BOND DRIVE OVER QUOTA

Motley County Second In Panhandle To Achieve Goal; Only Four Days Required

Over \$107,000 "volunteer" Motley county dollars joined the colors last week to support Motley county men in uniform on world-wide fighting fronts, and place this county second in the Panhandle of Texas to reach its quota in the April Second War Loan drive. Only four days were required to over-subscribe the quota of \$104,000.

A check for \$10,000 from the Southwestern Life Insurance Company of Dallas, received about 11 a. m. Friday, over-subscribed the quota. No homes were bombed in Motley county, no buildings were sacked and burned nor were any hostages shot. Actual conflict is still a long way from Motley county but the war is very close. War Bond buyers know that their dollars will return, and they also know that some of their loved ones, neighbors and friends will not return.

The quota was attained through purchases of approximately 500 buyers according to Co-chairman Elmer Stearns. Motley county has a war-time population of 4,000. Every family in the Flomot community purchased a bond during the drive, according to H. S. Gilbert, community captain.

GREETINGS TO ADOLPH
Tuesday was Adolph Hitler's 54th birthday. By way of greeting the First State Bank of Matador purchased \$85,000 worth of United States Second War Loan securities, of the type designed especially for banking institutions. The total over-subscribed quota for the county, bank and individual purchases was \$189,000.

John Turner, worker under Roaring Springs Captain M. S. Thacker, with one exception, sold a bond to every person contacted in his district.

Wayland College Presents Enjoyable Service At Flomot
(by Mrs. L. B. Turner)
The Wayland Volunteer Missionary Band from Wayland College, Plainview, which arrived at Flomot Saturday afternoon, presented a series of enjoyable services Saturday night and continuing through Sunday morning and Sunday afternoon at the Baptist Church there.

Supper Saturday evening was arranged by the women of the church, and served in the home of Mr. and Mrs. Harmon Moseley. Following the program, they were entertained in various homes to which they were assigned. Lunch was served at the church at the noon hour Sunday. Several from neighboring communities attended the services, including a number who were former Flomot people.

The group coming from Wayland College were: Misses Betty McCasen, and La Venia Amerson, of Tulsa; Marleen Greathouse and Ruby Ferguson of Dimmitt; Lema Simmons, Floydada and Edna Ruth Bourland; Messrs. A. T. Worley, Floyd, N. M.; Lebond Wyatt, Melrose; Mack Morgon, Plainview.

The pastor of the church and his wife, Rev. and Mrs. Frank Randall, also of Wayland College, accompanied the group.

Skaggs Grocery To Increase Building
Work was started this week to double the size and floor space of Skaggs Grocery, located just south of the Magnolia Cafe on Main street. In a transaction culminated several days ago, Mr. Skaggs purchased the present building and site from Mrs. F. M. Jinkins and Albert Daffern, co-owners of the property. He immediately made plans to increase the size of the building to accommodate his expanding business which is at present crowded in the structure as it now stands.

Mr. Skaggs said yesterday that he hopes to have the addition ready for occupancy by the first of next week.

Easter Is Theme For Lions Meet

An Easter theme was used in the principal feature of the Lions Club regular meeting held in the basement of the Methodist church, Tuesday. The program was sponsored by Lion J. S. Stanley and was conducted by Lion W. B. Swim, pastor of the Methodist church.

Quartet singing by T. B. Edmondson, Jim Edmondson, Frank Jameson and J. R. Whitworth, accompanied by Miss Roberta Jameson at the piano, composed a portion of the program. Lion Swim traced the history of Easter from its beginning, declaring that 95 years will pass before the holiday will again fall on April 25, the latest possible date. He said Easter may occur as early as March 22, altho 242 years have elapsed since it fell on that date. He explained that coloring of Easter eggs represented symbols of red for the blood of salvation and purple for the royal King of men. The white flower represents purity and the symbol of rabbits represents abundant life.

Visitors introduced included J. C. Coyle of Plainview, representative of Phillips "66" Petroleum Company, Privte Myron G. Bethard with the Army Air Forces, James Neblett and Franklin Price, recent inductees to leave next week for training camps, and Walter McWilliams of Whiteflat, a Captain in the recently completed War Bond drive.

Elmer Stearns, co-chairman in the bond drive, outlined the drive as it was conducted and expressed his appreciation to the Lions Club for the cooperation tendered in the campaign. Lions Henry Pipkin, C. A. Pitts and Claud Harp were appointed as a committee to nominate new club officials. Appreciation was expressed to Lion Pipkin for the splendid luncheon which he prepared.

