RAIL DUST

By DOUGLAS MEADOR

Santa Fe is an island of the past in the hot, sudy world of a modern world. When it is with the color and spirit of time becomes bewilderingly course and waits for the time and music to pass. Skillful fingers flash across the keys and guitars; children dance on the streets, eyes flashing with the promise of dreams. And those who have known the old, stroll on the streets where generations before have known the sublime. Golden dust rises in the air, and the city is filled with music that throbs in the heart.

It is easier to remember Fred's splendid "La Fonda" in the state's capitol. Its friendly, colorful tile and the terrace in the patio, slow this terrible pace. Strangers like members of a great family, sip red wine with the prisoners who have unexpected freedom. A long corridor where an Indian looses his blanket and over the bright metal ice water fountain. Santa Fe, the capitol of New Mexico, the "La Fonda" is the capitol of Santa Fe.

of misery had eaten long, valleys in the old Mexico but sightless eyes of him from witnessing the indifference of those who slumped in a severe back in the shadowed alcove of a vacant door, he held the paper cup with patience; that was a benediction.

Two ghostly lights that blade cuts a raw path the highway, tearing sleepers from their ancient and pushing the soil confusion. Men move like the ponderous machines turn the night into dust and are caught by the curved pine tree trembles as the scapred off its roots, like peeled from pinioned arms. There in the secret creeds, there is written a demand of destruction in the demand of advancement.

element in the disposition braggadocio resembles displayed by a brindled dog dashes from the roadside to passing traffic. The talent is inclined to create rather than the impression of importance.

is a mighty press, that sumps the juices from fruits earth, then without relinquishing its pressure, forces the through its fine sieve. Life easily become duct to sustain the weight of years and pains are reduced with each breath and of wind alone remaining immune transformation.

of New Mexico's colorful has been written with blood of courageous men blazing guns are long and resting. Accounts been audited by death and for subsequent generations observe at their leisure. visit the remote graves of the Kid and Kit Carson deep beneath the dry, white and pay curious homage towards they left.

is a mad, young murderer recently as he had lived, to his credit, save the to shoot a man quickly. left a world that had approved by the contribution of his life.

in the weeds and grass small Taos cemetery, the of Kit Carson will always a shrine to courage. Here and of a great, simple life, radiates a sacred tribute; no greater reward is having lived.

Baptists To Finish Building

Local Baptists voted to launch a building program for completion of the church this fall in a meeting held Sunday after the morning church services.

Drive for funds totaling \$3,500-\$5,500 will begin in the near future, according to Rev. W. M. Joslin, pastor. A majority of this money will be used in covering exterior walls, also other completion projects, such as painting of the roof, will be included in the program.

Recommendation for type of wall material will be made Sunday by the building committee. Material under consideration are rock, brick, and tile.

R. E. Campbell, chairman of the building committee, requests that all members of this group attend a meeting at the church Friday evening at 7:30 o'clock. Finance committee members, headed by E. C. Stearns, will meet jointly with the building committee.

Dedication services held in the summer of 1938 climaxed a remarkable building drive for construction of the church, valued at approximately \$25,000. Completion of the building, however, was postponed at that time.

During the past few weeks church leaders have pointed out advantages of completing the program this fall due to optimistic views for a prosperous season. Also, they have declared, the church walls will rapidly deteriorate if not completed in the near future.

Federal Trapper Bags Four Coyotes

Federal trapper H. W. Fite caught four additional coyotes Monday in the Whiteflat community. The wolves were caught in watermelon patches and near chicken pens and believed to have caused much of the loss reported in the vicinity. Mr. Fite said the coyotes were eight to 10 years old. Two of the animals were male and two female and two of the quartet were brought to Matador while still alive.

Mr. Fite said that all residents of the county should be warned regarding the molestation of any traps which he sets. The traps belong to the government and theft or damage would constitute a federal offense.

Marshall Formby Injured In Mishap

COLEMAN, Tex.—State Senator Marshall Formby of Plainview suffered a painful head injury late Monday in an automobile mishap near Novice, in northern Coleman County.

He lost control of his automobile on wet pavement at a curve, and it collided with another car. Senator Formby was traveling alone, en route to Austin. He was expected to resume his journey some time Tuesday.

Mother Of Roaring Springs Resident Is Buried Saturday

Funeral services were conducted in Spur Saturday afternoon at 4 o'clock, for Mrs. J. H. Havens, 73, who passed away late Thursday in the home of her son, J. A. Havens, 2 miles west of Roaring Springs.

Mrs. Havens was born Callie Jane Strickland, October 29, 1867 in Dawson, Georgia, and came to Texas at the age of 15. She was a member of the Primitive Baptist Church, and is survived by two sons, W. M. Havens of Spur, and J. A. Havens, Roaring Springs.

Four daughters also survive. They are, Mrs. O. B. Sims of Wellington, Mrs. G. W. Lucas of Garland, Mrs. N. J. Rogers, Dickens, and Mrs. A. M. Austin, Los Angeles, California.

At Helm Of Lions

Dr. J. S. STANLEY

Elected president of the Matador Lions Club at the close of the organization's fiscal year, Dr. J. S. Stanley, above, started his administration with an active attendance campaign. At present the new Boss Lion has a full program of activities outlined for the year. He succeeded Boss Lion G. E. Hamilton.

Lions Expect 100% Attendance Tuesday

Entire membership of the Matador Lions Club is expected to be represented at the regular meeting scheduled for Tuesday, September 16, it was announced by officials yesterday. The meeting will be held at the Baptist church basement.

Tension in the strongly contested membership contest is straining friendships and "coffee associations" as the two sides strive to achieve advantage. Secretary Randall Whitworth said yesterday that the meeting Tuesday will complete the contest, after which the points will be counted to decide the losers, who will procure and prepare a chicken barbecue for the entire club and ladies.

Announcement was made in a previous issue of the Tribune that anniversary night and ladies' night would be combined in one meeting, September 28. Probable error in indicated since the date will be Sunday night.

J. Rufus Emmons, leader of the "Wildcats", has refused to make a statement to the press, except that "progress is satisfactory." Elmer Stearns, leader of the "Panthers", declined to estimate the margin of victory with which his team would defeat the opponents.

Regular director's meeting will be held at the Magnolia Cafe at 6:30 Monday morning.

Navy To Recruit Here Next Week

Local men between the ages of 17 and 50 years, married or single, will have an opportunity on Friday, September 19, to take examinations at the postoffice here, and if qualified, enlist in the Naval service for the duration of the National emergency. Postmaster E. F. Springer, announced this morning.

Naval recruiting officials at Lubbock have informed Mr. Springer that 600 Naval recruits are needed this month from the north half of Texas and Oklahoma district.

Faculty Change Is Made At Whiteflat

Recruiting officer W. N. Walker, Y2C, USNR will be in the post-office lobby during the day, Friday, September 19.

Announcement has been made of a change in the faculty of the Whiteflat school, by Supt. C. G. Rankin, to fill vacancies made by Mr. and Mrs. Troy Perkins having accepted positions in the Aspermont school.

E. A. Dickson of Hopkins County, has accepted the position as teacher of the fifth and sixth grades. No teacher has been secured for the third and fourth grades as yet. Mr. Rankin stated.

Producers Battling Leaf Worm

Motley county farmers are conducting war against cotton leaf worms over a wide front with more than 10,000 acres treated with poison, according to a statement made yesterday by County Agent J. Rufus Emmons. No serious damage has been reported but showing of worms have been found in almost all sectors of the county. Many farmers are operating poisoning equipment 24-hours daily.

Gins of the county are reported to have an adequate supply of Calcium arsenate on hand and are assured additional supply in event the demand becomes greater.

County Agent Emmons said that government recommendations for use of calcium arsenate as a spray, calls for 3 to 4 pounds to 50 gallons of water. Amount required per acre depends upon the size of cotton stalk. Better results are obtained if the cotton stalk has a uniform spray of the poison.

Caution must be experienced in the use of lead arsenate, with only two pounds to 50 gallons of water as the maximum. Farmers are asked to watch carefully for the appearance of leaf worms in the cotton and to start poisoning immediately on appearance.

