Parking Regulations

If any parking regulations are to be made for Big Spring it might be wise to plan to make them now, while times are what might be termed quiet as compared with other seasons of the year.

By adopting a time limit on parking now we might be able to educate the home folks as to its observance before the busy season sets in.

Most every other growing city has adopted parking regulations and it is proper that they do this. It is hardly fair to permit automobile owners to have the privilege of using our streets for parking their automobiles for a day, a week or as long as they please. The streets are for the use of all and not to be used by a privileged few as a free parking space.

Designate Which Mills Cottonseed Will Be Shipped

A meeting was held in Big Spring Monday afternoon at the instance of State Entomologist R. E. McDonald of Austin at which time representatives of the cotton growers of the quarantined zone in West Texas and representatives of the cotton seed crushers, met in conference. The following attended:

J. B. Wilkerson of Midland, H. Hamilton of Stanton and L. E. Lomax of Morilo representing the district west of here; B. Reagan of Big Spring; W. W. Lacy of Coahoma and A. B. Brown of Ackerly, representing Howard county; and L. F. Keisling, representing Dawson county. The cottonseed oil mills were represented by Mr. Gular of Colorado representing Gular interests; Mr. Malone of Sweetwater, representing the Simmons interests and Mr. Jones of Abilene representing the Clayton Anderson interests. Mr. Bonds of the U. S. Horticultural Board was also in attendance.

The purpose of this meeting was to designate the points where cottonseed from the quarantined zone might be shipped this fall.

After due deliberation the committee recommended that seed from this area be shipped to Colorado, Sweetwater or Abilene. From Dawson County it is to be shipped to Lubbock and Slaton.

It was suggested that a committee be appointed to recommend the one or ones who are to establish a fumigation plant in this area and to agree on a price per bale to be charged for fumigation. Several applications for such plant had been received by Mr. McDonald.

The following were appointed on this committee: B. Reagan, chairman, R. E. Lomax and A. B. Brown.

A number of ginners were in attendance at the meeting but only the oil mill designations and fumigation plant matter came up for consideration.

"The Greatest TIRE in the World"

Not long after Goodyear announced this new tire—it became generally known as "The World's Greatest Tire."

This new tire has an All-Weather Tread specially designed for balloon tires. It does away with all existing ideas of how long a balloon tire should wear, it gives better traction, more non-skid.

Now—we know something about tires. We tested this one, looked it over, cut one up, tried it for everything we could think of. We watched it for months.

Take our word, it is the world's greatest tire. We have your size. It costs no more than ordinary tires. Come in and see it. More people ride on Goodyear Tires than on any other brand.

To Increase Speed Icing Cars Here

Re-icing carload shipments of California cantaloupes, vegetables fruit, etc., is being handled here by the Southern Ice and Utilities Co. in a most efficient manner. They have a trained crew ready day or night to re-ice the cars so the shipments can be handled with the least possible delay by the Texas and Pacific railway. From June 1 to 11 the record showed it required about one and one quarter minutes to re-ice a car; but that record is now being lowered. The rail road and the factory are cooperating to improve this service every way possible. It is planned to enlarge or lengthen the re-icing docks so a train of seventy cars can be handled without it being necessary to spot any cars. This improvement will probably be completed in time to take care of next year's business.

Houston Negro Pulled From A Hospital By Mob And Is Lynched

Moody Offers Reward and Sends Rangers to Investigate Crime at Houston

Houston June 29 (AP).—Robert Powell, 24, negro, was abducted from the Jefferson Davis Hospital here early today by an unmasked band of eight men and was found hanging from a bridge eight miles from Houston on the Westheimer road this morning.

The body was found by City Detectives John Cambill and Ira Nix. A rope tied in hangman's noose was about his neck. Officers said the negro had apparently been knocked from the bridge by the butt of a pistol.

Word was received here that Governor Moody had ordered three Rangers to come to Houston to investigate the lynching.

Powell had been charged with slaying City Detective A. W. Davis killed Sunday in a gun battle following efforts to disperse a crowd of negroes. Powell with a bullet wound in his stomach was arrested later and taken to the hospital.

