

Prosperity Geared To Agriculture"-White

crop fail the grocery store. Matador knows it, Neil... in Dallas knows it... the Shamrock hotel in... knows it." Hon. John... State Commissioner... Agriculture declared here... night... young, soft-spoken, former... who won his political... against a veteran office... in the last election, was... speaker at the 10th... meeting of the Motley... Farm Bureau, held in

the high school auditorium. Another young statesman, Representative A. J. Rogers of Childress, also attended the meeting and made a brief address following Commissioner White. "Texas prosperity is closely geared to agriculture," White declared "and the nation's economy is reflected in the farmer's profits. I am a member of the Farm Bureau and proud of my membership. The organization represents a majority of the

farmers and a solid front with results of unified action. "I feel," the Commissioner declared, "that the Farm Bureau needs a public relations department—a voice to tell the farmer's story. It is unfortunate that Texas is known as an oil producing state when its farm and livestock wealth is equal to its mineral income..." He pointed to the great strides agriculture has made since the time when 80% of the nation's population was engaged in farm-

ing to produce enough for themselves and the remaining 20%. At present only one out of eight is engaged in agriculture which makes possible the release of millions for other industries and for the defense of the nation. "The farmer must have fair prices for his products," the Commissioner said, "we have agencies trying to reduce the price of wheat, cotton and other farm products. If the farmer gave his wheat to the miller, a 16-cent loaf of bread would cost

14 cents. If the farmer gave his cotton to the mills a \$2.95 shirt would still cost \$2.70. It is unfair to ask the farmer to take less for what he produces... there has been a lot of talk about high parity payments but the farmer's own labor was not considered when they were established..." Commissioner White urged farmers to return to the old grass-roots level of attending county political conventions where they could have a part in

naming the delegate for office. Introduction of the speaker was made by John Hunter of Roaring Springs, vice-president of the county Farm Bureau, and former student of the Commissioner of Agriculture. President Ben Edwards served as chairman. Reports of various committees were received including the nominating committee. Present officers of the Motley County Farm Bureau were re-elected, including Ben Edwards as President, John Hunter as vice-presi-

dent, Elbert Reeves as secretary-treasurer, Benny Keltz as membership chairman and Douglas Meador as publicity chairman. Special music was provided by Glynda and Gail McWilliams (violins), Lucretia Edwards (accordion) accompanied by Frank Trawick at the piano. Commissioner White was honored guest at a steak dinner with Farm Bureau officials, held at Shorty's cafe preceding the meeting.

Ball of Fire Seen Here

"The Thing" passed Matador 7:15 Wednesday morning. Immediately declaring a fire had passed overhead. Rattan who lives east of Matador saw the visitor from Dallas as bright as the sun. Reports poured into larger cities from Dallas to Tucumcari, Mexico, El Paso, Post, Lubbock, Amarillo, and Oklahoma. Scientists said it was a meteor.

A driver near Weatherford, Oklahoma reported he was pulled off the highway to see his eyesight after the ball of blue-green light had passed. He said there was a deafening explosion. Windows were reported broken in a house near Weatherford because of the explosion.

Others who saw the outstanding meteor here were Mrs. T. E. Paul Patton, Mr. and Mrs. Lee Burns and Conrad Middlebrooks. "I thought it fell between Farmers gin and Middlebrooks' gin," Middlebrooks declared. All who saw the meteor said it was very low and moved it might have fallen here. No one here reported seeing any sound when the ball of fire passed.

ALL GOLD IS NOT WHITE. Harvest in Motley county embraces more than gathering a rich cotton crop, as above pictures testify. Feed crops in the Flomot community are excellent and many farmers are realizing substantial returns from maize and kafir. Top left picture is made on a truck loaded with 30,000 pounds of combine maize raised on the Lem Brock farm in the Flomot community. Left to right, County Agent Rufus Emmons, J. C. Couch, Claude Cavitt and Lem Brock. Upper right is County Agent Emmons examining a field of feed estimated at producing 3,000 pounds per acre. Lower left is a John Deere self-propelled harvester operated by Lem Brock (this field was producing approximately 2,000 pounds per acre). Lower right picture is a field of shocked feed which produced 900 heavy bundles to the acre. The row crops shown in the above pictures compare favorably with irrigated areas of the plains. Syrup-pan terracing has been used on this farm for several years.—photos by Douglas Meador

Another conference game "went down the drain pipe" Friday night when the Turkey Turks defeated the Matador Matadors to the tune of 19-0. The local team made a good showing on the Turks' grid but they were unable to get the ball to pay dirt, nor were they powerful enough to keep the Turks out of the coveted position. Fans who witnessed the game said it was good entertainment despite the discouraging results.