Fall Makes Debut; Snow Falls Tuesday

Fall made its debut in West Texas Tuesday morning following showers over this section Monday, and sent the mercury on a downward skid.

A freak snow fall that lasted about 10 minutes shortly after 7 a. m. Tuesday, was witnessed over a small area south of Roaring Springs. J. A. Brawley, farmer, living about 1/2 mile south of Roaring Springs, said large snow flakes fell swiftly from a small cloud out of the north, melting as it touched the earth. Mr. Brawley declared that he had never before witnessed snow in this section at this season of the year. He said the freak flurry is vouchered for by his wife and others who witnessed the unseasonal phenomenon.

Unseasonal snows were reported over the northern part of the nation from Montana to Colorado with five-foot drifts in some mountain areas.

Cooler weather was generally welcomed here, bringing relief from the heat wave of the past week and some hope by farmers that the change in weather might discourage activities of cotton worms.

Rainfall recorded here by George Springer's U. S. rain gauge totaled .62 inch.

ACCEPTS POSITION HERE

Miss Mary Jo Morton of Jayton has accepted a position as operator in the DeLuxe Beauty Shop owned by Mrs. A. E. Westmoreland. She began duties Saturday.

Second Election Called For County Road Bonds

Flomol School Head

H. A. WALLACE, above, is newly-elected superintendent of the Flomol public schools. A graduate of ETSTC, he was principal at Flomol during the 1927-29 sessions, and for the past 12 years has taught in Hale county. Mr. Wallace is also teacher of algebra and history.

Subscribe For The Tribune

Petition Presented To Commissioners

Appearing in this issue of the Tribune is notice of an election called by the Commissioners' Court for October 11, to determine whether or not tax-payers will approve \$70,000 in road bonds to improve and repair county roads damaged by excessive rains during the past season. It is the second election authorized in attempt to provide funds for improvement of roads, declared in many instances to be in serious condition.

The order followed a petition signed by T. A. Bynum and 61 other persons, asking the court that the election be called.

Small interest was shown in the election held Tuesday, August 19, when less than 350 votes were polled in the county, and the issue was defeated by approximately 30 votes short of the required two-thirds majority.

Flomol Needs Improvement

No official statement was made regarding the second petition for election, except that residents in the northwest section of the county, and the Flomol community had asked for another attempt to improve the road conditions.

While the damaged and destroyed roads are not confined to Flomol alone, since improvement is needed in all precincts, voting in the election showed the Flomol box favoring the bonds 96 to 3. It is declared that many culverts, small bridges and much roadbed has been damaged or destroyed throughout the county.

Flomol faces serious loss in school bus and mail service, it was declared yesterday. It was stated that Flomol school may probably lose much north enrollment if the Quitaque river bridge is not restored. Another statement was made to the effect that mail service might be threatened if the road was not improved to reduce the extra 12 miles made necessary by loss of the contracted route.

Judge W. R. Cammack and county commissioners are placing the problem again in the hands of the tax-payers, without comment. It will require \$70,000 to restore the Quitaque river bridge and repair and rebuild all impaired roads in the county. There (See BONDS Back Page)

Oddfellow District Meet Is Scheduled Here Next Week

Matador will be host to the 33rd annual meeting of the Lower Panhandle Association Independent Order of Odd Fellows, Wednesday, September 17, with the local chapter of the lodge in charge of arrangements.

The association, which includes Cottle, Foard, Hall, Childress, Hardeman, Wilbarger, Wichita and Motley counties, will meet at the Matador Methodist church, with registration at 8:30 a. m. Plans are being made to entertain in the neighborhood of 150 visitors. Morning and afternoon sessions will be open to the public.

Evening session will include competitive degree work by both Rebekahs and I. O. O. F. degree teams from the various lower Panhandle lodges.

Clay Gilbert, District Deputy Grand Master said that citizens of this community are especially invited to attend the morning session when Grand Master of Texas, J. R. Ogle of Wichita Falls, will make a special address. Also appearing on the morning program will be Rev. L. B. Smallwood of Crosbyton, former pastor of the Methodist church here.

The program outline for the three sessions, is as follows: Morning: Invocation, Rev. W. B. Vaughn, Matador; Presentation of Flag by Matador Rebekahs; Song, "America"; audience; Welcome Address, J. R. Whitworth, Matador; Response, Mrs. Bertha A. Ross, Vernon; Song by Matador

quartet; Greetings from Matador Odd Fellows, Hon. Tom Dean; Response, Bob Reed, Quanah; Welcome Address to Rebekahs.

J. R. OGLE, Wichita Falls, Grand Master, I. O. O. F. of Texas, who will speak at the morning session of the 33rd annual meeting of the Lower Panhandle Association Independent Order of Odd Fellows to be held here next Wednesday, Mr. Ogle, who is making a tour of circuit 12, which includes district 16, embracing this association, will speak at Plainview Saturday night, September 27. It was announced.

BAPTIST CHURCH TO BE HOST FOR ASSOCIATION MEET

The local Baptist Church will be host to the Floyd County Association Tuesday and Wednesday, September 23-24, for the annual meeting of the organization, according to an announcement by Rev. W. M. Joslin, pastor.

Prominent Baptist leaders from over the state will be present for the two-day convolve, and many outstanding speakers will appear on the program.

Preparations are underway to provide board and lodging for the several hundred delegates who are expected to attend. The Floyd County Association embraces churches from five counties.

Tribune Is Sent To South Africa

A copy of the Golden Anniversary edition of the Matador Tribune has been sent to a friend in South Africa, by T. G. Duncan of Fort Worth, pioneer of Motley county, who made his home here for many years.

Although the Tribune is sent to several addresses outside the United States, so far as is known, the one going to Africa will cover the greatest distance of any previously mailed from this country.

FORMER TEACHER HERE

Mr. and Mrs. W. T. Hightower of Ft. Worth, visited here this week in the home of Mrs. D. C. Keith and daughter Mary. They were enroute to Clovis, New Mexico for a visit with relatives.

Mr. Hightower will be remembered by friends here, as one of the pioneer school teachers of Matador.

Grid Season Opens Here Friday Night

DENTIST OPENS OFFICE HERE

Dr. Ketchershid, dentist of Nocona, moved his dental equipment to Matador Monday evening. Matador and vicinity is now supplied with dental service after six months in which residents found it necessary to procure attention elsewhere.

Dr. Ketchershid is located in the offices occupied by Dr. E. B. Jones, over the City Drug store. He has moved his family to Matador to make this his future home.

Cotton Raisers Now Have \$3,000 In Cotton Stamps

Motley county farmers have already received \$3,044 in cotton stamps it was disclosed by County Agent J. Rufus Emmons' office yesterday. The stamps had been issued to 168 cotton producers. Total amount of stamps expected to be released in the county was not disclosed.

Merchants here report increasing purchases with cotton stamps but declare sales of cotton merchandise have not yet attained magnitude anticipated.

Fluorescent Lighting Helps Make Her Kitchen Tasks a Pleasure

Streamlined Tubular Lamps in Special Ceiling Fixture and Close to Working Areas Virtually Bring Daylight Indoors

By Carlene Waldo

FOR KITCHENS, the grand new thing—without any ifs or buts about it—is fluorescent lighting.

However black the night may be outside, a push of the electric light switch brings into the fluorescent kitchens the closest approach to natural daylight ever concocted for practical home use.

You will recall that fluorescent lamps are the new streamlined tubes which in some cases give two or three times as much light as do filament incandescent lamps, for the same amount of power. Cool, relatively, is their light.

Now beginning to make their entrance proudly on the market are new streamlined fixtures designed to hold these slender tubular bulbs Like Daylight

Among new units available for the kitchen is the one illustrated, a sheet of white translucent plastic material which fits into etched glass end-pieces, and which holds two 48-inch fluorescent lamps of the daylight type.

A wealth of light on the range top saves work and time. The amazing amount of range lighting is achieved here through use of one 48-inch 40-watt daylight fluorescent lamp. The metal wiring channel for this tube is recessed to the level of the wall. A plastic shield over the lamp keeps it from being visible from across the room. Daylight fluorescents are admirably used elsewhere in this woman's workshop... to properly light all working areas.