The Harris County grand jury was told by Judge Langston to drop other investigations and study the lynching.

Ranger Captain Eamer arrived

at noon to lead the investigation. At a regular meeting of the city council, an ordinance was passed authorizing the mayor to appoint a committee of four white men and two negroes to investigate the lynching and \$10,000 was appropriated for the expenses.

Governor Moody today offered a reward of \$250 for the conviction of each person connected with the lynching of the negro at Houston today.

Scouts Attend Midland Meet Yesterday

With representatives of every troop present, 25 of the Big Spring Boy Scouts went to Midland Tuesday and attended the district swimming meet in that city.

The twenty-five scouts with Walton Morrison and Rev. R. L. Owen in charge, left Big Spring early Tuesday morning in cars for Midland.

A total of sixty scouts were present for the meet, with nearly half of this number from Big Spring. The scouts were the guests of the management of the Pagoda swimming pool. They were served Eskimo Pies by the Midland Chamber of Commerce.

The program consisted largely of swimming instruction and demonstrations. During the instruction period six scouts were taught how to swim. Instructions in diving were also given to the Scouts who could already swim.

Local Scout officials, according to Rev. Owen, plan to have a council swimming meet here in the near future, probably in August.

Remus Gets His Freedom

Columbus, O., June 29 (AP).—George Remus, Cincinnati bootlegger, who killed his wife, Imogene, last October won his fight for freedom today when the State Supreme Court, by a four to three vote, affirmed the decision of the Court of Appeals ordering Remus released from the state hospital for the criminal insane, to which he had been committed after his acquittal on first degree murder charges, on ground of insanity.

RAINS DAMAGE CROPS IN MID-WEST

Chicago Tribune says:

Apprehension of a wet harvest in the southwest is increasing as a result of persistent rains in Kansas and Oklahoma and the forecast was for showers and local thunderstorms over night. Damage is claimed in parts of Kansas by rain and hail, and harvest is delayed to some extent. There was also more bullish foreign news, with Russia, unlikely to be an exporter this season, and unfavorable weather conditions prevailed over northern Europe, where the crops are about two weeks late, according to a department of Commerce report.

The trade in corn had an impression that a leading long was going out of his line in July. Weather conditions were favorable for the new crop.

NASH presents

New and Finer Motor Cars

New Twin Ignition Motor

New Salon Bodies

"The three new Nash Series, which are being introduced everywhere today, achieve the ambition of my manufacturing career.

"They represent an entirely new type of motor car, priced moderately, but offering you all the beauty and quality and performance heretofore exclusive to very expensive automobiles.

"To create such a car we had to develop an entirely new type of design and invest over \$2,500,000 in dies and machinery alone.

"Both the Salon bodies and the high compression motors which power these new models exemplify the most radically modern advancement in body craftsmanship and engineering.

"Naturally space precludes the full listing of all features but I do want to draw your attention to a number of the outstanding attractions such as:—

"—Twin ignition, high compression, Bohnalite aluminum alloy pistons

with Invar-struts, 7-bearing crankshaft with hollowed crankpins, Bijur centralized chassis lubrication, Houdaille and Lovejoy shock absorbers, Biflex-Nash bumpers and bumperettes, chrome plating over nickel for all exterior metal ware, double-drop frame, one-piece Salon fenders and longer wheelbase lengths.

"This new-type engineering of the '400' motors makes them by far the best performing cars I have ever built.

"I don't think anyone will ever want to use all the speed and power they deliver.

"Equipment is absolutely complete at the factory list price and you need buy no extras except a spare tire.

"If my judgment is worth anything you will find it well worth while today to examine this new automobile development with the greatest care."

Com. Refuses Sun Company Permit

We understand the State Railway Commission refused to give the Sun Oil Company permission to drill their well on section 135, blk. 29, W. and N. W. survey to the 2,800 foot line. They decided it was too good a producer at 2500 feet to be given for a deep test and advised the company to drill another well to the line.

