## CROWELL IS DESTROYED

### Death And Destruction In Wake Of Tornado; Matador Sends Supplies

CROWELL, county seat of Foard county, 70 miles east of Matador was "Blown Away" by a tornado which struck about 8:30 Tuesday evening. Fire broke out shortly after the storm had passed and raged out of control for several hours.

Sheriff H. H. Courtney and other west Texas officers answered calls from the stricken city. A late report yesterday said that nine persons had been killed and more than seventy injured, however, work was still underway to search the wreckage for additional bodies.

Estimate of property loss was one and a half million dollars. Almost the entire residence and about 70% of the business districts were damaged.

State police patrolled the city and highways as thousands of automobiles filled the area. Crowell has a population of 2,000.

### Matador Sends Aid

Matador responded immediately to calls for clothing, food and particularly shoes, which the 1,300 homeless people needed most. Dr. A. C. Traweck and Henry Pipkin left late yesterday with 70 loaves of bread, 40 pair of new shoes, 10 dresses and 5 suits of clothes. A truck load of clothing and other supplies will leave early this morning following collection yesterday afternoon sponsored by the Boy Scouts under the direction of the Lions Club, Fire Department, and Red Cross.

Many local residents visited the scene of the tornado yesterday and expressed amazement and horror at the great destruction left in the path of the wind.

Matador power and lights were affected by the storm since the transmission lines from Lake Pauline were in the path. The local substation was immediately placed in operation, serving Matador and Roaring Springs until six o'clock yesterday afternoon when regular power was again resumed.

A report from the Foard County News received yesterday morning said that the newspaper office was one of the few businesses in Crowell which escaped damage.

A severe windstorm and heavy rains were reported in the area. Quannah had a near tornadoic wind and four inches of rainfall. Chilli-cothe had a "terrific wind" and a drenching rain.

The tornado struck Crowell about 30 hours after a similar storm had left Pryor, Oklahoma with 70 known dead and an estimated \$2,000,000 damage.

### California Blast Fatal To Man From Roaring Springs

Tragedy pointed its grim finger at the Roaring Springs community this week when T. J. Taylor, 23, was fatally burned in an explosion in a ship yard at Oakland, California, where he was employed as welder.

The accident occurred Saturday morning and relatives at Roaring Springs, where the youth had lived since 1932, were notified. His father, W. E. Taylor, and father-in-law, A. D. Williams left immediately for Oakland, but on reaching Barstow, communicated with the victim's wife who advised that he had passed away Sunday morning, although he had remained conscious until death.

The two fathers waited at Barstow. (Continued On Back Page)

### Funeral Rites Held Sunday For Aged Resident

Funeral rites were held Sunday afternoon at the Roaring Springs cemetery, for Connor Garnett, 75, who died at the county home in Matador. The aged man, an uncle of D. F. Garnett of Roaring Springs, was a bachelor and had no permanent home.

Other survivors include a sister who resides at Kaufman, a brother in California, Mrs. Kay Coombes of Pampa, a niece.

Attending the funeral during his illness were Mr. and Mrs. Kay Coombes of Pampa and Mr. and Mrs. A. P. Garnett of Clarendon, the latter also being a nephew.

Others attending the funeral included a sister-in-law, a Mrs. Garnett of Jordan, New Mexico, who was accompanied by her sons Bill and Newell, and the former's wife.

### TWO FIRE ALARMS

Matador Volunteer Fire Department made two runs during the past week in response to alarms. "Buck" Fuller's home in Matador's Negro town was destroyed by fire Friday of unknown origin while the Negro owner was at the doctor's office receiving medical treatment for pneumonia.

Saturday night Deputy Sheriff Ward Rattan's car "caught fire" about half way to Roaring Springs because of a dry transmission. The department answered a report, followed by about half the city's populace. The fire was extinguished before the department and long escort arrived.

### VISITS HERE

Total registration in the county was 438, listed in communities as follows: Whiteflat 47, Roaring Springs 111, Matador 190, Flomot 71 and Northfield 19.

