MAIL DUST

By DOUGLAS MEADOR

As a grade school student who used to play on the Matador campus during 1932-33, friends of Malcolm T. Reinhardt, Jr., were not aware that within ten years he would stand with one of the world's greatest generals to defend American ideals and liberty on battle-scarred Bataan Peninsula, in what is perhaps our country's most historic struggle.

Malcolm T. Reinhardt is 24. He was born in Foard county, 7 miles NE of Crowell and lived here with his parents, Mr. and Mrs. M. T. Reinhardt, in 1932-33, where his father was engaged as a ginner at the Matador West Texas Gin.

The Reinhardt family moved to Olton where they resided for six years. The now veteran of the Philippines showed unusual talent for music and organized his own band, playing for radio stations at Hobbs, Pecos and Del Rio. His parents moved back to Matador in 1940 and he visited them in August of that year. He disclosed his plans of entering the military service and enlisted in the Marines at Hobbs. On September 8, 1940, he sailed for Manila, P. I.

He wrote his parents a letter each week, telling of his experiences in the foreign country and his work. He held a place in the 59th Marine band and continued his study of music. Suddenly, during the week of December 7th, his letters ceased. One letter was received December 27 but it had been mailed before the Jap attack. On December 26, Mrs. Reinhardt received a cablegram Christmas greeting. It was the last word she has received from her son.

News papers, magazines and radio tell of the defenders of Bataan under the "Magnificent" General Douglas MacArthur. History will tell of their struggle against numberless hordes of the determined Japanese, and of their heroism in the fox holes of Bataan and the fortresses in Manila Bay. Mr. and Mrs. Reinhardt follow the news with hope that their son is still able to defend the American rights and ideals.

Pleasant, typical Americans, newspapers, magazines and radio tell of the defenders of Bataan under the "Magnificent" General Douglas MacArthur. History will tell of their struggle against numberless hordes of the determined Japanese, and of their heroism in the fox holes of Bataan and the fortresses in Manila Bay. Mr. and Mrs. Reinhardt follow the news with hope that their son is still able to defend the American rights and ideals.

Mr. and Mrs. Reinhardt express no hysteria, no "armchair-strategy" opinions of the war. Despite one strain of uncertainty they have experienced since this country entered the conflict, they hold a serene faith that M. T. Junior has survived.

Red Cross Training To Start

Special Red Cross first aid training will start here in the immediate future, according to State Highway foreman David Guest, who will have charge of the instructions.

Classes will be open to men and women. No charge will be made except for the Red Cross hand books. The price of the books will be approximately 60c each and those who may already have hand books are ready to start classes at once. There will be classes in standard first aid courses, including bandaging and other important instructions.

Those interested in enrolling for first aid work are asked to see C. A. Pitts at the West Texas Utilities Company office or Mr. Guest. Since Mr. Pitts is always available, it will probably be more convenient to enroll at his office.

A deadline for ordering books has been set for Monday evening, February 16, in order that a class large enough to be practical may be started as soon as hand books can be received. Citizens are asked to register with Mr. Pitts at once so that no delay will result in getting this important work under way.

Some confusion resulted from an article in last week's issue of the Tribune regarding the need of certificate of title to register automobiles for 1942. This appendage of information is necessary: No certificate of title is required to purchase new license plates for an automobile sold prior to January 1, 1936. However, in instances where doubt may remain with regard to 1936 models, it will be necessary to provide proof that purchase was made before January 1. No certificate is needed on 1935 and earlier models, nor will proof of date purchased be required. Cars purchased new after January 1, 1936, can not be licensed without owner's possession of photostatic certificate of title.

County residents having problems requiring the presence of all members, are asked to appear before the board at regular meetings held each Saturday afternoon at 2:30 p. m.

No Farm Car Tires

Members of the County Rationing Board met with District officials at Lubbock, Friday, to be informed that farm passenger cars will not be eligible for new tires, although the farm cars may be used to pull trailers. Also it will be impossible for counties to purchase tires for their grader equipment which has been shipped from the factory without the needed equipment.

Any car owner who may seek to purchase a new tire for a new rim on which no tire has been used will not be eligible. In other words, old tires must be traded in to purchase new tires. It will be impossible to change farm tractors from steel to rubber wheels. Trappers, game-wardens and ministers are not eligible to (See WAR BOARD Back Page)

City of Matador Water Department has installed two 500-watt flood lights at the city wells and pumping station. The lights, which were turned on for the first time Saturday night, are a war-time measure requested by the State Health Department. Danger of sabotage of city water supply is reduced through adequate lighting, it is declared.