Potash Found In Laurel Test

Encountering what may be developed into as much benefit to the county as the oil field, drillers of the Laurel Oil Co. drilling on the C. D. Read ranch six miles north of Coahoma is reported to have struck a good strata of potash.

The showing is said to have been around the 960 foot depth and the drillers believe that the formation encountered so far is much superior to the potash showing in Reagan County. If this is true it is pointed out, and the strata runs for any distance, it will prove of great value to the county if properly developed.

Samples of the potash have been sent to laboratories for analysis and if it proves to be of any paying quality may mean a new industry for Howard County.

The test is on section 12 block 31, township 1 North.

The government is making plans now for a survey of several West Texas counties to determine the value of the potash deposits. Where these deposits have been found in a paying quantity it has been the means of enhancing the land owners thousands of dollars.

Big Spring Man Gets Compliments

Shine Phillips is receiving many messages of congratulation on his address delivered before the Texas Pharmaceutical Association at Abilene last week.

Aside from the verbal expressions of approval at the time the address was made he has received a number of messages commending him on the contents of the address stating that it was one of the most practical ever made before the meeting. Many of them have commended him on the ideas he brought out in the address.

The meeting at Abilene was one of the largest in attendance and the largest in the number present for the business session of any in the history of the organization.

PENROSE B. METCALFE WANTS BE REPRESENTATIVE

We are authorized to announce Penrose B. Metcalfe as a candidate for Representative of the 91st District of Texas. He announces subject to the action of the Democratic primary July 28th and his name will appear in the announcement column of the Herald. He is offering as a candidate at the request of citizens and friends.

Mr. Metcalfe is a resident of San Angelo and is known to the majority of the voters of the district as he made the race for representative four years ago. He has been most successful in the livestock raising and farming game, is vitally interested in the progress of West Texas, and would make a representative who would fairly and efficiently represent this district.

Here are a few of the things he advocates:

Enactment of a law empowering counties to tax University land.

Favors the sale of University land in West Texas.

Believes in the conservation of flood waters.

Prompt construction of permanent roads all over Texas.

Fulllest home rule charter powers for cities and reasonable taxation.

Favors better enforcement of all laws, all reasonable laws giving all people who labor equal opportunity and protection.

Favors the elimination of useless jobs and all other waste in state government and reduction of taxes to the lowest point consistent with public interest.

40 Years Make Things Different

Mr. and Mrs. Roy Gronski enroute from California to Sherman, Texas, to visit Mrs. Gronski's sister, stopped over in Big Spring a few hours Tuesday morning to visit Mr. and Mrs. Wm. Fisher. Mr. Gronski lived in Big Spring away back in the 80's, at which time his father, Ike Gronski, was engaged in the sheep raising in this section. This is his first visit since he left here a little fellow forty years ago and Mr. and Mrs. Fisher were the only old timers he remembered. Not a single landmark of the Big Spring he knew remains.

He was indeed surprised to find Big Spring such a live and bustling little city.

Joe Plock, manager of the Inn, specializes in barbecued chicken. However, this is only one of the many delicious dishes served at the Inn.

A special Sunday dinner and music at all times featured the opening ceremonies.

JOHN WILLIAMS FOR CONSTABLE PRECINCT 1

We are authorized to announce John Williams as a candidate for the office of Constable Precinct 1 of Howard county. He announces subject to the action of the Democratic Primary July 28th and his name appears in the announcement column of the Herald.

Mr. Williams has been a resident of Howard county for many years and has the respect and esteem of all who know him. He is competent and qualified to serve our citizens and that is his reason for seeking this office. If elected he promises to enforce the law with fairness and impartiality, but he is going to do his full duty, while serving as a peace officer.

Mr. Williams is going to endeavor to meet all the voters possible and solicit their influence and support.

The voters of Precinct one are requested to remember his candidacy when casting a ballot for the office of constable in the July primary.

Housewarming and Reception At Community Clubhouse This

Plans for the housewarming and reception announcing the formal opening of the community clubhouse are being completed and every indication points toward a delightful affair, at which time everyone will be given an opportunity to inspect the beautiful structure in which we all had a part in building.