STUDY CLUB ADDS CONTRIBUTION TO NEWSPAPER FUND

The Matador El Progreso Study Club voted a \$5 contribution to the Tribune's men in armed service newspaper fund, last week. One member of the club declared, "we believe the weekly copy of the home newspaper to our men in armed service is a distinct benefit."

The Tribune expresses sincere appreciation for the above and following unsolicited contributions: T. B. Edmondson \$3, Kim Wilkinson \$1, Mrs. Lemmie Day (Wetumka, Okla.) 50c, Pvt. Dale E. Bourland (Camp Mackall, N.C.) \$2, Mrs. Antone Freeman (Roaring Springs) \$2, Fred Simpson (Roaring Springs) \$1.

Attention is also called to the special series of services which began at the Methodist church Wednesday evening, to continue through Friday evening.

Rattlesnake Found At Doorstep Here

When Mr. and Mrs. Charlie Pollock returned home after dark Thursday evening, they were met by a rattlesnake at the front doorstep. Maneuvering his automobile to keep the reptile within range of the lights, Mr. Pollock entered his house from the back, secured a gun and killed the snake. It bore ten rattlers and "button."

Mrs. Pollock had previously declared she heard a rattlesnake under the house but her husband refused to credit her apprehensions until after the experience.

CLOSED FOR DURATION

The shoe and boot repair department of the H. H. Schweitzer Saddle Company, is closed for the duration, "or perhaps from now on," Mr. Schweitzer said yesterday. With the induction of his son, Bert Schweitzer, Mr. Schweitzer is forced to close the repair department, but will continue making saddles when leather and other materials can be obtained.

Bobby Harp and W. B. Swim spent the week-end in Lockney visiting Dwight and Terry Perkins.

BILL TILSON CONTINUES PURSUIT OF ROMMEL ON EAST AFRICAN WAR FRONT

Sgt. Bill Tilson, son of Mr. and Mrs. Tom Tilson of Matador, is helping to write history directly on the records of one of the war's most successful campaigns. Attached to the American Air Corps with the British 8th Army, he has followed Nazi General Rommel almost from the gates of Alexandria to Tunis in north Africa.

Following is another of his unusual letters, written in his own sparkling style and unedited. Recent pictures of the Motley county fighter will appear in a subsequent issue of the Tribune. The letter was received Sunday.

March 25, 1943
Dear Mr. Douglas Meador:

In response to your V-mail letter requesting that I write and tell you if I wanted the Tribune or not, well, I have just been getting about one a month, but for that one paper per month, I would have practically lost all contact with my home town, and as we soldiers say, in regard to the papers, the paper lets us know what the score is back home, and knowing what the score is at and around our home town is worth a lot. When knowing the score, a person can make plans about what he might do when he returns home; with the paper, persons that might become strangers are kept before you, so when a soldier returns, it won't be like going to a place that he is used to but finds everybody and everything changed.

The paper tells you the changes so a soldier won't be too far behind times when the war is over and he changes his uniform to

Voice Of Youth To Be Heard At Easter

The "Story of the Cross" in song, will be presented in a special Easter Service Sunday at the Methodist Church, at the evening hour beginning at 8:30, by the young people of the church, it was announced this week.

Leader of the program will be Miss Dorothy Wason, and the following arrangement of songs, prayers and readings comprise a program prelude: songs: "O For a Thousand Tongues" and "The Old Rugged Cross", by the congregation; Scripture from Psalms 100, will be read to soft music; prayer, J. R. Whitworth; offertory, Norman Pitts and Mack Jacobs.

The program proper, as announced, will be songs by the choir, with an outline of the song writers' lives by Miss Ione Gideon.

Draft Board Busy With County's New Classifications

Motley county local Draft Board has been working continuously since Monday in making new classifications of all county registrants as ordered by new Selective Service regulations.

Frank Pohl, board clerk, said yesterday that new classification cards would be mailed to registrants by Monday.

Next week's issue of the Tribune will carry complete official news release regarding the new classification.

Clean-Up Drive Is Announced

First city clean-up drive for 1943 is announced to start today and continue through Saturday, May 2. Sponsored by the Matador Lions Club, the drive will receive complete cooperation from the city of Matador, it was announced by Mayor G. T. Edwards.

Early start in a complete clean-up of the city was urged to destroy weeds while they are small, and also because shortage in manpower may prevent the campaign later in the season. City Secretary Lucius Lancaster declared that over 1,200 vacant and ownerless lots are located on the town section. Since these lots are a community responsibility, it will be necessary for complete cooperation of every resident in the drive.