Roaring Springs Carnival Success

The Halloween carnival staged at Roaring Springs by the Parent-Teacher Association of the community was declared a success both financially and in attendance. Gross proceeds amounted to approximately \$600. Officials of the organization stated.

Two queens were crowned in coronation ceremonies, being escorted from the grade school, escorted by Clovis Purcell and Kelly Ann Green from the high school, whose escort was Bill Woodin.

Games of skill this year replaced the game of chance which was formerly included in the entertainment.

EUBANKS OBSERVE GOLDEN ANNIVERSARY WITH OPEN HOUSE CELEBRATION SUNDAY

The home of Mr. and Mrs. B. M. Eubank of Matador, Texas, was the scene of a celebration observing the golden wedding anniversary of her parents, Mr. and Mrs. B. M. Eubank, residents of Matador since 1945.

Other children of the couple, Jack Jernigan of Petersburg, J. G. Eubank of Levelland and H. E. Eubank of Midland, and their families were co-hosts with the Thackers in holding open house from 2 p. m. until 6 p. m. Sunday, when approximately eighty friends called.

Miss Betty Jo Eubank of Lubbock, a granddaughter, registered the guests.

Mums and other fall flowers

decorated the receiving rooms, and an attractive mantel arrangement was made of gilded styrofoam and consisted of the figures "50" in an upright position, with a large bow of bronze and gold satin ribbon at its base, with streamers bearing the names of the couple, "Bertha" and "Ben". Flanking the figures were three yellow tapers on each side, and greenery concealed the base of the entire arrangement.

The dining table was covered with a lace cloth and centered with a Cambridge Arms crystal unit holding three gilded tapers and a bowl containing one large golden mum. At one end was a silver tea service and at the other, a three tiered wedding cake, decorated with yellow frosting and topped with a wedding bell. Individual cake squares, iced with yellow and decorated with the figures "50" were served with hot speed tea.

Corsages for the honored couple were yellow rosebuds for Mrs. Eubank and a yellow chrysanthemum boutonniere for her husband.

Mr. and Mrs. Eubank were married on October 22, 1901 in Palo Pinto, Texas. They lived there until 1920 when they moved to Floydada and made their home until 1940. They resided in Lubbock from that year until coming to Matador. The couple have 10 grandchildren and four great grandchildren.

Attend Celebration

Attending the celebration from out-of-town were two brothers of Mrs. Eubank, C. M. Boggs of Lubbock and Mr. and Mrs. W. N. Boggs of Gordon, Texas, a niece, Mrs. Paul Williams and children also of Lubbock; Mr. and Mrs. Claude Wilson of Sweetwater, Mr. and Mrs. Harry Sweetnam of Lorenzo, Mr. and Mrs. R. H. Tanner and Mr. and Mrs. B. A. Tanner and Beth of Flomot, F. C. Harmon, Mr. and Mrs. E. C. King, Mr. and Mrs. John Key West and Mesdames W. M. Massie, Pierce King and Kenneth Bain all of Floydada.

"Talks Turkey" - Long Distance

Joe people chuckled when they saw a home recording machine to record the noise in fact of turkeys make.

"I sent the recording to a buyer in a super-market chain," Sonny said. "I told them 'My turkeys paid for themselves—listen to the record!' They not only took the record, but bought the record!"

"Why did they want the record?" I asked him. "Very simple," he says. "They're going to play it on the loud speakers in their store—and then an announcer or other record reminds the cus-

tomers that turkeys are plentiful and a good buy."

From where I sit, it's not always smart to make fun of someone just because he does things a little differently. I think a glass of beer is the most refreshing beverage there is. You—or Sonny—may prefer something else. But who's to decide one's right and the other's wrong? Let's stay "on record" that everyone's entitled to his own tastes and opinion.

Speech Teacher Is Mrs. R. Whitworth

Mrs. Randall Whitworth is the speech teacher in our school and has been for a number of years. Mrs. Whitworth has proven herself to be an excellent teacher and her pupils progress rapidly. She now has 43 pupils enrolled in her class. Her youngest being

in her pre-school class of four and five year olds and her oldest pupils are sophomores in high school.

She starts the pre-school group out with short simple readings or poems and story telling. They learn action songs and drills and they learn to make short speeches by describing pictures. They have exercises for posture and phonetics.

The older group learn special readings extemporaneous speaking, the different types of speeches and methods of delivery. This year they are learning the names of outstanding authors and some of their poems terms used in stage direction, and play action. They will also write original poetry. They will learn pantomime, choral speaking and parliamentary procedure.