The "daylight" kitchen really feels like daylight. And when outdoor light filters through the window

Kitchen Tasks Can Be Real Joy Here.

blinds, you hardly can distinguish between indoor and outdoor light. But fluorescent lamps alone are not the whole secret of this "dream" kitchen. The warm gray and white tones of the linoleum floor and counter tops, the accents of bright red in the wall paper figures, the decorative treatment of window and curtains... all combine with the fluorescent lighting to make this kitchen a "feast for women's eyes". Absent, here, is the feeling of

bluishness so characteristic of artificial daylighted kitchens of the past. I'd advise anyone planning to install fluorescents in the kitchen to obtain the advice of those experienced in their application, since the lamps are different from any ever used in the home before and require skillful installation. Once correctly installed, however, the new lamps will give you the unusual pleasure of a true daylight kitchen... both by day and by night!

And there you have the story of how Texas is to have a new sport this coming winter, ice hockey, said to be the fastest game known. For Buron took a 10-year lease on the Coliseum and is spending thousands of dollars to install the machinery for an icerink—60,000 feet or almost 12 miles of pipe, and other equipment in proportion.

The story of Sam Buron's career to date—he's only 31—is a Horatio Alger success story. Born in St. Paul, he sold papers on the street after school; then worked his way through high school; getting up at 3:30 a. m. to carry a newspaper route. When he married at 21, he was a grain accountant at a salary of \$90 a month and at night after work he

built a home with his own hands. Then he started to build a four-family flat and before he knew it almost, he was in the construction business. And, of course, if you're going to build, it's nice to have a lumber yard, so he acquired one. Then he went into the storage and warehouse business, too, and not long ago he became also the owner of the South St. Paul Terminal warehouse buildings, which have even more floor space than the huge Will Rogers Memorial Coliseum.

And with all those business activities, Sam Buron has had time for civic work too. He is the major factor behind the unique Hook 'Em Cows, a fun organization of the men of the South Paul stockyards, which has a uniformed drum and bugle corps and a troop of 40 horsemen, both units being much in evidence in all parades. Then Buron had charge of the banquet that was given honoring Governor Stassen when the Minnesota chief executive was acclaimed the outstanding young man of the nation. And only a week or so ago, Buron retired as president of the Minnesota Junior Chamber of Commerce.

He has a ready smile, a pleasant voice, a hearty laugh, tells a story well, is in demand as a speaker and has moved to Texas. That he is a real Southwesterner already is shown by the fact that he says, "You all". And that's Sam Buron, who is going to give the Lone Star State a new and exciting sport, ice hockey.

Here and there: Sign in a cross-roads store, "If you must spit, be original; spit on the ceiling." Menu writers are "going Hollywood", as witness: "Prawns with crisp croutons swimming in piquant penguin sauce." General Pinky Francis, one of the best story-tellers in the Capitol City, makes this comment when someone elates an especially ancient joke, "Columbus told that one to the Indians."

If you do go to Mexico and if you go by automobile (as this columnist suggests,) when you arrive in Mexico City, put the car in a garage and leave it there. The many one-way streets and the swift current of traffic are likely to prove bewildering and, though you probably won't have a collision, you will not enjoy driving in the business district.

Taxicabs are innumerable—and the fare is very low. All you have to do is look as though you want a cab and one will pull up to the curb. But if not, then when you spot a car approaching with a sign, "Libre", signal to the driver. Most of the taxis are new cars and some are of the higher price makes, too. For a short trip, six or eight blocks, the charge is only one peso (about 20 cents) and three persons pay no more than one. Longer trips are in proportion. How a man can drive a fine car, buy gasoline and make enough at such a rate to pay for the auto and his own living expenses,—well, you figure it out.

Monument Will Pay Tribute To First Texas Oil Gusher

Ascribed as a tribute to Texas enterprise and initiative, a great granite monument located on a low hill south of Beaumont will be dedicated at the annual convention of the Texas-Mid-Continent Oil & Gas Association, October 9, 10, and 11. The monument will be dedicated to "Spindle Top," Texas first oil gusher 40 years ago which started the state's modern petroleum industry that has made Texas the nation's leading oil state.

In the forty years since Spindle-top blew in, nearly 200,000 wells have been drilled. Over 500 separate fields are now producing in all parts of the state.

From a small group of Texans two-score years ago, the oil industry has grown until now it supports almost one million of our people. Its expenditures reach every section of the state and benefit every Texan.

The discovery of America's first gusher oil field at Spindle-top is now recognized as one of the most important events in the history of the state.

There were 8511 conventions, conferences and expositing held in the United States and Canada during 1940.

Ontario gold mines produced 3,008,280 fine ounces in 1939, as compared to 2,898,471 fine ounces the preceding year.

Gypsies claim to have come originally from Egypt. It is believed, however, that they came from India in the Middle Ages, passing thru Egypt to Europe.

Studies made at a state university reveal that only 37 percent of pre-school children in many rural areas of the country have ever had a health examination.

Conversational English in one easy lesson:

The first hundred years are the hardest.

Is it hot enough for you? Don't take any wooden nickles. Don't go anything I wouldn't do.

Okety doke. I just consider the source. So what? Oh yeah—you and who else?

Whiteflat News

By Ida B. Armstrong

Mr. and Mrs. Troy Perkins, Whiteflat teachers, have accepted positions in the Aspermont High School.

Miss Wandean Garrison left recently for Wichita Falls, where she enrolled as a student nurse in the Wichita General Hospital.

Mrs. W. R. Tison, accompanied by her granddaughter, Miss Eugenia Tison, is visiting in Brownfield this week.

Miss Camella Wilkinson left Friday for Crosbyton, where she is employed as a high school teacher.

Rev. and Mrs. W. J. Knoy accompanied their son, Holeman, to McMurry College, Abilene, Monday.

Miss Willena Wilkinson left Sunday for Lubbock where she will enroll as a student in Draughon's Business College.

Miss Ann Moore of Lubbock is

visiting in the home of her aunt and uncle, Mr. and Mrs. C. G. Rankin.

Mr. and Mrs. Roy Wilkinson and children, Royce, Joyce, and Chris Dale of Lorenzo were overnight guests in the Harry Armstrong home Thursday. They were accompanied home Friday by Mrs. S. A. Wilkinson who will remain for a visit.

Mrs. Dessie Fulkerson of Sweetwater, J. B. Casey of California, Raymond and Newman Casey of Wichita Falls, accompanied by Mr. and Mrs. Thelma Casey and F. M. Casey, visited relatives in Arkansas last week.

Mr. and Mrs. Guy Kimbell, Sr., and children, Guy, Avis, and Melba Jane, were Paducah visitors Sunday.

Root rot fungus spreads by slow growth along roots from plant to plant, even when they are dormant, at the rate of a foot or so a month.

Spindle Top STARTED IT!

Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas.

That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state.

In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves.

Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries.

From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan.

The discovery of America's first gusher oil field at Spindle-top has turned out to be one of the most important events in the history of our state.

Today all of Texas salutes Spindletop!

On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop.

Inscribed in ageless Texas granite will be the story of oil.

This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

Variety Of Schools Chosen As College Students Begin Annual Trek

Enrollment From Matador Exceeds Previous Years

The annual college trek began this week with Texas Tech claiming the largest number of local students. A majority of Tech students left yesterday, when the dormitories opened, although official registration did not begin until today.

Attending Tech will be Bennie Keltz, Jewell McCoy, Myrnavae Barkley, Keith Patton, Houston Schweitzer, Elmer Gene Jameson, Norman Harp, and Kara and Marie Hunsucker. Jack Martin and Wiley Kennedy are attending football practices before enrolling in the college.

Johnnie Alsop and Mutt Berryman left Sunday for Hardin-Simmons University to attend a football training school. Misses Lela and Frances Carpenter will leave Monday for Abilene to enroll in HSU.

Fred G. Simpson and Misses Georgia Bourland and Aurene Jameson will register at West Texas State Teachers College this week. Also attending school in Canyon will be Byron Knight, who left Sunday to enroll in an NYA training unit.

Maurice Reilly left Sunday for Boulder, Colo., where he will be engaged in football work-outs until the University of Colorado session begins later in the month.

Glenn Woodruff will enter his second year at John Tarleton College, Stephenville, and James Russell Neblett has chosen Allen Academy, Bryan, Texas.