The Matador Lions Club had the largest delegation at the Zone meeting Thursday evening of last week, at Paducah, with fifteen members making the trip.

The meeting was declared to be one of the most interesting held during the past year, with Mrs. Byron Pollock, wife of Major Byron Pollock, as guest of honor. Admission prices are 10, 15, and 25 cents.

### EDITOR AND "FLU" FEUDING

The old feud between editor Douglas Meador and the "flu" is resumed. The editor is barely able to stir after four days in bed. The "flu" is good is new.

Resuming his place at the Tribune at noon yesterday, the Tribune's Simon Legree, gives complete credit for this issue to faithful confederates, and Mrs. M. who has been nurse, housewife, breadwinner and editor combined.

"Nothing but my sincere apologies," said Mr. Meador last night, "to those friends who willingly accepted my last 'flu' remedy. It was not as effective as I believed but my intentions were honorable."

### Game Group Sees Alaska Pictures

HOWE, THE TACKLESS TEXAN, publisher of the Amarillo Globe, philosopher, writer and member of the Texas Game, Fish and Conservation Commission, made a special trip to Matador Friday to see a famous colored motion picture which Gulf Oil Company's employees made on an Alaskan expedition last summer. The films, a special arrangement with the Gulf Company, were exhibited last night in the District Court room to a small group of officials.

Members of the Motley County Management Association, who were accompanied by Park, technician. The picture was brought to Matador without expense to the Management Association.

### ACP Checks Arrive For Farmers

Coffers and bank rolls of Motley County farmers were enriched by \$14,107.00 in another shipment last week of 1941 ACP (soil conservation) checks, in the office of County Agent J. R. Emmons.

Monies received, including this shipment, by Motley farmers for the 1941 farm program, now total \$81,467.89, according to C. H. Butler, AAA Assistant, and represent payment on 58% of farms in the county.

### H. W. Fite Makes Big Coyote Haul

U. S. Trapper H. W. Fite has reduced Motley county's coyote population by 19 in one day. Yesterday he found a den of week-old pups in the "Matador Ranch Shipping Pasture" north of town, killed the mother and 15 pups. He also caught three adult wolves in his trap line. The pups were mixed with police dog, Mr. Fite declared.

Charles Gipson, a student trapper, has assumed his duties at Aspermont after spending two weeks under Mr. Fite's tutelage. Government trappers are required to spend a certain amount of time in the field under experienced men before they can qualify for regular employment.

### Wheat Referendum To Be Voted By Farmers Saturday

America has enough wheat to make 588 loaves of bread for every person in the country, according to W. I. Rushing, chairman, Motley county AAA committee.

"Translated into ordinary English that's lots of wheat and unless we control those giant reserves, we'll probably run into a lot of troubles and headaches before we've disposed of it," the chairman said.

According to statistics in the county AAA office, wheat farmers are eligible to vote in the wheat referendum Saturday, May 2. Polls will open at 8:00 a. m. and close at 8:00 p. m. (war time).

The polling place in the county will be the A. A. A. office with the County Committee in charge.

In last year's referendum, Motley county wheat farmers voted 100 percent for quotas, while Texas wheat farmers approved quotas by 94 percent.

"On May 2, we'll be doing a thing few farmers in the world can do. By cooperative and democratic privileges, we can step up to the polls and vote the way we want to on wheat marketing quotas," the AAA official said.

## Spring Housecleaning Advocated For Discovery Of Scrap Materials

### Useless Articles May Be Of Value As War Materials

One way to "get in the scrap" on the Home Front is to have a good spring housecleaning. That is the suggestion of the State Salvage Committee which points out that such a housecleaning probably will uncover things considered worthless or too old for further use, but which may be salvaged now for critical materials they contain.

To that end, a state-wide spring housecleaning for materials that can be salvaged for war production was called for today by Geo. B. Butler, executive secretary of the Texas Salvage Committee.