Tuesday June 26th, has been the date set for the Reception and Open House and beginning at 8 o'clock in the evening each and everyone is extended a most cordial invitation to visit the community clubhouse, and place his stamp of approval. You are sure to be delighted with the beautiful new building that is sure to prove its usefulness in many ways to the women of the community.

The officers and members of the Federation are anxious for everyone to see the new clubhouse. In spite of the fact that it will not be furnished in its completeness for the formal opening it will be attractively decorated and provide a lovely setting in which the guests will be received.

Especially are the officers and members of the Federation anxious to have with them on this occasion, Judge H. R. Debenport and members of the Commissioners' Court, who were so kind to let them have the ground on which the clubhouse was built, also all of the men, who went on the women's note to borrow the money for the clubhouse, are especially urged to attend the opening.

Keep the date in mind and make your plans to attend.

Miss Fannie Sue Read Entertains Bridge Club at Ranch Home

A very lovely party for members of the younger social set, was given by Miss Fannie Sue Read at her lovely ranch home, thirty miles southeast of Big Spring, yesterday afternoon. The delightful drive to and from the pretty home was one of the features of the afternoon's enjoyment.

The rooms of the home were enhanced with the beauty and fragrance of cut flowers, and provided a lovely setting, wherein tables were arranged for the bridge play. Dainty markers, tallies and score pads were found on each table.

The young ladies found much pleasure in this interesting game, and at counting time when scores were compared it was found that Misses Janice Mellinger and Marie Vick had tied for high score.

Dainty luncheon covers spread the tables at the refreshment hour, and a delectable two course luncheon consisting of: Fruit salad, sandwiches, olives, potato chips, iced tea, ice cream and cake was served in a dainty way to: Misses Rita and Vera Debenport, Theodora McDonald, Marie Vick, Janice Mellinger, Emma Louise Freeman, and Anna Pauline Jacobs.

Vacation Bible School Members Will Enjoy Picnic Today

The teachers, pupils and invited guests of those interested in the Vacation Bible school, in session at the Presbyterian Church the past ten days, will enjoy a picnic at the new wells south of the city this afternoon. The crowd will enjoy out-of-door games in the cool hours of the evening, after which a tempting picnic supper will be served.

The Vacation Bible school will come to a close tomorrow, Friday, June 22. A fine program will bring the Bible school to close, to be given in the First Presbyterian Church tomorrow evening at 8 o'clock. At this time certificates of award will be given the students for the work done during this Bible school.

Total enrollment at the Bible school has reached 119, that number being present this morning.

The complete program for the closing exercises will be given in tomorrow's paper.

Crowd of Boys and Girls Picnic at New Wells

A crowd of young ladies and gentlemen enjoyed a delightful outing at the new wells yesterday evening. Outdoor games was the popular diversion until a late hour and then a picnic supper consisting of sandwiches, potato chips, olives and cookies was enjoyed.

Those attending the picnic were: Misses Hazel Sellers, Anita Musgrove, Maurine Leatherwood, Mildred Patterson, Frances Crawford, Lillian Wright, and Roy Cornelson, Roland Schwarzenbach, Eddy Maxwell, Marvin Frost, Vernon Crawford, George Gentry and Joe Popjoy.

Dems' Keynoter, To Be Heard By Millions, Is New National Figure

Claude G. Bowers

By NEA Service. New York June 19.—You can take a true Hoosier far from his native state, bury him in the anonymity of newspaper editorial writing and turn him into a scholar, a retiring historian; but sooner or later he will turn back to the only pursuit he will cherish over any other—politics.

That's what happened in the case of Claude G. Bowers, anyway. Bowers, born and bred in Indiana, moved to New York five years ago to become an editorial writer for the New York Evening World. In his spare time he studied and wrote history. But last winter he plopped back into politics so zestfully that he was at once chosen to deliver the keynote speech at the coming Democratic convention in Houston, Texas.