Every resident is asked to clean-up his property and the vacant property adjacent to his home. All cans, trash and other rubbish should be placed in barrels, boxes, sacks or other containers in the alleys, where it will be loaded and hauled away without charge by the city.

Scrap Iron Is Needed

Double patriotic duty can be attained by residents who have scrap iron still remaining about their homes. The government is asking for every pound of scrap metal possible to be used in the war effort. Two Matador scrap metal dealers offer highest market prices. Those who have small amounts of metal which they wish to place in use without compensation, may leave the metal in the alleys where it will be picked up by dealers or the city serviceman, and immediately turned into war use.

Mrs. H. Williams In Quannah Hospital

Mrs. Harrison Williams is a patient in Quannah Hospital, where she underwent major surgery Monday, and is recovering satisfactorily, according to relatives here.

Her daughters living here, Mrs. Edith Sanders and Mrs. E. F. Springer were at her bedside there Saturday, with Mrs. Springer remaining until after the operation. Also at her bedside were her daughters, Mrs. Mary Martin and Mrs. Tom Harris of San Antonio, and the latter's husband, Sgt. Tom Harris, who is stationed at Altus, Okla. Two grandsons, Pfc. Amos Jones of Childress Army Air School and Bobby Jones, who is employed in the office of censorship, San Antonio, were also present, and came to Matador Tuesday evening to visit relatives and friends until today.

The paper tells you the changes so a soldier won't be too far behind times when the war is over and he changes his uniform to

SAYS THE OFFICE OF CIVILIAN DEFENSE

Today, your health is a national asset, and its care begins at home. Illness slows down production, lowers efficiency and uses up the time and skill of doctors and nurses who are urgently needed for war service. So check up on your family health regularly, says the O. Engine acids are nothing new, only they couldn't do their worst when interrupted by frequent use of your car and fast driving, instead of staying in your inactive engine for days. Short, slow, infrequent runs don't help much to clean acids out. MISS BETTY LOUISE JOHNSON AND BOYD RYAN WILLETT MARRIED AT SAN MARCOS

The First Methodist church of San Marcos, was the scene of a beautiful candle light ceremony on Friday, April 9, at eight o'clock in the evening, when Miss Betty Louise Johnson, only daughter of Mr. and Mrs. Parks Johnson of Great Neck, New York and Sabino Ranch, Wimberley, Texas, became the bride of Boyd Ryan Willett of Corpus Christi, son of Mr. and Mrs. Harry Willett of Matador.

The wedding carried much sentiment since it was the third generation of the bride's family to marry in the First Methodist church of San Marcos and also was the consummation of a romance begun several years ago when the principals were visiting in the homes of their grandparents in San Marcos.

The rites were read before a background of ferns, white candles and calla lilies. Woods Kone, Jr., organist, gave a prelude of nuptial music and played the traditional wedding marches. He also accompanied Warren Hull of New York City, who sang "Believe Me If All Those Endearing Young Charms."

The double ring ceremony was read by the bridegroom's uncle, Rev. George C. Moore of Mt. Pleasant, Texas. The bridegroom and his father, Harry Willett of Matador, who served as best man, awaited the bride at the altar. Serving as ushers were Chambliss Johnson of San Marcos, cousin of the bride; Dick Matizza of Corpus Christi, and Bill Johnson of Austin, brother of the bride. They were followed to the altar by the bridesmaid, Miss Dorothy Willett, of Knoxville, Tennessee, only sister of the bridegroom, who wore a becoming gown of peach taffeta. The maid of honor, Miss Zillah Johnson Merritt of Gainesville, Georgia, cousin of the bride, wore a blue and silver brocade princess gown. The bride's attendants carried similar bouquets of blue delphinium and Talisman roses.

The bride was accompanied to the altar by her father, by whom she was given in marriage. She was lovely in her wedding gown

of white satin, with long train and an exquisite lace veil. She carried a bouquet of baby calla lilies.

Following the ceremony the bridal party and family cut the wedding cake at the home of the bride's aunt, Mrs. Dudley C. Johnson.

After a short honeymoon Mr. and Mrs. Willett are at home at 1203 Van Loan St. Corpus Christi.