**Waste Materials Needed**  
"Great quantities of the things we need would be brought to light by a concerted spring housecleaning," Mr. Butler suggested. "House cleaning in the average home generally uncovers things that are considered worthless or too old for further use. In the past, these collections often have cluttered up attics, cellars and backyards, so they have been destroyed or lost to further use by being carried away by municipal refuse collectors."

This year, he emphasized, the need for the return of waste materials into new production "should be plain to all of us."

**Metals Are Valuable**  
"Old metal ornaments, obsolete plumbing and heating equipment, broken tools—these can become parts of guns, planes and tanks," Mr. Butler pointed out. "Old tires and tubes, old hot water bottles and bath mats can go into the production of reclaimed rubber which is needed so critically to replace our lost supply of crude rubber from the Far East. Old rags can be made into wiping rags for use in war plants, and waste paper is in demand for conversion into cartons for the shipment of munition and canned foods for our men in the field."

The Texas Salvage Committee, through its local committees in the 254 counties of the state, already has stimulated the flow of household waste materials to a tremendous degree. Mr. Butler said, but he added: "I am sure that a state-wide, concerted housecleaning will bring to light additional vast quantities of the things we need. Here—and now—is an opportunity for every family in Texas to make an important and direct contribution to our all-out war effort."

"Business men can lend important support to this spring housecleaning drive, too," Mr. Butler said. "Shops, plants and factories already are cooperating in the Salvage for Victory program, but we urge them to make a special effort to increase the movement of obsolete and similar waste materials."

### Musical Rainbow Declared Success

Although attendance was low, due to heavy rains throughout the day, the "Musical Rainbow" presented Thursday evening of last week, by El Progreso Study Club, was declared a success by both the audience and club members.

It was estimated that in the neighborhood of \$10.00 will be realized by the club after expenses are paid, which amount will be used for club activities, including the maintenance of the Matador City Library.

An attractively decorated stage featured a rainbow with the pot of gold at its base, and a multi-colored spotlight cast soft lights on the principals as they appeared in the musical titles.

Mrs. J. R. Whitworth, as Commentator, gave an appropriate, brief foreword for each number. The program, directed by Mrs. G. E. Hamilton, included a chorus of girls from Roaring Springs, directed by Mrs. Carrie Bishop, with Mrs. Homer Kingery as accompanists. Other accompanists were Mrs. Hamilton and Misses Roberta and Mable Jameson.

### Girl's Auxiliary Meets At Church

### Knitting Needles Needed For Red Cross War Efforts

The local Red Cross Chapter is unable to purchase knitting needles at present for knitting socks, and Miss Mary Keith, productive chairman, is making an appeal for extra needles.

"We have on hand enough sock yarn for knitting 20 pairs of socks," Miss Keith stated, "and if women who have their own individual needles, and are experienced in knitting socks, will ask to knit these socks, it will be a great help."

If women who have needles, and are unable to assist in this work, will let someone else use theirs until needles can be bought, it will be greatly appreciated, Miss Keith said.

Miss Keith also advised that those wishing to purchase knitting needles for personal uses, should do so at once, due to the imminent shortage.

### LITTLE INTEREST SHOWN IN VICTORY BOOK CAMPAIGN

But very little interest has been manifested in the Victory Book Campaign which was launched here recently for the purpose of supplying boys in the armed service with books, magazines and other reading matter, according to Mrs. M. J. Reilly, acting chairman in charge.

In the beginning of the campaign, a small number of magazines and books were left at the office of County Judge W. R. Cammack, but to date, no others have been added to the collection, although several people have indicated that they have contributions to make in this connection.

The Nation-Wide drive for reading matter is sponsored by the American Library Association, The American Red Cross and The United Service Organizations, with the slogan, "From Bookcase To Barracks."

This appeal is made by these organizations: "Give the book you are reading now. Go through your bookcase and select books you have enjoyed. The boys want all kinds of fiction, travel, biography, poetry, recent science and mathematics and up-to-date technical books. Current magazines during the past 18 months are also acceptable."