Baseball Hero Hits Trail For The West

Registration of Motley county men for military service between the ages of 20 and 45 will start at 7 a. m. Monday, February 16 and continue until 9 p. m. (wartime), according to a statement issued by Frank Pohl, clerk for the local board.

Four registration places will be open in the county. At the Flomot school building with John A. Hamilton, Jimmie Woodruff and Billy Lawrence as registrars. At the Northfield school building with M. S. Patton and V. R. Beauchamp as registrars. At the Roaring Springs school building with C. W. Giesecke, Forrest Faulkner and E. T. Cummings as registrars. At the Matador Local Board office with Frank Pohl, Hattie Tee Groves, Mrs. R. A. Seay, Howard Edmondson and M. J. Stacy as registrars.

Nine questions will be asked each man by the registrars. (1) Name of registrant: Full name will be required, including middle name, and registrar may require some identification showing it is the true and full name. (2) Place of residence, declared the most important question since its answer will determine the Local Board having jurisdiction over the registrant and there-after any and all correspondence and transaction will forever be with the board having jurisdiction of that address.

A person may temporarily be out of the county on February 16. If he gives Motley county as his place of residence, his registration card will be mailed to the (See 3rd REGISTRATION Page 4)

Sub-committee of the Land Use Planning Committee on 4-H Club work met in the county agent's office Saturday afternoon to elect officers and make plan for the county's third annual 4-H Club show.

Saturday, April 4th, was the date set for the show. In event of unfavorable weather, the show will be held the following Saturday, April 11. Date for the show was selected to enable boys to enter their calves and pigs in the Plainview South Plains show to be held April 16-17. Competition will be stronger at Plainview this season with 20 counties participating.

Motley county 4-H boys voted to ask that they be given defense bonds and stamps instead of money prizes, according to County Agent J. R. Emmons.

Show Officers Elected

The following 4-H show officers were elected Saturday: C. C. Jones, President; J. C. Burleson, vice-president; Elbert Reeves, secretary. Executive committee is C. C. Jones, Flomot, Charles Long, Roaring Springs, W. I. Rushing, Matador, M. J. Reilly, Matador, J. C. Burleson, Matador, Casey Jones, Roaring Springs, Mervin Green, Roaring Springs, F. C. Bourland, Whiteflat and Elbert Reeves, Matador.

There will be two classes of calves and two classes of pigs, the weight division to be decided later. Motley county 4-H Club boys now have 53 calves and 43 pigs on feed.

Mule and horse colt show will be held in connection with the 4-H Club show again this season. Members of this committee are U. L. Willie, Mervin Green, C. C. Jones and Water Carpenter.

"Dizzy" Dean Now On Way To Attend Banquet Tonight

The above telegram was received yesterday afternoon confirming "Dizzy" Dean, national baseball hero's attendance to the 5th Annual Father-Son Banquet to be held at the Baptist church here, tonight. Mr. Dean is not scheduled to make the principal address but will be the guest of honor at the meeting.

Matador is honored that a celebrity of Mr. Dean's magnitude will make the long drive from Lancaster, Texas, for the express purpose of attending tonight's banquet. Matador is honored that Mr. Dean was so well impressed with this west Texas cow-town, that he is paying it this tribute.

Son-Of-A-Gun Is Hot

Ranch cooking expert Henry Pink, declares that the barbecue and son-of-a-gun is hot and ready, and members of the arrangement committee declare that all plans are completed for what may be the most outstanding Father-Son banquet ever staged here. Programs have been printed and delivered for the banquet table.

Concentration on ticket sales Tuesday resulted in complete sale, followed by a check-up yesterday to determine that every boy be notified of the man he may expect as an escort to the banquet.

W. I. Rushing has been named as chairman of the Motley county U. S. D. A. war board and preside at a meeting held here Tuesday evening.

Others making addresses were Orville Hays of Floydada Farm Security Administration, G. E. Hamilton and J. Rufus Emmons, Motley county farm agent.

A series of community meetings have been scheduled as follows: Whiteflat, Monday, February 16, at 8:30 p. m. Methodist church; Roaring Springs, Tuesday, February 17, school house; Northfield, Wednesday, February 18, school house; Flomot, Thursday, February 19, school house; Matador, Friday, February 20, courthouse.