It all happened because Bowers was invited to address last January's Jackson Day dinner in Washington. This is a traditional love feast of the Democrats, marked in recent years by a notable absence of love. Bowers had written absorbing biographies of such Democratic heroes as Andrew Jackson and Thomas Jefferson, and through his happy inspiration the committee asked him to speak.

Electrified Party Bowers did. He urged his hearers to make Jackson and Jefferson something more than mere patron saints of the party, contrasted conditions in their era with conditions today and, before he had finished, aroused the Democratic chieftains to real enthusiasm. A man who could do that seemed worth keeping; so Bowers, by general consent, was chosen to do the keynoting at Houston.

To most of the country, thus far, he has been just a name. When his election as keynoter was announced, the rank and file of the Democracy murmured, "And who the dickens is he?" After he delivered his speech at Houston, however, it is a safe bet that he will be a national figure.

Bowers was born in Hamilton County, Indiana, in November of 1878. As a young man he entered newspaper work, serving his apprenticeship on the old Indianapolis Sentinel. This, it might be noted, was while he was still in high school; and before his graduation he had given promise of his future ability as a speaker by winning a state medal for oratory.

SHORT MEASURE GASOLINE

By V. A. Stovall

"Believe nothing you hear and only half you see," is common advice often heard. Who would think such advice should apply to the purchase of gasoline? According to records in the Division of Weights and Measures of the Department of Agriculture relating to a recent survey conducted to determine if the purchasers of gasoline are receiving correct measure, it would indicate you can't always believe what you see.

This record is the result of equipping a car with a blind tank and making purchases of gasoline in the ordinary manner without the operator of the filling station knowing that it was a test. The following is the result of a few individual five gallon purchases:

- No. 1 1.2 gallons short, Fort Worth.
- No. 2 1 gallon short, Dallas.
- No. 3 1-2 gallon short, Austin.
- No. 4 1 gallon short, Waco.
- No. 5 1 1-8 gallons short, Houston.
- No. 6 1 1-16 gallons short, Galveston.
- No. 7 2 gallons short, Galveston.
- No. 8 1 3-4 gallons short, Galveston.

These shortages were due to the fraudulent manipulation of the pump so as to divert the flow of the gasoline to the underground storage tank at the same time the car was served, according to Mr. V. A. Stovall, Director of Weights and Measures. While it is true, stated Mr. Stovall that this act of diverting the gasoline can be accomplished on nine different types of pumps now in use in Texas, it is equally true that there are pumps in use in Texas which cannot be manipulated to divert the flow of gasoline and are as accurate as any pump made. It was explained that there is no law to compel the owner of a pump which may be manipulated to commit fraud, to discontinue its use. If such a pump shows to be correct on a test it must be sealed as correct under our present statute, yet in fifteen minutes after it is sealed as correct a purchaser may be shorted out of half of his purchase by the simple operation of opening a valve thus permitting part of the gasoline to return to the storage tank.

In the survey which resulted in receiving the above large shortages 274 stations were visited and five gallons of gasoline purchased at each station.

The following is a summary of the results obtained:

- Number of purchases made, 374
- Number of purchases short measure, 304.
- Number of purchases over measure 50.
- Number of purchases correct measure 20.
- The average net shortage, 2.91 percent.

This shortage was not made by accident, but was made by design and purpose.

deground storage tank at the same time the car is served is not the only cause for short measure, reported Mr. Stovall. There are many other causes, he stated such as using a wet hose on a dry hose pump; falling to have the bowl full 1 c. up to the zero mark when delivery begins; stopping before the level of the gasoline reaches the graduation mark, which would complete the delivery; unlevel pumps; parallax, i. e., errors due to looking at a graduation from an angle; the practice of not draining the hose; falling to operate the pump as intended, i. e., in a positive stop pump if the positive stop mechanism is not operated as intended by the manufacturer a customer may be shorted as much as one-half gallon on a five gallon purchase; leaky valves, etc.