Anyone having contributions to make to this collection, and unable to take them to the judge's office in the court house, is requested to notify Mrs. Reilly, who will gladly call for these donations.

and Mr. Howe a gun. Mr. Lamb was supposed to make his pictures before Mr. Howe shot the bear.

"I missed the bear half a dozen shots," Mr. Howe declared, "although he had noticed us and was running. A bear of this size can run as fast as 32 miles per hour. When we developed the pictures that Jack Lamb made before I started shooting they showed nothing but blue sky."

Motion pictures of the bear appeared to be 150 to 200 yards away.

(Continued From Front Page)

Harry Lee Morriss Jr., will "remember Pearl Harbor" because he was there when the fateful bombs began to fall from the sky on December 7.

In a recent letter from Mrs. Ben S. Allen of San Francisco, California, formerly of Whiteflat, and sister of Mrs. M. D. Morriss, Whiteflat postmistress, to the boy's mother, Mrs. H. L. Morriss, interesting details were revealed of his recent activities.

Harry Jr., who was only 17 when he enlisted in the Navy on March 4, 1941, was aboard a cruiser anchored in Pearl Harbor when the Japs made the historical attack. During a recent period when his ship was docked in the vicinity of San Francisco, he visited Mr. and Mrs. Allen and recounted the harrowing details of the escape of his ship.

He said that his ship got up steam and was out of Pearl Harbor in one hour when normally it took 3 hours to get the engines hot, doing 26 knots per hour in getting out. For three days they cruised around looking for the enemy and dodging subs. Young Morriss also told of other engagements they have been in with plane and submarine attacks, including the battle at Gilbert Island.

Present location of his ship was not disclosed.

8. Any member of a family 18 years of age or over may register for the whole family. (However, he or she must be in possession of the facts that are to be placed upon the registration certificate.) This information must include number of children in family; age, height, weight, and color of hair and eyes of each child.

9. Every person living within the Matador, Fairview, and Barton Districts is to be registered by the Matador Grade School. People who board in a home or in a hotel must be registered as individuals. Parents who have sons or daughters away in college will register those sons or daughters here.

10. Mr. Doss, Grade School Principal, will be School Site Administrator for all these registrations. He will be assisted by myself and a sufficient number of teachers to get the job done.

11. If any one living in this area who is supposed to register on one of these four days cannot, for some unpreventable cause, register during the four day period, he or she may register in about two weeks with the County Rationing Board. The work of the schools will be complete and final at the end of the four day period, unless, of course, it is called upon in some other emergency.

6. Wednesday and Thursday will be used to register any who could not conveniently register on Monday or Tuesday.

7. We wish to assure the public that registration may be done on any one of the four days. The above suggested schedule is only to eliminate confusion and long hours of waiting by registrants. We want to do this thing absolutely in perfect fashion so far as is humanly possible for the reason that this civilian registration is, we are informed, to be the basis of all future rationing of every kind—when and if such is necessary. But at the same time, we want to effect this enormous task with the least possible waste of time and cost by civilians.

5. Those living out of the city who do not make daily trips to town may register on any of the four days.

4. All people who live in Matador District whose surnames begin with the letters A through M are asked to register Monday, May 4th., and those whose surnames begin with N and through Z are asked to register Tuesday, May 5th.

3. The registrations at the gymnasium will be from 8:30 a. m. until 5:30 p. m. (The State Rationing Board at Austin is requiring the schools to wire in at 6:00 p. m. each day the number registered that day) Hence it will be necessary for our day's files to be closed by 5:30.

2. People who live in the Barton District may register at the Barton School House on Wednesday, May 6th between the hours of 9 a. m. and 4 p. m. But if it is more convenient to register at the Matador gymnasium, they may do so.

1. All registrations for the people who live in the Matador and Fairview Districts will be held in the gymnasium. People may drive up to the gymnasium from the rear of the campus.