Community chairmen are: C. W. Giesecke, Roaring Springs; A. Z. Hays, Northfield; H. A. Wallace, Flomot; T. M. Dixon, Whiteflat and E. P. Reeves, Matador.

Wednesday was "Clean-up" day for the Baptists, following the completion Monday, of the work which has been in progress, of finishing the church building on the outside.

While the men worked diligently to clear away the scaffolding and debris which had accumulated during the past two months, the womenfolk prepared and served lunch in the church basement.

The majestic edifice of brick, with foundation of native rock, and towers and front of stucco, stands as a monument to the faith and perseverance of the church membership, with the public-spirited cooperation of the entire community.

Outstanding is the fact that the \$35,000.00 religious plant has been constructed on a cash basis, without any debt remaining to be paid at its completion.

War Board Has New Name And Location

Motley county's former tire rationing board has changed its name and location. Embracing the rationing of all vital war-affected commodities, it will be known in the future as the County Rationing Board, and operated from a new location in the northeast corner of the District Court Room. The special office was formerly occupied by the county relief agency.

D. I. W. Burnie, administrator of the former tire rationing board, did not announce any change in his title, but said the board had been placed in charge of additional duties, including rationing of automobiles, used tires and sugar. Other members of the board are Sterling Price, Raymond Ross and George Henssling.

County residents having problems requiring the presence of all members, are asked to appear before the board at regular meetings held each Saturday afternoon at 2:30 p. m.

SCRAP IRON TO AID RED CROSS

Motley county is still short of its attempt to raise \$1,000 for the American Red Cross war fund, its quota of the \$65,000,000 nationwide drive, according to District Attorney John A. Hamilton. About \$90 is needed to place the county over the top.

In cooperation with the nationwide drive to secure for war purposes, all scrap iron on farms and about homes, the local chapter of the Red Cross will credit any amount of scrap metal as a war fund donation.

A place will be provided on the courthouse square where residents may deposit the metal. In event those donating the metal desire to know the amount contributed, weighing will be done without charge at the Farmer's Coop Gin. In event those donating scrap iron wish to donate it to any other war organization, Mr. Hamilton will sell the metal and deliver the proceeds to the designated organization.

Mr. Hamilton, who has managed the record Red Cross drive, said late yesterday that an attempt had been made to solicit every resident of the county but in case of an oversight, he would personally appreciate the contribution of anyone who had not been solicited.

Rushing Named To U. S. D. A. War Board

W. I. Rushing has been named as chairman of the Motley county U. S. D. A. war board and preside at a meeting held here Tuesday evening.

BOYS IN SERVICE

U. S. Naval Training Station, Norfolk, Va., Feb. 1, 1942.
Dear Ben,
Have been getting the Matador Tribune and sure thank you for sending it. It is encouraging to get news from home.
There are thousands here and everyone is a volunteer. The training section extends down the coast for miles. Airplanes fly over constantly day and night. We are given about three weeks military training here. I have been on the water twice already. They have taught us how to use the row and life boats. This afternoon we went to the dock and were taught how to dock a battleship. I am going to send Randall Whitworth a picture of the "Fighting 45th From Texas" my platoon here. There are 79 men in it and 53 are Texans. We feel like that the men here are among the bravest of America's Armed Forces. We are not afraid to go anywhere or do anything. If the Japs show us their "Rising Sun" we'll show them our "Lone Star."
Sincerely Yours,
Knox Jameson.

LITTLE BUSINESS SHOULD HAVE OWN FEDERAL AGENCY

House Committees Investigating Small Operators' Problems
WASHINGTON—Little business may get a government agency of its own to handle its needs and problems as a result of investigations being conducted by two special House committees.
Operated by and for owners of small business establishments, the new agency proposed by a justice department official would serve as a "forum, a troubleshooter and an advocate" for the

small operators.
Guy Holcomb, head of the small business section of the justice department's anti-trust division, who made the suggestion to a special House military committee, was called upon today by the Patman small business committee to elaborate on it. Requested to testify with him was Thurman Arnold, head of the anti-trust division.

Holcomb's suggestion was greeted with enthusiasm by leaders of several hundred small business men who came here for the opening of the Patman committee's hearings last week. They had complained of inability to get action through existing agencies and bureau and said most of the small business man's time when he came to Washington was spent cooling his heels in outer offices waiting to see various officials.

Thruout the Patman committee hearings, spokesmen for the "little fellows" have complained they would be forced out of business by the defense program unless some changes are made and made quickly. Big business, they have charged, is getting virtually all of the defense contracts and the small operator is left out in the cold. Priorities on raw material and other important manufacturing needs, the small operators claim, prevent them from being able to handle civilian contracts, and rationing forbids them to sell articles they have in stock, such as automobiles and tires.