Out-of-town guests included Mr. and Mrs. Harry Willett and son Harry Louis, of Matador; Mrs. C. W. Pearson of Paducah, Texas, aunt of the bridegroom; Rev. and Mrs. George C. Moore of Mt. Pleasant; Miss Alma Johnson of San Antonio; Mrs. James Lazenby of Austin; Miss Kathryn Phillips of Paducah, Miss Mary Eagle of Elgin, who are attending the University of Texas; Mrs. J. D. Farr, Dr. and Mrs. C. H. Brownlee, Mr. and Mrs. Alfred Ellison, all of Austin; Messrs. David Grant, Fred Coil, Warren Hull, and Robert Ballin all of New York City—San Marcos Record.

Pied Pinions

BY MRS. S. M.

Although it's history now, we attended the annual convention of the Panhandle Press Association in Amarillo recently, and gleaned first hand, some mighty valuable information about army life.

Traipsing off down town immediately after registering, bent on an expedition of, shall we say shopping, we missed an important announcement which had to do with the luncheon hour when the association was fed out at the Amarillo Army Air Field; thereby receiving lesson One—that the Army waits for no man, nor woman, nor even WAAC. Loping back to the hotel, with tongue hanging out, we arrived just twenty minutes too late to be included in the party bound for a look-around in Army quarters. So keen was our disappointment, we seriously considered a juvenile floor-fit as a vent for our feelings.

We received a bit of consolation however, upon learning that several army personnel also got left, including Lieut. Bruce Curry, Commanding officer of Lubbock headquarters for the W.A.A.C. and Lieut. Rose Smothers and several other members of their party.

Highlights of the trip included seeing the Lewis Noydye's again (our hosts last summer when we made our radio "debut" in Amarillo)... a brief visit with Boyce House, Fort Worth columnist, author of "I Give You Texas"... listening to Ernest F. Fischer of the Dallas Bureau of the Associated Press, who spent two years in Germany, and was held in an internment camp for seven months prior to his return to the United States last year... being in the same room with members from the War Department who were unexpected guests of the convention Friday evening, and including Under-secretary of War Robert P. Patterson, Brig. Gen. W. B. Pyron of Denison; Senator B. R. Mabank of South Carolina, Col. M. G. Blalock, Dallas; Col. Glenn Davasher, Col. B. D. Edwards, Col. A. R. Gensburgh and Col. Geo. A. Brownell. Pilot of the plane carrying the undersecretary and his party was Capt. L. J. Steene and the co-pilot was Lieut. J. M. P. Vaughn of Hereford, Texas, both of whom were also introduced.

Enjoyable entertainment at the

resignation. Mrs. L. Y. Jameson, study chairman, announced the new Bible study which will begin Monday afternoon.

A report of the Annual Conference which was held at Lubbock recently, was given by Mrs. W. B. Swim, delegate.

Others present were: Mesdames W. Y. Higgins, R. P. Moore, Frank Pohl, H. H. Schweitzer, Tom Tilton, Harry Willett, W. R. Cammack, W. M. Graham, Homer Sheets, Annie Tudor and Marvin Vaughn.

Couple United In Ceremony Saturday Night At Paducah

Miss Frances Overstreet of Paducah, Texas, and Pvt. W. T. Marshall of Lubbock Army Flying School, were united in marriage in a ceremony performed Saturday, April 10, at midnight, in the parlor of the First Baptist Church of Paducah. The double ring ceremony was read by the Baptist pastor.

The bride wore a black jersey dress with red accessories, and a corsage of gardenias. For "something old", she wore a pair of earrings, belonging to her mother, and for "something new", she wore a moonstone necklace, given her by her husband.

Mrs. Marshall is the daughter of Mr. and Mrs. Ecey Ocerstreet of Paducah, and is a graduate of Paducah High School, where she was voted school favorite in 1941-1942.

Pvt. Marshall was reared here and is the son of Mr. and Mrs. P. L. Marshall of this place. He is a graduate of Matador High School, and has a wide circle of friends here. He enlisted in the Army Air

banquet was furnished by officers and men of the Amarillo Army Air Field, and included a skit by Capt. Sidney Kring, public relations officer, concerning the duties of his office, who will be remembered by many here as principal speaker at a Father-Son banquet several years ago. Exceptional musical talent included an original piano solo played by Cpl. George Bryon Eastus, former coach for radio and movie auditions in California, Pvt. Irving Imer, violinist who formerly played with the Indianapolis Symphony Orchestra and in 1940 toured South America with the All-America Youth Orchestra, and his accompanist, Cpl. Charles Forest Mathews of Pasadena, Cal., also an accomplished musician.

