## Bond Drive is Reaching Apex

### Pie Sells For \$500 At Northfield Rally; Sales Short Of County Quota

A "BOGGY TOP" pie sold for \$500 at Northfield Tuesday night, indicative of typical interest at community rallies staged during the past week as Motley county placed a united shoulder to the wheel in effort to raise a \$104,000.00 (sales value) quota in the nation's Second War Loan drive, during the month of April. Ben Simpson, Northfield rancher bid \$500 for the pie and later purchased a \$1,000 bond instead of the \$500 which was pledged by his bid. Total sales at the rally were approximately \$5,800 in bonds and stamps.

Elmer Stearns, county co-chairman of the drive said late yesterday that approximately 82% of the quota has been purchased during the past three days. Monday's sales totaled approximately \$55,000 (maturity value). However, the drive is reaching its apex, Mr. Stearns declared, and greater effort will be required during the next few days to secure the remaining 18%.

#### May Sell The City Hall

Matador has purchased 91% of its quota, but the remaining 9% represents about \$7,000 and D. E. Pitts, Captain of the Matador committee, is not satisfied. "We are going to sell that \$7,000 worth of bonds within the next day or two, if we have to sell the city hall to buy them," he declared.

Mr. Stearns praised the captains of the various community committees for their unselfish devotion to a vital patriotic duty. "These Captains and their workers are not solicitors," Mr. Stearns declared. "They are 'Agents of Duty' giving their time and effort to make it more convenient for other citizens to buy bonds. Sales of bonds at this crucial period in our nation's war effort, should not require any persuasion, or 'sales-talk.' It requires money to fight a war. Men are giving their lives daily and we are only asked to lend our money. We hope that this first drive is which the county has participated will establish the 40 volunteer workers as part of an organization striving to bring all communities forward with their quotas and thus make the 'selling' easier in subsequent drives which we will be asked to take part."

Mr. Stearns and G. E. Hamilton, co-chairman, praised the entire (See BOND DRIVE back page)

Our purchases of scrap metal have fallen sharply in the last 60 days and the government and steel mills are urging us to buy more. "The Williwaws" is the unique name of a weekly publication published by the men of the Navy and the Marines of a Naval operating base "somewhere North of the Equator," and devoted to articles, jokes and editorials of general interest.

Publisher is Captain James E. Dyer, with a staff comprised of men of various ranks. A copy of "The Williwaws" Volume 1, No. 1, was recently received by Mrs. Claude Wilson, whose husband, C. L. Wilson, of the Seabees, Naval Construction Bn., has been stationed in Alaska for the past several months.

According to an explanatory note, "Williwaws" is not an Indian name, as many would guess, but is connected with an Indian legend. The meaning of the word according to the dictionary, is "a strong gust of cold wind blowing from high coasts in northern latitudes." According to tradition, these gusts of wind are the breath of a spook—that of a departed Indian chief, who takes delight in blowing down people for whom he has acquired a dislike during the course of his peregrinations around the countryside. The word is said to be a contraction of two Scotch words: "willie," meaning little, and "waucht," meaning wind.

Within its columns are such quips as: "Can you keep a secret? O.K., keep it." and, "LISTEN: The only persons interested in what you are doing in this war are the enemy and your grandchildren; so keep your mouth shut or the enemy will see to it that you don't have any grandchildren."

**Pvt. Millard Williams** of the 1090th B.F.S. A.A.F., stationed at Garden City, Kansas, writes to say, "I really do enjoy your paper, and want to continue receiving it." He was recently transferred from the 502nd Sqdn.

Dear Ben:  
I am getting the paper once again; boy, was I mad when I could not have my paper! For I do enjoy it. I was going to get a permit, but they told me I did not need it, then I received a copy of the Tribune, of March 11, yesterday.

I saw in your paper some time back, that Joe Berry was over here some place. I would like to see him. I haven't seen anyone, even from Texas. I am a stranger in a strange land.

Tell the Lions Club I received their letter from Rat. I would sure love to see everyone. I just wanted you to know how much I appreciate the paper.

Yours truly,  
Pvt. Arvil B. Craven.

## VICTORY TAX ON TEACHERS SALARY IS EXPLAINED

More information was made available this week on the 5% Victory or withholding tax, as applied to salaries of school teachers who are employed on a 12-month basis and paid on a 9-month basis. County Judge and Ex-Officio County Superintendent W. R. Cammack, has received the following letter from W. A. Thomas, Collector of Internal Revenue, Dallas:

"Sir: Receipt is acknowledged of your letter of March 28th, requesting advice as to the payment of victory tax withheld on the salaries paid to teachers of your county.