Miss Eugenia Tilson will attend North Texas State Teachers College at Denton. Holeman Knay left this week to enroll at McMurry College, Abilene.

Boyd Willett, who has been a summer school student at the University of Texas, will again enroll for the fall session. James Rufus Fish will leave Friday to register at the university next week.

Miss Frances Stearns has

Cockrell-Chambliss Marriage Announced

Announcement is made of the marriage of Vernon Chambliss, son of Mr. and Mrs. E. B. Chambliss of Matador, to Miss Audrey Cockrell, daughter of Mr. and Mrs. J. E. Cockrell of Hereford, in a ceremony performed Sunday afternoon in the home of the bride's parents. Rev. W. E. Barnes pastor of the First Baptist Church of Hereford, officiated.

Mrs. Chambliss is a graduate of Hereford High School, and has had two years at Wayland College, Plainview.

Following his graduation from Matador High School, Mr. Chambliss enrolled at Wayland College, finishing his course there last spring. He is a student in the ministry.

On their return from a short honeymoon in New Mexico, the young couple visited here with his parents. They will make their home in Abilene, where they will continue their education at Hardin-Simmons University.

Afton Couple Is Married Saturday

Marriage rites uniting Leland Franks and Miss Helen Stinnett, both of Afton, were performed at the county clerk's office here Saturday afternoon. Justice of the Peace Henry F. Pipkin officiated in the ceremony.

Chosen Texas Christian University at Fort Worth

Attending Abilene Christian College will be Miss Ruth Rushing. Miss Alla Mae Fulfer left Sunday for Wayland College, Plainview, and Miss Chloey Fulfer has been enrolled at Draughon's Business College, Lubbock, for the past several days. Also attending Draughon's are Misses Willena Wilkinson and Tom Nell Darsey.

Methodist Society Holds Meeting Mon.

Vases of summer flowers decorated the basement of the Methodist church Monday afternoon for a social meeting of the Woman's Society of Christian Service.

Mrs. R. P. Moore opened the program with a splendid devotional, after which Mrs. L. R. Bishop conducted a series of games.

The refreshment committee served punch and cookies to the following members: Mesdames C. D. Pipkin, S. Smallwood, Annie Tudor, Luther Jameson, Sterling Price, J. R. Whitworth, F. G. Simpson, W. M. Graham, Clay Gilbert, A. J. Daffern, David Guest, Ethel Payne, C. T. Jenkins, W. B. Vaughn, H. H. Schweitzer, G. E. Hamilton, W. Y. Higgins, Harry Willett, Homer Sheats, W. R. Cammack, F. M. Jenkins, T. T. Jameson, L. R. Bishop, and R. P. Moore, one visitor, Mrs. P. E. Knight, and Misses Mabel Jameson and Zona Ruth Scalf.

Next Tuesday evening at 8 o'clock p. m. a general meeting of all circles will be held in the church basement.

It was further announced that a study course will be taken up in the near future, using the text, "A Christian Imperative," by Roswell P. Barnes.

O. E. S. Has Guests At Meeting Thurs.

Fifteen members of the Paducah chapter of Order of Eastern Star, and one from Plainview were guests at regular meeting of the local chapter held in the Masonic lodge hall Thursday evening of last week.

Following initiation, a social hour was enjoyed, and refreshments served to around forty members and guests present.

New Styles For Cotton Hose

Cotton stockings aren't what they used to be, judging by the samples being looked over here by David H. Young, hosiery designer for the U. S. Bureau of Home Economics. These stockings represent but a few of the 150 designs for better-looking, better-fitting, better-wearing cotton

Pied 'Pinions' BY MRS. M.

Saw a considerate husband the other morning. Although he was reading his newspaper at the table, he wasn't hid down behind it. Instead, he held the paper folded, on the table, and what's more he was sharing it by reading aloud for his wife's benefit. (Aside by Mr. M.:—and the benefit of everyone else in a crowded coffee shop.)

New things are very nice to own, but it's always a relief when the newness begins to wear off and the first scar or dent appears. One can then stop being careful of abuse and possible damage.

I don't know how folks ever got along before "allergic" came into common use. It covers such a multitude of symptoms and just about every known formula. Some folks are allergic to certain foods; others to work in any form or fashion and still others, to their associates—especially those in the married classes. Since a majority of people think of it in terms of being something which does not agree with their particular physical or mental system or mode of living, allergy has become self-explanatory. However, I wonder how the first wise-cry ever figured it out from the definition: "The altered degrees of susceptibility caused by a primary inoculation or treatment, as with a specific germ or foreign substance, and manifested in reaction to a subsequent inoculation or treatment with the same."

Being allergic to gift shops and dime stores, I avoid them as much as possible. There's something about being faced with the necessity of making a selection from such an assortment of articles that gives me the shudders. I had almost as soon face a firing squad, given a 50-50 chance to dash for freedom.

Only thirty-five weeks and two days more until school will be out, according to a local teacher. Irrelevant but synonymous, is the thought that there are only 89 more shopping days until you-know-when!

Impressive occasions are often marred by the heedlessness, and at times seeming imbecility of certain of the attendants.

Described by a local resident as one of the most memorable events on a recent eastern tour, a visit to the tomb of the Unknown Soldier was almost disrupted by a thoughtless mother. Two small children had been admonished concerning the signs which read: "Silence Please—you are approaching the Tomb of the Unknown Soldier." But as the group stood in mute reverence before the shrine, the solemnity was shattered by the mother herself, who stopped the sentinel in his measured march before the tomb, to inquire if he had to guard it night and day.

Which brings to mind an experience Margaret Turner of the Lubbock Avalanche described following a western tour several years ago, of a woman at a lecture on ancient Indian culture, who, when the ranger called for questions, said in a loud voice, "Here, I found this bunch of keys

Child Welfare To Sponsor Negro Minstrel Entertainment September 19

Birthday Dinner Given Thursday For G. E. Hamilton

A dinner party honoring G. E. Hamilton on the occasion of his birthday, was given by Mrs. Hamilton Thursday at one o'clock at their home in northwest Matador.

The menu consisted of baked chicken with dressing, chicken pie, congealed salad, fresh corn, mashed potatoes, gravy, hot biscuits, peach pickles, baked cashews, pears and a decorated pound cake. Gum-drop place cards served as an attractive part of the table decorations.

Those present for the dinner and who spent the day with Mr. Hamilton were his sisters, Mrs. Maggie Cooper and Mrs. Ella Freeman of Roaring Springs, Mrs. Kate Bourland and Mrs. Ola Winn of Matador, and Mrs. Bessie McWilliams of Whiteflat.

Other guests were Mrs. W. H. Tittle and Mrs. B. M. Carter of Childers, sisters of Mrs. Hamilton, who visited here from Wednesday until Sunday.

FREE LUNCHES TO BE SERVED

Approximately 70 students will receive free lunches under a WPA plan to begin operation at the school lunchroom Monday. The Commodities District Agency at Lubbock will furnish a majority of materials, and salary for the manager will be paid with WPA funds.

Other school students may buy

A "Negro Minstrel" will be presented here September 19 at the high school auditorium, in the auspices of the Child Welfare Association, of the organization have announced.

Members of the cast will include voice pupils of Mrs. Hamilton, and in addition, local entertainers from out-of-town will perform. These include Rose Bates, tap-dancer, and Wilbur Shirley, who will play both of Childers.

A successful "first" meeting of the organization for the year was reported after the session Wednesday afternoon was attended by some thirty-five or thirty parents and pupils. As in previous years, prizes and a book are awarded at the meeting, to the grades represented by the largest number of pupils. The pictures were taken at this meeting by the third and sixth grades, with the tenth receiving the book.

Mrs. Albert Trawick Jr., president, conducted the program which included an interesting paper on the subject, "Behind Your Child," by George Springer; discussion plans for the year, by the officers, and introduction of members by Supt. B. F. Tunnell. Plans for the year, by the officers, and introduction of members by Supt. B. F. Tunnell.

At the conclusion of the program, refreshments were served. Lunches at a moderate cost in the lunchroom supervisor is expected to be employed this week, according to Supt. B. F. Tunnell.