Ever since Ann Carroll, 2-year-old daughter of Rev. and Mrs. M. B. Carroll, was told of the approaching Easter season, her anticipation of the occasion has been high. Looking forward eagerly to the day when she can wear her new bonnet, and frock, and have some Easter eggs, she has however, been perplexed about the affair. When told that Easter would arrive next Sunday, she inquired, "Where does Easter live?"

NEW ARRIVALS

Announcements have been received by friends at Roaring Springs, advising of the arrival of a 6 pound daughter in the home of Mr. and Mrs. Thomas George of Crosbyton. Mrs. George is the former Sadie Gabriel of Roaring Springs.

A daughter, weighing 6 1/2 pounds was born to Mr. and Mrs. R. E. Campbell, Jr. Friday, April 16, in the Richards Memorial Hospital, Paducah. She has been given the name Carroll Lynn.

TO DALLAS AND ABILENE

A trip to Abilene and Dallas during the week-end, ended in disappointment for Mrs. J. D. Gaines and her sister-in-law, Mrs. J. C. McMahan, who went for the purpose of meeting their husband and brother, Sgt. J. D. Gaines, recently stationed at Stuttgart, Arkansas. A wire was awaiting them at both places, however, advising of his inability to make connections.

Mr. and Mrs. L. C. Harp and daughter Ann, visited relatives in Childress and Kirklind Sunday.

to say that you have been there. The other towns along the coast are mostly out of bounds because of typhus.

The noticeable things that are different—and they are noticeable exactly as you cross the boundary line between what used to be Italian and French possessions, from Tripolitania to Tunisia, the coast road which is usually pretty good except where it has been blown up either by the retreating Germans or by our bombs that were dropped on the enemy convoys, ceases to be good, it appears as though it was built and then no more care taken of it. The desert tracts are about as good as what usually is the main road.

The houses that the Arabic natives live in are different. Here in Tunisia you see when you pass through or around a town, what looks like a bunch of tombs. The houses are built completely out of rock and concrete, from the foundation through the roof. They are long, narrow, straight-sided and curved roofed and are placed together so as to form a square, with only one or two openings between the square of houses. In one town might be seen several clusters of tomb-type houses, around what looks like a business section with French and Spanish type buildings. Everything looks white from a distance, and a town looks like one big burial ground full of tombs and squares.

The French language is spoken here by the natives, (we call them Wogs.) This description of places is on the Tripoli side of Tunis. I haven't had the chance to go to the other side as yet, but I hope it won't be long till we are through here so I can see the western side of Tunis.

Mr. Meador I am sending you a few types of money I have run across. I have handled twelve different types of money, besides our own, but I have paper money for

only four; I have coins for the others or I would send you the twelve types. As it is I can only send four types. They are: One Egyptian five piastres, worth twenty cents; one one-shilling note issued by the British Military Authority, worth twenty cents; one ten lire, Italian note and one five-franc note of Tunisia. I just thought that you would like to see the kinds of money that we use and have used in this African war.

Well, it is now April 1st, and I am still writing. I just get to write when I am not busy, and in the mood. But for the last few days, especially the 26th of March, we have been pretty busy breaking the Mareth line and straffing and bombing the retreating enemy. But today, there were not much operations.

The important highlights are that General Montgomery sent a special message to our group, the 57th Fighter, thanking and complimenting us on our action in helping break the Mareth line; also General Eisenhower from the other side flew over and paid us a visit; we were also given our campaign ribbons, of which I have three. After that battle of the Mareth line.

Well, there isn't much more to say, except that I received another paper dated January 7, 1943, on March 28. It is sure better late than never, so send 'em all; they are the best and most interesting things that I can think of to read. The paper was good reading at home, so you can judge how important and appreciated it is over here.

Mr. Meador, the card that the Lions sent me for Christmas sure brought back memories of when I used to walk, ride or run my motorcycle up and down those streets. I wouldn't part with that Christmas card from the Lions Club.

I have had a lot of fun showing the story about that buffalo hunt. I cut the story out of the paper and cut the last part off of it, and it has been good for several tall stories of about when I hunted

Chemist Warns Of Danger Of Acid In Today's Motor Cars

NEW YORK, N. Y., April 21.—Danger of acid in the engines of America's motor cars, due to slow driving necessitated by wartime rationing, was pointed out today by Dr. B. H. Lincoln, chief chemist of Continental Oil company.

He warned that motorists must be doubly cautious under present conditions if they are to preserve the country's transportation system for the duration of the war. "There won't be any new cars until long after the war is over," said Dr. Lincoln, "because manufacturers will have to divert from wartime to peacetime production before they can turn out new automobiles. Consequently it behooves all motorists to take the best possible care of the cars they now have.