The pupils present two speech recitals each year. The recitals give the pupil a chance to appear before the public and helps rid the child of stage fright. The first recital of the year which is usually presented near Christmas has been moved up to Nov. 20th. The older pupils will present their recital then and the younger ones will present theirs the following week.

SYMPHONY IN SATIN

Newest style note in metal furniture, in addition to the distinctive square-tube styling of the latest chairs, tables and other modern pieces, is a smartly conservative new finish called satin-chrome. Here, Roberta Richards is comparing the new finish with an actual piece of satin fabric which inspired the new styling. Smarter and more restrained than the well-known bright chrome, long a distinctive feature of metal furniture, the new satin-chrome is also said to be stronger and more durable for use in professional and commercial interiors.

Thirty Aspermont Gets Spring Water Via Oil Pipe Line

About 450 barrels of spring water per hour are being pumped into Aspermont's almost-dry 187-acre water reservoir lake through the use of a new 10-inch crude oil pipe line.

Service Pipe Line company, a transporter of crude oil, has recently completed the line from the area of Old Glory to Aspermont and was preparing to make a water test on the pipe.

Desperate Aspermont city officials appealed to F. W. Willenburg of Ft. Worth, manager for the company. The pipe line company was glad to help Aspermont. The water is pumped from a spring-filled lake owned by C. L. Hunt, a rancher, and is donated to the town. Hunt hopes the lake will be refilled in a short time from springs estimated to flow approximately 8,000 gallons per hour.

Aspermont's Mayor Ralph Riddle and officials were confronted with a problem. The oil line was 6,500 feet short of

Personality Sketch

Our personality sketch in on a very prominent member of the faculty at Matador High school, Mr. Ray Hopkins.

Coach Hopkins was born in Hardeman county, August 4, 1922. He finished high school there and entered Texas Tech in 1941. He was called to the Army in 1942 and served 3 years and 29 days. He spent part of his time in England and France. He re-entered college in 1946 and graduated from Tech with his B. S. degree in 1950. He began teaching at Ralls, Texas in 1948. New Law to Cut Claims for Owners

Public Safety Director Garrison, Jr., Monday reminded Texas motorists that their licenses to own an automobile will be voided if they are involved in an accident and fail to pay damage claims up to \$15,000 when the state's new Motor

Vehicle Safety Responsibility Law becomes effective on January 1. Declaring it "will greatly affect the personal safety and economic security of every man, woman and child in the state," Director Garrison gave the public its first official analysis of the new law since its adoption by the last session of the legislature. He spoke from Austin over a state-wide radio network and announced that during the next two months the Texas Department of Public Safety will fully acquaint the people with the purposes and requirements of the law through the press and radio and by means of an official leaflet that may be obtained at any service station. Director Garrison pointed to the rapidly increasing number of traffic accidents and public indignation over the failure of vehicle owners and operators to pay for the damage they cause through negligence as the reasons that prompted the legislature to enact the law, which closely follows safety responsibility statutes in 34 other

states. He declared the law's primary objectives were to deny all motoring privileges to owners or operators who do not meet just damage claims resulting from accidents and to put chronic accident causers off of the highways permanently. In a carefully summarized explanation of the law's principal features, Director Garrison explained its operation as follows: The operator of every motor vehicle that is involved in an accident resulting in death or injury to a person, or property damage to any one person, exceeding \$100, must file with the Texas Department of Public Safety a new report in addition

to the regular accident report that is now required by the state's Uniform Traffic Law. The regular accident report must be filed within 24 hours, but motorists have up to 10 days to file the new report form. Both reports are mandatory regardless of who caused the accident. The law does not apply, except with respect to filing the new report form, to insured owners or operators, provided the insurance covers possible damage claims resulting from a traffic accident, up to \$15,000. Uninsured motorists will receive a notice from the Texas Department of Public Safety that they

must deposit sufficient security to cover the damage they caused as determined by the Department. This may range anywhere from \$101 to \$15,000, and the collateral may be in the form of cash or negotiable securities. The deposit must be made with the Department within a maximum of 60 days after the accident report was filed. An uninsured motorist will not be required to deposit security, however, if he files satisfactory evidence, within the 60-day period, that he has been released from liability, been finally adjudicated not to be liable, executed a duly acknowledged written agreement to pay damage claims up to \$15,000, or that his motor vehicle was legally parked or was being operated without his permission at the time of the accident. Should an uninsured motorist fail to meet any of these requirements within 60 days after filing his accident report, both his operator's license and registration of ownership will be suspended until he does or until a year has elapsed without court action for damages being filed. Suspension of registration will apply to all cars owned by the defaulting motorist.

num of 60 days after the accident report was filed. An uninsured motorist will not be required to deposit security, however, if he files satisfactory evidence, within the 60-day period, that he has been released from liability, been finally adjudicated not to be liable, executed a duly acknowledged written agreement to pay damage claims up to \$15,000, or that his motor vehicle was legally parked or was being operated without his permission at the time of the accident. Should an uninsured motorist fail to meet any of these requirements within 60 days after filing his accident report, both his operator's license and registration of ownership will be suspended until he does or until a year has elapsed without court action for damages being filed. Suspension of registration will apply to all cars owned by the defaulting motorist.