For every pound of raw 2500 silkworms gave their

**Good Lighting Help
You to Live ... to Entertain**

Light conditioned living room can add much to comfort and enjoyment of guests whether playing cards or nibbling tidbits later.

By Carlene Waldo
It is the time for all good American housewives to make a place of greater cheer. Evenings growing longer, blackness lurking outside, but indoors the room lighting can be more light and easier on the eyes than before.
New light conditioning that has been designed is intended to conserve the eyesight, help the nerves and lift the spirits. Scientifically designed lamps used in good balance through them, they send some of their light upward and use at least 100-watts each. Every chair where eye-work is done is provided with a lamp. And helping to send cheer through the room is a good fixture. It can be either a well-designed new one or a modernized older one.
Lamps Stay Put
In a well-lighted room like this, games may be played at a card table, or refreshments enjoyed, without moving a single lamp out of place. All the activities of the family have been considered in planning the lighting, and father can read in his favorite chair or mother sew in hers with the assurance that eyesight-saving lighting is right at their elbows. The skies may darken outside but the American home can be filled with heart-warming cheer.

**KEROSENE EFFECTIVELY KILLS
MESQUITE TREES AND BRUSH**

A demonstration on the San Pedro ranch near Carrizo Springs shows that kerosene is effective and economical in killing mesquite trees and brush, says Robt. R. Lancaster, Extensive Service pasture specialist.
In 1939, 2,000 acres were treated, 3,459 in 1940 and this year's program calls for another 3,000. There was some resprouting but such instances were readily found and treated the next year.
The oil is applied by means of a two-foot spout attached to a two-gallon can equipped with a carrying ball and side, or pouring handle. The spout opening is about the size of a lead pencil. Approximately 12 inches of the base of the tree is thoroughly saturated with oil to a point where some of it flows into the ground. It is the kerosene on the roots which kills the shrubs and trees. Special care should be taken in treating bushy and "slick" bark mesquite, as these have been found to be more resistant to the oil.
The spray program on the San Pedro ranch, carried on under the supervision of County Agricultural Agent A. L. Sebesta, starts in July, runs thru September. No more than government allowance has been used in the eradication work.

What's in a Name?

The picked young men who will one day fly Uncle Sam's military airplanes woke up one morning recently to find themselves called "Aviation Cadets" instead of "Flying Cadets," by War Department order. It made little difference to them. They changed a few signs around, as the group above is doing, then went right on plugging for their "Wings" and commissions in the Air Corps.

**Clerks Will Execute
Cotton Loan Papers**

Cotton loan papers will be executed by clerks and witnesses designated by the county AAA committee, W. I. Rushing has announced.
Clerks will be only persons employed in cotton stores, banks, and production credit associations acting as lending agencies. When producers desire to sell their equities in loan cotton, witnesses to the transfer of title are limited to employees in the county AAA office, county and community AAA committeemen, and banks, Mr. Rushing explained.
Fee of 15 cents for one to two bales, 20 cents for three to four bales, 25 cents for five to six bales, 30 cents for seven to eight bales, and 35 cents for nine to ten bales, are maximum charges which clerks may make for executing loan papers. Maximum charge on 11 to 20 bales is two cents per bale plus the rate for ten bales; and 21 or more bales is one cent per bale plus the rate of 20 bales.
This graduated scale of fees is applicable to cotton pledged on a single note, the AAA official said, in explaining that the same rate of charges would be made for each note executed by a producer.

cutting loan papers. Maximum charge on 11 to 20 bales is two cents per bale plus the rate for ten bales; and 21 or more bales is one cent per bale plus the rate of 20 bales.

Civil Service Exam.

New examinations important to the defense program have just been announced by the Civil Service Commission. In connection with the pilot training program of the Civil Aeronautics Administration, link trainer operators and instructors are needed. To qualify for instructor positions paying \$3,200 a year, applicants must have a commercial pilot's certificate of competency, a minimum of 500 solo flying hours, a flight instructor's rating, an instrument rating, and must have completed an approved link trainer operator's course of at least 3 months' duration as well as 100 hours as instructor of instrument flying in aircraft. To qualify for link trainer operator positions, paying \$2,900 a year, applicants must have a private or commercial pilot's certificate of competency, a minimum of 150 solo flying hours, and have completed an approved 3-month link trainer operator course. Applications will be accepted until further notice.
Sufficient eligibles to meet the needs of the various government agencies have not been obtained thru previous examinations for junior meteorologist positions paying \$2,000 a year. No written test will be given, and applications will be accepted until June 30, 1942. Applicants must have completed a 4-year college course which included courses in differential and integral calculus, 12 semester hours in physics and 6 in meteorology. For this last course requirement, however, applicants may substitute one year of professional experience in appropriate meteorological work.
Two examinations have been added to the list of office machine positions for which the Commission is currently accepting applications for appointment in Washington, D. C., only. They are: Under graphotype operator, \$1,260 a year, and horizontal sorting machine operator, \$1,260 a year. Three full months of paid experience in the operation of either machine is required. Applications for positions as sorting machine operator will be accepted until further notice; but for the graphotype operator, the closing date is September 30, 1941.
Script engravers are needed by the Bureau of Engraving and Printing in the Treasury Department. They are paid at the rate of \$13.44 a day and \$2.52 an hour for overtime. Completion of a 4-year apprenticeship as steel-plate engraver is required, as well as 5 years of journeyman experience in the skilled practice of steel-plate script engraving, including cutting and etching. The closing date for receipt of applications is September 30, 1941.
Full information as to the requirements for these examinations, and application forms, may be obtained from the Secretary of the Board of U. S. Civil Service Examiners, at the post office or customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D. C.
The United States Maritime Commission has announced an examination for Deck and En-

TO CALIFORNIA

Boyd Perkins, with his sister, Mrs. Hoyet Burnam and her small son Hoyet Noel, left Tuesday morning to accompany J. S. Burnam on his return to Ocean Side, California, following a visit with his parents, Rev. and Mrs. H. L. Burnam of Spur, and with his brother, Hoyet, and family here.

THE RECORD... Facts That Concern You No. 30 of a Series

**A BAD ONE DOES TURN UP
ONCE IN A WHILE!**

Good weather and a bumper crop! Even then one finds a poor stalk once in a while.
The retailing of beer is something like that. Most beer retailers operate respectable law-abiding establishments. Occasionally one finds an exception—a man who tries to beat the law or who permits anti-social conditions.
The beer industry wants this type of undesirable retailer stamped out. Your cooperation will help us in our clean-up efforts.
The beer industry brings important benefits to the community. Here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.
Texas, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from over 100 other industries.
You can help us protect these benefits in two ways. First—patronize only the reputable places where beer is sold. Second—report to the proper authorities any law violation you may observe.

Two New Teachers On School Faculty

Two new faces have appeared among the faculty for this term. For the benefit of those who do not know the new teachers, a few of the most important facts will be given.

Miss Clarice Whitten, who has resigned a similar position at Quitaque, will fill the vacancy in the English department caused by the recent resignation of Mrs. Wilmer Greene.

The newly-elected teacher received her BA degree from West Texas State Teachers College at Canyon, where she majored in English with minors in Spanish and art. A member of Alpha Chi, national honorary fraternity, Miss Whitten is also an accomplished musician.

Brady Thomas will fill the vacancy of assistant coach, which was caused by the resignation of Wilmer Greene.

Mr. Thomas lettered four years

WELCOME TO M.H.S.

Hi, everybody. Gee, it's good to be back in M. H. S. again. Of course, we miss our old members who have gone on their way to make room for the new students who are coming in. This means we will all be busy getting acquainted and making our new members feel at home.

As for the new members, we wish to extend a hearty welcome to each and every one. We want you to know that we are your friends and you can depend on us for help.

Now that we've had our fun, let's settle down, get the old brain working, and start this term off right. How about it, folks?

As end and half-back in Brownwood High School and Howard Payne. For three years he was assistant coach at Floydada. From there he moved to Holliday where he was assistant coach until March of last year when he moved to Bowie. Mr. Thomas will teach social science and physical education in grade school.

Achievement Day Is Held Saturday

Achievement Day for girls who have done summer project work was held Saturday afternoon, September 6. Miss Faulkner stated that the work was very good, both in selection and workmanship. Some of the girls have planned, prepared, and served family meals; some have made clothes for their wardrobe; some have done canning; and others have made household linens, and quilts.

