Eisenhower Says The New Deal And The Fair Deal Have Given You A Shoddy Deal

HERE ARE THE FACTS

What The Republicans **Rammed Down Your Throat** for Sixty Long Years

1. Aid to agriculture: NONE, except a pauper's funeral.

2. Wildcat banking at the expense of depositors.

3. Limited capital, controlled by Yankees, at high interest (8-10% for farm home loans).

4. Cutthroat discrimination in railway freight rates in favor of the North against the South.

High tariffs on manufactured goods, subsidizing Northern industry at the expense of the agricultural South.

6. From little to nothing in the way of Federal funds for public works, flood control, irrigation or power projects --- they didn't know we were in the

What The Democrats Have Provided For You In The **Past Twenty Years**

1. Price supports for agricultural products, liberal agricultural loans a low interest, soil conservation, and rural electrification. Texas Leads the Nation in Rural Electrification.

2. Sane banking and insured deposits. In 1950, ONE bank failed, with deposits of \$42,000.00.

3. Plenty of capital everywhere at reasonable interest (31/2-5% for farm and home loans).

4. Fair railway rates that give the South an even break.

5. Reduction of tariffs and promotion o world trade, enabling the South to sell its raw materials.

6. Vast amounts of Federal funds for public works, flood control, irrigation and power projects.