"Due to war conditions of slower driving and less frequent driving, an old danger threatens to become more pressing and do immeasurable damage. It has always been known that cold engines, not run long enough nor hard enough to get really warmed up to their jobs, wear out fast. Engineers have estimated that the first few minutes of operation, the warm-up period, are responsible for 80 per cent of all engine wear. Actually this has not been due to 'wear' from friction as the word is usually understood. Corrosion of metal parts by the action of acids is to blame.

"The ordinary driver does not know much about the danger of engine acid and corrosion, its causes and effects, and the best method of prevention, most of all he does not know how and why

buffalo just a few miles from town. Of course the only boys that would even half-way believe them were the boys from New York City and Long Island.

I see where Joe Berry Meador is on the other side of the fighting from me; I sure would like to run into him. I bet we could exchange some good stories.

Well, Mr. Meador, I reckon that is all, so I sign off from Tunisia, in hopes of receiving more news from home very soon.

ing organization to continue for the duration or longer if necessary. Many suggestions for improvement in the expected August campaign were made and various problems confronted in the April drive were discussed.

An atmosphere of exultation and levity prevailed at the meeting. Henry Ford Declared, "I believe we could start in tomorrow and raise an additional \$50,000." Walter Bain, (Mayor of Northfield) tried to dispose of half a sandwich after the second serving, without success. He said, "I wish my wife had this—she's out there at home living on lamb's quarter (wild greens)."

Southwestern Big Buyers
 Southwestern Life Insurance Company local representative Eugene Perkins received the following letter from a Dallas office official:

"President O'Donnell has authorized the purchase of \$10,000 in United States Government securities in connection with the company's quota in the Second War Loan drive for Motley county. . . . the company is purchasing a total of \$9,000,000 of United States bonds in the Second War Loan campaign. Since Pearl Harbor, the company has purchased more than \$24,000,000 of United States securities."

VISITORS HERE

Mrs. Shands Harcrow and baby daughter of Albany, California, have been visiting here the past several weeks with her parents, Mr. and Mrs. T. F. Berryman. They, together with Miss Ada Shands, accompanied Mr. and Mrs. Mutt Berryman on their recent return home from a visit in California.

This particular operating problem has become suddenly more dangerous as he patriotically reduces his speed and cuts down his driving mileage."

Dr. Lincoln went on to say that this acid condition and its dangers are responsible for Continental Oil company's current advertising theme—an effort to prolong the life of America's automobiles by a timely warning to motorists.

One of Continental's advertisements, in this series, featuring the dangers of acid, appears in today's issue of the Tribune.

A father is fighting... So his boy may tinker with Electricity

Over 160 of our men (and one woman) are in the U. S. armed forces. Last week one of these men, a good electrician who had been with the company for many years and who is a veteran of World War I, came home on leave. (He's a volunteer in the Navy.)

With him when he dropped around to say "hello" and talk shop with the fellows was his 13-year-old son . . . wearing his Boy Scout uniform.

All the guys were darn glad to see him and know he has a swell Navy rating as an electrical technician. Naturally they asked a lot of questions and learned that Uncle Sam's Navy thinks mighty high of its men who come from America's electrical companies where they got their training and experience. They learned, too, that electric power is behind most of the Navy's great punch . . .

building ships, guns, bombs, torpedoes and the like with which to win the victory.

Finally someone asked: "Well, Don, have you decided—just what are YOU fighting for?" He answered right off, pointing to his son.

"Me—I'm fighting for this kid. He's a Boy Scout, see, and it teaches 'em to be independent and self-reliant. Well, dictators and bureaucrats don't like that—they want regimentation. So I'm fighting so he—and millions like him—will be free.

"Too, the kid's kinda like me. He has a knack for tinkering with electricity . . . likes it, see. Well, the kid may not be another Edison. But I want him to have the same opportunities that Edison had—and a lot of other guys who helped make this country great.

"I want him to be free to tinker all he likes. And if anything comes of it, if his tinkering creates something useful to the world, like Edison's tinkering, I want him to share in the profits."

Out of this freedom of individual opportunity grew America's great industries that today are pouring out the weapons of war . . . as in peacetime they pour out the comforts and conveniences of everyday home life to give us the highest of all standards of living.

This freedom is worth fighting for. Free men and women, working out their own destinies with their own hands and minds . . . building, inventing, improving . . . taking the risks and enjoying the rewards. And bettering the world as they better themselves!