In urging certain of the special agency for small business men, Holcomb told the Fuddis military sub-committee a program must be worked out for the continued existence of small industry during and after the war.

IN THE FEAR STRICKEN world of today, the words of the Scout law stand as a challenge to all Americans. Not merely empty words, this is the Boy Scout law that older, "wiser" men could adopt and be the better for adopting. There is a lesson in courage to all of us who must face the coming months

and the problems of living in a war-torn world. In good faith, take this lesson from your Boy Scout sons and neighbors. "... and to stand up for the right against the coaxings of friends or the jeers or threats of enemies, and defeat does not down him."

Pied Pinions BY MRS. M.

The following prophecy has been discovered on a 5000-year-old tombstone in England:

When pictures look alive with movements free,

When ships like fishes swim beneath the sea,

When men outstripping birds shall see the sky,

Then half the world, deep drenched in blood shall lie.

Seems like since the sugar rationing talk first began, our sugar bowl needs re-filling much more frequently than ever before.

War-time needn't be so complicated; that is if you don't stop to think. Since the timepiece is advanced one hour, everything is much the same if normal schedules are followed.

However, a certain woman in business didn't set her watch up, opining that when this is all over, she will already be back in the right time groove, and besides, since they are still observing old time in their business, it simplifies her schedule to leave her watch as is. Her husband, however, advanced the theory that by the time this is all over, she probably wouldn't be wearing a watch, as it would more than likely be added to national scrap metal for defense.

Looks like local golfers will get a few breaks. They'll be able to get in half a day's playing before sundown. That is, if they get to play. But those who retire early normally, will really have the edge on the nightowls. We know of a few who think nothing of going to bed by 8 o'clock, which isn't even dark, besides being the same sun-time as 7 o'clock would be formerly, while those who labor far into the wee hours, will have only to re-dress for a new day of work.

"There is not too much to see in a small town—but what you can hear usually makes up for it." —T. A. Landers in McLean News

The influence which teachers exert over their pupils is so great that it seems such a pity that they should in so many instances violate the trust which is placed in their hands.

Last spring I stood on the customer's side of a cafe counter and drank water from a glass which was handed me by a former teacher for whom all these years I had felt nothing but animosity. The triumph was tasteless, because if she recognized me, she gave no sign. Her manner was cordial as she conversed with my companion, who had been my schoolmate, and lack of time prevented any oral delving into the past.

But I shall always remember her as she paced the aisles during examination periods, constantly in search of any attempt on the part of the pupils to copy from concealed notes, much as an angry

lioness stalks her prey.

Fired by suspicion rather than confidence, the bolder pupils became cunning in the art of deception, if only to prove that it could be done. But the timid souls were too fearful of the consequences, although failure was the ultimate result in both instances, since they were so filled with fear that concentration on the answers was practically impossible.

I suppose my near failure in the course was due to lack of dexterity when the few opportunities did arise, rather than from any noble attributes. It must be significant, however, that my best grades were made in those subjects taught by men and women whose praise, esteem and confidence in my ability became my criteria.

Looks like a lot of mistakes are destined to remain uncorrected, if some satisfactory substitute for erasers is not advanced.

YOUR SAFETY DEPENDS ON YOUR BRAKES

It doesn't pay to risk driving with faulty brakes.

Have them checked today to assure quick, smooth stops to meet any emergency—and don't forget that improperly equalized brakes can rapidly wear precious rubber from your tires.

If brake linings are worn, they should be replaced at once, before brake drums are damaged and require an expensive drum grinding job. Ford rebuilt brake shoes are available under the famous Ford Parts Exchange Plan.

SAVE THESE 3 WAYS

WAR BOARD ...

purchase new tires despite an erroneous statement made by the press when the tire rationing first went into effect. No more priority ratings will be allowed on tires.

No Obsolete Truck Tires

No obsolete truck tires exist, regardless of size. Passenger cars alone are affected by the obsolete tire clause in the law. Any tire run less than 1,000 miles is considered a new tire.

Car owners are warned that upon being issued a purchase order to buy tires from a mail-order house, they must sell their old tires within 5 days after receiving their new tires.

Mr. Birnie said yesterday that his office had not received instructions regarding the rationing of sugar other than that it would be included in the duties of the County Rationing Board. Sugar rationing cards will be distributed thru public school agencies.