Executive Committee Meets Monday; Sets Fees; Names Judges

Positions on Ticket Will Be Drawn By Sub-Committee on Second Monday in July

A meeting of the County Democratic Executive Committee was held at the court house yesterday to plan for holding the Democratic Primary July 28 and also the run off primary which is most certain to be necessary.

The cost of holding the primaries was estimated and the cost apportioned among the candidates. All candidates must pay this assessment on or before the fourth Monday in June if they wish to have their names printed on the ballot. This means they must pay by June 25th. A sub-committee was appointed to meet the second Monday in July to draw candidates for place and make up the ballot for the primary. Only one additional name was to be added to the list of county and district candidates as printed in Sunday's Herald. The name of John Williams as a candidate for Constable Precinct 1 was filed Saturday afternoon.

The following were appointed as Election Judges to hold the Primary Election in their respective precincts:

- Prec. 1, F. C. Leatherwood.
- Prec. 2, L. S. Patterson.
- Prec. 3, S. A. Hathcock.
- Prec. 4, W. D. Coffee.
- Prec. 5, (Vincent) G. S. Plant.
- Prec. 6, Gay Hill, Akin Simpson.
- Prec. 7, R. Bar, J. A. Bishop.
- Prec. 8, Auto, Sam Little.
- Prec. 9, Coahoma, A. C. Bass.
- Prec. 11, Center Point, W. S. Saterwhite.
- Prec. 12, Moore, A. K. Merrick.
- Prec. 13, Knott, Ben Sample.
- Prec. 14, Morris, T. W. Brannon.
- Prec. 15, Soash, Reese Adams.

Soap Box Orator Says Pope Rules All Newspapers

It is reported to the Herald that a man holding forth here Sunday afternoon says all the papers in the United States are owned or controlled by the Pope, and intimated that the Herald is in the same boat. We always imagined we owned the Herald but perhaps not. Of course this fellow knows, but we wish by-gone the Pope would happen along about tax paying time and every Saturday when we have to shell out wages.—Terry County Herald.

We heard that same charge made in Tahoka once by a speaker who ought to have known better—a man who holds a high position and wields much influence in the politics of this state. We have heard similar statements made at other times and places. It is all pure bunk. Of course it is possible that a newspaper here and there may be owned or controlled by Catholics. Possibly many of them are so owned and controlled in the cities of the North and East, for there are many Catholics there. But that the Pope of Rome undertakes to direct or control the politics of these secular newspapers in this country which happens to be owned by Catholics even, is absolute nonsense. The country weekly in particular is independent. In ninety nine cases out of a hundred, the editorial and news columns of the country weekly are controlled absolutely by the editor and owner. The Pope of Rome has about as much to do with the policy of the American Press as a donkey in the desert of Gobi has to do with the operations of the American navy.—Lynn County News.

BIG SPRING OIL FIELD A WINNER

Oil men say Big Spring can afford to be patient regarding oil development since we have what appears to be one of the largest and most dependable oil fields in Texas. It will not be necessary to drill out the Big Spring field in a hurry as no water encroachment threatens. The field, too, has all the earmarks of being a field which will be producing oil long after most of us have gone to treading on golden streets.

If development holds off until the price of crude oil advances we will be just that much better off.

Viaduct Awaits T. & P. Sanction

"We have our advertisement ready to publish and specifications drawn for the viaduct," Judge H. R. Debenport said, when asked how the plans for the viaduct were progressing, "and are just waiting on the engineering department of the T. & P. to make their report."

It is quite probable that bids for the construction of the viaduct across the railway tracks will be called for thru advertisements within the next few days and it will be possible to award the contract during the early part of July.

The Texas and Pacific Railway Co. has agreed to pay fifty per cent of the cost of the viaduct; the county is to pay thirty-five per cent and the city is to pay 15 per cent. The cost of the viaduct will be in the neighborhood of \$130,000.

Uses Airplane For Getting to Scene Of P. O. Robbery

Joe Listman, U. S. postal inspector located at Abilene did not lose any time when notified that the post office at Luther had been robbed Sunday night. He chartered an airship and landed in Big Spring early this morning.