The girls who completed their summer project work were: Bennie Wayne Marshall, Dorothy Nelson, Glenda Nelson, Billy Jean Dirickson, Avis Kimbell, Faustena Fulfer, Frances Marshall, Gladys Cook, Elsie Cook, Ida Belle Armstrong, Mildred Vinson, Ruth Evelyn Keith, and Melba Jameson.

M.H.S.—
Miss Whitten: "Vance, define first person".
Vance: "Adam".

Kampus Klatter

Gee, it's good to be back in M. H. S., slinging mud and digging up scandals on these unexpected students. Everyone better grab a hold and hold on tight 'cause here comes the details about all those summer flirtations you've been hearing so much about.

Course, you know how all these girls have been pining 'cause W. A. "done went and got himself hitched" to Laverne. We've seen quite a few boys who didn't like the idea, either.

Gee, ain't it awful when some guy like Mac has a one track mind and it's all on one girl. And say, he isn't the only one who's interested in Roaring Springs. We know two Sophomore girls who just love to go to Roaring Springs and it isn't the town that gets 'em.

Dorothy W. thinks life-guards are just too, too wonderful, especially short, dark, and handsome ones.

Wanda hasn't been doing so bad for herself this summer, either. We hear he is in the air corps, now.

Algie has sworn off girls for a while it seems, which makes it pretty hard on some of these sophs. Eh, girls?

June Barton almost didn't get get back from her vacation in California. Mickey Rooney seems to have stolen her heart.

J. C. and Virginia McCarty seem to be one of the latest couples. Ain't they the cutest things?

Laverne, you heartless creature. Don't you have any feelings for your friends? Taking Walter away from Bennie Wayne. Now is that any way to do?

Bennie doesn't seem to mind now that Ross has started to school here.

Justine and that Cooper boy! They had an excellent time at the Old Settlers' Reunion.

Another cute couple we failed to mention is Mavinee and Long John. Some people have all the luck.

I'll sign off for this week; but watch out for I'll be back next week with more dirt and scandal.

M.H.S.—
In his youth, George Washington made a trip to Barbados, in the West Indies.

for herself this summer, either. We hear he is in the air corps, now.

Algie has sworn off girls for a while it seems, which makes it pretty hard on some of these sophs. Eh, girls?

Tough luck, Tom Ed. Just as he finds the girl of his dreams, she moves away. Let's hope she likes to write letters.

We hear Ruth Evelyn has really been getting around this summer. Better look out for Patsy.

This Matador-Paducah affair is starting all over again. It seems Junior has found a new interest which answers to the name of Suzy. Cute, I'd say.

Gee, these blondes have eyes only for Patton Springs. The two in question are Mary Ruth and Joyce.

All you girls better watch out. Billy Pharis is back in town. And say, that cute Yandell boy is a wow!

Dorothy N. seems to be suffering (?) from a slight heart-break. Could Buzzie be the reason?

Campus Jokes

Mr. Ezzell: "Well, it's a ling said, 'Woman's not a rag, a bone, and a bank' Mrs. Ezzell: "Yes, and a man? What's a man, Nothing but a brag, a gag, a tank of air."

M.H.S.—
Coach: "If you had one pocket and \$10.00 other one, what would you do?" Bobby Harp: "I'd have one else's pants."

M.H.S.—
Waiter: "How did you like the steak, sir?"

Mr. Gray: "It was just happened to move that potato and there it was!"

M.H.S.—
One scrapped automobile enough iron and steel to light cannon, and twice have enough for a light and one half million and the dump yearly.

Peeling is easy and wiggible on a new variety with protruding eyes.

NOTICE OF ROAD BOND ELECTION

THE STATE OF TEXAS, COUNTY OF MOTLEY, TO THE RESIDENT QUALIFIED ELECTORS OF MOTLEY COUNTY, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID COUNTY AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held on the 11th day of October, 1941, in Motley County, Texas, to determine whether or not bonds shall be issued by said County in the amount of \$70,000.00 for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, in Motley County, Texas, and whether or not ad valorem taxes shall be levied annually on all taxable property in said County for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity, in obedience to an ELECTION ORDER passed by the Commissioners' Court of Motley County, Texas, on the 8th day of September, 1941, and which said order is in words and figures as follows to wit:

ORDER OF ROAD BOND ELECTION

ON THIS 8th day of September, 1941, the Commissioners' Court of Motley County, Texas, convened in Regular session, at the regular meeting place thereof in the Courthouse at Matador, Texas, the following members of said Court, to-wit:

W. R. CAMMACK, COUNTY JUDGE, Presiding; and, J. S. LAMBERT, COMMISSIONER, Precinct Number 1; J. M. JAMESON, COMMISSIONER, Precinct Number 2; A. B. SIMPSON, COMMISSIONER, Precinct Number 3; H. L. SMITH, COMMISSIONER, Precinct Number 4; being present and participating, came on to be considered the petition of T. A. Bynum and Sixty-one other persons, for an election

Cotton On The Walls

Made by the world's largest manufacturer of oil cloth, a new cotton wall covering rivaling in price the better grades of wall paper, is finding extensive use in leading hotels and apartment buildings. Providing a permanent and washable finish with structural as well as decorative advantages, the cotton covering has been specified in 5,000 houses now being constructed as a part of the national defense program. The illustration above shows application of the cotton covering in the Barbizon-Plaza hotel in New York.

to be held in said Motley County, Texas, to determine whether or not bonds be issued by said County in the amount of \$70,000, for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, in Motley County, Texas, and whether or not ad valorem taxes shall be levied upon all taxable property of said Motley County, Texas, subject to taxation, for the purpose of paying the interest of said bonds and to provide a sinking fund for the redemption thereof at maturity; and,

IT APPEARING to the said Court that said petition is signed by more than fifty (50) qualified resident property taxpayers voters of said Motley County, Texas; and,

IT FURTHER APPEARING that the amount of bonds to be

issued will not exceed one-fourth of the assessed valuation of the real property of said Motley County Texas;

IT IS, THEREFORE, CONSIDERED AND ORDERED by the said Court that an election be held in said Motley County, Texas, on the 11th day of October, 1941, which is not less than thirty (30) days from the date of this order to determine whether or not the bonds of said Motley County, Texas, shall be issued in the amount of \$70,000.00, in conformity with the Constitution and laws of the State of Texas, particular Section 52, Article 3, of the Constitution, and Chapter 16, Acts of 1926, First Called Session, as amended, for the purpose of the construction, maintenance and operation of macadamized graveled or paved roads and turnpikes, or in aid thereof in

Motley County, Texas. Said bonds to bear interest at a rate not to exceed 3 1/4% per annum, and to mature serially not to exceed twenty (20) years from the date thereof; and whether or not an ad valorem tax shall be levied annually upon the property of said Motley County, Texas, subject to taxation, for the purpose of paying the annual interest on said bonds and to provide a sinking fund for the redemption of said bonds at maturity.

THE SAID ELECTION shall be held under the provisions of said Chapter 16, Acts 1926, First Called Session.

ALL PERSONS who are legally qualified voters of said Motley County, Texas, who are resident property taxpayers of said County and who have duly rendered their property for taxation, shall be entitled to vote at said election.

ALL VOTERS desiring to support the proposition to issue the bonds shall have written or printed upon their ballots, the words: "FOR THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF."

And, those opposed to the proposition shall have written or printed upon their ballots, the words:

"AGAINST THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF."