Texas farmers received \$1,993,263,000 in cash farm income last year, including \$806,100,000 from livestock and livestock products and \$1,187,163,000 from crops, says the survey, based on U. S. Department of Agriculture statistics. The farm magazine reports that the five other states in the billion dollar farm cash income bracket were: Iowa, with \$2,058,101,000; Illinois, \$1,720,080,000; Minnesota, \$1,164,558,000; Missouri, \$1,092,281,000; Kansas, \$1,000,790,000. Total 1950 U. S. cash farm income was \$27,920,746,000, comprising \$15,598,222,000 from livestock and \$12,322,524,000 from crops. Farm income for 1951 is likely to set an all-time high of \$35 billion, or \$7 billion above last year's level, the magazine estimates.

Texas Farm-Ranch Income Nears Two Billion Dollars

Texas was among six Mid-American states to make the "billion dollar farm income club" in 1950, according to a survey made public by Capper's Farmer.

It has a Way with Women

SOMETIMES we think that too little attention is given to the fair sex in automobile advertising. After all, it's the woman of the house who has to do most of the shopping, which involves getting into tight places at the curb. And it's surprising what tight spots a Buick can fit into at a turn of the wheel. It's the woman who likes complete freedom from things that it takes an engineer to operate—and a complete and utter freedom from mechanical complications is exactly what makes Dynaflow Drive* such a joy.

It's the woman who has an eye for style and fine fabrics—and a nose for economy. On both counts, a Buick is tops. But we suspect something else. We suspect that a woman gets just as great a lift as a man from commanding this great-powered and trigger-quick bundle of vitality to bow to her will. Here's a car to win any woman's heart—by its level-gaited stride—its willing response to her hand on the wheel—its smart

style and its smart performance—its spaciousness and comfort—and its thrift. How about taking time off, some afternoon, to boss around a Buick? It's a date that's bound to thrill you. —NO OTHER CAR PROVIDES ALL THIS—

Matador Home Demonstration Club Makes Achievement Tour To Inspect Projects

Achievement Day for the Matador Home Demonstration club was observed Thursday, Nov. 1st, in the form of a tour.
Projects completed and improvements started by members were inspected in visits during the afternoon following a luncheon in the home of the president, Mrs. A. W. Ford.
Mrs. Ford showed new drapes in both the living room and the dining room and pointed out the importance of the position of pictures and lamps in the rooms.
The group went next to see a newly covered platform rocker in the home of Mrs. Sterling Price. The club studied upholstery during the year.
After a brief business session held in the home of Mrs. Fred Simpson, the group went to the home of Mrs. G. E. Hamilton, who showed them through several recently decorated rooms. Mrs. Hamilton has created variety in bedrooms by the use of floral ceilings and the use of solid and floral walls in other bedrooms.
To view new trends in decorations, the ladies visited the new homes of Mr. and Mrs. Raby Webb and Mr. and Mrs. H. T. Jenkins. Mrs. Webb has cleverly used a mirror over a divan to reflect drawn drapes in her living room. An all-electric kitchen and modern designed furniture accent this home.
The color scheme in the Jenkins home attracts the eye of the visitor and shows the ability of Mrs. Jenkins to harmonize the entire home into one unit. A masculine boy's room and a dream room for a little girl are also highlights of this modern three-bedroom home.
At the home of Mr. and Mrs. Albert Rattan, the ladies were delighted to see many antique articles collected by Mrs. Rattan. The built-in features and the kitchen of this home are inspirations to the visitor.
Because of the increasing snow storm, the group disbanded after being served hot pecan rolls and coffee by Mrs. Rattan and Mrs. Jenkins.
Those making the tour were:

Mesdames C. P. Waybourn, Bill McCaghren, F. Z. Martin, A. W. Ford, Bernice Knight, A. K. Wilkinson, W. D. Lipscomb, G. E. Hamilton, W. L. McWilliams, Vance Gilbreath and Sterling Price; Mrs. C. L. Edgar of Cleburne, Miss Marie Rea, Home Demonstration agent, and little Mary Ann Damron.