All the money in the postoffice was taken according to report. Nothing seemed to be missing from the store of Mr. Lawrence. The postoffice is located in this store.

POWERFUL STUFF

A federal prohibition agent, who formerly worked in Harlem, the largest negro community in the world, told this one:

Two negro moonshiners were discussing merits and strength of their products.

"Ah makes mah licker strong," declared one, "so dat when yo drinks it, yo can smell dah corn-field wha' de corn was growin'."

"Humph! nigger, dat ain't nothin'," was the contemptuous retort. "Ah spilled a few drops of mah licker on mah wife's pansy pot, an' dem pansies turned to tiger lilies."

Jess Amsett is here today from his home in Midland.

COMES DOWN WHEN FUEL GIVES OUT

Safe Landing Made By Pilot as Bay Close to Shore When Gasoline is Exhausted

Wins Over Rival Plane

Miss Boll in Columbia Had Hopes of Being First Woman to Fly The Atlantic

London June 18 (AP)—The trans Atlantic monoplane Friendship carrying first woman to ever span the Atlantic by air, landed at Burryport, Wales, this afternoon, nearly twenty-one hours after taking off from Trepansey, Newfoundland.

The plane landed at Burry Inlet because of shortage of fuel. Wilmer Stultz brought the ship down without difficulty close to the shore, Miss Amelia Earhart, Boston Social worker and co-pilot of the plane, came ashore with her companions in a motor boat.

The crew of the Friendship which includes Louis Gordon, mechanic, was in the best of spirits and looked none the worse for their flight across almost 2,000 miles of water.

Preparations are being made to fly the Friendship to Bristol as soon as possible.

Harbor Grace June 18 (AP)—The monoplane Columbia stood idle here today the plans of its crew unsettled as word was received of the safe arrival of its rival Friendship on the other side of the Atlantic. Miss Boll, its passenger, had hoped to be the first woman to fly the Atlantic.

Shine Philips Returns From Druggist Meet

Big Spring Citizen Presides at One of the Largest Meetings of The Texas Druggists

From the standpoint of interest, attendance and entertainment the meeting of the Texas Pharmaceutical Association at Abilene was one of the best in the history of the organization," Shine Philips said, after he and Mrs. Philips returned last night from the meeting.

"Abilene was an ideal host," he said, "and as an illustration of their methods, they gave the big barbecue and twenty four of the most prominent men of the city, several of them millionaires, acted as waiters and saw that every want of the guests was fulfilled. It is this spirit of cooperation and willingness to help that is building Abilene. Another example of their hospitality was the liberal use of cars citizens of the town offered the visitors."

Knox Pittard of Anson was elected president of the organization, succeeding Shine Philips. Henry F. Hein of San Antonio was made first vice president.

Sam P. Harben of Richardson and Walter H. Whisenant of San Antonio were re-elected to the executive committee. Both are past presidents.

News members of the board of trustees are Harvey L. Hays, president of the Abilene Retail Druggists' Association; E. B. Oliver of Longview and R. H. Walker of Gonzales. Mr. Oliver was elected to fill the vacancy formed by selection of Mr. Ray as second vice-president.

Walter D. Adams of Forney was re-elected secretary treasurer.

Dr. C. A. Duncan dean of the Baylor University College of Pharmacy at Dallas was re-elected historian.

W. J. (Daddy) Graham of Austin was again named home secretary. Mr. Graham who has attended the conventions for 45 years, installed the new officers. It is a duty that falls to him each year.

Fort Worth, Waco, El Paso, Galveston and Beaumont have asked for the 1929 Golden Anniversary convention. Fort Worth was represented by Marvin C. Anderson and Dr. Danforth at the closing session. They made short speeches.

Selection of the next meeting place will be at a meeting of the executive committee to be held in October.