THE POLLING places and presiding officers of said election shall be, respectively, as follows:

MATADOR, Voting Precinct Number 1, at Courthouse, G. M. Birchfield, Election Judge; Scott Bolton, Assistant Judge;

MATADOR, Voting Precinct Number 1, at City Hall, M. S. Patton, Election Judge; Frank Pohl, Assistant Judge; FAIRVIEW, Voting Precinct Number 1, at Schoolhouse, C. T. Jenkins, Election Judge; Price Beauchamp, Assistant Judge;

WHITEFLAT, Voting Precinct Number 2 at Schoolhouse, W. L. McWilliams, Election Judge, T. M. Dixon, Assistant Judge;

FLOMOT, Voting Precinct Number 2, at Schoolhouse, R. H. Tanner, Election Judge, Bob Morris, Assistant

Judge;

FOLLIE, Voting Precinct Number 2, at Schoolhouse, J. R. Nall, Election Judge, J. F. Montgomery, Assistant Judge;

NORTHFIELD, Voting Precinct Number 3, at Schoolhouse, O. F. Etheredge, Election Judge, Delmont Hays, Assistant Judge;

DARDEN CANYON, Voting Precinct Number 4, at Schoolhouse, L. A. Stearns, Election Judge, J. F. Bridges, Assistant Judge;

UNION CORNER, Voting Precinct Number 4, at Bill Morris Residence, Jim Hollar, Election Judge, Bill Morris, Assistant Judge;

ROARING SPRINGS, Voting Precinct Number 4, at Womack Building, Glenn Dobkins, Election Judge, J. D. Mitchell, Assistant Judge;

THE COUNTY CLERK of Motley County, Texas, is hereby authorized and directed to cause said notice of election to be published once each week for three consecutive weeks, in some newspaper of general circulation that has been continuously and regularly published for more than one year previous to the date of this order, in Motley County, Texas, and, in addition thereto, by posting notices of such election at four public places in Motley County, Texas, one of which shall be at the courthouse door of said County, for three consecutive weeks prior to said election.

A COPY of this order, signed by the County Judge of Motley County, Texas, and certified to by the County Clerk of said County shall serve as a proper notice of said election.

The above order having been read in full, it was moved by Commissioner H. L. Smith and seconded by Commissioner J. M. Jameson that the same be passed and adopted. Thereupon, the question being called for, the following members of said Court voted "AYE": Lambert, Jameson, Simpson, and Smith; and the following voted "NO": None.

PASSED AND APPROVED, this, the 8th day of September, 1941.

W. R. Cammack, County Judge, Motley County, Texas.

J. S. Lambert, Commissioner of

Precinct Number 1.

J. M. Jameson, Commissioner of Precinct Number 2.

A. B. Simpson, Commissioner of Precinct Number 3.

H. L. Smith, Commissioner of Precinct Number 4.

(SEAL) ATTEST:
R. A. Seay, County Clerk and Ex-Officio Clerk of the Commissioners' Court of Motley County, Texas.

The above and foregoing NOTICE OF ROAD BOND ELECTION is issued and given by me, pursuant to authority conferred by the above and foregoing order of the Commissioners' Court of said County, and I hereby certify that the above and foregoing is a full, true and correct copy of the order of said Court, ordering said bond election, and also the Minutes showing the passage thereof.

WITNESS MY OFFICIAL SIGNATURE, with the seal of the Commissioners' Court of Motley County, Texas, affixed, this the 8th day of September, 1941.

(Com. Court Seal)

R. A. Seay, County Clerk and Ex-Officio Clerk of the Commissioners' Court of Motley County, Texas.

estimate there were 11 more cattle on feed for 11 cornbelt states on August 1 than one year ago.

On July 31, 296 federated unions in Texas held their annual convention at the Farm Administration. Two charters were issued in July.

The seasonal decline in production between July and August was about 10 per cent, the smallest percentage decline reported at that season by the Agricultural Marketing Service.

Eggs are rich in vitamins and constitute practically the farm commodity which claims to be a source of important vitamins.

Out On a Limb

Service at sea involves all sorts of odd and dangerous jobs, especially on that bucking bronco of the high seas, the destroyer. Here two Polish sailors are making a running repair on the paravane gear of their new destroyer, O.R.P. PIORUN, which was turned over to them by the British Government to take the place of a Polish vessel lost off the coast of Norway. The paravane—it's that finny, torpedo-like body in the foreground—is a hollow float which is towed along beside the destroyer to deflect and snap the anchor cables of lurking mines.

CARD OF THANKS

We desire to take this method of expressing our sincere appreciation for the many acts of kindness, words of sympathy and the beautiful floral offerings tendered by neighbors and friends during the illness and death of our loved one.

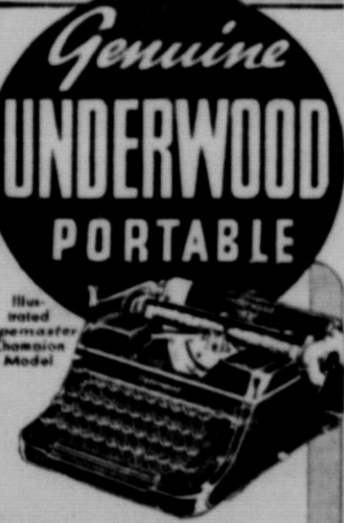

It is our wish that the blessings of God may rest upon each of you.

BOYS SHOW MORE INTEREST IN 4-H CLUB PROJECTS

Motley county boys will feed over 120 animals this year as compared with 44 head fed out last year, it was announced by County Agent J. Rufus Emmons, upon returning from a meeting at Flomot, Monday morning.

"A total of 15 boys have already put 28 calves on feed," Mr. Emmons declared, "and about 30 additional boys are scheduled to place 50 more calves on feed within the next two weeks."

Boys will begin to feed pigs about the first of November. At the 4-H Club meeting held at Flomot, Monday, the following officers were elected: C. M. Jones, president; Leonard Crowell, Jr., vice-president; and Hubert Martin, secretary.

Boys with calves already on feed are: Roaring Springs—Leon Kingery, 3 calves; Leonard Anderson, 2 calves and Billie Long, 1 calf.

Matador—Raldo James, 2 calves; Don Reeves, 7 calves; Bill Rushing, 1 calf; and Bob Rushing, 1 calf; Curtis Martin, 2 calves; Don Paul Keith, 2 calves.

Whiteflat—Bobby Browning, 2 calves; Flomot—M. C. Jones, 4 calves; Bill Meyer, 2 calves; Lowell Webb, 2 calves.

Northflat—Jackie Simpson, 1 calf; Foy McDonald, 1 calf; Travis McDonald, 1 calf; Dale Ashford, 1 calf.

hopes on four lettered linemen and a host of heavyweight newcomers. Crowell's coach Grady Graves has 22 men working out regularly on his first string and rates some of his men very high. Slight Weight Advantage

In comparison, the average Crowell squad weight is 147, but the starting lineup is 160 pounds, a slight advantage over the Matador string, but with less experience. Average Crowell age is 16 years, which is about the same as that of the Matadors.

Coach Graves has faith that his team will finish high in the district race this season.

Coach Don Martin of the Matadors lists the following possible starting lineup: J. C. Titus and L. M. Cox, guards; Phil Green and Billy Tunnell, ends; Doug Pitts and Alton Marshall, tackles; Glenn (Spot) Allen as center, Algie Durbin as quarterback, Vance Campbell as fullback, Travis (Mutt) McDonald as right half back and Norman Pitts as left half.

Arizona Hamlet Receives Mail By Pack Burro

TUBAC, Ariz.—Streamlined trains and transcontinental transports speed the mails from coast to coast in the space of a few hours, but in Tubac it is transported today as it was 50 years ago—by pack burro.

Ramon Quintero, a native of Tubac, for 20 years has carried the mails twice a day from the railroad station to the postoffice on his pack burro. Often, when the Santa Cruz river is up, Ramon and his burro may have to wait for hours to get across, and he's even held the mailbag over his head and waded the river.

A relic of olden days, Tubac is surrounded by crumbling adobe walls and memories of the past. Ramon lives there with his children and grandchildren, setting the pace for the town, happy in his existence, or as he would put it "asi es la vida" (This is the life).

Situated in southern Arizona, Tubac is a sleepy little town that has refused to keep pace with modern developments. The Southern Pacific line between Nogales and Tucson passes thru, carrying mail to the west coast of Mexico.

Every minute, 19 persons are accidentally injured in the United States.

Fort Worth Doctor Turns Author To Tell Life's History

(Written by C. L. Douglas) Dr. Charles H. McCullum, prominent Ft. Worth surgeon and one of the best known men of medicine of the Southwest, has turned author.

He has written a book titled "Pills and Proverbs" (announced by the Meador Publishing Co., of Boston) and it is filled with humorous, tragic, and unusual anecdotes gleaned from half a century's rich experience as farmer boy, drug store clerk, county practitioner, army medic, surgeon, professor and world traveler.

