gasoline. You'll save on over-all operation and upkeep, too. Yet Chevrolet remains the lowest-priced line in the low-price field.

... IN AMERICA'S FAVOR—Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. In fact, latest official registration figures show that Chevrolet is over 25% ahead of the second-place car. Nearly 2 million more people now drive Chevrolets than any other make.

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and "Big Air" models only. Power Steering available on all models.