RETURN HOME
Mr. and Mrs. W. T. Patton returned home Tuesday of last week from Wichita Falls, where they spent several days visiting their son and family, Mr. and Mrs. Houston Patton. Houston accompanied them here and returned to his home Wednesday.

MRS. HINES IMPROVING
Relatives here have been advised that Mrs. Howe Hines of Dougherty, formerly of Matador who is a patient in the Plains Clinic-Hospital, Lubbock, is doing fine.

Dear Fanny: What do you say we cancel our dates for Friday night, November 30, and go to the "Lions Revue"? We will have more fun. Durabelle.

MRS. REEVES SURPRISED WITH BIRTHDAY DINNER
Mrs. W. E. Reeves was taken by surprise Sunday when her family gathered at her home with a birthday cake to celebrate her 79th birthday. The dinner actually celebrated the birthdays of three members of the family: Mrs. Reeves, on the 5th, her grandson, Donald Reeves, on the 7th, and a son-in-law, Robert Shilling of Dallas, which will be the 30th.
Present for the occasion were Mr. and Mrs. Roy Reeves and daughters, Patricia, Mr. and Mrs. Robert Shilling and Donald Reeves, all of Dallas; Mr. and Mrs. Elbert Reeves and Pat, and Miss Verlin Reeves of Matador. Mrs. Reeves has one other son, Dr. Robert Reeves of the Duke University Hospital staff, Durham, N. C.

MOVE TO CARLSBAD
Mr. and Mrs. E. J. Hines of Flomot, left Saturday for Carlsbad, N. M. to make their future home.

Mrs. Claude Harp visited at Abilene during the week-end with her mother.

NEW BARBER HERE
V. D. Miller, formerly of arkana, has accepted a permanent place as barber in the barber shop. Mr. Miller, has had 35 years experience in the barber trade, is accompanied by his wife and daughter, who will make Matador their home.

Dear Uncle Willie: We bottle it Friday night, November 30th. That is the date of "Lions Revue". Your nephew, Glonose.

You—and the SCRAP METAL EMERGENCY

ANSWERS every farmer should have to questions about scrap iron and steel

- Q. Why is iron and steel scrap a matter of importance to farmers?**
A. Steel for our Country's defense program and civilian economy is being produced at the highest cost rate ever... and this will be greatly increased in 1952. Farm machinery and equipment needs must come from this over-all supply. As steel production increases the need for scrap increases.
- Q. How does scrap figure in the production of steel?**
A. One pound of scrap is needed to make two pounds of steel.
- Q. Is scrap getting scarce?**
A. Yes, the supply of scrap at the steel mills and foundries is not increasing fast enough to meet the needs of expanding steel production. Yet, there are millions of tons of idle iron and steel scrap, in small amounts, on farms throughout the country.
- Q. What if the needed scrap isn't obtained?**
A. That will mean a serious loss of steel production... fewer products will be made of steel. It will mean more shortages of civilian products. Defense needs come first.
- Q. Why not use pig iron instead of scrap?**
A. Every ton of scrap conserves approximately 2 tons of iron ore, 1 ton of coal, nearly 1/2 ton of limestone and many other vital natural resources—to say nothing of transportation facilities. Besides, there are not enough blast furnaces to produce the iron needed to maintain production.
- Q. How can more scrap be furnished?**
A. By everybody pitching in—as we always do in every emergency—and searching out all possible sources of scrap. Manufacturers of all kinds of products are conducting scrap drives. Old ships are being salvaged... scrap is being obtained from countless sources including farms.
- Q. What else can I do about farm scrap?**
A. Support the scrap drive organized in your locality. Work with your local Scrap Mobilization Committee in getting the scrap started back to the steel mills and foundries through the local scrap dealer.
- Q. What should be done with farm scrap?**
A. See that every bit of scrap gets to the scrap dealer located nearest to you. He will break it up into sizes used by the steel mills and foundries. He'll classify the metals then ship the scrap in carload lots. If you do not know the name of your local scrap dealer, consult your local implement dealer for this information.
- Q. What is farm scrap?**
A. It is any worn out, obsolete, unrepairable equipment, tools or other objects made of metal. It may be resting and rusting in fence corners, in the fields, the barnyard or the tool shed.

You'll be helping your country—and yourself!

A miniature colonial woman atop the three-tiered birthday cake, complimented other decorations for the occasion, which included a large arrangement of mums and other fall flowers in colors of gold and orchid, for the centerpiece of the lace-covered dining table.

At one end of the table was the cake, which was also decorated with grapes, and at the other end was a crystal punch bowl, at which Mrs. Lizzie Archer of Lubbock, presided.