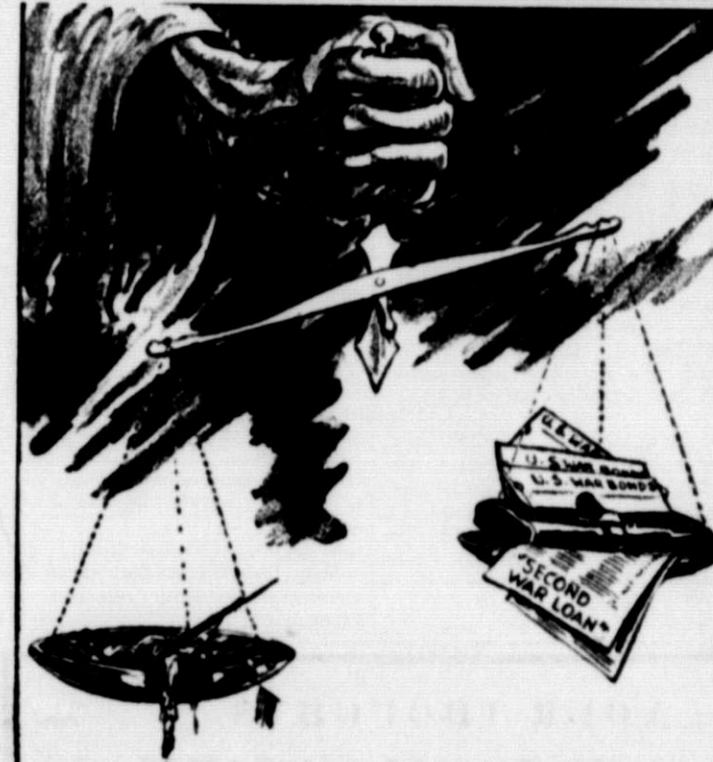

Your name is being placed on the mailing list to receive form V-1 and the same will be forwarded to you in ample time to prepare and forward your report, with remittance attached, so as to reach this office not later than April 30th.

Relative to the victory tax to be withheld on salaries paid to teachers of your county who are employed on a twelve month basis but paid on a nine-month basis, wish to advise that the withholding of victory tax attaches when paid. After applying the withholding deduction applicable to the pay-roll period, five percent on the excess should be withheld. It is suggested that it be explained to the teachers who protest the withholding of this tax it is a collection device rather than a tax in itself. It is merely an advance collection for which the taxpayer gets full credit in March, 1944, when income and victory tax returns are filed. If the amounts withheld exceed the combined income and victory tax liability, the teacher will receive a refund from the collector of Internal Revenue."

GLAD TO MEET YOU!

As refreshing as a cool drink from a bubbling brook after a long hike through the woods, is the meeting of real folks.

What a pleasure... what a thrill, what a lift to the soul... to meet and know people.

Who are honest... within and without. Without ifs, buts, reservations... just plain, honest.

Who have faith... even if they don't understand all the answers.

Who have respect... for women. Who say little and do much... and practice their living as they preach it to others.

Who have dignity and poise and self-confidence, without acting.

Who understand the power of true love and live it.

Who love their God, their country and their President... in the order named.

Who are thoughtful and considerate of children and old folks.

Who are grateful for their blessings... no matter how few, or how humble.

Who listen... and then give a truthful answer, no matter how disagreeable it may be.

Who pay their obligations in spite of high water.

Who don't gamble... with security of their loved ones.

Who are moderate... who can control any habit instead of the habit controlling them.

Who do not borrow... for luxuries.

Who think for themselves... and, not repeat the headlines, the columns and the radio commentators.

Who do not trust luck... but themselves.

Who hate war... but are ready to serve if their country calls... even at \$21. a month.

Who speak of Peace... without vindictiveness, without hatred... but with honest consideration of the enemy's side.

Who can appreciate a morally sincere man.

Who love to eat... and never mention vitamins, calories or improper diet.

Who watch their habits and speech in the presence of children.

Who use their heads and not their muscles, against weaker and helpless people.

Who have principles and are willing to defend them in any situation.

Who know... they don't know it all.

Precious Crusts IN ENGLAND.....

The advertisement reprinted below appeared in the 7, 1943 issue of "The People," circulation 3,000,000, London, England. Published by The Ministry of Food, London.

PRECIOUS CRUSTS CAN SAVE SHIPS

Half a slice of bread weighs about half an ounce. If people (8 families of four) each waste this amount of bread every day, a whole one-pound loaf is wasted. If everyone in a small town of 12,000 people wastes half a slice each day, that's equal to a sack of flour wasted. If everyone in a country wastes half a slice each day, that's equal to a whole shipload of wheat every 12 days—30 ships a year!