Weekly Papers Are Boosters

The ordinary weekly newspaper is usually the biggest booster in the town. It gives publicity weekly or at frequent intervals to the work of the various clubs and organizations of the town. It constantly calls attention to the good things in the town and about the town not only as a matter of pride but also in order to help sell the town to the rest of the world. It sometimes calls attention to the bad things and the defects with the sole view of them remedied. It does all this publicity work free of charge. It does not receive a cent for thus advertising and boosting the town. But if, by accident or oversight it fails to call attention to some worthy undertaking, if it fails to give publicity to some stunt that is about to be pulled, woe unto the newspaper guilty of such an offense. It gets skinned up one side and down the other for such omission, and all it can do is to grin and endure it.—Lynn County News.

Officers Do Best On Support Given

Sometimes our citizens are inclined to criticize our officers because so much drinking is in evidence in our city but if they will visit other towns in the oil field area, or in most other sections of Texas, you will be compelled to admit that law enforcement is more in evidence in Big Spring than in ninety per cent of the places. Examine our jail register and you will find the docket pretty well filled with charges of drunkenness, possession of beer, bootlegging, etc. With so many taking a chance on making and selling homebrew the officers have their hands full and then some in catching these birds. They are doing wonderfully well considering the small amount of cooperation they are being given by the citizens in general.

Representing El Paso Stop Here

The El Paso delegation to the West Texas Chamber of Commerce at El Paso headed by C. J. Johnson, T. and P. Passenger agent, were visitors in Big Spring Sunday night.

They had special Pullmans on T. and P. passenger train No. 6.

A fifty piece band of Mexican boys was being taken to Ft Worth and they marched up to the Crawford Hotel to serenade Big Spring with some snappy musical selections.

El Paso wants to entertain the West Texas Chamber of Commerce in 1929 and this live bunch of El Paso citizens are going to make a great fight for this honor.

Commissioners Complete Their Work as Equalization Board and Find Values Increased

The members of the Commissioners' Court completed their work as a board of equalization last week. The taxable values of property in Howard County will approximate \$7,500,000 for 1928 this being an increase of about \$1,000,000 over the 1927 valuations.

The biggest increase is expected in 1929 since the big wells in the oil field southeast of Big Spring have all come in since the first of the year, and will cause large increase in the value of land where the wells are located as well as the adjoining leases.

Mad Dog Bites Three Children

W. Anthony, druggist at Ross City, sent three of his children to Austin to take treatment at the Pasteur Institute following the bite of a dog, which is reported to have been made.

The dog bit several people Sunday at Ross City. It is reported and after it was killed the head was examined by veterinary doctor, who found traces of what was thought to have been rabies.

Others who left Monday for Austin included Mr. and Mrs. Nickson, Mr. Chichols, "Smoky" Harris and six others.

Plans to Start A Poultry Farm

J. F. Thixton is starting the foundation for a poultry farm at his place in the Cole and Strayhorn Addition. He has 600 brown Leghorn pullets and a few Barred Rocks and expects to have about 1000 laying hens this fall and winter. Raising poultry is no new game for Mr. and Mrs. Thixton as they made poultry and dairy cows work for them all during the time they lived on the farm.

Frazier's car turned over twice after colliding with a car driven by Harvey Thurman of Cisco.

Al Smith Gets Support From Gov. Maryland

Baltimore June 19 (AP)—The forces working for the nomination of Governor Al Smith of New York at the Democratic National Convention were given impetus today with the withdrawal of Governor Ritchie of Maryland, as a candidate. In a statement issued late yesterday the Maryland Governor threw his support to Smith with the declaration that the New York Governor had the best chance to be elected.

Editor Surprised At City's Growth

Mr. and Mrs. J. W. Clements of Stephenville are visitors in the city today. Mr. Clements is editor and proprietor of the Stephenville Tribune, one of the best weekly publications in Texas. This is Mr. Clements' first visit to Big Spring in eighteen years and he just can't convince himself that this is the same place, so great has been the change. He was here then to purchase the printing machinery formerly used by the Big Spring Enterprise, and since he considered the town absolutely too small to support one printing plant properly he decided to move the plant he purchased to a more prosperous looking place. He said Big Spring was a mighty husky looking place, and in his estimation was due to become a city of 20,000 or 25,000 in a very few years.