The board was moved from the American Legion Building because of the need of the building for Red Cross meetings, Civilian Defense meetings and other groups requiring room for an assemblage.

Schedules Change With New War Time

As the hour hand was advanced on clocks Monday, working schedules in most of the business houses were set up accordingly. However, a few will remain in operation by "old time".

Matador Schools are testing a thirty-minute change in schedules for this week, according to Superintendent B. F. Tunnell, who stated that if this plan proves unsatisfactory, a more expedient one will be considered.

Officials of the First State Bank announce no change in hours, continuing with their usual policy of opening at 9 o'clock and closing at 3, "by the clock", which is of course set up to conform with the new war time.

Several local merchants have announced their intentions to also remain on schedule, closing at 6:30, although tailor shops will remain open for business until 7:30, according to present plans.

New Deadline Set For Tribune Copy

Because of war conditions and the necessity to conserve all time possible, the Tribune will not accept any copy for future issues later than Tuesday afternoon at 6:30, regardless of importance. The item will be published in the following week's issue. Several important news stories are of necessity omitted for this week's issue because enough time does not remain in which to set the copy into type and print.

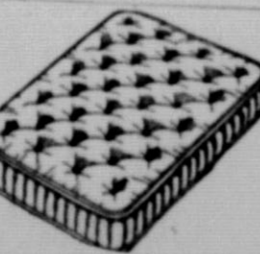

The new deadline does not mean that no Wednesday news will be published in the future, but merely that contributors' articles must be set in advance or be held over to the following week. The Tribune will continue to offer all assistance possible to all agencies seeking vital publicity, but it must establish this new deadline to reach the mail with more dependable regularity.

ASSISTANT SCOUTMASTER

Maurice Campbell, employed by the Spot Cash Grocery here, has accepted the responsibility of serving as assistant Scoutmaster for Troop 60 of the Matador Boy Scouts.

3rd REGISTRATION -

(Continued From Page One)

Motley County Local Board. Any person who registers in Motley county but gives some other county as his place of residence, will be registered in the county having jurisdiction over the address he gives. No transient or temporary address will be accepted as the place of a man's residence.

Question (3) Mailing address: In event this is the same as (2), the registrar will simply write "same". In event it is different, the registrar will write the address where the registrant receives his mail. Rural route number, post office box number or general delivery must be given. The name of the town is not sufficient. A registrant may reside in Motley county and receive his mail from a rural route out of a town in another county. The mailing address is the place where all notices to registrants will be sent. Question (4) Telephone, which requires the name of the town and the number.

Question (5) Age in years, which requires age on registration day and date of birth. (6) Place of Birth: Registrant to give town or county, or state and country.

Question (7) Name and address of person who will always know your address: This is also considered an important question and is for the purpose of locating a registrant when all efforts to locate him at the address given in (3), have failed.

Question (8) Employer's name and address: Registrant is to give name and address of company or person by whom he is employed. When a man is engaged in business for himself, the answer will be "self" and "same address as above".

Question (9) Place of Employment or business: Registrant must give actual address where he is employed.

All men who will register Monday are advised to study the facsimile of the registration card which will be used, published in this issue of the Tribune.

Pay Schedule For CCC Boys Changed

J. S. Murchison, Executive Director of the State Department of Public Welfare, Austin, has just been advised by wire from the Directors Office in Washington, that the pay schedule for members of the CCC has been changed, as of February 1, 1942.

"For several years the members of the CCC were paid \$8.00 cash, sent \$15.00 home to their parents and saved \$7.00," said Mr. Murchison. "Effective this month changes allow the boys to get \$12.00 cash, send \$10.00 home and save \$8.00. This is, of course, in addition to the food, clothing, medical attention and training all members of the Corps receive."

Mr. Murchison observed there is a great need for applicants for the CCC. Texas is being called upon for over 3000 new men this month and every boy who desires to make application should do so at once, the enrollment will be on February 20. Application should be made to the local office in each county of the State Department of Public Welfare.

"There are 8,000 Texas boys in the Camps now," said Mr. Murchison. "This is the smallest number in the 9 years of its existence but we are glad that there is so much employment in Texas that these boys must remain at home. However, the training in National Defense work is being increased in all camps and our boys are leaving camps to take good jobs in civil employment every month—our cooks, bakers, truck and tractor drivers are especially in great demand."

To The Lucky Man—This is better than it sounds. Possibilities to build up this ranch are very promising.