- WAYS OF USING STALE BREAD Making Rusks. Cut into neat fingers or shapes about 1/2 inch thick. Bake in warm oven. Crisp and golden. Packed in airtight tin for a valuable emergency which will keep for months. Dicing. Cut bread into small dice not more than 1/2 inch thick. Bake in rusk. Use instead of fast cereal. Crushed Crumbs. Shapes of bread should be crisped on a tin in the oven. Then crushed finely with rolling-pin. Store in tight container. They are used in many ways.

Soaking and Beating. Soak stale bread in cold water. Squeeze thoroughly and beat with a fork to remove large lumps. This can be used to replace some of the flour in savouries, puddings and stuffings.

**Family Survives**

Left to mourn his passing are his wife, one daughter, Mrs. J. P. Truett of Lockney, Texas, a son, J. K. Fulkerson of San Francisco, California; two grandchildren, DeLores Ann Fulkerson and John Perry Truett; one sister, Mrs. Arthur Thornton of Idalou; three brothers, D. A. **Bond Drive . . . .**

(continued from page one)

corps of workers who started the intensive canvass of Motley county Monday morning. Many men have devoted their entire time to the drive for the past three days. The community Captains are: Matador, D. E. Pitts; Roaring Springs, M. S. Thacker; Flomot, Putt Gilbert; Whiteflat, Walter McWilliams; Northfield, Walter Bain; Folly, Will Meyer and Dumont, Billie Morris.

"We are reaching the actual test," Mr. Stearns, explained, "with most of the prospects already solicited and the favorable prospects sold. It is going to require the concentrated effort of the county's entire citizenship to put the drive over the top within the next few days."

**Little People Are Big Buyers**

An unofficial survey of bond sales made during the drive indicates that the bulk of buyers have been the so-called "little people" with small and moderate incomes who are sacrificing in every possible instance to buy all they can. Many farm families are selling cream and eggs and immediately converting the proceeds into bonds. In most instances they have sons, brothers, fathers and other relatives in the armed services, and accept the opportunity to buy more bonds as a definite obligation.

Motley county's \$104,000 quota was based on par value of bonds. It would be approximately \$140,000 based on maturity value.

**Improvements At Jail Are Underway**

Business has been slow for Sheriff H. H. Courtney, but he is not trying to attract new patronage with the much-needed improvements now being made at the county jail. New window and door frames are being installed throughout the building and inside walls are receiving a long-delayed coat of new plaster. Electric wiring and painting is also included in the general repairing.

Other repair work in the business area includes new awning and painting at the front of the De Luxe Beauty Shop, in the First State Bank building, a new concrete wharf and meat-cutting room at the Leon Ice Company plant, and the recent painting of the stack at the Farmers Coop Gin, which is topped by wide red, white and blue bands.

**Seven Contribute To Newspaper Fund**

Seven Tribune subscribers have contributed during the past week to the newspaper's plan of sending free weekly copies to all Motley county men in uniform.

The publishers acknowledge with sincere appreciation the following unsolicited contributions: W. H. McBride (Roaring Springs) \$1, J. K. Fulkerson (San Francisco, Calif.) \$1, Mrs. Howard Standefer 15c, Bobbie Lee Amick \$1, E. B. Chambliss \$1, Cpl. Jim D. Knight \$2 and E. B. Jenkins \$1.

**Social Worker To Visit Regularly**

Mrs. Mae Healer, State Department of Welfare field worker of Paducah, will be here one day each month at regular intervals according to an announcement made to the Tribune this week. Mrs. Healer will be located at the courthouse here on the fourth Monday in each month, she declared. Her services include aid to applicants for Old Age Assistance, aid to needy blind and aid to dependent children.

Mrs. Healer has replaced former field worker, Mrs. Loue Thaxton of Spur, who has been transferred to similar work in Stonewall county.

Miss Imogene Archer spent the week-end visiting relatives in Flomot.

**Total Rainfall Is 1.22 Inches Here**

Farm and range prospects in Motley county have advanced rapidly since rains varying from about one inch to two inches, received last week. George Springer's U. S. rain gauge registered 1.15 inches Thursday night with an added shower of .07 inch Saturday morning, making a total of 1.22 inches.

Some sections of the country reported unofficial rainfall of 2 inches or more while other areas had slightly less than one inch. However, the rain was general in most instances.

Continued cloudiness, accompanied by cooler weather yesterday, increased hopes that more rain might follow. Rapid growth of young grass is reported by ranchers in all areas.