"Pills and Proverbs," as the title might imply, is not just a story of what a doctor sees, and hears, and does; it is also a story of self-reliance and courage—the account of how a lad of few ordinary privileges, son of a poor farmer, overcame all handicaps to become a noted surgeon. One of Alger's own heroes couldn't have done a better job.

It is the doctor's first adventure in writing, but there's nothing dull about his product. He shows from the very first pages that he is expert at turning clever phrases, and even in some of the more serious discourses he seems unable to prevent a sense of puckish humor from slipping in here and there.

Especially humorous and filled with human interest are accounts of his experiences in the army during the Spanish American War and anecdotes concerning some of the patients he encountered as a country doctor. Don't imagine that this book's appeal is directed solely toward the medical profession.

There's nothing scientific or technical about it in the least. It's just the story of a man's life written in a language that the layman can understand and thoroughly enjoy.

But, although Dr. McCullum has from time to time practiced in various branches of the specialties, he leaves no doubt that he has clung faithfully to the medicine kit of the general practitioner and that he still believes that the good diagnostician is the most important of doctors.

The book which already has won enthusiastic approval from various teachers, lawyers, surgeons and theologians, runs to 225 pages and includes 11 illustrations. It sells for \$2.00.

The author does not receive any compensation from the sale of the book, however, since the selling price is exactly the amount charged him for the printing and binding. Originally the publishers wanted to add a brokerage for the doctor, but he turned a deaf ear to this. He says: "If the book has any merit, I want the people of the State to have it; I certainly did not compile it with the view of profit to myself."

Social Diseases Are Combated By Health Department

The Venereal Disease Program of the Texas State Department of Health, in cooperation with the Texas State Medical Association composed of some five thousand Texas physicians, has rapidly expanded during the past two years," Dr. Geo. W. Cox, State Health Officer, declared recently. "And at present it is reaching 90 per cent of the State's population."

This work is vital to national defense and has been highly commended by those in charge of Selective Service. Young men infected with a venereal disease are not acceptable for training in the armed forces for the defense of this nation. Every effort is being made, in cooperation with military authorities, to keep venereal disease infections to a minimum. The need of this work in national defense and in civilian life is apparent when the records of the draft boards in Texas show that six out of every one hundred men examined are rejected for military service because of syphilitic infection.

At the present time 90 venereal disease clinics are in operation in 62 counties and in an additional 130 counties treatment is available to the indigent patients thru service given by the physicians of Texas. In this latter case, thru plans worked out between the State Health Department and local medical societies, drugs are supplied thru the department to assist the physicians in giving service to the indigent patients. Of the 44 cities in Texas with a population of over 10,000, only a few are without available treatments, and in these venereal disease services are being rapidly developed. When this is accomplished, Texas will be among the leading states in meeting its venereal disease problem.

Farmers Warned Against Burning Stubble Fields

Since stubble is a potential soil erosion hazard, penalties may be assessed against AAA farm payments, W. I. Rushing, AAA official, has announced in warning farmers against this practice.

Under 1941 farm program regulations, a deduction of \$1 per acre may be made for each acre of cropland in the farm subject to wind and water erosion on which approved measures have not been adopted.

Erosion, and reduced fertility of the soil are some of the dangers resulting from burning of stubble.

In many sections of the state, heavy spring rains caused an unusually large amount of small grain straw which reportedly resulted in an increase of insects. In an attempt to check the insects and make fields easier to plow, the stubble is being burned.

It is generally conceded that vegetation and residue turned under makes the soil more spongy and capable of absorbing larger quantities of water, the AAA official said. Movement of soil by wind or water erosion will also be checked.

Burning of straw leaves a field more barren than crop failure, Mr. Rushing explained, and makes it subject to unnecessary washing and plowing. Roots are not sufficient to check these damages since they are too deep to be effective in checking top soil. Fire also destroys organic matter vital to fertility and when destroyed, further production will be affected.

Civil Service Exam.

To meet the increasing demands of various Federal agencies the Civil Service Commission has begun an intensive drive for medical officers. A new examination for Medical Officer, Associate Medical Officer, and Senior Medical Officer, with salaries ranging from \$3,200 to \$4,600 a year, has just been announced. While graduation from a Class A medical school and completion of internship are general requirements for the associate grade, under terms of the new announcement persons who are now serving their internship may apply.

For the associate grade graduation must have been since May 1, 1930; for medical officer, since May 1, 1920; and for Senior medical officer graduation need not have been within any specified time limit. Professional experience in a specialized branch of medicine is also necessary for the two highest grades. Appointments are to be made in the Public Health Service and the Food and Drug Administration of the Federal Security Agency; Veterans Administration; Civil Aeronautics Administration of the Department of Commerce; and the Indian Service, Department of the Interior. The need is urgent. Although applications will be rated as soon as practicable after their receipt at the Commission's office, qualified persons should apply at once.

Examinations have been announced also for various grades of photographer positions, with salaries from \$1,260 to \$2,600. The Commission especially desires applications from persons who have done work in wet-plate, process, and general commercial photography, and in photographic mapping. Experience in photographic work is required for all grades. Amateur photographic experience will be rated as soon as practicable after receipt at the Commission's Washington office until June 30, 1942.

ATTEND FUNERAL

Mrs. G. E. Hamilton, accompanied by Mrs. David Guest and Miss Ruth Groves, drove to Childress Wednesday of last week where they attended funeral services for Miss Lena Czewski. They were accompanied by Mrs. John Hamilton and baby son Harry.

Also attending the funeral were Mr. and Mrs. Joe Bloodworth of Whiteflat.

TO NEW MEXICO

Mr. and Mrs. A. A. Groves, accompanied by their daughter, Mrs. Lois Smart of Matador, and their son, Bill, of Magnolia, Arkansas, made a trip to Tucumcari, New Mexico, Sunday, where they will remain for an indefinite time for Mr. Groves' health.

Mrs. Smart and her brother returned home Tuesday.

ERRATUM

The Tribune wishes to correct a headline error appearing on the front page of last week's issue, which should have read, "Final Rites Are Held For Mrs. Fletcher."

Also, Mr. and Mrs. Fred Clower are new owners of the Hershell Whitehead home instead of the Walter Clowers.

LOCAL ITEMS

Dr. and Mrs. J. S. Stanley and daughter Ruth Marie, returned home Wednesday from Uvalde where they were called Sunday to the bedside of Dr. Stanley's father who had suffered a stroke.

FOR SALE: 1/4 section farm and grass land, priced right. See Gene Perkins, Matador.

Mrs. L. F. Davis of Lubbock, former Matador resident, is visiting here this week with her sisters, Mesdames Homer Shea's and R. P. Moore.

Dick Groves, of Ellington Field, near Houston, is spending a twenty-day furlough here with his parents, Mr. and Mrs. A. B. Groves.

Frank Eiring of Plainview, has been a business visitor here this week. Rev. Dee Cates of Plainview, spent the week end here visiting friends.

Mrs. G. S. Craven accompanied her son and his wife, Mr. and Mrs. Arvil Craven of Ralls, to Clovis, New Mexico, Wednesday of last week, where they visited Mr. and Mrs. Vernon Craven and baby daughter.

Miss Aileen Russell returned to Plainview Monday, to resume duties as student nurse in the Plainview Sanitarium, after a three weeks' vacation here with her parents, Mr. and Mrs. John C. Russell.

G. E. Hamilton returned home Wednesday from a business trip to Houston.

Mr. and Mrs. A. M. Bourland, accompanied by their daughter, Mrs. Scott Bolton, and a grandson, W. T. Marshall, returned home Friday from a trip to Yellowstone National Park, Salt Lake City, Utah, and other points of interest enroute.

Mr. and Mrs. G. M. Shelby left Saturday for their home in Fort Worth, following a two weeks' visit here with Mrs. Shelby's sister, Mrs. R. F. Thornton and family. Mr. and Mrs. Shelby attended the Old Settler's reunion at Roaring Springs while here.

Mrs. Delbert Groves returned to Plainview Sunday, to resume duties in the Plainview Sanitarium, after spending a three week's vacation here with Mr. Groves and their daughter, Dell Juana.
